Agricultural:
Alaska 4237
Hawaii, 1960 3154, 4237
National, 1960 3154
Puerto Rico 4237
Virgin Islands 4237
Great Plains; counties within Kansas and South Dakota 3428
Soil bank, conservation reserve; 1956 through 1959 5444
CORN:
Loan and purchase agreement program, 1960 5563
Reseal loan programs:
1956, re-extension 4710
1957, re-extension 4710
1958, extension 3613, 4710
1959 4856
COTTON:
Export program, 1960–61 marketing year 3309, 3544, 3835
Improvement program 3548
Loan program, 1960:
Regulations, upland and extra long staple cotton 5864
Schedule of base loan rates, upland cotton, Choice B 5901

60000—60——1

Agriculture Department—Continued Page

COTTON—Continued
- Marketing quotas, farm acreage allotments, etc.:
  - Extra long staple cotton; 1960 and succeeding crops 3529, 6004
  - Upland cotton; 1960 and succeeding crops 3529, 5143, 6014
- Price support program; choice (A) cotton, 1960 4975, 5431, 5689, 5872
- Standards:
  - Cotton and cotton linters, classers licensing program, abolishment 4982
  - Cotton classing regulations; grade, and wasty staple 4867, 5872
  - Cotton futures legislation, cotton classification 4867, 5872
  - Staple lengths, original representations 5873
- Storage in licensed warehouses 4141, 4144

CRANBERRY payment program AMM 181a 4071, 5567, 5689

CUCUMBERS:
- Import restrictions 3315, 3812, 5078
- Marketing, Florida 3315, 3804, 5078

DATES; purchase program AMP 29a 4889

DISASTER AREAS; need for agricultural credit:
- Arkansas 4840
- Idaho 5351
- Illinois 3485
- Kansas 4889
- Louisiana 3428
- Missouri 4397
- North Dakota 3011
- South Dakota 3428

EGGS AND EGG PRODUCTS; grading and inspection:
- Egg products 3528, 4728
- Shell eggs 3652, 5320

EXPORTS:
- Cotton products 3309, 3544, 3835
- Overtime services, commuted travel time allowances, plants and plant products 3749, 4450
- Rice; payment in kind (GR–369) 3835

FARMERS HOME ADMINISTRATION. *See main heading* Farmers Home Administration.

FARMS, farm allotments, farm history and soil bank base acreages, reconstitution of 2880, 4120, 5445

FEDERAL CROP INSURANCE CORPORATION. *See main heading* Federal Crop Insurance Corporation.

FEDERAL SEED ACT regulations; proposed rules and hearing 4507

FLAXSEED:
- Loan and purchase agreement program, 1960 4632
- Purchase program, 1960, Texas flaxseed 3308
- Storage in warehouses; unit price for net assets and bond purposes 4567

FOODS, canned, storage in licensed warehouses 4144, 4145

FRUITS for salad, canned; standards 4949

FUR BEARING ANIMALS; Alaska farming, revocation 4576

GOATS, humane slaughter 4541

GRAIN:
- Standards, mixed grain; proposed rule 5297
- Storage; warehouses licensed under U.S. Warehouse Act, proposed rule 5581

GRAIN INSPECTORS, licensed; instructions, proposed rule 3733

GRAIN SORGHUMS:
- Loan and purchase agreement program, 1960 3920, 4894, 5132, 5215
- Reseal loan programs:
  - 1958, extension 3613, 4710
  - 1959 4856

GRAINS:
- *See also specific grains.*
- Price support programs 5319
- Storage in licensed warehouses 4141, 4144, 4567

GRAPEFRUIT, marketing:
- Arizona 3510
- California 3510
- Florida 2755, 3749, 4735
- Texas 3728

GRAPES:
- Marketing, Tokay grapes, California 2993, 4640
- Standards, table grapes (European or Vinifera type); proposed rule 5579

GREAT PLAINS CONSERVATION program; counties within Kansas and South Dakota 3428

GUAM; entry of fruits and vegetables 3749, 5907

Agriculture Department—Continued Page

HONEY; price support program, 1960 2785, 4962

IMPORTS:
- Avocados 4514, 5445
- Cucumbers 3812
- Limes 3314
- Meat and meat products; importation from Austria, eligibility, proposed rule 5582
- Overtime services relating to imports and exports of plants and plant products, commuted travel time allowances 3749, 4450
- Tomatoes 3395

INSECTICIDES, PESTICIDES, etc. (economic poisons), enforcement of Federal Insecticide, Fungicide, and Rodenticide Act:
- Economic poisons, warning, and antidote statements; labels 4073, 6116
- Thallium compounds for household use; labels 6115

LAMB, standards; slaughter lambs, yearlings, and sheep 4424

LEMONS, marketing:
- Arizona 2789, 3062, 3350, 3549, 3575, 3803, 3835, 4074, 4130, 4316, 4503, 4736, 4953, 5216, 5321, 5475, 5873, 5919
- California 2789, 3062, 3350, 3549, 3575, 3803, 3835, 4074, 4130, 4316, 4503, 4736, 4953, 5216, 5321, 5475, 5873, 5919

LETTUCE; marketing, Texas (Lower Rio Grande Valley) 4476, 4753

LIMES:
- Import restrictions 3314
- Marketing, Florida 3313, 4557, 5377

LIVESTOCK:
- Diseases. *See under* Animals.
- Goats, humane slaughter 4541
- Humane slaughter; identification of carcasses 5863, 5954
- Stockyards. *See* Packers and Stockyards Branch.
- Tanking and denaturing condemned carcasses and parts; specimens for research, permits 5923
- Viruses, serums, toxins, etc.; handling of anti-hog-cholera serum and hog-cholera virus, proposed rule 3127

MARKETING ORDERS:
- General regulations 5907
- Various commodities. *See specific commodities.*

MARKETING QUOTAS, farm acreage allotments, etc.:
- *See also specific commodities.*
- Acreage and performance determination 3785, 4129, 5754
- Methods of measurement, proposed rule 3338
- Reconstitution of farms, allotments, and history, soil bank base acreages 2880, 4129, 5445
- Referenda, holding of 4920, 5907
- Review; proposed rule 4686

MEATS AND MEAT PRODUCTS:
- *See also* Livestock.
- Humane slaughter of livestock; identification of carcasses 5863, 5954
- Imported products from Austria, eligibility, proposed rule 5582
- Tanking and denaturing condemned carcasses and parts; specimens for research, permits 5923

MILK AND MILK PRODUCTS:
- Children's special milk program 3883, 5172
- Marketing in various areas, orders proposed or adopted:
  - Arizona; Central Arizona 4962, 5921

Antidumping Act of 1921, procedure 3948
Coal-tar products, strength of dyes standards; proposed rule 4994
ART WORK, exhibition material, tapestries, ethnographic objects, etc.; articles conditionally free 4428
ARTICLES CONDITIONALLY FREE, subject to reduced rate, etc.:
Art works, exhibition material, tapestries, ethnographic objects, etc 4428
Household effects; free entry 4136
Institutions, articles for; requirements on entry 4428
Pumice stone for use in manufacture of concrete masonry products 2837
Vegetable oils, certain; denaturing for free entry 4381
AUTHORITY DELEGATION; Commissioner, certain officials to act as, and order of succession 4515
BONDS, CUSTOMS; term bond for temporary importations, form 7562–A 2796
CAROTENE CONCENTRATE, NATURAL; tariff classification 3766, 5403
CEMENT, PORTLAND, appraisement withheld on entries from listed countries:
Belgium 4602
West Germany; non-white, non-staining cement 3841
COAL-TAR PRODUCTS, appraisement; strength of dyes standards, proposed rule 4994
DRAWBACK; rejected merchandise 3750
ENFORCEMENT of customs and navigation laws; release of property on payment of appraised value 3350
ENTRY OF IMPORTED MERCHANDISE:
Entry of certain shipments of unconditionally or conditionally free merchandise 4742
Invoice information, additional; list of merchandise requiring:
Copper bearing ores 5150
Flatware, table, stainless steel; deletion 3243
Oils; certain oil products 5150
Sugar, manufactured 5150
Textile fiber products 2796
Powers of attorney for customs purposes; proposed rule 4752
FINANCIAL AND ACCOUNTING procedure:
Fee for monthly supplement to Merchant Vessels of United States 3579, 5385
Reimbursable services of officers; proposed rule 5153
FLATWARE, TABLE, STAINLESS STEEL; additional invoice information or special invoices, not required 3243
GHANA, exemption from payment of special tonnage tax and light money 3817
HOUSEHOLD EFFECTS; free entry 4136
INFORMATION; disclosure to press of names of exporters, termination of proposed rule 3579

Customs Bureau—Continued

INSTITUTIONS, articles for, requirements on entry; articles conditionally free — 4428
INSULAR POSSESSIONS customs relations; free entry of articles manufactured or produced in insular possessions (except Puerto Rico) with use of foreign materials, proposed rules — 6141
IRON, pig, from Germany and Netherlands; appraisement withheld — 2865
LIQUIDATION OF DUTIES:
Currency conversion; Philippine Islands, deletion from list of quarterly rate countries — 5222
Dumping duty — 3954
Tariff classification:
Carotene concentrate, natural — 3766, 5403
Travertine slabs; proposed classification — 5886
MERCHANT VESSELS OF UNITED STATES, fee for monthly supplement — 3579, 5385
MILLFEED SHORTS from Cuba; appraisement withheld — 4834
OILS:
Oil products, certain; additional invoice information — 5150
Vegetable oils, certain; denaturing for free entry — 4381
ORES, copper bearing; additional invoice information — 5150
PHILIPPINE ISLANDS, currency conversion; deletion from list of quarterly rate countries — 5222
PUMICE STONE for use in manufacture of concrete masonry products; articles conditionally free — 2837
SODIUM HYDROSULFITE from France; appraisement withheld — 6145
SOVIET ZONES of Germany, Berlin or Poland, products from; marking of country of origin — 3428
SUGAR, MANUFACTURED; additional invoice information — 5150
TEXTILE FIBER PRODUCTS, labeling, marking; additional invoice information — 2796
TRAVERTINE SLABS; proposed tariff classification — 5886
TUNA FISH; tariff-rate quota, 1960 — 2809
VESSELS:
Documentation:
Frontier enrollment and license — 4079
Surrender of permanent documents — 2890
In foreign and domestic trades:
Coastwise procedure; trade between Great Lakes and other United States ports — 4079
Tonnage taxes, special; Ghana exempted — 3817

D

Danger and Restricted Areas and Zones:

AIRCRAFT restricted areas over military installations. *See* Federal Aviation Agency.
VESSELS, navigation danger zones. *See* Engineers Corps.

Dates:

Purchase program AMP 29a — 4889

Deaf Persons:

Captioned films, loan service — 3527

Decorations:

White House Service Badge and White House Service Certificate (Executive Order 10879) — 4893

Defense Air Transportation Administration:

AIRCRAFT ALLOCATION to Defense Department for Civil Reserve Air Fleet Program — 5717, 5718

Defense Department:

See Air Force Department.
Army Department.
Navy Department.
AIRCRAFT ALLOCATION for Civil Reserve Air Fleet Program — 5717, 5718
AUTHORITY DELEGATIONS from General Services Administrator, representation of Government interests:
California Public Utilities Commission, gas rates — 2865
Wilmington, Ohio, water rates — 5164
FINANCING DEFENSE CONTRACTS, regulations:
Guaranteed loans; foreign performance contracts, payments — 3759
Progress payments based on costs — 3759

Defense Department—Continued

PROCUREMENT:
Inspection services, policies and procedures for interchange among military departments — 3590
Regulations, armed services procurement:
Advertising, formal — 3165, 3465
Appendixes to procurement regulations — 3169, 4800
Bonds and insurance — 3168, 4799
Contracts:
Clauses and forms — 3166, 4799
Cost principles — 3464
Termination — 3166
Coordinated procurement; commodity assignments — 4798
Foreign purchases; Appropriation Act restrictions — 4798
Forms — 3169, 3464, 4800
General provisions — 3159, 3464, 4799
Government property — 4800
Labor — 3169, 4800
Negotiation — 3168, 3464, 4799
Patents, copyrights and technical data — 3166
REENLISTMENT BONUS (military), recoupment of — 3552
RETIRED MILITARY PERSONNEL; dropped from armed forces rolls — 3210
SURPLUS PROPERTY sales offices, establishment and operation:
Armed Forces Surplus Property Bidders Registration and Sales Information Office; Air Force operation for sale of military surplus property — 3381
Consolidated Surplus Sales Office, military departments operation for sale of Defense Department surplus personal property — 3381

Defense Mobilization:

See Civil and Defense Mobilization Office.

Disasters:

CIVIL DEFENSE EQUIPMENT, contributions for — 4179, 4180
DISASTER AREAS, designation. *See* Agriculture Department; Civil and Defense Mobilization Office; Small Business Administration.
LIVESTOCK FEED AND HAY, transportation at reduced rates to Florida disaster area — 2820

Drugs:

ADDICTION-FORMING and addiction-sustaining drugs. *See* Narcotics Bureau.
CERTIFICATION AND TESTS. *See* Food and Drug Administration.

Dumping Grounds:

Gulf of Mexico off Texas coast, revocation — 4580

E

Education and Educational Facilities:

COLLEGES, UNIVERSITIES, etc., Federal capital contributions; cut-off date for applications — 4494
COMMUNIST COUNTRIES, educational equipment from; restrictions on purchases — 3257
DEAF PERSONS, loan service of captioned films — 3527
FOREIGN LANGUAGE FELLOWSHIPS — 3258
HOUSING for educational institutions, authority delegations — 3090, 3198, 4489, 4936, 5009, 5801
INTERNATIONAL EDUCATIONAL EXCHANGE PROGRAM, payments for transportation — 4749
MILK PROGRAM for children — 3883, 5173
SCHOOL LUNCH PROGRAMS — 3749, 4313
SCHOOL PURPOSES, public lands opened to applications by various States for. *See under* Land Management Bureau.
VOCATIONAL REHABILITATION AND EDUCATION, Korean conflict veterans — 3353

Education Office:

COMMUNIST COUNTRIES, educational equipment from; restrictions on purchases — 3257
DEAF PERSONS, loan service of captioned films — 3527
FOREIGN LANGUAGE FELLOWSHIPS — 3258
HIGHER EDUCATION INSTITUTIONS; Federal capital contributions, cut-off date for application — 4494

Eggs and Egg Products:

FOOD ADDITIVES:
Reserpine — 4318
Sodium lauryl sulfate — 3024
GRADING AND INSPECTION:
Egg products — 3528, 4728
Shell eggs — 3652, 5320

Emergency Boards:

See National Mediation Board.

Engineers Corps; Army Department:

ANCHORAGE REGULATIONS:
Florida, St. Johns River — 5877
Hawaii, Pacific Ocean — 4180
New York, Port of New York and vicinity — 4580
BRIDGE REGULATIONS:
Florida:
Apalachicola River; revocation — 2956
St. Johns River; revocation — 3821
Louisiana; Sabine Lake, revocation — 2956
New Jersey:
Elizabeth River — 3821
Overpeck Creek — 3821
Shark River — 5453
New York; Lemon Creek — 5453
North Carolina; Tar River — 4322
Texas; Sabine Lake, revocation — 2956
DANGER ZONE REGULATIONS:
Delaware coast, Atlantic Ocean, antiaircraft artillery firing areas — 3821
Florida:
Choctawhatchee Bay — 5695
Gulf of Mexico — 3883
Hawaii, Pacific Ocean — 4749
North Carolina, Pamlico Sound, Bogue Sound, New River and vicinity — 4504
Puerto Rico, Mona Passage in vicinity of Monito Island; aerial bombing range, revoked — 5183
DUMPING GROUNDS REGULATIONS; Texas, Gulf of Mexico, revoked — 4580
NAVIGATION REGULATIONS:
Florida, St. Petersburg Harbor and Tampa Bay; seaplane restricted and operating areas — 2797, 5183
Massachusetts, Weymouth Black River, Weymouth and Hingham, restricted area — 4580
New Jersey, Atlantic Ocean off Sandy Hook, naval restricted area, revoked — 4580
Oregon, Columbia and Willamette Rivers, speed regulations — 5376
South Carolina, Cooper River and tributaries at Naval Ammunition Depot, Charleston, restricted area — 4580
Virginia, Little Creek — 5877
Washington, Columbia and Willamette Rivers, speed regulations — 5376
RESERVOIR AREAS, public use of; Oologah Reservoir Area, Verdigris River, Okla — 4080

Executive Office of the President:

See Civil and Defense Mobilization Office.

Executive Orders:

See Presidential documents.

Explosives:

PANAMA CANAL, tank vessels transporting hazardous liquid cargoes — 4464
PROPELLANTS AND EXPLOSIVES, Integration Committee on; membership — 6046
TRANSPORTATION. *See* Coast Guard; Interstate Commerce Commission; Maritime Administration and Federal Maritime Board.

Exports:

See Imports and exports.

F

Farm Credit Administration:

Production Credit Associations; loans to members, interest rates — 3835

Farmers Home Administration:

ACCOUNT SERVICING; payment-in-full, soil and water conservation accounts — 4789

Farmers Home Administration—Continued

FARM OWNERSHIP LOANS:
Policies and authorities:
Average values of farms — 2877, 3307
Colorado — 4424
Hawaii — 4424
New Mexico — 4424
Territorial subdivisions in Puerto Rico — 6115
Subsequent loans — 5075
LIVESTOCK LOANS, special; revised note and security instrument — 2878
REAL PROPERTY INSURANCE; loss drafts, use — 4157
SECURITY SERVICING:
Chattel security — 4157
Insured notes, assignment — 3057

Federal Aviation Agency:

ACCIDENTS. *See main heading* Civil Aeronautics Board.
AIR TRAFFIC RULES:
Air traffic control rules; rescission of part — 3852
Controlled airspace, definition — 4083, 6015
High density air traffic zone and airport; withdrawal of proposed designation — 5948
Positive air traffic control, implementation on area basis (SR424C); proposed rules — 4082, 4653
AIRPORTS:
Lindbergh Field, San Diego, Calif., location; hearing — 3902
New York International Airport; traffic pattern area proposed rules — 4202
Pottstown, Pa., Municipal Airport; funds for development; hearing — 3601
AIRSPACE ASSIGNMENT and utilization, scope and applicability — 3510
AIRWORTHINESS DIRECTIVES; proposed or adopted:
Aeroproducts — 5787
Alouette — 4346, 4376
Beech — 5106
Bell — 4132
Boeing — 3066, 3067, 3564, 3576, 4076, 4317, 4542
Brantly — 3883, 4237
Cessna — 4346
Continental — 4345
Convair — 4065
De Havilland — 2804, 2860, 4542, 4899
Douglas — 3207, 3476, 4557, 5826
Fairchild — 4803
Forney (Erco) — 3813
Hamilton — 3066
Hartzell — 4651
Hiller — 2765
Lockheed — 3066, 3207, 3396, 3836, 3850, 3858, 4131, 4295, 4542, 4558, 4677, 4736, 4955, 5786, 5826, 5827
Lycoming — 4678
Martin — 3851
North American — 5786
Piper — 4275, 4542
Pratt and Whitney — 4495
Sensenich — 2906, 4737
Sikorsky — 3858, 5826
Twin Navion — 4132
Vertol — 3851
Vickers — 3066, 3575, 4132, 4280, 4543, 4737
Wright — 3065, 3851
AIRWORTHINESS REQUIREMENTS:
Airplane airworthiness:
Normal, utility, and acrobatic aircraft, provisional certification and operation (SR–425B) — 3062
Transport category airplanes; provisional certification and operation (SR–425B) — 3062
Rotorcraft airworthiness:
Normal category; provisional certification and operation (SR–425B) — 3062
Transport category; provisional certification and operation (SR–425B) — 3062
ALTITUDES, instrument. *See* Instrument flight rules.
AUTHORITY DELEGATION, by Administrator to Civil Air Surgeon, et al.; physical examination and medical certification of airmen — 4516
CERTIFICATES AND RATINGS:
Airman agency; flying school curriculums and examining authority — 4344
Control tower operator; traffic control procedures — 3949
Flight engineer; deletion of manual material — 5178

Federal Aviation Agency—Continued Page

CERTIFICATES AND RATINGS—Continued
Medical certificates; physical standards for airmen, proposed rule 5589
Pilots, graduates of certificated airman agencies 4344
CERTIFICATION OF AIRCRAFT; provisional certification and operation (SR–425B) 3062
CERTIFICATION PROCEDURES; medical examinations and class III certificates 3946
CONTINENTAL CONTROL AREA, establishment of coded jet routes and navigational aids in; alterations:
L/MF jet routes 3127, 3458, 3706, 3716, 3851, 3948, 4160, 4556, 5332, 5483, 5692, 5941
VOR/VORTAC 2795, 2886, 3067, 3087, 3597, 3733, 3816, 3883, 3898, 4261, 4280, 4450, 4859, 4862, 4956, 5190, 5245, 5332, 5333, 5452, 5692, 5693
CONTRACT APPEALS; procedures 5151
CONTROL AREAS, CONTROL ZONES, etc., designation:
Basis and purpose, definitions; proposed rules 4653
Control areas:
See also Continental control area, *above*.
Colored Federal airways (amber, blue, green, red), alterations 3316, 3458, 3756, 3815, 3947, 4160, 4279, 4347, 4450, 4644, 4858, 4859, 4955, 4956, 4999, 5147, 5480, 5535, 5569, 5875, 5939, 5940
Extension of control areas, alterations 2794, 2884, 2885, 2886, 3023, 3067, 3380, 3757, 3815, 4079, 4085, 4086, 4089, 4160, 4279, 4349, 4376, 4377, 4393, 4483, 4678, 4737, 4804, 4831, 4860, 4955, 4986, 5106, 5154, 5179, 5180, 5189, 5307, 5329, 5330, 5331, 5451, 5455, 5482, 5483, 5535, 5536, 5537, 5538, 5539, 5543, 5875, 5876, 5925, 5926, 5942, 5943, 5948.
VOR Federal airway control areas; alterations:
Control area alterations 4077
Domestic 2794, 2806, 2807, 2884, 2885, 3022, 3023, 3067, 3086, 3087, 3154, 3155, 3156, 3317, 3340, 3341, 3379, 3380, 3426, 3597, 3756, 3814, 3815, 3816, 3858, 4086, 4204, 4277, 4278, 4279, 4290, 4291, 4347, 4348, 4376, 4482, 4483, 4543, 4753, 4858, 4859, 4899, 4900, 4955, 4956, 4985, 5000, 5154, 5155, 5156, 5329, 5451, 5480, 5481, 5535, 5568, 5690, 5691, 5876, 5925
Control zones, alterations 2608, 3023, 3087, 3179, 3317, 3423, 3424, 3425, 3576, 3816, 4077, 4078, 4079, 4087, 4088, 4089, 4279, 4349, 4376, 4483, 4644, 4652, 4678, 4737, 4831, 4860, 4861, 4921, 4985, 5187, 5188, 5224, 5306, 5307, 5331, 5377, 5378, 5452, 5455, 5456 5457, 5482, 5483, 5537, 5540, 5541, 5542, 5543, 5569, 5691, 5692, 5876, 5941
Positive control areas; designation; proposed rules 4082, 4653
Positive control route segments, alterations 4077
Reporting points; alterations:
Colored Federal airways (amber, blue, red green) 2805, 3458, 3756, 3815, 3948, 4160, 4279, 4347, 4450, 4644, 4858, 4859, 4955, 4956, 4999, 5147, 5480, 5535, 5569, 5875, 5939, 5940, 5941.
VOR Federal airways reporting points; domestic 3426, 3576, 3755, 3756, 3814, 4348, 4679, 5154, 5155, 5329, 5480, 5481, 5690.
CONTROL TOWER OPERATION 3849, 3852
FEDERAL AIRWAYS, designation; alterations:
Colored Federal airways (amber, blue, green, red) 2805, 2885, 3316, 3458, 3756, 3815, 3947, 4160, 4279, 4347, 4377, 4450, 4644, 4858, 4859, 4955, 4956, 4999, 5147, 5328, 5479, 5480, 5535, 5569, 5875, 5939, 5940, 5941.
VOR Federal airways:

Food and Drug Administration:

ADDITIVES, FOOD. *See* Food additives.
ANTIBIOTIC and antibiotic-containing drugs. *See specific drugs.*
BACITRACIN:
Certification of batches 3084, 3352, 5340
Tests and methods of assay 3084, 4462
BREAD:
Acetone-hydrogen peroxide; food additive in bakery products 3898
Standards of identity; proposed rule 3840
CEREAL FLOURS and related products; rice enriched, definitions and standards, label statement of ingredients 3350
CHEESES:
Cream and neufchatel, standards, label statement 4691
Food additives 3898, 6016
Washed curd, colby, cheddar, granular, and swiss; definitions and standards, hearing 3073
CHLORAMPHENICOL:
Certification of batches 3084
Tests and methods of assay 3084, 4461
CHLORTETRACYCLINE:
Antibiotic drugs:
Animal feed containing 4161
Certification of batches 3084, 3707, 3838, 5340
Tests and methods of assay 3084, 3838, 4458
Food additive:
In chickens and certain chicken feeds 4161
In swine feed; proposed rule 5939
COLOR CERTIFICATION; proposed rules:
Drugs and cosmetics; deletion of certain coal-tar colors from list subject to certification, extension of time 2796
Findings of fact and tentative order on proposed amendment of regulations 5582, 5846
CRANBERRIES and cranberry products, alternative method of analysis for aminotriazole 3072
DAIRY ANIMALS, intramuscular or intravenous antibiotic preparations, labeling; proposed rule 3140
DEFINITIONS AND STANDARDS:
See also specific foods.
Authority delegation 2780

Food and Drug Administration—Continued

Page

DRUGS, antibiotic and antibiotic-containing:
See also specific drugs.
Dairy animals, intramuscular or intravenous antibiotic preparations, labeling; proposed rule 3140
Laboratory diagnosis of disease, antibiotic drugs intended for use in; proposed rules 3084
FOOD ADDITIVES:
Authority delegations 2780
Definitions and interpretative regulations; extension of effective date of statute for certain additives:
Direct additives 2836, 3024, 3525, 3526, 4505, 5336, 5339
Indirect additives:
General list, additions 3046, 3526, 4505, 5339
Packaging:
Container linings, substances migrating from 3046, 5339
Dry food packaging, substances migrating from cotton and cotton fabrics 3531, 4079
Radiation, uses of certain sources of, in food packaging and processing 3046, 4506
Packaging:
Container linings, substances migrating from 3046, 5339
Container or equipment contact; polypropylene 3320, 4544
Dry food packaging, substances migrating from cotton and cotton fabrics 3531, 4079
Radiation, for inspection of food packages 3046, 4506
Specific tolerances, certain materials. *See under* Specific tolerances.
Safe substances:
Dry food packaging, substances migrating from cotton and cotton fabrics 3531, 4079
Spices and other seasonings, list; proposed rule 4431
Specific tolerances for listed chemicals in certain foods, and food processing; proposed and/or adopted:
Animal and poultry feed:
Animal feeds; ethoxyquin (1,2-dihydro-6-ethoxy-2,2,4-trimethylquinoline) as antioxidant 4201
Cattle feed; ronnel 4994
Chicken and turkey feed:
1-(4-Amino-2-*n*-propyl-5-pyrimidinylmethyl)-2-picolinium chloride hydrochloride 3898
Chlortetracycline 4161
Oleandomycin 3838
Reserpine 4318
Zoalene, 3,5,dinitro-o-toluamide 3837
Swine feed;
Chlortetracycline 5939
Hygromycin B 5939
Oxytetracycline-oleandomycin 3898
Containers or equipment contact; polypropylene 3320, 4544

Human consumption:
Bakery products; flour, acetone-hydrogen peroxide 3898
Beer;
Calcium disodium (ethylenedinitrilo) tetraacetic acid as preservative 3214
Polyvinylpyrrolidone 4201
Beverages, carbonated:
Quinine hydrochloride 3046
Quinine sulfate 2860
Cheese, cream and neufchatel; propylene glycol alginate as stabilizer 3898, 6016
Chickens and turkeys:
1-(4-Amino-2-*n*-propyl-5-pyrimidinylmethyl)-2-picolinium chloride hydrochloride 3898
Chlortetracycline 4161
Oleandomycin 3838
Reserpine 4318
Zoalene; (3,5-dinitro-o-toluamide) and its metabolite 3-amino-5-nitro-o-toluamide 3837
Confection coatings, sugar-type, polyoxyethylene (20) sorbitan monostearate in 3530
Eggs:
Chicken eggs; reserpine 4318
Egg products; sodium lauryl sulfate 3024
Fruit, citrus; coumaroneindene resin as coating 5939
Nonstandardized foods; free gossypol in cottonseed flour 3046
Pickles and pickle products; polysorbate 80 (polyoxyethylene (20) sorbitan monooleate) 5938

Food and Drug Administration—Continued Page

Specific tolerances for listed chemicals—Continued
Human consumption—Continued
Salads, dressings, toppings, beer, etc., calcium disodium (ethylenedinitrilo) tetraacetic acid as preservative 3214
Shortening; glyceryl lactostearate and mono- and diglycerides as emulsifier 4201
Strawberries; metaldehyde 3898
Swine; oxytetracycline-oleandomycin 3898
Vegetable oil toppings, whipped, sorbitan monostearate and/or polyoxyethylene (20) sorbitan monostearate as emulsifiers 5589
Yeast defoamer formulations; polysorbate 80 (polyoxyethylene (20) sorbitan monooleate) 5939
Packaging or processing:
Containers:
Linings, certain substances in 3046, 5339
Polypropylene in containers or equipment material 3320, 4544
Octadecylamine in steam system of processing plant 2774
Radiation, for inspection of foods, packaging or processing 3046, 4506
Resins composed of homoploymers and copolymers of ethylene and other 1-olefins in packaging 2860
FRUITS:
Jellies, jams, and preserves, artificially sweetened, standards and coloring; proposed rules, hearing 4962
Juices:
Orange juice and products, canned; definitions and standards, hearing 3159
Pineapple-grapefruit juice drink, canned, definition and standards; proposed rule 3987
NEMATOCIDE, PLANT REGULATOR, Defoliant, and Desiccant Amendment of 1959 (Public Law 86–139), extensions of effective date 2836, 3351, 4864, 5878
ORGANIZATION AND FUNCTIONS:
Assignment of responsibilities 5611
Authority delegations regarding food additives, food standards, and pesticides 2780
Washington headquarters and field service, address changes 3768
PENICILLIN:
Certification of batches 3084
Tests and methods of assay 3084, 4452, 4645
PESTICIDE CHEMICALS:
Authority delegation 2780
Public Law 86–139, extensions of effective date; nematocides, plant regulators, etc., list of pesticides and commodities 2836, 3351, 4864, 5878
Specific tolerances or exemptions, for residues of listed chemicals on raw agricultural commodities; proposed and/or adopted:
Bacillus thuringiensis Berliner, viable spores 3207
Demeton 4902
2,4-Dichloro-6-o-chloroanilino-s-triazine 4201
O,O-Diethyl O-(2-isopropyl-4-methyl-6-pyrimidinyl)-phosphorothioate 4482
O,O-Diethyl S-2-(ethylthio) ethyl phosphorothioate (Systox) 4920
O,O-Dimethyl S-(4-oxo-1,2,3-benzotria-zinyl-3-methyl) phosphorodithioate 4354
2,3-p-Dioxanedithiol S,S-bis (O,O-diethylphosphorodithioate) 3426
Dodine (*N*-dodecylguanidine acetate) 4201, 5335
Ethion 2804, 4963
Ethoxyquin 5877
Ferrous sulfate 4201, 5933
Hydrogen cyanide 3525
Lindane 3073
Malathion 4920
Methyl bromide 4993
1-Naphthyl *N*-methylcarbamate 3351, 3837, 5453
Parathion 3988
Ronnel 4963
Sodium 2,2-dichloropropionate 5588
Toxaphene 5335
RICE, enriched, definitions and standards, label statement of ingredients 3350
STREPTOMYCIN:
Certification of batches 3084
Tests and methods of assay 3084, 4457

Food and Drug Administration—Continued Page

SWEETPOTATOES, canned; definition and standard of identity, label statement of optional ingredients, proposed rule 4114, 4393
TOMATO PUREE, definitions and standards, label statement of ingredients 3351

CODIFICATION GUIDE and PARALLEL TABLE JANUARY–JUNE 1960

THE UNIVERSITY OF MICHIGAN
JUL 22 1960
MAIN READING ROOM

FEDERAL REGISTER

THE NATIONAL ARCHIVES — LITTERA SCRIPTA MANET — 1934 — OF THE UNITED STATES

CODIFICATION GUIDE

The following numerical guide is a list of the titles and sections of the Code of Federal Regulations affected by documents published in the *Federal Register* during the period January 1–June 30, 1960. Page numbers of documents affecting CFR sections but not specifically amending the text thereof appear in brackets.

Cumulative Codification Guides are separately published annually and at the end of each quarter. In the intervening period, monthly Codification Guides are carried with the monthly indexes, Daily Guides follow the contents of each issue of the *Federal Register*, and the within-the-month cumulations appear at the end of each issue.

PARALLEL TABLE OF STATUTORY AUTHORITIES AND RULES

(Additions to 2 CFR; January–June 1960)

The following table lists the sections of the U.S. Code which were added to 2 CFR as a result of new citations of authority carried in the *Federal Register* during the period January 1–June 30, 1960.

In order to determine the *Federal Register* page numbers of the parallel CFR citations, users should consult the Codification Guide above.

Codification Guide

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears at the end of each issue beginning with the second issue of the month.

Monthly, quarterly, and annual cumulative guides, published separately from the daily issues, include the section numbers as well as the part numbers affected.

FEDERAL REGISTER

Telephone WOrth 3-3261

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Office of the Federal Register, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D.C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D.C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

Title 6—AGRICULTURAL CREDIT

Chapter III—Farmers Home Administration, Department of Agriculture

SUBCHAPTER E—ACCOUNT SERVICING

[FHA Instruction 451.8]

PART 366—PAYMENT-IN-FULL

Subpart B—Soil and Water Conservation Accounts

Subpart B, Part 366, Title 6, Code of Federal Regulations (23 F.R. 333, 24 F.R. 1675) is revised to read as follows:

Sec.
366.21 General.
366.22 Payment in full of insured Soil and Water Conservation loan with borrower funds including refinancing by new lender and sale of farm.
366.23 Payment in full of insured Soil and Water Conservation loan by refinancing with holder of insured note on a noninsured basis.
366.24 Payment in full of all direct Soil and Water Conservation loans except loans coded J.

AUTHORITY: §§ 366.21 to 366.24 issued under secs. 2, 5, 6, 50 Stat. 869, as amended, 870, secs. 9, 10, 68 Stat. 735; 16 U.S.C. 590s, 590v, 590w, 590x–2, 590x–3; Order of Acting Sec. of Agr., 19 F.R. 74, 22 F.R. 8186; §§ 366.21 to 366.23 also issued under sec. 11, 72 Stat. 841; 16 U.S.C. 590x–4.

§ 366.21 General.

This subpart prescribes the authorities, policies, and procedures for processing final payment on insured and direct Soil and Water Conservation loans except that payments on Soil and Water Conservation loans coded J will be handled in accordance with §§ 361.7(d), 371.12 (a), (b), (c), and 371.14 (b) and (c) of this chapter.

(a) *Authority.* The County Supervisor is authorized to accept final payment on a Soil and Water Conservation loan and to execute the necessary satisfaction or release in connection with the indebtedness.

(1) Form FHA–77, "Satisfaction," may be used to execute satisfactions or releases when permitted by State law. If Form FHA–77 is not satisfactory, the State Director may authorize the use of another form.

(2) If State law requires recording or filing of the satisfaction or release by the mortgagee, any recording cost required to be paid by the Government will be paid by voucher.

(b) *Escrow arrangements.* Escrow arrangements may be used provided the escrow agent is properly bonded. No escrow arrangements will be initiated by the Farmers Home Administration and no part of the expense for an escrow arrangement will be paid by the Government.

(c) *Loan insurance charges for loans evidenced by promissory note forms in the FHA–520 series or FHA–965 series.* In all cases of final payment of an insured loan evidenced by Forms FHA–520, FHA–520A, FHA–965, FHA–965A, FHA–965B, or FHA–965C, when the borrower has had use of all or any part of the loan funds, he will be required to pay the entire annual loan insurance charge computed for the year then current if not already paid. This charge will be one percent of the unpaid principal amount due on the promissory note as of January 1 preceding the date final payment is made on the note account. For the purpose of computing this charge, the date final payment is made on the note account will be the date the funds for final payment of the note account are received by the County Supervisor for transmittal to the Finance Office. In transactions where final payment of the note account is accomplished by the lender's exchanging the insured note for a noninsured note without funds being paid to the Farmers Home Administration, the date the insured loan is refinanced will be considered to be the date final payment is made on the note account.

(d) *Loan funds refunded in full after loan closing.* If an insured loan borrower decides to refund in full his Soil and Water Conservation loan, he will be required to pay interest on the note account from the date of loan closing to the date the U.S. Treasury check is remitted to the lender. However, for a loan held by the insurance fund, the borrower will be required to pay interest on the note account from the date of loan closing to the date of the receipt for the refund. In case the loan is evidenced by a Form FHA–520 or FHA–965 series note, the borrower will be required to pay a loan insurance charge from the date of loan closing to the date the U.S. Treasury check is remitted to the lender. In the event the borrower has prepaid the loan insurance charge, any overpayment will be refunded to the borrower by the Finance Office unless the borrower is indebted on another account, in which case the overpayment will be applied to the unpaid account.

(e) *Return of funds in supervised bank account.* Prior to final payment, any Soil and Water Conservation funds remaining in the borrower's supervised bank account will be withdrawn and remitted to the Finance Office for application on the borrower's note account as a refund.

§ 366.22 Payment in full of insured Soil and Water Conservation loan with borrower funds including refinancing by new lender and sale of farm.

This section applies to all cases where final payment of the insured loan indebtedness is to be derived from the borrower's funds, refinancing with a new lender, and the sale of the farm. The County Supervisor will collect from the borrower any amount owed the loan insurance account, the annual charge for notes on Form FHA–218 or FHA–252, and the balance of the principal and interest owed on the note account and remit the collection to the Finance Office. Since the Farmers Home Administration is the collection agent for the holder, the County Supervisor will advise the borrower, purchaser, or new lender, as the case may be, that the remittance for final payment should be made payable to, or endorsed to, the order of the Farmers Home Administration.

(a) *Finance Office action*—(1) *Adjustment of records.* Upon receipt of the collection in the Finance Office, if the collection pays the account in full, the Director, Finance Office, will take the appropriate action to close the account.

(2) *Notice to holder.* The Finance Office will forward an original and one copy of Form FHA–993A, "Notice and Acknowledgment of Final Payment," to the holder for execution and return of the original to the appropriate County Supervisor.

(b) *County Office action.* Upon receipt from the holder of the canceled promissory note and the original of the completed Form FHA–993A, an instrument of satisfaction or release prepared by the County Supervisor, if needed, will be delivered to the borrower, new mortgagee, purchaser, or the recorder of deeds and mortgages, as the case may require. The canceled promissory note and the satisfied mortgage will be delivered to the borrower. Any water stock certificates held by the Farmers Home Administration which are the property of the borrower also will be transferred to the borrower. Any assignments to the Farmers Home Administration of income from the property being released will be terminated as provided in the assignment agreement. The County Supervisor will make proper disposition of any property insurance as prescribed in Part 306 of this chapter. The County Office records will be adjusted to show a paid-in-full account.

§ 366.23 Payment in full of insured Soil and Water Conservation loan by refinancing with holder of insured note on a noninsured basis.

This section applies when final payment of an insured Soil and Water Conservation loan is to be made by refinancing by the holder of the insured note on a noninsured basis. Final payment of the note account may be accomplished by exchanging a noninsured note of the insured promissory note.

(a) *Collection of loan insurance account and annual charge.* The County Supervisor will collect from the borrower any amount owed the loan insurance ac-

count and the annual charge, if any. If Form FHA–835, "Certified Statement of Account," shows an unpaid balance of any amount advanced from the insurance fund, the County Supervisor will compute the interest on such amount to the date he receives payment. Also, if the loan is evidenced by Form FHA–218 or FHA–252, the County Supervisor will compute the annual charge to the date he receives payment. He will remit the funds collected to the Finance Office.

(b) *Preparation of Form FHA–993, "Notice of Receipt of Final Payment of Insured Loan."* The County Supervisor will complete Form FHA–993 with respect to the borrower, the amount of loan, and the date of the note or bond and will forward the original and two copies to the holder. The County Supervisor will inform the holder of the outstanding balance of principal and interest due him on the insured note account and the daily rate of accrual of such interest. The County Supervisor will request that, if such amount is in agreement with the holder's records, the holder should insert the date the final payment is received (date insured loan is refinanced), execute the original and one copy of Form FHA–993, and return to the County Supervisor the executed original and copy of Form FHA–993, together with the canceled promissory note.

(c) *Finance Office action.* Upon receipt of the executed original and copy of Form FHA–993 from the County Office, the Finance Office will determine if the full amount owed the loan insurance account, and the annual charge for notes on Form FHA–218 or FHA–252 have been paid, and, if paid, the Director, Finance Office, will sign Form FHA–993 and forward an executed copy to the County Supervisor. Finance Office records will be satisfied as a paid-in-full account.

(d) *County Office action.* Upon receipt of the completed copy of Form FHA–993 from the Finance Office, an instrument of satisfaction or release prepared by the County Supervisor, unless otherwise provided by instructions of the State Director, will be delivered to the lender or the recorder of deeds and mortgages, as the case may require. The canceled promissory note and the satisfied real estate mortgage will be delivered to the borrower. Any water stock certificates held by the Farmers Home Administration which are the property of the borrower will be transferred to the borrower. Any assignment to the Farmers Home Administration of income from the property being released will be terminated as provided in the assignment form. Property insurance will be canceled in accordance with Part 306 of this chapter. The County Office records will be adjusted to show a paid-in-full account.

§ 366.24 Payment in full of all direct Soil and Water Conservation loans except loans coded J.

Upon receipt of final payment on such loans, the County Supervisor will transmit the final payment to the Finance Office with a request for the return of the promissory note for delivery to the borrower; however, if circumstances require delivery of the note at the time final payment is received by the County Supervisor, he will request the Finance Office to forward the note prior to the time of final payment.

(a) *Delivery of documents after note stamped "paid-in-full" is received from the Finance Office.* The Finance Office will forward to the County Office the note stamped with a paid-in-full legend, provided the final payment as received from the borrower was in the form of currency and coin, U.S. Treasury check, cashier's or certified check, bank draft, postal or bank money order, or a check issued by a responsible lending institution or a responsible title insurance or title and trust company. If the final payment was in the form of an uncertified check drawn on a personal account, the note will be held in the Finance Office for 10 days after the remittance has been deposited in the Deposit Fund Account before being forwarded to the County Office. Upon receipt of the note, the County Supervisor will deliver the stamped note, any property insurance policies, and the original mortgage to the borrower. Any water stock certificates held by the Farmers Home Administration that are the property of the borrower will be transferred to the borrower. Also, any assignment to the Farmers Home Administration of income from the property being released will be terminated as provided in the assignment form. For all real estate loans, and when required for notes secured by chattel property, the satisfaction or release will be executed and delivered in accordance with the instructions of the State Director.

(b) *Delivery of documents at the time final payment is made.* If the circumstances require delivery of the promissory note and the satisfaction of the mortgage at the time final payment is made, upon receipt of the note from the Finance Office, the County Supervisor will prepare the satisfaction or release unless otherwise provided by instructions of the State Director. The County Supervisor will mark the original note with a paid-in-full legend and deliver the original note, the original satisfaction or release, any property insurance policies, and the original mortgage to the borrower only upon receipt of full payment of the unpaid balance of principal and interest computed as of the date final payment is received, and only when such payment is made in the form of currency and coin, U.S. Treasury check, cashier's or certified check, bank draft, postal or bank money order, or a check issued by a responsible lending institution, or a responsible title insurance or title and trust company. Any water stock certificates held by the Farmers Home Administration which are the property of the borrower will be transferred to him. Also any assignment to the Farmers Home Administration of income from the property being released will be terminated as provided in the assignment form. If full payment is not received, or any other requirements prerequisite to the delivery of the note, the satisfaction, and other instruments are not met, the County Supervisor will return the original note to the Finance Office with the proper explanation and will destroy all copies of the satisfaction or release.

Dated: May 23, 1960.

K. H. HANSEN,
Administrator,
Farmers Home Administration.

[F.R. Doc. 60-4893; Filed, May 31, 1960; 8:47 a.m.]

Title 32—NATIONAL DEFENSE

Chapter I—Office of the Secretary of Defense

SUBCHAPTER A—ARMED SERVICES PROCUREMENT REGULATIONS

PART 1—GENERAL PROVISIONS

PART 3—PROCUREMENT BY NEGOTIATION

PART 4—COORDINATED PROCUREMENT

PART 6—FOREIGN PURCHASES

PART 7—CONTRACT CLAUSES AND FORMS

PART 10—BONDS AND INSURANCE

PART 12—LABOR

PART 13—GOVERNMENT PROPERTY

PART 16—PROCUREMENT FORMS

PART 30—APPENDIXES TO ARMED SERVICES PROCUREMENT REGULATIONS

Miscellaneous Amendments

The following amendments to this subchapter are issued by direction of the Assistant Secretary of Defense (Supply and Logistics) pursuant to the authority contained in Department of Defense Directive No. 4105.30, dated March 11, 1959 (24 F.R. 2260) and 10 U.S.C. 2202, and have the concurrence of the military departments.

1. Revise §§ 1.315, 1.315–1, and 1.315–2, and add new §§ 1.315–3, 1.315–4 and 1.318, as follows:

§ 1.315 Time of delivery or performance.

§ 1.315–1 Scope.

Sections 1.315—1.315–4 prescribe policy and procedure regarding requirements as to time of delivery or performance of contracts for supplies or services, excluding construction.

§ 1.315–2 General.

(a) The time of delivery or performance is an essential element for inclusion

in a contract and must be clearly set forth in invitations for bids and requests for proposals. Delivery and performance schedules shall be designed to meet the requirements of the particular procurement, with due regard to all relevant factors, and must be realistic. Delivery and performance schedules which are unreasonably tight or difficult of attainment are inimical to full competition, inconsistent with small business policies (see § 1.702(b)(3)), and may result in higher contract prices. Therefore, prior to issuing an invitation for bids or request for proposals, the contracting officer shall question any delivery requirement which appears unrealistic, and, if necessary, initiate action to make appropriate adjustments, with due attention to relevant factors such as applicable transportation factors (see § 1.306), and those listed below:

(1) Urgency of need for the supplies or services;

(2) Production time (quantity, complexity of design, etc.);

(3) Market conditions;

(4) Transportation time;

(5) Industry practices;

(6) Capabilities of small business concerns;

(7) Time for obtaining and evaluating bids or offers, and awarding contracts.

(8) Time for contractors to comply with any conditions precedent to contract performance; and

(9) Time for Government to perform its obligations under the contract (e.g., furnishing Government property to the contractor, approval of preproduction samples, and inspection).

(b) Where timely delivery or performance is unusually important to the Government, liquidated damages provisions may be used as provided in § 1.313.

(c) Invitations for bids and requests for proposals shall, except where clearly unnecessary, inform bidders or offerors of the basis on which their bids or proposals will be evaluated with respect to time of delivery or performance.

§ 1.315–3 Terms.

(a) Delivery schedules may be expressed in terms of:

(1) Specific calendar dates (e.g., on or before July 1, 1960);

(2) Specified periods from date of contract (i.e., date of award or acceptance by the Government, or date shown on contract document as effective date of contract); or

(3) Specified periods from date of receipt by contractor of notice of award or acceptance by the Government (including notice by receipt of contract document executed by the Government).

The full period which the Government holds out as being available for contract performance should not be curtailed to the prejudice of the contractor by delay in giving notice of award. Accordingly, one of the provisions in paragraph (b) or (c) of this section shall be used in advertised procurements and may be suitability modified and used in appropriate negotiated procurements (other than small purchases).

(b) Where the delivery schedule is in terms of specific calendar dates, invitations for bids will include one of the following provisions:

(1) The foregoing delivery requirements are based on the assumption that the Government will make award by [purchasing activity insert calendar date]. Each delivery date in the delivery schedule set forth herein will be extended by the number of calendar days after the above date that the contract is in fact awarded. Attention is directed to paragraph 8(d) of the Terms and Conditions of the Invitation for Bids, which provides that a written award mailed or otherwise furnished to the successful bidder results in a binding contract. Therefore, in computing the available time for performance, the bidder should take into consideration the time required for notice of award to arrive through the ordinary mails.

(2) The foregoing delivery requirements are based on the assumption that the successful bidder will receive the notice of award by [purchasing activity insert calendar date]. The Government will extend each delivery date in the delivery schedule set forth herein by the number of calendar days after the above date that the contractor receives notice of award: provided, that the contractor promptly acknowledges such receipt.

(c) Where the delivery schedule is based on the date of contract (see paragraph (a)(2) of this section), the invitations for bids will include the following provision:

Attention is directed to paragraph 8(d) of the Terms and Conditions of the Invitation for Bids which provides that a written award mailed or otherwise furnished to the successful bidder results in a binding contract. Any award hereunder, or a preliminary notice thereof, will be mailed or otherwise furnished to the bidder the day the award is dated. Therefore, in computing the time available for performance, the bidder should take into consideration the time required for the notice of award to arrive through the ordinary mails. However, a bid offering delivery based on date of receipt by the contractor of the contract or notice of award (rather than the contract date) will be evaluated by adding the maximum number of days normally required for delivery of the award through the ordinary mails. If, as so computed, the delivery date offered is later than the delivery date required in the invitation, the bid will be considered nonresponsive and rejected.

(d) Where the delivery schedule is based on the date of the contract (see paragraphs (a)(2) and (c) of this section), the contract, notice of award, acceptance of proposal, or other contract document executed by the Government shall be mailed or otherwise furnished the contractor on the day it is dated.

(e) Where the delivery schedule is based on date of receipt by the contractor of notice of award (see paragraph (a)(3) of this section), or where it is expressed in terms of specific calendar dates on the assumption that notice of award will be received by a specified date (see paragraph (b)(2) of this section), the notice of award, acceptance of proposal, or other contract document executed by the Government shall be sent by certified mail, return receipt requested, or shall be accompanied by a date of receipt acknowledgement card in accordance with Departmental procedures.

(f) When the required delivery schedule in the invitation for bids is based on the date of the contract (see paragraph (a)(2) of this section), a bid offering delivery based on date of receipt by the contractor of the contract or notice of award (see paragraph (a)(3) of this section):

(1) Shall be evaluated by adding the maximum number of days normally required for delivery of the award through the ordinary mails; and

(2) If the delivery date offered by the bid (computed in accordance with subparagraph (1) of this paragraph is later than the delivery date required in the invitation for bids, the bid shall be considered nonresponsive and rejected; but

(3) If award is made under subparagraph (1) of this paragraph, under the terms of the contract the delivery date will be the number of days, after actual receipt by the contractor of the notice of award, which were specified in the bid.

§ 1.315–4 Time of delivery clauses.

(a) Examples of time of delivery clauses for invitations for bids are set forth below. They may be modified or other clauses may be used to state particular delivery requirements or any special procedures to be used in the evaluation, rejection or award process as regards time of delivery. These clauses also may be suitably modified for use in negotiated procurements where appropriate.

(b) The following clause may be used where delivery by a particular time is necessary to meet the Government's requirements:

TIME OF DELIVERY

Delivery is REQUIRED to be made in accordance with the following schedule:

Item No.	*Quantity*	*Time* [*]

Bids offering delivery of each quantity within the applicable delivery period specified above will be evaluated equally as regards time of delivery. Bids offering delivery of a quantity under such terms or conditions that delivery will not clearly fall within the applicable delivery period specified above will be considered nonresponsive and will be rejected. Where a bidder offers an earlier delivery schedule than that called for above, the Government reserves the right to award either in accordance with the REQUIRED schedule or in accordance with the schedule offered by the bidder. If the bidder offers no other delivery schedule, the delivery schedule stated above shall apply.

BIDDER'S PROPOSED DELIVERY SCHEDULE

(To be completed by bidder)

Item No.	*Quantity*	*Time* [*]

*Contracting officer shall insert the appropriate one of the following phrases, in both of the indicated spaces:

1. "[On] (on or before) the date(s) specified below."

2. "Within the number of days stated below after date of contract."

3. "Within the number of days stated below after the date of receipt of a written notice of award."

4. "Within the periods specified below." (NOTE: When this phrase is inserted, the wording "during month(s) of _____" or "not sooner than _____ and not later than _____" should be used to specify the periods.

(c) The following clause may be used where delivery by a certain time is desired, but not essential, and delivery by a specified later time is necessary to meet the Government's requirements.

TIME OF DELIVERY

Delivery is DESIRED by the Government in accordance with the following schedule:

Item No.	*Quantity*	*Time* [*]

If the bidder is unable to meet the above delivery schedule, he may, without prejudice to the evaluation of his bid, set forth his Proposed Delivery Schedule below; but such delivery schedule must not extend the delivery period beyond the time for delivery called for in the following REQUIRED delivery schedule set forth below:

REQUIRED DELIVERY SCHEDULE

Item No.	*Quantity*	*Time* [*]

Bids offering delivery of a quantity under such terms or conditions that delivery will not clearly fall within the applicable REQUIRED delivery period specified above will be considered nonresponsive and will be rejected.

If the bidder does not propose a different delivery schedule, the Government's DESIRED delivery schedule shall apply.

BIDDER'S PROPOSED DELIVERY SCHEDULE

(To be completed by bidder)

Item No.	*Quantity*	*Time* [*]

*Phrases for insertion as indicated above:

1. "[On] (on or before) the date(s) specified below."
2. "Within the number of days stated below after date of contract."
3. "Within the number of days stated below after the date of receipt of a written notice of award."
4. "Within the periods specified below." (NOTE: When this phrase is inserted, the wording "during the month(s) of _____" or "not sooner than _____ and not later than _____" should be used to specify the periods.)

§ 1.318 Procurement of parts.

(a) Parts for replenishment of stock, repair, or replacement, must be procured so as to assure the requisite safe, dependable, and effective operation of the equipment. Where it is feasible to do so without impairing this assurance, parts should be procured on a competitive basis, as in the kind of cases described in paragraph (b) of this section. However, where this assurance can be had only if the parts are procured from the original manufacturer of the equipment or his supplier, the procurement should be restricted accordingly, as in the kind of cases described in paragraph (c) of this section.

(b) Parts that are fully identified and can be obtained from a number of known sources, and parts for which fully adequate manufacturing drawings and any other needed data are available (or can be made available in keeping with the policies in Subpart B, Part 9 of this title), are to be procured on a competitive basis. In general, such parts are of a standard design configuration or have commercial equivalents. They include individual items that are susceptible of separate procurement, such as resistors, transformers, generators, spark plugs, or electron tubes.

(c) Parts not within the scope of paragraph (b) of this section generally should be procured (either directly or indirectly) only from sources that have satisfactorily manufactured or furnished such parts in the past, unless fully adequate data (including any necessary proprietary data), test results, and quality assurance procedures, are available (or can reasonably be made availabe in keeping with the policies in Subpart B, Part 9 of this title) to assure the requisite reliability and interchangeability of the parts, and procurement on a competitive basis would be consistent with the assurance described in paragraph (a) of this section. In assessing this assurance, the nature and function of the equipment for which the part is needed should be considered. To illustrate, acceptable tolerances for a commercial television part may be far less stringent than those for a comparable military radar part, permitting competitive procurement of the former but not of the latter. The exacting performance requirements of specially designed military equipment generally demand that parts be closely controlled and have proven capabilities of precise integration with the system in which they operate, to a degree that precludes the use of even apparently identical parts from new sources, since the functioning of the whole may depend on latent characteristics of each part which are not definitely known.

2. In § 1.706–6, revise paragraph (e); in § 1.804–2, revise paragraph (d); and in § 1.1003–1, revise paragraph (q), as follows:

§ 1.706–6 Partial set-asides.

* * * * *

(e) After all awards have been made on the non-set-aside portion, procurement of the set-aside portion shall in all instances be effected by negotiation. Negotiations shall be conducted only with those bidders or offerors who have submitted responsive bids or proposals on the non-set-aside portion at a unit price no greater than 120 percent of the highest award made on the non-set-aside portion and who are determined to be responsible prospective contractors for the set-aside portion of the procurement. Negotiations shall be conducted with such small business concerns in the order of their bids or proposals on the non-set-aside portion, beginning with the lowest responsive bid or proposal as indicated in the foregoing notice. Where equal low bids are received on the non-set-aside portion from concerns which are eligible for the set-aside portion, the concern which is awarded the non-set-aside portion (under the equal low bid procedures of § 2.407–6 of this subchapter) shall have first priority with respect to negotiations for the set-aside portion. The set-aside portion will be awarded at the highest unit price awarded for the non-set-aside portion.

§ 1.804–2 Set-aside procedures.

* * * * *

(d) After all awards have been made on the non-set-aside portion, procurement of the set-aside portion shall in all instances be effected by negotiation. Negotiation shall be conducted only with those bidders or offerors who have submitted responsive bids or proposals on the non-set-aside portion at a unit price no greater than 120 percent of the highest award made on the non-set-aside portion and who are determined to be responsible prospective contractors for the set-aside portion of the procurement. Negotiations shall be conducted in the order of priority indicated in the foregoing notices. Where equal low bids are received on the non-set-aside portion from concerns which are eligible for the set-aside portion, the concern which is awarded the non-set-aside portion (under the equal low bid procedures of § 2.407–6 of this chapter) shall have first priority with respect to negotiations for the set-aside portion. The set-aside portion shall be awarded at the highest unit price awarded for the non-set-aside portion. If the entire set-aside portion cannot be awarded by the method described herein, any unawarded portion may be procured by advertising or negotiation, as appropriate, in accordance with existing regulations (see § 3.201–2(b)(1) of this chapter).

§ 1.1003–1 General.

* * * * *

(q) Procurement of parts for military equipment to be used for replenishment of stock, repair, or replacement, which are not to be procured from sources that have satisfastorily manufactured or furnished such parts in the past, pursuant to § 1.318 of this Part.

3. Revise § 3.101(d); add subparagraph (6) to § 3.403–3(b); and revise § 3.807–7, as follows:

§ 3.101 Negotiation as distinguished from formal advertising.

* * * * *

(d) Consideration of delivery requirements (see §§ 1.306 and 1.315 of this chapter).

§ 3.403–3 Fixed-price contract providing for the redetermination of price.

* * * * *

(b) *Types of price redetermination.*

* * * * *

(6) *Modified retroactive and prospective price redetermination for follow-on contracts*—(i) *Description.* This clause provides for gearing price redetermination under a follow-on contract to repricing under a preceding contract where both contracts together cover continuing production of similar supplies.

(ii) *Applicability.* This clause is suitable in the case of a follow-on contract which is otherwise suitable for retroactive and prospective price redetermination (with or without further optional prospective price redeterminations) where contract performance is to overlap performance of a preceding contract. It may be used where the preceding contract provides for (*a*) retroactive and prospective price redetermination at a stated time prior to completion, (*b*) retroactive and prospective price redetermination including further price redetermination on request, (*c*) retroactive price redetermination after completion, or (*d*) fixed-price incentive price revision.

(iii) *Limitation.* This clause shall be used only if the follow-on contract meets the criteria of paragraph (c) or (d) of this section.

§ 3.807–7 Certificate of current pricing data.

Where a certificate of current cost or pricing data is required in accordance with § 3.807–3(a), it shall be in the form set forth below and shall be included in the contract file along with the memorandum of the contract negotiation.

This is to certify, to the best of my knowledge and belief, that in the preparation of the proposal for _____ being (to be) produced under the terms of (contract, proposal, quotation, etc.) No. _____; (i) all actual or estimated costs or pricing data available as of _____ have been considered in preparing the price estimate, and made known to the Contracting Officer or his repesentative for use in evaluating the estimate, and (ii) any significant changes in the above data which have occurred since the aforementioned date through the _____ (Date) of _____ _____ also have been made (Month) (Year) known in the price negotiations to the Government negotiator.

Name _____
Title _____
Firm _____

Date _____

Note that 18 U.S.C. 1001 prescribes criminal penalties for making false representations to the Government.

4. A new Subpart C is added to Part 4, as follows:

SUBPART C—COMMODITY ASSIGNMENTS

Sec.

4.301 Commodity assignments to Military Departments.
4.301–1 Department of the Army.
4.301–2 Department of the Navy.
4.301–3 Department of the Air Force.

AUTHORITY: §§ 4.301 to 4.301–3 issued under R.S. 161, sec. 2202, 70A Stat. 120; 5 U.S.C. 22, 10 U.S.C. 2202. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314.

§ 4.301 Commodity assignments to Military Departments.

The commodity assignments set forth below have been made by the Assistant Secretary of Defense (Supply and Logistics) to the Military Departments based upon studies made by the Armed Forces Supply Center. General exclusions are:

(a) Emergency procurements;

(b) Procurements not in excess of $2,500 or where only one of an item is to be procured;

(c) Authorized local purchase items;

(d) Research and development items;

(e) Items which require continuous redesign or modification during the production phase; and

(f) Items excluded from coordinated procurement in accordance with DOD Directives.

Specific exclusions are set forth in the lists.

§ 4.301–1 Department of the Army.

Federal supply class code	Commodity	Content
	ANTI-FREEZE	
6850 P	Miscellaneous chemical specialties	Includes: Anti-freeze compounds which contain ethylene glycol, only.
	BATTERIES, DRY CELL	
6135 P	Batteries, primary	Includes: JAN type, dry cell batteries, only.
	MILITARY CHEMICAL WARFARE EQUIPMENT AND SUPPLIES [1]	
4230 P	Decontaminating and impregnating equipment.	Includes: Items peculiar to chemical warfare only.
4240 P	Safety and rescue equipment	Includes: Military respiratory protective equipment for chemical warfare only.
6630 P	Chemical analysis instruments	Includes: Instruments peculiar to chemical warfare only.
6640 P	Laboratory equipment and supplies	Includes: Chemical laboratories (assembled outfits) only.
6665 P	Hazard-detecting instruments and apparatus.	Includes: Items peculiar to chemical warfare only.
6810 P	Chemicals	Includes: Calcium hypochlorite only.
6820 P	Dyes	Includes: Items peculiar to chemical warfare only.
6850 P	Miscellaneous chemical specialties	Includes: Agents decontaminating; and impregnites for military protective clothing for chemical warfare only.
6910 P	Training aids	Includes: Items peculiar to chemical warfare only.
	CONSTRUCTION AND AGRICULTURAL EQUIPMENT AND TRACTORS	
2410	Tractors, full track, low speed	
2420	Tractors, wheeled	
2520 P	Vehicular power transmission components.	Includes: Components peculiar to construction, excavating highway maintenance, agricultural machinery and equipment, and tractors only.
2530 P	Vehicular brake, steering, axle, wheel, and track components.	Includes: Components peculiar to construction, excavating, highway maintenance, agricultural machinery and equipment, and tractors only.
2540 P	Vehicular furniture and accessories	Includes: Furniture, and accessories peculiar to construction, excavating, highway maintenance, agricultural machinery and equipment, and tractors only.
2590 P	Miscellaneous vehicular components	Includes: Misc. components peculiar to construction, excavating, highway maintenance, agricultural machinery and equipment only.
3210	Sawmill and planning machinery	
3805 P	Miscellaneous special industry machinery.	Includes: Specilized logging equipment only.
3710	Soil preparation equipment	
3720	Harvesting equipment	
3740	Pest, disease, and frost control equipment.	
3750 P	Gardening implements and tools	Includes: Garden tractors, walking type only.
3805	Earth moving and excavating equipment.	
3810	Cranes and crane-shovels	
3815	Crane and crane-shovel attachments	
3820	Mining, rock drilling, earth boring, and related equipment.	
3825	Road clearing and cleaning equipment.	
3830	Truck and tractor attachments	
3895	Miscellaneous construction equipment.	
5420	Bridges, fixed and floating	
5440 P	Scaffolding equipment and concrete forms.	Includes: Concrete forms only.
5680 P	Miscellaneous construction materials	Includes: Landing mats, landing mat sets, and paris peculiar.
	DRUMS AND CANS	
7240 P	Household and commercial utility containers.	Includes: 5 gal. metal containers only.
8110 P	Drums and cans	Includes: 55 gal. 16 gage; and 5 gal. metal drums and cans only.
	ELECTRONIC EQUIPMENT FIRE FIGHTING, WATER PURIFICATION, AND SEWAGE TREATMENT EQUIPMENT [2]	
4210 P	Fire fighting equipment	Excludes: Airport crash fire fighting vehicles under DOD procurement assignment to the Air Force.
4610 P	Water purification equipment	Excludes: Kits, desalter; and stills, water, solar heated, lifesaving which are under DOD procurement assignment to the Navy.
4620 P	Water distillation equipment, marine and industrial.	Excludes: Distilling plants when purchased for use aboard those vessels under DOD procurement assignment to the Navy.
4630	Sewage treatment equipment	
	FOOD PREPARATION AND SERVING EQUIPMENT [3]	
7310 P	Food cooking, baking, and warming equipment.	Includes: Covers, steam table inset; covers, steam table pans, insets, steam tables; and pans, steam table.
7330 P	Kitchen hand tools and utensils	Excludes: Blades, bakers' peel; bottles, insulated; bottles, vacuum; boxes, spice; cases, insulated food container; covers, insulated food container; fillers, vacuum bottle; food containers, insulated; food containers, vacuum, handles, bakers' peel, wood; inserts, insulated food containers; jugs, insulated; jugs, vacuum; liners, baking cup; openers, can, electric; spice boxes; stands, heating, canteen cup; and tubs, dough mixing.
7340 P	Cutlery and flatware	Excludes: Plastic and wood cutlery and flatware; knive Boy Scout; knives, hunting; knives, pocket; scissors, embroidery; scissors, ladies'; shears, pinking; and all items of silverware not specifically named among these exclusions.

See footnotes at end of § 4.301–3.

Federal supply class code	Commodity	Content
	FOOD PREPARATION AND SERVING EQUIPMENT[6]—continued	
7350 P	Tableware	Excludes: Brackets, bulkhead, vacuum pitchers; breakers, bread; breakers, bread, metal; breakers, water, metal; breakers, water, wood; cups, breaker, water; carafes, vacuum; coffee servers, vacuum; dispensers, drinking water, portable; fillers, vacuum pitcher; pitchers, vacuum; toothpicks; tubes, drinking; and all items of silverware not specifically named among these exclusions.
7360 P	Sets, kits, and outfits, food preparation and serving.	Includes: Sets, kits, and outfits consisting of food preparation and serving equipment in the FSC Class 7310(P), 7330(P), 7340(P), and 7350(P) under DOD procurement assignment to the Department of the Army.
	LUMBER, MILLWORK, PLYWOOD, AND VENEER	
5430 P	Storage tanks	Includes: Tanks, wood, storage only.
5450 P	Miscellaneous prefabricated structures.	Includes: Cooling towers, wood; and silos, wood; only.
5510	Lumber and related basic wood materials.	
5520	Millwork	
5530	Plywood and veneer.	
5540 P	Pipe and conduit, nonmetallic	Includes: Pipe, wood only.
5630 P	Roofing and siding materials	Includes: Shingles, wood only.
5650 P	Fencing, fences, and gates	Includes: Fence sections and gates, wood only.
8110 P	Drums and cans	Includes: Cooperage stock and vats wood (containers); only.
8115 P[6]	Boxes, cartons, and crates	Includes: Box, crate, and package shook only.
	MORTUARY EQUIPMENT AND SUPPLIES	
4110 P	Self-contained refrigration units and accessories.	Includes: Mortuary refrigerators only.
5340 P	Miscellaneous hardware	Includes: Casket hardware only.
9930	Memorials; cemeterial and mortuary equipment and supplies.	
	MOTOR VEHICLES, TRAILERS, AND CYCLES	
2310	Passenger motor vehicles	
2320 P	Trucks and truck tractors	Excludes: Tracked landing vehicles, which are not under DOD procurement assignment; and airport crash rescue vehicles, which are under DOD procurement assignment to the Department of the Air Force.
2330 P	Trailers	Excludes: Two wheel lubrication trailers, two wheel steam cleaning trailers, and troop transporter semitrailers, which are not under DOD procurement assignment; and airport crash rescue trailer units, which are under DOD procurement assignment to the Department of the Air Force.
2340 P	Motorcycles, motor scooters, bicycles.	Excluded: Bicycles and tricycles.
2430	Tractors, track laying high speed	
2510 P	Vehicular cab, body, and frame structural components.	Includes: Components peculiar to military motor vehicles only.
2520 P	Vehicular power transmission components.	Includes: Components peculiar to military motor vehicles only.
2530 P	Vehicular brake, steering axles, wheel, and track components.	Includes: Components peculiar to military motor vehicles only.
2540 P	Vehicular furniture and accessories	Includes: Furniture and accessories peculiar to military motor vehicles only.
2590 P	Miscellaneous vehicular components	Includes: Components peculiar to military motor vehicles only.
2910 P	Engine fuel system components, nonaircraft.	Includes: Components peculiar to military motor vehicles only.
2930 P	Engine cooling system components, nonaircraft.	Includes: Components peculiar to military motor vehicles only.
2940 P	Engine air and oil filters, strainers, and cleaners, nonaircraft.	Includes: Filters, strainers, and cleaners peculiar to military motor vehicles only.
2990 P	Miscellaneous engine accessories, nonaircraft.	Includes: Accessories peculiar to military motor vehicles only.
	PAPER AND PAPER PRODUCTS	
5970 P	Electrical insulators and insulating materials.	Includes: Insulating paper, electrical only.
8105 P	Bags and sacks	Includes: Bags, paper, coffee; bags, paper, flour; bags, paper, garment; bags, paper, kraft; bags, paper, shipping multiwall; bags, paper, waterproof; envelopes, packaging; paper; envelopes, packing list, paper; fiberboard packing list protectors; liners, bag, crepe paper; sacks, paper, shipping, multiwall; only.
8110 P	Drums and cans	Includes: Chipboard mailing tubes; drums, fiber; drums, fiberboard, overseas type; drum sets, fiber, nested; filing tubes, fiber; tubes, mailing and filing, fiber, only.
8115 P	Boxes, cartons, and crates	Includes: Baskets, fiber, shipping; boxes, chipboard, folding; boxes, set-up, paperboard; cartons, folding, paperboard; only.
8130 P	Reels and spools	Includes: Reels, paperboard; and spools, paperboard only.
8135 P	Packaging and packing bulk materials.	Excludes: Paper stocks controlled by the Congressional Joint Committee on Printing.
8540	Toiletry paper articles	
9310 P	Paper and paperboard	Excludes: Paper stocks controlled by the Congressional Joint Committee on Printing.
9920 P	Smokers' articles and matches	Includes: Cigarette paper packaged only.
	RAILWAY EQUIPMENT	
2110	Locomotives	
2220	Rail cars	
2230 P	Right-of-way construction and maintenance equipment.	Excludes: Locomotives cranes which are under DOD procurement assignment to the Department of the Navy, and specialized types of locomotive cranes used in overseas areas with other than U.S. standard gauges and standard clearances which are not under DOD procurement assignment.
2240	Locomotive and rail car accessories and components.	
2250	Track materials, railroad	
	TELEPHONE AND TELEGRAPH EQUIPMENT AND COMPONENTS, MILITARY	
5805 P	Telephone and telegraph equipment	Includes: Military (wire) equipment, field type, only.
5815 P	Teletype and fascimile equipment	Includes: Military (wire) equipment, field type, only.
5830 P	Intercommunication and public address systems, except airborne.	Includes: Military (wire) equipment, field type, only.
5915 P	Filters and networks	Includes: Components of military (wire) equipment, field type, only.
5950 P	Coils and transformers	Includes: Components of military (wire) equipment, field type, only.
5965 P	Headsets, handsets, microphones, and speakers.	Includes: Components of military (wire) equipment, field type, only.
5985 P	Antennae, waveguides, and related equipment.	Includes: Cases, wire dispenser for military (wire) equipment, field type, only.
5995 P	Cable, cord, and wire assemblies: Communication equipment.	Includes: Components of military (wire) equipment, field type, only.
6145 P	Wire and cable, electrical	Includes: Wire and cable for military (wire) equipment, field type, only.
6625 P	Electrical and electronic properties measuring and testing instruments.	Includes: Instruments for testing military (wire) equipment, field type, only.
6940	Communication training devices	Includes: Code training sets, code practice equipment, and other telephone and telegraph training devices, only.
8130 P	Reels and spools	Includes: Reels and spools for military (wire) equipment, field type, only.
	TIME MEASURING INSTRUMENTS	
6645 P[6]	Time measuring instruments	Includes: All watches; aircraft instrument panel clocks; and spare parts thereof, as follows: aircraft clocks; aircraft panel clocks; athletic timers; cases, carrying, navigational watch; cases, watch, pocket; clocks, aircraft, mechanical; holders, watch; navigation watches, master; pocket watches; stop watches; watches, wrist, second, setting; watch case assemblies; watch movements; wrist watches.
6695 P	Combination and miscellaneous instruments.	Includes: Jewel bearings, only.
	TIRES AND TUBES[7]	
2610	Tires and tubes, pneumatic, except aircraft.	
2630	Tires, solid and cushion	

See footnotes at end of § 4.301–3.

Federal supply class code	Commodity	Content
	WEAPONS, FIRE CONTROL EQUIPMENT, AMMUNITION AND EXPLOSIVES[8]	
1005 P[9]	Guns, through 30-mm	Includes: Guns, through 30-mm, and parts equipment therefor, as listed in Army Supply Manuals SM 9–5–1005, 10, 15; SM 9–1005, 10, 15. Excludes: Naval Ordnance type; Mk–12, 20-mm gun; aircraft gun mounts; and all other types not included above.
1010 P[9]	Guns, over 30-mm up to 75-mm	Includes: Guns, over 30-mm up to 75-mm, and parts and equipment therefor; as listed in Army Supply Manuals SM 9–5–1005, 10, 15; SM 9–1–1005, 10, 15. Excludes: Naval Ordnance type; aircraft gun mounts, and all other types not included above.
1015 P[9]	Guns, 75-mm through 125-mm	Includes: Guns, 75-mm through 125-mm, and parts and equipment therefor; as listed in Army Supply Manuals SM 9–5–1005, 10, 15; SM 9–1–1055, 10, 15. Excludes: Naval Ordnance type; aircraft gun mounts; and all other types not included above.
1020 P[9]	Guns, over 125-mm	Includes: Guns, over 125-mm, and parts and equipment therefor; as listed in Army Supply Manuals SM 9–5–1025, 30; SM 9–1–1025, 30 Excludes: Naval Ordnance type and all other types not included above.
1025 P[9]		
1030 P[9]		
1035 P[9]		
1040[9]	Chemical weapons and equipment.	
1055 P[9]	Launchers, rocket and pyrotechnic	Includes: Launchers, rocket and pyrotechnic, as listed in Army Supply Manuals SM 9–5–1055; SM 9–1–1050, 55. Excludes: Naval Ordnance type; airborne type; and all others not included above.
1095 P[9]	Miscellaneous weapons	Includes: Miscellaneous weapons, and parts and equipment therefor, as listed in Army Supply Manuals SM 9–5–1090, 95; SM 9–1–1090, 95. Excludes: Naval Ordnance type; guns, line throwing (which are under DOD procurement assignment to the Navy); aircraft type misc. weapons; and all others not included above.
1210 P[9]	Fire control directors	Includes: Fire control equipment, as listed in Army Supply Manuals SM 9–1–1210, 20, 30, 40; SM 9–1–1210, 20, 30, 40, 50, 60, 90; SM 9–5–1290. Excludes: Naval Ordnance type and aircraft type.
1220 P[9]	Fire control computing sights and devices.	
1230 P[9]	Fire control systems, complete	
1240 P[9]	Optical sighting and ranging equipment.	
1250 P[9]	Fire control stabilizing mechanisms	Includes: Fire control equipment, as listed in Army Supply Manuals SM 9–5–1210, 20, 30, 40; SM 9–1–1210, 20, 30, 40, 50, 60, 90; SM 9–5–1290. Excludes: Naval Ordnance type and aircraft type.
1260 P[9]	Fire control designating and indicating equipment.	
1265 P[9]	Fire control transmitting and receiving equipment, except airborne.	
1285 P[9]	Fire control radar equipment, except airborne.	
1290 P[9]	Miscellaneous fire control equipment.	
1305 P[9]	Ammunition, through 30-mm	Includes: Ammunition, through 30-mm, as listed in Army Supply Manual SM 9–5–1305. Excludes: Naval Ordnance type; ammunition for the Mk–12, 20-mm gun; and all other types not included above.
1310 P[9,10]	Ammunition, over 30-mm up to 75-mm.	Includes: Ammunition, over 30-mm up to 75-mm, as listed in Army Supply Manual SM 9–5–1310. Excludes: Naval Ordnance type; 40-mm ammunition (which is under DOD procurement assignment to the Navy); and all other types not included above.
1315 P[9,10]	Ammunition, 75-mm through 125-mm.	Includes: Ammunition, 75-mm through 125-mm, as liste in Army Supply Manual SM 9–5–1315; Army Supply Catalog CML 5–1–1. Excludes: Naval Ordnance type; and all other types not included above.
1320 P[9,10]	Ammunition, over 125-mm	Includes: Ammunition, over 125-mm, as listed in Army Supply Manual SM 9–5–1320; Army Supply Catalog CML 5–1–1. Excludes: Naval Ordnance type; and all other types not included above.
	WEAPONS, FIRE CONTROL EQUIPMENT, AMMUNITION AND EXPLOSIVES—continued	
1325 P	Bombs	Includes: Bombs as listed in Army Supply Manuals SM 9–5–1325; SM 3–5–1325, 30, 40, 45, 65, 70, 75. Excludes: Those bombs herein assigned to the Navy; and all others not included above.
1330	Grenades	
1340 P	Rockets and rocket ammunition	Includes: HE, AT, 3.5 In., M35; Practice, 3.5 In., M36; Smoke, WP, 3.5 In., M30; Drill, 4.5 In., M24; HE, 4.5 In., M32; Practice, 4.5 In., M33; incendiary and toxicological rockets, as listed in Army Supply Bulletin SB 3–33. Excludes: Rockets herein assigned to the Navy; and all others not included above.
1345	Land mines	
1365	Military chemical agents	
1370 P	Pyrotechnics	Excludes: Shipboard and aircraft pyrotechnics.
1375 P	Explosives, bulk propellants and explosive devices. Blasting Agents and Supplies.	Includes: Blasting agents and supplies such as: blocks, demolition; caps, blasting, electric and nonelectric; charge, cratering; charges, shaped and demolition; cord, detonating; detonators, all types; dynamite; firing devices; fuse, safety; Bangalore torpedo; kit demolition; lighter, fuse; primer, percussion cap; demolition equipment sets with ancillary items; chests, demolition platoon and squad; machine, blasting. Excludes: Navy underwater demolition requirements.
	Explosives	Includes: The following items only: Ammonium picrate (explosive D) JAN–A–166A; trinitrotoluene (TNT) JAN–T–248; tetryl JAN–T–339; pantaerythrite tetranitrate (PETN) JAN–P–387; RDX; composition B; composition B–3; pentolite, 50/50 JAN–P–408; composition C–3; composition A–3; composition A–4; nitroguanidine (picrite). Excludes: Production capacity for any of the above listed explosives at the U.S. Naval Propellant Plant, Indian Head, Md.; and all other explosives not included above.
	Propellants	Includes: Propellants for small arms ammunition, calibers, .30- to 30-mm, inclusive, except blank and cal. .45; propellant (for small arms ammunition, caliber .45 MIL–P–2207; propellant, increment, M8 MIL–P–10557; propellant, M9; powder, rocket propellant, type N–4 MIL–P–16401; propellant cannon, M1, M6, M14, JAN–P–309; propellant cannon, M2, M5, JAN–P–323; propellant, 4.2 In. chemical mortar; propellant, M7, M15 and M17 MIL–P–668A; propellant, M10; rocket propellant powder NAVORD OS 3383. Excludes: Production capacity for any of the above listed propellants at the U.S. Naval Propellant Plant, Indian Head, Maryland; and all other propellants not included above.
1380	Military biological agents	
1390 P[9]	Fuses and primers	Includes: Fuses and primers for Army assigned ammunition and V.T. fuses, non-rotating types. Excludes: Naval Ordnance type; V.T. fuses, rotating type, under DOD procurement assignment to the Navy; guided missile fuses; and all other fuses and primers not included above.
2350	Tanks and self-propelled weapons	
6910 P	Training aids	Includes: Training Aids as listed in Army Supply Manuals SM 9–1–6910, 20; SM 9–5–6910, 20; SM 3–1–6900. Excludes: All other training aids not included above.
6920 P	Armament training devices	Includes: Armament training devices as listed in Army Supply Manuals SM 9–1–6910, 20; SM 9–5–6910, 20. Excludes: Clay pigeons; all other training devices not included above.
8140 P	Ammunition boxes, packages, and special containers.	Includes: Boxes, packages and containers for ammunition herein assigned to the Army, as listed in Army Supply Manuals SM 9–1–8140. Excludes: All other boxes, packages, and containers not assigned herein.

§ 4.301–2 Department of the Navy.

Federal supply class code	Commodity	Content
	ECCLESIASTICAL EQUIPMENT, FURNISHINGS AND SUPPLIES	
6010 P	Training aids	Includes: Visual aids, chaplain, nonprojected; only.
7195 P	Miscellaneous furniture and fixtures	Includes: Board, bulletin, chapel; only.
7710 P	Musical instruments	Includes: Organs, musical only.
9935	Ecclesiastical equipment, furnishings, and supplies.	
	ELECTRONIC EQUIPMENT [2]	
	FIBERS, FIBER ROPE, CORDAGE, AND TWINE	
4020	Fiber rope, cordage, and twine.	
9420	Fibers, vegetable, animal, and synthetic.	
	FUELS, SOLID	
9110 P	Fuels, solid	Includes: Coal or coal products only.
	HAND TOOLS	
3439 P	Miscellaneous welding, soldering, and brazing supplies and accessories.	Includes: Only soldering irons, and soldering guns, and related parts and accessories only.
3750 P	Gardening implements and tools	Excludes: All powered gardening implements and tools.
5110	Hand tools, edged, nonpowered	
5120	Hand tools, nonedged, nonpowered.	
5133 P	Drill bits, counterbores, and countersinks: Hand and machine.	Includes: Bits, counterbores, and countersinks, hand only.
5136 P	Taps, dies, and collets: Hand and machine.	Includes: Taps, dies, and collets, hand only.
5140	Tool and hardware boxes	
5180 P	Sets, kits, and outfits of hand tools	Includes: Sets, kits, and outfits of nonpowered hand tools only.
5210	Measuring tools, craftmans'	
5280 P	Sets, kits, and outfits of measuring tools.	Excludes: Sets, kits, and outfits of inspection gages, and precision layout tools.
	LIFESAVING EQUIPMENT, MARINE [11]	
2040 P	Marine hardware and hull items	Includes: Anchor, sea; oars, sectional, aluminum; paddles; and paddles, telescoping, hand only.
4220 P	Marine lifesaving and diving equipment.	Includes: The following items only: Basket, search and rescue. Buoy, breeches. Cases, carrying, deflated raft. Containers, emergency equipment life raft. Containers, pararaft kit. CO_2 cylinders for inflatable life preservers and life rafts. Cushions, buoyant. Equipment, containers, coated nylon. Harness, for lifting personnel aboard ship. Inflation gear, complete and parts therefor (life raft). Kits, accessory, life raft. Kits, canvas repairing, for lifeboats, rafts and jackets. Life buoys, ring. Life floats (platform net rigging). Life preservers. Life preservers, pneumatic. Life rafts, pneumatic, airborne and shipborne. Life suits, waterproof. Life vest, shark chaser. Reflectors, corner, life raft. Water lifesaving nets and ladders.
4320 P	Power and hand pumps	Includes: Pump, hand only.
4610 P	Water purification equipment	Includes: Kits, desalter; and water stills, solar heated, lifesaving, only.
6230 P	Electric portable and hand lighting equipment.	Includes: Lantern, electric, automatic, floating; and lights, life preserver, only.
6380 P	Miscellaneous alarm and signal systems.	Includes: Mirrors, signalling only.
6605 P	Navigational instruments	Includes: Compasses, lifeboat and raft, only.
6850 P	Miscellaneous chemical specialties	Includes: Dye, sea marker, only.
2280 P	MATERIALS HANDLING EQUIPMENT Right-of-way construction and maintenance equipment, railroad.	Includes: Diesel, electric; diesel, mechanical; gasoline, mechanical; and steam locomotive cranes; together with their peculiar parts, attachments and accessories; only. Excludes: Specialized types of locomotive cranes used in overseas areas with other than U.S. standard gauges and standard clearances which are not under DOD procurement assignment, and all other right-of-way construction and maintenance equipment, railroad, which is under DOD procurement assignment to the Department of the Army.
2520 P	Vehicular power transmission components.	Includes: Peculiar parts, attachments, and accessories for the materials handling equipment herein assigned to the Navy, only.
2530 P	Vehicular brake, steering, axle, wheel, and track components.	Includes: Peculiar parts, attachments, and accessories for the materials handling equipment herein assigned to the Navy, only.
2540 P	Vehicular furniture	Includes: Peculiar parts, attachments, and accessories for the materials handling equipment herein assigned to the Navy, only.
2590 P	Miscellaneous vehicular components	Includes: Peculiar parts, attachments and accessories for the materials handling equipment herein assigned to the Navy, only.
3910 P	Conveyors	Includes: Portable conveyor units (commercial warehouse type), only.
3920 P	Materials handling equipment, nonself-propelled.	Excludes: Parts, attachments, and accessories for pushcarts, handcarts and wheelbarrows.
3930	Warehouse trucks and tractors, self-propelled.	
3940 P	Blocks, tackle, rigging and slings	Excludes: Aircraft blocks, tackle, rigging and slings.
3990	Miscellaneous materials handling equipment.	
6140 P	Batteries, secondary	Includes: Industrial batteries for electrically operated materials handling equipment, only.
	PAINTS AND SEALERS	
8010 P	Paints, dopes, varnishes, and related products.	Excludes: Dope thinners; enamel thinners; lacquer thinners; paint thinners (except turpentine and dispentene); thinners, dope and lacquer; thinners, synthetic resin enamel; thinners, paint, mineral spirits; these thinners are under DOD procurement assignment to MPSA.
8030 P	Preservative and sealing compounds	Includes: Caulking compounds, glazing compounds, and putties, only.
	PEST CONTROL AGENTS	
6840	Pest control agents and disinfectants	
	PREFABRICATED AND PORTABLE BUILDINGS	
5410 P	Prefabricated and portable buildings	Includes: The following prefabricated buildings covered by the designated military specifications, only: Building, arch rib 20' x 48', MIL–B–13268; Building, arch rib 40' x 100' MIL–B–16606; Building, (CAS) complete assembly structure, MIL–B–17579 (DOCK8); Building, rigid frame 40' x 100', MIL–B–16071A; Magazine, MIL–B–15494B; Magazine, MIL–B–16041A.
	SEXTANTS, AIRCRAFT	
6608 P	Navigational instruments	Includes: Sextants, aircraft, only.
	SHIPS, SMALL CRAFT, AND RELATED MARINE EQUIPMENT	
1905 P	Combat ships and landing vessels	Includes: Landing vessels only.
1910 P	Transport vessels, passenger and troop	Includes: Ferryboats, only.
1920	Fishing vessels	
1925	Special service vessels	
1930	Barges and lighters, cargo	
1935 P	Barges and lighters, special purpose	Excludes: Derrick, piledriver, rock cutter, concrete mixing plant, mechanical bank grader barges, other bank revetment barges; and powerplant, barges, only.
1940 [13]	Small Craft	
1945 P	Pontoons and floating docks	Includes: BuDock type pontoons only.
1950	Floating dry docks	
1990 P	Miscellaneous vessels	Includes: Commercial sailing vessels only.

See footnotes at end of § 4.301–3

Federal supply class code	Commodity	Content
	SHIPS, SMALL CRAFT, AND RELATED MARINE EQUIPMENT	
2010	Ship and boat propulsion components	
2020	Rigging and rigging gear	
2030	Deck machinery	
2040	Marine hardware and hull. Items	
2060	Commercial fishing equipment	
2090	Miscellaneous ship and marine equipment.	
2805 P	Gasoline reciprocating engines, except aircraft, and components.	Includes: Gasoline engines for use aboard ships herein assigned, only. Excludes: Outboard, motors, gasoline.
2815 P	Diesel engines and components	Includes: Engines and components for use aboard ships herein assigned only.
2820 P	Steam engines, reciprocating, and components.	Includes: Marine main propulsion steam engines only.
2825 P	Steam turbines and components	Includes: Marine steam turbines only.
3950 P	Winches, hoists, cranes, and derricks	Includes: Equipment for use aboard ships herein assigned only:
4010 P	Chain and wire rope	Includes: Anchor chain; and anchor chains (shots, no attachments) for use aboard ships herein assigned only.
4110 P	Self-contained refrigeration units and accessories.	Includes: Units and accessories for use aboard ships only.
4120 P	Self-contained air conditioning units and accessories.	Includes: Units and accessories for use aboard ships herein assigned only.
4130 P	Refrigeration and air conditioning plants and components.	Includes: Plants and components for use aboard ships herein assigned only.
4140 P	Fans and air circulators, non-industrial.	Includes: Fans and air circulators for use aboard ships herein assigned only.
4220 P	Marine lifesaving and diving equipment.	Includes: Diving equipment only.
4310 P	Compressors and vacuum pumps	Includes: Reciprocating air compressors; and rotary air compressors for use aboard ships herein assigned only.
4320 P	Power and hand pumps	Includes: Power driven pumps; and air ejector assemblies for use aboard ships herein assigned only.
4330 P	Centrifugals, separators, and pressure and vacuum filters.	Includes: Oil purifiers; and oil filters, for use aboard ships herein assigned only.
4410 P	Industrial boilers	Includes: Boilers for use aboard ships herein assigned only.
4420 P	Heat exchangers and steam condensers.	Includes: Heat exchangers for use aboard ships herein assigned only.
4450 P	Industrial fan and blower equipment	Includes: Equipment for use aboard ships herein assigned only.
4510 P	Plumbing fixtures and accessories	Includes: Troughs, wash (personnel); troughs, water closet; and troughs, urinal; for use aboard ships herein assigned only.
4620 P	Water distillation equipment, marine and industrial.	Includes: Distilling plants for use aboard ships herein assigned only.
5430 P	Storage tanks	Includes: Tanks, metal (enclosure only, not part of ship's structure), for use aboard ships herein assigned only.
5670 P	Architectural and related metal products.	Ineludes: Gratings and floors, metal (does not include deck structure) for use aboard ships herein assigned only.
5985 P	Antennae, waveguides, and related equipment.	Includes: Antenna poles; and masts, antenna for use aboard ships herein assigned only.
6105 P	Motors, electrical	Includes: Motors for use aboard ships herein assigned only.
6115 P	Generators and generator sets	Includes: Gasoline, diesel and steam engine-generator sets; generators, electric; and steam turbine-generator sets for use aboard ships herein assigned only.
6125 P	Converters, electrical	Includes: Motor-generator sets for use aboard ships herein assigned only.
6220 P	Electric vehicular lights and fixtures	Includes: Fixed lights for use aboard ships herein assigned only.
6320 P	Shipboard alarm and signal systems	Includes: Alarm systems: fire alarm systems; indicating systems; telegraph systems (signals and signaling) (less electronic type); for use aboard ships herein assigned only.
6605 P	Navigational instruments	Includes: Hand leads (soundings); lead reels; sounding machines; stands, pelorus, for use aboard ships herein assigned only.
6660 P	Optical instruments	Includes: Stands, telescope, for use aboard ships herein assigned only.
6665 P	Hazard-detecting instruments and apparatus.	Includes: Hazard-determining safety devices, for use aboard ships herein assigned only.
8140 P	Ammunition boxes, packages, and special containers.	Includes: Boxes, ammunition, for use aboard ships herein assigned only.
8345 P	Flags and pennants	Includes: Boxes, signal flag, for use aboard ships herein assigned only.
6645 P [1]	SHIPS, SMALL CRAFT, AND RELATED MARINE EQUIPMENT—Continued Time measuring instruments	Includes: All clocks, chronometers, and spare parts thereof, as follows: alarm clocks; boat clocks; cans, chronometer shipping and storage; carrying cases, chronometer; carrying cases, make-break circuit, chronometer; cases, chronometer, gimbal; cases, chronometer, padded; chronometers; chronometers, make-break-circuit; clocks, direct reading; clocks, electric; clocks, floor; clocks, interval timer; clocks, marine, mechanical; clocks, master control clocks, master program; clocks, master regulating; clocks, mechanical; clocks, message center; clocks, nurses'; clocks, program; clocks, shelf; clocks, wall; clocks, watchmen's; clock motors; clock movements, electric; deck clocks; dials, clock; hour-meters; interval timers; keys, clock, mariner clocks; meters engine running time; meters, hour recording; meters, time totalizing, electric; program control instruments; program timers; stop clocks; time period counters; timers, bombing; timers, engine hour; timers, sequential; timers, stop.
	WEAPONS, FIRE CONTROL EQUIPMENT, AMMUNITION AND EXPLOSIVES [3]	
1095 P	Miscellaneous weapons	Includes: Guns, line throwing only.
1310 P	Ammunition, over 30-mm up to 75mm	Includes: 40-mm ammunition only.
1325 P [13]	Bombs	Includes: Armor-piercing; depth bombs, externally suspended low drag bombs; and components and practice bombs therefor, as listed in Ord Pamphlet 1280 and OP 988.
1340 P [14]	Rockets and rocket ammunition	Includes: 2.25 in. Rocket SCAR, Practice; Heads Mk 3 and Mods; Motors Mk 15 and Mods; Mk 16 and Mods. 2.75 Inc. Rocket FFAR, service and practice; Heads Mk 1 and Mods (General Purpose); Mk 5 and Mods (HEAT); Motors Mk 1 and Mods; Mk 2 and Mods; Mk 3 and Mods. 5 in. Rocket HVAR, service and practice; Heads Mk 2 and Mods (Common) Mk 6 and Mods (GP); Mk 4 and Mods (smoke) Mk 25 and Mods (ATAR); Motors Mk 10 and Mods. 5 in. Rocket FFAR service and practice; Heads Mk 24 and Mods (General Purpose); Mk 32 and Mods (Shaped Charged); Mk 26 and Mods (illum); Motors Mk 16 and Mods. Excludes: Rockets included under above assignment to the Army.
1390 P	Fuzes and primers	Includes: Fuzes and Primers for Navy assigned ammunition and V.T. fuzes, rotating type, only.
4925 P	Ammunition maintenance and repair shop specialized equipment.	Includes: Sets, kits, and outfits of explosive Ordnance tools and equipment as defined in OPNAV 8027.1B, AR 755–1300–6; AFR 136–8 and further, as described in Ord Pamphlet 1851(C) and other similar documents of other services. Excludes: All others not included above.
8140 P	Ammunition boxes, packages, and special containers.	Includes: Boxes, packages and containers for 40-mm ammunition, only.

§ 4.301–3 Department of the Air Force.

Federal supply class code	Commodity	Content
	ELECTRICAL AND ELECTRONIC COMPONENTS	
5960 P	Electron tubes, transistors, and rectifying crystals.	Includes: Only gas filled or evacuated electronic tubes which a common coordinated dpecification as set forth in MIL–E/1D and which are common to two or more Military Departments.
	ELECTRONIC EQUIPMENT [2] FIRE FIGHTING, RESCUE AND SAFETY EQUIPMENT (AIRPORT)	
2320 P	Trucks and truck-tractors	Includes: Airport crash rescue vehicles only.
2330 P	Trailers	Includes: Airport crash rescue trailer units only.
4210 P	Fire fighting equipment	Includes: Airport crash fire fighting vehicles only.

See footnotes at end of § 4.301–3.

Federal supply class code	Commodity	Content
	LIGHTING FIXTURES, AIRPORT	
6210 P	Indoor and outdoor electric lighting fixtures.	Includes: Fixtures for airport lighting, alarm and signal systems only.
	PHOTOGRAPHIC EQUIPMENT [15]	
6710 P	Cameras, motion picture	Excludes: Submarine periscope and underwater cameras.
6720 P	Cameras, still picture	Excludes: Submarine periscope and underwater cameras.
6730 P	Photographic projection equipment	Excludes: 35 mm theatre projectors.
6740	Photographic developing and finishing equipment.	
6750 P	Photographic supplies	Excludes: Photoflash lamps, which are mandatory for purchase under the provisions of Federal Supply Schedule Class 62, Part II, Electric Lamps.
6760	Photographic equipment and accessories.	
6780	Photographic sets, kits, and outfits	

[1] The implementing procedure for this DOD Procurement Assignment also covers selected mechanical smoke generators, which are classified under FSC Class 1040 Chemical Weapons and Equipment. The entire FSC Class 1040 is under DOD Procurement Assignment to the Department of the Army.

[2] Each Department is assigned procurement responsibility for those items which the Department either designed or sponsored development, as listed in JANAP 140 and Supplemental Departmental Listings.

[3] This listing has been modified to reflect the addition of selected paper cutlery and flatware and paper tableware formerly included in the Paper and Paper Products assignment.

[4] Navy and Marine Corps requirements for Box, Crate, and Package Shook are excluded from this assignment.

[5] The following items in FSC 6645 are not assigned: chronographs; clocks, job recorder; job recording devices, racks, timecard; recorders, payroll time; recorders, time; recorders, watch movement; stamps, time; stations, watchmen's clock; time recorders; and time stamps.

[6] For purposes of procurement, Naval Ordnance comprises all arms, armor, and armament for the Department of the Navy and includes all offensive and defensive weapons, together with their components, controlling devices and ammunition used in executing the Navy's mission in National Defense (except small arms and those items of aviation ordnance procured from the Army).

[7] Requirements of commercial tires and tubes, when the item to be procured is less than $10,000 per line item (for tires costing less than $1,000 per tire) or when the item to be procured is less than $25,000 per line item (for tires costing $1,000 or more per tire), shall be purchased in accordance with the mandatory provisions of Federal Supply Class 26 Part II, Tires and Tubes, Pneumatic (except aircraft). These mandatory provisions do not apply to Military tires and tubes over the above specified dollar amounts in accordance with the procedures implementing this DOD procurement assignment. This DOD procurement assignment does not include FSC Class 2620, Tires and Tubes, Pneumatic, Aircraft. These items are mandatory for purchase in accordance with the provisions of Federal Supply Class 26—Part I, Tires and Tubes, Pneumatic, Aircraft.

[8] The Department of the Army portion of this DOD procurement assignment is covered by two sets of implementing procedures. One set covers items under the cognizance of the Army Ordnance Corps and the other covers items under the cognizance of the Army Chemical Corps.

[9] Mechanical smoke generators included in this FSC Class are covered in the implementing procedures for Chemical Warfare Equipment and Supplies.

[10] Army responsible for loading, assembling and packing toxicological smoke and incendiary shells.

[11] The implementing procedures for this DOD Procurement Assignment also cover airborne and shipborne pneumatic lifeboats, which are classified under FSC Class 1940—Small Craft. The entire FSC Class 1940 is under DOD Procurement Assignment to the Department of the Navy.

[12] Airborne and shipborne pneumatic lifeboats included in this FSC Class are covered in the implementing procedures for Lifesaving Equipment, Marine.

[13] Army responsible for loading, assembling and packing toxicological, smoke, and incendiary shells. Loading, assembling, and packing in excess of Navy owned capacity to be done by Army.

[14] Filler and filling of all smoke and toxicological rockets are assigned to the Army.

[15] Excludes photographic equipment controlled by the Congressional Joint Committee on Printing and Micro-Film Equipment and Supplies.

5. Revise §§ 6.301 and 6.302; in § 6.303, revise paragraph (g); revise § 6.304–1; and in § 6.304–2, revise paragraphs (a) and (b), as follows:

§ 6.301 Definition.

For the purpose of this part, the term "possessions", as used in the phrase "United States or its possessions", includes Puerto Rico.

§ 6.302 Restriction.

Except as provided in § 6.303, there shall not be procured supplies consisting in whole or in part of any food, clothing, cotton, wool, or spun silk yarn for cartridge cloth, which have not been grown or produced in the United States or its possessions; but this does not restrict the procurement of cotton or wool reprocessed or reused in the United States or its possessions or of foods manufactured or processed in the United States or its possessions.

§ 6.303 Exceptions.

• • • • •

(g) Any articles of food or clothing or any form of cotton, spun silk yarn for cartridge cloth, or wool, as to which the Secretary concerned has determined that a satisfactory quality and sufficient quantity grown or produced in the United States, or its possessions cannot be procured as and when needed at United States market prices.

§ 6.304–1 Procurement of food, clothing, spun silk yarn for cartridge cloth, or items containing mohair or cotton.

In general, food, clothing (not covered by § 6.304–2), spun silk yarn for cartridge cloth, or any form of mohair or cotton, will be procured only if grown, reprocessed, reused, or produced in the United States or its possessions. However, if the contracting officer finds that prices for such domestic supplies are unreasonable, he may refer the matter to the Secretary concerned for determination with respect to § 6.303(g) in accordance with Departmental procedures.

§ 6.304–2 Procurement of items containing wool (except mohair).

(a) The Secretaries have determined that to the extent that application of the procedures in this section results in the procurement of any articles of wool (except mohair) not grown, reprocessed, reused, or produced in the United States or its possessions, a satisfactory quality and sufficient quantity of such articles grown, reprocessed, reused, or produced in the United States or its possessions cannot be procured as and when needed at United States market prices.

(b) Bids and proposals for supplies of which wool is a part will be solicited on the following alternative bases:

(1) Manufactured in the United States or its possessions from domestic wool;

(2) Manufactured in the United States or its possessions from foreign wool; and

(3) Manufactured in the United States or its possessions from a blend of (percent) domestic wool and (percent) foreign wool.

6. New §§ 7.104–27 and 7.109–7 are added as follows:

§ 7.104–27 Payment for overtime and shift premiums.

In accordance with the requirements of § 12.102 of this chapter, insert the contract clause set forth in §12.102–3(c) of this chapter.

§ 7.109–7 Modified retroactive and prospective price redetermination for follow-on contracts.

(a) *Descriptions, applicability, and limitations.* See § 3.403–3(b)(6) of this chapter.

(b) *Clause.*

Where a follow-on contract is to be geared to a preceding contract for pricing purposes and is to provide for retroactive and prospective price redetermination at a stated time prior to completion, the clause in § 7.109–4 shall be used except that the caption will read "Price Redetermination (Modified Type C)" and the paragraph set forth below will be substituted for the text of paragraph (b) of the clause in § 7.109–4. Where such a follow-on contract is to provide for retroactive and prospective price redetermination including further prospective redetermination upon request, the clause in § 7.109–5 shall be used except that the caption will read "Price Redetermination (Modified Type D)" and the paragraph set forth below will be substituted for the text of subparagraph (b)(1) of the clause in § 7.109–5.

Upon completion of deliveries under Contract No. ------, herein called the preceding contract, or at such other time as the Contracting Officer may fix after negotiation of a mandatory price redetermination is to begin under the preceding contract, and as otherwise provided in (ii) below, the Contractor shall submit:

(i) Proposed prices for supplies delivered and to be delivered and services performed and to be performed under this contract;

(ii) Statements of incurred costs and cost estimates, on DD Form 748 or in any other form on which the parties may agree, to be submitted separately both for this contract and for the preceding contract until its completion, covering each of the following:

(A) All costs incurred in the performance of such contracts through the end of the --------[1] month before the submission, together with sufficient supporting data to disclose unit costs and cost trends for:

(I) Supplies delivered and services performed; and

(II) Inventories of work in process and undelivered contract supplies on hand (estimated to the extent necessary);

(B) An estimate of costs of all supplies delivered and to be delivered and all services performed and to be performed under such contracts, using the statement of costs incurred plus an estimate of costs to complete performance, together with:

(I) Sufficient data to support the accuracy and reliability of such estimate; and

(II) An explanation of the differences between such estimate and the original estimate used in establishing the unit prices set forth in this contract for the same supplies or services; and

(C) Supplemental statements of costs incurred subsequent to the end of the month specified in (A) above for:

(I) Supplies delivered and services performed; and

(II) Inventories of work in process and undelivered contract supplies on hand (estimated to the extent necessary); as and to the extent that such information becomes available prior to the conclusion of negotiations on redetermined prices; and

(III) Any other relevant data which may reasonably be required by the Contracting Officer.

Upon the receipt of the data required above, the Contractor and the Contracting Officer shall promptly negotiate to redetermine fair and reasonable prices for supplies delivered and to be delivered and services performed and to be performed under this contract. Where the Contractor fails to submit data as required above within the time specified, payments under this contract may be suspended by the Contracting Officer until the data are furnished.

7. Paragraph (c) of the contract clause in § 7.203–5 is revised to read as follows:

§ 7.203–5 Inspection of supplies and correction of defects.

• • • • •

(c) Notwithstanding the provisions of paragraph (b) hereof, the Government may at any time require the correction or replacement by the Contractor, without cost to the Government, of supplies or lots of supplies which are defective in material or workmanship, or otherwise not in conformity with the requirements of this contract, if such defects or failures are due to fraud, lack of good faith or willful misconduct on the part of any of the Contractor's directors or officers, or on the part of any of his managers, superintendents, or other equivalent representatives, who has supervision or direction of (i) all or substantially all of the Contractor's business, or (ii) all or substantially all of the Contractor's operations at any one plant or separate location in which this contract is being performed, or (iii) a separate and complete major industrial operation in connection with the performance of this contract. The Government may at any time also require correction or replacement by the Contractor, without cost to the Government, of any such defective supplies or lots of supplies if the defects or failures are caused by one or more individual employees selected or retained by the Contractor after any such supervisory personnel has reasonable grounds to believe that any such employee is habitually careless or otherwise unqualified.

• • • • •

8. In § 7.203–7(b), revise subparagraph (4)(A) of the contract clause, as follows:

§ 7.203–7 Records.

• • • • •

(b) In the case of contracts which establish separate periods of performance, the following alternate subparagraph (a)(4) may be substituted for the corresponding subparagraph of the clause prescribed by paragraph (a) of this section.

(4) • • •

(A) If this contract is completely or partially terminated, the records relating to the work terminated shall be preserved and made available for a period of three years from the date of any resulting final settlement.

9. Add new §§ 7.203–27 and 7.303–14 as follows:

§ 7.203–27 Payment for overtime and shift premiums.

In accordance with the requirements of § 12.102 of this chapter, insert the contract clause set forth in § 12.102–3(c) of this chapter.

§ 7.303–14 Payment for overtime and shift premiums.

In accordance with the requirements of § 12.102 of this chapter, insert the contract clause set forth in § 12.102–3(c) of this chapter.

10. Revise paragraph (c) of the contract clause in § 7.402–5(a)(1), as follows:

§ 7.402–5 Inspection and correction of defects.

(a)(1) The following clause shall be used where the primary contract objective is the delivery of end items other than designs, drawings, or reports, except where the contracting officer determines that the use of such clause is impracticable.

INSPECTION AND CORRECTION OF DEFECTS

• • • • •

(c) Notwithstanding the provisions of paragraph (b) above, the Government may at any time require the Contractor to remedy by correction or replacement, without cost to the Government, any failure by the Contractor to comply with the requirements of this contract if such failure is due to fraud, lack of good faith or willful misconduct on the part of any of the Contractor's directors or officers, or on the part of any of his managers, superintendents, or other equivalent representatives, who has supervision or direction of (i) all or substantially all of the Contractor's business, or (ii) all or substantially all of the Contractor's operations at any one plant or separate location in which this contract is being performed, or (iii) a separate and complete major industrial operation in connection with the performance of this contract. The Government may at any time also require the Contractor to remedy by correction or replacement, without cost to the Government, any such failure caused by one or more individual employees selected or retained by the Contractor after any such supervisory personnel has reasonable grounds to believe that any such employee is habitually careless or otherwise unqualified.

11. New § 7.402–28 is added, as follows:

§ 7.402–28 Payment for overtime and shift premiums.

In accordance with the requirements of § 12.102 of this chapter, insert the contract clause set forth in § 12.102–3(c) of this chapter.

12. Divide § 10.404 into 2 sections by inserting a new § 10.404–1 heading immediately after the § 10.404 heading, and change the contract clause in paragraph (a) by adding paragraph (b)(vi) and revising paragraph (d)(ii), as follows:

§ 10.404 Aircraft—Ground and Flight Risk.

§ 10.404–1 Negotiated fixed-price type contracts.

(a) Negotiated fixed-price type contracts for the production, modification, maintenance, or overhaul of aircraft shall, except as provided in (b) of this section include the following clause.

GROUND AND FLIGHT RISK

• • • • • •

(b) For the purposes of this clause:

• • • • • •

(vi) The term "flight crew members" means those persons in the aircraft who have been designated by the Contractor to conduct any flight as defined in subparagraph (ii) above on behalf of the Contractor.

• • • • • •

(d) The Government's assumption of risk shall not extend to damage to, or loss or destruction of, such aircraft:

• • • • • •

(ii) sustained during flight if the flight crew members conducting such flight have not been approved in writing by the ----------;[1]

13. Add new § 10.404–2 and in § 12.103–3 revise paragraph (c) as follows:

§ 10.404–2 Cost-reimbursement type contracts.

(a) Cost-reimbursement type contracts for the development, production, modification, maintenance, or overhaul of aircraft, or otherwise involving the furnishing of aircraft to the contractor by the Government, shall, except as provided in (b) of this section, include the following clause.

FLIGHT RISKS

(a) Notwithstanding any other provision of this contract, and particularly subparagraph (f)(1) of the Government Property clause, and paragraph (c) of the Insurance-Liability to Third Persons clause, the Contractor shall not (i) be relieved of liability for, damage to, or loss or destruction of, aircraft sustained during flight, or (ii) be reimbursed for liabilities to third persons for loss of or damage to property, or for death or bodily injury, which are caused by aircraft during flight, unless the flight crew members have previously been approved in writing by ----------;[1]

(b) For the purposes of this clause:

(i) Unless otherwise specifically provided in the Schedule, the term "aircraft" means any aircraft, whether furnished by the Contractor under this contract or furnished by the Government to the Contractor under this contract, including all Government Property placed or installed therein or attached thereto.

(ii) The term "flight" means any flight demonstration, flight test, taxi test, or other flight, made in the performance of this contract, or for the purpose of safeguarding the aircraft, or previously approved in writing by the ----------;[2] As to land based air-

[1] Insert the word "first," except the word "second" may be inserted if necessary to achieve compatibility with the contractor's accounting system.

[1] Insert, in contracts of the Department of the Army, the words "the Contracting Officer," and insert, in contracts of the Department of Navy or the Department of the Air Force, the activity designated in accordance with Departmental procedures.

[2] Insert, in contracts of the Department of the Army or the Department of the Air Force, the words "the Contracting Officer," and insert, in contracts of the Department of the Navy, the activity designated in accordance with Departmental procedures.

craft, "flight" shall commence with the taxi roll from a flight line and continue until the aircraft has completed the taxi roll to a flight line; as to sea planes, "flight" shall commence with the launching from a ramp and continue until the aircraft has completed its landing run and is beached at a ramp; as to helicopters, "flight" shall commence upon engagement of the rotors for the purpose of take-off and continue until the aircraft has returned to the ground and rotors are disengaged; and for vertical take-off aircraft "flight" shall commence upon disengagement from any launching platform or device and continue until the aircraft has been re-engaged to any launching platform or device.

(iii) The term "flight crew members" means those persons in the aircraft who have been designated by the Contractor to conduct any flight, as defined in subparagraph (ii) above, on behalf of the Contractor.

(b) In the foregoing clause, the definition of "aircraft" may be appropriately modified in the Schedule if the contract covers helicopter, vertical takeoff aircraft, lighter-than-air airships, or other nonconventional types of aircraft. If the contract includes the Government Property clause in § 13.506 of this chapter, the reference in paragraph (a) of the foregoing clause to paragraph (f) (1) of the Government Property clause should be changed to (i) (1).

§ 12.102–3 Procedures.

* * * * * * *

(c) Excepting (1) firm fixed-price contracts, (2) fixed-price contracts with escalation not providing for labor escalation, and (3) fixed-price contracts providing for price redetermination prospectively only, all contracts in excess of $10,000 shall contain the following clause:

PAYMENT FOR OVERTIME AND SHIFT PREMIUMS

The contract price shall not include any amount on account of overtime premiums or shift premiums, except to the extent that they either (i) have been approved in writing on behalf of the Government or (ii) are paid for work—

(A) Necessary to cope with emergencies such as those resulting from accidents, natural disasters, breakdowns of production equipment, or occasional production bottlenecks of a sporadic nature;

(B) By indirect labor employees such as those performing duties in connection with administration, protection, transportation, maintenance, standby, plant protection, operation of utilities, or accounting;

(C) In the performance of tests, industrial processes, laboratory procedures, loading or unloading of transportation media, and operations in flight or afloat, which are continuous in nature and cannot reasonably be interrupted or otherwise completed; or

(D) Which will result in lower overall cost to the Government. In cost-reimbursement type contracts, the words "Allowable cost" should be substituted for "The contract price" at the start of the foregoing clause, and the foregoing clause shall be designated (a) and the following subparagraph (b) may be added:

(b) The cost of overtime premiums or shift premiums otherwise allowable under (a) above shall be allowed only to the extent the amount thereof is reasonable and properly allocable to the work under this contract.

14. In § 13.503, revise paragraph (f) (v) of the contract clause, and in § 16.202, add subdivision (vii) to paragraph (b) (2), as follows:

§ 13.503 Government property clause for cost-reimbursement type contracts.

* * * * * * *

GOVERNMENT PROPERTY

* * * * * * *

(f) * * *

(v) If this contract is for the development, production, modification, maintenance, or overhaul of aircraft, or otherwise involves the furnishing of aircraft by the Government, the clause of this contract entitled "Flight Risks" shall control, to the extent it is applicable, in the case of loss or destruction of, or damage to, aircraft.[1]

§ 16.202 Negotiated contract forms. (DD Forms 1261 and 1270.)

(b) *Short Form negotiated supply and services contracts.* * * *

(2) No clause on DD Form 1270 may be deleted or altered, and no other clause covering the subject matter of any clause set forth in this subchapter may be used, except:

* * * * * * *

(vii) the "Priorities, Allocations and Allotments" clause (§ 7.104–18 of this chapter) may be inserted in the schedule where required.

15. In § 30.2, revise items 103.9 and 304.3; and in § 30.3, revise paragraph (c) in item 103.4, as follows:

§ 30.2 Appendix B—Manual for control of Government property in possession of contractors.

* * * * * * *

103.9 Minor plant equipment means an item of plant equipment having a unit value of less than $200 and other plant equipment, regardless of cost, when so designated by the Government.

304.3 *Records of plant equipment.* Plant equipment shall be accounted for by individual item except as provided in subparagraphs (a), (b), (c), and (d) below. The form of property records to be maintained for plant equipment will include as a minimum the information prescribed by Exhibit A.

(a) *Record of accessory and auxiliary equipment.* Individual records for accessory and auxiliary equipment which is attached to or otherwise a part of an item of plant equipment and which is required for its normal operation need not be maintained, but the description of such accessory and auxiliary equipment shall be entered on the respective plant equipment records.

(b) *Record of manufacturing systems.* Where plant equipment and accessory type items are assembled and interconnected to form a single operating unit designed to perform continuously the same manufacturing process, such equipment may, for property and inventory control purposes, be grouped and reported as a single item of plant equipment on one plant equipment record in lieu of an individual record for each component comprising the item of plant equipment. This does not preclude the requirement for completely describing the component items nor does it preclude the use of more than one plant equipment record when additional space is required.

(c) *Record of minor plant equipment.* Summary stock records, rather than individual item records, shall be maintained for minor plant equipment, except in cases where individual item records are necessary for effective control.

(d) *Record of plant equipment costing between $200 and $500.* Summary stock records, rather than individual item records, shall be maintained for plant and production equipment costing between $200 and $500, except in cases where individual item records are necessary for effective control.

§ 30.3 Appendix C—Property in possession of nonprofit research and development contractors.

* * * * * * *

103.4 *Classification of Government property.* * * *

(c) Minor plant equipment means an item of plant equipment having a unit value of less than $200.00 and other plant equipment, regardless of cost, when so designated by the Government.

Chapter V—Department of the Army

SUBCHAPTER A—AID OF CIVIL AUTHORITIES AND PUBLIC RELATIONS

PART 518—RECORDS AND REPORTS

Unofficial Research

In § 518.5, revise paragraph (d) (2) to read as follows:

§ 518.5 Unofficial research in Department of the Army files in records centers.

* * * * * * *

(d) *Use of security classified files.* * * *

(2) *Conditions.* Security classified files in Army records centers and in facilities of the General Services Administration will be made available to authorized individuals for unofficial research purposes, provided that:

(i) access to the information will be clearly consistent with the interests of national defense;

(ii) the person to be granted access is trustworthy, and is granted a security clearance to use the classified material concerned;

(iii) the relationship of the researcher to the research project is established as being bona fide; and

(iv) the researcher agrees that prior to publication or dissemination he will submit his manuscript and research notes for clearance to the Chief of Public Information, Office of the Secretary of the Army, ATTN: Office for the Freedom of Information, Washington 25, D.C.

Chapter XIV—The Renegotiation Board

SUBCHAPTER B—RENEGOTIATION BOARD REGULATIONS UNDER THE 1951 ACT

PART 1453—MANDATORY EXEMPTIONS FROM RENEGOTIATION

Contracts That Do Not Have a Direct and Immediate Connection With the National Defense

Section 1453.5 *Contracts that do not have a direct and immediate connection with the national defense* is amended by deleting subdivision (ii) of paragraph (b) (3) and inserting in lieu thereof the following:

(ii) Contracts which obligate funds appropriated under or to carry out the purposes of foreign aid programs, insofar as such funds are obligated for military assistance, are not exempt under this subparagraph (3) of this paragraph.

(Sec. 109, 65 Stat. 22; 50 U.S.C. App. Sup. 1219)

Dated: May 27, 1960.

THOMAS COGGESHALL,
Chairman.

PART 1455—PERMISSIVE EXEMPTIONS FROM RENEGOTIATION

Prime Contracts and Subcontracts To Be Performed Outside the United States

Section 1455.2(c–1) (2) *Exemption after June 30, 1956* is amended by deleting in its entirety the second sentence of subdivision (iii) and inserting in lieu thereof the following: "If at any time during the performance of the contract the United States national becomes entitled to 50 percent or more of the profits, the exemption does not apply and the entire receipts or accruals under the contract, if not otherwise exempt, are subject to exemption."

(Sec. 109, 65 Stat. 22; 50 U.S.C. App. Sup. 1219)

Dated: May 27, 1960.

THOMAS COGGESHALL,
Chairman.

[F.R. Doc. 60–4965; Filed, May 31, 1960; 8:50 a.m.]

PART 1460—PRINCIPLES AND FACTORS IN DETERMINING EXCESSIVE PROFITS

Contribution to the Defense Effort

Section 1460.13 *Contribution to the defense effort* is amended by deleting the first two sentences of paragraph (b) and inserting in lieu thereof the following: "Consideration will be given to the nature and extent of the contractor's contribution to the defense effort through its defense business."

(Sec. 109, 65 Stat. 22; 50 U.S.C. App. Sup. 1219)

Dated: May 27, 1960.

Title 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Milk Order No.16]

PART 918—MILK IN MEMPHIS, TENN., MARKETING AREA

Order Terminating Certain Provisions

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Memphis, Tennessee, marketing area (7 CFR Part 918), it is hereby found and determined that:

(a) The following provision of the order, no longer tends to effectuate the declared policy of the Act:

(1) The provision "and § 918.51(b)" as it appears in § 918.50 of the order.

In accordance with the findings in the final decision (25 F.R. 2221) that the annual level of the Class I price would be maintained at a level approximately equal to the average of the past three years, the Class II price should not be one of the prices used to determine the basic formula price. In the same decision a finding was made and order language provided whereby the annual level of the Class II price was increased approximately 18.75 cents.

The aforesaid provision proposed for termination was inadvertently included in the order language through error and should be terminated to conform to the intent of the decision.

(b) Notice of proposed rule making, public procedure thereon, and 30 days notice of effective date hereof are impractical, unnecessary, and contrary to the public interest in that:

(1) This termination order does not require of persons affected substantial or extensive preparation prior to the effective date.

(2) This termination order is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area.

(3) This termination order is necessary to promote the orderly marketing of milk in the Memphis, Tennessee, marketing area. Therefore, good cause exists for making this order effective upon publication in the FEDERAL REGISTER.

It is therefore ordered, That the aforesaid provision of the order is hereby terminated effective upon publication in the FEDERAL REGISTER.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Issued at Washington, D.C., this 26th day of May 1960.

CLARENCE L. MILLER,
Assistant Secretary.

[F.R. Doc. 60–4890; Filed, May 31, 1960; 8:47 a.m.]

[Plum Order 4]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

Regulation by Size

§ 936.639 Plum Order 4.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than the date hereinafter specified. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until the date hereinafter set forth on which an open meeting was held, after giving due notice thereof, to consider the need for, and the extent of, regulation of shipments of such plums. Interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; shipments of the current crop of such plums are expected to begin on or about the effective date hereof; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; the provisions of this section are identical with the aforesaid recommendation of the committee; and information concerning such provisions and effective time has been disseminated among handlers of such plums and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof. Such committee meeting was held on May 18, 1960.

(b) *Order.* (1) During the period beginning at 12:01 a.m., P.s.t., June 2, 1960, and ending at 12:01 a.m., P.s.t., November 1, 1960, no shipper shall ship any package or container of Santa Rosa or Formosa plums, unless:

(i) Such plums are of a size that, when packed in a standard basket, they will pack at least a 4 x 5 standard pack and will have a net weight of not less than twenty-six (26) pounds: *Provided,* That, not to exceed ten (10) percent, by count, of the packages or containers in any lot may fail to meet such net weight requirement; and

(ii) The diameters of the smallest and largest plums in such package or container do not vary more than one-fourth (¼) inch: *Provided,* That, a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(2) When used in this section, "standard pack" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (Fresh) (§§ 51.1520 to 51.1537 of this title); "standard basket" shall mean the standard basket set forth in paragraph 1 of section 828.1 of the Agricultural Code of California; "diameter" shall mean the distance through the widest portion of the cross section of a plum at right angles to a line running from the stem to the blossom end; and, except as otherwise specified, all other terms shall have the same meaning as when used in the amended marketing agreement and order.

(3) Section 936.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: May 27, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 60-4969; Filed, May 31, 1960; 9:15 a.m.]

[Plum Order 5]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

Regulation by Grade and Size

§ 936.640 Plum Order 5.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than the date hereinafter specified. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until the date hereinafter set forth on which an open meeting was held, after giving due notice thereof, to consider the need for, and the extent of, regulation of shipments of such plums. Interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; shipments of the current crop of such plums are expected to begin on or about the effective date hereof; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; the provisions of this section are identical with the aforesaid recommendation of the committee; and information concerning such provisions and effective time has been disseminated among handlers of such plums and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof. Such committee meeting was held on May 18, 1960.

(b) *Order.* (1) During the period beginning at 12:01 a.m., P.s.t., June 2, 1960, and ending at 12:01 a.m., P.s.t., November 1, 1960, no shipper shall ship any package or container of Tragedy plums, unless

(i) Such plums grade at least U.S. No. 1, with a total tolerance of ten (10) percent for defects not considered serious damage in addition to the tolerances permitted for such grade;

(ii) Such plums are of a size that, when packed in a standard basket, they will pack at least a 5 x 6 standard pack and will have a net weight of not less than twenty-four (24) pounds: *Provided,* That, not to exceed ten (10) percent, by count, of the packages or containers in any lot may fail to meet such net weight requirement; and

(iii) The diameters of the smallest and largest plums in such package or container do not vary more than one-fourth (¼) inches: *Provided,* That, a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(2) When used in this section, "standard pack" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (Fresh) (§§ 51.1520 to 51.1537 of this title); "standard basket" shall mean the standard basket set forth in paragraph 1 of section 828.1 of the Agricultural Code of California; "diameter" shall mean the distance through the widest portion of the cross section of a plum at right angles to a line running from the stem to the blossom end; and, except as otherwise specified, all other terms shall

have the same meaning as when used in the amended marketing agreement and order.

(3) Section 936.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: May 27, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 60-4970; Filed, May 31, 1960; 9:15 a.m.]

[Milk Order No. 111]

PART 1011—MILK IN MICHIGAN UPPER PENINSULA MARKETING AREA

Order Suspending Certain Provision

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq), and of the order regulating the handling of milk in the Michigan Upper Peninsula marketing area (7 CFR Part 1011), it is hereby found and determined that:

(a) The following provision of the order, no longer tends to effectuate the declared policy of the Act:

In § 1011.51 the provision "during the 18-month period following the effective date of this part."

(b) Notice of proposed rule making, public procedure thereon, and 30 days notice of effective date hereof are impractical, unnecessary, and contrary to the public interest in that:

(1) This suspension order does not require of persons affected substantial or extensive preparation prior to the effective date.

(2) This suspension order is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area.

(3) This suspension order will provide for continuation of present Class I pricing provisions of the order due to expire May 31, 1960, pending completion of proceedings on the basis of a public hearing held at Marinette, Wisconsin, March 7–9, 1960. In a recommended decision issued May 20, 1960, based on the record of such hearing it was recommended that present pricing provisions be maintained through November 1961, subject only to a minor revision related directly to a recommended change in the marketing area. Time does not permit completion of these amendment proceedings before the May 31 expiration date. This suspension action will provide interim relief until such time as the amendment action can be completed.

Therefore, good cause exists for making this order effective June 1, 1960.

It is therefore ordered, That the aforesaid provision of the order is hereby suspended effective June 1, 1960 for the period June 1, 1960, through June 30, 1960.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Issued at Washington, D.C., this 26th day of May 1960.

CLARENCE L. MILLER,
Assistant Secretary.

[F.R. Doc. 60-4891; Filed, May 31, 1960; 8:47 a.m.]

[Milk Order No. 116]

PART 1016—MILK IN NORTHEASTERN WISCONSIN MARKETING AREA

Order Suspending Certain Provision

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Northeastern Wisconsin marketing area (7 CFR Part 1016), it is hereby found and determined that:

(a) The following provision of the order no longer tends to effectuate the declared policy of the Act: The phrase in § 1016.51 which reads "* * * during the 18-month period following the effective date of this part * * *"

(b) Notice of proposed rule making, public procedure thereon, and 30 days notice of effective date hereof are impractical, unnecessary, and contrary to the public interest in that:

(1) This suspension order is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area since otherwise the formula for Class I milk under the order would terminate automatically on May 31, 1960.

(2) Temporary provision for a Class I price formula is necessary until the order can be amended as the result of the public hearing held March 7–9, 1960, on which a recommended decision proposing an 18-month continuation of the present Class I price formula was issued May 20, 1960.

(3) This suspension order does not require of persons affected substantial or extensive preparation prior to the effective date.

Therefore, good cause exists for making this order effective June 1, 1960.

It is therefore ordered, That the aforesaid provision of the order is hereby suspended effective June 1, 1960 for an indefinite period.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Issued at Washington, D.C., this 26th day of May 1960.

CLARENCE L. MILLER,
Assistant Secretary.

[F.R. Doc. 60-4892; Filed, May 31, 1960; 8:47 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER C—AIRCRAFT REGULATIONS

[Reg. Docket No. 404; Amdt. 167]

PART 507—AIRWORTHINESS DIRECTIVES

Fairchild F–27 Series Aircraft

In a recent incident, a portion of the rudder trim tab of a Fairchild F–27 was lost in flight. Cracks also were found in two other rudders where the tab hinge bracket is attached.

In view of the foregoing, the Administrator found that a situation existed requiring immediate action in the interest of safety, that notice and public procedure thereon were impracticable and contrary to the public interest, and that good cause existed for taking corrective action. Accordingly, an airworthiness directive was adopted on May 20, 1960, and made effective immediately as to known operators of Fairchild F–27 Series aircraft by individual telegrams dated May 20, 1960. It is hereby published as an amendment to § 507.10(a), (14 CFR Part 507), and shall become effective upon the date of its publication in the FEDERAL REGISTER as to all other persons:

FAIRCHILD. Applies to all F–27 Series aircraft.

Compliance required as indicated.

Due to loss of portion of rudder trim tab in flight the following measures are required pending the development and installation of a Federal Aviation Agency approved modification of the affected parts:

(a) On aircraft having more than 1,800 hours' time in service, conduct inspection (1) within the next 10 hours' time in service, and conduct inspection (2) within the following 15 hours' time in service unless otherwise required by inspection (1).

(b) On aircraft having less than 1,800 hours' time in service, conduct inspection (2) within the next 25 hours' time in service.

Inspection (1): Inspect rudder trim tab hinge brackets (four) located on rudder for security of attachment by locking the rudder control, gripping the trailing edge of the rudder trim tab and attempting to move tab laterally to determine if any relative motion exists between the tab hinge bracket and the rudder structure. Inspect rudder skin and rear rudder spar areas adjacent to the hinge bracket for any sign of deformation, loose rivets, and cracks. If any signs of these conditions exist conduct inspection (2) before next flight.

Inspection (2): Cut a hole ⅝-inch diameter in rudder skin immediately below each rudder rib at end where trim tab hinge bracket is attached. Inspect the rib web in the vicinity of tab hinge, attach fitting for cracks using dye penetrant method or equivalent, and repeat inspection every 125 hours' time in service. Conduct intermediate visual boroscope inspections every 25 hours' time in service, verifying any crack indications using the dye penetrant method of inspection or equivalent. If cracks, deformation or loose rivets are found during any inspection a Federal Aviation Agency approved repair must be accomplished prior to further flight.

Reinforce inspection hole with a 1⅝-inch O.D. annular ring made of 0.050-inch 2024 aluminum alloy or equivalent with a ⅝-inch

hole in the center. Attach ring to skin over hole with six blind rivets No. MS20000-B42 or equivalent equally spaced. Plug hole with button No. 43155 made by United Carr Fastener Company which will be furnished by Fairchild, or with equivalent plug.

(Fairchild Service Bulletin No. 27-27 covers this same subject.)

This amendment shall become effective upon publication in the FEDERAL REGISTER as to all persons not receiving individual notice by telegram dated May 20, 1960.

(Sec. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on May 26, 1960.

E. R. QUESADA,
Administrator.

[F.R. Doc. 60-4918; Filed, May 31, 1960; 8:49 a.m.]

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 59-KC-81]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Control Area Extension

On March 24, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 2497), stating that the Federal Aviation Agency proposed to modify the Milwaukee, Wis., control are extension.

The Department of the Air Force concurred in the proposed amendment. No other comments were received.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 FR. 4530) and for the reasons stated in the Notice, § 601.1188 (24 F.R. 10557) is amended to read:

§ 601.1188 Control area extension (Milwaukee, Wis.).

Within a 20-mile radius of General Mitchell Field, Milwaukee, Wis. (latitude 42°56'51" N., longitude 87°53'58" W.), including the airspace S of Milwaukee bounded on the NE by VOR Federal airway No. 30 S, on the E by the Chicago Heights, Ill., VOR 013° True radial, on the S by VOR Federal airway No. 172, and on the SW and W by VOR Federal airway No. 9.

This amendment shall become effective 0001 e.s.t., July 28, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 24, 1960.

GEORGE S. CASSADY,
Acting Director, Bureau of Air Traffic Management.

Title 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 7—SPECIAL REGULATIONS RELATING TO PARKS AND MONUMENTS

Glacier National Park, Montana; Recreational Water Use

By notice of proposed rule making published in the FEDERAL REGISTER on February 25, 1960 (25 F.R. 1635-6), interested persons were invited to submit written comments, suggestions, or objections on the proposed changes amending Title 36 CFR, Chapter 1, § 7.3, by the addition of a new paragraph (g) as set forth below. The purpose of this amendment is to limit and control the use of water craft, as well as to establish reasonable and safe regulations. Such written comments, suggestions, or objections were required to be filed with the National Park Service, Washington, D.C., within thirty days from the publication of the notice in the FEDERAL REGISTER.

Consideration having been given to all relevant matters presented, it has been determined that the following amendment should be and is hereby adopted without change and as set forth below. This amendment shall become effective at the beginning of the 30th calendar day following the date of this publication in the FEDERAL REGISTER.

§ 7.3 Glacier National Park.

* * * * *

(g) Recreational water use.

(1) Use of motor propelled boats is prohibited on all lakes not reached by administratively approved roads.

(2) Water skis or surfboards being towed by motorboats are prohibited on all lakes except Lake McDonald and St. Mary Lake.

(3) Air or water propelled boats are prohibited on all Park waters.

(39 Stat. 535 as amended; 16 U.S.C. 1958 ed. Sec. 3)

Issued this 6th day of May 1960.

EDWARD A. HUMMEL,
Superintendent, Glacier National Park.

[F.R. Doc. 60-4916; Filed, May 31, 1960; 8:49 a.m.]

Title 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 1—GENERAL PROVISIONS

Appeals From Decisions of Contracting Officers Under Construction and Related Contracts

1. In § 1.750, the section heading is amended, a new paragraph (a) is added, and former paragraphs (a) and (b) redesignated (b) and (c) to read as follows:

§ 1.750 Appeals.

(a) *Applicability.* Sections 1.750 through 1.756 are applicable only to appeals docketed by the Construction Contract Appeals Board prior to June 1, 1960. All appeals docketed on and after June 1, 1960, will be governed by §§ 1.770 through 1.775.

(b) *Contract provisions.* Provisions of Veterans Administration construction contracts and contracts for architect-engineer services include a clause under which certain disputes arising under the contract and not disposed of by agreement shall be decided by the contracting officer subject to written appeal by the contractor, within 30 days, addressed to "the head of the department," the Administrator of Veterans Affairs, or "his duly authorized representative." This provision may be reflected, in detailed applications, in the specifications included in a particular contract.

(c) *Finality of decisions.* Public Law 356, 83d Congress (68 Stat. 81), approved May 11, 1954 (sec. 1), permits judicial review of decisions of the head of a department or agency or his duly authorized representative or board in all such disputes: *Provided, however,* That any such decision shall be final and conclusive unless the same is fraudulent or capricious or arbitrary or so grossly erroneous as necessarily to imply bad faith, or is not supported by substantial evidence. The same act (sec. 2) prohibits inclusion in any Government contract of a provision making final the decision of any administrative official, representative, or board on a question of law. Any statement in a Veterans Administration construction or related contract concerning the finality of administrative decisions under its provisions will be understood and interpreted as effective only to the extent consistent with Public Law 356, 83d Congress.

2. New §§ 1.770, 1.771, 1.772, 1.773, 1.774 and 1.775 are added as follows:

§ 1.770 Construction Contract Appeals Board.

(a) *Establishment.* The Construction Contract Appeals Board has been established in the Office of the Administrator to act as his duly authorized representative to hear and decide appeals of contractors under construction and architect-engineer contracts.

(b) *Location.* The offices of the Board are located in the Veterans Administration Central Office, Washington 25, D.C.

(c) *Short title.* The short title of the Board is VACCAB.

(d) *Procedures.* The Board will consider appeals under any of the following procedures, at the election of the appellant:

(1) On the written record made by the parties under §§ 1.770 through 1.775; or

(2) On hearing before the Board; or

(3) If involving $1,000 or less, under the Optional Procedure for Small Appeals.

§ 1.771 Delegation of authority.

(a) The Board is delegated authority by the Administrator to ascertain the facts and circumstances and to render and publish final decisions on appeals entered by contractors from decisions of Veterans Administration contracting officers in accordance with contract terms and §§ 1.770 through 1.775.

(b) The Board and its individual members are delegated authority by the Administrator to take such actions as may be necessary to hear and decide appeals including the administering of oaths and affirmations, the taking of testimony and affidavits, the conduct of hearings, the dismissal of proceedings and ordering the production of documents and other evidence.

(c) The Board is authorized to take official notice of facts within general knowledge and to decide all questions necessary for complete adjudication.

(d) The Board is authorized to require Veterans Administration contracting officers and other Veterans Administration officials having responsibility for or official knowledge of the design of projects, or the award, administration or supervision of construction or architect-engineer contracts, or of work performed thereunder, to furnish the Board such information, technical data, and similar assistance as the Board may require in the performance of its duties. In such event a copy of the request and of the reply will be furnished to the appellant.

(e) Sections 1.770 through 1.775 are subject to the provisions of Public Law 356, 83d Congress (41 U.S.C. 321 and 322).

§ 1.772 Composition of the Board.

(a) *Membership.* The Board is composed of a chairman and members qualified in the law or in engineering designated by the Administrator. Law members must be members of the bar of a State, commonwealth, or territory of the United States or of the District of Columbia, and engineer members must be professional engineers having had extensive and responsible experience in construction and contract administration. Engineer members shall not constitute more than one-third of the membership of the Board.

(b) *Panels.* Except as provided in § 1.773(ff) (Rule 32) or as ordered by the chairman, each appeal shall be assigned to a panel of three Board members selected by the chairman, not more than one of whom shall be an engineer-member. A law member shall be designated by the Chairman to preside. Each panel so designated has authority to exercise the full jurisdiction of the Board on the appeal. A unanimous decision by the panel shall constitute the final decision of the Board. If the members of a panel do not agree unanimously, the appeal will be referred to the full Board, and the decision of a majority of the available members of the Board, in no case less than five, who consider the appeal so referred, shall be final.

(c) *Disqualification.* No member of the Board may consider an appeal if he has participated in the formulation or administration of the contract, or has any interest, directly or indirectly, in the dispute.

(d) *Alternates.* An alternate may be appointed by the chairman for any panel member who dies, or is absent, or disqualified.

§ 1.773 Rules of the Board.

(a) *Rule 1; filing of appeals—(1) Notice.* A contractor electing to appeal from a written decision of a contracting officer rendered under a construction or architect-engineer contract which contains a clause providing for appeal shall file a written notice as provided in the contract and within the time specified therein.

(2) *Form.* No particular form is prescribed for the notice of appeal but it should contain sufficient information to identify the dispute and the decision from which the appeal is taken, including:

(i) Date and number of the contract and location of project; and

(ii) Date and nature of the decision of the contracting officer.

(b) *Rule 2; docketing of appeals.* A notice of appeal when received by the Board will be docketed and assigned a case number, and the parties will be notified. Notification to appellant will include a copy of the appeal regulations. After docketing, a copy of the notice of appeal will be transmitted by the Board to contracting officer for the action required by paragraph (c) of this section. (Rule 3)

(c) *Rule 3; duties of contracting officer.* (1) Upon receipt of a notice of appeal, a contracting officer shall attach thereto any evidence of the date of mailing or, in the absence of any such evidence, shall endorse thereon the date of receipt and promptly forward the notice to the Board. Thereafter, the contracting officer shall furnish the Government counsel copies of all documents pertinent to the appeal, including the following:

(i) A copy of the decision from which the appeal is taken;

(ii) A copy of the notice of appeal;

(iii) The contract and pertinent plans, specifications, amendments, and change orders;

(iv) Correspondence and other data pertinent to the appeal.

(2) The contracting officer shall within 30 days of the docketing of the appeal, or within such time thereafter as the Board may approve, furnish the Board and Government counsel his written findings of fact. An original and two signed copies of the findings of fact shall be furnished to the Board.

(d) *Rule 4; duties of Government counsel.* (1) Government counsel shall file a notice of appearance with the Board, notify the appellant that he represents the interests of the Government, and take all actions required of him by §§ 1.770 through 1.775.

(2) Government counsel will represent the Government in the same manner as a private advocate represents a client.

(e) *Rule 5; appellant's representation.* An appellant may be represented by an attorney at law or by any other duly authorized person. When an attorney or other representative is to appear at a hearing or otherwise act, a prior written designation by the appellant is required.

(f) *Rule 6; filing and service of papers.* The Board will serve a copy of the findings of fact upon the appellant as soon after receipt as is practicable. The parties shall furnish the Board an original and two signed copies of all pleadings. The Board shall serve a copy of such pleadings on the opposing party or his representative of record. Service of papers shall be made in person or by certified mail to the last known address with return receipt required.

(g) *Rule 7; petition.* (1) A petition in support of the appeal must be filed by the appellant with the Board within 30 days of the receipt by the appellant of the contracting officer's findings of fact (paragraph (c)(2) of this section; Rule 3). The petition shall set forth:

(i) A summary of the decision of the contracting officer on the dispute from which the appeal is taken including the date of receipt of such decision;

(ii) A simple, concise, and direct statement of each claim and the facts upon which the appellant relies, setting forth wherein the decision is deemed erroneous;

(iii) The amount claimed or other relief sought;

(iv) Whether appellant elects a hearing or to rest on the record.

(2) Documentary evidence in support of claims may be filed as exhibits to the petition, but in such event only two copies of each exhibit will be attached to the petition. Such exhibits shall be plainly listed and identified in the petition.

(3) The petition shall be limited to those claims which have been the subject of the decision by the contracting officer.

(h) *Rule 8; answer.* (1) Within 30 days after service of the appellant's petition, counsel for the Government shall prepare and file with the Board an answer thereto.

(2) The answer shall set forth simple, concise and direct statements of the Government's defenses to each claim asserted by the appellant. Each defense shall be stated with as much particularity as is practical.

(3) Defenses which go to the jurisdiction of the Board may be included in the answer, or may be raised by motion.

(4) Counsel for the Government shall at the same time file with the Board the following documents, which shall be made a part of the appeal file (paragraph (v) of this section; Rule 22):

(i) A copy of the decision from which the appeal is taken;

(ii) The contract and pertinent plans, specifications, amendments and change orders;

(iii) Correspondence and other data pertinent to the appeal.

(5) Documentary evidence in support of the Government's defenses may be filed as exhibits to the answer, but in such event only two copies of each exhibit need be attached to the answer.

(i) *Rule 9; amendments to pleadings.* At any time before oral hearing or before submission of a case by the parties without an oral hearing, the Board may permit a party, within the scope of the appeal, to amend its pleadings upon conditions just to both parties. The Board, in its discretion or upon application, may order that a petition or answer be made more definite.

(j) *Rule 10; extension of time.* The Board may, on application or on its own motion, grant an extension of time for the filing of any document other than the notice of appeal.

(k) *Rule 11; motions to dismiss.* (1) Defenses which go to the jurisdiction of the Board may be raised by motion of either party.

(2) Motions to dismiss for lack of jurisdiction shall be presented to the Board for consideration before proceeding with the case on the merits.

(3) The Board may permit or require such testimony and oral arguments on motions as it determines necessary.

(l) *Rule 12; dismissal by the Board.* The Board may at any time recognize its lack of authority to proceed and may dismiss an appeal on such grounds after affording the parties an opportunity to be heard thereon.

(m) *Rule 13; failure to state a case.* In the event, after completion of the pleadings, the Board finds that appellant has failed to state a case on which any relief could be granted by the Board, the Board may give notice to appellant to show cause why the appeal should not be dismissed on the ground that no useful purpose would be served by setting the case for oral hearing on the merits. Appellant, in such event, will be afforded the opportunity to be heard orally for the purpose of showing cause why the appeal should not be dismissed on that ground, and if appellant so desires to move to amend the petition, within the proper scope of the appeal. If the Board thereafter finds appellant has failed to show cause, and finds that the petition, with such amendments as may be offered by appellant, fails to state a case on which the Board could grant relief, the appeal shall be dismissed.

(n) *Rule 14; failure to prosecute.* Should an appellant after filing notice of appeal fail to file a petition within the time prescribed or allowed, the appeal will be dismissed. If the appellant after timely filing of the petition, fails to advise whether he elects to be heard or to rest his case upon the record, the Board will set the case down for hearing.

(o) *Rule 15; withdrawal of appeal.* Subject to approval by the Board, an appeal may be withdrawn at any time by the appellant by filing a written notice.

(p) *Rule 16; settlement by the parties.* Subject to approval by the Board, the parties may by written stipulation filed in the proceedings settle all or any part of the dispute. In event of partial settlement, an amended petition shall be filed and the remaining issues in dispute shall thereafter be adjudicated as provided in §§ 1.770 through 1.775.

(q) *Rule 17; depositions.* (1) Depositions upon oral examination or upon written interrogatories may be taken by either party and offered as evidence.

(2) Depositions may be taken before any person authorized to administer oaths by laws of the United States or by the laws of the place where they are taken.

(3) Either party may take a deposition by giving 15 days' notice in writing to the opposing party of the time and place where such deposition will be taken. By agreement, depositions may be taken without regard to the notice requirement. The notice shall contain: The name, address and official title of the person before whom the deposition is to be taken; the name and address of the witness; and whether the deposition will be taken on oral examination or on written interrogatories. If the deposition is to be taken on written interrogatories, two copies thereof should accompany the notice. The opposing party may within 15 days after receipt of the interrogatories serve cross-interrogatories to be propounded to the witness by forwarding them to the person designated to take the deposition and simultaneously forwarding a copy to the opposing party.

(4) Each deposition should show the docket number and the caption of the proceeding, the place and date of taking, the name of the witness and the party by whom called. The person recording the deposition shall certify thereon that it is a true and complete record of the testimony given by the witness.

(5) A deposition taken under the provisions of this rule may be offered in evidence in whole or in part by either party. Depositions will not be considered as evidence until they have been offered and received as such. All objections will be passed upon by the Board. Evidence not ordinarily admissible under rules of evidence may be received in the discretion of the Board as provided in paragraph (x)(3) of this section (Rule 24).

(r) *Rule 18; interrogatories to the parties.* Under appropriate circumstances, but not as a matter of course, the Board will entertain applications for permission to serve stated written interrogatories upon the opposing party.

(s) *Rule 19; prehearing conferences.* The Board, upon its own initiative or upon application, may direct the parties to appear for a conference to consider:

(1) The simplification of the issues;

(2) The necessity or desirability of amendments to the pleadings;

(3) The possibility of obtaining stipulations as to facts and documents;

(4) The limitation of the number of expert witnesses;

(5) Such other matters as may aid in the disposition of the appeal. At the conclusion of the conference, the Board shall issue such orders as may be appropriate.

(t) *Rule 20; stipulations.* The parties may stipulate in writing as to any facts that are relevant and material to the issues involved, and as to those documents or facts which may be introduced in evidence without formal proof.

(u) *Rule 21; hearing brief.* Not less than 10 calendar days in advance of the hearing, each party shall file with the Board a brief covering all items of its contentions and its intended presentation pertaining thereto, including:

(1) The estimated length of time which will be required for presentation of its case; and

(2) The names, addresses and capacities of persons who will be present in its behalf.

Failure to do so may be deemed sufficient cause for adjournment of the hearing.

(v) *Rule 22; appeal file.* The appeal file or written record in an appeal will consist of the notice of appeal, documents required to be filed pursuant to paragraph (h)(4) of this section (Rule 8), the petition and exhibits thereto, the answer and exhibits thereto, all papers filed by the parties with the Board pursuant to §§ 1.770 through 1.775 and all correspondence between the Board and the parties or their representatives. The appeal file will be available for inspection at the offices of the Board, but may not be removed therefrom except upon approval of a Board member.

(w) *Rule 23; submission without a hearing.* (1) If the appellant elects in its petition to submit its case on the written record, such record may within 30 days of the date of receipt of the answer be supplemented by a written brief.

(2) The Government shall have a period of 30 days from the date of filing its answer within which to file a brief.

(x) *Rule 24; hearings*—(1) *Notice of hearings.* (i) Hearings will normally be held at the offices of the Board after at least 15 calendar days' notification to the parties. Notice to appellant shall be by certified mail with return receipt required.

(ii) Hearings will be scheduled with due consideration to the date of filing and other factors. On request of either party, the Board may advance the hearing date for good cause.

(2) *Continuances.* Continuances will be granted only upon timely request and for good cause.

(3) *Nature of hearings.* (i) The hearing may be conducted by a panel or by any law member thereof at the discretion of the chairman. The order of introduction of evidence and the calling of witnesses shall be as prescribed by the presiding member.

(ii) The rules of evidence ordinarily observed in judicial proceedings will not be strictly followed. Letters or copies thereof, affidavits, or other evidence not ordinarily admissible under rules of evidence, may be received in the discretion of the presiding member. The weight to be attached to evidence presented in any particular form will be determined by the Board.

(iii) Appellant and Government counsel may offer relevant and material testimony and evidence. The Board reserves

the right to exclude such testimony and evidence as, in its judgment, is improper, of no probative value, or not pertinent to the issues. No testimony or arguments will be permitted with respect to any matter on which a motion to dismiss has been granted by the Board.

(iv) When objections to admissibility of evidence are made during the course of a hearing, the presiding member may then rule thereon or receive the evidence subject to future determination. When a hearing is before a single member, he shall decide on reception of evidence and other interlocutory matters as presiding member.

(v) Issues within the scope of the appeal, not raised by the petition and answer, but heard by express or implied consent of the parties, shall be treated in all respects as if raised therein. If evidence is objected to at the hearing on the ground that it is not within the issues framed by the petition and answer, the Board may allow the pleadings to be amended within the scope of the appeal. The Board may grant a continuance to enable the objecting party to meet such evidence.

(4) *Examination of witnesses.* All witnesses may be examined or cross-examined by the parties, or their representatives, and by the Board. Testimony will be under oath or by affirmation. If the testimony is not given under oath, the Board shall advise the witness that his statements may be subject to the provisions of sections 287, 1001, and 1621, Title 18, United States Code, and any other provisions of law imposing penalties for knowingly making false representations in connection with claims against the United States or in any matter within the jurisdiction of any department or agency thereof.

(5) *Transcript of proceedings.* Hearings will be reported verbatim. The Government assumes no responsibility for the completeness or accuracy of any transcript, whether by contract reporter or by Government personnel. The Government will not furnish appellants copies of the transcript made by a contract reporter. Copies may be purchased directly from the reporter. When transcripts are prepared by Government personnel, one copy will be furnished the appellant without charge.

(y) *Rule 25; supplementation of the record.* At any time prior to final decision, the Board, upon application of either party, may reopen the appeal record to receive pertinent documentary evidence. The opposing party will be allowed 30 calendar days from receipt thereof to submit a written rebuttal.

(z) *Rule 26; absence of parties.* Should either party fail to appear at the time and place stated in the notice of hearing, the hearing will proceed and the appeal will be deemed as having been submitted without oral testimony or argument on behalf of the absent party.

(aa) *Rule 27; copies of papers.* When books, records, papers, or documents have been received in evidence, true copies may be substituted therefor during or at the conclusion of the hearing.

(bb) *Rule 28; withdrawal of exhibits.* After a decision has become final the Board may, after notice to the other party, permit the withdrawal of original exhibits. The substitution of true copies may be required by the Board as a condition of granting permission for withdrawal.

(cc) *Rule 29; post-hearing briefs.* A post-hearing brief may be required by the Board of either party or may be submitted by either party at its election. If filed at the election of either party, such shall be done within 30 days after conclusion of the hearing unless a further period is allowed by the Board.

(dd) *Rule 30; decisions of the Board.* (1) Authenticated copies of Board decisions will be forwarded simultaneously to both parties. Decisions of the Board will be available for public inspection at its offices.

(2) There is no further administrative appeal within the Veterans Administration from decisions of the Board.

(ee) *Rule 31; reconsideration by the Board.* (1) Motions for reconsideration may be filed by either party within 30 days from the date of the receipt of its copy of a decision of the Board. Such motions will be granted only upon a showing of material error or on the basis that new and material evidence has been discovered. It shall be incumbent upon the petitioner to state specifically in his motion the grounds upon which he relies.

(2) The opposing party shall have 30 calendar days to file an answer to the motion, and the Board shall rule on the motion without oral argument thereon, unless otherwise ordered by the Board.

(ff) *Rule 32; optional procedure for small appeals*—(1) *Application.* (i) When the amount actually in dispute, or the dollar value of the relief sought, is $1,000 or less, the appellant may elect to have the appeal considered and decided under this rule.

(ii) Should the appellant not elect to prosecute an appeal pursuant to the optional procedure for small appeals, this rule shall not apply and the appeal will be considered in accordance with provisions of paragraphs (a) through (ee) of this section (Rules 1 through 31).

(iii) For the purpose of this rule the amount involved shall be considered to be the net amount actually in dispute. If the claim involves or includes a claim for time, the dollar-amount shall be determined by multiplying the number of days in dispute by the rate of liquidated damages specified in the contract.

(iv) If it is determined that the amount involved exceeds or may exceed $1,000, the parties shall be so informed and the appeal shall be considered in accordance with paragraphs (a) through (ee) of this section (Rules 1 through 31).

(2) *Authority.* Under this rule formal pleadings will not be required. A single law member of the Board, designated by the chairman as hearing member, shall have and exercise the full authority of the Board to conduct the appeal proceedings and, subject to the concurrence of a reviewing member, also designated by the chairman, to decide the appeal. If the two members do not agree on a decision, the chairman will assign the case to a panel for decision.

(3) *Procedure.* The procedure under this rule shall be as follows:

(i) Within 30 days after receipt of the contracting officer's findings of fact, the appellant shall notify the Board in writing of its election to proceed under this rule.

(ii) Appellant's notice of election shall be in duplicate and shall include the following:

(a) A simple statement of the amount and nature of the claim and the relief sought;

(b) A statement of all contentions in support of the appeal;

(c) Documentary evidence in support of the appeal;

(d) A statement as to whether the appellant elects an oral hearing.

(iii) The Board will furnish the contracting officer with a copy of appellant's submission.

(iv) Within 30 days after receipt of appellant's submission the contracting officer shall file with the Board an original and two signed copies of a statement or brief setting forth the Government's contentions in defense of the appeal. The Board will transmit one copy to the appellant by certified mail with return receipt required. The contracting officer will also file with the Board copies of all material documentary evidence in the Government's files. Such evidence will be available for inspection by the appellant in the offices of the Board.

(v) Questions as to lack of jurisdiction of the Board may be raised by either party or by the Board and shall be disposed of as a condition to consideration of the case on the merits.

(vi) If the appellant has not elected a hearing, the appeal will be considered on the record made by the parties under this rule.

(vii) If appellant has elected a hearing, the Board will notify the parties of the time and place. The hearing will be in the nature of an informal conference between the parties, presided over by the hearing member. A transcript of the proceedings will be made.

(viii) The hearing member may require either party to furnish additional information or documents if considered necessary to clarify, explain, or supplement the information contained in the record.

(ix) Decisions shall be as brief as circumstances permit and will be limited to a summary of the facts and conclusions. Copies will be promptly furnished to the parties. Such decisions will not be cited as a precedent.

§ 1.774 Miscellaneous provisions.

(a) *Limitations on award.* The decision of the Board shall not be in an amount, if any, greater than that claimed in the proceedings before the Board nor shall a decision otherwise grant relief greater than that so claimed by the appellant.

(b) *Litigation.* The Board will not proceed with consideration of an appeal if the matter is the subject of a lawsuit to which the United States is a party, unless:

(1) The appellant files with the Board a certified copy of a court order staying or suspending further court proceedings pending completion of administrative action by the Board; and

(2) Clearance is obtained from the Department of Justice for further administrative consideration and final disposition of the appeal.

(c) *Claims pending before the Comptroller General of the United States.* The Board will not proceed with consideration of an appeal while the same matter is involved in a claim pending before the Comptroller General unless clearance is secured.

(d) *Notification by parties.* The parties will promptly notify the Board of any litigation pending or any claim filed in the General Accounting Office, involving any matter in an appeal.

§ 1.775 Effective date.

Sections 1.770 through 1.775 are effective June 1, 1960, and shall apply to all appeals docketed on or after that date. Appeals docketed by the Board prior thereto shall be governed by the regulations in effect preceding June 1, 1960 (§§ 1.750 through 1.756).

(72 Stat. 1114; 38 U.S.C. 210).

This regulation is effective June 1, 1960.

[SEAL] BRADFORD MORSE,
Deputy Administrator.

[F.R. Doc. 60-4913; Filed, May 31, 1960; 8:48 a.m.]

PART 2—DELEGATIONS OF AUTHORITY

Construction Contract Appeals Board

Part 2, Chapter I of Title 38 of the Code of Federal Regulations is amended by adding new §§ 2.62, 2.63, 2.64 and 2.65 as follows:

§ 2.62 The Construction Contract Appeals Board authorized by Administrator to ascertain the facts and circumstances and to render and publish final decisions on appeals entered by contractors from decisions of Veterans Administration contracting officers in accordance with contract terms and §§ 1.770 through 1.775.

This delegation of authority is identical to § 1.771(a) of this chapter.

§ 2.63 The Construction Contract Appeals Board and its individual members authorized by Administrator to take such actions as may be necessary to hear and decide appeals including the administering of oaths and affirmations, the taking of testimony and affidavits, the conduct of hearings, the dismissal of proceedings and ordering the production of documents and other evidence.

This delegation of authority is identical to § 1.771(b) of this chapter.

§ 2.64 The Construction Contract Appeals Board authorized to take official notice of facts within general knowledge and to decide all questions necessary for complete adjudication of appeals.

This delegation of authority is identical to § 1.771(c) of this chapter.

§ 2.65 The Construction Contract Appeals Board authorized to require Veterans Administration contracting officers and other Veterans Administration officials having responsibility for or official knowledge of the design of projects, or the award, administration or supervision of construction or architect-engineer contracts, or of work performed thereunder, to furnish the Board such information, technical data, and similar assistance as the Board may require in the performance of its duties.

This delegation of authority is identical to § 1.771(d) of this chapter.

[SEAL] BRADFORD MORSE,
Deputy Administrator.

Title 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

SUBCHAPTER L—MINERAL LANDS

[Circular 2044]

PART 192—OIL AND GAS LEASES

Required Forms of Remittances To Accompany Simultaneous Offers

On page 1877 of the FEDERAL REGISTER of March 3, 1960, there was published a notice of proposed amendment of 43 CFR 192.43(c). The purpose of the proposed amendment was to require that remittances to accompany oil and gas lease offers filed simultaneously pursuant to § 192.43 be made by cash, money orders, certified checks, bank drafts, or bank cashier's checks.

Interested parties were given 30 days within which to submit written comments, suggestions or objections with regard to the proposed amendement. As the result of the comments and suggestions received during that period, the proposed amendment was changed to allow acceptance of an uncertified check to cover the filing fee required to be submitted with each offer. The last sentence of the proposed amendment, as it was published, has been deleted. As changed, the proposed amendment is adopted to read as follows:

Paragraph (c) of § 192.43 is amended to read as follows:

§ 192.43 Availability of lands to further lease offers where noncompetitive lease expires, is cancelled, relinquished or terminated.

* * * * *

(c) Each offer to lease must conform with the acreage requirements of § 192.42(d), and must be accompanied by separate remittances to cover payment of the filing fee and payment of the advance rental required by the regulations of this chapter. The remittance covering payment of the advance rental must be made by cash, money order, certified check, bank draft, or bank cashier's check. The filing fee may be paid by a similar remittance or by uncertified check.

This amendment shall become effective at the beginning of the thirtieth calendar day following the date of this publication in the FEDERAL REGISTER.

FRED A. SEATON,
Secretary of the Interior.

MAY 24, 1960.

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 2095]

[Sacramento 059131]

CALIFORNIA

Restoration of Public Lands From Power Withdrawal (Project No. 334)

In DA-968-California, issued June 16, 1959, the Federal Power Commission vacated the withdrawal created by the filing of application for preliminary permit for Project No. 334 on August 2, 1922, so far as it affects the following-described lands:

MOUNT DIABLO MERIDIAN

T. 14 N., R. 9 E.,
Sec. 25, lot 1.
Containing 40.62 acres, of which a small fraction has been patented in M.S. 5816.

The lands are located about four miles southeast of Colfax in Placer County.

This order shall not become effective to change the status of the lands until 10:00 a.m. on June 29, 1960. At that time the lands shall become subject to application, petition, location, and selection, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law.

The lands have been open to application and offers under the mineral leasing laws and to location under the United States mining laws.

The State of California has waived its preference rights of application.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Sacramento, California.

ROGER ERNST,
Assistant Secretary of the Interior.

MAY 24, 1960.

[F.R. Doc. 60-4865; Filed, May 31, 1960; 8:45 a.m.]

[Public Land Order 2096]

[Pierre 026099]

SOUTH DAKOTA

Partially Revoking Stock Driveway Withdrawal No. 208 (South Dakota No. 5)

By virtue of the authority vested in the Secretary of the Interior by section 10 of the act of December 29, 1916 (39 Stat. 865; 43 U.S.C. 300), as amended, it is ordered as follows:

1. Stock Driveway Withdrawal No. 208 (South Dakota No. 5), of February 13, 1930, as modified by the Departmental order of March 8, 1930, and as enlarged by the Departmental order of December 1, 1942, is hereby revoked so far as it affects the following-described lands:

BLACK HILLS MERIDIAN

T. 10 N., R. 6 E.,
Sec. 5, lots 1, 2, and SW¼SW¼;
Sec. 24, S½SE¼;
Sec. 25, SE¼NW¼, and NE¼SW¼;
Sec. 29, W½SW¼.
T. 11 N., R. 6 E.,
Sec. 33, SW¼.
T. 9 N., R. 7 E.,
Sec. 29, N½N½;
Sec. 30, NE¼NE¼.
T. 9 N., R. 8 E.,
Sec. 13, S½SE¼;
Sec. 15, SE¼NW¼.

The areas described aggregate 853.82 acres.

2. The lands are located in Butte County, South Dakota, east and north of the Town of Newell. Topography is level to rolling, and soils are generally sandy to rocky gumbo. The lands support a fair cover of native grasses.

3. Subject to any existing valid rights and the requirements of applicable law, the lands described in paragraph 1 hereof, are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public land laws may be presented to the Manager mentioned below beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) Until 10:00 a.m. on November 22, 1960, the State of South Dakota shall have a preferred right of application to select the lands in accordance with and subject to the provisions of subsection (c) of section 2 of the act of August 27, 1958 (72 Stat. 928; 43 U.S.C. 851, 852), and the regulations in 43 CFR.

(3) All valid applications and selections under the nonmineral public land laws, other than those from the State, presented prior to 10:00 a.m. on June 29, 1960, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands have been open to applications and offers under the mineral leasing laws, and to location under the United States mining laws.

4. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements, in support of their applications, setting forth all facts relevent to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands should be addressed to the Manager, Land Office, Bureau of Land Management, Billings, Montana.

ROGER ERNST,
Assistant Secretary of the Interior.

MAY 24, 1960.

[Public Land Order 2097]

[Idaho 010314]

IDAHO

Opening Lands Under Section 24 of the Federal Power Act (Power Site Reserve No. 117)

1. In DA-525-Idaho, issued March 26, 1959, and DA-536-Idaho, issued November 24, 1959, the Federal Power Commission determined that the value of the following-described lands will not be injured or destroyed for purposes of power development by location, entry, or selection under the public land laws subject to the provisions of section 24 of the Federal Power Act, as amended:

BOISE MERIDIAN

T. 11 S., R. 20 E.,
Sec. 4, lots 5, 6, and NW¼NW¼;
Sec. 5, lot 5.

The areas described contain 145.24 acres.

2. The lands are located in and on the north rim of the Snake River Canyon about six miles southwest of Milner Dam. The topography is undulating to rough and the soils are shallow with numerous lava outcrops.

3. By virtue of the authority vested in the Secretary of the Interior by Section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U.S.C. 818), as amended, the lands are hereby opened to location, entry and selection under the public land laws, subject to the provisions of Section 24 of the Federal Power Act, supra, and subject to valid existing rights, and the requirements of applicable law, in accordance with the following:

a. Applications and selections under the nonmineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes eneumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications and selections under the nonmineral public land laws presented prior to 10:00 a.m. on June 29, 1960, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands have been open to applications and offers under the mineral leasing laws, and to location under the United States mining laws, subject to the provisions of Section 24 of the Federal Power Act, supra, and the regulations in 43 CFR.

4. The State of Idaho has waived its preference right of application under section 24 of the Federal Power Act, and the act of August 27, 1958 (72 Stat. 928; 43 U.S.C. 851, 852).

5. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claim must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, BLM, Boise, Idaho.

ROGER ERNST,
Assistant Secretary of the Interior.

MAY 24, 1960.

[Public Land Order 2098]

[Washington 03817]

WASHINGTON

Opening Lands Under Section 24 of the Federal Power Act (Power Project No. 915)

By virtue of the authority contained in Section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U.S.C. 818) as amended, and pursuant to Determination DA-156-Washington of the Federal Power Commission issued August 5, 1958, it is ordered as follows:

1. Subject to valid existing rights and the requirements of applicable law, including the provisions of Section 24 of the Federal Power Act, supra, the following-described public lands are hereby opened to application, petition, location, entry and selection under the public land laws:

WILLAMETTE MERIDIAN

T. 40 N., R. 39 E.,
Sec. 15, SE¼SW¼.

The area described contains 40 acres.

2. The land lies on Sheep Creek and is bisected by the Sheep Creek County road five miles northwest of Northport, Washington. The topography is rough and mountainous and the vegetation is a good cover of coniferous timber.

3. Until 10:00 a.m. on November 22, 1960, the State of Washington shall have a preferred right of application to select the lands in accordance with and sub-

ject to the provisions of subsection (c) of section 2 of the Act of August 27, 1958 (72 Stat. 928; 43 U.S.C. 851–852), and the regulations in 43 CFR. During this period the State may also apply for the reservation to it or to any of its political subdivisions under any law or regulation applicable thereto, of any of the lands required for rights-of-way or materials sites, in accordance with the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U.S.C. 818) as amended.

4. Other applications and selections under the non-mineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(a) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications other than from those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(b) All valid applications and selections under the nonmineral public land laws presented prior to 10:00 a.m. on June 29, 1960, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

5. The lands have been open to applications and offers under the mineral leasing laws. They have also been open to location under the United States mining laws pursuant to the Act of August 11, 1955 (69 Stat. 682; 30 U.S.C. 621).

6. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regualtions.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Spokane, Washington.

ROGER ERNST,
Assistant Secretary of the Interior.

[Sacramento 055326]

CALIFORNIA

Partly Revoking Stock Driveway Withdrawal No. 161 (California No. 11)

By virtue of the authority vested in the Secretary of the Interior by section 10 of the act of December 29, 1916 (39 Stat. 865; 43 U.S.C. 300) as amended, it is ordered as follows:

1. The departmental order of October 30, 1922, reserving land for use by the general public as stock driveways, is hereby revoked so far as it affects the following-described lands:

MOUNT DIABLO MERIDIAN

T. 33 N., R. 1 W.,
Sec. 8, NW¼.
T. 34 N., R. 1 W.,
Sec. 12, NW¼NW¼.

The areas described contain 200 acres.

2. The lands are located in Shasta County near the town of Round Mountain, California.

3. Subject to any valid existing rights and the requirements of applicable law, the lands are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications and selections under the nonmineral public land laws presented prior to 10:00 a.m. on June 29, 1960, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands have been open to applications and offers under the mineral leasing laws and to locations under the mining laws, subject to the regulations in 43 CFR 185.35–185.36.

4. The State of California has waived the preference right of application granted to it by subsection (c) of section 2 of the act of August 27, 1958 (72 Stat. 928; 43 U.S.C. 851, 852).

5. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Sacramento, California.

ROGER ERNST,
Assistant Secretary of the Interior.

MAY 24, 1960.

[Public Land Order 2100]

[78863]

CALIFORNIA

Opening Lands Under Provisions of Section 24, Federal Power Act

1. In DA–942–California issued March 14, 1958, the Federal Power Commission determined that the value of the following described lands, withdrawn in Power Site Reserve No. 655, and Power Projects Nos. 382 and 1009, would not be injured or destroyed for purposes of power development by location, entry or selection under the public land laws, subject to the provisions of Section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U.S.C. 818) as amended, and subject to the prior right of the licensee for Projects No. 382 and No. 1009, and its successors and power permittees of the Department of the Interior, to use the lands for canal, conduit, and transmission line purposes; and subject to the condition that in the event the lands are required for power purposes, any improvements or structures placed thereon which shall be found to interfere with such development shall be removed or relocated as may be necessary to eliminate interference with power development, at no cost to the United States, its permittees or licensees:

MOUNT DIABLO MERIDIAN

T. 27 S., R. 32 E.,
Sec. 12, NE¼NW¼ and N½NW¼SW¼.

Containing 60 acres.

2. The land is near the town of Bodfish in Kern County. Vegetation consists of scrub oak, digger pine, ceanothus, and annual grasses.

3. Subject to any existing valid rights and the requirements of applicable law, including the provisions of Section 24 of the Federal Power Act, supra, and the provisos described in paragraph 1 hereof, and pursuant to authority contained in said act, the lands are hereby opened to filing of applications, selections and locations in accordance with the following:

a. Applications and selections under the nonmineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications and selections under the nonmineral public land laws presented prior to 10:00 a.m. on June 29, 1960, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands have been open to applications and offers under the mineral leasing laws. They have been open to location under the United States mining laws, subject to the provisos contained in section 1(a) of the act of August 11, 1955 (69 Stat. 681; 30 U.S.C. 621(a)), which remain applicable.

c. The State of California has waived its preference rights of application under section 24 of the Federal Power Act as amended, and under subsection (c) of section 2 of the act of August 27, 1958 (72 Stat. 928; 43 U.S.C. 851, 852).

4. The records of the Manager of the Bureau of Land Management at Sacramento, have been officially noted that the lands are under consideration for small tract classification under the act of June 1, 1938 (52 Stat. 609; 43 U.S.C. 682a) as amended. Small tract applications received subsequent to 9:30 a.m. on March 10, 1960, the date and hour of notation, will therefore not be accepted, in accordance with the regulations in 43 CFR 257.6e.

5. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Sacramento, California.

ROGER ERNST,
Assistant Secretary of the Interior.

MAY 24, 1960.

[Nevada 045177]

NEVADA

Withdrawing Public Lands for Use of the Federal Aviation Agency as Remote Control Air to Ground Communication Facility

By virtue of the authority vested in the Secretary of the Interior by section 4 of the Act of May 24, 1928 (45 Stat. 729; 49 U.S.C. 214), it is ordered as follows:

Subject to valid existing rights, the following-described public lands are hereby withdrawn from all forms of appropriation under the public land laws, including the mining and mineral leasing laws but not the disposal of materials under the Act of July 31, 1947 (61 Stat. 681; 69 Stat. 367; 30 U.S.C. 601–604), as amended, and reserved under jurisdiction of the Department of the Interior for use of the Federal Aviation Agency in the maintenance of air-navigation facilities, under such terms and conditions as may be prescribed by the Bureau of Land Management, Department of the Interior:

MOUNT DIABLO MERIDIAN

In SW¼SE¼SE¼ and SE¼SW¼SE¼ sec. 33, T. 1 N., R. 66 E., and in unsurveyed T. 1 S., R. 66 E., all lands within a 1,000 feet radius of the center of a parcel described as follows:

Beginning at a point which is 1,300 feet west and 210 feet south of the south corner common to secs. 33 and 34, T. 1 N., R. 66 E., thence south 230 feet, thence west 170 feet; then north 230 feet; thence east 170 feet to the point of beginning. The southeast corner of this site is 110 feet north of USC&GS BM, Elevation 9,395 feet, on a summit of Highland Peak.

The tract described contains approximately 72 acres.

ROGER ERNST,
Assistant Secretary of the Interior.

CALIFORNIA

Partially Revoking the Reclamation Withdrawal Order of June 3, 1942 (Central Valley Project)

By virtue of the authority vested in the Secretary of the Interior by section 3 of the act of June 17, 1902 (32 Stat. 388; 43 U.S.C. 416), it is ordered as follows:

1. The departmental order of June 3, 1942, which withdrew lands in California for reclamation purposes in the first form in connection with the Central Valley Project, is hereby revoked so far as it affects the following-described lands:

MOUNT DIABLO MERIDIAN

T. 32 N., R. 5 W.,
Sec. 1, lots 1, 2, and S½NE¼.

The areas described contain 160 acres.

2. The lands are located one mile south of Central Valley in Shasta County, or about five miles north of Redding. The rolling lands of about 750 feet elevation are covered by a vegetative growth of oak, brush and grasses.

3. Subject to any valid existing rights and the requirements of applicable law, the lands are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications and selections under the nonmineral public land laws presented prior to 10:00 a.m. on June 29, 1960, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands have been open to applications and offers under the mineral-leasing laws. They will be open to location under the United States mining laws beginning at 10:00 a.m. on June 29, 1960.

4. The State of California has waived the preference right of application granted to it by subsection (c) of section 2 of the act of August 27, 1958 (72 Stat. 928; 43 U.S.C. 851, 852).

5. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Sacramento, California.

ROGER ERNST,
Assistant Secretary of the Interior.

Sec. 35, S½S½.

The areas described aggregate approximately 130,691 acres.

The lands were made subject to appropriation, location, selection, entry or purchase, if otherwise available under the nonmineral public land laws, with a reservation of the minerals to the United States, by the act of July 17, 1914 (38 Stat. 509; 30 U.S.C. 121). They are either known to be productive of oil and gas or are considered prospectively valuable for oil and gas. Any disposals of the lands, therefore, shall be subject to the reservation required by the act of July 17, 1914. They have been open to applications and offers under the mineral-leasing laws and to locations for metalliferous minerals, subject to provisions of the act of August 13, 1954 (68 Stat. 708; 30 U.S.C. 521, et seq.). They will be open to location for nonmetalliferous minerals under the United States mining laws, including the said act of August 13, 1954, subject to valid existing rights and the provisions of existing withdrawals, at 10:00 a.m. on June 29, 1960.

ROGER ERNST,
Assistant Secretary of the Interior.

[84458]

WASHINGTON

Power Site Cancellation No. 145; Cancelling Power Site Classification No. 73

By virtue of the authority contained in the act of March 3, 1879 (20 Stat. 394; 43 U.S.C. 31), and as Secretary of the Interior, it is ordered as follows:

Power Site Classification No. 73, approved June 3, 1924, which classified the following-described lands for power purposes, is hereby cancelled:

WILLAMETTE MERIDIAN

T. 17 N., R. 7 E.,
Sec. 4, lots 1, 2, 3, 4, 9, 10, 11, 12, and N½S½.
T. 18 N., R. 7 E.,
Sec. 34, S½N½ (comprising lots 5, 6, 7, and 8) and S½.

The areas described aggregate 872.42 acres.

Portions of Section 34 are within the Mount Rainier National Park. The remaining lands are within the Snoqualmie National Forest. The national forest lands at 10:00 a.m. on June 29, 1960, shall be open to such forms of disposition as may by law be made of national forest lands.

ROGER ERNST,
Assistant Secretary of the Interior.

MAY 24, 1960.

[Public Land Order 2107]

ALASKA

Correcting Certain Public Land Orders

By virtue of the authority vested in the President, and purusant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

[52799]

1. In Federal Register Document 53-1313, appearing as Public Land Order No. 883 of February 3, 1953, at page 827 of the issue of February 10, 1953, the second course of the land description for Tract 1, described as "S. 36°30' W." is hereby corrected to read "S. 36°30' E."

[Fairbanks 012558]

2. In Federal Register Document 57-9437, appearing as Public Land Order No. 1550 of November 7, 1957, at pages 9107-8 of the issue of November 15, 1957, the coordinates of latitude for the Slime Creek Area are corrected to read "latitude 63°30'36'' N.", rather than "latitude 69°30'36" N."

[Fairbanks 022950]

3. In Federal Register Document 60-632, appearing as Public Land Order No. 2045 of January 18, 1960, at page 535, of the issue of January 22, 1960, the last two courses given as "S. 21°42' E." and "N. 68°18' E." are hereby corrected to read "S. 21°42' W." and "N. 68°18' W."

[Fairbanks 021329]

4. In Federal Register Document 60-1110, appearing as Public Land Order No. 2048 of January 29, 1960, at page 951 of the issue of February 4, 1960, the third course in the description of Parcel 3, given as "N. 22°05'' W." is hereby corrected to read "N. 22°05' W."

ROGER ERNST,
Assistant Secretary of the Interior.

[Anchorage 032892]

ALASKA

Modifying Executive Order No. 2242 of August 31, 1915, and Reserving Certain Lands for Use of the Alaska Railroad for Railroad Purposes

By virtue of the authority contained in the act of March 12, 1914 (38 Stat. 305, 307; 48 U.S.C. 304), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Alaska reserved by Executive Order No. 2242 of August 31, 1915, for townsite purposes in connection with the construction and operation of railroad lines, are hereby reserved for use of the Alaska Railroad for railroad purposes:

Base Addition to Anchorage Townsite Block 41-D, containing 2.066 acres.

Executive Order No. 2242 is hereby modified to the extent necessary to permit the use of said lands for the purposes stated.

ROGER ERNST,
Assistant Secretary of the Interior.

[Public Land Order 2109]

[Montana 032361]

MONTANA

Partially Revoking the Executive Order of April 17, 1926, Which Created Public Water Reserve No. 107

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U.S.C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. The Executive order of April 17, 1926, creating Public Water Reserve No. 107, is hereby revoked so far as it affects the following-described lands in Montana:

PRINCIPAL MERIDIAN

T. 24 N., R. 27 E.,
Sec. 14, S½NE¼.
T. 29 N., R. 33 E.,
Sec. 5, S½NW¼ and NE¼SW¼;
Sec. 8, S½SW¼ and SW¼SE¼.
T. 25 N., R. 34 E.,
Sec. 5, SE¼.
T. 26 N., R. 34 E.,
Sec. 13, NW¼;
Sec. 35, NE¼.
T. 27 N., R. 34 E.,
Sec. 26, NE¼.
T. 25 N., R. 36 E.,
Sec. 20, W½NE¼ and E½NW¼;
Sec. 32, SE¼.
T. 26 N., R. 36 E.,
Sec. 31, lots 3, 4, and E½SW¼.

The areas described aggregate 1,434.01 acres.

2. The lands are located 30–35 miles southeast of Malta, Montana in Phillips and Valley counties.

3. Subject to any valid existing rights and the requirements of applicable law, the lands are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) Until 10:00 a.m. on November 23, 1960, the State of Montana shall have a preferred right of application to select the lands in accordance with and subject to the provisions of subsection (c) of section 2 of the act of August 27, 1958 (72 Stat. 928; 43 U.S.C. 851–852) and the regulations in 43 CFR.

(3) All valid applications and selections under the nonmineral public land laws presented prior to 10:00 a.m. on June 30, 1960, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands have been open to applications and offers under the mineral-leasing laws, and to location for metalliferous minerals. They will be open to location for nonmetalliferous minerals under the United States mining laws beginning at 10:00 a.m. on November 23, 1960.

4. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, BLM, Billings, Montana.

ROGER ERNST,
Assistant Secretary of the Interior.

MAY 25, 1960.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 958]

[AO-146 A-1]

IRISH POTATOES GROWN IN COLORADO

Decision With Respect to Proposed Amendments to Marketing Agreement and Marketing Order

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674), and the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Denver, Colorado, on February 1–2, 1960, pursuant to notice thereof, which was published in the FEDERAL REGISTER (25 F.R. 353), upon proposed amendments to Marketing Agreement No. 97 and Order No. 58, regulating the handling of Irish potatoes grown in the State of Colorado.

Upon the basis of the evidence introduced at the aforesaid hearing, and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on April 22, 1960, filed with the Hearing Clerk, U.S. Department of Agriculture, the recommended decision in this proceeding. The notice of the filing of such recommended decision affording opportunities to file written exception thereto was published April 27, 1960, in the FEDERAL REGISTER (25 F.R. 3653).

Rulings. Within the period provided therefor, three exceptions to the proposed amendments to the marketing agreement and order for Irish potatoes grown in the State of Colorado were filed by J. L. Johansen, Jr., Manager for the Proponents of the Amendments. Each exception was given careful consideration in conjunction with the evidence pertaining thereto in arriving at the findings and conclusions set forth herein.

The first exception refers to § 958.23(e) and contends that the handling of common or noncertified seed should be limited to the area, i.e., either Area 1, Area 2, or Area 3, in which such seed is produced. Regulation of the handling of noncertified seed for local planting is provided for under authority for special handling with safeguards related to specific geographic limitations. Upon approval of the Secretary, such handling may be limited in accordance with area committee judgments to each area or to other limited geographic areas. Also to the extent that such handling is in interstate commerce, or directly burdens, obstructs, or affects such commerce, area committees are authorized to recommend appropriate limitations on such handling of noncertified seed to prevent it from entering tablestock marketing channels. Additionally, with respect to State-wide policies on regulation of special purpose shipments, the proposed order provides that area committees may cooperate for the purpose of administering regulations pertaining to such shipments. Therefore, inasmuch as the terms and conditions of the proposed marketing agreement and order as presently drafted embrace authority for effectuating the objectives of this exception it is found that provision is made therefor. Hence, to the extent that the exception is at variance with the findings and determinations contained herein, it is denied.

Secondly, exception is taken to that portion of § 958.40(b), which provides that area committees, with approval of the Colorado Potato Committee, may recommend issuance of rules by the Secretary requiring inspection on regraded, resorted or repacked lots, or providing for special inspection requirements or relief therefrom on the ground that such recommendations should emanate exclusively from the Colorado Potato Committee. This exception is granted, therefore, the reference to area committees in this section is eliminated by deleting from the first sentence thereof "of area committees with approval."

Thirdly, exception is taken to the requirement for unanimous approval of respective area committees that may be affected by proposed re-establishment of areas, subdivisions thereof or the distribution of representation among such subdivisions, or among marketing organizations as provided for in § 958.53. This exception is granted and the word "unanimous" in the second sentence of this section has been deleted.

Material issues. The material issues presented on the record of the hearing are as follows:

(1) The existence of the right to continue exercising Federal jurisdiction;

(2) The need for amending the existing regulatory program to accomplish the declared purposes of the Act;

(3) The identity of the persons and the transactions to be regulated;

(4) The specific terms and provisions of the proposed order, including all those set forth in the notice of hearing and those applicable to:

(a) The definition of terms incidental to and necessary for administering the terms, conditions, and provisions of the proposed order;

(b) The adoption of a marketing policy which limits by means of a General Cull Regulation the handling of potatoes grown in the production area and provision for each area committee to consider and recommend marketing policies for handling potatoes produced in their respective areas;

(c) The methods, in addition to the General Cull Regulations, for limiting the handling of potatoes grown in the production area;

(d) The establishment of authority for issuing minimum standards of quality and maturity;

(e) Authorizations for special consideration for particular market outlets whereby specific demands may be properly supplied, orderly marketing may be established and maintained, and farmers' prices may be improved;

(f) The relaxation of regulations in hardship cases and the methods and procedures applicable thereto;

(g) The authority to establish research and development projects under the proposed order;

(h) The requirements for inspection and certification of the commodity involved;

(i) The establishment, maintenance, composition, powers, duties and operation of administrative agencies for assisting the Secretary in administration of the proposed order;

(j) The authority to incur expenses and to levy assessments on the commodity handled;

(k) The procedure for establishing reporting requirements on handlers;

(l) The requirements of compliance with all provisions of the proposed order and regulations issued pursuant thereto;

(m) Additional terms and conditions as set forth in § 958.80 through § 958.96 and published in the FEDERAL REGISTER (25 F.R. 353; January 15, 1960) which are common to marketing agreements and marketing orders.

(n) Provisions for regulations, rules, or regulations in effect under the present order being maintained in effect until amended, modified, suspended or terminated under the proposed order.

(5) The making of such other changes as may be necessary to conform the proposed order with the purpose and intent of the amendments.

Findings and conclusions. The findings and conclusions pertaining to the aforementioned material issues and based on hearing record evidence are as follows:

(1) Colorado is one of the important potato producing states and has been for a number of years. Potato production is concentrated in three major districts within the state namely, that part of the state west of the Continental Divide commonly referred to as the Western Slope, the San Luis Valley, and the remainder of the state including both the northern district and the Arkansas Valley. For the 1957 Colorado potato crop an estimated 10.8 million cwt, were produced, of which 4,058 carlots were shipped by rail and 15,187 were by truck. Also for the 1958 crop, 13.5 million cwt, was Colorado's estimated production, with 4,843 carlots shipped by rail and 16,530 carlot equivalents by truck.

Carlot unloads of potatoes are reported in 100 U.S. and 5 Canadian cities during 1957 showing 2,319 rail carlot unloads of Colorado potatoes and 5,774 carlot equiv-

alent truck unloads in 39 U.S. cities. Similarly, during 1958, 3,283 carlot rail unloads and 5,673 carlot equivalent truck unloads of Colorado potatoes were reported in these major markets. Chicago, Kansas City, Little Rock, Memphis, New Orleans, Springfield, Missouri, Topeka, Tulsa, and Wichita, Kansas are important out of state market centers for rail unloads of Colorado potatoes. Denver also is an important market within the state and also is a point of reshipment for potatoes to points outside the production area. Each of the above named cities shows unloads of 100 or more rail cars during the years indicated. Also, Chicago, Dallas, Fort Worth, Kansas City, Missouri, New Orleans, San Antonio, and Wichita are important out of state markets for truck unloads, showing more than 100 carlot equivalents unloaded in each. Denver is an important market for Colorado potatoes, many of which are consumed within the state and a sizable volume is reshipped to markets outside the production area.

Price movement for Colorado potatoes tends to be similar between out of state receiving markets such as Chicago, Kansas City, Dallas, and St. Louis, and the prices reported at shipping point for northern district Colorado and for San Luis Valley shipping points.

Order No. 58 which became effective August 30, 1941, has operated continuously under regulations since 1949. The General Cull Regulation, issued as § 958.301 (14 F.R. 3979) has been effective since July 18, 1949.

Additional grade and size regulations were also issued pursuant to the order for each of the three areas established thereunder during the 1949 season, also for each succeeding season up to and including the 1959–1960 season.

Order No. 58, as issued in 1941, has operated since 1949 in cooperation and coordination with the State of Colorado Potato Marketing Order identified as docket No. A–4. The State has issued rules and regulations, including grade, size, and quality regulations on handling of Colorado grown potatoes which were substantially the same as those issued under the Federal Order. The State program applied within its jurisdiction and the Federal program applied to Colorado potatoes handled under its jurisdiction. It is hereby found that all sales of potatoes grown in the production area which are in the current of the commerce between the production area and any point outside thereof or which are intended for distribution outside of such production area, and all shipments of such potatoes in the current of the commerce between the production area and any point outside thereof, are in the current of interstate or foreign commerce or directly burden, obstruct, or affect such commerce. It is concluded therefore, that the right to exercise Federal jurisdiction is established and the continuing right to exercise such jurisdiction with respect to the proposed order for Colorado potatoes, hereinafter set forth, is established.

(2) Marketing Order No. 58 as issued in 1941 was based on evidence of marketing conditions at that time and provided authorization determined to be necessary and allowable by the then existing terms and provisions of the Act. The intervening two decades have witnessed general and specific changes in supplies, demand, and market conditions for Colorado potatoes. Also, experience in administering the order has indicated the desirability and necessity for changing some of the order's terms and provisions in order to promote orderly marketing and to improve prices for Colorado potato growers. Some of these needs can be accommodated through authority provided by amendments to the Act since Order No. 58 was made effective.

Prices received by Colorado farmers for potatoes have ranged from 42 to 92 percent of the State parity equivalent price during the seasons 1953 through 1959. Insomuch as the objectives of the Act are to establish and maintain such orderly conditions for agricultural commodities (including potatoes) in interstate commerce as will establish as the price to farmers' parity prices, the need for the proposed order is thoroughly apparent.

It is concluded, therefore, on the basis of the foregoing that adequate need exists for the proposed order as hereinafter set forth.

(3) "Handler" or "shipper" are synonymous and are so defined under the proposed order.

The sale or transportation of potatoes grown in the production area places or has the effect of placing such potatoes in market channels and making them part of the current of the commerce in such potatoes. Prices received by growers for potatoes grown in the production area are directly related to the market structure for, and commerce in, potatoes.

Any person who sells, transports, or in any other way handles potatoes grown in the production area is a handler. Handlers included within the definition set forth in the proposed order are any or all those persons who by reason of their activities place or have the effect of placing such potatoes in interstate commerce, or directly burdening, affecting, or obstructing such commerce.

More than one handler may be involved in the handling of a given lot of potatoes and each such person should be responsible for complying with the terms of the proposed order.

Common or contract carriers transporting potatoes which are owned by another person are performing a handling function or activity insomuch as they are transporting potatoes, but such handling should not be regulated under the proposed order because such carriers are not responsible for the introduction of such potatoes in the current of the commerce in potatoes. Neither are they responsible for the grades, sizes, qualities, or other similar market factors affecting the commerce in potatoes which they are transporting.

The responsibility for the grade, size, quality, maturity, or pack of such potatoes delivered to a common or contract carrier, with the consequent effect of such sale or transportation upon the market for potatoes and the price of such potatoes to growers, should be borne by the person or persons responsible for delivering such potatoes to the carrier or by the person, including his agent or agents, who cause such potatoes to be delivered to such carriers.

The bulk, estimated at 90 percent or more, of the potatoes marketed from those grown in the production area are customarily handled by established packing houses. Packing house operators obviously would be handlers because their normal activity includes selling or transporting potatoes. However, some potatoes are placed in the current of the commerce and marketed by growers who sell to truckers or others. The grower, by reason of sale of such potatoes, handles them and thereby becomes a handler. Also, the person who transports or is responsible for the transportation of such potatoes handles them and thereby is a handler.

Order No. 58 defined handler as any person who first handles potatoes. It was testified that this limitation was unrealistic since it tended to hold one person responsible for the acts of other persons over whom he had no control. Therefore, this limitation on only the first person handling potatoes is removed under the proposed order so that all persons who sell or transport potatoes are handlers and as such bear the responsibility for complying with program requirements.

Therefore, the term "handler" or "shipper" should be defined to mean any person (except a common or contract carrier of potatoes owned by another person) who handles potatoes.

"Handle" or "ship" are synonymous as defined in the proposed order. The definition is substantially the same as under the present order.

The usual or customary marketing of potatoes grown in the production area results in the bulk of the marketed crop going through established packing houses. Prior to packing, the potatoes are produced, dug, and harvested. These activities are producer functions included within his capacity as a producer. Immediately following harvest, the so-called early potatoes customarily are hauled to the packing plant and late potatoes to the storage or packing house. The potatoes, upon delivery to the packing plant from the field or storage, are prepared for market by separating them as to grades and sizes, as well as other market factors, then they are offered for sale or delivered on prior sales. The potatoes, as separated into marketable grades, sizes, qualities, maturity, and packs, are sold in existing market outlets, with customary price differentials, as recorded, due to quality and other market factors. These activities and the resulting transportation of potatoes essential to delivery and consummation of

sales contracts encompass the activities involved in the bulk of potatoes grown in Colorado and marketed through the institutional trade or retail outlets.

Seed potatoes are produced under special conditions to insure their positive qualities and freedom from disease which, if properly qualified, are certified to by an appropriate State agency. The marketing process for seed involves much the same activities, especially sale and transportation, by established packing houses and dealers as for potatoes distributed as table stock through institutional and retail outlets.

Some Colorado potatoes also are sold, transported, or otherwise placed in the current of commerce in other manners. At times potatoes immediately following digging are picked up either mechanically or by hand and a separation is made at this time which leaves some potatoes behind and others are placed in containers and transported to market either by rail or truck. Such potatoes sometimes do not go through a packing house and over conventional type grading equipment, however, some grading takes place in that they are prepared for the market in which they are sold. While the amount of potatoes handled in this manner is relatively small, such sales or transportation of potatoes have a direct effect upon the potato market and the prices received by growers for potatoes. It is common practice in some Colorado areas to "field grade" the potatoes so that some separation of sizes takes place, also some poor quality potatoes are thrown out. Potatoes which have been separated into lots as part of the necessary preparation for market are sold or disposed of in various outlets. Some may be held for local sale, or use, while some also may be sold in other fresh market outlets. Also, some may be disposed of for chips, livestock feed, starch, depending upon the favorable returns. The acts of persons making such sales or causing such sales to be made, or of the person who transports, or who causes the transporting of potatoes to market, each constitutes handling of such potatoes.

The movement of potatoes from the field where grown to storage or to chipping plants or other processing outlets, also the similar movements of potatoes from storage to the above outlets, is within the definition of handle because such potatoes are then in commercial market channels affecting growers prices.

The movement to fresh market of potatoes which have been graded is included in the definition of "handle". Also, the movement or sale of potatoes which have been graded, but which are not a part of tablestock supplies, including culls, pickouts, or other off-grade, off-size, or odd type potatoes, is handling. Such movement is included within the activity of transporting potatoes to market, even though the market for livestock feed, starch, or other processing differs from tablestock market outlets. Such transportation is a handling activity. These activities with respect to disposition of off-size or peculiar quality potatoes, or of any Colorado potatoes, in processing, salvage, or other market outlets are within the definition of "handle" and should be subject to appropriate regulatory authority under the proposed order.

The sale or movement of Colorado potatoes between established dealers or packing houses is a handling activity. So also is the sale or movement of potatoes between shipping point dealers and repacking plants. These activities place or have the effect of placing Colorado potatoes involved therein in the current of the commerce establishing the market structure for potatoes.

On the basis of the foregoing it is concluded that the sale or transportation of potatoes grown in the production area places such potatoes in the current of the commerce in potatoes and that the placing of such potatoes in the current of the commerce is within the definition of "handle" or "ship" in the proposed order to the extent that such commerce is interstate commerce, or it directly burdens, obstructs, or affects such commerce. Therefore, the definition of "ship" or "handle" should be as set forth in the proposed order.

(4) Certain terms and provisions of the proposed order should be defined and explained for the purpose of designating specifically their applicability and limitations whenever they are used.

(a) The terms "Secretary", "Act", and "person" are used in marketing agreements and marketing orders effective under the statute and indicate, respectively, the officials of the Department of Agriculture who may exercise authority under the proposed order, the official citations of the legal authority for the program, and the identity of the individuals and others embraced within the meaning of the term "person". The use of such terms in the proposed order is essential to the basic framework thereof and should therefore be defined as set forth therein.

"Area" is defined in the proposed order to mean each of the geographical subdivisions of the production area, either as established or as later reestablished under authority of the proposed order. Areas are established, or may be later reestablished, as a basis for administrative jurisdiction by each area committee and for geographically delimiting regulations. The subdivisions of the production area have served adequately and equitably, as well as in accordance with commonly accepted and customary administrative subdivisions for agricultural purposes, in administration of the order since its inception and, particularly, since July, 1949, to the present. These area subdivisions should provide a practical basis for the purposes intended.

The definitions of "potatoes", "producer", and "culls" have proven adequate, equitable, and practical in the past ten seasons' operation of Order No. 58. No change in definition from those set forth in the present order was contemplated, therefore these definitions should be as set forth in the proposed order.

The terms "seed potatoes" or "seed" are commonly used in the production area. "Seed" or "seed potatoes", a term used to distinguish seed potatoes from tablestock potatoes, should be defined to include only those potatoes grown in the production area which are officially or otherwise appropriately identified by the official Colorado potato seed certifying agency.

"Fiscal period" should be defined to mean the period beginning and ending on the date as recommended by the committee and approved by the Secretary. This definition provides authority for each area committee to recommend the dates for the fiscal period, so that auditing and financial problems may be dealt with realistically, also so it will be possible for the committee to consider budgeting for longer than a 12-month period to facilitate financing long term research projects. The flexibility of the definition as set forth in the proposed order should facilitate operations under the program.

Definitions of "grade", "size", and "maturity" are incorporated in the proposed order to enable all persons affected thereby to determine the requirements thereof and to interpret specifically and intelligently regulations issued in such terms. "Grade", "size", and "maturity", the essential terms in which regulations are issued, should be defined as comprehending the equivalents of the meanings assigned to these terms (i) in the official standards for potatoes issued by the United States Department of Agriculture (7 CFR §§ 51.1540 to 51.1556 and §§ 51.1575 to 51.1587), (ii) in the State standards for potatoes issued by the State of Colorado, (iii) in modifications or amendments of such standards, and in variations of such standards by regulations under the proposed order. Regulations under the proposed order can then use such terms with the constant meaning assigned thereto in such standards, or in such modified or amended standards, or such regulations can vary such terms by prescribing, for example, a percentage of a grade, as may be required at the time of issuing regulations.

The United States Standards for Potatoes provide means for measuring or determining maturity of potatoes. According to the same standards, "mature" means that the outer skin (epidermis) does not loosen or "feather" readily during ordinary handling and that practically no skin has been removed from the potatoes. They set forth various skinning classifications. "Maturity" as now used by the industry, and as interpreted by Federal-State inspectors and certified on the basis of such inspections, means the basis, as set forth in the aforesaid skinning classification, or modifications or adaptations thereof, for determining the extent or degree to which any lot of potatoes is mature, or falls short of qualifying as mature potatoes. "Maturity", therefore, should be defined as set forth in the proposed order.

"Varieties" is defined as set forth in the proposed order as a basis for officially distinguishing the characters associated with particular lots of potatoes and their relationship to market reac-

tions. Potato tubers of any variety tend to fall in one or another group showing similar characteristics. Colorado produces numerous varieties of potatoes, several of which are well known and result in specific, distinguishable market reactions. The San Luis Valley produces and is widely known for red skinned potatoes, particularly the Red McClure variety or type. That area also produces some round type potatoes, such as the Cobblers and Kennebec varieties, as well as some long varieties, such as the Russett Burbank. Northern Colorado produces round white varieties, also, such as Cobblers, Kennebecs, and Katahdins, as well as long varieties such as Russett Burbanks and Early Gems. The Western Slope produces both round white and long varieties.

The definition of "varieties" as set forth in the proposed order establishes a commonly accepted and practical basis for administration of the proposed order.

The term "pack" is commonly used throughout the production area by the potato industry and refers to one or more of a combination of factors relating to quantity, grade, size, weight, or container or any combination of these factors. For example, it is a common practice to differentiate packs on the basis of 100-pound packs or 50-pound packs. Differences in packs are also recognized by grade, such as U.S. No. 1 pack or U.S. No. 2 pack. Packs may be recognized by particular sizes such as Size A or Size B pack, or it may be desirable to designate the number of potatoes in a container. For example, potatoes of uniform size may be marketed by count in a carton or box and designated as size 60 or 60 count per carton. It is essential that differentiation should be authorized in the proposed order so that appropriate regulations may be tailored to a particular pack and the marketing demand therefor may be made effective and thereby tend to achieve the declared policy of the act. "Pack" should be defined so as to provide a basis for distinguishing the various sizes of shipping units in which potatoes are packed as well as the contents of the packages in terms of the quantity of potatoes or the grade or size thereof. Accordingly, the term "pack" should be defined as set forth in the proposed order.

"Container" is defined in the proposed order as a basis for differentiating among the numerous shipping units in which potatoes move to market and for the permissible application of different regulations to such different shipping units. The principal containers used at present in marketing potatoes are burlap bags, paper bags, mesh bags, paper and mesh bags, polyethylene bags, boxes, pallets, and bulk loads.

The definition of "committee" is incorporated in the proposed order to identify the administrative agencies responsible for assisting in the administration of the program. "Committee" means each of the area committees, or the Colorado Potato Committee, as the respective reference in the proposed order may be, which are authorized by the act and which are necessary and incidental to the operation of the proposed order.

"Export" is defined in the proposed order because regulations different than for domestic shipments are authorized thereunder for export shipment. Export markets may have requirements which differ from the domestic markets and special regulations may be justified. "Export" should be defined to include all shipments of potatoes outside the continental United States.

(b) Order No. 58 was promulgated in 1941 on the basis, among other considerations of conclusive evidence, that a General Cull Regulation prohibiting the shipment of cull potatoes to fresh market outlets should be in effect at all times throughout the State of Colorado. This policy has been followed since the order began operations in July 1949 as both required and accepted marketing policy. Experience has proven its soundness in Colorado with potato growers and handlers in that production areas subscribe to and support such marketing policies. It is hereby found that growers and handlers desire, and good cause exists for continuation of such policies in the interest of promoting and maintaining orderly marketing for Colorado potatoes. Therefore, it is concluded that the proposed order should provide for establishing a General Cull Regulation throughout the production area, except when it is found, pursuant to Colorado Potato Committee recommendations, or other available information, that such policy and regulations for carrying out such policy should be modified or suspended.

When supply, demand, or price factors for Colorado potatoes warrant consideration of modification or suspension of the General Cull Regulation, the Colorado Potato Committee may consider doing so. Insomuch as the General Cull Regulation applies to the entire production area, recommendations for modification or suspension thereof for specified periods should rest primarily with the Colorado Potato Committee, as set forth in the proposed order. Such suspensions or modifications may apply to any or all varieties of potatoes but should be for specified periods, so that the established marketing policies with respect to culls shall continue except when expressly and specifically modified or suspended.

Order No. 58 obliges each area committee to submit marketing policy reports in connection with their recommendations for grade, size, or quality regulations. Area committee experience during the 1949 and subsequent marketing seasons has proven these terms and conditions to be satisfactory, acceptable and desirable for the industry, also administratively feasible, beneficial, and appropriate standards for operation. The terms and conditions in the proposed order requiring area committees to submit marketing policy reports to the Secretary in connection with any regulations recommended is found to be incidental to, not inconsistent with, and necessary to effectuate, the other provisions of the order. The guides and standards for considerations to be followed in determining marketing policies are found to be reasonable and practical, as well as the type of considerations which growers, handlers and others commonly consider in evaluating supply, demand, price, and general market factors affecting potatoes. It is concluded, therefore, that the terms and conditions requiring each area committee to submit marketing policy reports should be as set forth in the proposed order.

(c) Each area committee, also the Colorado Potato Committee, is established as an administrative agency with specified powers and duties in administering the terms and conditions of the proposed order. Important powers and duties are those relating to recommendations for regulations. Each area committee, also the Colorado Potato Committee, has assisted in administration of Order No. 58 through the 1949 and subsequent seasons. Their experience in considering and recommending regulations under Order No. 58 has proven feasible, satisfactory, and necessary both to the industry and to effective administration of the order. It is concluded, therefore, that each area committee, also the Colorado Potato Committee, should have responsibility and authority for recommending to the Secretary any or all regulations as authorized by the terms and conditions of the proposed order.

The declared policy of Congress through the exercise of the powers conferred upon the Secretary of Agriculture under the Act is to establish and maintain such orderly marketing conditions for agricultural commodities, including potatoes, in interstate commerce as will establish, as the prices to farmers, parity prices. The Act, pursuant to this and additional declarations, authorizes certain terms and conditions which may be contained in marketing orders relating, among others, to grades, sizes, or qualities of commodities marketed, inspection requirements, pack or container regulations, and establishment of research and development projects.

Order No. 58 has been administered during the 1949 and subsequent seasons so as to approach the declared policy of establishing parity prices through limitations, as market considerations so determined of grades, sizes, and qualities of Colorado potatoes being marketed. Approximately a decade of such marketing experiences conclusively substantiates, as attested by Colorado growers and shippers of the need for continuing similar authority under the proposed order. The committees in recommending amendments, as authorized, and committe members selected as witnesses for the industry, testified that authority for limiting the handling of potatoes grown in the production area by grade, size, or quality limitations should be continued, with appropriate modifications offering more flexibility and greater adaptability of operations than heretofore, under the proposed order.

Witnesses, with many years experience as growers, handlers, and committee members, presented substantial evidence on the importance of fresh market, seed, processing, and other market outlets. They emphasized the need for authority in the proposed order to give adequate and comprehensive consideration to the

total quantity and composition of potato supplies, the nature and measure of demand in various types of outlets, and a reasonably effective and balanced consideration to available means for establishing and maintaining orderly marketing conditions for their entire crop not only with a view to accomplishing the purposes of the Act, but also, and within the same declared policy, for maximizing their returns. Substantial evidence is found of the need for the growers and handlers on committees to consider market factors relating to all segments of the supply of Colorado potatoes, the nature and extent of demand for such potatoes in all outlets, and the prices received therefor.

Potato prices in receiving markets, also at shipping points, and, in turn, to producers are directly affected by the quantity and quality of potatoes being sold or transported, and available for current or future sale or transportation during any period. Prices for Colorado potatoes fluctuate from day to day throughout the seasons. Such fluctuations apply not only to receiving markets, but also to shipping point markets, and to prices paid growers. Different prices are paid in receiving markets, also at shipping point for different varieties of potatoes, also for different grades, qualities, sizes, maturities, and packs thereof. In turn, these differentiations in market value attributes of specific lots of potatoes are reflected in growers' prices. Varying packs of different varieties, which reflect not only varietal differences, and also grade, size, or quality, as marketed in different weight, size, count, or container units, reflect market reaction to the methods and manner in which supplies are placed in the current of the commerce in potatoes. Shifts in the quantity of certain grades, sizes, or quality of particular varieties placed on the market are reflected in shifts in prices therefor and in the acceptability of potatoes marketed from the production area.

It is found that price differentials for Colorado potatoes are related directly and specifically to different grades, sizes, qualities, or maturities as they may apply to different varieties of potatoes. Similarly, price differentials also apply to potatoes in different containers, as well as to different sizes of containers, to different packs, to different portions of the production area, to different outlets, and to different portions of the season.

Colorado growers and handlers recognize the price differentials based on the above differences, or any combination thereof. Such recognition not only enters considerations in the marketing of Colorado potatoes, it is found to be an integral, essential part of the marketing process. Colorado potato growers and handlers attempt to market their potatoes in recognition of the reflection on grower prices of receiving market prices, also shipping point prices, for potatoes in an attempt to maximize their returns through the orderly distribution of their crop at the most favorable prices they can get for their commodity.

Industry acceptance of containers and packs currently used for marketing Colorado potatoes is found generally acceptable. However, experienced industry spokesmen support the need for authority to promote orderly marketing through fixing, when and if necessary, the size, capacity, weight, dimensions or pack of the container, or containers which may be used in the packaging or handling of potatoes, or both.

It is concluded, therefore, that means and methods should be provided in the terms and conditions of the proposed order for adjusting the composition and total quantity of the marketable supply of Colorado grown potatoes during any period. It is further concluded that the terms and conditions contained in the proposed order relating to issuance of regulations provide means and methods of regulating the handling of potatoes as supported by hearing record evidence, which will tend to effectuate the declared purposes of the act.

(d) Area committees should be authorized to recommend and the Secretary to establish, in any period when the season average price for potatoes grown in the production area may be above parity, such minimum standards of quality and maturity and such grading and inspection requirements as will effectuate orderly marketing as will be in the public interest. Some potatoes are of such low quality and undesirable size they do not give consumer satisfaction at any time because of waste and the large amount of time consumed in preparing them. Consumers do not receive proper value for their expenditures for extremely low quality or undesirable sizes of potatoes, so even when prices are above parity, it is not in the public interest, either of the producers, handlers or consumers to permit shipments of such potatoes. Shipments of excessively skinned potatoes also tend to disrupt general marketing conditions for the commodity and the discounted prices received for culls an other low quality potatoes or potatoes of undesirable sizes adversely affect growers' prices. The proposed order should authorize the establishment of minimum standards of quality and maturity which will effectuate orderly marketing in the public interest. It is also necessary that such authority should include grading and inspection requirements so that appropriate and customary means for determining minimum standards of quality and maturity, whenever such regulations are in effect, are administratively available.

The proposed order authorizes the Secretary on the basis of area committee or Colorado Potato Committee recommendations or other available information, to issue various grade, size, quality, pack, maturity, container, or other appropriate regulations which are necessary for the improvement of growers' returns and for the development of more orderly marketing conditions for production area potatoes which are subject to regulations. The Secretary should not be precluded from using such information as he may have, and which may or may not be available to the committee for consideration, in issuing such regulations, or amendments or modifications thereof, as may be necessary to effectuate the declared policy of the Act. Insomuch as it is found on the evidence, the proposed order should include authority to issue regulations, it is concluded therefrom also that the Secretary should have authority to amend, modify, suspend, or terminate any regulations whenever it is determined, upon the basis of committee recommendations, or other available information, that changes in supplies, demand or prices warrant such action.

The bulk of Colorado potatoes are marketed in carlots or fractions thereof. Some small sales are made occasionally by some handlers, such as to individual householders, to friends, to tourists, or to similar "nuisance" sales outlets. Administrative difficulties in regulating the grade, size, quality, maturity, pack, or type of container for such small sales or shipments, such as the certification that these nuisance sales are inspected and conform to all regulations applicable to carlot shipments, would most probably be uneconomical, not feasible, and impractical in many cases. Therefore, it is concluded that the terms and conditions of the proposed order should authorize amendment, modification, suspension, or termination of regulations, which may be issued upon committee recommendations, or other available information, by the Secretary, to relieve specific, small quantities from any or all limitations or obligations applying to commercial handling of Colorado potatoes.

When the Secretary determines that any regulation does not tend to effectuate the policy of the Act, authority to suspend or terminate such regulation should be included as set forth.

When regulations are issued adequate notice of such regulations should be given to area committees and in turn such committees should give reasonable notice to handlers. The two day limitation on effective date of regulations, except when relieving restrictions, is reasonable and is incorporated in the proposed order.

(e) As hereinbefore found, all market outlets for Colorado potatoes are important to growers and handlers of such potatoes in considering their market plans, in improving marketing conditions, and in improving potato prices with a view to establishing parity prices therefor. It is also found that Colorado potatoes moving to, sold in, or otherwise disposed of in certain outlets, such as those specified in § 958.23 (special purposes) of the proposed order, are usually handled differently than fresh shipments for retail markets, or such outlets usually accept different grades, sizes, qualities, maturities, packs, containers, or combinations thereof, than the institutional trade or fresh retail outlets and at different prices.

Some special outlets, such as those enumerated are in the nature of salvage; others involve donations; others also include special consideration of the relief needs of the recipients; others demand, and pay premiums for, special external or internal value attributes of the potatoes, and some do not compete directly with the market for table stock potatoes. Seed potatoes are grown and handled

with special care and attention to their genetic attributes and freedom from disease. These special considerations are reflected in the range of prices growers receive and in the build up of the price structure for Colorado potatoes. Special consideration is given to such outlets by growers and handlers both marketing their own crops and in trading in the potatoes marketed by others.

Colorado potatoes handled for relief or charity do not affect the commercial market to the same degree, if at all, as other table stock shipments. Charity shipments usually are donated. Relief shipments often involve similar considerations. It is concluded therefore, that special consideration and authority for special handling for relief and charity shipments of Colorado potatoes should be contained in the terms and conditions of the proposed order.

Certain outlets for potatoes, such as for livestock feed, offer a market at salvage prices for culls and off-grade and off-size potatoes and other potatoes for which there is no other market. Potatoes moving to these markets are of low value and disposal in any such type of outlet is deemed only a salvage operation by producers and growers, so, it is concluded, authority should be included in the proposed order to allow reflection of industry judgment as to whether such marketings should bear costs of inspection and assessments. Committee members familiar with these markets should be able to recommend and the Secretary to designate such outlets to which production area potatoes may move without payment of assessments or obtaining inspection of such potatoes. However, authority should be contained in the terms and conditions of the proposed order for supervision of the special shipment and marketing of these potatoes through the use of Certificates of Privilege, as hereinafter authorized, to prevent these potatoes, which are free of certain regulations, and of lower quality or less desirable sizes, from competing with potatoes which are subject to limitations for fresh tablestock going for distribution to the institutional trade or through retail outlets.

Export requirements for potatoes differ materially on occasion from domestic market requirements. Certain market outlets, such as Mexico, for example, prefer certain grades, sizes, and qualities of potatoes which usually are discounted on the domestic market. Canada, for example, prefers potatoes of grades, sizes, qualities, and maturities which are more common to our own domestic tablestock market. However, if there should be a demand from export outlets for off-grades and off-sizes for special uses, provisions should be made for dealing with it. Area committees and the Secretary should have the requisite authority to effect the appropriate modification, suspension, or termination of regulations for export shipments differently depending upon the demands of such outlets.

Although as hereinbefore found, the market for Colorado potatoes is a build up of market prices in various outlets for such potatoes and it is concluded that the terms and conditions of the proposed order should authorize regulations on handling such potatoes in any outlet, it is also found that the demand for seed potatoes is commonly distinguished from demand for table stock potatoes. Also, special cultural practices are followed in growing potatoes for seed. Special precautionary handling techniques also are followed. Certain sizes may, and frequently do return premium prices in the seed market, whereas similar sizes in the tablestock market are discounted. Order No. 58 has given special consideration to certified seed handling. It is concluded that the terms and conditions contained in the proposed order should provide for special consideration in the handling of seed as defined therein.

Similarly, some potatoes grown within the production area, although perhaps not certified by the State seed certifying agency, are known locally as of above average genetic stock and relatively free from disease. Other local growers often purchase such potatoes for planting as a common and thrifty practice. Within guides, standards, and restraints which may be prescribed by area committees or the Colorado Potato Committee, such practice is deemed appropriate as orderly marketing and devoid of injurious effect upon the market structure for fresh tablestock potatoes. Safeguards assuring that such potatoes should be handled for planting only within specific geographic limits, or handled only within specific parts of the crop year, should be authorized. It is concluded that the terms and conditions of the proposed order should authorize special consideration for potatoes sold within prescribed limitations to insure planting.

The sale or transportation of Colorado potatoes for distribution as fresh potatoes to the institutional trade or through retail outlets has been and continues to be the major market outlet. It is found, however, that the manufacture or conversion of Colorado potatoes into potato products has shown a decided upward trend in the past decade. These products include potato chips and starch. Potatoes in other areas are also converted by dehydration into potato flakes, granules, and cubes. In addition, frozen French fries are an important outlet for potatoes in some areas, while canning is another but considerably smaller market. Witnesses testified at length as to the interest of Colorado growers and handlers in processing markets for their potatoes.

It is found that Colorado chipping interests support the proponents' position in the need for a proposed marketing order to help improve orderly marketing conditions for Colorado potatoes as a means of establishing parity prices to farmers. Chipper contention that the terms and conditions of the proposed order should limit the authority of area committees to recommend and of the Secretary to issue grade, size, quality, or other regulations on potatoes handled for chipping purposes, is found to be without sufficient substance to overcome the conclusion, on evidence found, that growers and handlers should be authorized to market their crop in all allowable outlets within the terms and conditions of the proposed order.

The San Luis Valley Shippers' Association and various of its members testified that the terms and conditions of the proposed order should be so limited that any potatoes manufactured or converted into products that compete with fresh potatoes should not be of any lesser grade or quality than potatoes sold in fresh market channels. No testimony was presented concerning standards or methods for establishing standards for determining which of these products compete with fresh potatoes or the degree of such competition. Shipper Association witnesses testified in substance that their representations were believed desirable, however, proof of the contribution such limitation would offer for promoting orderly marketing and establishing parity prices to farmers was lacking in sufficient substance to be persuasive.

A brief filed by the San Luis Valley Potato Shippers Association argues that the proposed order will result in discrimination unless the limitations and terms and conditions for which they contend are included in the proposed order. The brief takes the position that the authority for special consideration for shipments of potatoes for processing would grant an exception for processors without any fixed limitation which in essence would extend a special privilege to the processors. In substance, therefore, and by way of eliminating such special privilege the Association argues that all potatoes should be required to meet the same minimum requirements regardless of outlet. Evidence introduced by the Association was to the effect that certain processed products (excluding potato chips and shoestrings) with their long shelf life tend to set, or fix, a ceiling on the fresh market. Consequently, it is argued that in practice the processed potatoe is in competition with graded fresh potatoes and tends to fix fresh potatoe prices to the detriment of the grower-shipper. The Association bases its argument on the assumption that if the processor is able to purchase a cull or low grade potato without competition from the fresh shipper for such potatoes he has an unfair advantage in the competition between his end product and fresh potatoes. The Association contends that lower grades, culls and undersized potatoes, have no place in the market either processed or fresh and the authorization of a tolerance to permit shipment is a reversal of policy followed under the Colorado marketing order. They further contend that if the processor does not have to compete with the fresh shipper the processor will pay the lowest price possible for his supplies to the detriment of the growers and shippers.

In actual practice, however, any special privilege would be granted to handlers in general and growers in particular rather than to the processors since the privilege would permit potatoes to be sold or transported to additional outlets. It was testified by the proponents that in order to attain the objectives of the Act (to increase returns to growers) the industry should recognize the fact that the potato market has changed considerably in the past few years. When Order No. 58 was first promulgated most potatoes were sold in 100-pound sacks usually U.S. No. 1 or U.S. No. 2 grade with a large majority going to the fresh market. Changes in marketing since have required various size containers and variations of established grades and sizes. Also, during the same period the use of potatoes for processing into potato chips, shoestrings, flakes, granules, and other forms has increased materially. Because of the differences in demand from these different outlets for different grades and sizes it is necessary for the industry to adopt the marketing policy necessary to satisfy such demands. By meeting these demands with the type of potato the buyer desires the proponents contend that the best price available is received for the entire crop. Authority is necessary in the proposed order to regulate shipments going to the various outlets since each is a factor affecting the total returns to growers and if some return is realized for potatoes sold or transported to certain outlets which are not detrimental to the table stock market total returns to growers will be increased. It was for this reason that the proponents testified that the privilege of departing from the standard regulations for such outlets was proposed for the benefit of growers. Any direct benefits to particular categories of use or purpose being incidental.

The brief also argues that there is question as to whether the industry can have confidence that the committee will act only in the best interests of the industry. The basis for this argument is the fact that the Secretary is not required to act exclusively on committee recommendations but may take into account other available information. The conclusion by the Association does not recognize the fact that the Secretary's authority is conferred upon him by Congress through the Act and such authority may not be limited by the language of a particular marketing order. Also, it was testified that experience under Order No. 58 has shown that instances of regulatory action without committee recommendation have been extremely rare.

Upon balanced consideration the evidence in support of the contentions of the Association is insufficient to sustain its proposals. On the contrary, and on the basis of the record evidence as a whole, it is concluded that in order to effectuate the declared purposes of the Act, growers and handlers should be permitted to utilize those outlets which will return the best price possible for all of their potatoes and thereby increase the total return for the entire crop. Therefore, to the extent that the proposals of the San Luis Valley Potato Shippers Association are at variance with the findings and conclusions set forth herein and contrary to the terms and conditions of the proposed order they are overruled.

The proponents testified that other purposes should be authorized on the basis that the future might bring forth development of products not now envisaged. For example, when Order No. 58 was issued in 1941 chipping was of considerably lesser importance than at present, while dehydration of potatoes for flakes and granules was virtually unknown in the American potato market. Therefore, it is concluded that to properly assure opportunities for progressive developments in the potato marketing and to provide opportunities for adaptation of authority for limitation on handling to such developments, other special purposes should be provided for, as set forth.

It is concluded, on evidence found, that the terms and conditions contained in the proposed order relating to handling for special purposes should be as set forth herein to effectuate the purposes of the Act.

Effective administration of Order No. 58 has proven the necessity for assuring that shipments of discounted grades, sizes, qualities, or varieties of Colorado potatoes to any market outlet other than tablestock are in fact distributed in the special outlet intended and kept out of tablestock outlets. Administrative authority for area committees or the Colorado Potato Committee to prescribe, with approval of the Secretary, adequate safeguards to prevent shipments to special outlets from entering market channels contrary to the provisions of such special regulations should be contained in the terms and conditions of the proposed order.

Appropriate authorization for safeguards should include such limitations, or appropriate qualifications on shipments, as might be necessary and incidental to the proper and efficient administration of the proposed order. Such safeguards could include, among others; mandatory inspection requirements so that committees may have an accurate record of the grade, size, quality and maturity of potatoes shipped to special outlets; applications to make such special shipments; reports by handlers on the number of such shipments and the amounts of potatoes shipped; and assurances by the purchasers that the potatoes would be used for the purpose designated.

In order to maintain appropriate identification of shipments of potatoes to special outlets, safeguards may provide for the issuance of Certificates of Privilege to handlers of such potatoes, and in addition, require that such handlers obtain such certificates on all shipments by them to such special outlets. Certificates of privilege issued by committees could serve as an indication of the authority for handlers to make such shipments and as a means of identifying specific shipments. Such Certificates of Privilege should be issued in accordance with rules and regulations established by the Secretary on the basis of area or Colorado Potato Committee recommendations, or other available information, so that the issuance of such certificates might be handled in an orderly and efficient manner which can be made known to all handlers.

Committees should be authorized by the proposed order to deny as well as to rescind Certificates of Privilege when such action would be necessary to prevent abuse of the exemption conferred thereby. Committees also should be authorized to exercise the authority necessary and incidental to the proper administration of the proposed order, which should include the authority to rescind or deny such certificates. Such action, however, should be based on evidence satisfactory to the respective committee that a handler to whom a Certificate of Privilege had been issued handled potatoes covered thereby contrary to the provisions of such certificate. The committee should notify applicants promptly with respect to rescinding or denying of any Certificates of Privilege. Likewise, any appeals from committee action with respect to an application or the denial of a Certificate of Privilege should be handled promptly.

The Secretary should have the right to modify, change, alter, or rescind any safeguards prescribed or any Certificate of Privilege issued by committees in order that the Secretary may retain all rights necessary to carry out the declared policy of the Act. The Secretary should give prompt notice to committees of any action taken by him in connection therewith and committees should currently notify all persons affected by the indicated action.

Each area committee should maintain records relevant to safeguards and to Certificates of Privilege and should submit reports thereon to the Secretary, when requested, in order to supply pertinent information requisite for him to discharge his duties under the Act and the proposed order.

The terms and conditions relating to safeguards authorized for special shipments should be as set forth in the proposed order.

(f) Certain hazards such as excessive moisture, drought, hail, or tornadoes, or frosts may result in potatoes which have hollow heart, growth cracks, secondary growth, internal discoloration, jumbo size, also under-size potatoes, and other adverse quality or size conditions which are beyond the control of growers. Other conditions, such as blight, freezing damage, and dry rot may not be evident until after potatoes have been put in storage. Farmers are close to these problems and are aware of conditions beyond growers' control and, hence, as area committees are composed of producers and handlers experienced in such matters, they can properly advise with respect to such facts and conditions.

These hazards are encountered in the production and storing of potatoes grown in the production area and are beyond the control and reasonable expectation of growers. Because of these circumstances, and to provide equity among producers in administering regulations under the proposed order, it is concluded, on evidence found, that the committee should be given authority to issue exemption certificates to permit qualified applicants to handle their equitable proportion of all shipments from their respective areas. Committees by reason of their knowledge of conditions and problems applicable to the production and storing of potatoes in the various producing regions of the production area

should be well qualified to judge each applicant's case in a fair and equitable manner, in the light of the information which the applicant may furnish to substantiate requests for exemption, and to fix the quantity of exempted potatoes which each such applicant may ship. It is reasonable to require all such applicants for exemption to furnish committees with satisfactory evidence to support their applications.

Committees should be authorized by the terms and conditions of the proposed order to recommend rules and regulations governing applications for exemption certificates, for consideration thereof, for establishing basic averages of shippable potatoes under regulations from each area, safeguards for exempted shipments, and appeals from committee decisions. Such rules and regulations would be subject to the Secretary's approval.

(g) Area committees have been sponsoring and promoting research and development projects under State authority for a number of years. The Colorado potato industry wishes, on the basis of hearing record evidence found, to provide in the terms and conditions of the proposed order for authority to establish marketing research and development projects designed to assist, improve, or promote the marketing distribution, and consumption of potatoes. The Colorado industry expresses recognition of a need for development of new markets, both fresh and processing. Marketing research and development projects authorized under the proposed order should allow consideration and approval of projects, and use of funds therefor, directed to studies of quality or size preferences in various distributive channels; quality deterioration and its influence on market prices; processors' preferences and price differentials therefor; and, except for advertising programs, any others relating to marketing or development which, upon review and approval by area committee and the Secretary are determined to be in accordance with the terms and conditions of the proposed order.

(h) Inspection has been a mandatory requirement both under Order No. 58 and under State law during the past decade or more on all Colorado potatoes shipped to fresh or other similar market outlets. Federal or Federal-State Inspection Services have inspected and certified potatoes during this entire period. Reasonable assurances are such service will continue to be available. Colorado potato producers are well acquainted with requirements for inspection and with the services offered. They also are experienced in marketing potatoes under inspection and with the standards used in inspection and certifying Colorado potatoes. Inspection has been available throughout the area and, with reasonable notice, has been and can be given on potato shipments during normal marketing seasons.

Inspection and certification as to grade, size, and quality of potatoes marketed under the proposed marketing order are necessary not only as a matter of State law, but also so that handlers of Colorado potatoes, committees, and other interested parties can determine if shipments thereof comply with regulations in effect and applicable thereto. However, on record evidence found, it is concluded that the basic requirement for mandatory inspection should be subject to necessary relief therefrom, upon committee recommendations and Secretary's approval, to allow for minimum quantity "nuisance" sales or other handling, special shipments, and for administrative problems associated with repacking, repackaging, out of season or out of ordinary location shipments.

Repacking potatoes at shipping point presents an administrative problem differing somewhat from shipments repacked in terminal markets, such as Denver. Also, proximity of Denver as a repacking center for potatoes produced in nothern Colorado, but which may be distributed to market centers either outside or within the production area, may present administrative and compliance problems differing from those associated with similar operations at original shipping point. Also, potatoes from more than one area are marketed in Denver, some of which are repacked for distribution to markets both within and outside the production area. It is concluded, and the industry so requested at the hearing, that rules with respect to inspection requirements to effect compliance or other administrative needs of the proposed order at shipping point or when repacking or regrading should be pursuant to area committee recommendations with approval of the Colorado Potato Committee and Secretary's approval. Authorization of such rules by the Secretary upon area committee recommendations with approval of the Colorado Potato Committee, providing for special inspection requirements, or relief therefrom, on regraded, resorted, or repacked lots is incidental to, and not inconsistent with, and necessary for administration of the other terms and provisions of the proposed order.

Easily ascertainable and visible evidence of inspection on some lots of Colorado potatoes is administratively necessary. Although most Colorado potatoes are marketed in carlots or sizable fractions thereof, some lots are sold or transported in smaller quantities, usually trucks. Some handlers may find it both desirable and practically necessary to obtain inspection on larger lots for later sale in smaller lots. In such instances, it is essential that evidence of inspection should be attached or imprinted on each commercial unit of sale. When potatoes are inspected and certified as a single lot, then identified by seals, stamps, or tags as to such inspection and certification, evidence of inspection in such form should provide adequate and easily ascertainable evidence of inspection. Such procedures would provide more convenient and less expensive inspection services for handlers and both expedite and economize in administration of the proposed order. It is concluded, therefore, that the terms and conditions of the proposed order should provide for identification of inspection not only by requiring, where necessary, that certificates should accompany shipments of Colorado potatoes by truck, but also that alternative evidence of inspection may be provided by means of seals, stamps, tags, or other means of identification.

Inspection certificates are official evidence of the grade, size, quality and additional characteristics of the potatoes in lots covered by inspection at the time it was made. As a basis for trading they offer evidence to buyers and sellers which provide a basis for trading. This evidence is accepted customarily as applying during distribution of shipments from shipping point through receiving markets. Such evidence is satisfactory in most instances for trading and for administrative purposes under the proposed order. Certificates which apply to inspections made weeks previously may no longer reflect properly present quality factors for fresh market shipments and considerations of such administrative problems is essential to effective operations. These considerations should also allow for purposeful conditioning of potatoes to prepare them for marketing in special outlets, such as chips or similar processing. However, it is concluded, from evidence found, that the length of time for which an inspection certificate is valid may be established for administrative purposes under the terms and conditions of the proposed order.

The Federal-State Inspection Service has made copies of inspection certificates on Colorado potatoes available to each area committee for shipments originating in its respective area. This service has been acceptable and feasible both to the inspection service and to area committees. Also, it is essential to administration of the proposed order. It is concluded that such service should be continued under the proposed order.

(i) The administrative agencies established and active in operations under Order No. 58 are the three area committees and the Colorado Potato Committee. These agencies, in the decade or more of operations have proven feasible and practical administratively, also acceptable to the industry in each area as well as throughout the State. Similarly, it is found that the composition of area committees, with one additional producer representative from a newly created district in the San Luis Valley, and the other representatives on such committees, meet industry approval and support, as well as being deemed administratively feasible and practical.

Also, similarly, the terms and conditions relative to alternates, eligibility, nomination and selection, failure to nominate, vacancies, qualification, procedure, and powers accords substantially with administrative operations of Order No. 58 during the past decade or more and the amendments of terms and conditions in the proposed order relating to such sections are concluded, on evidence found, as essential to its effective and efficient operation. Need for changes in committee operation may arise from time to time as producing sections shift production or as marketing organizations develop or decline. Fair and equitable representation on committees is desirable not only by the industry, but also

for effective administration. Authority to reestablish areas or composition of committees is desirable administratively in the interest of simplifying and expediting changes in geographic or functional representation when the industry generally supports such changes. The guides and standards for reestablishment of committees as set forth in the proposed order are found to be adequate and equitable and the terms and conditions set forth therein are considered as incidental to, not inconsistent with, and necessary for administration of the proposed order. Similarly, the provisions for terms of office are supported by experience and are determined to be desirable for effective administration of the proposed order.

The provision for compensation and expenses of committee members follows generally the corresponding terms and conditions of Order No. 58. The change in rate of compensation authorized in the proposed order is found in accordance with industry attitudes and support, because of trends in wage rates and other similar trends in compensation since Order No. 58 was originally issued. Attendance of alternates at committee meetings is deemed desirable as operating policy by the Colorado industry. Accordingly, the terms and conditions of the proposed order so provide.

The fulfillment of certain duties by each area committee and by the Colorado Potato Committee is necessary for discharge of their administrative responsibilities. Most committee duties as set forth in the proposed order are quite obviously essential to effective administration of any organized group such as the administrative agencies of the proposed order. It was recognized in the evidence that the committees' duties as specified are not necessarily all inclusive, for there may be other duties incidental to, not inconsistent with, and necessary for administration of the proposed order which should be assumed when and if necessary to administer properly the proposed order.

The additional duties of the Colorado Potato Committee are similar to those authorized or exercised by it in the past. An additional duty was proposed in the hearing, namely to call joint meetings of area committees on matters warranting exchanges of views, discussions, and joint consideration of mutual marketing or administrative problems. This duty it is found on record evidence, is particularly appropriate for coordinating considerations, recommendations, and regulations among committees and the potato interests within areas throughout the State. It is concluded that such duty is administratively desirable, feasible, reasonable, and should be one of the terms and conditions of the proposed order.

(j) Committee operations necessitate incurring expenses. These expenses, which should be reasonable, include, but should not be limited to, salaries for manager, office and field personnel, research projects, rent for office space and office equipment, supplies and travel expense. Expenses incurred by committees in operating Order No. 58 have been borne by handlers and under the proposed order must, pursuant to requirements of the Act, be borne by handlers. The most practical way of distributing the costs of the program among handlers is to require each handler who first handles potatoes to pay his pro rata share of such expenses for an area committee on the basis of the ratio of his total shipments of potatoes grown in the respective area under the proposed order, as the first handler thereof, to the total of such shipments of potatoes grown in the respective area, by all such handlers, during a particular fiscal period.

Each area committee has operated in the past on a budgeted basis. Good business practices require that committees continue to so operate and each area committee should prepare a budget prior to the beginning of each fiscal period. Such budgets should show estimated income and expenses necessary for the administration of each respective area committee in carrying out its responsibilities and functions in the administration of the proposed order for the fiscal period for which the respective budget is prepared.

The funds to cover the expenses of area committees should be obtained through the levying of assessments on handlers of potatoes grown in the respective areas. The act specifically authorizes the Secretary to approve the incurring of such expenses by administrative agencies, such as the area committees. The statute also authorizes terms and conditions for marketing orders requiring handlers to pay their pro rata share of necessary expenses. Under this authority area committees in the past have incurred expenses and have provided through levy and collection of assessments for handlers to pay their pro rata share of expenses. To assure continuance of area committee operations, the payment of assessments by handlers should be authorized as a requirement, when necessary, irrespective of suspension or lack of operation of particular provisions of the proposed order. Authorization for advance payments should be as set forth in the proposed order.

Responsibility for payment of assessments on each lot of potatoes must necessarily be known and fixed. Such responsibility has been both known and fixed in the past under Order No. 58. It is both logical and practical, as well as in accordance with common marketing practice in the production area, to impose such liability on the first handler of the potatoes. In most instances, the first handler and the applicant for inspection are the same person. Colorado potatoes customarily are inspected as they are marketed. However, in the event the first handler fails to apply for, and obtain, inspection, this does not in any way cancel his obligation with respect to the payment of assessments.

Assessment rates should be recommended by respective area committees for shipments of potatoes grown in such areas. Assessments should be applied by the Secretary to a specific unit of shipment or its equivalent. For example, assessment rates can be applied to carlot shipments or on a hundredweight basis, or by any other unit of shipment commonly used in marketing Colorado potatoes. However, such assessments for a fiscal period should be applied on a uniform rate basis.

Order No. 58 provides for increasing the rate of assessment, if necessary, during or after a fiscal period to cover expenses. It is found that, although no instance has occurred under past operations in which such authority for increasing assessments was used, proponents support continuation of substantially the same authority. It is concluded therefore that the terms and conditions relating thereto in the proposed order should be as set forth.

It is sound business practice to require proper accounting of funds derived in administering the proposed order. Committees should provide periodic reports of fiscal operations. Audit reports should be furnished, when requested by the Secretary at apropriate times, such as at the end of each marketing season, or at such other times as might be necessary to maintain appropriate supervisions and control of each committee's affairs. Also financial statements which reflect the current fiscal position of committees should be furnished members and alternates and the Secretary at the close of each month. Audit reports and monthly financial statements should also be supplied on request to persons such as producers and handlers, having a valid interest in the contents of such reports. In no case may data of a nature which could be detrimental to the interests of an individual handler or producer be disclosed in copies of fiscal or other reports released.

Except as indicated below, handlers who ship potatoes grown in a particular area should be entitled to a proportionate refund of the excess assessments collected by the respective committee and which remain at the end of a fiscal period, or at the end of such other period as might be deemed appropriate by reason of suspension or termination.

If and when any committee should be required to liquidate its affairs, expenses will necessarily be incurred in the liquidation process. The affairs of the committee to be liquidated might involve a number of years' operations. Therefore, funds remaining at the end of a fiscal period, which are in excess of those necessary for payment of expenditures during such period may be carried over into subsequent fiscal periods as a reserve for possible liquidation in the event of the termination of the proposed order.

It is good business practice to provide for unforeseen contingencies. The anticipated potato crop for any season might conceivably be reduced by casualty or disaster, such as prolonged water shortage, hail, or other weather conditions, disease, or by other factors. The net effect of such a crop failure would be to reduce greatly or stop shipments sufficiently to cause discontinuance of regulations and collection of assessments. In order to continue and maintain the nucleus of committee organizations and to assure the performance of a minimum of basic services, committees should have authority to secure needed extra funds to cover expenses of operation during

such a fiscal period. Such funds might reasonably be drawn from the same reserve accrued for purposes of liquidation.

The above reserve might also properly serve another purpose. At the beginning of each fiscal period, a need exists for operating monies at a time when usually little, if any, revenues from assessments are available. It is customary and sensible budgetary practice, and committees should be so authorized, to borrow operating funds from the above reserve until such time as assessment collections provide adequate revenue to meet current expenses. It is contemplated that any such reserve will have a threefold use; namely, (i) liquidation, (ii) crop failure advance, and (iii) fiscal year advance. It will be built up over a period of years to equalize the burden among handlers. It is concluded, on the basis of record evidence found, that reserves accrued from excess assessments should be limited to an amount roughly equivalent to the average budget of expenses for two fiscal periods.

Each member and each alternate, as well as employees, agents, and other persons working for or on behalf of committees should be required to account for all receipts and disbursements, funds, property, or records for which they are responsible and the Secretary should have the authority at any time, to ask for such accounting.

Whenever any person ceases to be a member or alternate of a committee, he should be required to account for all receipts, disbursements, funds, property, books, records, and other committee assets for which he is responsible. Such persons should also be required to execute assignments or such other instruments as may be appropriate to vest in their successor or any agency or person designated by the Secretary, the right to all such property and all claims vested in such person.

If any area committee should recommend that its operations should be suspended, or if no regulation should be in effect for a part or all of a marketing season, such committee should be authorized to recommend, as a practical measure, that one or more of its members, or any other person, should be designated by the Secretary to act as a trustee or trustees during such period. This would provide a practical method whereby committee business could be taken care of during periods of relative inactivity with a minimum of difficulty and expense.

(k) Each committee should have the authority, with the approval of the Secretary, to require handlers to submit such reports and information as may be needed to perform committee functions under the proposed order. Every type of report or kind of information which the committees may require cannot be fully anticipated, but committees should have authority under terms and conditions in this proposed order to request reports and information at such times and in such manner as deemed necessary and including those of types set forth.

The Secretary should retain the right to approve, change, or rescind any requests by committees for information or reports in order to protect handlers from unreasonable requests therefor.

Any reports and records submitted for administration of the proposed order by individual handlers should remain under protective classification and be disclosed to none other than persons authorized by the Secretary. Any reported information released by the industry should be on a composite basis and no such release of information may disclose either the identity of handlers or their operations.

If questions arise with respect to the verification of information in the reports submitted under the program, handlers should be required to maintain complete records of their receipts, handling, and dispositions of potatoes for not less than two succeeding years. Evidence shows that handlers usually keep such records for their own business operations for periods of at least two years and no hardship would be imposed by requirements of this type under the proposed order.

(l) Except as provided in the proposed order, no handler should be permitted to handle potatoes, the handling of which is prohibited pursuant thereto; and no handler should be permitted to handle potatoes except in conformity with the proposed order. If the program is to be effective, no handler should be permitted to evade its provisions since such action on the part of one or more handlers, although possibly of small impact individually on the industry measured by the proportion of potatoes handled by the respective handler, would be demoralizing to other handlers and would tend to impair operation of the program.

(m) The terms and conditions of § 958.82 through § 958.92 in the proposed order are substantially the same as § 958.70 through § 958.88 of Order No. 58, except for § 958.83(b) and § 958.84(a)(ii) which apply to transition of operations under Order No. 58 to the proposed order. These terms and conditions, as also § 958.93 through § 958.95 of the proposed marketing agreement, are not only common to Marketing Agreement No. 97 and Order No. 58, but also are common to other marketing agreements and orders now operating. Each such section sets forth certain rights, obligations, privileges, or procedures which are necessary and appropriate to the effective operation of the proposed marketing agreement and order. These provisions are incidental to, and not inconsistent with, section 8c (6) and (7) of the Act and are necessary to effectuate the declared policy of the Act. Such terms and conditions should, therefore, be included in the proposed marketing agreement and the proposed order.

(n) The General Cull Regulation, also additional rules and regulations for assessments, exemptions, safeguards for special shipments, and committee members are in effect under Order No. 58. To properly insure continuity of operations during the amending process, such rules, regulations, and committee appointments should be continued in effect until modified, amended, suspended, or terminated under the proposed order. The provisions of § 958.83(b) are to apply to all rules, regulations, and committee appointments effective immediately prior to an effective date for the proposed order. The provisions of § 958.84(a)(ii) set forth authority for terminating, and eliminating, the transitional authority which is necessary primarily during the amending process. Accordingly, it is concluded, that the terms and conditions of § 958.83(b) and § 958.84(a)(ii) should be as set forth in the proposed order.

(5) Amendments relating to the format of the proposed order, with conforming amendments thereto, which are drafted in the interest of clarity, brevity, and efficient administration are obviously desirable. It is concluded that, accordingly, such changes should be made as they are set forth in the terms and conditions of the proposed order.

Rulings on proposed findings and conclusions. At the hearing the Presiding Officer set March 1, 1960, as the final date for the filing of briefs by interested parties and, on February 25, 1960, extended the time for filing briefs to March 7, 1960. Within the prescribed time a brief was filed on behalf of the San Luis Valley Potato Shippers Association by Moses & DeSouchet, Attorneys, Alamosa, Colorado, contending that the proposed order will result in discrimination unless certain proposals submitted by that Association are adopted.

Each point and issue raised by this brief has received careful consideration and has been discussed at length above. For the reasons there stated to the extent that any suggested findings and conclusions contained therein are inconsistent with the findings and conclusions contained herein, the request to make such findings, or to reach such conclusions, is denied on the basis of the facts found and stated in connection with this decision.

General findings. Upon the basis of evidence introduced in the hearing and record thereof it is found that:

(1) The marketing agreement and order, as amended, hereinafter set forth, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act with respect to potatoes produced in the production area, by establishing and maintaining such orderly marketing conditions therefor as will tend to establish as prices to producers thereof parity prices and by protecting the interest of the consumer (i) by approaching the level of prices which it is declared in the act to be the policy of Congress to establish by a gradual correction of the current level of prices at as rapid a rate as the Secretary deems to be in the public interest and feasible in view of the current consumptive demand in domestic and foreign markets, (ii) by authorizing no action which has for its purpose the maintenance of prices to producers of such potatoes above the parity level, and (iii) by authorizing the establishment and maintenance of such minimum standards of quality and maturity and such grading and inspection requirements as may be incidental thereto as will tend to effectuate such orderly marketing of such potatoes as will be in the public interest;

(2) The said marketing agreement and order, as amended, authorize regulation of the handling of Irish potatoes grown in the production area in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activities specified in, a proposed marketing agreement and order upon which a hearing has been held.

(3) The said marketing agreement and order, as amended, are limited in application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the Act; and the issuance of several marketing agreements and orders applicable to any subdivision of the production area would not effectively carry out the declared policy of the Act.

(4) The said marketing agreement and order, as amended, prescribe, as far as practicable, such different terms applicable to different parts of the production area as are necessary to give due recognition to the differences in the production and marketing of potatoes grown in the production area; and

(5) All handling of potatoes grown in the production area as defined in said marketing agreement and order, as amended, is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

Marketing agreement, as amended, and order, as amended. Annexed hereto and made a part hereof are two documents entitled respectively "Marketing Agreement, as Amended, Regulating the Handling of Irish Potatoes Grown in the State of Colorado" and "Order, as Amended, Regulating the Handling of Irish Potatoes Grown in the State of Colorado" which have been decided upon as the appropriate and detailed means of effectuating the foregoing conclusions. The aforesaid marketing agreement, as amended, and the aforesaid order, as amended, shall not become effective unless and until the requirement of § 900.14 of the aforesaid rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

It is hereby ordered, That all of this decision, except the annexed agreement, as amended, be published in the FEDERAL REGISTER. The regulatory provisions of the said marketing agreement, as amended, are identical with those contained in the annexed order, as amended, which will be published with this decision.

Dated: May 26, 1960.

CLARENCE L. MILLER,
Assistant Secretary.

Order, as Amended,[1] Regulating the Handling of Irish Potatoes Grown in Colorado

Sec.
958.0 Findings and determinations.

AUTHORITY: §§ 958.0 to 958.92 inclusive, issued pursuant to secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.

§ 958.0 Findings and determinations.

(a) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674), and the rules and practices and procedures governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Denver, Colorado, on February 1–2, 1960, upon proposed amendments to Marketing Agreement No. 97 and Order No. 58 regulating the handling of Irish potatoes grown in the State of Colorado. Upon the basis of the evidence introduced at such hearing and the record thereof it is found that:

(1) This order, as amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act with respect to Irish potatoes produced in the production area, by establishing and maintaining such orderly marketing conditions therefor as will tend to establish, as prices to the producers thereof, parity prices, and by protecting the interest of the consumer (i) by approaching the level of prices which it is declared in the Act to be the policy of Congress to establish by a gradual correction of the current level of prices at as rapid a rate as the Secretary deems to be in the public interest and feasible in view of the current consumptive demand in domestic and foreign markets, and (ii) by authorizing no action which has for its purpose the maintenance of prices to producers of such potatoes above the parity level, and (iii) by authorizing the establishment and maintenance of such minimum standards of quality and maturity, and such grading and inspection requirements as may be incidental thereto, as will tend to effectuate such orderly marketing of such potatoes as will be in the public interest;

(2) This order, as amended, authorizes regulation of the handling of Irish potatoes grown in the production area in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activities classified in, a proposed order upon which a hearing has been held;

(3) This order, as amended, is limited in its application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act; and the issuance of several orders applicable to any subdivision of the production area would not effectively carry out the declared policy of the Act;

(4) This order, as amended, prescribes so far as practicable, such different terms applicable to different parts of the production area, as are necessary to give due recognition to the differences in the production and marketing of Irish potatoes grown in the production area; and

(5) All handling of potatoes grown in the production area, as defined in this order, as amended, is in the current of interstate or foreign commerce, or directly burdens, obstructs, or affects such commerce.

Order relative to handling. It is, therefore, ordered that on and after the effective time hereof, the handling of Irish potatoes grown in Colorado shall be in conformity to and in compliance with, the terms and conditions of this order, as amended, and such terms and conditions are as follows:

DEFINITIONS

§ 958.1 Secretary.

"Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the Department of Agriculture to whom authority has heretofore been delegated, or to whom authority hereafter may be delegated, to act in his stead.

§ 958.2 Act.

"Act" means Public Act No. 10 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

§ 958.3 Person.

"Person" means an individual, partnership, corporation, association, legal representative, or any organized group or business unit of individuals.

§ 958.4 Area.

"Area" means any of the subdivisions of the State of Colorado as set forth in this section or as reestablished pursuant to § 958.33.

(a) "Area No. 1," commonly known as the Western Slope, includes and consists of the counties of Routt, Eagle, Pitkin, Gunnison, Hinsdale, La Plata, in State of Colorado, and all counties in said State west of the aforesaid counties.

(b) "Area No. 2," commonly known as the San Luis Valley, includes and consists of the Counties of Saguache, Huerfano, Las Animas, Mineral, Archuleta, in the State of Colorado, and all counties in said State, south of the counties enumerated in this definition of Area No. 2.

(c) "Area No. 3" includes and consists of all the remaining counties in the State of Colorado which are not included in Area No. 1 or Area No. 2.

§ 958.5 Potatoes.

"Potatoes" means and includes all varieties of Irish potatoes grown within any of the aforesaid areas.

§ 958.6 Seed potatoes.

"Seed potatoes" or "seed" means any potatoes which have been certified by the official seed certification agency of the State of Colorado and bear the official tags, seals, or other appropriate identification indicating such certification.

§ 958.7 Handler.

"Handler" is synonymous with "shipper" and means any person, except a common or contract carrier of potatoes owned by another person, who handles potatoes.

§ 958.8 Handle or ship.

"Handle" or "ship" means to transport, sell, or in any way to place potatoes in the current of the commerce between the State of Colorado and any point outside thereof.

§ 958.9 Producer.

"Producer" means any person engaged in the production of potatoes for market.

§ 958.10 Fiscal period.

"Fiscal period" means the period beginning and ending on the dates approved by the Secretary pursuant to recommendations by an area committee.

§ 958.11 Grade, size and maturity.

"Grade," means any of the officially established grades of potatoes, "Size" means any of the officially established sizes of potatoes, and "Maturity" means any of the stages of development or condition of the outer skin (epidermis) of potatoes, as defined in the United States Standards for Potatoes issued by the United States Department of Agriculture (§§ 51.1540 to 51.1556, inclusive of this title) or Colorado grades established by the Commissioner, or amendments thereto, or modifications thereof, or variations based on any of the foregoing.

§ 958.12 Varieties.

"Varieties" means all classifications or subdivisions of Irish potatoes according to those definitive characteristics now or hereafter recognized by the United States Department of Agriculture.

§ 958.13 Pack.

"Pack" means a quantity of potatoes in any type of container, which falls within specific weight limits, numerical limits, grade limits, or any combination of these recommended by the committee and approved by the Secretary.

§ 958.14 Container.

"Container" means a sack, bag, crate, box, basket, barrel, or bulk load or any other receptacle used in the packaging, transportation, or sale of potatoes.

§ 958.15 Culls.

"Culls" means potatoes which do not meet the requirements set forth in § 958.20.

§ 958.16 Committee.

"Committee" means any of the area committees established pursuant to § 958.50 or the Colorado Potato Committee established pursuant to § 958.51.

§ 958.17 Export.

"Export" means the shipment of potatoes to any destination which is not within the 48 contiguous States, or the District of Columbia, of the United States.

REGULATION

§ 958.20 Marketing policy.

(a) *General cull regulation.* (1) It shall be the marketing policy for the production area to maintain a general cull regulation in effect prohibiting the handling of potatoes for fresh market, except as otherwise provided in this subpart, which do not meet the requirements of the U.S. No. 2, or better, grade, 1½ inches minimum diameter and larger.

(2) Upon recommendation of the Colorado Potato Committee, or on other available information, the general cull regulation may be suspended or modified by the Secretary during a specified period with respect to any or all varieties of potatoes.

(b) *Area marketing policies.* Each season prior to or at the same time as initial recommendations are made pursuant to § 958.21, each area committee shall submit to the Secretary a report setting forth the marketing policy it deems desirable for the industry to follow in handling the respective area's potatoes during the ensuing season. Additional reports shall be submitted from time to time if it is deemed advisable by an area committee to adopt a new marketing policy because of changes in the demand and supply situation with respect to potatoes. The committee shall publicly announce the submission of each such marketing policy report and copies thereof shall be available at the committee's office for inspection by any producer or any handler. In determining each such marketing policy the committee shall give due consideration to the following:

(1) Supply of potatoes by grade, size, quality, and maturity in the respective area, in the production area, and in other areas;

(2) Market prices for fresh potatoes, including grower, shipping point, and terminal market prices by grade, size, and quality in different packs or in different containers;

(3) Market prices for potatoes in other outlets, including growers' and other market price levels by grade, size, and quality;

(4) The trend and level of consumer income;

(5) Establishing and maintaining such orderly marketing conditions for potatoes as will be in the public interest; and

(6) Other relevant factors.

§ 958.21 Recommendations for regulations.

An area committee upon complying with the requirements of § 958.20 may recommend regulations, or modifications, suspension or termination thereof, to the Secretary whenever it finds that such regulations as provided for in this subpart will tend to effectuate the declared policies of the act.

§ 958.22 Issuance of regulations.

(a) The Secretary shall limit by regulation the handling of potatoes whenever he finds from recommendations and information submitted by an area committee, or from other available information, that such regulation would tend to effectuate the declared policy of the act. Such regulation may:

(1) Limit the handling of particular grades, sizes, qualities, or maturities of any or all varieties of potatoes, or any combination of the foregoing during any period.

(2) Limit the handling of particular grades, sizes, qualities, or maturities of potatoes differently, for different varieties, for different containers, for different packs, for different portions of the production area, for different purposes under § 958.23, or for any combination of the foregoing, during any period.

(3) Provide a method through rules and regulations issued pursuant to this subpart for fixing the size, capacity, weight, dimensions, or pack of the container, or containers, which may be used in the packaging or handling of potatoes, or both.

(4) Establish in terms of grades, sizes, or both, minimum standards of quality and maturity.

(b) Any regulation issued hereunder may be amended, modified, suspended, or terminated by the Secretary on recommendations by an area committee, or on other available information, to provide for

(1) Such changes in regulations found necessary by changes in supplies, demand, or prices;

(2) Minimum quantities which should be relieved of regulatory or administrative obligations; or

(3) Relief from regulations no longer tending to effectuate the declared policies of the Act.

(c) The Secretary shall notify each committee of each regulation recommended by it and issued pursuant to this section. The respective committee shall give reasonable notice thereof to handlers. No regulation, except when relieving limitations, shall become effective less than two days after issuance thereof.

§ 958.23 Handling for special purposes.

Upon the basis of recommendations and information submitted by an area committee, or other available information, the Secretary, whenever he finds that it will tend to effectuate the declared purposes of the Act, shall modify, suspend, or terminate requirements in effect pursuant to §§ 958.20 to 958.22, inclusive, or §§ 958.40 or 958.77, or any combination thereof, to facilitate handling of potatoes for:

(a) Relief or charity;
(b) Livestock feed;
(c) Export;
(d) Seed;
(e) Potatoes, other than certified seed, sold to a producer exclusively for planting within specific geographic limits;
(f) Manufacture or conversion into specified products;
(g) Other purposes recommended by the committees and approved by the Secretary.

§ 958.24 Safeguards.

(a) Each area committee, with the approval of the Secretary, shall prescribe adequate safeguards for potatoes handled pursuant to § 958.23 from entering trade channels other than those authorized by regulations and by such rules as may be necessary and incidental thereto.

(b) Such safeguards may include requirements that handlers or processors desiring to handle potatoes pursuant to § 958.23 shall:

(1) Apply for and obtain Certificates of Privilege from the area committee for handling potatoes affected or to be affected under the provisions of § 958.23.

(2) Obtain inspection as required by § 958.40, or pay the assessment levied pursuant to § 958.77, or both, except as modified pursuant to § 958.23 in connection with shipments made under any such certificate; and

(3) Furnish the committee such information, and execute or obtain execution of such documents, as the committee may require.

(c) An area committee may rescind or deny to any handler permission to handle potatoes pursuant to § 958.23 of this subpart if proof satisfactory to the committee is obtained that potatoes handled by him for a purpose stated in § 958.23 were handled contrary to the provisons of this subpart.

(d) The committee shall make reports to the Secretary, as requested, showing the number of applications for such certificates, the quantity of potatoes covered by such applications, the number of such applications denied and certificates granted, the quantity of potatoes handled under duly issued certificates, and such other information as may be requested.

EXEMPTIONS

§ 958.28 Policy.

Any producer whose potatoes have been adversely affected by acts beyond the control or reasonable expectation of a prudent grower and who, by reason of any regulation issued pursuant to this part, is or will be prevented from shipping or having shipped during the then current marketing season, or a specific portion thereof, as large a proportion of his potato crop as the average proportion shipped or to be shipped during comparable portions of the season by all producers in his immediate area of production, may apply to the committee for exemptions from such regulations for the purpose of obtaining equitable treatment under such regulations.

§ 958.29 Procedure.

Rules and procedures for granting exemptions may be issued by the Secretary, upon recommendation of area committees. Such rules and procedures may provide for methods of determinations by area committees of average proportions of crops shipped or being shipped in respective areas or subdivisions thereof during any or all portions of a season, for processing applications for exemption, for issuing or denying certificates of exemption, for administrative compliance with certificates issued, for reports by handlers thereon, and for such other procedures as may be necessary to administration hereof.

§ 958.30 Granting exemptions.

An area committee may issue certificates of exemption to any qualified applicant who furnishes adequate evidence to such committee:

(a) That the grade, size, or quality of the applicant's potatoes have been adversely affected by acts beyond his control or reasonable expectations;

(b) That by reason of regulations issued pursuant to § 958.20 or § 958.22, the applicant will be prevented as a producer from shipping or having shipped as large a proportion of his production as the average proportion of production shipped by all producers in said applicant's immediate area of production during the season, or a specific portion thereof.

(c) Each such certificate issued shall permit the person identified therein to ship or have shipped the potatoes described thereon, and evidence of such certificates shall be made available to subsequent handlers thereof.

§ 958.31 Investigation.

An area committee shall be permitted at any time to make a thorough investigation of any applicant's claim pertaining to exemptions.

§ 958.32 Appeal.

If any applicant for exemption certificates is dissatisfied with the determination by an area committee with respect to his application, he may file an appeal with the committee. Any applicant filing an appeal shall furnish evidence satisfactory to the committee for a determination on the appeal.

RESEARCH AND DEVELOPMENT

§ 958.35 Research and development.

The committee, with the approval of the Secretary, may provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of potatoes and may make available committee information and data to any person, or to any employee of an agency or its agent, authorized by the committee as its agent with the approval of the Secretary, to conduct such projects.

INSPECTION

§ 958.40 Inspection and certification.

(a) During any period in which the handling of potatoes is regulated pursuant to § 958.20 through § 958.24, inclusive, no handler shall handle potatoes unless such potatoes are inspected by an authorized representative of the Federal or a Federal-State Inspection Service and are covered by a valid inspection certificate, except when relieved of such requirements by § 958.22(b), § 958.23, or § 958.40(b).

(b) Rules may be issued by the Secretary, upon recommendation of the Colorado Potato Committee requiring inspection on regraded, resorted or repacked lots, or providing for special inspection requirements or relief therefrom. Such rules may provide distinctions, insofar as practical, between handling at shipping point and handling in receiving markets within the production area.

(c) Upon recommendation of an area committee and approval by the Secretary, any or all potatoes so inspected and certified shall be identified by appropriate seals, stamps, or tags to be affixed to the containers by the handler under the direction and supervision of a Federal or Federal-State Inspector or the committee. Master containers may bear the identification instead of the individual containers within said master container.

(d) Insofar as the requirements of this section are concerned, the length of time for which an inspection certificate is valid may be established by the committee with the approval of the Secretary.

(e) When potatoes are inspected in accordance with the requirements of this section, a copy of each inspection certificate issued shall be made available to the committee by the inspection service.

(f) Area committees with the approval of the Colorado Potato Committee may recommend and the Secretary may require that no handler shall transport or cause the transportation of potatoes by motor vehicle or by other

means unless such shipment is accompanied by a copy of the inspection certificate issued thereon, or other document authorized by the committee to indicate that such inspection has been performed. Such certificate or document shall be surrendered to such authority as may be designated.

COMMITTEES

§ 958.50 Area committees.

A committee is hereby established as an administrative agency for each area. Each area committee shall be comprised of members and alternates as set forth in this section or as reestablished by § 958.53.

(a) Area No. 1 (Western Slope): Four producers and three handlers selected as follows:

Two (2) producers and one (1) handler from the counties of Eagle, Garfield, Pitkin, Moffat, and Routt, in the State of Colorado;
Two (2) producers and one (1) handler from the remaining counties of Area No. 1;
One (1) handler representing all producers' cooperative marketing associations in Area No. 1.

(b) Area No. 2 (San Luis Valley): Seven producers and five handlers selected as follows:

Three (3) producers from Rio Grande County;
One (1) producer from Saguache County;
One (1) producer from Conejos County;
One (1) producer from Alamosa County;
One (1) producer from all other counties in Area No. 2;
Two (2) handlers representing all producers' cooperative marketing associations in Area No. 2;
Three (3) handlers representing handlers in Area No. 2 other than producers' cooperative marketing associations.

(c) Area No. 3: Five Producers and four handlers selected as follows:

Three (3) producers from Weld County;
One (1) producer from Morgan County;
One (1) producer from the remaining counties of Area No. 3;
Four (4) handlers from Area No. 3.

§ 958.51 Colorado Potato Committee.

The Colorado Potato Committee is hereby established consisting of six members, with alternates. Two members and alternates shall be selected from each area committee. Committeemen shall be selected by the Secretary from nominations of area committee members or alternates.

§ 958.52 Alternates.

(a) For each committee member there shall be an alternate who shall have the same qualifications. During a member's absence, or when called upon to do so in accordance with the terms hereof, or in the event of a member's death, removal, resignation, or disqualification, an alternate shall act in his place and stead until the member's successor is selected and has qualified.

(b) Area committees, with the Secretary's approval, may provide through rules for members or for alternates to recommend regulations for early crop potatoes or for late crop potatoes and to specify the particular crop for which each group shall be responsible.

§ 958.53 Reestablishment.

Areas, subdivisions of areas, the distribution of representation among the subdivision of areas, or among marketing organizations within respective areas may be reestablished by the Secretary upon area committee recommendations. Upon approval therefor of respective committees affected thereby, areas may be reestablished. In recommending any such changes, the committee shall consider (a) the relative importance of new producing sections, (b) relative production, (c) changes in marketing organizations and their relative status in the industry, (d) the geographic locations of producing sections as they would affect the efficiency of administration of this part, and (e) other relevant factors.

§ 958.54 Eligibility.

Area committee members and alternates shall be individuals who shall be residents of, and producers or handlers, as the case may be, in the respective area. Also, each member or alternate to qualify as a representative (a) for producers shall be a producer, or an officer or employee of a producer; (b) for producers' cooperative marketing associations shall be members or employees of such associations; or (c) for handlers other than cooperative marketing associations shall be a handler, or an officer or employee of a handler.

§ 958.55 Term of office.

The term of office of each area committee member and alternate shall be for two years. The term of office for Colorado Potato Committee members and alternates shall be for one year. The dates on which terms of office for each committee shall begin and end shall be established by the Secretary pursuant to respective committee recommendation. Terms of office of area committee members shall be arranged so that approximately one-half shall terminate each year. Determination of which initial members and alternates shall serve for one year or two years shall be by lot.

§ 958.56 Nomination and selection.

(a) Each area committee shall hold or cause to be held, not less than 15 days prior to the expiration date of respective terms of office, meetings of producers and handlers for each subdivision in which terms expire or in which vacancies otherwise occur.

(b) At each such meeting one or more nominees shall be designated for each impending vacancy as member or alternate. Such designation may be by ballot or by motion at the option of those present in voting capacity.

(c) Only producers may participate in designating producer nominees; only handlers may participate in designating handler nominees; and only duly authorized representatives of producers' cooperative marketing associations may participate in designating nominees to represent such associations. If no separate representation is provided for producers' cooperative marketing associations, duly authorized representatives of such associations may participate in designating handler nominees.

(d) Each producers' cooperative marketing association shall be entitled to cast only one vote in designating nominees to represent such associations. Each producer and each handler shall be entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives.

(e) If a producer, handler, or producers' cooperative marketing association is engaged in producing or handling potatoes in more than one area, or in more than one subdivision of an area, such producer, handler, or producers' cooperative marketing association shall elect the area or subdivision in which he may participate in designating nominees. In no event shall there be participation in more than one area or subdivision.

§ 958.57 Failure to nominate.

If nominations are not made pursuant to the provisions of § 958.56 by the date provided therein, the Secretary may, without regard to nominations, select members and alternates on the basis of the representation provided for in this part.

§ 958.58 Vacancies.

To fill any vacancy occasioned by the failure of any person selected as a member or as an alternate to qualify, or in the event of the death, removal, resignation, or disqualification of a member or alternate, a successor for his unexpired term may be selected by the Secretary from nominations made pursuant to § 958.56, from previously unselected nominees on the current nominee list, or from other eligible persons.

§ 958.59 Qualification.

Each person selected as a member or as an alternate shall qualify by promptly filing a written acceptance with the Secretary.

§ 958.60 Compensation and expenses.

(a) Members of each area committee and their alternates shall serve without salary, but may be compensated at a rate not in excess of $10.00 per day while engaged on committee business, and may be reimbursed for necessary expenses actually incurred while so engaged. At the discretion of an area committee, alternates may be requested to attend any or all committee meetings and receive compensation and expenses therefor regardless of attendance by the respective members.

(b) The compensation and expenses of members and alternates of the Colorado Potato Committee shall be paid by the respective area committee they represent.

(c) Such other expenses as may be incurred by the Colorado Potato Committee pursuant to a budget of expenses approved by the Secretary shall be allotted to, and paid by, one or more of the area committees as may be specified in an order issued by the Secretary pursuant to the provisions of this subpart.

§ 958.61 Procedure.

(a) A majority of all members of a committee shall be necessary to constitute a quorum or to pass any motion or approve any committee action.

(b) Each committee may provide for the members thereof, including the alternate members when acting as members, to vote by mail, telegraph, telephone, or other means of communication, provided that any such vote cast orally shall be confirmed promptly in writing. If any assembled meeting is held all votes shall be cast in person.

§ 958.62 Powers.

Each committee shall have the following powers:

(a) To administer the provisions of this subpart as specified herein;

(b) To make rules and regulations to effectuate the terms and provisions of this subpart;

(c) To receive, investigate, and report to the Secretary complaints of violation of the provisions of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 958.63 Duties.

(a) Each committee shall:

(1) Meet and organize as soon as practical after the beginning of each term of office, select a chairman and such other officers as may be necessary, select subcommittees and adopt such rules and procedures for the conduct of its business as it may deem advisable;

(2) Act as intermediary between the Secretary and any producer or handler;

(3) Appoint such employees, agents and representatives as it may deem necessary and determine the salaries and define the duties of each;

(4) Keep minutes, books, and records which clearly reflect all its acts and transactions. Such minutes, books and records shall be subject to examination at any time by the Secretary;

(5) Furnish promptly notices of meetings, copies of the minutes of each committee meeting, and such other reports or information as may be requested by the Secretary, including annual reports of each area committee's operations for the preceding marketing season or fiscal period;

(6) Make available to producers, and to other area committees and the Colorado Potato Committee the committee's voting record on recommended regulations and other matters of policy;

(7) Meet jointly with other area committees when requested to do so by the Colorado Potato Committee;

(8) Consult, cooperate, and exchange information with other area committees, with other marketing agreement committees and other agencies or individuals in connection with proper committee activities and objectives;

(9) Take any proper action necessary to carry out the provisions of this subpart; and

(10) Cause the books of the committee to be audited by a competent accountant at least once each fiscal period.

(b) The Colorado Potato Committee shall also:

(1) Supervise the regulation of shipments pursuant to the provisions of the general cull regulation in the absence of more restrictive regulations, and shall cooperate with any area committee in administering any regulation issued pursuant to this subpart;

(2) Make recommendations to the Secretary with respect to suspending or modifying the provisions of the general cull regulation;

(3) Make available to area committees its voting record on recommendations for modification of the cull regulation and other matters of policy;

(4) Submit to each area committee such available information as may be requested; and

(5) Call joint meetings of area committees on matters requiring consideration of statewide marketing policies when requested to do so by an area committee.

EXPENSES AND ASSESSMENTS

§ 958.75 Expenses.

Each area committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred during each fiscal period for its maintenance and functioning, and for purposes determined to be appropriate for administration of this part. Handlers shall share expenses upon the basis of a fiscal period. Each handler's share of such expense shall be proportionate to the ratio between the total quantity of potatoes handled by him as the first handler thereof during a fiscal period and the total quantity of potatoes handled by all handlers as first handlers thereof during such fiscal period.

§ 958.76 Budget.

As soon as practicable after the beginning of each fiscal period and as may be necessary thereafter, each area committee shall prepare an estimated budget of income and expenditures necessary for its administration of this part. Each area committee may recommend a rate of assessment calculated to provide adequate funds to defray its proposed expenditures. Each area committee shall present such budget to the Secretary with an accompanying report showing the basis for its calculations.

§ 958.77 Assessments.

(a) The funds to cover each area committee's expenses shall be acquired by the levying of assessments upon handlers as provided in this subpart. Each handler who first handles potatoes under this part, shall pay assessments to his respective area committee upon demand, which assessments shall be in payment of such handler's pro rata share of the area committee's expenses.

(b) Assessments shall be levied upon handlers at rates established by the Secretary. Such rates may be established upon the basis of each area committee's budget, recommendations, and other available information. Such rates may be applied to specified containers used in the production area.

(c) At any time during, or subsequent to, a given fiscal period each area committee may recommend the approval of an amended budget and an increase in the rate of assessment. Upon the basis of such recommendations, or other available information, the Secretary may approve an amended budget and increase the rate of assessment. Such increase shall be applicable to all potatoes grown within the particular area where an area committee recommends such increase and which were handled by the first handler thereof during such fiscal period.

(d) The payment of assessments for the maintenance and functioning of each area committee may be required under this part throughout the period it is in effect irrespective to whether particular provisions thereof are suspended or become inoperative.

(e) In order to provide funds to enable each area committee to perform its functions under this part, handlers may make advance payment of assessments.

§ 958.78 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted for in accordance with one of the following:

(1) If such excess is not retained in a reserve, as provided in subparagraph (2) of this paragraph, it shall be refunded proportionately to the persons from whom it was collected.

(2) An area committee, with the approval of the Secretary, may carry over such excess into subsequent fiscal periods as a reserve: *Provided*, That funds already in the reserve are less than approximately two fiscal period's expenses. Such reserve funds may be used (i) to defray expenses, during any fiscal period, prior to the time assessment income is sufficient to cover such expenses; (ii) to cover deficits incurred during any fiscal period when assessment income is less than expenses; (iii) to defray expenses incurred during any period when any or all provisions of this subpart are suspended or are inoperative; (iv) to cover necessary expenses of liquidation in the event of termination of this subpart. Upon such termination, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate. To the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by an area committee pursuant to the provisions of this part shall be used solely for the purposes specified herein. The Secretary may at any time require an area committee and its members to account for all receipts and disbursements.

(c) Upon the removal or expiration of the term of office of any member of an area committee, such member shall account for all receipts and disbursements and deliver all property and funds in his possession to such committee, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such committee full title to all of the property, funds, and claims vested in such member pursuant to this part.

(d) Each area committee may make recommendations to the Secretary for one or more of the members thereof, or any other person, to act as a trustee for holding records, funds, or any other committee property during periods of suspension of this subpart, or during any period or periods when regulations

are not in effect and if the Secretary determines such action appropriate, he may direct that such person or persons shall act as trustee or trustees for such committee.

REPORTS

§ 958.80 Reports.

Upon request of an area committee or of the Colorado Potato Committee through an area committee, each handler within the respective area of such area committee shall furnish to the area committee in such manner and at such time as it may prescribe, reports and other information as may be necessary for the committee to perform its duties under this part.

(a) Such reports may include, but are not necessarily limited to the following examples:

(1) The quantities of potatoes received by a handler during any or all periods of a season;

(2) The quantities disposed of by him, segregated as to quantities subject to regulation, and where necessary segregated as to types of outlets and special or modified regulations applicable to alternative outlets, and including quantities not subject to grade, inspection, assessment, or other similar regulations;

(3) The date of each such disposition and the identification of the carrier transporting such potatoes;

(4) Information essential to identification of any or all specific quantities, lots, and disposition of potatoes handled under §§ 958.23 to 958.30, inclusive, which may include identification of inspection certificates, exemption certificates, certificates of privilege, or other appropriate identification, including the destination of each special shipment, where necessary.

(b) All such reports shall be held under appropriate protective classification and custody by the committee, or duly appointed employees thereof, so that the information contained therein which may adversely affect the competitive position of any handler in relation to other handlers will not be disclosed. Compilations of general reports from data submitted by handlers is authorized, subject to prohibition of disclosure of individual handlers' identities or operations.

(c) Each handler shall maintain for at least two succeeding years such records of the potatoes received and disposed of by such handler as may be necessary to verify the reports he submits to the committee pursuant to this section.

COMPLIANCE

§ 958.81 Compliance.

Except as provided in this subpart, no handler shall handle potatoes, the handling of which has been prohibited by the Secretary in accordance with provisions of this subpart, and no handler shall handle potatoes except in conformity to the provisions of this subpart.

MISCELLANEOUS PROVISIONS

§ 958.82 Right of the Secretary.

The members of each area committee (including successors and alternates) and any agent or employee appointed or employed by any committee shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination or other act of each committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the said committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 958.83 Effective time.

(a) The provisions of this subpart or any amendments thereto shall become effective at such time as the Secretary may declare and shall continue in force until terminated in one of the ways specified in this subpart.

(b) All regulations and rules, including the General Cull Regulation effective July 18, 1949 (§ 958.301; 14 F.R. 3979), issued pursuant to the order (this part) and in effect immediately prior to the effective date of the order as amended (this part), and not in conflict with the amended order, shall continue in effect under this subpart, until such regulations and rules are changed, modified, or suspended. Also, all committee members and alternates selected pursuant to the order and occupying a term of office immediately prior to the effective date of the order as amended, shall continue in office under the amended order until their successors have been selected and have qualified.

§ 958.84 Termination.

(a)(1) The Secretary may at any time terminate any or all provisions of this subpart by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(2) The provisions of § 958.83(b) may be terminated when its purpose has been attained.

(b) The Secretary may terminate or suspend the operations of any or all of the provisions of this subpart whenever he finds that such provisions do not tend to effectuate the declared policy of the Act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any fiscal period whenever he finds that such termination is favored by a majority of producers, who during a representative period, as determined by the Secretary have been engaged in the production of potatoes for market: *Provided*, That such majority has, during such representative period, produced for market more than fifty percent of the volume of such potatoes produced for market.

(d) The provisions of this subpart shall in any event terminate whenever the provisions of the Act authorizing them cease to be in effect.

§ 958.85 Proceedings after termination.

(a) Upon the termination of the provisions of this subpart the then functioning members of each area committee shall continue as joint trustees for the purpose of liquidating the affairs of their respective area committee of all funds and property then in the possession of or under control of the committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of said committees and of the trustees, to such person as the Secretary may direct; and shall upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in said committee or the trustees pursuant to this subpart.

(c) Any person to whom funds, property, or claims have been transferred or delivered by an area committee or its members pursuant to this section shall be subject to the same obligations imposed upon the members of such committees and upon the said trustees.

§ 958.86 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart or the issuance of any amendments to either thereof, shall not (a) effect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart; or (b) release or extinguish any violation of this subpart or of any regulations issued under this subpart; or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violations.

§ 958.87 Duration of immunities.

The benefits, privileges and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ 958.88 Agents.

The Secretary may, by designation in writing, name any person, including any officer or employee of the United States or name any agency in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

§ 958.89 Derogation.

Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the Act or otherwise, or in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 958.90 Personal liability.

No member or alternate of any committee or any employee or agent thereof, shall be held personally responsible, either individually or jointly with others in any way whatsoever, to any handler or to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, agent, or employee, except for acts of dishonesty, willful misconduct or gross negligence.

§ 958.91 Separability.

If any provision of this subpart is declared invalid or the applicability thereof to any person, circumstance or thing is held invalid, the validity of the remainder of this subpart, or the applicability thereof to any other person, circumstance or thing shall not be affected thereby.

§ 958.92 Amendments.

Amendments to this subpart may be proposed from time to time by a committee or by the Secretary.

Order Directing That a Referendum Be Conducted Among Producers; Designating Agents To Conduct Such Referendum; and Determination of a Representative Period

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674), it is hereby directed that a referendum be conducted among producers who are engaged in the State of Colorado in the production of Irish potatoes for market, and who marketed such Irish potatoes during the period June 1, 1959 through May 31, 1960 (which period is hereby determined to be a representative period for the purpose of such referendum), to determine whether such producers approve or favor the issuance of amendments to Order No. 58 (7 CFR Part 958) regulating the handling of Irish potatoes grown in the State of Colorado; and said order, as amended.

The procedure applicable to the referendum shall be the "Procedure for the Conduct of Referenda Among Producers in Connection with Marketing Orders (Except those Applicable to Milk and Its Products) to Become Effective Pursuant to the Agricultural Marketing Agreement Act of 1937, as Amended" (15 F.R. 5176).

J. W. Gannaway, W. J. Cremins and K. W. Schaible, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, are hereby designated as agents of the Secretary of Agriculture to conduct said referendum jointly or severally. Said agents may appoint any person or persons to assist them in performing their functions hereunder.

Copies of the text of the aforesaid annexed order, as amended, may be examined in the office of the Hearing Clerk, Room 112, Administration Building, U.S. Department of Agriculture, Washington, D.C., or at those places in the production area (State of Colorado) announced by the referendum agents.

Ballots to be cast in the referendum and copies of the text of the said order, as amended, may be obtained from any referendum agent and any appointee hereunder.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: May 26, 1960.

CLARENCE L. MILLER,
Assistant Secretary of Agriculture.

[F.R. Doc. 60-4889; Filed, May 31, 1960; 8:47 a.m.]

FEDERAL AVIATION AGENCY

[14 CFR Part 601]

[Airspace Docket No. 60-FW-12]

CONTROL ZONES

Modification

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 601.2344 of the regulations of the Administrator, the substance of which is stated below.

The Federal Aviation Agency is considering modification of the Gulfport, Miss., control zone. The present Gulfport control zone includes the airspace within a 3-mile radius of the Gulfport Municipal Airport and within 3 miles either side of a direct line extending from the Gulfport Municipal Airport to the Keesler Air Force Base, Biloxi, Miss., excluding the portion which coincides with the Biloxi control zone. The Gulfport control zone is only designated during the period 0001 c.s.t., June 1 to 2400 c.s.t. September 15 annually. It is proposed to designate the Gulfport control zone on a continuous basis and to enlarge the Gulfport control zone to include the airspace within a 5-mile radius of the Gulfport Municipal Airport and within 2 miles either side of the Gulfport VOR 325° True radial extending from the 5-mile radius zone to a point 12 miles northwest of the Gulfport VOR. This modification of the Gulfport control zone would provide protection for aircraft conducting IFR approaches and departures at the Gulfport Municipal Airport.

If this action is taken, the Gulfport, Miss., control zone would be redesignated within a 5-mile radius of the Gulfport Municipal Airport (latitude 30°24'25" N., longitude 89°04'20" W.) and within 2 miles either side of the Gulfport VOR 325° True radial extending from the 5-mile radius zone to a point 12 miles northwest of the Gulfport VOR, excluding the portion which coincides with the Biloxi, Miss., control zone (§ 601.2132).

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, P.O. Box 1689, Fort Worth 1, Tex. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on May 24, 1960.

GEORGE S. CASSADY,
Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-4858; Filed, May 31, 1960; 8:45 a.m.]

[14 CFR Part 601]

[Airspace Docket No. 60-WA-55]

CONTROL AREAS

Modification of Control Area Extension

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to §§ 601.1394 of the regulations of the Administrator, the substance of which is stated below.

The Westhampton Beach, N.Y., control area extension includes the airspace centered on the Suffolk County AFB TVOR 039° True radial extending from the airport 5 statute mile radius zone boundary to a point 27 statute miles northeast thereof and having a width of 2 statute miles at the control zone boundary expanding to a width of 4.6 statute miles at a point 27 statute miles northeast of the control zone boundary. The Federal Aviation Agency has under consideration modification of the Westhampton Beach control area extension by enlarging it to include additional airspace north-northeast of the Hampton, N.Y., VOR and to include the airspace with the Gardiner's Island, N.Y., Restricted Area (R-19). This modification would provide protection for aircraft conducting instrument approaches to the Suffolk County Air Force Base. The airspace within Restricted Area (R-19) would be utilized for the air traffic management of aircraft operating between Hampton VOR and Norwich, Conn., VOR during the period when Restricted Area (R-19) is not in use.

If this action is taken, the Westhampton Beach, N.Y., control area extension would be redesignated to include the area

north-northeast of the Hampton, N.Y., VOR bounded on the west by the New York, N.Y., control area extension (§ 601.1066), on the northwest by VOR Federal airway No. 16, on the north by VOR Federal airway No. 130, on the northeast and southeast by VOR Federal airway No. 139. The portions of this control area extension which lie within the Westhampton Beach, N.Y., (Suffolk County AFB) Restricted Area/Military Climb Corridor (R–545) and within the Gardiner's Island, N.Y., Restricted Area (R–19) shall be used only after obtaining prior approval from the controlling agencies concerned.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B–316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on May 24, 1960.

GEORGE S. CASSADY,
Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–4859; Filed, May 31, 1960; 8:45 a.m.]

[14 CFR Part 608]

[Airspace Docket No. 59–FW–105]

RESTRICTED AREAS

Modification

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 608.51 of the regulations of the Administrator, the substance of which is stated below.

The Federal Aviation Agency has under consideration a proposal by the Department of the Army to modify the Fort Hood, Tex., Restricted Area (R–219). The Fort Hood Restricted Area is an area of approximately 250 square miles located in central Texas, southwest of Waco, utilized by the Department of Army for small arms, tank cannon, artillery and rocket firing. The time of designation is continuous. The controlling agency is the Commanding General, Fort Hood, Tex. It is proposed to modify the Fort Hood Restricted Area in order to place the Fort Hood Airport outside of the Restricted Area. It would then be possible to designate the controlled airspace necessary to provide protection for aircraft conducting instrument approaches to the Fort Hood Airport. In addition, the boundary of the Restricted Area would be modified and extended towards the northwest so as to provide additional space for the containment of gunnery and rocket firing. This modification would reduce the size of the Fort Hood Restricted Area by approximately 25 square miles.

If this action is taken, the Fort Hood, Tex., Restricted area (R–219) (Austin Chart) would be designated as follows:

Description by geographical coordinates:

Beginning at latitude 31°06'07" N., longitude 97°32'45" W.;
thence northwest to latitude 31°09'00" N., longitude 97°41'15" W.;
north to latitude 31°09'45" N., longitude 97°41'15" W.;
West to latitude 31°09'45" N., longitude 97°43'15" W.;
southwest to latitude 31°08'45" N., longitude 97°43'30" W.;
west to latitude 31°08'45" N., longitude 97°47'15" W.;
northwest to latitude 31°15'00" N., longitude 97°50'45" W.;
north to latitude 31°19'15" N., longitude 97°50'45" W.;
northeast to latitude 31°23'25" N., longitude 97°47'40" W.;
southeast to latitude 31°22'30" N., longitude 97°42'45" W.;
southwest to latitude 31°12'45" N., longitude 97°30'45" W.;
southwest to point of beginning.

Designated altitude. Surface to 33,000 feet MSL.

Time of designation. Continuous.

Controlling Agency. Commanding General, Fort Hood, Tex.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, P.O. Box 1689, Fort Worth 1, Tex. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B–316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on May 24, 1960.

GEORGE S. CASSADY,
Acting Director, Bureau of Air Traffic Management.

SMALL BUSINESS ADMINISTRATION

[13 CFR Part 121]

SMALL BUSINESS SIZE STANDARDS

Notice of Proposal To Amend the Definition of Small Business for the Trucking and Warehousing Industry for the Purpose of Government Procurements and SBA Business Loans

Notice is hereby given that the Administrator of the Small Business Administration proposes to amend the definition of small business for the trucking and warehousing industry for the purpose of Government procurements and SBA business loans, as contained in the Small Business Size Standards Regulation (Revision 1), as amended, (24 F.R. 3491, 5628, 7458, 9329).

The present definition of small business for the trucking and warehousing industry, for the purpose of Government procurements, is 500 or less employees. The proposed amendment would change the definition so that a small business in this industry will be defined as a concern which has annual receipts of $3,000,000 or less for its preceding fiscal year.

The present definition of small business for the trucking and warehousing industry, for the purpose of SBA business loans, is a concern which has annual receipts of $3,000,000 or less. It is proposed to amend this definition so that the language contained therein will be identical to the definition for small business for the trucking and warehousing industry for the purpose of Government procurements.

Both definitions include, but are not limited to, household movers, freight carriers, booking and hauling agents and other similar businesses. The requirements that a concern must be independently owned and operated and that affiliates must be included in determining the annual receipts of a company remain unchanged.

Interested persons may file with the Small Business Administration within 30 days after publication in the FEDERAL REGISTER, written statements of facts, opinions or arguments concerning the new definition.

All correspondence shall be addressed to:

Donald A. Hipkins, Deputy Administrator, Small Business Administration, Washington 25, D.C.

It is proposed to change the definition of small business for the trucking and warehousing industry, for the purpose of Government procurements and SBA business loans, as follows:

The Small Business Size Standards Regulation (Revision 1), as amended (24 F.R. 3491, 5628, 7458, 9329) is hereby further amended by:

1. Adding new § 121.3–8(a)(7) as follows:

§ 121.3–8 Definition of small business for Government procurement.

* * * * * * *

(a) * * *

"(7) *Trucking and warehousing industry.* Any business concern in the local and long distance trucking and warehousing industry (including household movers, freight forwarders, booking and hauling agents and other similar businesses) is small if its annual receipts for the preceding fiscal year are $3,000,000 or less.

2. Deleting § 121.3–10(h) and substituting in lieu thereof, the following new § 121.3–10(h):

§ 121.3–10 Definition of small business for SBA business loans.

* * * * * * *

(h) *Trucking and warehousing.* Any business concern in the local and long distance trucking and warehousing industry (including household movers, freight forwarders, booking and hauling agents and other similar businesses) is small if its annual receipts for the preceding fiscal year are $3,000,000 or less.

PHILIP MCCALLUM,
Administrator.

MAY 17, 1960.

MILLFEED SHORTS FROM CUBA

Notice That There Is Reason To Believe or Suspect Exporter's Sales Price Is Less or Likely To Be Less Than Foreign Market Value

MAY 25, 1960.

Pursuant to section 201(b) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(b)), notice is hereby given that there is reason to believe or suspect, from information presented to me, that the exporter's sales price of millfeed shorts imported from Cuba is less, or likely to be less, than the foreign market value, as defined by sections 204 and 205, respectively, of the Antidumping Act, 1921, as amended (19 U.S.C. 163 and 164).

Customs officers are being authorized to withhold appraisement of entries of millfeed shorts from Cuba pursuant to section 14.9 of the Customs Regulations (19 CFR 14.9).

FEDERAL POWER COMMISSION

[Project No. 2217]

EDEN RIDGE HYDROELECTRIC PROJECT, PACIFIC POWER AND LIGHT CO.

Notice of Land Withdrawal; Oregon

MAY 24, 1960.

Conformable to the provisions of section 24 of the Act of June 10, 1920, as amended, notice is hereby given that the lands hereinafter described insofar as title thereto remains in the United States are included in power Project No. 2217 (Eden Ridge Hydroelectric Project) for which application for license was filed January 29, 1960, by the Pacific Power and Light Company, Public Service Building, Portland 4, Oregon. Under said section 24 these lands are from said date of filing reserved from entry, location, or other disposal under the laws of the United States until otherwise directed by the Commission or by Congress.

The area reserved by the filing of the application for this project is approximately 7,400.22 acres; all of which are within the Siskiyou National Forest and approximately 1600.66 acres of which are Revested O & C lands.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 13489 etc.; FCC 60M-883]

ALEXANDRIA BROADCASTING CORP. (KXRA) ET AL.

Order for Prehearing Conference

In re applications of Alexandria Broadcasting Corporation (KXRA), Alexandria, Minnesota, Docket No. 13489, File No. BP-12287; Clifford L. Hedberg, tr/as Western Minnesota Broadcasting Co. (KMRS), Morris, Minnesota, Docket No. 13499, File No. BP-12347; KISD, Inc. (KISD), Sioux Falls, South Dakota, Docket No. 13500, File No. BP-13366; for construction permits.

A prehearing conference in the above-entitled proceeding will be held on Friday, June 3, 1960, beginning at 10:00 a.m. in the offices of the Commission, Washington, D.C. This conference is called pursuant to the provisions of § 1.111 of the Commission's rules and the matters to be considered are those specified in that section of the Rules.

It is so ordered, This the 20th day of May 1960.

Released: May 23, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60-4896; Filed, May 31, 1960; 8:48 a.m.]

[Docket Nos. 13381, 13439; FCC 60M-881]

AMERICAN TELEPHONE AND TELEGRAPH CO. ET AL.

Order Scheduling Hearing

In the matter of American Telephone and Telegraph Company, regulations and charges for components of a distinctive tone and circuit assurance arrangement, Docket No. 13381; American Telephone and Telegraph Company, et al., regulations and charges for certain equipment on an 82-B-1 type relay system for use in connection with private line teletypewriter service, Docket No. 13439.

Pursuant to agreement of counsel, arrived at during the prehearing conference held on this date, the direct evidence in this case will be presented in writing.

It was further agreed and it is so ordered, This 19th day of May 1960, that the following schedule of dates shall govern:

Direct cases will be exchanged on July 20, 1960.

Request for additional data, if any, will be made on August 3, 1960.

A statement as to any data which will not be submitted voluntarily will be served on other parties on August 10, 1960.

A further prehearing conference will be held on September 1, 1960, at 10 a.m.

Any additional data which has been requested will be furnished on or before September 7, 1960.

It is further ordered, That the hearing in this proceeding will commence on September 21, 1960, at 10 a.m., in Washington, D.C.

Released: May 23, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60-4898; Filed, May 31, 1960; 8:48 a.m.]

[Docket No. 12264 etc.; FCC 60M-909]

HIRSCH BROADCASTING CO. (KFVS) ET AL.

Statement and Order After Prehearing Conference

In re applications of Hirsch Broadcasting Company (KFVS), Cape Girardeau, Missouri, Docket No. 12264, File No. BP-11001; W. H. Firmin, J. H. Firmin and Bernard Lurie, d/b as The Firmin Company, Vincennes, Indiana, Docket No. 12266, File No. BP-11621; Donze Enterprises, Incorporated (KSGM), Chester, Illinois, Docket No. 13059, File No. BP-11456; for construction permits.

1. A prehearing conference today was attended by counsel for applicants Hirsch and Donze; respondents WAVE, Radio Indianapolis (WXIW), and KXJK; and the Broadcast Bureau. On March 9, 1960, counsel for applicant Firmin had withdrawn their appearance. No substitute appearance was filed for Firmin, nor was it represented at today's session. Since the preparation of the other parties would be materially affected by the participation of Firmin, and the absence of its representative made it impossible to determine its position, in accordance with his authority to regulate the course of the hearing (Rule 1.144(f)) the Hearing Examiner held Firmin in default, a ruling which is here again noted and confirmed. He permitted counsel for WAVE and Radio Indianapolis, interested solely in the Firmin application, to leave the hearing room; it was understood, however, that they were not withdrawing from the proceeding, and that their future participation was dependent on the treatment of Firmin's application. While Firmin's application was not denied for default, since such action would be premature at this point, its continued failure to participate can obviously lead only to that result.

2. Because the issues do not appear in a single order, it was necessary to correlate the various orders of designation and determine the applicable issues. They are as follows:

As to Hirsch:

Order released December 16, 1957: Issues No. 1, 7, and 9.

Memorandum Opinion and Order released October 16, 1958: Issue No. 12.

Order released August 10, 1959: Issues No. 2, 3, 4, 10, and 12.

As to Donze:

Order released August 10, 1959: Issues No. 2, 3, 4, 8, 10, and 12.

3. It was agreed, among other things, that the direct affirmative cases of the applicants would be in written form. The following timetable was agreed to:

a. Exchange of written cases—By July 8, 1960.

b. Notice of witnesses desired for cross-examination—By July 19, 1960.

c. Hearing—Tuesday, July 26, 1960, at 10 a.m.

So ordered, This 25th day of May, 1960.

Released: May 26, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

IDAHO MICROWAVE, INC.

Order Continuing Hearing

In re applications of Idaho Microwave, Inc., Docket No. 13410: for construction permit for new fixed radio station at Kimport Peak, Idaho (KPL24), File No. 2672-C1-P-58; for construction permit for new fixed radio station at Rock Creek, Idaho (KPL25), File No. 2673-C1-P-58; for construction permit for new fixed radio station at Jerome, Idaho (KPL26), File No. 2674-C1-P-58.

The Hearing Examiner having under consideration a "Motion to Continue Date of Hearing" (the movant obviously has reference to a prehearing conference) filed on May 20, 1960, in the above-entitled matter by Idaho Microwave, Inc., and

It appearing that the aforesaid Motion requests the continuance of the prehearing conference now scheduled to take place on June 1, 1960, to a date later to be specified following the Commission's action on a "Petition for Reconsideration" directed toward a Commission Order, released May 2, 1960, and

It further appearing that all parties to the proceeding agree to the present Motion and that no objection to its granting will be filed, and

It further appearing that good cause for granting the said Motion has been shown,

It is ordered, This 24th day of May 1960, that the Motion is granted and that, accordingly, the prehearing conference now scheduled to take place on June 1, 1960, be continued without date, and

It is further ordered, On the Examiner's own motion, that the hearing in this matter now scheduled for June 15, 1960, be likewise continued without date.

Released: May 25, 1960.

INTERSTATE COMMERCE COMMISSION

[Notice 321]

MOTOR CARRIER TRANSFER PROCEEDINGS

MAY 26, 1960.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 63233. By order of May 25, 1960, the Transfer Board approved the transfer to Digman Trucking Inc., Tallmadge, Ohio, of the operating rights set forth in Certificate No. MC 119523, issued by the Commission April 19, 1960, to Ernie Gable, Akron, Ohio, authorizing the transportation, over irregular routes, of ground clay and clay products, from Empire, Ohio, to points in a described portion of Pennsylvania, from points in Beaver (except Fallston) Armstrong, and Jefferson Counties, Pa., to points in a described portion of Ohio, and clay products, from seven specified towns in Ohio to points in described portions of Pennsylvania and West Virginia, and from Bradford and Fallston, Pa., to points in Ohio. Herbert Baker, 50 West Broad Street, Columbus 15, Ohio, for applicants.

No. MC-FC 63260. By order of May 25, 1960, the Transfer Board approved the transfer to Alfred Brown and Sylvia J. Brown, a partnership, doing business as Brown and Brown, Atmore, Alabama, of Certificate in No. MC 116994, issued May 21, 1958, to Keel H. Brown and Alfred Brown, a partnership, doing business as Brown & Brown, Atmore, Alabama, authorizing the transportation of: Passengers and their baggage, between Frisco City, Ala., and the plant site of Chemstrand Corporation (near Gonzalez, Fla.), serving all intermediate points in Alabama. J. Douglas Harris, Attorney, 413-414 Bell Building, Montgomery, Ala., for applicants.

[Docket 33440]

PETITION FOR INSTITUTION OF AN INVESTIGATION AND FOR OTHER RELIEF

MAY 24, 1960.

Petitioners: Brotherhood of Locomotive Firemen and Enginemen, Keith Building, Cleveland 15, Colo. Brotherhood of Locomotive Engineers, Engineers Building, Cleveland 14, Ohio. Brotherhood of Railroad Trainmen, Standard Building, Cleveland 13, Ohio. Order of Railway Conductors and Brakemen, ORC & B Building, Cedar Rapids, Iowa. Switchmen's Union of North America, 3 Linwood Avenue, Buffalo 2, N.Y. By a petition filed May 11, 1960, petitioners pray that the Interstate Commerce Commission in response to the petition, upon its own motion, or otherwise inaugurate a general investigation of the transportation by motor vehicle of petroleum, petroleum products and similar dangerous inflammable liquids, and of the frequency, causes and results of collisions between such vehicles and railroad trains.

Petitioners state that the principal object of such investigation should be the determination of what rules, regulations, facilities or other actions are feasible and necessary to prevent such collisions. A further request is that the Commission invite the cooperation, recommendations, participation and other assistance of states, Federal agencies and private organizations and officers and officials thereof having any interest in the subject matter.

Any person or persons desiring to participate in this matter may file representations supporting or opposing the relief sought within 30 days from the date of this publication in the FEDERAL REGISTER.

By the Commission.

[SEAL] HAROLD D. McCOY,
Secretary.

[Rev. S.O. 562, Taylor's I.C.C. Order 117]

READING CO.

Rerouting or Diversion of Traffic

In the opinion of Charles W. Taylor, Agent, because the coal dumping pier located on the Reading Company at Port Reading, New Jersey, is inoperative the Reading Company is unable to dump carload coal or slag now on hand at Port Reading or enroute to Port Reading.

It is ordered, That:

(a) Rerouting of traffic: The Reading Company is hereby authorized to reroute or divert carloads of anthracite and bituminous coal or slag, now on hand at Port Reading or enroute to Port Reading, to the coal dumping piers of The Central Railroad Company of New Jersey at Jersey City, New Jersey, or to any other coal dumping pier in New York Harbor or for all rail delivery in New York Harbor where practicable. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) Concurrence of receiving roads to be obtained: The railroad named, desiring to divert or reroute traffic over the line or lines of another carrier under this order, shall confer with the proper transportation officer of the railroad or railroads to which such traffic is to be diverted or rerouted, and shall receive the concurrence of such other railroads before the rerouting or diversion is ordered.

(c) Notification to shippers: The carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said Agent is deemed to be due to carrier's disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipments on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic; divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with the pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date: This order shall become effective at 11:00 a.m., May 24, 1960.

(g) Expiration date: This order shall expire at 11:59 p.m., June 24, 1960, unless otherwise modified, changed, suspended or annulled.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement and by filing it with the Director, Office of the Federal Register.

Issued at Washington, D.C., May 24, 1960.

INTERSTATE COMMERCE COMMISSION,
CHARLES W. TAYLOR,
Agent.

MAY 25, 1960.

In the matter of Wilkes-Manchester Productions and Emil Coleman as "The Deadly Game Company"; File No. 24NY-4842.

Wilkes-Manchester Productions and Emil Coleman as "The Deadly Game Company" (issuer), a limited partnership organized under the laws of the State of New York, filed with the Commission on April 8, 1959 a notification on Form 1-A and an offering circular relating to a proposed public offering of pre-formation limited partnership interests in units of $2,000 for an aggregate amount of $100,000 with the provision for an involuntary overcall of 10 percent for an additional amount of $10,000 for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of Section 3(b) thereof and Regulation A promulgated thereunder.

The Commission on March 25, 1960 ordered, pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A sought for the offering be temporarily suspended on the grounds that the terms and conditions of Regulation A had not been complied with in that a Form 2-A report of sales had not been filed as required by Rule 260.

Subsequent to the Commission's action temporarily suspending the exemption, a Form 2-A report was filed reflecting that units in the amount of $100,000 had been sold as of December 20, 1959 and that the play has been produced, presented and closed. No further offering is being made.

It appearing to the Commission that a hearing is not necessary or appropriate in the public interest or for the protection of investors,

It is ordered, Pursuant to Rule 261(b) of the general rules and regulations under the Securities Act of 1933, as amended, that said temporary order of suspension be, and hereby is, vacated.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 1-3865]

SKIATRON ELECTRONICS AND TELEVISION CORP.

Order Summarily Suspending Trading

MAY 25, 1960.

In the matter of trading on the American Stock Exchange in the common stock, par value 10 cents per share of Skiatron Electronics and Television Corporation; File No. 1-3865.

The common stock, par value 10 cents per share of Skiatron Electronics and Television Corporation, being listed and registered on the American Stock Exchange, a national securities exchange; and

The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on such Exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion further that such suspension is necessary in order to prevent fraudulent, deceptive or manipulative acts or practices, with the result that it will be unlawful under section 15(c)(2) of the Securities Exchange Act of 1934 and the Commission's Rule 15c2-2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of such security, otherwise than on a national securities exchange;

It is ordered, Pursuant to section 19(a)(4) of the Securities Exchange Act of 1934 that trading in said security on the American Stock Exchange be summarily suspended in order to prevent fraudulent, deceptive or manipulative acts or practices, this order to be effective for a period of ten (10) days, May 26, 1960 to June 4, 1960, both dates inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F.R. Doc. 60-4917; Filed, May 31, 1960; 8:49 a.m.]

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Classification 2]

ALASKA

Small Tract Opening

1. Pursuant to the authority delegated to me by Bureau Order No. 541, dated April 21, 1954 (19 F.R. 2473), I hereby classify the following described public lands totaling 14.34 acres at Tok Junction, Alaska, as suitable for lease and sale for residence and/or business purposes under the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U.S.C. 682a), as amended:

COPPER RIVER MERIDIAN

T. 18 N., R. 13 E.,
Section 19: Lots 88, 89, 90, 91, 93, 94, U.S. Survey 2787: Lots 1, 2, 3, 4, 5, 6.

Containing 14.34 acres.

2. Classification of the above described lands by this order segregates them from all appropriations, including locations under the mining laws, except as to applications under the Small Tract Act and applications under the mineral leasing laws.

3. The lands are located on the south side of the Alaska Highway approximately one-fourth mile east of the junction of the Alaska Highway and the Glenn Highway near the community of Tok Junction, Alaska. The topography is generally flat. Culinary water is not available from any presently developed source. A school, church, and stores, plus other public facilities, are available in Tok Junction. Soils are of shallow depth underlain with a thick gravel deposit. The native vegetation consists of a mixture of cottonwood and spruce beneath which is a dense growth of tundra type mosses and berry bushes. There is no evidence of metallic or nonmetallic minerals.

4. Each tract of land offered will consist of two lots and have a total acreage of 2.39 acres as shown below. A plat of survey showing the location and dimensions of each lot can be secured for $1.00 from the Manager, Land Office, 516 Second Avenue, Fairbanks, Alaska. The appraised value of each tract, consisting of two lots, is $800 per tract as shown below. An easement, 150 feet in width, for highway purposes, will extend along the northern boundary of each tract as shown below. All minerals in the lands will be reserved to the United States.

T. 18 N., R. 13 E., C.R.M.

U.S.S. 2787 + Sec. 19	Total acreage	Advance rental 2 years	Easement width location	Appraised value
Lot 1 + Lot 88	2.39	$80.00	150' N. boundary	$800.00
Lot 2 + Lot 89	2.39	80.00	150' N. boundary	800.00
Lot 3 + Lot 90	2.39	80.00	150' N. boundary	800.00
Lot 4 + Lot 91	2.39	80.00	150' N. boundary	800.00
Lot 5 + Lot 93	2.39	80.00	150' N. boundary	800.00
Lot 6 + Lot 94	2.39	80.00	150' N. boundary	800.00

5. Leases will be issued for a term of two years and will contain an option to purchase in accordance with 43 CFR 257.13. Lessees who comply with the general terms and conditions of their leases will be permitted to purchase their tracts at the prices listed above provided that during the period of their leases they construct the improvements specified in paragraph 7. Leases will be renewable at the discretion of the Bureau of Land Management, and the renewal lease will be subject to such terms and conditions as are deemed necessary in the light of the circumstances and the regulations existing at the time of the renewal. However, a lease will not be renewable unless failure to construct the required improvements is justified under the circumstances and nonrenewal would work an extreme hardship on the lessee.

6. Persons who have previously acquired a tract under the Small Tract Act are not qualified to secure a tract at the drawing unless they can make a showing satisfactory to the Bureau of Land Management that the acquisition of another tract is warranted in the circumstances.

7. The improvements referred to in paragraph 5 above must conform with health, sanitation and construction requirements of local ordinances and must in addition meet the following standards:

In the case of a residence site, the improvements will have a minimum exterior dimension of 12 feet by 16 feet, a permanent foundation, at least one door and one window and will be sufficiently well-constructed and insulated so that permanent year around residence would be feasible. Sanitary facilities must be provided (enclosed outhouse with pit or chemical toilet with disposal pit are acceptable). Improvements must be neat and sightly, and the lands leased shall not be permitted to become covered with building waste, trash, or other debris.

In the case of a business site, the improvements will be substantial construction suitable for the use for which the lease is issued. The structure must be constructed with standard materials in accordance with standard practices and supported on foundation, piers, footings, or posts and provided with permanent windows and doors. The structure must be permanently affixed to the ground and provisions made for an adequate water supply and sewage disposal facilities as necessary in the proper conduct of the business. Where sanitary and sewage disposal facilities are necessary in the proper conduct of the business, they must be in accordance with the requirements set forth above pertaining to residence sites. At the time of application to purchase, the lessee will be required to show that he is engaged in the operation of a legitimate commercial business considered prudent under usual business practices.

In all cases, a permit must be obtained from the local Bureau of Public Roads representative before a driveway is constructed from the highway to the lot.

8. The lands are now open to filing of drawing cards, Form 4-775b. Drawing cards are available upon request from the Manager, Land Office, 516 Second Avenue, Fairbanks, Alaska. Requests for drawing cards should refer to "Classification No. 2", and should be accompanied by a stamped self-addressed return envelope to facilitate mailing of the cards.

Drawing cards will be accepted if filled out in compliance with the instructions on the form and filed with the above named official by 10:00 a.m. on June 30, 1960. A drawing will be held on that date or shortly thereafter. Any person who submits more than one card will be declared ineligible to participate in the drawing. Tracts will be assigned to entrants in the order that their names are drawn. All entrants complying with the instructions on the drawing cards and in this classification order will be notified of the results of the drawing. Successful entrants will be sent copies of the lease forms (Form 4-776), with instructions as to their execution and return and as to payment of fees and rentals.

Any tracts remaining untaken or unleased after the drawing will be open to the filing of applications on a first come, first served, basis beginning at 10:00 a.m., on June 30, 1960. All persons are warned that the $10.00 service fee will be retained by the Government in connection with all applications filed after that date.

9. Inquiries concerning these lands shall be addressed to Manager, Land Office, 516 Second Avenue, Fairbanks, Alaska.

RICHARD L. QUINTUS,
Operations Supervisor.

ALASKA

Nenana Townsite; Notice of Sale

MAY 20, 1960.

Notice is hereby given that there will be offered at public sale to the highest bidder at 12:00 noon on June 27, 1960 in the Nenana Civic Center, Nenana, Alaska, the lots or blocks listed at the end of this notice. These tracts will not be sold for less than the appraised price. No bid exceeding that amount will be accepted unless made in increments of $25.00. Bids may be offered by all who may care to do so, and when there will be no further offers, the lots or blocks will be declared sold to the last and highest bidder.

Full payment may be made in cash, postal money order, or bank draft at the date of sale. On all bids, a minimum of $100 will be required at time of sale. The balance must be paid to the Manager, Fairbanks Land Office, within three months from date of sale. If any person who has made partial payment for a tract fails to make succeeding payment, the money theretofore paid and his rights to the tract will be forfeited.

The officer conducting the sale is authorized to reject any and all bids, to suspend, adjourn or postpone the sale of the lots or blocks and to reappraise them at the time of sale or after the sale has been adjourned or closed. If they remain unsold, they may be sold at private entry for the appraised price. Tracts, the rights to which have been declared forfeited for nonpayment of the succeeding installment, or for any other reason, shall be subject to private entry at the appraised price. All persons are warned against violation of the provisions of 18 U.S.C. 1860, prohibiting unlawful combinations or intimidation of bidders.

Following are the lots or blocks being offered for sale, the area embraced by each, and the minimum acceptable bids for these tracts:

DEPARTMENT OF AGRICULTURE

Office of the Secretary

ARKANSAS

Designation of Area for Production Emergency Loans

For the purpose of making production emergency loans pursuant to section 2(a) of Public Law 38, 81st Congress (12 U.S.C. 1148a–2(a)), as amended, it has been determined that in the following counties in the State of Arkansas a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

ARKANSAS

Conway.	Johnson.
Faulkner.	Pope.

Pursuant to the authority set forth above, production emergency loans will not be made in the above-named counties after December 31, 1960, except to applicants who previously received such assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 26th day of May 1960.

TRUE D. MORSE,
Acting Secretary.

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

Issuance to Various Industries

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), the regulations on employment of learners (29 CFR Part 522), and Administrative Order No. 536 (24 F.R. 9274) the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the Act. The effective and expiration dates, occupations, wage rates, number or proportion of learners, learning periods, and the principal product manufactured by the employer for certificates issued under general learner regulations (§§ 522.1 to 522.11) are as indicated below. Conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.20 to 522.24, as amended).

The following learner certificates were issued authorizing the employment of 10 percent of the total number of factory production workers for normal labor turnover purposes. The effective and expiration dates are indicated.

Bellaire Garment Co., Bellaire, Ohio; effective 5–11–60 to 5–10–61. Learners may not be engaged at special minimum wage rates in the production of separate skirts and/or lined jackets (women's dresses and sportswear).

Brunswick Manufacturing Co., Goodyear Park, Brunswick, Ga.; effective 5–6–60 to 5–5–61 (children's and ladies' jackets, car coats).

Cluett, Peabody & Co., Inc., 433–471 River Street, Troy, N.Y.; effective 5–21–60 to 5–20–61 (dress shirts).

Elsing Manufacturing Co., South on Highway 69, McAlester, Okla.; effective 5–13–60 to 5–11–61. Learners may not be employed at special minimum wage rates in the production of separate skirts (women's and children's sportswear, dresses and blouses).

Fleetwood Shirt Corp., 26 East Locust Street, Fleetwood, Pa.; effective 5–16–60 to 5–15–61 (men's and women's shirts).

Griffin Garment, 123 Experiment Street, Griffin, Ga.; effective 5–16–60 to 5–15–61 (brassieres and girdles).

The H. D. Lee Co., Inc., 405 East Madison Street, South Bend, Ind.; effective 5–15–60 to 5–14–61 (men's work clothing).

Kar-Lyn, Inc., 162 Coxe Avenue, Asheville, N.C.; effective 5–4–60 to 5–3–61 (boys' clothes).

W. Kotkes and Son, Inc. (Wilko Uniform Co.); 1305 Main Street, Lynchburg, Va.; effective 5–2–60 to 5–1–61 (women's, nurses' and maids' uniforms).

Lee-Mar Shirt Co., Inc., Pulaski, Tenn.; effective 5–13–60 to 5–12–61 (boys' sport shirts).

Metter Manufacturing Co., Metter, Ga.; effective 5–9–60 to 5–8–61 (ladies' blouses).

Monroe Garment Co., Southerland Avenue, Monroe, N.C.; effective 5–14–60 to 5–13–61 (men's cotton work shirts).

Oberman Manufacturing Co., Valdosta, Ga.; effective 5–27–60 to 5–26–61 (men's and boys' dungarees).

Opp Textiles, Inc., Opp, Ala.; effective 5–12–60 to 5–11–61 (hunting clothes; men's work clothes; miscellaneous outerwear).

Pikeville Sportswear Co., Pikeville, Tenn.; effective 5–21–60 to 5–20–61 (men's and boys' sport shirts).

Pittston Apparel Co., West Enterprise and Market Streets, Glen Lyon, Pa; effective 5–4–60 to 5–3–61 (ladies' brassieres and girdles).

Rappahannock Manufacturing Co., Inc., Airport Avenue, Fredericksburg, Va.; effective 5–15–60 to 5–14–61 (men's dress trousers).

Regina Manufacturing Co., 44 Carey Avenue, Wilkes-Barre, Pa.; effective 5–18–60 to 5–17–61 (misses' and junior cotton dresses).

Reliance Manufacturing Co., Factory No. 49, Adams Commercial, Lebanon, Mo.; effective 5–5–60 to 5–4–61 (men's and boys' work clothing and leisure wear).

Scranton Pants Manufacturing Co., 614 Wyoming Avenue, Scranton, Pa.; effective 5–23–60 to 5–22–61 (men's trousers).

Southeastern Shirt Corp., 110 North Indiana Avenue, LaFollette, Tenn.; effective 5–4–60 to 5–3–61 (men's dress and sport shirts—woven material).

Stein-Way Clothing Co., Inc., 711 West Walnut Street, Johnson City, Tenn.; effective 5–4–60 to 5–3–61 (men's and boys' trousers and shorts).

Sweet-Orr and Co., Inc., Dawsonville, Ga.; effective 5–24–60 to 5–23–61 (boys' uniform shirts).

Trimble Manufacturing Corp., Trimble, Tenn.; effective 5–3–60 to 5–2–61 (sport jackets).

Twin Cities Manufacturing Co., Inc., White Hall, Ill.; effective 5–10–60 to 5–9–61 (women's dresses and sportswear).

Williamson-Dickie Manufacturing Co., Tyler, Tex.; effective 5–25–60 to 5–24–61 (men's and boys' cotton pants).

The following learner certificates were issued for normal labor turnover purposes. The effective and expiration dates and the number of learners authorized are indicated.

Carol Ann Apparel Corp., Municipal Building., Cherry Tree, Pa.; effective 5–16–60 to 5–15–61; five learners (women's dresses).

Huntsville Garment Co., Huntsville, Ark.; effective 5–6–60 to 5–5–61; 10 learners (men's laundry pants).

Irene Sportswear Co., Inc., Wyoming County, Nicholson, Pa.; effective 5–18–60 to 5–17–61; 10 learners (ladies' blouses).

Beatrice Needle Craft, Inc., Malecon Road Plant, Mayagues, P.R.; effective 4–28–60 to

4-22-61; 20 learners for normal labor turnover purposes in the occupation of sewing machine operators for a learning period of 480 hours at the rates of 60 cents an hour for the first 320 hours and 70 cents an hour for the remaining 160 hours (brassieres).

Caribe Crown Cap Corp., 27 San Patricio Avenue, Reparto Metropolitano, Rio Piedras, P.R.; effective 5-2-60 to 11-1-60; nine learners for plant expansion purposes in the occupations of press operators, Nagy assembly machine operators, Sacmi spot machine operators, and disc cutter operators, each for a learning period of 480 hours at the rates of 75 cents an hour for the first 240 hours and 88 cents an hour for the remaining 240 hours (crown caps).

Catherine Needle Craft, Inc., 60 Comercio Street, Mayagues, P.R.; effective 4-22-60 to 4-21-61; 16 learners for normal labor turnover purposes in the occupation of sewing machine operators for a learning period of 480 hours at the rates of 60 cents an hour for the first 320 hours and 70 cents an hour for the remaining 160 hours (brassieres).

E. M. T. Fittings Co., Inc., Dorado, P.R.; effective 5-2-60 to 11-1-60; 12 learners for plant expansion purposes in the occupations of die cast machine operators, machine operators, and assemblers, each for a learning period of 480 hours at the rates of 75 cents an hour for the first 240 hours and 88 cents an hour for the remaining 240 hours (electrical conduit fittings).

General Electric Instrument Corp., Caguas, P.R.; effective 5-2-60 to 11-1-60; 49 learners for plant expansion purposes in the occupations of sub-assembly and final assembly of small panel instruments, exposure meters, small portable instruments, each for a learning period of 480 hours at the rates of 80 cents an hour for the first 240 hours and 90 cents an hour for the remaining 240 hours (electric instruments).

General Electric Instrument Corp., Caguas, P.R.; effective 5-2-60 to 5-1-61; 24 learners for normal labor turnover purposes in the occupations of sub-assembly and final assembly of small panel instruments, exposure meters, small portable instruments, each for a learning period of 480 hours at the rates of 80 cents an hour for the first 240 hours and 90 cents an hour for the remaining 240 hours (electric instruments).

Jaress Corp., Rio Piedras, P.R.; effective 4-27-60 to 4-26-61; five learners for normal labor turnover purposes in the occupations of quality control operations, soft soldering, metal stampings, each for a learning period of 480 hours at the rates of 75 cents an hour for the first 240 hours and 88 cents an hour for the remaining 240 hours (components for aircraft engines).

Marbill Industries, Inc., Carretera No. 2, salida para Yauco, Sabana Grande, P.R.; effective 5-2-60 to 11-1-60; 20 learners for plant expansion purposes in the occupations of: (1) machine embroidery operators, sewing machine operators, and final pressing, each for a learning period of 480 hours at the rates of 53 cents an hour for the first 240 hours and 62 cents an hour for the remaining 240 hours; (2) hand cutting of applique on embroidery panels for a learning period of 240 hours at the rates of 53 cents an hour for the first 160 hours and 62 cents an hour for the remaining 80 hours; (3) final inspection of fully assembled garments for a learning period of 160 hours at the rate of 53 cents an hour (slips, petticoats and sleepwear).

Paradise Manufacturing, Inc., Gurabo, P.R.; effective 5-2-60 to 5-1-61; 13 learners for normal labor turnover purposes in the occupation of sewing machine operators for a learning period of 480 hours to be paid the special minimum wage rates of 60 cents an hour for the first 320 hours and 70 cents an hour for the remaining 160 hours effective from May 2, 1960 to May 15, 1960; effective from May 16, 1960 the special minimum wage rates to be 70 cents an hour for the first 320 hours and 78 cents an hour for the remaining 160 hours (brassieres).

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 522.9.

Signed at Washington, D.C., this 19th day of May 1960.

ROBERT G. GRONEWALD,
Authorized Representative of the Administrator.

46.28 Types of operations by growers' agents and shippers.
46.29 Duties of shippers.
46.30 Duties of growers' agents.

CONVERSION OF FUNDS
46.31 Conversion of funds.

DISCLOSURE OF BUSINESS
46.32 No disclosure of business of licensee.

SUSPENSION AND REVOCATION OF LICENSES
46.33 Suspension or revocation order.

PUBLICATION OF FACTS
46.34 Publicity.

SUNDAYS AND HOLIDAYS
46.35 Sundays and Holidays excluded.
46.36 Sundays and Holidays included.

COMMODITY INSPECTION
46.37 Inspection of commodities.
46.38 Inspection service.

LICENSEE'S RESPONSIBILITY FOR ACTS OF EMPLOYEES AND AGENTS
46.39 Licensee's responsibility for acts of employees and agents.

COPIES OF RECORDS
46.40 Copies of records; how obtained.

TRADE TERMS AND DEFINITIONS
46.41 Terms construed.

AUTHORITY: §§ 46.1 to 46.41 issued under sec. 15, 46 Stat. 537; 7 U.S.C. 499o.

DEFINITIONS

§ 46.1 Words in singular form.

Words in this part in the singular form shall be deemed to import the plural, and vice versa, as the case may demand.

§ 46.2 Definitions.

The terms defined in section 1 of the act shall have the same meaning as stated therein. Unless otherwise defined, the following terms whether used in the regulations, in the act, or in the trade shall be construed as follows:

(a) "Act" means the Perishable Agricultural Commodities Act, 1930, approved June 10, 1930, and legislation supplementary thereto and amendatory thereof (46 Stat. 531; 7 U.S.C. 499a–499r);

CROSS REFERENCE: For rules of practice under the act, see Part 47 of this chapter.

(b) "Department" means the United States Department of Agriculture.

(c) "Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the Department to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

(d) "Service" means the Agricultural Marketing Service, United States Department of Agriculture.

(e) "Deputy Administrator" means the Deputy Administrator for Marketing Services of the Agricultural Marketing Service, or any officer or employee of the Service, to whom authority has heretofore lawfully been delegated, or to whom authority may hereafter lawfully be delegated, to act in his stead.

(f) "Division" means the Fruit and Vegetable Division of the Service.

(g) "Director" means the Director of the Division or any officer or employee of the Division to whom authority has heretofore lawfully been delegated, or to whom authority may hereafter lawfully be delegated, by the Director to act in his stead.

(h) "In commerce" means interstate or foreign commerce as defined in section 1 (3) and (8) of the act.

(i) "Person" means any individual, partnership, corporation, association, or separate legal entity.

(j) "Firm" means any person engaged in business as a commission merchant, dealer, or broker.

(k) "Licensee" means any firm who holds an unrevoked and valid unsuspended license issued under the act.

(l) "Dealer" means any person engaged in business as a dealer as defined in section 1(6) of the act.

(m) "Broker" means any person engaged in the business of negotiating sales and purchases of produce in commerce for or on behalf of the vendor or the purchaser, respectively.

(n) "Shipper" means any person operating at shipping point who is engaged

in the business of purchasing produce from growers or others and distributing such produce in commerce by resale or other methods, or who handles such produce on joint account with others.

(o) "Grower" means any person who raises produce for marketing.

(p) "Growers' agent" means any person operating at shipping point who sells or distributes produce in commerce for or on behalf of growers or others and whose operations may include the planting, harvesting, grading, packing, and furnishing containers, supplies, or other services.

(q) "Receiving market commission merchant" means any person operating on a receiving market who is engaged in the business of receiving produce in commerce for sale, on commission, for or on behalf of another.

(r) "Joint account transaction" means a produce transaction in commerce in which two or more persons participate under a limited joint venture arrangement whereby they agree to share in a prescribed manner the costs, profits, or losses resulting from such transaction.

(s) "Produce" means any perishable agricultural commodity, as defined in section 1(4) of the act.

(t) "Fresh fruits and fresh vegetables" include all produce in fresh form generally considered as perishable fruits and vegetables, whether or not packed in ice or held in common or cold storage, but does not include those perishable fruits and vegetables which have been dried or manufactured into articles of food of a different kind or character. Blanching, chopping, color adding, curing, cutting, dicing, drying for the removal of surface moisture, fumigating, gassing, heating for insect control, ripening and coloring, husking, icing, peeling, polishing, pre-cooling, refrigerating, shredding, slicing, trimming, washing with or without chemicals, waxing, adding of sugar or other sweetening agents, and ascorbic acid or other agents used to retard oxidation, or the mixing of several kinds of sliced, chopped, or diced fruits or vegetables for packaging in any type of containers, or comparable methods of preparation, where the product is not processed by heat to assure preservation shall not be considered a change into a food of a different kind or character.

(u) "Frozen fruits and vegetables" include all produce defined in paragraph (t) of this section when such produce is in frozen form.

(v) "Cherries in brine" means cherries packed in an aqueous solution containing sulphur dioxide or other bleaching agent of sufficient strength to preserve the product, with or without the addition of hardening agents.

(w) "Wholesale or jobbing quantities," as used in section 1(6) of the act, means aggregate quantities of all types of produce totaling one ton (2,000 pounds) or more in weight in any day shipped, received, or contracted to be shipped or received, or any single transaction totaling one ton (2,000 pounds) or more in weight.

(x) "Truly and correctly to account" means, in connection with:

(1) Consignments, to account promptly by rendering a true and correct statement showing the date of receipt and date of final sale, the quantities sold at each price, or other disposition of the produce, and the proper, usual or specifically agreed upon selling charges and expenses properly incurred or agreed to in the handling thereof, plus any other information required by § 46.27;

(2) Joint account transactions, to account promptly by rendering a true and correct statement showing the date of receipt and date of final sale, the quantities sold at each price or other disposition of produce, the joint account cost of the produce, and the expenses properly incurred or other charges specifically agreed to in the handling thereof, plus any other information required by § 46.27; and

(3) Buying brokerage transactions, where the broker pays for the produce, to account promptly by rendering a true and correct itemized statement showing the cost of the produce, the expenses properly incurred, and the amount of brokerage charged.

(y) "Account promptly", except when otherwise specifically agreed upon by the parties, means rendering a true and correct accounting:

(1) In connection with buying brokerage transactions where the broker pays for the produce, within 24 hours after the date of shipment;

(2) In connection with consignment or joint account transactions, within 10 days after the date of final sale with respect to each shipment: *Provided*, That whenever a grower's agent or a shipper distributes individual lots of produce for or on behalf of others, his accounting shall be made within 5 days after the date he is paid by the purchaser or receives the accounting on consigned or joint account transactions and, whenever a grower's agent or shipper harvests, packs, or distributes entire crops or multiple lots therefrom for or on behalf of others, he shall make interim accountings at reasonable intervals and a final accounting within a reasonable time following the close of the season's transactions: *Provided further*, That nothing in the regulations in this part shall prohibit cooperative associations from accounting to their members on the basis of seasonal pools or other arrangements provided by their regulations or bylaws; and

(3) In connection with a consignment or joint account transaction, within 10 days after the date of receipt of payment of a carrier claim filed.

(z) "Full payment promptly" is the term used in the act in specifying the period of time for making payment without committing a violation of the act. The contracting parties have the right to agree as to when payment is due in connection with any transaction. In the absence of such agreement, "full payment promptly", for the purpose of determining violations of the act, means:

(1) Payment of the net proceeds for produce received on consignment or the pro rata share of the net profits for produce received on joint account, within 10 days after the day on which the final sale with respect to each shipment is made;

(2) Payment by growers, growers' agents or shippers of deficits on consignments or joint account transactions, within 10 days after the day on which the accounting is received;

(3) Payment of the purchase price, brokerage, and other expenses to buying brokers who pay for the produce, within 10 days after the day on which the broker's invoice is received by the buyer;

(4) Payment of brokerage charges earned in connection with the produce purchased or sold within 10 days after the day on which the broker's invoice for brokerage is received by the principal;

(5) Payment for produce purchased by a buyer within 10 days after the day on which the produce is accepted after arrival at the contract destination without complaint by the buyer: *Provided*, That if the shipment is diverted to a destination other than the contract destination, the time shall run from the scheduled time of arrival at contract destination or the time of actual arrival at its ultimate destination, whichever is shorter;

(6) Payment to growers, growers' agents or shippers by terminal market agents or brokers, who are selling for the account of a grower, growers' agent or shipper and are authorized to collect from the buyer or receiver, within 5 days after the agent or broker receives payment from the buyer or receiver;

(7) Payment to the principal within 10 days of net proceeds realized from a carrier claim in connection with a consignment transaction or, in connection with a joint account transaction, payment to the joint account partners of their share of the joint account net proceeds realized from a carrier claim;

(8) Payment by growers' agents or shippers distributing individual lots of produce for or on behalf of others, within 5 days after the day on which he receives payment from the purchaser or receives the net proceeds on consigned or joint account transactions;

(9) Partial payments at reasonable intervals during the shipping season by a growers' agent or shipper who harvests, packs, or distributes entire crops or multiple lots therefrom for or on behalf of others and final payment within a reasonable time following the close of the season's transactions.

Nothing in the regulations in this part shall limit the seller's privilege of shipping under a closed or advise bill of lading or other arrangement requiring cash on delivery unless there has been specific prior agreement to the contrary between the parties; or prohibit cooperative associations from settling with their members on the basis of seasonal pools or other arrangements provided by their regulations or bylaws. Payment in connection with any transaction or situation not specifically covered herein shall be made within a reasonable time; and, if there is a dispute concerning a transaction, the foregoing time periods apply only to the undisputed amount.

(aa) "Reject without reasonable cause" means in connection with purchases, consignments, or joint account transactions: (1) Refusing or failing without legal justification to accept produce within a reasonable time; (2) advising the seller, shipper, or his agent that produce, complying with contract, will not be accepted; (3) indicating an intention not to accept produce through an act or failure to act inconsistent with the contract; or (4) any rejection following an act of acceptance.

(bb) "Reasonable time", as used in paragraph (aa) of this section, means:

(1) For frozen fruits and vegetables with respect to rail shipments, 48 hours after notice of arrival and the produce is made accessible for inspection, and with respect to truck shipments, not to exceed 12 hours after the receiver or a responsible representative is given notice of arrival and the produce is made accessible for inspection;

(2) For fresh fruits and vegetables with respect to rail shipments, not to exceed 24 hours after notice of arrival and the car has been placed in a location where the produce is made accessible for inspection; and with respect to truck shipments, not to exceed 8 hours after the receiver or a responsible representative is given notice of arrival and the produce is made accessible for inspection; and, with respect to boat shipments, not to exceed 24 hours after the produce is unloaded and made accessible for inspection and the receiver is given notice thereof;

(3) If, within the applicable period, the receiver cannot make a thorough inspection due to adverse weather condition or applies for but cannot obtain Federal inspection before the end of this period, and so notifies the consignor within the applicable period, the period shall be extended until weather conditions permit inspection or until Federal inspection is made, as the case may be, plus two hours after either an oral or written report of the results of such inspection is made available to the receiver; and

(4) In computing the time periods specified in this paragraph, (i) for shipments arriving on non-work days or after the close of regular business hours on work days when a representative of the receiver having authority to reject shipments is not present, non-working hours preceding the start of regular business hours on the next working day shall not be included; and (ii) for shipments arriving during regular business hours when a representative of the receiver having authority to reject shipments customarily is present, the period shall run without interruption except that, for shipments arriving less than two hours before the close of regular business hours, the unexpired balance of the time period shall be extended and run from the start of regular business hours on the next working day.

(cc) "Acceptance" means:

(1) Any act by the consignee signifying acceptance of the shipment, including diversion or unloading;

(2) Any act by the consignee which is inconsistent with the consignor's ownership, but if such act is wrongful against the consignor it is acceptance only if ratified by him; or

(3) Failure of the consignee to give notice of rejection to the consignor within a reasonable time as defined in paragraph (bb) of this section: *Provided*, That acceptance shall not affect any claim for damages because of failure of the produce to meet the terms of the contract.

(dd) "Responsible position" means:

(1) A position in which the person is the individual owner, partner in a partnership, or officer or director of a corporation or association, or has direct or indirect control of a firm.

(2) A position in which the person is authorized to negotiate contracts of purchases, sales, consignments or joint account transactions of produce (excluding floor salesmen or other salesmen making sales at predetermined prices who operate under direct supervision and handle only local sales in less than carlot quantities and other comparable positions in relation to operations of the licensee);

(3) A position of a general supervisory nature, including one having responsibility for office management or supervision of the preparation of account sales and/or the maintenance of records required by the act; or

(4) Any other position in which the person, through exercise of his own judgment or initiative, has authority to bind or commit the licensee.

(ee) "Responsibly connected" means affiliation as individual owner, partner in a partnership, or officer, director or holder of more than 10 percent of the outstanding stock of a corporation or association.

LICENSES

§ 46.3 License required.

(a) No person shall at any time carry on the business of a commission merchant, dealer, or broker without a license which is valid and effective at such time.

(b) Separate licenses are required for each firm. More than one trade name may be used by the same firm only when such trade names are shown on the firm's license certificate.

(c) Joint account arrangements between two or more licensees are not considered to result in separate firms and, therefore, do not require separate licenses.

§ 46.4 Application for license.

Any person who desires to secure a license shall make application therefor on the currently approved form to be obtained from the Director or his representatives. The applicant shall furnish the following information:

(a) Name or names in which business is conducted; place of business; mailing address; name and location of branches, divisions, or affiliates, if any; and name of firm succeeded, if any.

(b) Type of business (i.e., wholesale, retail, trucking, processing, commission merchant, or broker), and whether the fruits and/or vegetables handled are fresh or frozen, or cherries in brine.

(c) Type of ownership. If a corporation, applicant shall furnish (1) the date incorporated; (2) the State in which incorporated; and (3) the address of the principal office.

(d) Full names and home address of the owner. If a partnership, the applicant shall furnish the full names and addresses of all partners, indicating whether general or special; or if an association or corporation, the applicant shall furnish the full names and addresses of all the officers, directors, holders of more than 10 per centum of the outstanding stock, and percentage of stock held by each such person.

(e) Date of the first transaction coming within the provisions of the act. If business was conducted subject to the act prior to the filing of an application for a license, applicant shall furnish an explanation for such violation as prescribed in section 3(a) of the act.

(f) If the applicant, or in case the applicant is a partnership, any partner, or in case the applicant is an association or corporation, any officer, director, or holder of more than 10 per centum of the outstanding stock, has prior to the filing of the application:

(1) Been connected with any firm whose license is under suspension or has been revoked, and if so, furnish the name and address of the firm whose license is under suspension or has been revoked and the details of such connection, including the dates thereof;

(2) Been an officer, director, stockholder, partner, or owner of a firm against which there is an unpaid reparation award under the act, and if so, furnish the name and address of the firm against which the reparation was issued and the details of such connection, including the dates thereof;

(3) Been an officer, director, stockholder, partner, or owner of a firm against which there is a pending complaint under the act known to the applicant and if so, furnish the name and address of the firm against which there is a pending complaint.

(4) Within three years been adjudicated or discharged as a bankrupt or was an officer, director, stockholder, partner, or owner of a firm adjudicated or discharged as a bankrupt, and if so, furnish a copy of the petition in bankruptcy, including the schedule of creditors and certificate of discharge, if any; estimated value of produce that will be handled by the new firm during any month, percentage of business that will be handled on consignment or joint account, and amount of credit that will be incurred;

(5) Been convicted of one or more felonies in any State or Federal court, and if so, furnish the name and date of birth of the party convicted, alias if any, name, location of court and date convicted, nature of felony, sentence imposed, where and length of time served; if paroled, date parole terminated;

(6) Ever been licensed under the act, and if so, furnish the name and address of licensee and whether license is still in effect.

(g) Whether any person employed in a responsible position by the applicant has been the individual owner, partner in a partnership, or officer, director, holder of more than 10 per centum of the outstanding stock of an association or corporation, or held a responsible position in any firm whose license is under suspension or has been revoked, and if so, furnish the full name of the person and the name of the firm involved and the details of such connection, including the dates thereof.

(h) Any other information the Director deems necessary to establish the identity and eligibility of the applicant to obtain a license.

(i) The application shall be signed by the owner, all general partners, or, in case the applicant is an association or corporation, a duly authorized official.

(j) The application and fees shall be forwarded to the Director, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington 25, D.C., or to his representative. An application which does not contain full or complete answers to all the questions, or is not properly signed, or not accompanied by the proper fee, shall not be considered a valid application for license. The "period not to exceed 30 days" as prescribed in section 4(d) of the act shall commence on the day that a valid application for license is received by the Director or his representative.

(k) If the application is incomplete, the Director may return the application to the applicant with a request that the application be completed by furnishing the missing data. If the applicant does not respond to this request within 30 days after it is mailed by the Director, the fees submitted shall be refunded.

(l) If the Director has reason to believe that the application contains inaccurate information, he may afford the applicant an opportunity to submit a corrected application or verify or explain information contained in the application. If the applicant submits a corrected application, the original application shall be considered withdrawn. If the applicant, in response to the Director's request, submits additional or corrected information for consideration in connection with his original application, the original application plus such information shall be considered as constituting a new application.

(m) Fees shall be refunded whenever an application is withdrawn without the filing of a new application.

(n) When a valid application is received and the provisions of section 4(b) of the act are applicable, the Director shall notify the applicant by letter of the pertinent provisions of this section and the reasons for denial of license and shall refund the fee.

§ 46.5 License fee.

The annual license fee is twenty-five dollars ($25). The Director may require the fee be submitted in the form of a money order, bank draft, cashier's check, or certified check made payable to Agricultural Marketing Service. Authorized representatives of the Division may accept fees and issue receipts therefor.

§ 46.6 Issuance of license.

Upon receipt of a valid application accompanied by the proper fee for a license, the Director shall, if the applicant is found to be eligible, issue a license certifying that the licensee is authorized to engage in the business of a commission merchant, dealer, or broker. All fees and any penalties assessed by the Director in accordance with the provisions of the act, shall be deposited in a special fund designated as the "Perishable Agricultural Commodities Act fund."

§ 46.7 Copies of licenses.

Copies of licenses may be issued upon request and upon the payment of a fee of two dollars ($2) for each copy. Each copy shall bear the word "copy" in conspicuous letters on its face and shall be certified by the Director as a true copy of the original.

§ 46.8 Termination of license; notice; renewal.

At least thirty days prior to the anniversary date of a valid and effective license, the Director shall mail a notice to the licensee at the latest address known to the Director, advising that the license will automatically terminate on its anniversary date unless the annual fee is paid on or before such date. If the annual fee is not paid by the anniversary date, the licensee may obtain a renewal of that license at any time within 30 days by paying the annual fee, plus five dollars ($5). Within 60 days after the termination date of a valid and effective license, the former licensee shall be notified of such termination, unless a new license has been obtained in the meantime.

§ 46.9 Nonlicensed person; liability; penalty.

Any commission merchant, dealer, or broker who violates the act by engaging in business subject to the act without a license may settle his liability, if such violation is found by the Director not to have been willful but was due to inadvertence, by paying the amount of fees that he would have paid had he obtained and maintained a license during the period that he engaged in business subject to the act, plus an additional sum not in excess of twenty-five dollars ($25), as may be determined by the Director.

§ 46.10 What constitutes valid license, form and use.

Each license shall bear a serial number, the names in which authorized to conduct business, type of ownership; if the business is individually owned, the name of the owner; if a partnership, the names of all general partners; the facsimile signature of the Secretary; the seal of the Department and shall be duly countersigned. The licensee may place upon his stationery, trucks, or business sign an inscription indicating that he is licensed under the act, but such inscription must not be of such form or arrangement as to be deceptive or misleading to the public, nor shall any such inscription be displayed or used unless the person using the inscription has a license valid and effective at the time.

§ 46.11 Forms of inscriptions.

The following inscriptions, for use with or without the license number, meet the foregoing requirements and may be used by licensees: "Licensed by the U.S. Department of Agriculture under the Perishable Agricultural Commodities Act", or "Licensed under the PACA."

§ 46.12 Address, ownership, trade name, or membership changes.

The licensee shall (a) promptly inform the Director of any changes of address or any change in the officers, directors, and holders of more than 10 percent of the outstanding stock of a corporation, with the percentage of the stock held by each such person, and (b) report changes or additions in trade names to the Director prior to using such trade names in its business operation. A new license is required in case of a change in the ownership of a business, an addition or withdrawal of members of a partnership, or in case business is conducted under a different corporate charter from that to whom the license was originally issued.

Accounts and Records (General)

§ 46.13 General.

Every commission merchant, dealer, and broker shall prepare and preserve for a period of 2 years from the closing date of the transaction the accounts, records, and memoranda required by the act, which shall fully and correctly disclose all transactions involved in his business, including the true ownership of such business by stockholding or otherwise. Licensees shall keep records which are adapted to the particular business that the licensee is conducting and in each case such records shall fully disclose all transactions in the business in sufficient detail as to be readily understood and audited. It is impracticable to specify in detail every class of records which may be found essential since many different types of business are conducted in the produce industry and many different types of contracts are made covering a wide range of services by agents and others. The responsibility is placed on every licensee to maintain records which will disclose all essential facts regarding the transactions in his business.

§ 46.14 Documents to be preserved.

Bills of lading, diversion orders, paid freight and other bills, car manifests, express receipts, confirmations and memorandums of sales, letter and wire correspondence, inspection certificates, invoices on purchases, receiving records, sales tickets, copies of statements (bills) of sales to customers, accounts of sales, papers relating to loss and damage claims against carriers, records as to reconditioning, shrinkage and dumping, daily inventories by lots, a consolidated record of all rebates and allowances made or received in connection with shipments handled for the account of another, an itemized daily record of cash receipts, ledger records in which purchases and sales can be verified, and all other pertinent papers relating to the shipment, handling, delivery, and sale of each lot of produce shall be preserved for a period of 2 years.

§ 46.15 Method of preservation or storage of records.

All records required to be preserved under the act shall be stored in an orderly manner and in keeping with sound business practices. The records being currently used shall be filed in order of dates, by serial numbers, alphabetically or by any other proper method which will enable the licensee to promptly locate and produce the records. Records in dead storage should be arranged in an orderly fashion, be packaged or wrapped to insure proper preservation, be adequately marked or identified, and stored in a safe, dry location. When part of the records are forwarded to others (such as accountants, traffic agencies, attorneys, etc.), proper notations should be filed in appropriate places in the records identifying the missing records and stating where they can be located.

§ 46.16 Inspection of records.

Each licensee shall, during ordinary business hours, permit any duly authorized representative of the Department to enter his place of business and inspect such accounts, records, and memoranda as may be material (a) in the investigation of complaints under the act, or (b) to the determination of ownership, control, packer, or State, country or region of origin in connection with commodity inspections, or (c) to ascertain whether there is compliance with section 9 of the act. Any necessary facilities for such inspection shall be extended to such representative by the licensee, his agents, and employees.

Records of Market Receivers

§ 46.17 Record of produce received.

Market receivers shall keep in the order of receipt a record of all produce received and this record shall be in the form of a book (preferably a bound book) with numbered pages or comparable business record. This record shall clearly show for each lot the date of arrival and unloading; whether received by freight, express, truck, or otherwise; the car initials and number; the truck license number and the driver's name or the name of the trucking firm; the number of packages or the quantity received; the kind of produce; the name and address of the consignor or seller; whether the produce was purchased; consigned or received on joint account; and the disposition of the produce, whether jobbed or sold in carlots or trucklots, and the lot number assigned to the shipment by the receiver (as required by § 46.19).

§ 46.18 Sales tickets.

Sales tickets shall bear printed serial numbers running consecutively and shall be used in numerical order so far as practicable. No serial number shall be repeated within a 90-day period. The sales tickets shall be prepared and all the details of the sale shall be entered on the tickets in a legible manner in order that an audit can be readily made. Erasures, strike-outs, changes, etc., should be held to the minimum. When errors are made in preparing sales tickets, the tickets should be voided. Each sales ticket shall show the date of sale, the purchaser's name (so far as practicable), the kind, quantity, the unit price, and the total selling price of the produce. Each sales ticket shall show the lot number of the shipment if the produce is being handled on consignment or on joint account. Sales tickets on all other lots of the same commodity which are on hand at the same time shall also show a lot number. The original or a legible carbon copy of each sales ticket, including those voided or unused, shall be accounted for and shall be filed or stored either by dates of sales or in the order of the serial numbers for a period of two years.

§ 46.19 Lot numbers.

An identifying lot number shall be assigned to each shipment of produce to be sold on consignment or joint account or for the account of another person or firm and should be assigned to any purchased shipment in dispute between the parties to assist in proving damages. A lot number shall be assigned to each purchased shipment of similar produce on hand at that time or received later while the consigned or joint account or disputed lot is being sold. A lot number shall be assigned to each purchased shipment which is reconditioned if the seller is to be charged with the shrinkage or loss. The lot number shall be entered on the receiving record in connection with each shipment and entered on all sales tickets identifying and segregating the sales from the various shipments on hand. The lot number shall be entered on the sales tickets by the salesmen at the time of sale or by the produce dispatcher, and not by bookkeepers or others after the sales have been made. No lot number shall be repeated within a period of 30 days after the last sale from the preceding lot to which such number was assigned.

§ 46.20 Returns, rejections, or credit memorandums on sales.

In the event of the rejection and return of any produce sold for or on behalf of another or consignment or joint account, or of any necessary allowance or adjustment being made to the buyers thereof, a credit memorandum showing the buyer's name, sales ticket number, lot number, date of the granting of the allowance, and amount of the credit or adjustment, with reasons therefor, shall be made or a notation shall be made on the original sales ticket referring to the adjustment and showing where the credit memorandum is filed. The credit memorandum shall be on a regular form, in a ledger book, or on a sales ticket or invoice properly completed to show the facts and shall be approved by a duly authorized person. Credits granted shall be entered in the same records as the original sales tickets.

§ 46.21 Accounting for dumped produce.

A clear and complete record shall be maintained showing justification for dumping of produce received on joint account, on consignment, or handled for or on behalf of another person if any portion of such produce regardless of percentage cannot be sold due to poor condition or is lost through re-sorting or reconditioning. In addition to the foregoing, if five percent or more of a shipment is dumped, an official certificate, or other adequate evidence, shall be obtained to prove the produce was actually without commercial value, unless there is a specific agreement to the contrary between the parties. The original certificate or other adequate evidence justifying dumping shall be forwarded to the consignor or joint account partner with the accounting and a copy shall be retained by the receiver.

§ 46.22 Evidence of dumping.

Reasonable cause for destroying any produce exists when the commodity has no commercial value or when it is dumped by order of a local health officer or other authorized official or when the shipper has specifically consented to such disposition. The term "commercial value" means any value that a commodity may have for any purpose that can be ascertained by the exercise of due diligence without unreasonable expense or loss of time. When produce is being handled for or on behalf of another person, proof as to the quantities of produce destroyed or dumped in excess of five percent of the shipment shall be provided by procuring an official certificate showing that the produce has no commercial value from any person authorized by the Department to inspect fruits and vegetables. Where such inspection service is not available certification may be obtained from (a) any health officer or food inspector of any State, county, parish, city or municipality or of the District of Columbia; (b) any established commercial agency or service making inspections for the fruit and vegetable industry; or (c) when no inspector or health officer designated above is available consideration will be given to other evidence such as inspection and certification made by any two persons having no financial interest in the produce involved or in the business of any person financially interested therein, and who are unrelated by blood or marriage to any such financially interested person, and who, at the time of the inspection and certification, and for a period of at least one year immediately prior thereto, have been engaged in the handling of the same general kind or class of produce with respect to which the inspections and certification are to be made. Any certificate issued by any persons designated in paragraph (c) of this section shall include a statement that each of them possesses the requisite qualifications. Any such certificate shall properly identify the produce by showing the commodity, lot number, brand or principal identifying marks on the containers,

quantity dumped, name and address of shipper, name and address of applicant, condition of the produce, time, place, and date of inspection and a statement that the produce possesses no commercial value.

RECORDS OF RETAILERS

§ 46.23 Records of retailers.

Notwithstanding the specific records and documents prescribed in the foregoing sections, licensees who purchase produce solely for sale at retail shall establish and maintain accounts and records, adapted to their type of operations, which will fully and correctly disclose all transactions relating to the purchase of produce. Such accounts and records should include the date of receipt of each lot, kind of produce, number of packages and quantity, price paid, evidence of agreement or contract of purchase, bills of lading, paid bills, and any other documents relating to the purchase of produce.

AUCTION SALES

§ 46.24 Auction sales.

Commission merchants, dealers and brokers who offer produce for sale through auction companies which publish catalogs of offerings will be responsible for furnishing the auction company for publication true and correct information concerning the ownership of the produce. When the goods are offered for sale by an owner, his name shall be shown in the catalog listing as owner. When a joint account partner makes an offering, his name as well as that of his joint partner, or partners, shall be shown. When any person offers produce for sale at auction for the account of another, the name, or names of the owner, if known, and of his principal, if located in the area served by the auction, shall be shown. In addition to listing the name of the owner, or his principal, he may show that he is acting in the capacity of agent. If a person instructs an auction company to catalog a shipment without disclosing true ownership, if known, or the name of an agent's principal he shall be deemed to have made a false or misleading statement within the meaning of the act. Since sales at auctions normally involve additional expenses, a broker, grower's agent or commission merchant shall have prior consent from his principal before such disposition is accomplished. Where a dispute exists regarding the ownership of produce, it may be listed in the auction catalog as being offered for sale "for the account of whom concerned" with the name of the party making the offering shown as agent.

BROKERS

§ 46.25 Types of broker operations.

(a) Brokers carry on their business operations in several different ways and are generally classified by their method of operation. The following are some of the broad groupings by method of operation. The usual operation of brokers consists of the negotiation of the purchase and sale of carlots either of one commodity or of several commodities. Brokers may operate as the agent of the buyer, the seller, or of both parties. Frequently, carlot brokers never see the produce they are quoting for sale or negotiating for purchase by the buyer and they carry out their duties by relaying offers and counter-offers between the buyer and seller until a contract is effected. Generally, the seller of the produce invoices the buyer; however, when there is a specific agreement between the broker and his principal, the seller invoices the broker who, in turn, invoices the buyer, collects, and remits to the seller. Under other types of agreements, the seller ships the produce to the broker at destination who distributes to pool buyers, invoices the buyers, collects, and remits to the seller. Also, there are times when the broker is authorized by the seller to act much like a commission merchant being given blanket authority to dispose of the produce for the seller's account either by negotiation of sales to buyers not known to the seller or by placing the produce for sale on consignment with receivers in the terminal markets.

(b) There is a second general grouping of brokers which are commonly referred to as buying brokers. Their operations are typified by the fact that they act as the buyer's representative in negotiating purchases at shipping points, terminal markets, or intermediate points. Their typical type of operation is to negotiate a purchase on the buyer's instructions and authorization. Sometimes the broker negotiates the purchase without seeing the produce. In other instances he may select the merchandise after forming an appraisal of the quality of the produce being offered for sale on the market. Generally, a purchase is made in the buyer's name and the seller invoices the buyer direct. On the other hand, acting on authority given him by the buyer, the broker may negotiate purchases in his own name, pay the seller for the produce, make arrangements for its loading and shipment, and bill the buyer direct for the cost price plus the brokerage fee and the cost of any agreed upon accessorial service charges such as ice, loading, etc.

§ 46.26 Duties of brokers.

(a) *General.* The function of a broker is to negotiate, for or on behalf of others, valid and binding contracts. A broker who fails to perform any specification or duty in connection with any transaction is in violation of the Act and may be held liable for damages which accrue as a direct result of his failure. It shall be the duty of the broker to fully inform all parties concerning the terms and conditions of the proposed contract. After all parties agree on the terms and the contract is effected, the broker shall prepare in writing and deliver promptly to all parties a properly executed confirmation or memorandum of sale setting forth all of the essential details of the agreement between the parties. The broker shall retain a copy of such confirmations or memoranda as part of his accounts and records. The broker who does not issue and deliver these documents to the proper parties is failing to prepare and maintain complete and correct records as required by the Act. If the broker's records do not support his contentions that a binding contract was made with proper notice to the parties, the broker may be held liable for any loss or damage resulting from such negligence or for other penalties provided by the Act for failure to perform his express or implied duties. The broker shall take into consideration all the circumstances of the transaction in selecting the proper method for transmitting the written confirmation or memorandum of sale to the parties. A buying broker is required to truly and correctly account to his customer in accordance with § 46.2(x)(3).

(b) *Brokerage fees.* Brokerage fees may be charged to only one of the parties to the contract unless by mutual agreement the parties agree to split the brokerage fee. If a full brokerage fee is charged to both parties, such action by the broker is a violation of the act. A broker employed to negotiate the sale of produce may not employ another broker or selling agent without specific prior authority from his principal. When a broker collects and when an accounting to the owner of the produce by the broker or selling agent is required, it shall show the actual gross sale and all brokerages deducted as well as all other charges incurred in connection with the shipment. A broker is not considered to be entitled to a brokerage fee unless he effects a sale or makes a valid and binding contract, fully performing his duties as a broker. Unless otherwise specifically agreed, the broker does not guarantee the performance of the contracting parties and is entitled to receive payment of the brokerage fee whenever a valid and binding contract has been negotiated.

(c) *Brokers' responsibility for payment.* In the absence of a specific agreement, a broker is not responsible for payment to the seller by the buyer except a buying broker, who negotiates a purchase in his own name under agreement with his principal, is responsible for payment of the purchase price to the seller. A broker who agrees to collect funds for or on behalf of another shall promptly remit such funds when collected and render an accounting showing the sales price of the shipment, all brokerages deducted, and all other charges incurred. Agreement to collect from the buyer and remit to the seller is not a guarantee by the broker that the buyer will pay, unless there is a specific agreement by the broker that he will pay if the buyer does not pay.

(d) *Purchases and sales by brokers.* A person who operates in a dual capacity, both as a broker and as a dealer, shall clearly disclose his status in each transaction to all parties with whom he is dealing. When a person purchases or sells produce as a dealer, he shall not charge or receive a brokerage fee from the seller or buyer. A broker shall not negotiate a transaction where the broker is subject to the direct or indirect control of any party to such transaction other than his principal or where the other party is subject to the broker's direct or indirect control without the prior approval of his principal.

(e) *Filing carrier claims by brokers.* Without prior consent of the owner, a broker has no authority to file claims with carriers in his own name or any other name. A broker has no obligation to file carrier claims for the owners of the shipments. However, in handling transactions when a broker receives information valuable to owners in connection with carrier claim rights, the broker should promptly advise the owner. A broker who agrees to protect the carrier claims of owners shall at all times exercise reasonable care to fulfill such obligation. If a broker makes an agreement with a seller or a buyer to file and handle such a claim for the benefit of the owner of the produce, the claim shall be filed promptly with the carrier, supported by adequate evidence, and he shall take the necessary action to bring the matter to a conclusion. A copy of the claim shall be forwarded to the owner of the shipment when the claim is filed. When settlement of the claim is effected, the broker shall promptly remit the net amount due the owner, after deducting the agreed or customary charges for handling the claim. Adequate information shall be furnished the owner regarding the claim while the matter is being handled with the carrier. If the owner files the claim, the broker shall promptly furnish any necessary information available in his records which is requested by the owner.

RECEIVING MARKET COMMISSION MERCHANTS AND JOINT ACCOUNT PARTNERS

§ 46.27 Duties.

(a) *General.* All licensees who accept produce for sale on consignment or on joint account are required to exercise reasonable care and diligence in disposing of the produce promptly and in a fair and reasonable manner. When rendering account sales for produce handled for or on behalf of another, an accurate and itemized report of sales shall be made and averaging or pooling of sales is not permissible without the specific written consent of the owner of the produce prior to the accounting. Complete and detailed records shall be prepared and maintained by all commission merchants and joint account partners covering produce received, sales, quantities lost, dates and cost of repacking or reconditioning, unloading, handling, freight or demurrage charges, or any other expenses which are deducted on the accounting, in accordance with the provisions of §§ 46.17 through 46.22. Charges which cannot be supported by proper evidence in the records of the commission merchant or joint account partner shall not be deducted. The commission merchant or joint account partner may be held liable for any financial loss resulting to his principal due to his negligence or failure to perform any specific or implied duty.

(b) *Commission charges.* Before accepting produce on consignment, the parties should reach a specific agreement on the amount of commission and other charges which will be assessed by the commission merchant. In the absence of such an agreement, only the usual and customary commission and other charges shall be permitted. Without specific prior authority of the consignor, double commissions are not permitted nor may a receiver of consigned produce employ another person or firm to dispose of all or part of such produce. Unless otherwise specifically agreed upon by the parties, joint account partners shall not charge a commission fee or other selling charge against the joint account for disposing of the produce.

(c) *Purchasing consigned produce.* A commission merchant or joint account partner may not purchase produce received on consignment or joint account or sell such produce to any person or firm over whose business he has direct or indirect control, or to any person or firm having direct or indirect control over his business, without specific prior authority of the consignor or the joint account partner. However, produce may be purchased by the commission merchant or joint account partner at reasonable market value to clean up remnants of shipments so accountings will not be unduly delayed, provided the accounting shows the quantity and price of the goods bought by the commission merchant or joint account partner. "Remnants", as used here, mean small quantities remaining after the bulk of the shipment has been sold but shall not exceed 5 percent of the shipment. When consigned produce is purchased by a commission merchant he shall not charge or receive a commission fee for such sales.

(d) *Filing carrier claims.* Without the prior consent of the owner of the produce, a commission merchant has no authority to file claims with carriers in his own name or any other name: *Provided*, That the commission merchant may file a claim for breakage where the owner has been paid for the full value of the produce without any deduction for damage. Commission merchants have no obligation to file carrier claims on shipments for the owners. However, in handling transactions when commission merchants receive information valuable to the consignors in connection with carrier claim rights, the commission merchant should promptly advise the consignor. Before a commission merchant files a carrier claim on a consigned shipment, a specific agreement shall be reached with the consignor. If a commission merchant is authorized and agrees to file the claim, he shall forward a copy of the claim filed with the carrier to the consignor and shall exercise reasonable care to protect the interests of the consignor by filing the claim promptly and in the proper amount, supported by adequate evidence, and shall take the necessary action to bring the matter to a conclusion. When settlement of the claim is effected, he shall promptly remit the net amount due the consignor, after deducting the agreed handling charges. Full and complete information shall be furnished the consignor while the claim is being handled. If the consignor is to file the claim, the commission merchant shall exercise reasonable care to protect the claim rights of the consignor and shall promptly furnish all necessary information and evidence from his records to enable the consignor to file a proper claim. A joint account partner who files a carrier claim on behalf of the partnership shall forward a copy of the claim filed with the carrier to his partner, keep him advised of its status, and remit promptly his share of the net proceeds realized from such claim.

GROWERS' AGENTS AND SHIPPERS

§ 46.28 Types of operations by growers' agents and shippers.

(a) The usual operations of shippers consist of purchasing produce from growers in their own names. They distribute the produce in commerce by selling, consigning, or jointing the shipments, assuming any loss or profits that result from these operations. In addition, shippers may handle produce on joint account with growers or others.

(b) Growers' agents sell and distribute produce for or on behalf of growers and others and, in addition, may perform a wide variety of services, such as financing, planting, harvesting, grading, packing, furnishing labor, seed, containers, and other supplies or services. They usually distribute the produce in their own names and collect payment direct from the consignees. They render accountings to their principals, paying the net proceeds after deducting their expenses and fees. Some agents are limited by contract to making only sales and cannot joint or consign produce without obtaining the prior consent of the growers. Other agents are granted blanket authority by the growers to market and distribute the produce, using their discretion as to the best methods, depending on market conditions and the quality of the produce available. They can sell, consign or ship on joint account, use the services of brokers or sell through terminal market auctions. They are authorized to grant credits, make adjustments in the invoice price, handle claims with the carriers, or even abandon shipments, when circumstances justify such action, without consulting the growers. Some agents have an agreement with the growers to pool the produce and render accountings on the basis of the average or prorated selling prices after deducting the prorated expenses incurred for the various operations performed and the agents' selling fees. Some agents' contracts require an accounting on the basis of actual selling prices after deducting the actual expenses incurred for services performed and the selling fees. Some agents' contracts specify a fixed charge for harvesting, grading, packing, furnishing the container or other services, plus a selling fee, and thereby substantially reduce the record requirements necessary to prove the cost of the various operations.

§ 46.29 Duties of shippers.

(a) *General.* The responsibilities of shippers vary with their contract with growers to purchase produce or to handle produce on joint account. Similarly, their responsibilities to their customers depend upon their contracts to sell, consign or joint account produce with deal-

ers on terminal markets. Shippers shall pay promptly for produce purchased and any deficits incurred on consigned shipments. They shall fully comply with their obligations in connection with joint account transactions. A shipper who fails to perform any express or implied duty is in violation of the act and may be held liable for any damages resulting therefrom. The shipper shall prepare and maintain records which fully and correctly disclose the details of his transactions.

(b) *Receiving records.* Each shipper shall prepare and maintain a record of all produce received, including his own production. This record shall be in the form of a book (preferably a bound book) with numbered pages or comparable business records. This receiving record shall show for each lot the date received, whether purchased or received on joint account, the quantity, quality, and kind of produce, the purchase price or joint account cost, and the name and address of the supplier. Each shipper shall issue receipts to growers and others for all produce received.

(c) *Disposition records.* When a shipper purchases all of his produce from growers or others, his records shall also show the disposition of the produce, whether sold or consigned, date of shipment, car number, or if shipped by truck, the license number, name and address of the carrier, name and address of the buyer, commission merchant or auction, and other pertinent details of the transaction, such as the terms of sale, selling price, and date of payment.

(d) *Joint accounts with growers.* When a shipper enters into joint account transactions with growers or others, his records shall also show in detail the actual expenses incurred for the services he furnishes, such as harvesting, grading, packing and selling the produce (unless a fixed charge is agreed on between the parties to cover the cost of these services), methods of distribution, and proceeds received for the produce. If a shipper is at the same time handling similar produce not involved in the joint account transaction, a lot number or other positive means of identification shall be assigned to each lot of produce received in order to segregate and identify the various lots of produce. If a shipper consigns all or a part of the produce or employs the services of brokers or terminal market auctions, his records shall show the results of these transactions, including the expenses involved and the names and addresses of the commission merchants, brokers, and the auctions. The shipper shall render a detailed and accurate accounting and pay promptly the net proceeds due the joint partner, in accordance with § 46.2 (y) and (z). The accounting shall disclose the status of all claims collected or filed with the carriers.

(e) *Joint accounts with receivers.* When a shipper enters into a joint account agreement with a terminal market dealer, his records shall also show the expenses which may be properly charged in accordance with the joint agreement, purchase price or joint account cost of the produce, and cost of harvesting, packing, grading, or other expenses. His records shall show the quantity and quality of the produce packed and shipped, the dates and methods of shipment, and all other pertinent details of his operations. At the conclusion of the transaction, a detailed and accurate accounting shall be furnished promptly to the joint partner, in accordance with § 46.2(y). If a deficit results, the shipper shall pay promptly his share of the deficit.

§ 46.30 Duties of growers' agents.

(a) *General.* The duties, responsibilities, and extent of the authority of a growers' agent depend on the type of contract made with the growers. Agreements between growers and agents should be reduced to a written contract clearly defining the duties and responsibilities of both parties and the extent of the agent's authority in distributing the produce. When such agreements between the parties are not reduced to written contracts, the agent shall have available a written statement describing the terms under which he will handle the produce of the grower during the current season and shall mail or deliver this statement to the grower on or before receipt of the first lot. A grower will be considered to have agreed to these terms if, after receiving such statement, he delivers his produce to the agent for handling in the usual manner. In the event an unsolicited lot of produce is delivered to an agent, he shall promptly deliver or mail a copy of such statement to the grower. A copy of this statement, showing the name of the grower and the date the statement was delivered to the grower, shall be retained in the agent's files. An agent who does not have in his files either written contracts or a written statement as required herein is failing to prepare and maintain full and complete records as required by the act. *Provided*, That regulations or bylaws of cooperative marketing associations may be used in lieu of individual agreements or contracts to determine the methods of accounting and settlement with their grower members. An agent who fails to perform any express or implied duty is in violation of the act and may be held liable for any damages resulting therefrom.

(b) *Accounting for charges.* A growers' agent whose operations include such services as the planting, harvesting, grading, packing, furnishing of containers or other supplies, storing, selling or distributing produce for or on behalf of growers shall prepare and maintain complete and detailed records in order to be in a position to render to the grower accurate and detailed accountings covering his handling of the produce. He shall maintain a record of all produce received in the form of a book (preferably a bound book) with numbered pages or comparable business records, showing for each lot the date received, quantity, the kind of produce and the name and address of the grower. Each agent shall issue receipts to growers and others for all produce received. A lot number or other positive means of identification shall be assigned to each lot in order to segregate the various lots of produce received from different growers and for similar produce being handled at the same time. Each lot shall be so identified and segregated throughout all operations conducted by the agent, including the sale or other disposition of the produce. The records shall show the result of all packing and grading operations, including the quantity lost through packing and grading and the quantity and quality packed out. If the culls are sold, they shall be included in the accounting. Unless there is a specific agreement with the growers to pool all various growers' produce, the accountings to the growers shall itemize the actual expenses incurred for the operations conducted by the agent and the actual sales prices received for the produce distributed for the account of each grower. If an agent is working under a pool agreement with growers, the accounting to the growers shall show how the pool cost and pool sales prices are computed. If the agent and the growers have agreed on a fixed charge to cover the various operations conducted by an agent, actual expenses incurred for harvesting, packing, grading, or other services covered by the agreement are not required to be shown in the accounting. An agent shall render promptly an accurate and detailed accounting in accordance with § 46.2(y). Unless the agent has a pooling agreement with the growers, the final accounting shall show all sales, adjustments and credits allowed buyers, rejections, details of consigned or jointed shipments, details of sales through brokers, details of sales through auctions, and the status of all claims filed with or collected from the carriers.

(c) *Sales through brokers or auctions.* Unless a growers' agent is specifically authorized in his contract with the growers to use the services of brokers, commission merchants, joint partners, or auctions, he is not entitled to use these methods of marketing the growers' produce. Any expenses incurred for such services, without the growers' permission, cannot be charged to the growers.

(d) *Filing of carrier claims.* Without the prior consent of the growers, an agent has no authority to file claims with the carriers in his own name or any other name. An agent has no obligation to file carrier claims on shipments for growers in the absence of a specific agreement to perform these duties. All information which an agent has received in handling the shipment which is essential for the growers to file such claims shall be made available to the growers. If an agent has an agreement with the growers to file and handle carrier claims, he shall exercise reasonable care in handling the claims with the carriers by filing the claim promptly in the proper amount, supported by adequate evidence, and take the necessary action to bring the matter to a conclusion.

(e) *Purchases and sales by growers' agents.* A person who operates in a dual capacity, both as a growers' agent and as shipper, shall clearly disclose his status in each transaction to all parties with whom he is dealing. When a person purchases or sells produce as a shipper, he shall not charge or receive a fee from the seller or the buyer. A growers' agent shall not negotiate a transaction where he is subject to the direct or indirect control of any party to such transactions other than his principal, or where the other party is subject to the agents' direct or indirect control, without the prior approval of his principal.

(f) *Negligence of agent.* A growers' agent may be held responsible for any financial loss resulting to the growers due to negligence in performing or failing to perform any specific or implied duties.

(g) *Responsibility for payment.* An agent is not responsible for the payment by the buyer who has purchased the growers' produce on credit, unless he guarantees payment or is negligent in extending credit. Agreement to collect from the buyer and remit to his principal is not a guarantee by the agent that the agent will pay if the buyer does not pay.

(h) *Responsibility for payment of selling fees and expenses to the growers' agent.* In the absence of a specific agreement to the contrary, the agent does not guarantee the performance of the contracting parties and he is entitled to the payment of his selling fees and expenses incurred in handling the produce of growers or others, providing he fully performs his duties as agent.

(i) *Agent's financial responsibility to buyers for failure to comply with contracts.* If a growers' agent contracts in his own name to deliver produce to a buyer and subsequently cannot deliver produce complying with the contract because the growers cannot or will not deliver such produce to him, he may be liable to the buyer for damages resulting from the breach of the contract.

Conversion of Funds

§ 46.31 Conversion of funds.

Any licensee who collects or receives funds for or on behalf of another person or firm in connection with produce shall not make any use or disposition of such funds in his possession or control that will endanger or impair faithful and prompt payment to the owner or consignor of the produce or to any other person having a financial interest therein.

Disclosure of Business

§ 46.32 No disclosure of business of licensee.

No representative of the Department shall, without the consent of the licensee, divulge or make known, except to financially interested parties, or to other representatives of the Department who may be required to have such knowledge in the regular course of their official duties, or except insofar as he may be directed by the Secretary, Deputy Administrator, Director, or a court of competent jurisdiction, any facts or information regarding the business of such licensee which may come to the knowledge of such representative through an examination or inspection of the business or the accounts of the licensee, unless such facts or information should be testified to at a hearing authorized by the Act because they are relevant and material to the issue in the case being heard.

Suspension and Revocation of Licenses

§ 46.33 Suspension or revocation order.

(a) Whenever the Secretary shall order the suspension or revocation of a license, the person against whom such order is directed shall be served by the Hearing Clerk with a copy of the order, and be notified of the effective date thereof.

(b) Except in the case of any license automatically suspended by the Act, a reasonable time shall be allowed, which shall not be less than 10 days between the date of issuance of the order of suspension or revocation and the date upon which such order becomes effective, during which period the licensee may make all necessary arrangements with some other person, who has a valid and effective license to safeguard the interests of consignors or other innocent parties whose property or business may be affected by such suspension or revocation and during which the licensee may terminate his affairs and business relating to the handling of produce.

(c) After the revocation of his license or during the effective period of any suspension thereof, no person shall, either directly or indirectly, through any agent, employee, or otherwise, carry on the business of a commission merchant, dealer, or broker until his status as a licensee has been restored.

(d) The suspension or revocation of a license shall not prevent the licensee from collecting amounts due on contracts entered into prior to the date of suspension or revocation or from remitting promptly to his principals and obligees.

Publication of Facts

§ 46.34 Publicity.

Upon the issuance by the Secretary of an order revoking or suspending a license, or in case of automatic suspension of a license for failure to pay a reparation award, the Director shall cause general publicity to be given to such fact, in order that those doing business with the licensee whose license has been revoked or suspended may take due notice thereof.

Sundays and Holidays

§ 46.35 Sundays and holidays excluded.

Sundays and holidays shall not be included in the computation of the 5-day period provided by section 7(d) of the Act nor in connection with the periods defined in § 46.41 with exception of paragraph (a) thereof.

§ 46.36 Sundays and holidays included.

Sundays and holidays shall be included in the computation of all other periods mentioned in the Act or in the regulations in this part.

Commodity Inspection

§ 46.37 Inspection of commodities.

Each licensee shall, during ordinary business hours, permit any duly authorized representative of the Department to inspect any lot of produce under his ownership or control covered by this act. Any necessary facilities for such inspection shall be extended to such representative by the licensee, his agents, and employees. The licensee shall be furnished a copy of any certificate or memorandum of inspection which is issued for any lot of his produce which is inspected in accordance with this section.

§ 46.38 Inspection service.

The rules and regulations of the Secretary governing inspection and certification of fresh fruits and vegetables as outlined in Part 51 of this chapter; and frozen fruits and vegetables as outlined in Part 52 of this chapter, and amendments thereto, and such additional amendments as may from time to time be promulgated shall govern the inspection of such products under the Act and are hereby made a part of the regulations in this part.

Licensee's Responsibility for Acts of Employees and Agents

§ 46.39 Licensee's responsibility for acts of employees and agents.

In construing and enforcing the provisions of the Act and the regulations in this part, the act, omission, or failure of any agent, officer, or other person acting for or employed by a licensee, within the scope of his employment or office, shall in every case be deemed the act, omission, or failure of the licensee.

Copies of Records

§ 46.40 Copies of records; how obtained.

Copies of records pertaining to licensees under the Act may be furnished under the conditions and at the prices prescribed in the regulations of the Department.

Trade Terms and Definitions

§ 46.41 Terms construed.

The following terms and definitions, when used in any contract or communication involving any transaction coming within the scope of the Act, shall be construed as follows:

(a) "Today's shipment", or shipment on a specified date (such as "shipment September 12"), means in connection with shipments by rail, that the goods referred to shall be under billing by the transportation company on the date the order is given or on the date specified in time to be picked up by a train schedule to move that day's loadings from the shipping point. When used in connection with shipments by boat, this term shall mean that the goods shall be placed alongside the boat and be under billing in time to be loaded and shipped on a boat scheduled to leave before midnight of the date specified. When used in connection with shipments by truck, this term shall mean that the goods shall be loaded and shall actually start from loading point to destination before midnight of the date specified.

(b) "Tomorrow's shipment" or "immediate shipment" means that the shipment referred to shall be under billing by the transportation company in time to

move on a transportation facility scheduled to leave not more than 24 hours later than allowed under "Today's shipment."

(c) "Quick shipment" means that the conditions of the offer, order, or confirmation will be met if the shipment is under billing by the transportation company in time to move on a transportation facility scheduled to leave not more than 48 hours later than allowed under "today's shipment."

(d) "Prompt shipment" means that the conditions of the offer, order, or confirmation will be met if the shipment is under billing by the transportation company in time to move on a transportation facility scheduled to leave not more than 72 hours later than allowed under "today's shipment."

(e) "Shipment first part of week" or "shipment early part of week" means that the produce referred to shall be under billing on Monday or Tuesday of the week specified in time to be picked up by a train scheduled to move these days' loadings from the shipping point. When used in connection with shipments by truck, this term shall mean that the goods shall be loaded and shall actually start from loading point to destination before midnight on Tuesday of the week specified.

(f) "Shipment middle of week" means that the produce referred to shall be under billing by the transportation company in time to move on a transportation facility scheduled to leave Wednesday or Thursday of the week specified. When used in connection with shipments by truck, this term shall mean that the goods shall be loaded and shall actually start from loading point to destination before midnight on Thursday of the week specified.

(g) "Shipment last of week" or "shipment latter part of week" means that the produce referred to shall be under billing by the transportation company in time to move on a transportation facility scheduled to leave on Friday or Saturday of the week specified. When used in connection with shipments by truck, this term shall mean that the goods shall be loaded and shall actually start from loading point to destination before midnight on Saturday of the week specified.

(h) "Shipment as soon as possible" or "Shipment as soon as car (truck) can be secured" means that the shipper is uncertain as to when the shipment can be made, but expects to make it within a reasonable time and will make it soon as possible. But in any case where these words are used the buyer shall, at any time after 7 days from the date the order is given, have the right to cancel the order or contract of sale, if notice of his decision so to cancel shall have been received by the shipper before shipment has been made.

(i) "F.o.b." (for example, "f.o.b. Laredo, Tex.," or "f.o.b. California") means that the produce quoted or sold is to be placed free on board the boat, car, or other agency of the through land transportation at shipping point, in suitable shipping condition (see definitions of "suitable shipping condition," paragraphs (j) and (k) of this section), and that the buyer assumes all risk of damage and delay in transit not caused by the seller irrespective of how the shipment is billed. The buyer shall have the right of inspection at destination before the goods are paid for to determine if the produce shipped complied with the terms of the contract at time of shipment, subject to the provisions covering suitable shipping condition.

(j) "Suitable shipping condition", in relation to direct shipments, means that the commodity, at time of billing, is in a condition which, if the shipment is handled under normal transportation service and conditions, will assure delivery without abnormal deterioration at the contract destination agreed upon between the parties: *Provided*, That the seller has no responsibility for any deterioration in transit if there is no contract destination agreed upon between the parties.

(k) "Suitable shipping condition", in connection with reconsigned rolling or tramp cars, means that the commodity, at time of sale, meets the requirements of this phrase as defined in paragraph (j) of this section, relating to direct shipments.

(l) "F.o.b. acceptance" or "Shipping point acceptance" means that the buyer accepts the produce at shipping point and has no right of rejection. The buyer has recourse against the seller if the produce was not in suitable shipping condition (see definitions, paragraphs (j) and (k) of this section) or has recourse for a material breach of contract, providing the shipment is not rejected. The buyer's remedy under this method of purchase is by recovery of damages from the seller and not by rejection.

(m) "F.o.b. acceptance final" or "Shipping point acceptance final" means that the buyer accepts the produce at shipping point and has no right of rejection. Suitable shipping condition does not apply under this trade term. The buyer does have recourse for a material breach of contract, providing the shipment is not rejected. The buyer's remedy under this type of contract is by recovery of damages from the seller and not by rejection of the shipment.

(n) "F.o.b. steamer" means that the produce is to be placed free on board steamer at shipping point, in suitable shipping condition (see definitions of "suitable shipping condition", paragraphs (j) and (k) of this section) in accordance with the terms of the contract, and that the buyer assumes all responsibility and risk of damage thereafter.

(o) "F.a.s. steamer" means that the produce is to be delivered free alongside the steamer, in suitable shipping condition (see definitions of "suitable shipping condition", paragraphs (j) and (k) of this section), in accordance with the terms of the contract, and that the buyer assumes all responsibility and risk of damage thereafter.

(p) "Delivered" or "delivered sale" means that the produce is to be delivered by the seller on board car, or truck or on dock if delivered by boat, at the market in which the buyer is located, or at such other market as is agreed upon, free of any and all charges for transportation or protective service. The seller assumes all risks of loss and damage in transit not caused by the buyer. For example, a sale of "U.S. No. 1 potatoes delivered Chicago" means that the potatoes, when tendered for delivery at Chicago, shall meet all the requirements of the U.S. No. 1 grade as to quality and condition.

(q) "In transit", "roller", or "rolling car" means that the produce referred to is in possession of the transportation company and under movement from shipping point when the quotation is made, and that the car is moving over a route in line of haul between the point of origin and the market in which delivery is to be made, and has been so moving since date of shipment, without any delay attributable to the shipper or his agent. Unless otherwise specifically agreed, if a roller, rolling car, or a car in transit is sold f.o.b. shipping point, the buyer shall be deemed to have assumed only the lowest all-rail freight charges applicable for the shipment between the point of origin and the contract destination agreed upon between the parties together with such other charges which would have accrued if the car had been originally shipped direct to the contract destination: *Provided*, That the buyer is not liable for payment for protective services if the seller does not inform him of the kind and extent of such services ordered from the carrier.

(r) "Tramp car" or "tramp car sale" means that the produce has left the shipping point under a bill of lading issued prior to the day on which the quotation is made and has moved or is moving over a route out of line of haul with the market in which it is to be delivered or in which it is being offered or quoted, or has been moving over a route in line of haul between the point of origin and the market in which it is to be delivered or in which it is being offered or quoted, but has been delayed in transit by the seller, or has been held by the transportation company at diversion or other points en route awaiting instructions from the shipper and by such holding or delay has missed scheduled movement between points of shipment and the market in which it is to be delivered as the result of the transaction in question. Unless otherwise specifically agreed, if a "tramp car" is sold f.o.b. shipping point or a "tramp car sale" is made f.o.b. shipping point, the buyer shall be deemed to assume only the lowest authorized all-rail freight charges applicable for the shipment between the point of origin and the contract destination agreed upon between the parties, together with such other charges which would have accrued if the car had been originally shipped direct to the contract destination: *Provided*, That the buyer is not liable for payment for protective services if the seller does not inform him of the kind and extent of such services ordered from the carrier.

(s) "Rolling acceptance" means that the buyer accepts at time of purchase produce which is in the custody of the transportation company and under

movement from shipping point, under the terms and conditions described in paragraphs (q) and (r) of this section, except that the buyer assumes full responsibility for transportation of the goods from time of purchase, has no recourse against the seller because of any change in condition after time of purchase unless the goods at the time of sale were not in suitable shipping condition, and has no right of rejection on arrival. The buyer's remedy under this method of purchase is by recovery of damages from the shipper and not by rejection of the shipment. By agreement between the parties, however, the purchase may be made subject to inspection at any specified point while the car is rolling or in transit and the point at which the buyer will assume transportation charges may be specified without affecting the time of acceptance of the commodity.

(t) "Rolling acceptance final" means the same as "Rolling acceptance" except that the buyer has no recourse against the seller because of any change in condition of the produce in transit. The buyer has recourse against the seller for any material breach of the contract providing the shipment is not rejected. The buyer's remedy under this type of contract is recovery of damages from the seller and not by rejection.

(u) (1) "Track sale" or "sale on track" means a sale of produce on track after transit and after inspection or opportunity for inspection by the buyer, or his agent, who shall be considered to have waived any right to reject the commodity so purchased upon receipt by him or his duly authorized representative from the seller or his duly authorized representative of the bill of lading, delivery order, or other document enabling him to obtain the goods from the carrier.

(2) The above definition shall not be construed as depriving the buyer of a right to reparation when the unloading of the car demonstrates that a part of the lading which was not accessible to inspection was of a quality or condition materially inferior to that portion which was accessible to inspection; but notice of intention to file a claim for reparation must be given the seller within 24 hours after receipt by the buyer of the delivery order or bill of lading.

(3) If the seller gives the date of arrival when quoting price, the buyer shall, in the absence of any written memorandum of sale to the contrary, assume all charges that accrue on the shipment from the date of its arrival. If the seller fails to furnish the date of arrival when quoting price the buyer may, in the absence of any written memorandum of sale which includes the date of arrival or specific written statement as to who shall assume such charges as have accrued after arrival, assume that the shipment arrived at point of sale on the day and date upon which the purchase was made, and shall be liable only for such charges as would properly attach to a shipment arriving on the date the purchase was made.

(v) "C.a.f.," "c.a.c.," and "c.i.f." mean "cost and freight," "cost and charges," and "cost, insurance, and freight," respectively. C.a.f. sales shall be deemed to be the same as f.o.b. sales, except that the selling price shall include the correct freight charges to destination. C.a.c. sales shall be deemed to be the same as f.o.b. sales, except that the selling price includes the correct freight and refrigeration or heater charges to destination. C.i.f. sales shall be deemed to be the same as f.o.b. sales, except that the selling price includes insurance and the correct freight and refrigeration or heater charges to destination.

(w) "Carload," "carlot," or "car" when used in offers, quotations, or contracts in which the quantity is not more definitely specified, and in the absence of well-established trade custom or standard as to size of a "carload," "carlot," or "car" of the produce in question, means not less than the minimum quantity required by the carrier's tariff applicable to the movement, and not more than 10 percent in excess of such minimum tariff requirements, except that, where the carrier's tariffs provide alternative rates and minimum, the buyer shall state which tariff minimum must be observed, and, in event of failure so to do, the shipper may exercise his discretion, in no case, however, exceeding the higher alternative minimum quantity provided by the tariff, with only such variations therefrom as are permitted by this paragraph.

(x) "Shipping-point inspection" means that the seller is required to obtain Federal or Federal-State inspection, or such private inspection as has been mutually agreed upon, to show the compliance of the lot sold with the quality, condition, and grade specifications of the contract, and that the seller assumes the risk incident to incorrect certification.

(y) "Shipping-point inspection final," or "inspection final" following the name of the State or point, as "California inspection final," means that the seller is required to obtain Federal or Federal-State inspection, or such private inspection as has been mutually agreed upon, to show the compliance of the lot sold with the quality, condition, and grade specifications of the contract, and that the buyer assumes the risk incident to incorrect certification and is without recourse against the seller on account of quality, condition, and grade.

(z) "Subject approval Government inspection" means that the seller is required to obtain Federal or Federal-State inspection, or such private inspection as has been mutually agreed upon, and to correctly communicate, by wire or other agreed means, the statements on the certificate as to quality, condition and grade, and other essential information, whereupon the buyer, upon approval thereof, will be deemed to have accepted the produce without recourse against the seller on account of quality, condition, and grade.

(aa) "Guaranteed advance" used in connection with an advance payment on consigned produce means that the person making the advance guarantees that the net proceeds to the consignor shall at least equal the amount so advanced, and that the consignor cannot be held liable for any deficit resulting from the sale of the produce, if such deficit is not occasioned by or contributed to by an act of the consignor.

(bb) "Accommodation advance" or "regular advance", used in connection with an advance of money or credit against anticipated net proceeds to be realized from the sale of consigned produce, means that the consignor has received an advance of money or credit and that, if the consigned produce does not sell for enough to cover the cost of transportation and handling, including customary or agreed commission and the advance made to him, the consignor must return to the person making the advance a sum equal to the deficit sustained.

(cc) "Price arrival", in the absence of a contrary specific understanding, means that the produce is shipped either direct to the customer or to an agent of the consignor, for the benefit of the customer, the price to be subject to agreement between the customer and the consignor upon the arrival of the produce at the customer's destination, with sufficient time being permitted for inspection.

(dd) "F.o.b. inspection and acceptance arrival" means that the produce quoted or sold is to be placed by the seller free on board car or other agency of through transportation at shipping point, the cost of transportation to be borne by the buyer, but the seller to assume all risks of loss and damage in transit not caused by the buyer, who has the right to inspect the goods upon arrival and to reject them if, upon such inspection, they are found not to meet the specifications of the contract of sale at destination. The buyer may not reject without reasonable cause. Such a sale is f.o.b. only as to price and is on a delivered basis as to grade, quality, and condition.

(ee) "F.o.b. sale at delivered price" means the same as f.o.b., except that transportation charges from shipping point to destination shall be borne by the seller; that is, the sale is f.o.b. as to grade, quality, and condition, and delivered as to price.

(ff) "Purchase after inspection" means a purchase of produce after inspection or opportunity for inspection by the buyer or his agent. Under this term the buyer has no right of rejection and waives all warranties as to quality or condition, except warranties expressly made by the seller.

(gg) "Cash sale" means that the buyer is required to pay the seller within 24 hours after his acceptance of the shipment.

(hh) "Joint Account—Split Above" means that the receiving joint partner will pay promptly the agreed cost of the shipment to his joint partner. After disposition of the produce, the parties will divide equally the profits on the shipment after deduction of the cost of the shipment and proper expenses from the gross proceeds. The receiving joint partner will pay all expenses and cannot recover any loss resulting from the joint venture.

The regulations contained in this subpart shall become effective on August 1,

1960, and thereupon will supersede the regulations now in effect.

Dated: May 27, 1960.

G. R. GRANGE,
Acting Director,
Fruit and Vegetable Division.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 937—NECTARINES GROWN IN CALIFORNIA

Exemption From Inspection

Notice is hereby given of the approval of an amendment, hereinafter set forth, of the rules and regulations (Subpart—Rules and Regulations; 7 CFR 937.102 et seq.; 25 F.R. 238) currently in effect pursuant to the marketing agreement and Order No. 37 (7 CFR Part 937), regulating the handling of nectarines grown in California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

The amendment changes the inspection waiver procedure prescribed in § 937.110(b) of the rules and regulations by permitting consideration of the availability of inspection at first delivery point within the production area after packing, as well as at shipping point, in the issuance of inspection waivers pursuant to § 937.55(a) of the marketing agreement and Order No. 37.

It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237; 5 U.S.C. 1001 et seq.); and good cause exists for making the provisions thereof effective at the time hereinafter set forth, in that the time intervening between the date when information upon which this amendment is based became available and the time such amendment must become effective in order to effectuate the declared purposes of the act is insufficient; shipments of nectarines are expected to begin on or about May 27, 1960; to be of maximum benefit during the 1960-61 season, it is necessary that the provisions of this amendment apply insofar as possible to all such shipments; and this amendment does not require any special preparation for compliance therewith which cannot be completed by the effective time thereof.

Order. In § 937.110(b), delete subparagraphs (2), (3), and (7), and substitute in lieu thereof new subparagraphs (2), (3), and (7) as set forth below.

§ 937.110 Exemption from inspection.

* * * * *

(b) *Waivers.* * * *

(2) The handler designates in such request the varieties of nectarines to be inspected, the approximate quantities by variety and the time when the nectarines will be available for inspection at shipping point and also at point of first delivery within the production area after packing;

(3) The Federal-State Inspection Service furnishes the handler with a signed statement that it is not practicable, under such conditions for the Federal-State Inspection Service to make the inspection within the necessary time designated by the handler at either shipping point or point of first delivery within the production area after packing;

* * * * *

(7) Nothing contained in § 937.55 or in this paragraph shall prevent a handler from shipping nectarines without inspection during working hours of an announced Federal-State Inspection Service working day if (i) such handler requests inspection for such nectarines, including therein all information required under subparagraph (2) of this paragraph, and the Federal-State Inspection Service furnishes such handler with a waiver number and a signed statement that it is not practicable to make the inspection within the necessary time designated by the handler at either shipping point or point of first delivery within the production area after packing, (ii) such handler submits, or causes to be submitted, promptly to the Nectarine Administrative Committee such statement together with a report concerning such shipments containing all of the information set forth in subparagraph (5) of this paragraph, and (iii) such handler complies with the marking requirements set forth in subparagraph (6) of this paragraph.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: May 27, 1960, to become effective at 12:01 a.m., P.s.t., June 2, 1960.

G. R. GRANGE,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 60-4974; Filed, June 1, 1960; 8:51 a.m.]

[Milk Order 80]

PART 980—MILK IN WESTERN COLORADO MARKETING AREA

Order Suspending Certain Provision

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the order regulating the handling of milk in the Western Colorado Marketing area (7 CFR Part 980), it is hereby found and determined that:

(a) The following provision of the order, no longer tends to effectuate the declared policy of the Act: In § 980.51, the phrase "for the first eighteen months beginning with the effective date of prices pursuant to this section".

(b) Notice of proposed rule making, public procedure thereon, and 30 days notice of effective date hereof are impractical, unnecessary, and contrary to the public interest in that:

(1) This suspension order does not require of persons affected substantial or extensive preparation prior to the effective date.

(2) This suspension order is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing area.

(3) This suspension will continue the pricing provisions in the order which otherwise would expire on May 31, 1960, pending consideration of proposed amendments to the order. The time available, prior to the expiration date of the pricing provisions, is too short to permit the necessary analysis of the record evidence and the preparation and issuance of a recommended decision, a final decision, and an order on the proposed amendments being considered.

(4) Suspension action is based on evidence presented at a hearing held in Grand Junction, Colorado, on May 16, 1960. The request for suspension was made by the producers' association, representing about 90 percent of the producers supplying the market, and was supported by handlers.

Therefore, good cause exists for making this order effective June 1, 1960.

It is therefore ordered, That the aforesaid provision of the order is hereby suspended effective June 1, 1960.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Issued at Washington, D.C., this 27th day of May 1960.

CLARENCE L. MILLER,
Assistant Secretary.

[F.R. Doc. 60-4972; Filed, June 1, 1960; 8:51 a.m.]

Title 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[1959 C.C.C. Grain Price Support Reseal Loan Bulletin, Amdt. 1]

PART 421—GRAINS AND RELATED COMMODITIES

Subpart—1959-Crop Reseal Loan Programs for Barley, Corn, Grain Sorghums and Wheat

STORAGE AND TRACK-LOADING PAYMENTS

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service published in 25 F.R. 2049, and containing the specific requirements of the 1959-crop reseal loan programs for barley, corn, grain sorghums and wheat are amended as follows:

Section 421.4560(a)(1) is amended to provide for the amount of reseal storage payments to be made on barley, corn, grain sorghums and wheat and paragraph (a)(2) of this section is amended to provide for the prorated storage payment for barley, corn, grain sorghums and wheat so that the amended subparagraphs read as follows:

§ 421.4560 Storage and track-loading payments.

(a) * * *

(1) *Storage payment for full reseal period.* A storage payment in the amount of 14 cents per bushel for barley, corn and wheat and 24 cents per hundredweight for grain sorghums will be made to the producer on the quantity involved if he (i) redeems the commodity from the loan on or after the maturity date of the reseal loan (ii) delivers the commodity to CCC on or after the maturity date of the reseal loan or (iii) delivers the commodity to CCC prior to the maturity date of the reseal loan pursuant to demand by CCC for repayment of the loan solely for the convenience of CCC.

(2) *Prorated storage payment.* A storage payment determined by prorating the yearly rate according to the length of time the commodity was in store for the period beginning 60 days subsequent to the maturity date applicable to the regular loan will be made to the producer; (i) in the case of loss assumed by CCC under the provisions of the loan program; (ii) in the case of the commodity redeemed from reseal loans prior to the maturity date of the reseal loan and, (iii) in the case of the commodity delivered to CCC prior to the maturity date of the reseal loan pursuant to CCC's demand and not solely for the convenience of CCC or upon request of the producer and with the approval of CCC. The prorated storage payment will be computed at the daily rate of 0.046 cent per bushel for barley, corn and wheat and 0.079 cent per hundredweight for grain sorghums but not to exceed the amount specified in subparagraph (1) of this paragraph. In the case of losses assumed by CCC, the period for computing the storage payment shall end on the date of the loss, and in the case of redemptions, on the date of repayment.

(Sec. 4, 62 Stat. 1070, as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 105, 301, 401, 63 Stat. 1051, 1054; 15 U.S.C. 714c; 7 U.S.C. 1421, 1441, 1442, 1447)

Issued this 27th day of May 1960.

CLARENCE D. PALMBY,
Acting Executive Vice President,
Commodity Credit Corporation.

[F.R. Doc. 60-4979; Filed, June 1, 1960; 8:52 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 59-FW-66]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Modification

On November 19, 1959, a notice of proposed rule-making was published in the FEDERAL REGISTER (24 F.R. 9345) stating that the Federal Aviation Agency was proposing to modify a segment of VOR Federal airway No. 77 between Oklahoma City, Okla., and Ponca City, Okla., by designating an east alternate via the Oklahoma City VOR 021° True and Ponca City VOR 163° True radials. Subsequent to the closing date, a modification of the proposal was published in the FEDERAL REGISTER (25 F.R. 84) amending the original proposal by proposing to designate Victor 77E via the Oklahoma City VOR 040° True and Ponca City VOR 180° True radials.

Two comments were received concerning the proposal. The Air Transport Association concurred in the designation of an east alternate. However, the Department of the Air Force objected to the proposal because the off-airway airspace east of Victor 77 is used as a basic instrument training area by ten to twelve jet aircraft from Vance AFB, Okla., below 20,000 feet, 5 days a week. Above 20,000 feet en route instrument training aircraft are passing through this area to and from navigational aids used as training facilities. Off-airway airspace to the west of Vance AFB is utilized by the other 70 to 90 Vance aircraft that are airborne 5 days per week conducting other training missions.

An IFR peak-day airway traffic survey for fiscal year 1959 showed aircraft movements on Victor 77 as forty-five. The utilization of the area in question by the Air Force aircraft operating from Vance AFB is recognized. However, it appears that there is an extensive area west of Vance AFB that is not traversed by airways and could be utilized for types of training that are required to be conducted off airways. As noted above, the volume of IFR operations between Oklahome City and Ponca City necessitates the designation of an east alternate to Victor 77 for efficient air traffic management. The main airway segment of Victor 77 between Oklahoma City and Ponca City is used primarily as a northbound departure route. The east alternate between these points will be used as an inbound route to Oklahoma City for aircraft arriving from the north. The Federal Aviation Agency is modifying the segment of Victor 77 between Oklahoma City and Ponca City by designating an east alternate via the intersection of the Oklahoma City VOR 040° True and the Ponca City VOR 181° True radials. The 181° True radial is necessary in lieu of the 180° True radial so that the apex of Victor 77 east will coincide with the existing Stillwater, Okla., intersection. The control areas associated with Victor 77 are so designated that they will automatically conform to the modified airway. Accordingly, no amendment relating to such control areas is necessary.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) § 600.6077 (24 F.R. 10513) is amended as follows:

In the text of § 600.6077 *VOR Federal airway No. 77 (Cotulla, Tex., to Des Moines, Iowa)*, delete "Ponca City, Okla., omnirange station;" and substitute therefor "Ponca City, Okla., VOR, including an E alternate from the Oklahoma City VOR to the Ponca City VOR via the INT of the Oklahoma City VOR 040° T and the Ponca City VOR 181° T radials;"

This amendment shall become effective 0001 e.s.t. July 28, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 26, 1960.

D. D. THOMAS,
Director, Bureau of
Air Traffic Management.

[F.R. Doc. 60-4927; Filed, June 1, 1960; 8:46 a.m.]

[Airspace Docket No. 59-WA-366]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Modification

On March 5, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 1958) stating that the Federal Aviation Agency proposed to modify a segment of VOR Federal airway No. 4 between Elkins, W. Va., and Front Royal, Va., via a VOR to be installed near Kessel, W. Va., approximately October 15, 1960.

Subsequent to publication of the notice, installation of the Kessel VOR was rescheduled, and it will now be commissioned approximately January 12, 1961.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, the following action is taken:

In the text of § 600.6004 (24 F.R. 10504, 10142; 25 F.R. 2009, 2883, 3755), "INT of the Elkins VOR 077° and the Grantsville, Md., VOR 191° radials;" is deleted and "Kessel, W. Va., VOR;" is substituted therefor.

This amendment shall become effective 0001 e.s.t., January 12, 1961.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 26, 1960.

D. D. THOMAS,
Director, Bureau of
Air Traffic Management.

[F.R. Doc. 60-4928; Filed, June 1, 1960; 8:46 a.m.]

[Airspace Docket No. 59-KC-57]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Extension of Federal Airway and Associated Control Areas

On December 23, 1959, a notice of proposed rule-making was published in the FEDERAL REGISTER (24 F.R. 10461) stating that the Federal Aviation Agency was considering amendments to §§ 600.6181 and 601.6181 of the regulations of the Administrator which would extend VOR Federal airway No. 181 and its associated control areas from Watertown, S. Dak., to Fargo, N. Dak.

As stated in the notice, Victor 181 presently extends from Sioux Falls, S. Dak., to Watertown. The Federal Aviation Agency is extending Victor 181 and its associated control areas from the Watertown VOR to the Fargo VOR in order to establish an interconnecting airway between Watertown and Fargo, thereby providing more efficient air traffic management by furnishing air traffic control service to aircraft now conducting offairway direct flights between these points. This action will result in Victor 181 extending from the Sioux Falls VORTAC to the Fargo VORTAC via the Watertown VORTAC.

The Department of the Air Force stated that a confliction would result between the proposed airway and the jet letdown procedures at the Hector Aerodrome, Fargo, N. Dak. The Air Force, however, further stated that it recognized that the present IFR traffic between Watertown and Fargo justified the extension of Victor 181, but recommended that a holding fix be established on Victor 181 to permit holding airway traffic south of the area utilized for jet penetrations. The Federal Aviation Agency recognizes the need for the holding fix recommended by the Air Force and the designation of the extension to Victor 181 will provide the controlled airspace required for such holding fix.

No other comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, §§ 600.6181 (24 F.R. 10520) and 601.6181 (24 F.R. 10602) are amended to read:

§ 600.6181 VOR Federal airway No. 181 (Sioux Falls, S. Dak., to Fargo, N. Dak.).

From the Sioux Falls, S. Dak., VORTAC via the Watertown, S. Dak., VORTAC to the Fargo, N. Dak., VORTAC.

§ 601.6181 VOR Federal airway No. 181 control areas (Sioux Falls, S. Dak., to Fargo, N. Dak.).

All of VOR Federal airway No. 181.

These amendments shall become effective 0001 e.s.t., July 28, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 26, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-4929; Filed, June 1, 1960; 8:46 a.m.]

[Airspace Docket No. 60-NY-6]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Revocation of Segment of Federal Airway, Associated Control Areas and Reporting Points

On March 9, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 2018) stating that the Federal Aviation Agency proposed to revoke the segment of Red Federal airway No. 33 from Morris, Conn., to Chicopee Falls, Mass., its associated control areas and designated reporting points.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, §§ 600.233 (24 F.R. 10497, 25 F.R. 336), 601.233 (24 F.R. 10544) and 601.4233 (24 F.R. 10595) are amended to read:

§ 600.233 Red Federal airway No. 33 (Norfolk, Va., to Richmond, Va.).

From the INT of the E course of the Langley, Va., AFB RR and the N course of the Norfolk, Va., Navy RR via the Langley AFB RR to the Richmond, Va., RR.

§ 601.233 Red Federal airway No. 33 control areas (Norfolk, Va., to Richmond, Va.).

All of Red Federal airway No. 33.

§ 601.4233 Red Federal airway No. 33 (Norfolk, Va., to Richmond, Va.).

No reporting point designation.

These amendments shall become effective 0001 e.s.t. July 28, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 26, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-4930; Filed, June 1, 1960; 8:46 a.m.]

[Airspace Docket No. 60-WA-66]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Revocation of Segment of Federal Airway and Associated Control Areas

On March 26, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 2590) stating that the Federal Aviation Agency proposed to revoke the segment of Red Federal airway No. 17 between Rantoul, Ill., and Rensselaer, Ind., and its associated control areas.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, the following actions are taken:

1. Section 600.217 (24 F.R. 10496, 9366) is amended to read:

§ 600.217 Red Federal airway No. 17 (Martinsburg, W. Va., to Baltimore, Md.).

From the Martinsburg, W. Va., RR via the INT of a line bearing 011° True from the Springfield, Va., RBN and the W course of the Baltimore, Md., RR to the Baltimore RR.

2. Section 601.217 (24 F.R. 10544, 9366) is amended to read:

§ 601.217 Red Federal airway No. 17 control areas (Martinsburg, W. Va., to Baltimore, Md.).

All of Red Federal airway No. 17.

3. Section 601.4217 (24 F.R. 10594, 9366) is amended to read:

§ 601.4217 Red Federal airway No. 17 (Martinsburg, W. Va., to Baltimore, Md.).

The INT of a line bearing 011° True from the Springfield, Va., RBN and the W course of the Baltimore, Md., RR; Baltimore, Md., RR.

These amendments shall become effective 0001 e.s.t., July 28, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 25, 1960.

GEORGE S. CASSADY,
Brigadier General, U.S. Air Force, Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-4931; Filed, June 1, 1960; 8:46 a.m.]

[Airspace Docket No. 59-FW-96]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Revocation of Federal Airway, Associated Control Areas and Reporting Points

On April 2, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 2805) stating that the Federal Aviation Agency proposed to revoke Red Federal airway No. 84 in its entirety, together with its associated control areas and designated reporting points.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, Parts 600 (24 F.R. 10487) and 601 (24 F.R. 10530) are amended as follows:

1. Section 600.284 *Red Federal airway No. 84 (Meridian, Miss., to Maxwell AFB, Ala.)* is revoked.

2. Section 601.284 *Red Federal airway No. 84 control areas (Meridian, Miss., to Maxwell AFB, Ala.)* is revoked.

3. Section 601.4284 *Red Federal airway No. 84 (Meridian, Miss., to Maxwell AFB, Ala.)* is revoked.

These amendments shall become effective 0001 e.s.t. July 28, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 25, 1960.

GEORGE S. CASSADY,
Brigadier General, U.S. Air Force, Acting Director, Bureau of Air Traffic Management.

[Airspace Docket No. 59-WA-132]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Revocation of Federal Airway, Associated Control Areas and Designated Reporting Points

On December 10, 1959, a notice of proposed rule-making was published in the FEDERAL REGISTER (24 F.R. 9996) stating that the Federal Aviation Agency was considering amendments to Parts 600 and 601 of the regulations of the Administrator which would revoke in its entirety Blue Federal airway No. 87 and its associated control areas.

As stated in the notice, Blue 87 and its associated control areas presently extend from Lexington, Ky., to the North Hampton, Ohio, Intersection. Justification for the revocation of Blue 87 was the proposed designation of a Restricted Area/Military Climb Corridor for Wright-Patterson AFB, Dayton, Ohio, which would overlie Blue 87 longitudinally between Cincinnati, Ohio, and Dayton, and the small amount of IFR traffic using the airway. Subsequent to the issuance of the notice, the Department of the Air Force advised it no longer had a requirement for a Restricted Area/Military Climb Corridor at Wright-Patterson AFB. However, the Federal Aviation Agency considers that Blue 87 is unjustified as an assignment of airspace on the basis of the IFR traffic activity only. Coincident with this action, § 601.4687 relating to the reporting points associated with this airway, is also being revoked.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) Part 600 (24 F.R. 10487) and Part 601 (24 F.R. 10530) are amended as follows:

1. Section 600.687 *Blue Federal airway No. 87 (Lexington, Ky., to Dayton, Ohio)* is revoked.

2. Section 601.687 *Blue Federal airway No. 87 control areas (Lexington, Ky., to Dayton, Ohio)* is revoked.

3. Section 601.4687 *Blue Federal airway No. 87 (Lexington, Ky., to Dayton, Ohio)* is revoked.

These amendments shall become effective 0001 e.s.t. July 28, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 25, 1960.

GEORGE S. CASSADY,
Brigadier General, U.S. Air Force, Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-4933; Filed, June 1, 1960; 8:46 a.m.]

[Airspace Docket No. 59-WA-70]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

PART 602—ESTABLISHMENT OF CODED JET ROUTES AND NAVIGATIONAL AIDS IN THE CONTINENTAL CONTROL AREA

Extension of Federal Airway, Associated Control Areas; Establishment of Coded Jet Route

On October 28, 1959, a notice of proposed rule making was published in the FEDERAL REGISTER (24 F.R. 8749) stating that the Federal Aviation Agency was considering amendments to §§ 600.6146 and 601.6146, and Part 602, of the regulations of the Administrator which would extend VOR Federal airway No. 146 and its associated control areas and establish VOR/VORTAC jet route No. 68.

As stated in the notice, Victor 146 presently extends from Wilkes-Barre, Pa., to Providence, R.I. The Federal Aviation Agency is extending Victor 146 from the Providence VOR to the Nantucket VOR and establishing jet route J-68-V from the Nantucket VOR via the Providence VOR to the intersection of the Providence VOR 270° True and the Boston VOR 231° True radials which, in conjunction with VOR Federal airway No. 30 and VOR/VORTAC jet route No. 62, will provide a dual airway structure for incoming and departing overseas traffic between the Idlewild, N.Y., International Airport and Europe. This action will result in Victor 146 and its associated control areas extending from Wilkes-Barre to Nantucket and jet route J-68-V extending from Nantucket via the Providence VOR to the intersection of the Providence VOR 270° True and the Boston VOR 231° True radials.

The Department of the Navy Regional Airspace Officer in the New York Regional Office objected to both the extension of Victor 146 and the establishment of jet route J-68-V as (a) they would create an area of high density VFR Navy and civilian air traffic inconsistent with good safety practices; (b) aircraft holding at 20,000 feet MSL over the Quonset Point, R.I., radio range or VOR, or shut-

tiling down from 30,000 feet MSL, will penetrate the airway and/or jet route structure; and (c) the airway and/or jet route structure would limit utilization of the established Navy jet penetrations into Quonset Point Naval Air Station including the procedure whereby aircraft inbound from seaward may be cleared inbound from Nantucket for en route penetration. The Federal Aviation Agency does not agree there is any basis for a statement that an airway or jet route per se, attracts VFR civilian air traffic. The second objection that aircraft holding at 30,000 feet MSL or shuttling down from 30,000 feet MSL will penetrate the airway and/or jet route structure is true. However, procedural arrangements have been developed between the Boston Air Route Traffic Center and the Quonset Point Radar Air Traffic Control Center for altitude use at 23,000 feet and below, as and when required within the RATCC area of control jurisdiction, and will provide for maximum available utilization of the RATCC radar in its application to the control of traffic along the airway. Additionally, the Boston ARTCC will provide separation between the Navy jet aircraft on IFR flight plans, shuttling between 30,000 feet and 20,000 feet to land at the Quonset Point NAS, and en route aircraft on Victor 146 and/or jet route J–68–V. The third objection refers mainly to conflict between en route aircraft on Victor 146 and/or jet route J–68–V and Navy jet aircraft conducting an en route penetration from Nantucket. This, too, will be resolved procedurally by the Boston ARTCC.

The Air Transport Association, the Airline Pilots Association and the Department of the Air Force submitted comments reflecting concurrence with the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), § 600.6146 (24 F.R. 10518), § 601.6146 (24 F.R. 10601), and Part 602 (14 CFR, 1958 supp., Part 602) are amended as follows:

§ 600.6146 [Amendment]

1. Section 600.6146 *VOR Federal airway No. 146 (Wilkes-Barre, Pa., to Providence, R.I.)*:

(a) In the caption delete "*(Wilkes-Barre, Pa., to Providence, R.I.)*." and substitute therefor "*(Wilkes-Barre, Pa., to Nantucket, Mass.)*."

(b) In the text delete "to the Providence, R.I., omnirange station." and substitute therefor "Providence, R.I., VOR; to the Nantucket, Mass., VOR."

§ 601.6146 [Amendment]

2. In the caption of § 601.6146 *VOR Federal airway No. 146 control areas (Wilkes-Barre, Pa., to Providence, R.I.)*, delete "*(Wilkes-Barre, Pa., to Providence, R.I.)*." and substitute therefor "*(Wilkes-Barre, Pa., to Nantucket, Mass.)*."

3. Section 602.568 is added to read:

§ 602.568 VOR/VORTAC jet route No. 68 (Providence, R.I., to Nantucket, Mass.).

From the INT of the Providence VOR 270° T and the Boston, Mass., VOR 231° T radials via the Providence, R.I., VOR to the Nantucket, Mass., VOR.

These amendments shall become effective 0001 e.s.t. July 28, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 25, 1960.

GEORGE S. CASSADY,
Brigadier General, U.S. Air Force, Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–4921; Filed, June 1, 1960; 8:45 a.m.]

[Airspace Docket No. 60–WA–32]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Control Area Extensions

The purpose of this amendment to §§ 601.1008 and 601.1175 of the regulations of the Administrator is to delete all reference to the Beaufort, S.C., Restricted Area (R–563) in the description of the Savannah, Ga., control area extension (601.1008) and the Charleston, S.C., control area extension (601.1175). Designation of Restricted Area (R–563) expired on December 1, 1959.

Since this amendment reduces a burden on the public, compliance with the notice, public procedure, and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) §§ 601.1008 (24 F.R. 10547) and 601.1175 (24 F.R. 10556) are amended as follows:

1. In the text of § 601.1008 *Control area extension (Savannah, Ga.)*, delete: "Beaufort Restricted Area R–563,".

2. In the text of § 601.1175 *Control area extension (Charleston, S.C.)*, delete: "The portions of this control area which lie within the Beaufort Restricted Area (R–563) shall be used only after obtaining prior approval from the Federal Aviation Agency Air Traffic Control."

This amendment shall become effective upon date of publication in the FEDERAL REGISTER.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 26, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–4922; Filed, June 1, 1960; 8:45 a.m.]

[Airspace Docket No. 59–EC–32]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Control Zone

On December 29, 1959, a notice of proposed rule-making was published in the FEDERAL REGISTER (24 F.R. 10917) stating that the Federal Aviation Agency was considering an amendment to § 601.2061 of the regulations of the Administrator which would modify the Lincoln, Nebr., control zone.

As stated in the notice, the Lincoln control zone is presently designated within a 5-mile radius of the Lincoln Air Force Base with extensions 10 miles north of the Lincoln radio range based on the radio range north course, 15 miles south of the Lincoln AFB based on the radio range south course, and 12 miles northwest of the Lincoln ILS outer marker based on the former ILS localizer front course at its previous location. The ILS, which previously served runway 14, has been relocated to serve runway 35, so the control zone extension to the northwest is being revoked. The approach procedure based on the south course of the radio range has been canceled, so the extension to the south is being shortened to the Sprague, Nebr., radio beacon. A new instrument approach procedure has been prescribed based on the Raymond, Nebr., VOR, so a new extension is being designated to the north-northeast. The extension based on the radio range north course is being extended 2 miles to protect aircraft making instrument approaches in their descent below 1,000 feet above the airport surface. This action will result in the Lincoln control zone being redesignated within 5 miles of the geographical center of the air base (latitude 40°50'35" N., longitude 96°45'42" W.); within 2 miles either side of the north course of the Lincoln radio range extending from the 5-mile radius zone to a point 12 miles north of the radio range; within 2 miles either side of the 195° True and 015° True radials of the Raymond, Nebr., VOR, extending from the 5-mile radius zone to a point 12 miles north-northeast of the Raymond VOR; and within 2 miles either side of the south course of the Lincoln ILS localizer from the 5-mile radius zone to the Sprague, Nebr., radio beacon.

The Aircraft Owners and Pilots Association objected to the proposal because the need for flight of aircraft at an altitude below 1,000 feet above ground at a distance beyond 5 miles from the field is not established in the proposal. However, in accordance with the prescribed radio range, VOR, and ADF instrument approaches at Lincoln AFB, aircraft are authorized to descend to an altitude of 702 feet above the terrain within 10 nautical miles of the Lincoln radio range and the Raymond VOR, and an altitude of 700 feet above the terrain after passing the Sprague radio beacon. Therefore, the Federal Aviation Agency considers that the control zone extensions to the north, north-northeast, and to the south are required for the full protection of the instrument approaches.

The Department of the Air Force submitted comments concurring with the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons set forth in the notice, § 601.2061 (24 F.R. 10574) is amended to read:

§ 601.2061 Lincoln, Nebr., control zone.

Within a 5-mile radius of the geographical center of the Lincoln Air Force Base (latitude 40°50'35" N., longitude 96°45'42" W.); within 2 miles either side of the N course of the Lincoln RR extending from the 5-mile radius zone to a point 12 miles N.; within 2 miles either side of the 195° T and the 015° T radials of the Raymond, Nebr., VOR, extending from the 5-mile radius zone to a point 12 miles NNE of the VOR; and within 2 miles either side of the S course of the Lincoln ILS localizer from the 5-mile radius zone to the Sprague, Nebr., RBN.

This amendment shall become effective 0001 e.s.t. July 28, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 26, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–4923; Filed, June 1, 1960; 8:45 a.m.]

[Airspace Docket No. 59–NY–53]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Designation of Control Zone

On March 26, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 2591) stating that the Federal Aviation Agency proposed to designate a control zone at Lancaster, Pa.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, Part 601 (24 F.R. 10530) is hereby amended by adding the following section:

§ 601.2045 Lancaster, Pa., control zone.

Within a 5-mile radius of the geographical center of the Lancaster, Pa., Municipal Airport (latitude 40°07'16" N., longitude 76°17'47" W.), within 2 miles either side of the 128° True radial of the Lancaster VOR extending from the VOR to a point 12 miles SE of the VOR and within 2 miles either side of the 260° True radial of the Lancaster VOR extending from the VOR to a point 12 miles W of the VOR.

This amendment shall become effective 0001 e.s.t. July 28, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 25, 1960.

GEORGE S. CASSADY,
Brigadier General, U.S. Air Force, Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–4924; Filed, June 1, 1960; 8:45 a.m.]

[Airspace Docket No. 59–WA–439]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Control Zone

On March 26, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 2593) stating that the Federal Aviation Agency proposed to modify the San Antonio, Tex. (Kelly AFB), control zone.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, § 601.2311 (24 F.R. 10586) is amended to read:

§ 601.2311 San Antonio, Tex. (Kelly AFB), control zone.

Within a 5-mile radius of the geographical center of Kelly Air Force Base (latitude 29°22'37" N., longitude 98°34'50" W.), within 2 miles either side of the ILS localizer N course extending from the 5-mile radius zone to the ILS OM, and within 2 miles either side of the Somerset, Tex., VOR 035° True radial extending from the 5-mile radius zone to the Somerset VOR.

This amendment shall become effective 0001 e.s.t. July 28, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 25, 1960.

GEORGE S. CASSADY,
Brigadier General, U.S. Air Force, Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–4925; Filed, June 1, 1960; 8:46 a.m.]

[Airspace Docket No. 60–EC–2]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Control Zone

On March 24, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 2496) stating that the Federal Aviation Agency proposed to modify the Glenview, Ill., control zone.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, the following action is taken:

Section 601.2100 (24 F.R. 10576) is amended to read:

§ 601.2100 Glenview, Ill., control zone.

Within a 5-mile radius of the geographical center of the Glenview, Ill., Naval Air Station (latitude 42°06'21" N., longitude 87°49'07" W.), within 2 miles either side of the NW course of the Glenview, Ill., RR extending from the 5-mile radius zone to a point 12 miles NW of the RR, and within 2 miles either side of the 158° True radial of the Northbrook, Ill., VOR extending from the Glenview 5-mile radius zone and the Chicago, Ill. (O'Hare International Airport) 5-mile radius zone to the VOR, excluding that portion which overlies the Chicago, Ill. (O'Hare International Airport) control zone.

This amendment shall become effective 0001 e.s.t. July 28, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 25, 1960.

GEORGE S. CASSADY,
Brigadier General, U.S. Air Force, Acting Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–4926; Filed, June 1, 1960; 8:46 a.m.]

[Airspace Docket No. 59-WA-319]

PART 602—ESTABLISHMENT OF CODED JET ROUTES AND NAVIGATIONAL AIDS IN THE CONTINENTAL CONTROL AREA

Jet Route

On November 10, 1959, a notice of proposed rule-making was published in the FEDERAL REGISTER (24 F.R. 9170) stating that the Federal Aviation Agency proposed to amend Part 602 of the regulations of the Administrator by establishing VOR/VORTAC jet route No. 88 from Santa Barbara, Calif., to Los Angeles, Calif.

As stated in the notice, the Federal Aviation Agency proposed to establish jet route No. 88–V from the intersection of the Bakersfield, Calif., VOR 210° True and the Los Angeles VOR 298° True radials to the Los Angeles VOR to make available a coded jet route within the United States for jet operations between Los Angeles and Hawaii. This intersection overlies the Santa Barbara VOR which is presently a medium altitude coverage facility. However, as the Santa Barbara VOR was converted to a high altitude coverage facility approximately April 1, 1960, jet route No. 88–V will be established from the Santa Barbara VOR to the Los Angeles VOR.

The Department of the Air Force has registered an objection to the establishment of the jet route stating that it would conflict with a climb corridor proposed at Oxnard, Calif., AFB. The Air Force further stated that any modification of the proposed route should be consistent with full radar coverage capability to avoid any serious restrictions to Air Force air operations in this area.

It has been determined that the altitudes in use on this route in the area of the climb corridor will ordinarily be transitional and below the altitudes designated for the climb corridor. Additionally, adequate radar coverage, for air traffic management purposes exists for the route.

No other adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) Part 602 (14 CFR, 1958 Supp., Part 602) is amended by adding the following section:

§ 602.588 VOR/VORTAC jet route No. 88 (Santa Barabara, Calif., to Los Angeles, Calif.).

From the Santa Barbara, Calif., VOR to the Los Angeles, Calif., VOR.

This amendment shall become effective 0001 e.s.t. July 28, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 25, 1960.

GEORGE S. CASSADY,
Brigadier General, U.S. Air Force, Acting Director, Bureau of Air Traffic Management.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 7689 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Carteret Jr. Fashions Corp. and Aaron Dworkowitz

Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1845 *Composition;* § 13.1845–80 *Wool Products Labeling Act.*

(Sec. 6, 38 Stat. 722; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2–5, 54 Stat. 1128–1130; 15 U.S.C. 45, 68–68(c)) [Cease and desist order, Carteret Jr. Fashions Corp., et al., New York, N.Y., Docket 7689, April 2, 1960]

In the Matter of Carteret Jr. Fashions Corp. a Corporation, and Aaron Dworkowitz, Individually and as Officer of Said Corporation

The complaint in this case charged New York City manufacturers with violating the Wool Products Labeling Act by failing to label ladies' dresses as to wool content.

Accepting a consent agreement, the hearing examiner made his initial decision and order to cease and desist which became on April 4 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents Carteret Jr. Fashions Corp., a corporation, and its officers, and Aaron Dworkowitz individually and as an officer of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939, of ladies' dresses or other wool products, as such products are defined in and subject to said Wool Products Labeling Act, do forthwith cease and desist from misbranding such products by failing to affix labels to such products showing each element of information required to be disclosed by section 4(a)(2) of the Wool Products Labeling Act.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondent Carteret Jr. Fashions Corp., a corporation, and Aaron Dworkowitz, individually and as officer of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: April 1, 1960.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

PART 13—PROHIBITED TRADE PRACTICES

Damascus Hosiery Mills, Inc., et al.

Subpart—Misbranding or mislabeling; § 13.1185 *Composition;* § 13.1185–90 *Wool Products Labeling Act.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure; § 13.1845 *Composition;* § 13.1845 *Wool Products Labeling Act.*

(Sec. 6, 38 Stat. 722; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2–5, 54 Stat. 1128–1130; 15 U.S.C. 45, 68–68(c)) [Cease and desist order, Damascus Hosiery Mills, Inc., et al., Damascus, Va., Docket 7574, April 1, 1960]

In the Matter of Damascus Hosiery Mills, Inc., a Corporation, and B. P. Murphy, R. G. Minton, and G. A. Hall, Individually and as Officers of Said Corporation

This proceeding was heard by a hearing examiner on the complaint of the Commission charging Damascus, Va., manufacturers with violating the Wool Products Labeling Act by labeling as "100 percent Wool sole cushioning", men's hosiery the soles of which in fact contained a substantial quantity of non-wool fibers, and by failing to disclose on labels the fiber composition of sections of the hosiery which were recognizably distinct as required.

On the basis of a consent agreement, the hearing examiner made his initial decision and order to cease and desist which became on April 1 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That the respondents, Damascus Hosiery Mills, Inc., a corporation, and its officers, and B. P. Murphy, individually and as an officer of said corporation, and G. A. Hall, as an officer of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939, of men's hosiery or other wool products, do forthwith cease and desist from misbranding such products by:

1. Falsely and deceptively stamping, tagging or labeling or otherwise falsely identifying such products as to the character or amount of the constituent fibers contained therein;

2. Failing to securely affix to or place on each such product a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner:

(a) The percentage of the total fiber weight of such wool product exclusive of ornamentation not exceeding five per centum of said total fiber weight, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is five per centum or more, and (5) the aggregate of all other fibers; (b) The maximum percentages of the total weight of such wool product of any nonfibrous loading, filling, or adulterating matter; (c) The name or the registered identification number of the manufacturer of such wool product or of one or more persons engaged in introducing such wool product into commerce, or in the offering for sale, sale, transportation, distribution, or delivery for shipment thereof in commerce, as "commerce" is defined in the Wool Products Labeling Act of 1939.

3. Failing to set forth on stamps, tags, labels or other means of identification attached to such products the information required under section 4(a)(2)(A) of the Wool Products Labeling Act with respect to each specifically designated section of a wool product composed of two or more sections where such sections are of a different fiber composition and are recognizably distinct.

4. Falsely or deceptively designating the character or amount of the fibers contained in any section of a wool product composed of two or more sections which are recognizably distinct in violation of Rule 23 of the rules and regulations promulgated pursuant to the Wool Products Labeling Act of 1939.

It is further ordered, That the complaint be dismissed as to respondent R. G. Minton and as to G. A. Hall as an individual.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents Damascus Hosiery Mills, Inc., a corporation, and B. P. Murphy, individually and as an officer of said corporation, and G. A. Hall, as an officer of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: April 1, 1960.

By the Commission.

Secretary.

[F.R. Doc. 60-4940; Filed, June 1, 1960; 8:47 a.m.]

[Docket 7681 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Fell-Bass, Inc., et al.

Subpart—Misbranding or mislabeling: § 13.1185 *Composition;* § 13.1185–90 *Wool Products Labeling Act.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 *Formal regulatory and statutory requirements;* § 13.1852–80 *Wool Products Labeling Act.*

(Sec. 6, 38 Stat. 722; 15 U.S.C. 46. Interpret or apply Sec. 5, 38 Stat. 719, as amended, Secs. 2–5, 54 Stat. 1128–1130; 15 U.S.C. 45, 68–68(c)) [Cease and desist order, Fell-Bass, Inc., et al., New York, N.Y., Docket 7681, April 1, 1960]

In the Matter of Fell-Bass, Inc., a Corporation, and Sam Fell, Theodore Fell and Kermit Bass, Individually and as Officers of Said Corporation

The complaint in this proceeding charged New York City manufacturers with violating the Wool Products Labeling Act by tagging as "100% Virgin Wool" ladies' skirts composed of fabrics containing substantially less than 100% wool, and by failing to label other wool products as required.

On the basis of a consent agreement, the hearing examiner made his initial decision and order to cease and desist which became on April 1 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents Fell-Bass, Inc., a corporation, and its officers, and Sam Fell, Theodore Fell, and Kermit Bass, individually and as officers of said corporation, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939, of "wool products", as such products are defined in and subject to the Wool Products Labeling Act of 1939, do forthwith cease and desist from misbranding such products by:

1. Falsely or deceptively stamping, tagging, labeling or otherwise identifying such products as to the character or amount of the constituent fibers contained or included therein;

2. Failing to affix labels to such products showing each element of information required to be disclosed by section 4(a)(2) of the Wool Products Labeling Act of 1939.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the above-named respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: April 1, 1960.

By the Commission.

PART 13—PROHIBITED TRADE PRACTICES

Marvin Accessories, Inc., et al.

Subpart—Importing, selling, or transporting flammable wear: § 13.1060 *Importing, selling, or transporting flammable wear.*

(Sec. 6, 38 Stat. 722; 15 U.S.C. 46. Interpret or apply Sec. 5, 38 Stat. 719, as amended, 67 Stat. 111; 15 U.S.C. 45, 1191) [Cease and desist order, Marvin Accessories, Inc., et al., New York, N.Y., Docket 6418, April 11, 1960]

In the Matter of Marvin Accessories, Inc., a Corporation, and Julius Ruderman and Fannie Ruderman, Individually and as Officers of Said Corporation

The complaint in this case charged New York City importers with selling in commerce silk scarves manufactured in Japan which were so highly flammable as to be dangerous when worn.

After trial of the issues, the hearing examiner made his initial decision, including findings, conclusions and order to ceast and desist, which became on April 11 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents Marvin Accessories, Inc., and its officers, and respondents Julius Ruderman and Fannie Ruderman, individually and as officers of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device do forthwith cease and desist from:

1. Importing into the United States; or

2. Selling, offering for sale, introducing, delivering for introduction, transporting or causing to be transported in commerce, as "commerce" is defined in the Flammable Fabrics Act; or

3. Transporting or causing to be transported, for the purpose of sale or delivery after sale in commerce,

any article of wearing apparel, which under the provisions of section 4 of said Flammable Fabrics Act, as amended is so highly flammable as to be dangerous when worn by individuals.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is further ordered, That the respondents, Marvin Accessories, Inc., a corporation, and Julius Ruderman and Fannie Ruderman, individually and as officers of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission

a report, in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist contained in the initial decision as modified.

Issued: April 11, 1960.

By the Commission.

PART 13—PROHIBITED TRADE PRACTICES

Toycraft Associates, Inc., et al.

Subpart—Furnishing means and instrumentalities of misrepresentation or deception: § 13.1055 *Furnishing means and instrumentalities of misrepresentation or deception;* § 13.1055-50 *Preticketing merchandise misleadingly.* Subpart—Misbranding or mislabeling: § 13.1200 *Price.* Subpart—Misrepresenting oneself and goods—Prices; § 13.1811 *Fictitious preticketing.*

(Sec. 6, 38 Stat. 722; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Toycraft Associates, Inc., et al., Brooklyn, N.Y., Docket 7668, April 1, 1960]

In the Matter of Toycraft Associates, Inc., a Corporation, and Harold Miller, Individually and as an Officer of Said Corporation, and Phil Miller, an Individual

This proceeding was heard by a hearing examiner on the complaint of the Commission charging manufacturers in Brooklyn, N.Y. with selling their stuffed toy animals with tickets attached, or supplied for use therewith, printed with fictitious and greatly exaggerated prices, thus represented falsely as the usual retail selling prices.

Based on a consent agreement, the hearing examiner made his initial decision and order to cease and desist which became on April 1 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That the respondents Toycraft Associates, Inc., a corporation, its officers and Harold Miller, individually and as an officer of the corporation, and Phil Miller, an individual, and respondents' agents, representatives and employees, directly or through any corporate or other device, in the connection with the offering for sale, sale, or distribution of stuffed toy animals or any other products in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from directly or indirectly:

1. Representing, by preticketing or in any other manner, that any amount is the usual and regular retail price of merchandise when such amount is in excess of the price at which said merchandise is usually and regularly sold at retail in the trade area or areas where the representations are made.

2. Furnishing any means or instrumentality to others by and through which they may mislead the public as to the usual and customary prices of respondents' merchandise.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: April 1, 1960.

By the Commission.

Title 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

SUBCHAPTER H—ECONOMIC ENTERPRISES

PART 88—COMMERCIAL INDIAN FISHING IN ALASKA

On page 3079 of the FEDERAL REGISTER of April 9, 1960, there was published a notice of intention to amend Subchapter H of 25 CFR by adding Part 88. The purpose of this amendment is to perpetuate certain fishing rights long recognized by Federal statutes, regulations, and custom and secured to the Alaska Eskimos, Indians and Aleuts by section 4 of the Alaska Statehood Act of July 7, 1958.

Interested persons were given an opportunity to submit their views, data, or arguments in writing on the proposed regulations to the Commissioner, Bureau of Indian Affairs, Washington 25, D.C. within 30 days from the date of publication of the notice in the FEDERAL REGISTER.

Several comments regarding the proposed regulations were received. They dealt mainly with the sections providing for the authorization of fishtrap operation by three native communities of Kake, Angoon and Metlakatla, and the declaration of an exclusive fishery at the Karluk reservation.

The written comments, suggestions and objections were thoroughly considered and discussed during the 30 day period.

In addition, in response to their request to be heard, an opportunity was extended to seven Alaska canners operating on Kodiak Island to orally present their view on the proposed regulations pertaining to the Karluk reservation. Further, this department sought the views of the native inhabitants of the Karluk reservation as to their plans and desires for the utilization of reservation waters for the 1960 fishing season.

At the request of the native inhabitants of the Karluk reservation, the waters of the Karluk reservation will continue to remain open to fishing by others during the 1960 season and beach seine gear as heretofore authorized will be covered in these regulations.

As a result of such consideration and discussion, the following changes have been made: The wording of § 88.2 has been revised to clarify the language pertaining to the locations and periods in which traps may be operated. The wording in § 88.2(a) as published would allow the operation of Indian traps at any time fishing was allowed by the State in the established fishing section in which the traps are located or at any time fishing was allowed in adjacent district. The newly proposed wording would key the trap fishing season in each section to the periods in which purse seine fishing is permitted by the State in the respective sections, with one exception. In the case of Metlakatla traps the fishing season would be keyed to the purse seine fishing season in the Southeast Section of Clarence Strait, and also to the seining season in the adjacent general section of the Southern District, since relatively little purse seining is conducted in the Southeast Section of Clarence Strait.

The headnote for § 88.5 published as Fishing restrictions, Karluk Indian Reservation, has been amended to read Commercial Fishing, Karluk Indian Reservation. The language of this section has also been revised, in accordance with comments received from the natives of

the Karluk reservation and others, to provide that the waters of the Karluk Indian reservation shall be open to native inhabitants of the village of Karluk and vicinity and to other persons insofar as the fishing activities of the latter do not restrict or interfere with fishing by such natives. Further, the newly worded section provides for the use of beach seines up to 250 fathoms in length by natives and, prior to July 1, for their fishing up to within 100 yards of the mouth of the Karluk River.

The changes suggested in § 88.7, Personal Use fishing by native Indians, are based on the information that the Alaska regulations concerning personal use fishing are substantially the same as those previously in existence under Federal regulation.

A new part entitled Commercial Indian Fishing in Alaska containing nine sections, designated § 88.1 to 88.9, to read as set forth below is added to Subchapter H.

Sec.
88.1 Scope.
88.2 Restrictions on Indian fish traps.
88.3 Size and operation of Indian salmon traps.
88.4 Definition Karluk Indian Reservation.
88.5 Commercial Fishing, Karluk Indian Reservation.
88.6 Commercial salmon fishing by native Indians in the Yukon and Kuskokwim Rivers.
88.7 Personal use fishing by native Indians.
88.8 Modification of regulations.
88.9 Enforcement.

AUTHORITY: §§ 88.1 to 88.9 issued under 25 U.S.C. 2 and 9, 5 U.S.C. 485, and section 4 of the Act of July 7, 1958, 72 Stat. 339 as amended.

§ 88.1 Scope.

The regulations in this part implement section 4 of the Act of July 7, 1958, 72 Stat. 339, as amended, by declaring existing fishing rights of Indians in Alaska and providing for the protection and control thereof. Provisions for those rights which derive from the Act of June 6, 1924, as amended, 48 U.S.C. 221 et seq., and the limitations and sanctions necessary to preserve such rights are included herein. The regulations in this part are permissive, but shall not be construed as a limitation upon any native rights not mentioned in this part.

§ 88.2 Restrictions on Indian traps.

(a) Subject to the limitations of paragraph (c) of this section, not more than twenty-one salmon fish traps may be, but are not required to be, utilized for the purpose of salmon trap fishing by Indian villages. Such fish trap operations, if the natives elect to engage in them, shall be conducted as heretofore only at sites hereinafter described, and within the fishing districts and fishing sections defined in the 1960 edition of the Regulations of the Alaska Board of Fish and Game for Commercial Fishing in Alaska.

(b) Angoon Community Association: Salmon trap fishing is permitted, but not required, at the following sites within the southern section of the western district when any salmon purse seine fishing is permitted by the State of Alaska in the southern section of the western district:

(1) Chicago Island at 57°36'16" north latitude, 134°51'34" west longitude.

(2) Admiralty Island at 57°22'28" north latitude, 134°34'18" west longitude.

(3) Killisnoo Island at 57°28'15" north latitude, 134°36'35" west longitude.

(4) Admiralty Island at 57°13'52" north latitude, 134°39'05" west longitude.

(c) Organized Village of Kake: Salmon trap fishing is permitted but not required, at the following sites within the General Section of the eastern district when any salmon purse seine fishing is permitted by the State of Alaska in the General Section of the eastern district:

(1) Stephens Passage at 57°21'20" north latitude, 133°27'02" west longitude.

(2) Frederick Sound at 57°11'27" north latitude, 133°34'02" west longitude.

(3) Frederick Sound at 57°10'52" north latitude, 133°32'44" west longitude.

(4) Admiralty Island at 57°18'40" north latitude, 133°57'21" west longitude.

(5) Admiralty Island at 57°10'29" north latitude, 134°12'53" west longitude.

(6) Herring Bay at 57°07'21" north latitude, 134°19'45" west longitude.

(7) Admiralty Island at 57°04'02" north latitude, 134°25'20" west longitude.

(8) Kupreanof Island at 57°01'23" north latitude, 134°02'50" west longitude.

(9) Kuiu Island at 56°55'52" north latitude, 134°16'08" west longitude.

(d) Metlakatla Indian Community (Annette Island Fishery Reserve): Salmon trap fishing is permitted, but not required, at the following sites within the southeast section of the Clarence Strait District from the opening date set by the State of Alaska for any salmon purse seine fishing in the General Section of the southern district to the closing date set by the State for any salmon purse seine fishing in the southeast section of the Clarence Strait District, or one week following the closing date set by the State for any salmon purse seine fishing in the General Section of the southern district, whichever date is later:

(1) Annette Island at 55°15'09" north latitude, 131°36'00" west longitude.

(2) Annette Island at 55°12'52" north latitude, 131°36'10" west longitude.

(3) Annette Island at 55°02'47" north latitude, 131°38'53" west longitude.

(4) Annette Island at 55°05'41" north latitude, 131°36'39" west longitude.

(5) Annette Island at 55°01'54" north latitude, 131°38'36" west longitude.

(6) Annette Island at 55°00'45" north latitude, 131°38'30" west longitude.

(7) Annette Island at 54°59'41" north latitude, 131°36'48" west longitude.

(8) Ham Island at 55°10'13" north latitude, 131°19'31" west longitude.

(e) During the 1960 fishing season and until the Secretary or his authorized representative determines otherwise, and if the villages elect to operate any fish traps, the villages may operate traps only at the following sites: Angoon: (1), (2), and (4); Kake: (3), (4), (8), and (9); Metlakatla: (2), (3), (4), and (6).

§ 88.3 Size and operation of Indian salmon traps.

(a) No trap shall extend more than 900 feet from shore to the outer face of the pot as measured at mean high tide when any part is in a greater depth of water than 100 feet.

(b) Poles shall be permanently secured to the webbing at each side of the mouth of the pot tunnel and shall extend from the tunnel floor to a height of at least 4 feet above the water. A draw line shall be reeved through the lower end of both poles and the top of one. During any period when commercial net fishing for salmon is prohibited by the State of Alaska in the water open to trap fishing as above described, the tunnel walls shall be overlapped as far as possible, the line pulled tight and both secured so as to close the trap to fishing. In addition 25 feet of the webbing of the heart on each side next to the pot shall be lifted or lowered in such manner as to permit the free passage of salmon and other fish.

§ 88.4 Definition, Karluk Indian reservation.

The Karluk Indian reservation includes all waters extending 3,000 feet from the shore at mean low tide on Kodiak Island beginning at the end of a point of land on the shore of Shelikof Strait about 1¼ miles east of Rocky Point and in approximate latitude 57°39'40" N., longitude 154°12'20" W.; thence south approximately 6 miles to latitude 57°32'30" N.; thence west approximately 12½ miles to the confluence of the north shore of Sturgeon River with the east shore of Shelikof Strait; thence northeasterly following the easterly shore of Shelikof Strait to the place of beginning, containing approximately 35,200 acres.

§ 88.5 Commercial fishing, Karluk Indian reservation.

(a) The waters of the Karluk Indian reservation shall be open to commercial fishing by bona fide native inhabitants of the native village of Karluk and vicinity, and to other persons insofar as the fishing activities of the latter do not restrict or interfere with fishing by such natives. Such natives shall not be required to obtain a license to engage in commercial fishing in the waters of the Karluk Indian reservation.

(b) Commercial fishing for salmon by native inhabitants of the native village of Karluk and vicinity in the waters of the Karluk Indian reservation shall be in accordance with the seasonal and gear restrictions of the 1960 edition of the Regulations of the Alaska Board of Fish and Game for Commercial Fishing in Alaska in the Karluk District except that: (1) Beach seines up to 250 fathoms in length may be used northeast of Cape Karluk; and (2) prior to July 1, fishing shall be permitted to within 100 yards of the Karluk River where it breaks

through the Kariuk Spit into Shelikof Strait.

§ 88.6 Commercial salmon fishing by native Indians in the Yukon and Kuskokwim Rivers.

Certain fishing rights in the Yukon and Kuskokwim Rivers granted by Federal law and running to the native Indians of Alaska are preserved in the Statehood Act. Since the 1960 edition of the Regulations of the Alaska Board of Fish and Game for Commercial Fishing in Alaska has embraced these rights, no additional provision therefor is made at this time in the regulations in this part.

§ 88.7 Personal use fishing by native Indians.

Subsistence or personal use fishing rights granted by Federal law to the Indians of Alaska, are preserved in the Statehood Act. The 1960 edition of the Regulations of the Alaska Board of Fish and Game for Commercial Fishing in Alaska has substantially provided for continuance of these rights and no additional provision therefor is made at this time in the regulations in this part.

§ 88.8 Modification of regulations.

The regulations in this part will be modified from time to time as the Secretary of the Interior may deem necessary. The native Indians and Indian villages of Alaska shall be governed by the regulations in this part in the waters where they apply or by the regulations of the State of Alaska, whichever are least restrictive to their fishing operations.

§ 88.9 Enforcement.

Fishing activities in violation of the regulations in this part will be subject to the sanctions imposed by the Act of June 6, 1924, as amended, 48 U.S.C. 226.

The proposed amendment to the regulations, as changed, is hereby adopted. As set forth herein, this amendment is effective upon publication in the FEDERAL REGISTER because the fishing season in Alaska opens within the next 30 days.

FRED A. SEATON,
Secretary of the Interior.

MAY 25, 1960.

Title 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

SUBCHAPTER B—CARRIERS BY MOTOR VEHICLES

[No. 32156]

PART 181—COMMON AND CONTRACT CARRIERS OF PASSENGERS

Miscellaneous Amendments

At a session of the Interstate Commerce Commission held at its office in Washington, D.C., on the 16th day of May 1960.

Having under consideration certain modifications of the accounting regulations for motor carriers of passengers, pursuant to the provisions of section 220 of the Interstate Commerce Act, as amended, and the notice of proposed rule making published in the FEDERAL REGISTER January 30, 1960 (25 F.R. 817), with all responses thereto given due consideration;

It is ordered, That the modifications of the regulations (49 CFR Part 181) which appear below and are made a part hereof shall become effective July 1, 1960; and,

It is further ordered, That this order be served on each Class I common and contract motor carrier of passengers subject to its provisions, and on every trustee, receiver, executor, administrator, or assignee of such motor carrier, and notice shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D.C., and by filing with the Director, Office of the Federal Register.

(Sec. 204, 49 Stat. 546, as amended; 49 U.S.C. 304. Interpret or apply Sec. 220, 49 Stat. 563, as amended; 49 U.S.C. 320)

By the Commission.

[SEAL] HAROLD D. McCOY,
Secretary.

1. Add the following new and additional section:

§ 181.02-31 Amortization of intangibles.

When it becomes reasonably evident that the term of existence of an intangible, the cost of which is included in account 1550, Other Intangible Property, has become limited or its value impaired, its cost shall be amortized by charges to account 7500, Other Deductions, over the remaining estimated period of usefulness, or the entire cost may be written off by charges to account 2946, Other Debits to Surplus, with concurrent credits to account 2600, Reserve for Amortization—Carrier Operating Property, unless otherwise authorized or directed by the Commission.

§ 181.1550 [Amendment]

In § 181.1550 *Other intangible property*, in paragraph (b) of the text of the account change the period at the end of the paragraph to a comma and add the following clause: "except as otherwise provided for in § 181.02-31."

[F.R. Doc. 60-4959; Filed, June 1, 1960; 8:50 a.m.]

[No. 32155]

PART 182—UNIFORM SYSTEM OF ACCOUNTS FOR CLASS I COMMON AND CONTRACT MOTOR CARRIERS OF PROPERTY

Miscellaneous Amendments

At a session of the Interstate Commerce Commission held at its office in Washington, D.C., on the 16th day of May 1960.

Having under consideration certain modifications of the accounting regulations for motor carriers of property, pursuant to the provisions of section 220 of the Interstate Commerce Act, as amended, and the notice of proposed rule making published in the FEDERAL REGISTER January 30, 1960 (25 F.R. 818), with all responses thereto given due consideration;

It is ordered, That the modifications of the regulations (49 CFR Part 182) which appear below and are made a part hereof shall become effective July 1, 1960; and,

It is further ordered, That this order be served on each Class I and Class II common and contract motor carrier of property subject to its provisions, and on every trustee, receiver, executor, administrator, or assignee of such motor carrier, and notice shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D.C., and by filing with the Director, Office of the Federal Register.

(Sec. 204, 49 Stat. 546, as amended; 49 U.S.C. 304. Interpret or apply sec. 220, 49 Stat. 563, as amended; 49 U.S.C. 320)

By the Commission.

[SEAL] HAROLD D. McCOY,
Secretary.

§ 182.01-23 [Amendment]

1. In § 182.01-23 *Depreciation and amortization*, in paragraph (d) in the latter part of the text following the comma after the words "account 1550, Other Intangible Property", and preceding the word "may" insert the following: "except those relating to the acquisition of a distinct operating unit for which specific provision is made in § 182.01-29."

2. Add the following new and additional section:

§ 182.01-29 Amortization of intangibles.

When it becomes reasonably evident that the term of existence of an intangible, the cost of which is included in account 1550, Other Intangible Property, has become limited or its value impaired, its cost shall be amortized by charges to account 7500, Other Deductions, over the remaining estimated period of usefulness, or the entire cost may be written off by charges to account 2948, Other Debits to Earned Surplus, with concurrent credits to account 2600, Reserve for Amortization—Carrier Operating Property, unless otherwise authorized or directed by the Commission.

§ 182.1550 [Amendment]

3. In § 182.1550 *Other intangible property*, in paragraph (b) of the text of the account change "§§ 182.01-21 and 182.01-23" to read "§§ 182.01-21, 182.01-23, and 182.01-29."

[F.R. Doc. 60-4960; Filed, June 1, 1960; 8:51 a.m.]

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Parts 27, 28]

COTTON

Grade; Wasty Staple

Notice is hereby given, in accordance with section 4 of the Administrative Procedure Act (5 U.S.C. 1003), that the Agricultural Marketing Service is considering amendments of the Regulations for Cotton Classification under Cotton Futures Legislation (7 CFR Part 27, Subpart A) and the Regulations under the United States Cotton Standards Act (7 CFR Part 28, Subpart A), pursuant to authority contained in sec. 4863 of the Internal Revenue Code of 1954 (68A Stat. 582; 26 U.S.C. 4863) and in sec. 10 of the United States Cotton Standards Act (42 Stat. 1519; 7 U.S.C. 61).

The primary purposes of the proposed amendments are to (1) delete from the cotton classing regulations the definition of cotton of immature staple and substitute therefor a definition of cotton of wasty staple, and (2) delete from the cotton classing regulations the present provisions that require determinations of the staple length to which reduced and staple length from which reduced for cotton that is irregular or defective in staple.

The proposed amendments are as follows:

1. Section 27.37 of the Regulations for Cotton Classification under Cotton Futures Legislation and § 28.39 of the Regulations under the United States Cotton Standards Act would both be amended to read as follows:

Cotton reduced in grade. If cotton be reduced in grade, by reason of the presence of extraneous matter or other irregularities or defects, below its grade according to the official cotton standards of the United States, the grade from which it is so reduced, the grade to which it is so reduced, and the condition or reason which so reduces its grade shall be determined and stated.

2. Paragraph (b) of § 27.38 of the Regulations for Cotton Classification under Cotton Futures Legislation and paragraph (b) of § 28.40 of the Regulations under the United States Cotton Standards Act would be deleted and the following new paragraph (b) substituted therefor in both of said sections:

(b) *Cotton of wasty staple.* Cotton that has a weak, irregular, or immature staple.

It is proposed that the amendments would become effective July 1, 1960.

Any interested person who wishes to submit written data, views, or arguments concerning the proposed amendments may do so by filing them with the Director, Cotton Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D.C., not later than 15 days after publication of this notice in the FEDERAL REGISTER.

Done at Washington, D.C., this 26th day of May 1960.

ROY W. LENNARTSON,
Deputy Administrator,
Agricultural Marketing Service.

[F.R. Doc. 60-4977; Filed, June 1, 1960; 8:51 a.m.]

[7 CFR Part 52]

CANNED SWEET CHERRIES

United States Standards for Grades;[1] Minimum Drained Weights

Notice is hereby given that the United States Department of Agriculture is considering an amendment to the United States Standards for Grades of Canned Sweet Cherries (7 CFR 52.821—52.836) pursuant to the authority contained in the Agricultural Marketing Act of 1946 (Secs. 202-208, 60 Stat. 1087, as amended; 7 U.S.C. 1621-1627). The amendment proposes to adjust the recommended minimum drained weights for cherries in No. 10 cans and in certain packing media set forth in Table I in § 52.828 (7 CFR 52.828).

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed amendment should file the same with the Chief, Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D.C., not later than 30 days after publication hereof in the FEDERAL REGISTER.

It is proposed to amend Table I in § 52.828 to read as follows:

TABLE I—RECOMMENDED MINIMUM DRAINED WEIGHTS FOR PITTED AND UNPITTED CANNED SWEET CHERRIES

Container size or designation (metal, unless otherwise stated)	In extra heavy sirups and in declared "dietetic packs" whether or not packed in water	In heavy sirups	In light sirup and in slightly sweetened water or juice	Other than declared "dietetic packs" packed in water
	(Ounces)	(Ounces)	(Ounces)	(Ounces)
8 Z tall	4¾	5	5¼	5⅛
No. 1 tall	9¾	10	10¼	10⅛
No. 303	9¾	10	10¼	10⅛
No. 303 glass	9¾	10	10¼	10⅛

No. 2½ glass	17¾	17¾	18¼	18¼
No. 10	64½	66½	70	70

[1] Compliance with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable state laws and regulations.

(Secs. 202-208, 60 Stat. 1087, as amended; 7 U.S.C. 1621-1627)

Dated: May 26, 1960.

F. R. BURKE,
Acting Deputy Administrator,
Marketing Services.

[F.R. Doc. 60-4952; Filed, June 1, 1960; 8:49 a.m.]

[7 CFR Part 52]

CONCENTRATED TOMATO JUICE

United States Standards for Grades[1]

Notice is hereby given that the United States Department of Agriculture is considering the issuance of the United States Standards for Grades of Concentrated Tomato Juice (7 CFR, 52.5201-52.5210) pursuant to the authority contained in the Agricultural Marketing Act of 1946 (Secs. 202-208, 60 Stat. 1087, as amended; 7 U.S.C. 1621-1627). These standards, if made effective, will be the first issue by the Department of grades standards for this product.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed standards should file the same with the Chief, Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington 25, D.C., not later than 30 days after publication hereof in the FEDERAL REGISTER.

The proposed standards are as follows:

PRODUCT DESCRIPTION AND GRADES

Sec.
52.5201 Product description.
52.5202 Grades of concentrated tomato juice.

FILL OF CONTAINER

52.5203 Recommended fill of container.

FACTORS OF QUALITY

52.5204 Ascertaining the grade of a sample unit.
52.5205 Color.
52.5206 Consistency.
52.5207 Defects.
52.5208 Flavor.

LOT INSPECTION AND CERTIFICATION

52.5209 Ascertaining the grade of a lot.

SCORE SHEET

52.5210 Score sheet for concentrated tomato juice.

AUTHORITY: §§ 52.5201 to 52.5210 issued under sec. 202-208, 60 Stat. 1087, as amended; 7 U.S.C. 1621-1627).

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable state laws and regulations.

PRODUCT DESCRIPTION AND GRADES

§ 52.5201 Product description.

"Concentrated tomato juice" means the product prepared from clean, sound tomatoes of the red or reddish varieties, as such product is defined in the Standard of Identity for Tomato Puree (21 CFR 53.20; 25 F.R. 1687) issued pursuant to the Federal Food, Drug, and Cosmetic Act. When packed in hermetically sealed containers it is sufficiently processed by heat, before or after sealing, to assure preservation of the product.

§ 52.5202 Grades of concentrated tomato juice.

(a) "U.S. Grade A" (or "U.S. Fancy") is the quality of concentrated tomato juice that, when properly reconstituted, (1) has a good color; (2) has a good consistency; (3) is practically free from defects; (4) has a good flavor; and (5) scores not less than 85 points when scored in accordance with the scoring system outlined in this subpart: *Provided*, That the reconstituted tomato juice may have only a fairly good color, scoring not less than 25 points and a fairly good consistency, if the total score is not less than 85 points.

(b) "U.S. Grade C" (or "U.S. Standard") is the quality of concentrated tomato juice that, when properly reconstituted, (1) has a fairly good color; (2) has a fairly good consistency; (3) is fairly free from defects; (4) has a fairly good flavor; and (5) scores not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(c) "Substandard" is the quality of concentrated tomato juice that fails to meet the requirements of U.S. Grade C.

FILL OF CONTAINER

§ 52.5203 Recommended fill of container.

Fill of container is not incorporated in the grades of the finished product, since fill of container, as such, is not a factor of quality for the purposes of these grades. It is recommended that each container of concentrated tomato juice be filled as full as practicable without impairment of quality, and that the product occupy not less than 90 percent of the capacity of the container.

FACTORS OF QUALITY

§ 52.5204 Ascertaining the grade of a sample unit.

In addition to considering other requirements outlined in the standards, the quality factors of color, consistency, defects, and flavor are evaluated by applying appropriate criteria to the reconstituted tomato juice prepared by thoroughly mixing the concentrated tomato juice with three volumes of water. The relative importance of each factor is expressed numerically on the scale of 100. The maximum number of points that may be given for each such factor is:

Factors:	Points
Color	30
Consistency	15
Defects	15
Flavor	40
Total score	100

§ 52.5205 Color.

(a) *General.* (1) The amount of red in the reconstituted tomato juice is determined by comparing the color of the product with that produced by spinning a combination of the following Munsell color discs:

Disc 1—Red (5R 2.6/13) (glossy finish).
Disc 2—Yellow (2.5 YR 5/12) (glossy finish).
Disc 3—Black (N1) (glossy finish).
Disc 4—Grey (N4) (mat finish).

(2) Such comparison is to be made under a diffused light source of approximately 250 foot-candle intensity and having a spectral quality approximating that of daylight under a moderately overcast sky, and a color temperature of 7500 degrees Kelvin ±200 degrees. With the light source directly over the disc and product, observation is made at an angle of 45 degrees from a distance of about 24 inches from the product.

(b) (*A*) *classification.* Concentrated tomato juice that, when reconstituted properly, has a good color may be given a score of 26 to 30 points. "Good color" means a color that is typical of canned tomato juice, made from well ripened red tomatoes, which has been properly prepared and properly processed.. Such color contains as much red as, or more red than, that produced by spinning the specified Munsell color discs in the following combinations: 65 percent of the area of Disc 1; 21 percent of the area of Disc 2; 14 percent of the area of Disc 3 or of Disc 4, or 7 percent of the area of Disc 3 and 7 percent of the area of Disc 4, whichever most nearly matches the reflectance of the product.

(c) (*C*) *classification.* If the reconstituted tomato juice has a fairly good color a score of 23 to 25 points may be given. Concentrated tomato juice that scores 23 or 24 points for color shall not be graded above U.S. Grade C, regardless of the total score for the product (this is a partial limiting rule). "Fairly good color" means a color that is typical of canned tomato juice. To score 25 points for color the reconstituted juice shall contain as much red as, or more red than, that produced by spinning the specified Munsell color discs in the following combinations: 59 percent of the area of Disc 1; 24½ percent of the area of Disc 2; 16½ percent of the area of either Disc 3 or Disc 4, or 8¼ percent of the area of Disc 3 and 8¼ percent of the area of Disc 4, whichever most nearly matches the reflectance of the product. To score 23 or 24 points for color the reconstituted tomato juice shall contain as much red as, or more red than, that produced by spinning the specified Munsell color discs in the following combinations: 53 percent of the area of Disc 1; 28 percent of the area of Disc 2; 19 percent of the area of either Disc 3 or Disc 4, or 9½ percent of the area of Disc 3 and 9½ percent of the area of Disc 4, whichever most nearly matches the reflectance of the product.

(d) (*SStd.*) *classification.* Concentrated tomato juice that fails to meet the requirements of paragraph (c) of this section may be given a score of 0 to 22 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.5206 Consistency.

(a) *General.* This factor has reference to the viscosity of the reconstituted juice. The tendency of the insoluble solids to separate, leaving practically clear liquid at the top is also to be noted in this connection.

(b) (*A*) *classification.* Concentrated tomato juice that, when properly reconstituted, has a good consistency may be given a score of 13 to 15 points. "Good consistency" means that the reconstituted tomato juice flows readily; has a normal amount of insoluble tomato solids in suspension; and that there is little tendency for such solids to settle out.

(c) (*C*) *classification.* If the concentrated tomato juice has a fairly good consistency a score of 10 to 12 points may be given. "Fairly good consistency" means that the reconstituted tomato juice flows readily; has a normal amount of insoluble tomato solids in suspension; and that there is not a marked tendency for such solids to settle out.

(d) (*SStd.*) *classification.* Concentrated tomato juice that fails to meet the requirements of paragraph (c) of this section may be given a score of 0 to 9 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.5207 Defects.

(a) *General.* The factor of defects refers to the degree of freedom from defects, such as dark specks or scale-like particles, seeds, particles of seed, tomato peel, core material or other similar substances.

(b) (*A*) *classification.* Concentrated tomato juice that is practically free from defects may be given a score of 13 to 15 points. "Practically free from defects" means that any defects present in the reconstituted juice do not more than slightly affect the appearance or drinking quality of the juice.

(c) (*C*) *classification.* If the concentrated tomato juice is fairly free from defects a score of 10 to 12 points may be given. Concentrated tomato juice that falls into this classification shall not be graded above U.S. Grade C, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means that any defects present in the reconstituted juice may be noticeable, but are not so large, so numerous or of such contrasting color as to seriously affect the appearance or drinking quality of the juice.

(d) (*SStd.*) *classification.* Concentrated tomato juice that fails to meet the requirements of paragraph (c) of this section may be given a score of 0 to 9 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.5208 Flavor.

(a) (*A*) *classification.* Concentrated tomato juice that possesses a good flavor may be given a score of 33 to 40 points. "Good flavor" means a distinct canned tomato juice flavor and odor characteristic of good quality tomatoes. To score in this classification the flavor of the reconstituted juice shall not be adversely affected by stems, leaves, crushed seeds, cores, immature tomatoes, or the effects of improper trimming or processing.

(b) (*C*) *classification.* If the reconstituted tomato juice possesses only a fairly good flavor a score of 27 to 32 points may be given. Concentrated tomato juice that falls into this classification shall not be graded above U.S. Grade C, regardless of the total score for the product (this is a limiting rule). "Fairly good flavor" means a characteristic canned tomato juice flavor. To score in this classification the flavor of the reconstituted juice may be affected adversely, but not seriously so, by stems, leaves, crushed seeds, cores, immature tomatoes, or the effects of improper trimming or processing.

(c) (*SStd.*) *classification.* Concentrated tomato juice that fails to meet the requirements of paragraph (b) of this section may be given a score of 0 to 26 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

LOT INSPECTION AND CERTIFICATION

§ 52.5209 Ascertaining the grade of a lot.

The grade of a lot of concentrated tomato juice covered by these standards is determined by the procedures set forth in the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables, Processed Products Thereof, and Certain Other Processed Food Products (§§ 52.1 to 52.87 of this title).

[7 CFR Part 943]

[Docket No. AO-281-A12]

MILK IN NORTH TEXAS MARKETING AREA

Decision on Proposed Amendments to Tentative Marketing Agreement and to Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Dallas, Texas, on October 28, 1959, pursuant to notice thereof issued on October 21, 1959 (24 F.R. 8653).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on March 25, 1960 (25 F.R. 2668) filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issues on the record of the hearing related to:

1. A revision, both of the Class I differential and of the supply-demand adjustment norms;
2. The definition of "supply plant";
3. A revision of the method of applying a charge to inventories which are allocated to Class I;
4. The exclusion of lactose from the computation of a handler's utilization;
5. The inclusion in the order of an "equivalent price" provision; and
6. Changing from a "market-wide" to an "individual-handler" pool.

Findings and conclusions. The following findings and conclusions on the material issues are based on the evidence presented at the hearing and the record thereof:

1. The Class I differential should be revised to provide a greater seasonality in the Class I price.

On an annual average, at the present time, the North Texas price is in a reasonable relationship with prices at those points in Missouri, Iowa, and Wisconsin where alternative supplies are available. Even though prices are comparable on an annual average, North Texas prices have been out of line with those in the Midwest during the months of heaviest production because the seasonal pricing pattern in North Texas has differed from that of other markets. The present order provides a Class I differential during March, April, May and June which is 20 cents less than that during other months; whereas in most Midwest markets, the differential is 40 cents lower in April, May and June than during other months.

In the past substantial quantities of other source milk have been imported by North Texas handlers during the April-June period, even though ample supplies of local producer milk were available, because the handler who purchased such other source milk was able to buy it delivered to Dallas at a price lower than the North Texas Class I price. Changing the seasonal pattern of the Class I differential without materially affecting its annual level will remove the incentive to bring in outside supplies when local production is adequate to meet the market requirements.

The Class I differential should be fixed at $1.85 per hundredweight during the months of March through June and at $2.25 for all other months. While this results in a reduction of approximately one and one-half cents per hundredweight in the annual average of the differential, the changes in the supply-demand adjustment which have been recommended below will offset this change. Thus at any given supply-demand relationship there will be no reduction in the actual Class I prices to producers on the annual average from that which would otherwise prevail.

The supply-demand adjustment norms in the order should be revised to reflect the change in the seasonal pattern of production that has taken place in Texas markets, and the range within which no adjustment takes place should be widened to prevent frequent erratic changes in the Class I price.

In the last 2 years production in the late summer and fall has been higher in relation to sales than that set forth in the supply-demand norms provided in the order. During the winter and early spring, however, production in relation to sales has been lower than that which prevailed during the period on which the norms are based. As a result, the effect of the supply-demand adjustor in the past 2 years has been to increase Class I prices at the beginning of the flush production season and to reduce them substantially during the fall months when production generally is lower and Class I sales are usually at their peak.

To mitigate its adverse effects on production during the past fall, an order was issued suspending a portion of the supply-demand adjustment of the Class I price. The substantial reduction in price, which otherwise would have occurred, threatened a serious curtailment of the production for the market and the possibility of a shortage of milk this winter.

The standard norms provided in the order should be revised seasonally to prevent unwarranted contraseasonal movements in price. The spread between the maximum and minimum percentages within which no adjustment takes place should also be widened to 6 percentage points to prevent frequent short time changes of only a cent or two in the level of the Class I price.

In the revised table of supply-demand norms, although there is a considerable degree of variation from month to month between the present and proposed standards, the minimum percentages set forth will average slightly higher, on a yearly basis, than those now in the order. The widening of the range within which the supply-demand percentages can fluctu-

ate without a change in price taking place, coupled with the proposed seasonal changes in the percentages, would have had the effect of reducing prices slightly below those which have prevailed during March, April, May and June, but would have prevented the very substantial reduction in price which has occurred in the fall months in the past two years.

Producers also proposed that a contra-seasonal limitation provision be incorporated in the supply-demand adjustor, applicable for the months of June through November, and that the present provision which limits the maximum operation of the adjustor to plus or minus 50 cents be reduced to plus or minus 25 cents.

The purpose of the supply-demand adjustor is to reflect in the Class I price, changes in the relationship of producer receipts to Class I sales. It is not intended to affect Class I prices seasonally during the year. To limit the operation of the supply-demand adjustor seasonally would tend to nullify its effectiveness. Similarly, reducing the maximum limits within which the supply-demand adjustor can operate would also serve to nullify its effectiveness.

It is concluded that in view of the supply-demand conditions prevailing in the marketing area and the revised supply-demand norms as provided for herein, the adjustor's proper functioning should not be impaired, either by limiting it seasonally or by reducing the total range within which it may operate.

2. The definition of the term, "supply plant", should be revised to delete the requirement that such a plant be under the routine inspection of the appropriate health authority.

Under the present requirements a plant which is approved to ship milk could dispose of its entire receipts in the North Texas marketing area every day in the year and still fail to qualify as a pool plant if the health authority failed to make its routine inspection. Whether an approved plant is pooled under the order should depend on its degree of association with the market and not on the regularity of inspection by the health authority which has issued the approval.

The performance standards now in the order are such that only a plant which has a definite association with the market participates in the market-wide pool. Adoption of the proposal will not change this situation and it will permit participation therein by other plants which may become an important source of supply but which may not be subject to regular periodic inspection by a local authority.

3. No change should be made in the present practice of applying a reclassification charge to inventories which are subsequently allocated to Class I.

The purpose of the charge on inventory which is reclassified as Class I the following month is to insure that all handlers pay at least the Class I price for milk which is disposed of for Class I use. A charge is made only if the handler had receipts of producer milk in excess of his Class I use or receipts of other source milk which were not classified and priced as Class I milk under another Federal order during the preceding month which are allocated to Class I use in the current month. To remove the reclassification charge on such milk would afford handlers an opportunity to gain a competitive advantage by building up inventories of producer milk at the Class II price or of unpriced other source milk and disposing of such milk for Class I use in certain months.

Proponent excepted to our failure to adopt his proposal. It appears from the exceptions that proponent is under a misconception as to the application of this provision.

The allocation provisions of the order are intended to insure that producer milk be allocated to Class I use before other source milk is so allocated. This applies to producer milk in the closing inventory for the preceding month as well as to receipts of producer milk during the current month. Since inventory on hand at the end of the month is classified as Class II, it is provided that if any of the inventory is allocated to Class I in the following month, a charge equal to the difference between the Class I and Class II prices is levied against the handler.

The order likewise provides that if any other source milk, regardless of whether it is a current receipt or from inventory, which has not been classified and priced as Class I milk under this or another Federal Order is allocated to Class I use, the handler shall pay the difference between the Class I price and the Class II price on the amount of milk (or its equivalent) allocated to Class I use.

The exceptant alleges that he is assessed a reclassification charge on milk which is priced as Class I under this or another order. The order provides specifically that the charge on inventory shall not be made on a volume of milk greater than the producer milk in inventory plus the other source milk which has not been classified and priced as Class I milk under this or another Federal Order.

The charge in this instance comes about because the handler purchases condensed skim milk from other regulated plants for fortification of Class I products. Such milk was classified and priced as Class II milk at the plant where it was manufactured. When it is allocated to Class I in the plant of the excepting handler, whether directly or through the inventory reclassification, he is assessed the difference between the Class I and Class II prices on the volume so allocated. It appears to be the contention of the exceptant that no charge should be made because the condensed skim milk came from a regulated plant regardless of the fact that producers received only the Class II price for such milk.

4. Following the issuance of the recommended decision, the proponent of issue No. 4 requested that the hearing be reopened with respect to this issue to afford opportunity to submit additional evidence which was not available at the time of the hearing. Pending a decision with respect to reopening the hearing on issue No. 4, this decision is confined to a consideration of the issues numbered 1, 2, 3, 5, and 6.

5. A section should be added to the order providing that, in the event one of the price quotations prescribed for use in making any of the computations in the order is not published or available, the market administrator shall use a price determined by the Secretary to be equivalent to that prescribed.

The pricing provisions of the order utilize a number of prices from various sources. It is possible that occasionally one of the specified prices may not be reported or published. To facilitate the functioning and administration of the order, it is necessary to provide that the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the unreported or unpublished price in the event of such an occurrence.

6. The present market-wide pool should be maintained.

The adoption of an individual-handler pool was proposed by one handler. For reasons undisclosed on the record, this handler purchases substantial quantities of other source milk for use in Class I even though receipts of locally produced milk are well in excess of the Class I requirements of the market. The few producers who supply milk to this handler might benefit temporarily from an individual-handler pool to the detriment of the remainder of the producers who supply the market. Adoption of an individual-handler pool would also tend to cause the disruption of the orderly marketing procedures. No producer appeared at the hearing in support of the proposal. Neither was it supported by any other handler in the market.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties in the market. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on exceptions. In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the North Texas Marketing Area", and "Order Amending the Order Regulating the Handling of Milk in the North Texas Marketing Area", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which will be published with this decision.

Determination of representative period. The month of March, 1960, is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the attached order amending the order regulating the handling of milk in the North Texas marketing area, is approved or favored by producers, as defined under the terms of the order as hereby proposed to be amended, and who, during such representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

Issued at Washington, D.C., this 27th day of May 1960.

CLARENCE L. MILLER,
Assistant Secretary.

Order[1] Amending the Order Regulating the Handling of Milk in the North Texas Marketing Area

§ 943.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the North Texas marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the North Texas marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, and the aforesaid order is hereby amended as follows:

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

§ 943.9 [Amendment]

1. Delete the phrase, "and under the routine inspection of", in the first sentence thereof.

§ 943.51 [Amendment]

2a. Amend the introductory paragraph of § 943.51(a) to read as follows:

(a) *Class I milk.* The basic formula price for the preceding month (rounded to the nearest one-tenth cent) plus $1.85 for the months of March through June, and plus $2.25 for all other months subject to a supply-demand adjustment of not more than 50 cents computed as follows:

b. Delete the table contained in § 943.51(a) (2) (iii) and substitute therefor the following:

Month for which price applies	Months used in computation	Standard utilization percentages	
		Minimum	Maximum
January	October–November	108	112
February	November–December	107	113
March	December–January	109	115
April	January–February	109	115
May	February–March	113	119
June	March–April	120	126
July	April–May	126	132
August	May–June	122	129
September	June–July	119	125
October	July–August	113	119
November	August–September	106	112
December	September–October	105	111

c. Reissue § 943.51(a)(3) (ii) and (iii) to read as follows:

(ii) One cent for the lesser of:

(*a*) Each such percentage point of net deviation, or

(*b*) Each percentage point of net deviation of like direction (plus or minus, with any net deviation of opposite direction considered to be zero for purposes of computations of this subparagraph) computed pursuant to subparagraph (2) of this paragraph for the month immediately preceding; plus

(iii) One cent for the least of:

(*a*) Each such percentage point of net deviation;

(*b*) Each percentage point of net deviation of like direction computed pursuant to subparagraph (2) of this paragraph for the month immediately preceding, or

(*c*) Each percentage point of net deviation of like direction computed pursuant to subparagraph (2) of this paragraph for the second preceding month;

3. Add as § 943.54 the following:

§ 943.54 Use of equivalent prices.

If for any reason a price quotation required by this order for computing class prices or for any other purpose is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

Notices

FEDERAL POWER COMMISSION

[Docket No. CP60–75 etc.]

HOPE NATURAL GAS CO. ET AL.

Notice of Applications and Date of Hearing

MAY 25, 1960.

Hope Natural Gas Company, Docket No. CP60–75; Texas Gas Transmission Corporation, Docket No. CP60–76; J. C. Trahan, Drilling Contractor, Inc., Operator, Docket No. CI60–394.

Take notice that the above Applicants have filed applications pursuant to section 7 of the Natural Gas Act, for certificates of public convenience and necessity authorizing the sale of natural gas and the construction and operation of facilities for receiving and transporting natural gas in interstate commerce as hereinafter described subject to the jurisdiction of the Commission, all as more fully represented in the respective applications which are on file with the Commission and open to public inspection.

Texas Gas Transmission Corporation (Texas Gas) filed an application, on March 29, 1960, as amended April 11, 1960, for a certificate of public convenience and necessity authorizing the construction and operation of approximately 17 miles of 10¾-inch O.D. pipeline extending from a point on the eastern terminus of its existing 20-inch pipeline near Thibodaux, Louisiana, to a proposed meter station in the Bayou Chevreuil Field, Lafourche, St. James and St. John the Baptist Parishes, Louisiana. The proposed facilities will enable Texas Gas to purchase and receive natural gas produced in said Bayou Chevreuil Field by Hope Natural Gas Company (Hope) and J. C. Trahan, Drilling Contractor, Inc. (Trahan), Operator. The estimated initial total cost of the proposed facilities is $965,200, which cost will be financed from cash on hand.

On March 29, 1960, Hope and Trahan filed separate applications in Docket Nos. CP60–75 and CI60–394, respectively, for certificates covering the above sales to be made pursuant to separate 20-year gas sales contracts. Hope's contract is dated March 3, 1960, and Trahan's contract is dated February 29, 1960. The respective contracts provide for an initial base rate of 20 cents per Mcf.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on June 30, 1960 at 9:30 a.m., e.d.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 15, 1960. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefore is made.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 60–4935; Filed, June 1, 1960; 8:46 a.m.]

[Docket No. CP60–73]

LONE STAR GAS CO.

Notice of Application and Date of Hearing

MAY 25, 1960.

Take notice that on March 28, 1960, as supplemented on April 22, 1960, Lone Star Gas Company (Applicant) filed in Docket No. CP60–73 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities for the purpose of serving natural gas directly on an interruptible basis to a prospective industrial customer, Dierks Forests, Inc., for use in its insulation board manufacturing plant now under construction near Broken Bow, McCurtain County, Oklahoma, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The facilities for which authorization is sought consist of approximately 6.2 miles of 6⅝-inch O.D. branch pipeline extending from a point on Applicant's existing pipeline E–26 south of Broken Bow in an easterly direction to the Dierks Forests, Inc., plant, together with appurtenant metering and regulating facilities.

Estimated natural gas requirements under this application, to be used in the plant cafeteria, for space heating, for boiler fuel and for processing purposes, are:

	1st Year	2d year	3d year
Mcf per year	144,000	288,000	345,600
Mcf peak day	720	———	3,200

The estimated cost of the proposed facilities is $98,000.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on June 23, 1960, at 9:30 a.m., e.d.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 13, 1960. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 60–4936; Filed, June 1, 1960; 8:46 a.m.]

[Docket Nos. RI60–353—359]

AMERADA PETROLEUM CORP. ET AL.

Order Providing for Hearings on and Suspension of Proposed Changes in Rates, and Allowing Increased Rates To Become Effective Subject to Refund [1]

MAY 25, 1960.

Amerada Petroleum Corporation, Docket No. RI60–353; Amerada Petroleum Corporation (Operator), et al., Docket No. RI60–354; David Crow (Trustee), et al., Docket No. RI60–355; L. E. Smith et al., Docket No. RI60–356; Cabot Carbon Company, Docket No. RI60–357; United Producing Company, Inc., Docket No. RI60–358; Texaco, Inc., Docket No. RI60–359.

[1] This order does not provide for the consolidation for hearing or disposition of the several matters covered herein, nor should it be so construed.

The above-named Respondents have tendered for filing proposed changes in presently effective rate schedules for sales of natural gas subject to the jurisdiction of the Commission. In each filing, the natural gas is sold at 14.65 psia, with exceptions of David Crow (Trustee), et al., and L. E. Smith, et al., which is sold at 15.025 psia. The proposed changes are designated as follows:

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Notice of change dated—	Date tendered	Effective date unless suspended	Date suspended until—	Cents per Mcf: Rate in effect	Cents per Mcf: Proposed increased rate	Rate in effect subject to refund in Docket Nos.

[1] The stated effective date is the effective date proposed by Amerada.
[2] Includes 0.4467 cents per Mcf for compression, for some leases, deducted by buyer.
[3] Includes 0.4467 cents per Mcf for compression deducted by buyer.
[4] The stated effective date is the first day after expiration of the required 30 days' notice.
[5] Louisiana severance tax increase.

In support of its proposed favored-nation rate increases, Amerada Petroleum Corporation (Amerada) states that the amendatory agreements were negotiated at arm's length and that as consideration for the price increases Amerada agreed to give up the favored-nation clauses of the contracts.

Cabot Carbon Company and United Producing Company, Inc., in support of their proposed periodic rate increases, state that their contracts were negotiated at arm's length; the proposed rates are an integral part of the initial rate filings; such pricing arrangements are common in long-term contracts in order to permit initial deliveries at a price lower than the contemplated average price for the life of the contracts; and that such arrangements are beneficial to the buyer, the seller, and the public.

In support of its proposed periodic rate increase, Texaco, Inc., states that the proposed increase is one of several price adjustments, all comprising one overall contract consideration or price to partially compensate seller for continuously increasing costs of development, operation and maintenance as shown by various statistical indices released by the Bureau of Labor Statistics; and that the proposed rate is below the price paid by Transwestern Pipeline Company and Michigan-Wisconsin Pipe Line Company for gas produced in the same general area.

David Crow (Trustee), et al., (Crow) and L. E. Smith, et al., (Smith) each proposes a periodic rate increase of 0.45 cent per Mcf, from 11.4 cents per Mcf to 11.85 cents per Mcf, for gas sales to Southern Natural Gas Company (Southern Natural) from leases in the Bear Creek Field, Bienville Parish, Louisiana. Such increased rates include a questionable 1.5 cents per Mcf reimbursement of the increased Louisiana severance tax effective December 1, 1958. The sellers and Southern Natural disagreed on the interpretation of the tax reimbursement provisions of the gas sales contract with Southern Natural protesting the original severance tax reimbursement filings. In view of the controversy over the proper interpretation of the tax reimbursement provision of the contracts, and in order to assure refund in the event Southern Natural's interpretation thereof is correct, it is deemed advisable to suspend the aforesaid proposed increased rates and charges for one day until May 27, 1960, with only the tax reimbursement portion of the increased rates to be made effective subject to refund; and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

The proposed changes may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of the several proposed changes and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

(2) It is necessary and proper in carrying out the provisions of the Natural Gas Act that Supplement No. 5 to Crow's FPC Gas Rate Schedule No. 2, and Supplement No. 3 to Smith's FPC Gas Rate Schedule No. 1 be allowed to take effect subject to refund of the tax reimbursement portion only of the increased rates upon the timely filing of their respective agreement and undertaking, as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure and the regulations under the Natural Gas Act (18 CFR Ch. I), public hearings shall be held upon dates to be fixed by notices from the Secretary concerning the lawfulness of the several proposed increased rates and charges contained in the above-designated supplements.

(B) Pending hearings and decisions thereon, each of the above-designated supplements is hereby suspended and the use thereof deferred until the date indicated in the above "Rate Suspended Until" column, and thereafter until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until these proceedings have been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Supplement No. 5 to Crow's FPC Gas Rate Schedule No. 2, and Supplement No. 3 to Smith's FPC Gas Rate Schedule No. 1, shall be effective as of May 27, 1960: *Provided, however,* That within 20 days from the date of the issuance of this order, Crow and Smith shall severally execute and file under Docket Nos. RI60–355 and RI60–356, respectively, with the Secretary of the Commission their agreement and undertaking to comply with the refunding and reporting procedure required by the Nat-

ural Gas Act and § 154.102 of the regulations thereunder (prescribed by Order No. 215 and Order No. 215A). The agreement and undertaking shall be signed by Respondent, or if Respondent is a corporation, signed by a responsible officer thereof accompanied by proper authorization from the Board of Directors and by a certificate showing service of copies upon all purchasers under the rate schedule involved. Unless Respondents (Crow and Smith) are advised to the contrary within 15 days after the filing of such agreement and undertaking, their agreement and undertakings shall be deemed to have been accepted.

(E) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before July 8, 1960.

By the Commission.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 60-4934; Filed, June 1, 1960; 8:46 a.m.]

[Docket No. RP60-12]

PERMIAN BASIN PIPELINE CO.

Order Providing for Hearing and Suspension of Proposed Revised Tariff Sheet

MAY 25, 1960.

On April 28, 1960, Permian Basin Pipeline Company (Permian Basin) tendered for filing First Revised Sheet No. 66 to its FPC Gas Tariff, Original Volume No. 2, proposing a contractual favored-nation type increase in rate from 21.0 cents to 22.25 cents per Mcf under its Rate Schedule X-5 which covers sales of gas to Pioneer Natural Gas Company (Pioneer) for resale for irrigation service. Rate Schedule X-5 is a special rate schedule comprising a contract dated February 13, 1959, for the sale by Permian Basin to Pioneer.

In support of its proposed increased rate, Permian Basin has submitted generally the information required by § 154.63(b)(3) of the regulations under the Natural Gas Act for minor increases such as is involved in this proceeding. The submissions include Permian Basin's claimed actual total cost of service of 6½ percent rate of return for the Calendar Year 1959. Permian Basin relies on the contract favored nation type pricing provision contained in Rate Schedule X-5 to make the instant filing.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a public hearing concerning the lawfulness of the rate, charge, classification, and service contained in the First Revised Sheet No. 66 to Permian Basin's FPC Gas Tariff, Original Volume No. 2 and that such proposed revised tariff sheet and the rate contained therein be suspended and the use thereof deferred hereinafter provided.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held on a date to be fixed by notice from the Secretary concerning the lawfulness of the rate, charge, classification and service contained in the First Revised Sheet No. 66 to Permian Basin's FPC Gas Tariff, Original Volume No. 2.

(B) Pending such hearing and decision thereon, the First Revised Sheet No. 66 to Permian Basin's FPC Gas Tariff, Original Volume No. 2 be and it is hereby suspended and the use thereof deferred until May 31, 1960, and until such further time as it may be made effective in the manner prescribed by the Natural Gas Act.

(C) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before July 15, 1960.

By the Commission (Commissioner Kline dissenting).

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 60-4937; Filed, June 1, 1960; 8:46 a.m.]

[Docket Nos. RI60-360—RI60-366]

SOUTHWESTERN EXPLORATION CONSULTANTS, INC., ET AL.

Order Providing for Hearing on and Suspension of Proposed Changes in Rates [1]

MAY 25, 1960.

Southwestern Exploration Consultants, Inc. (Operator), et al., Docket No. RI60-360; Humble Oil & Refining Company, Docket No. RI60-361; Jal Oil Company, Inc., Docket No. RI60-362; Ambassador Oil Corporation, Docket No. RI60-363; Nova Company et al., Docket No. RI60-364; Austral Oil Company, Inc., Agent for Oil Participations, Inc., Docket No. RI60-365; Virginia Ramsey et al., Docket No. RI60-366.

The above-named Respondents have tendered for filing proposed changes in presently effective rate schedules for sales of natural gas subject to the jurisdiction of the Commission. In each filing the natural gas is produced at 14.65 psia. The proposed changes are designated as follows:

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Notice of change dated—	Date tendered	Effective date [1] unless suspended	Date suspended until—	Cents per Mcf: Rate in effect	Cents per Mcf: Proposed increased rate	Rate in effect subject to refund in Docket Nos.
RI60-360	Southwestern Exploration Consultants, Inc. (Operator), et al.	1	2	Lone Star Gas Co. (Asphaltum Field, Stephens and Jefferson Counties, Okla.).	Undated	4-28-60	5-29-60	10-29-60	11.0	16.8	G-14419
RI60-361	Humble Oil & Refining Co.	200	3	Natural Gas Pipeline Co. of America (Camrick Southeast Field, Texas and Beaver Counties, Okla.).	4-26-60	4-27-60	5-28-60	10-28-60	[3] 16.6	16.8	G-18488
RI60-362	Jal Oil Co., Inc.	1	5	El Paso Natural Gas Co. (Levelland Field, Cochran County, Tex.) (R.R. Dist. No. 8).	4-25-60	[2] 4-28-60	5-29-60	10-29-60	10.5	[4] 15.5	----------
RI60-363	Ambassador Oil Corp.	6	2	Natural Gas Pipeline Co. of America (Camrick Southeast Field, Texas County, Okla.).	4-26-60	4-29-60	6-1-60	11-1-60	16.4	16.6	----------
RI60-364	Nova Co., et al.	1	5	Tennessee Gas Transmission Co. (Boyle, Kennard and South Rincon Fields, Starr County, Tex.) (R.R. Dist. No. 4).	Undated	4-29-60	6-1-60	11-1-60	15.0952	17.24347	G-19688
RI60-365	Austral Oil Co., Inc., Agent for Oil Participations, Inc.	4	7	Tennessee Gas Transmission Co. (Spartan Field, San Patricio County, Tex.) (R.R. Dist. No. 4).	4-29-60	[5] 5-6-60	6-6-60	[5] 11-6-60	[6] 15.0952	17.24347	G-19631

[1] The stated effective dates are those requested by respondents or the first day after expiration of the required thirty days' notice.
[2] This rate is also subject to order in Docket No. G-15176.
[3] Requests waiver of notice.
[4] Includes 0.4467 cents per Mcf for compression deducted by buyer.
[5] Includes 0.21931 cents per Mcf for dehydration of Spartan Field wells and 3.75 cents per Mcf for dehydration of Miller Lease well, both of which are deducted by buyer.

[1] This order does not provide for the consolidation for hearing or disposition of the several matters covered herein, nor should it be so construed.

In support of the proposed favored-nation increase, Southwestern Exploration Consultants, Inc. (Operator), et al., cite the contract provisions thereof and the triggering initial 16.8 cents per Mcf rate to Lone Star in the Knox Field. Southwestern also states that the favored-nation provisions resulted from arm's-length bargaining in good faith and were an important consideration to seller in providing protection against increases in costs.

In support of the proposed periodic rate increases, Humble Oil & Refining Company and Ambassador Oil Corporation cite the contract provisions and state that such provisions resulted from bargaining at arm's length and that the increased rates are not excessive. Humble also cites higher initial rates in the area, and states that denial of its increased rate would abrogate the contract, unjustly enrich buyer, and would be unjust and confiscatory. Humble also requests that, should the Commission suspend the increased rate, the period of suspension be limited to one day. Ambassador states that in view of increases in costs, the proposed increased rate is necessary to provide a fair rate of return.

Jal Oil Company, Inc., has proposed a renegotiated rate increase resulting from January 1, 1960, contract amendment entered into pursuant to El Paso's contract renegotiation program for purchases in the Permian Basin area. Such amendment deletes the favored-nation clause from the contract, provides for the proposed rate from January 1, 1960, until August 1, 1964, and 1.0 cent per Mcf periodic increases at 5-year intervals. In addition, the prices payable for the 5-year periods commencing with August 1, 1969, are subject to redetermination by mutual agreement or by arbitration. In support of the increase, Jal Oil submits copies of the renegotiated agreement and cites provisions thereof and states that such amendment resulted from arm's-length bargaining. In addition, Jal Oil states that the increased rate is not in excess of other prices in the area and is necessary to offset increasing costs and provide incentive for further exploration. Jal Oil requests waiver of notice to permit a retroactive effective date of January 1, 1960.

In support of the proposed favored-nation increases, Nova Company et al., Austral Oil Company, Inc., Agent for Oil Participations, Inc., and Virginia Ramsey et al., cite the contract favored-nation provisions, submit copies of Tennessee's letter establishing the increased rates, and state that the contracts resulted from arm's-length bargaining. Nova and Austral state additionally, that the increased price is just and reasonable and no greater than prices for other gas in the area. Virginia Ramsey et al., state that the increased price does not exceed the going prices for gas in the area. Austral further requests waiver of statutory notice.

The increased rates and charges so proposed may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of the several proposed changes and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), public hearings shall be held upon dates to be fixed by notices from the Secretary concerning the lawfulness of the several proposed increased rates and charges contained in the above-designated supplements.

(B) Pending hearings and decisions thereon, each of the above-designated supplements is hereby suspended and the use thereof deferred until the date indicated in the above "Rate Suspended Until" column, and thereafter until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended, nor the rate schedules sought to be altered thereby, shall be changed until these proceedings have been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before July 11, 1960.

By the Commission (Commissioner Kline dissenting).

JOSEPH H. GUTRIDE,
Secretary.

DEPARTMENT OF THE TREASURY

Office of the Secretary

[AA 643.3]

NEPHELINE SYENITE FROM CANADA

Determination of Sales at Less Than Fair Value

MAY 26, 1960.

A complaint was received that nepheline syenite from Canada was being sold to the United States at less than fair value within the meaning of the Antidumping Act of 1921.

I hereby determine that nepheline syenite from Canada is being, or is likely to be, sold in the United States at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)).

The United States Tariff Commission is being advised of this determination.

Statement of reasons. It was determined that the proper fair value comparison is between purchase price and home market price.

In the determination of purchase price, the included commission and brokerage fee were deducted from the f.o.b. plant price.

In the determination of home market price, advertising, traveling, selling, and general expenses attributable solely to the home market sales were deducted from the home market f.o.b. plant price.

The purchase price was found to be lower than the home market price.

Subsequently, the manufacturers involved revised their pricing with respect to both their home market sales and their United States sales.

The purchase price of nepheline syenite imported from Canada after the effective date of the price revisions was found not to be lower than the home market price.

This determination and the statement of reasons therefor are published pursuant to section 201(c) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(c)).

[SEAL] A. GILMORE FLUES,
Acting Secretary of the Treasury.

INTERSTATE COMMERCE COMMISSION

[Notice 325]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

MAY 27, 1960.

The following publications are governed by the Interstate Commerce Commission's general rules of practice including special rules (49 CFR 1.241) governing notice of filing of applications by motor carriers of property or passengers or brokers under sections 206, 209 and 211 of the Interstate Commerce Act and certain other proceedings with respect thereto.

All hearings will be called at 9:30 o'clock a.m., United States standard time (or 9:30 o'clock a.m., local daylight saving time), unless otherwise specified.

APPLICATIONS ASSIGNED FOR ORAL HEARING OR PRE-HEARING CONFERENCE

MOTOR CARRIERS OF PROPERTY

No. MC 873 (Sub No. 36), filed April 8, 1960. Applicant: SOONER FREIGHT LINES, a Corporation, 3000 West Reno, P.O. Box 2486, Exchange Branch, Oklahoma City, Okla. Applicant's attorney: Sidney P. Upsher, 3000 West Reno, Oklahoma City, Okla. Authority sought to operate as a *common carrier*, by motor vehicle, over regular and irregular routes, transporting: *Government owned compressed gas trailers, loaded with compressed gas* (other than liquefied petroleum gas or empty), between the points and in the territory, over applicant's authorized routes, in Oklahoma, Kansas, Colorado and Texas, as described in Certificate No. MC 873 and Sub Numbers thereunder.

NOTE: Common control may be involved.

HEARING: July 21, 1960, at the Federal Building, Oklahoma City, Okla., before Examiner Alton R. Smith.

No. MC 1150 (Sub No. 23), (amendment), filed May 9, 1960, published FEDERAL REGISTER issue of May 25, 1960. Applicant: J. B. HEEREN, doing business as HEEREN TRUCKING COMPANY, Lemmon, S. Dak. Applicant's attorneys: Franklin J. Van Osdel *and* Alan Foss, First National Bank Building, Fargo, N. Dak. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum* and *petroleum products*, in bulk, in tank vehicles, between points in Iowa, Nebraska, Minnesota, North Dakota, and South Dakota.

HEARING: Remains as assigned, June 20, 1960, in Room 401, Old Federal Office Building, Fifth and Court Avenues, Des Moines, Iowa, before Examiner Maurice S. Bush.

No. MC 1150 (Sub-No. 24), filed May 12, 1960. Applicant: J. B. Heeren, doing business as HERREN TRUCKING COMPANY, Lemmon, S. Dak. Applicant's attorney: Alan Foss, First National Bank Building, Fargo, N. Dak. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum* and *petroleum products*, in bulk, in tank vehicles, from the Oil Basin Pipeline Terminal at or near Minot, N. Dak., and points within two (2) miles thereof, to points in North Dakota, South Dakota, Montana, and Minnesota.

HEARING: July 20, 1960, at the North Dakota Public Service Commission, Bismarck, N. Dakota, before Examiner Lyle C. Farmer.

No. MC 2202 (Sub No. 188), filed May 19, 1960. Applicant: ROADWAY EXPRESS, INC., 147 Park Street, Akron, Ohio. Applicant's attorney: William O. Turney, 2001 Massachusetts Avenue, NW., Washington 6, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk and those requiring special equipment, serving the new plant site of General Electric Company, located approximately two (2) miles southwest of Mount Vernon, Ind., as an off-route point in connection with applicant's authorized regular route operations over U.S. Highway 41 to and from Evansville, Ind.

HEARING: June 16, 1960, at the U.S. Court Rooms, Indianapolis, Ind., before Joint Board No. 72, or, if the Joint Board waives its right to participate before Examiner Charles J. Murphy.

No. MC 2428 (Sub No. 14), filed May 6, 1960. Applicant: HAROLD PRANG, doing business as PRANG TRUCKING, 112 New Brunswick Avenue, Hopelawn (Perth Amboy), N.J. Applicant's representative: Bert Collins, 140 Cedar Street, New York 6, N.Y. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Silver alloy bars* and *coins*, from West Point, N.Y., to Carteret, N.J..

NOTE: Applicant holds common carrier authority in Certificate No. MC 113100. Dual operations under section 210 may be involved.

HEARING: July 12, 1960, at 346 Broadway, New York, N.Y., before Examiner Abraham J. Essrick.

No. MC 7640 (Sub No. 17) (Correction), filed April 18, 1960, published in the FEDERAL REGISTER, issue of May 25, 1960. Applicant: BARNES TRUCK LINE, INC., Herring Avenue, Wilson, N.C. Applicant's attorney: James E. Wilson, 1111 E Street NW., Perpetual Building, Washington, D.C.

NOTE: Previous publication inadvertently omitted applicant's attorney.

HEARING: Remains as assigned, July 25, 1960, at the Charlotte Hotel, Charlotte, N.C., before Examiner Hugh M. Nicholson.

No. MC 7746 (Sub No. 101), filed April 6, 1960. Applicant: UNITED TRUCK LINES, INC., East 915 Springfield Avenue, Spokane 2, Wash. Applicant's attorney: George LaBissoniere, 654 Central Building, Seattle 4, Wash. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, (1) between Spokane, Wash., and port of entry on the International Boundary line between the United States and Canada at or near Laurier, Wash., over U.S. Highway 395, serving no intermediate points, as an alternate route for operating convenience only in connection with applicant's authorized regular route operations; (2) between Spokane, Wash., and port of entry on the International Boundary line between the United States and Canada at or near Boundary, Wash., from Spokane over U.S. Highway 395 to Kettle Falls, Wash., thence over Washington Highway 22 to junction Washington Highway 22A, thence over Washington Highway 22A to port of entry on the International Boundary line between the United States and Canada at or near Boundary, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only in connection with applicant's authorized regular route operations; (3) between Spokane, Wash., and port of entry on the International Boundary line between the United States and Canada at or near Danville and Ferry, Wash., (a) From Spokane over U.S. Highway 2 to Wilbur, Wash., thence over Washington Highway 4 to junction Washington Highway 4A, at Republic, Wash., thence over Washington Highway 4A to port of entry on the International Boundary line between the United States and Canada at or near Danville, and (b) from Curlew, Wash., over unnumbered highway to port of entry on the International Boundary line between the United States and Canada at or near Ferry, and return over these two routes immediately above, serving no intermediate points, as alternate routes for operating convenience only in connection with applicant's authorized regular route operations; (4) between Spokane, Wash., and port of entry on the International Boundary line between the United States and Canada at or near Oroville, Wash., from Spokane over U.S. Highway 2 to Wenatchee, Wash., thence over U.S. Highway 97 to port of entry on the International Boundary line between the United States and Canada at or near Oroville, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only in connection with applicant's authorized regular route operations; and (5) between Spokane, Wash., and port of entry on the International Boundary line between the United States and Canada at approximately twelve (12) miles north of Metaline Falls, Wash., on Washington Highway 6, from Spokane over combined U.S. Highways 2 and 195 to Newport, Wash., thence over Washington Highway 6 to port of entry on the International Boundary line between the United States and Canada at approximately twelve (12) miles north of Metaline Falls, (also from junction Washington Highway 6B and combined U.S. Highways 2 and 195, approximately 33 miles north of Spokane, over Washington Highway 6B to junction Washington Highway 6 near Usk, Wash.), and return over the same route, serving no intermediate points, as an alternate route for operating convenience only in connection with applicant's authorized regular route operations.

NOTE: Applicant states that the above will be restricted to International Traffic.

HEARING: July 20, 1960, at the Davenport Hotel, Spokane, Wash., before Joint Board No. 237, or, if the Joint Board waives its right to participate, before Examiner Harold P. Boss.

No. MC 13784 (Sub No. 4) filed May 17, 1960. Applicant: SNELL TRUCK LINE, INC., P.O. Box 525, Pierceton, Ind. Applicant's attorney: Ferdinand Born, 1017-19 Chamber of Commerce Building, Indianapolis 4, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, livestock, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment and those injurious or contaminating to other lading, serving the plant site of the B. F. Goodrich Tire Company, located in Milan Township, Allen County, Ind., approximately 11 to 13 airline miles from the City limits of Fort Wayne, Ind., on U.S. Highway 24 between County Roads Webster and Garver, as an off-route point in connection with applicant's authorized regular route operations to and from Fort Wayne, Ind.

HEARING: June 13, 1960, at the U.S. Court Rooms, Indianapolis, Ind., before Joint Board No. 72, or, if the Joint Board waives its right to participate before Examiner Charles J. Murphy.

No. MC 23625 (Sub No. 4), filed April 21, 1960. Applicant: EASTERN TRANSPORTATION COMPANY, INC., 132d Street and Cypress Avenue, New York 54, N.Y. Applicant's attorney: William D. Traub, 10 East 40th Street, New York 16, N.Y. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Refrigerators, ranges, automatic washers, dryers, dishwashers, waste disposal units, water heaters, freezers, air conditioners, ovens*, and *surface units*, from Newark, N.J., to New York, N.Y., points in Westchester, Orange, Putnam, Dutchess, Nassau, Suffolk, Rockland, Sullivan, and Ulster Counties, N.Y., and Fairfield County, Conn., and *refused, rejected, damaged and returned shipments* of the commodities specified in this application on return. Applicant states the proposed transportation is restricted to a service under contract with Hotpoint division of General Electric Company, Newark, N.J.

NOTE: Section 210, dual operations, may be involved.

HEARING: July 7, 1960, at 346 Broadway, New York, N.Y., before Examiner Abraham J. Essrick.

No. MC 28132 (Sub No. 56) (Amendment), filed April 28, 1960, published in the FEDERAL REGISTER issue of May 11, 1960. Applicant: HVIDSTEN TRANSPORT, INC., 2821 Main Avenue, Fargo, N. Dak. Applicant's attorney: Alan Foss, First National Bank Building, Fargo, N. Dak. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, in bulk, in tank vehicles, between points in Illinois, Iowa, Kahsas, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, Wisconsin, and the Upper Peninsula of Michigan.

HEARING: Remains as assigned, June 20, 1960, in Room 401 Old Federal Office Building, Fifth and Court Avenues, Des Moines, Iowa, before Examiner Maurice S. Bush.

No. MC 28264 (Sub No. 5) filed May 5, 1960. Applicant: 3 Y MOTOR FREIGHT, INC., E 2110 Broadway Avenue, Spokane, Wash. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, (1) from Ephrata, Wash., to Stratford, Wash.: from Ephrata over Washington Highway 7 to Stratford, and (2) between Spokane, Wash., and Stratford, Wash.: from Spokane over U.S. Highway 2 to Davenport, Wash., and thence over Washington Highway 7 to Stratford, and return over the same route, serving the intermediate points of Lamona, Odessa, Marlin, and Wilson Creek, Wash.

NOTE: Applicant states, in connection with route (1) above it will carry general commodities interchanged from other common carriers at Ephrata destined to Stratford, Wilson Creek, Marlin, Odessa, and Lamona.

HEARING: July 21, 1960, at the Davenport Hotel, Spokane, Wash., before Joint Board No. 80, or, if the Joint Board waives its right to participate, before Examiner Harold P. Boss.

No. MC 29566 (Sub No. 65), filed April 22, 1960. Applicant: SOUTHWEST FREIGHT LINES, INC., 1400 Kansas Avenue, Kansas City 5, Kans. Applicant's attorney: Thomas N. Dowd, Ring Building, Washington 6, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Gypsum, gypsum products, building materials, roofing and insulating materials*, and *materials* and *supplies* used in the installation of such commodities (except liquid commodities, in bulk, in tank vehicles), between the plant site of Bestwall Gypsum Company, near Blue Rapids, Kans., on the one hand, and, on the other, points in Colorado, Iowa, Missouri, Nebraska, and Oklahoma.

HEARING: July 18, 1960, at the New Hotel Pickwick, Kansas City, Mo., before Examiner Gerald F. Colfer.

No. MC 29821 (Sub No. 3), filed April 25, 1960. Applicant: NEWBERG AUTO FREIGHT, INC., 111 South Meridian Street, Newberg, Oreg. Applicant's attorneys: Earle V. White and Wm. G. Southwell, Fifth Avenue Building, 2130 Southwest Fifth Avenue, Portland 1, Oreg. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Cans*, from Vancouver, Wash. to Newberg, Springbrook and Dundee, Oreg., and *empty pallets, carriers or containers* from above destination points to Vancouver, Wash. on return. (2) *Canned goods*, between Newberg, Springbrook and Dundee, Oreg., on the one hand, and, on the other, Vancouver, Wash.

HEARING: July 25, 1960, at the Interstate Commerce Commission Hearing Room, 410 Southwest 10th Avenue, Portland, Oreg., before Joint Board No. 45, or, if the Joint Board waives its right to participate, before Examiner Harold P. Boss.

No. MC 30311 (Sub No. 15), filed May 25, 1960. Applicant: FREIGHT, INC., 1350 Kelly Avenue, Akron 6, Ohio. Applicant's representative: W. R. Hubbard, 1032 Standard Building, Cleveland 13, Ohio. Authority sought to operate as a *common carrier*, by motor vehicle transporting: *General commodities*, except those of unusual value, livestock, Classes A and B explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, serving the site of the B. F. Goodrich Company located in Milan Township, Allen County, Ind., approximately 11 to 13 miles from the city limits of Fort Wayne, Ind., on U.S. Highway 24 between County Roads Webster and Garver, as an off-route point in connection with applicant's authorized regular route operations to and from Fort Wayne, Ind., on U.S. Highway 30 between Delphos, Ohio, and Joliet, Ill.

HEARING: June 13, 1960, at the U.S. Court Rooms, Indianapolis, Ind., before Joint Board No. 72, or, if the Joint Board waives its right to participate, before Examiner Charles J. Murphy.

No. MC 42329 (Sub No. 144), (CORRECTION), filed May 12, 1960, published in the FEDERAL REGISTER, issue of May 25, 1960. Applicant: HAYES FREIGHT LINES, INC., P.O. Box 213, Winston-Salem, N.C. Applicant's attorney: James W. Lawson, Commonwealth Building, 1625 K Street NW., Washington 6, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the plant site of the B. F. Goodrich Tire Company, located approximately seven (7) miles east of Fort Wayne, Ind., as

an off-route point in connection with applicant's authorized regular-route operations to and from Fort Wayne, Ind.

NOTE: The hearing information contained herein is correct. Previous publication was in error in this regard.

HEARING: June 13, 1960, at the U.S. Court Rooms, Indianapolis, Ind., before Joint Board No. 72, or, if the Joint Board waives its right to participate, before Examiner Charles J. Murphy.

No. MC 42329 (Sub No. 145) (Correction), filed May 12, 1960, published in the FEDERAL REGISTER, issue of May 25, 1960. Applicant: HAYES FREIGHT LINES, INC., P.O. Box 213, Winston-Salem, N.C. Applicant's attorney: James W. Lawson, 1625 K Street NW., Washington 6, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General Commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment, serving the plant site of the Kelsey-Hayes Company located at the intersection of North Line Road and Huron River Drive, Romulus Township, Wayne County, Mich., as an off-route point in connection with applicant's authorized regular route operations to and from Detroit, Mich.

NOTE: The hearing information contained herein is correct. Previous publication was in error in this regard.

HEARING: June 20, 1960, at the Olds Hotel, Lansing, Mich., before Joint Board No. 76, or, if the Joint Board waives its right to participate, before Examiner Charles J. Murphy.

No. MC 42405 (Sub No. 13), filed May 2, 1960. Applicant: MISTLETOE EXPRESS SERVICE, 111 Harrison, Oklahoma City, Okla. Applicant's attorney: Max G. Morgan, 443–54 American National Building, Oklahoma City 2, Okla. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except Classes A and B explosives, moving in express service, between Westville, Okla., and Miami, Okla.: from Westville over U.S. Highway 62 to Rogers, Ark., thence over U.S. Highway 71 to Joplin, Mo., and thence over U.S. Highways 66 and 166 to Miami, Okla., and return over the same routes. Between Westville, Okla., and Gravette, Ark.: from Westville over U.S. Highway 59 to Siloam Springs, Ark., and thence over Arkansas Highway 59 to Junction U.S. Highway 71 near Gravette, Ark., and return over the same routes. Between Siloam Springs, Ark., and Springdale, Ark.: from Siloam Springs, over Arkansas Highway 68 and U.S. Highway 71 to Springdale, Ark., and return over the same routes. Between Afton, Okla., and Neosho, Mo.: from Afton over U.S. Highway 60 to Neosho, Mo., and return over the same routes. Between Seneca, Mo., and Joplin, Mo.: from Seneca over Missouri Highway 43 to Joplin, and return over the same routes. Between Joplin, Mo., and Tulsa, Okla.: from Joplin over Will Rogers Turnpike (Interstate 44) and/or Alternate U.S. Highway 166, and return over the same routes, serving all intermediate points on the above described routes. Alternate: Between Miami, Okla., and Junction Oklahoma Highway 10 C with Missouri Highway 43 near Seneca, Mo.: from Miami over Oklahoma Highway 10 C to Junction Missouri Highway 43, and return over the same routes.

NOTE: Applicant states that under MC 42405 it holds authority to serve between Tulsa and Miami, Okla., over U.S. Highway 66 that could be served from the Will Rogers Turnpike. Applicant specifically requests the right to tack at any common point with its existing authorities.

HEARING: July 12, 1960, at the Mayo Hotel, Tulsa, Okla., before Examiner Alton R. Smith.

No. MC 46267 (Sub No. 4), filed May 13, 1960. Applicant: RALPH A. SCOTT, doing business as SCOTT FREIGHT SERVICE, 4740 Industrial Road, Fort Wayne, Ind. Applicant's attorney: Ferdinand Born, 1017–19 Chamber of Commerce Building, Indianapolis 4, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, serving the site of the B. F. Goodrich Tire Company plant, located in Milan Township, Allen County, Ind., approximately eleven (11) to thirteen (13) air line miles from the city limits of Fort Wayne, Ind., between County Roads Webster and Garver on U.S. Highway 24.

HEARING: June 13, 1960, at the U.S. Court Rooms, Indianapolis, Ind., before Joint Board No. 72, or, if the Joint Board waives its right to participate before Examiner Charles J. Murphy.

No. MC 52652 (Sub No. 3) (Amendment), filed March 14, 1960, published in the FEDERAL REGISTER, issue of April 13, 1960. Applicant: LAWRENCE MOTOR LINES, INC., 21 South Mill Street, Haverhill, Mass. Applicant's attorney: Stanley J. Polak, 111 State Street, Boston 9, Mass. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Pulpboard, pulpboard products*, and *equipment, materials*, and *supplies* used in the manufacture of pulpboard, except commodities in bulk, in tank or hopper vehicles, between Hampton, N.H., on the one hand, and, on the other, New York, N.Y., and points in New York and New Jersey within 30 miles of New York and points in New Hampshire, Maine, Massachusetts, Rhode Island and Connecticut. Applicant states the proposed operations will be under a continuing contract with J. D. Cahill Co., Haverhill, Mass.

NOTE: The purpose of this republication is to reflect the amendment to restrict the application against the transportation of commodities in bulk, in tank or hopper vehicles.

HEARING: Remains as assigned, June 21, 1960, at the New Post Office and Court House Building, Boston, Mass., before Examiner Isadore Freidson.

No. MC 52869 (Sub No. 58) (Amendment), filed March 3, 1960, published in the FEDERAL REGISTER, issue of May 11, 1960. Applicant: NORTHERN TANK LINE (Corporation), 8 South Seventh Street, Miles City, Mont. Applicant's attorney: Robert W. Burchmore, 2106 Field Building, Chicago 3, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum* products, in bulk, in tank vehicles, from points in Ward County, N. Dak., to points in South Dakota and Minnesota and *contaminated or refused products* on return.

HEARING: Remains as assigned, July 20, 1960, at the North Dakota Public Service Commission, Bismarck, N. Dak., before Joint Board No. 143, or, if the Joint Board waives its right to participate, before Examiner Lyle C. Farmer.

No. MC 55896 (Sub No. 9), filed May 18, 1960. Applicant: RAY WILLIAMS FREIGHT LINES, INC., 1757 Southfield Road, Lincoln Park, Mich. Applicant's attorney: Carl L. Steiner, 39 South La Salle Street, Chicago 3, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, and Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, serving the site of the B. F. Goodrich Tire Co., plant located in Milan Township, Allen County, Ind. (approx. (12) miles from Fort Wayne, Ind.), on U.S. Highway 24, between County Roads Webster and Garver, as an off-route point in connection with applicant's presently authorized certificated authority.

HEARING: June 13, 1960, at the U.S. Court Rooms, Indianapolis, Ind., before Joint Board No. 72, or, if the Joint Board waives its right to participate before Examiner Charles J. Murphy.

No. MC 59014 (Sub No. 21) (Correction), filed April 18, 1960, published in the FEDERAL REGISTER, issue of May 25, 1960. Applicant: TALLANT TRANSFER COMPANY, INC., 1341 Second Avenue SW., Hickory, N.C. Applicant's attorney: James E. Wilson, 1111 E Street, NW., Perpetual Building, Washington, D.C.

NOTE: Previous publication inadvertently omitted applicant's attorney.

HEARING: Remains as assigned, July 25, 1960, at the Charlotte Hotel, Charlotte, N.C., before Examiner Hugh M. Nicholson.

No. MC 59185 (Sub No. 24), filed May 23, 1960. Applicant: HIGHWAY EXPRESS, INC., 2416 West Superior Avenue, Cleveland, Ohio. Applicant's representative: J. C. Schriner, 3350 Superior Avenue, Cleveland 14, Ohio. Authority sought to operate as a *common carrier*, by motor vehicle, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Cleveland, Ohio, and Romulus Township, Wayne County, Mich., as follows: To serve the plant site of the Kelsey-Hayes Co., located at North Line Road and Huron River Drive, Romulus Township, Wayne County, Mich., as an off-route point in connection with applicant's regular route operations to and from Detroit, Mich., under Certificate No. MC 59185.

HEARING: June 20, 1960, at the Olds Hotel, Lansing, Mich., before Joint Board No. 76, or, if the Joint Board waives its right to participate, before Examiner Charles J. Murphy.

No. MC 64932 (Sub No. 273) (Amendment), filed May 11, 1960, published in the FEDERAL REGISTER issue of May 25, 1960. Applicant: ROGERS CARTAGE CO., a Corporation, 1934 South Wentworth Avenue, Chicago, Ill. Applicant's attorney: David Axelrod, 39 South La Salle Street, Chicago 3, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, in bulk, in tank vehicles, between points in Illinois, Iowa, Missouri, Kansas, Nebraska, Minnesota, North Dakota, South Dakota, Upper Peninsula of Michigan, and Wisconsin.

Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, in bulk, in tank vehicles, between points in Illinois, Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, Upper Peninsula of Michigan, and Wisconsin, and *empty containers or other such incidental facilities* (not specified), used in transporting the commodities specified in this application on return.

NOTE: Applicant states all duplicating authority will be eliminated.

HEARING: Remains as assigned, June 20, 1960, in Room 401, Old Federal Office Building, Fifth and Court Avenues, Des Moines, Iowa, before Examiner Maurice S. Bush.

No. MC 112822 (Sub No. 21), filed March 21, 1960. Applicant: EARL BRAY, INC., P.O. Box 910 Linwood and North Streets, Cushing, Okla. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquefied petroleum gases*, in bulk, in tank vehicles, (1) from terminals located on and within three (3) miles of the Mid-America Pipeline Company Pipeline in Missouri, to points in Iowa, Nebraska, Illinois, and that part of Kansas on and east of U.S. Highway 81 and on and north of a line beginning at McPherson, Kans. and extending along U.S. Highway 56 (formerly U.S. Highway 50N) to junction U.S. Highway 59, thence along U.S. Highway 59 to Lawrence, Kans., and thence along U.S. Highway 40 to the Kansas-Missouri State line; (2) from terminals located on and within three (3) miles of the Mid-America Pipeline Company Pipeline in Nebraska, to points in Iowa, and that part of Missouri on and north of U.S. Highway 40, and points in that part of Kansas on and east of a line beginning at the Nebraska-Kansas State line at U.S. Highway 81, and extending along U.S. Highway 81 to Newton, Kans., and on and north of U.S. Highway 50 from Newton, Kans. to the Kansas-Missouri State line; and (3) from Terminals located on and within three (3) miles of the Mid-America Pipeline Company Pipeline in Iowa, to points in Illinois, and that part of Missouri on and north of U.S. Highway 40: and *damaged or rejected shipments* of the above-specified commodity, on return.

HEARING: July 15, 1960, at the Mayo Hotel, Tulsa, Okla., before Examiner Alton R. Smith.

No. MC 113267 (Sub No. 21), filed April 25, 1960. Applicant: CENTRAL & SOUTHERN TRUCK LINES, INC., 312 West Morris Street, Caseyville, Ill. Authority sought to operate as a *common or contract carrier*, by motor vehicle, over irregular routes, transporting: *Stone, stone products, slag, slate, soap stone or talc*, from points in Georgia, North Carolina, South Carolina, and Tennessee to points in Illinois, Iowa, and Missouri.

NOTE: Applicant has contract carrier authority under Permit No. MC 50132 and Sub Numbers thereunder. Dual authority under section 210 may be involved. A proceeding has been instituted under section 212(c) in No. MC 50132 (Sub No. 38) to determine whether applicant's status is that of a common or contract carrier.

HEARING: July 13, 1960, at the U.S. Court House and Custom House, 1114 Market Street, St. Louis, Mo., before Examiner Gerald F. Colfer.

No. MC 113779 (Sub No. 120) filed April 11, 1960. Applicant: YORK INTERSTATE TRUCKING, INC., 9020 La Porte Expressway, P.O. Box 12385, Houston 17, Tex. Applicant's attorney: Dale Woodall (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle over, irregular routes, transporting: (1) *Phosphoric* and *sulphuric acids*, in bulk, in tank vehicles from Tulsa, Okla., to points in Tennessee and Louisiana, and (2) *Sulphuric acid*, from Tulsa, Okla., to points in Arkansas.

HEARING: July 15, 1960, at the Mayo Hotel, Tulsa, Okla., before Examiner Alton R. Smith.

No. MC 113950 (Sub No. 5), filed April 27, 1960. Applicant: FIRST NATIONAL HAULAGE CO., INC., 215 North Ninth Street, Brooklyn, N.Y. Applicant's attorney: Morris Honig, 150 Broadway, New York 38, N.Y. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Motor-cycles and scooters*, and *bodies, frames, motors and parts* thereof, when transported in the same vehicle and at the same time as motor-cycles and scooters, and as separate shipments when required by the shipper, between points in the New York, N.Y., Commercial Zone, as defined by the Commission, on the one hand, and, on the other Hasbrouck Heights, N.J.

HEARING: July 11, 1960, at 346 Broadway, New York, N.Y., before Examiner Abraham J. Essrick.

No. MC 114098 (Sub No. 9) (Correction), filed April 18, 1960, published in the FEDERAL REGISTER, issue of May 25, 1960. Applicant: LOWTHER TRUCKING CO., a Corporation, 521 Penman Street, Charlotte, N.C. Applicant's attorney: James E. Wilson, 1111 E Street NW., Perpetual Building, Washington, D.C.

NOTE: Previous publication inadvertently omitted applicant's attorney.

HEARING: Remains as assigned, July 25, 1960, at the Charlotte Hotel, Charlotte, N.C., before Examiner Hugh M. Nicholson.

No. MC 116319 (Sub No. 4), filed April 15, 1960. Applicant: MIDLAND PACIFIC TRANSPORT, INC., 2928 North Nevada Street, Spokane, Wash. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bulk Cement*, (1) from Spokane County, Wash., to Benewah County, Idaho, and (2) between Spokane, Wash., and St. Maries, Idaho.

HEARING: July 22, 1960, at the Davenport Hotel, Spokane, Washington, before Joint Board No. 169, or, if the Joint Board waives its right to participate, before Examiner Harold P. Boss.

No. MC 116810 (Sub No. 4), filed April 29, 1960. Applicant: BLAIR TRANSPORT, INC., P.O. Box 216, Riverside, N.J. Applicant's representative: Jacob Polin, 426 Barclay Building, City Line at Belmont Avenue, Bala-Cynwyd, Pa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, liquor, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between New York, N.Y., on the one hand, and, on the other Providence, R.I., points in Massachusetts on and east of U.S. Highway 5, and those in Connecticut on and east of U.S. Highway 5 and those on U.S. Highway 1 between the Connecticut-New York State line and New Haven, Conn.

NOTE: Applicant states the proposed service embraces only a change of gateway, as it is authorized in Certificate No. MC 116810 to perform the entire proposed service by combination of its existing general commodities authorities via Fort Lee, N.J., as a gateway point.

HEARING: July 6, 1960, at 346 Broadway, New York, N.Y., before Examiner Abraham J. Essrick.

No. MC 117427 (Sub No. 15) (Correction), filed April 18, 1960, published in the FEDERAL REGISTER, issue of May 25, 1960. Applicant: G. G. PARSONS, G. G. PARSONS TRUCKING COMPANY, P.O. Box 746, North Wilkesboro, N.C. Applicant's attorney: James E. Wilson, 1111 E Street NW., Perpetual Building, Washington, D.C.

HEARING: July 7, 1960, at 346 Broadway, New York, N.Y., before Examiner Abraham J. Essrick.

No. MC 119493 (Sub No. 3), filed April 29, 1960. Applicant: MONKEN COMPANY, INC., 1206 East Seventh Street, P.O. Box 689, Joplin, Mo. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Manufactured asphalt roofing*, from Joplin, Mo., and points within 15 miles thereof, to points in Arkansas, Oklahoma and Kansas beyond 250 miles of Joplin, Mo. *Materials used in the manufacture of asphalt roofing*, from points in Arkansas, Oklahoma and Kansas to Joplin, Mo., and points within 15 miles thereof. *Fertilizer* (other than liquid), in bags and in bulk, in self unloading trailers, or shipper-owned trailers, from Joplin, Mo., and points within 15 miles thereof, to points in Iowa, Kansas, Oklahoma, Arkansas, Nebraska and Missouri, *Potash*, in bulk, from Tulsa, Okla., to Joplin, Mo., and points within 15 miles thereof. *Fertilizer* (other than liquid), in bags and in bulk, from Trenton, Mo., to points in Kansas, Iowa and Nebraska. *Empty bags* and *containers*, from points in Illinois, Oklahoma, Arkansas, and Missouri to Joplin, Mo., and points within 15 miles thereof.

HEARING: July 20, 1960, at the New Hotel Pickwick, Kansas City, Mo., before Examiner Gerald F. Colfer.

No. MC 119507 (Sub No. 3), filed May 12, 1960. Applicant: CRAUN TRANSPORTATION, INC., Emma Street, Bettsville, Ohio. Applicant's attorney: Taylor C. Burneson, 3430 Le Veque-Lincoln Tower, 50 West Broad Street, Columbus 15, Ohio. Authority sought to operate as a *contract or common carrier*, by motor vehicle, over irregular routes, transporting: *Mineral wool* (clay, rock, slag or glass wool), plain or saturated, other than bats, in bulk, in bags. *Mineral wool* (clay, rock, slag or glass wool), bats, plain or saturated, with or without paper backing or wrapping. *Mineral wool* (clay, rock, slag or glass wool), bats or blankets (quilted or not quilted), with or without backing and for covering, loose or in packages, when transported with, and top-loaded on truckload shipments of plaster products and/or gypsum products, from Grand Rapids, Mich., to points in Ohio.

NOTE: Applicant holds contract carrier authority in Permit No. MC 27962 and Subs thereunder. Dual operations under section 210 may be involved. A proceeding has been instituted under section 212(c) to determine whether applicant's status is that of a contract or common carrier in No. MC 27962 (Sub No. 11). Applicant states it presently has authority, under Permit MC 27962 (Sub No. 9) to transport plaster products and gypsum products from Grand Rapids, Mich. to points in Ohio, and the purpose of this application is to request supplementary authority to transport the above-described insulation materials, when, and only when, top-loaded on truckload shipments of the products which applicant may transport under Permit 27962 (Sub No. 9).

HEARING: June 14, 1960, at the Olds Hotel, Lansing, Mich., before Joint Board No. 57.

No. MC 119683, filed April 18, 1960. Applicant: ATHENS GARAGE, INC., South Washington Street and Third Street, Athens, N.Y. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wrecked or disabled motor vehicles* in a heavy towing and wrecker truck away service requiring heavy duty wrecked equipment, between points in Vermont, Connecticut, Massachusetts, Rhode Island, New Hampshire, New Jersey, and Pennsylvania on the one hand, and on the other, points in New York, and from any point in New York State to any point in Vermont, Connecticut, Massachusetts, Rhode Island, New Hampshire, New Jersey, and Pennsylvania.

HEARING: July 19, 1960, at the Federal Building, Albany, N.Y., before Examiner Abraham J. Essrick.

No. MC 119690, filed April 21, 1960. Applicant: LEO L. HESSELGESSER AND JOHN R. WORTLEY, doing business as A–1 DELIVERY SERVICE, 2004 Broadway, Yakima, Wash. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, (1) between Yakima, Wash., and Zillah, Wash., over U.S. Highway 410, serving the intermediate points of Donald, Sawyer, and Buena, Wash.; and (2) between Yakima, Wash., and Toppenish, Wash., over Washington Highway 3A, serving the intermediate points of Union Gap, Parker, and Wapato, Wash.

NOTE: Applicant states that the above are restricted to traffic originating at or destined to points beyond those named herein.

HEARING: July 21, 1960, at the Davenport Hotel, Spokane, Wash., before Joint Board No. 80, or, if the Joint Board waives its right to participate, before Examiner Harold P. Boss.

No. MC 119709, filed April 13, 1960. Applicant: THOMAS W. TRAINOR, TRAINOR TRANSPORT, Piney Wood Road, Southwick, Mass. Applicant's attorney: Jeanne M. Hession, 64 Harvest Street, Dorchester, Mass. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *School and Classroom furniture and furnishings*, uncrated, between points in Hampden County, Mass., on the one hand, and, on the other, points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, Michigan, Illinois, Indiana, Ohio, Kentucky, West Virginia, Washington, D.C., and Wisconsin.

HEARING: July 15, 1960, at the U.S. Court Rooms, Hartford, Conn., before Examiner Abraham J. Essrick.

No. MC 119719, filed April 27, 1960. Applicant: JOSEPH ELLETO, 31 West St. Marks Place, Valley Stream, N.Y. Applicant's attorney: Morris Honig, 150 Broadway, New York 38, N.Y. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities as are sold by, and dealt in by, department stores*, excepting new furniture, between points in Nassau County, N.Y., and New York, N.Y., on the one hand, and, on the other, Paramus, N.J.

HEARING: July 8, 1960, at 346 Broadway, New York, N.Y., before Examiner Abraham J. Essrick.

No. MC 119736, filed May 5, 1960. Applicant: HERBERT ALLEN SIMON, doing business as CASCADE FREIGHT, 1306 Northwest Hoyt, Portland, Oreg. Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Alcoholic beverages* in kegs, bottles and cans, between points in Oregon on the one hand, and, on the other, points in Washington, California, Nevada, Utah, Arizona, and Montana.

HEARING: July 26, 1960, at the Interstate Commerce Commission Hearing Room, 410 Southwest 10th Avenue, Portland, Oreg., before Examiner Harold P. Boss.

No. MC 119781 EX, filed May 13, 1960. Applicant: H. J. JOHNSEN, doing business as KERNVILLE FREIGHT & STAGE LINES, 819 16th Street, Bakersfield, Calif. For a Certificate of Exemption (BMC 72) under section 204(a)(4a), Part II of the Interstate Commerce Act, authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except commodities in bulk, Classes A and B explosives, commodities requiring special equipment, and household goods as defined by the Commission, between Bakersfield, Calif., and Kernville and Onyx, Calif.: from Bakersfield over California Highway 178 to Onyx, and from Bakersfield over California Highway 178 to Isabella, and thence over unnumbered highway to Kernville, and return over the above-described routes, serving all intermediate points.

HEARING: July 7, 1960, at the New Mint Building, 133 Hermann Street, San Francisco, Calif., before Joint Board No. 75, or, if the Joint Board waives its right to participate, before Examiner F. Roy Linn.

No. MC 119789, filed May 16, 1960. Applicant: ALTO DISTRIBUTORS, INCORPORATED, 213 South Madison, Malden, Mo. Applicant's attorneys: Edward F. O'Herin, 106 South Decatur Street, Malden, Mo. John Paul Jones, 189 Jefferson Avenue, Memphis 3, Tenn. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from Gulfport, Miss., to points in Alabama, Arizona, Arkansas, California, Colorado, Georgia, Idaho, Illinois, Iowa, Kansas, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Mexico, North Dakota, Ohio, Oklahoma, South Dakota, Tennessee, Texas, Utah, West Virginia, Wisconsin, and Wyoming, and *exempt commodities*, on return.

NOTE: Applicant states its four stockholders hold common carrier authority to transport bananas, Buford N. Owens, MC 118210, F. D. Trover, MC 118284, A. R. Lewis, MC 118148, and H. M. Arrington, MC 118050; therefore, common control may be involved. Applicant further states it will file appropriate transfer application to eliminate any duplicating authority between it and stockholders and to combine all of their aggregate authority in applicant corporation.

HEARING: July 6, 1960, at the Offices of the Interstate Commerce Commission, Washington, D.C., before Examiner William J. Cave.

MOTOR CARRIERS OF PASSENGERS

No. MC 84728 (Sub No. 35), filed May 12, 1960. Applicant: SAFEWAY TRAILS, INC., 1200 Eye Street NW., Washington, D.C. Applicant's attorney: Morris J. Levin, Continental Building, 14th at K Street NW., Washington 5, D.C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicle with passengers in round-trip, special operations, seasonal during racing seasons, beginning and ending at Trenton, N.J., and extending to (a) Yonkers Raceway, Yonkers, N.Y., (b) Roosevelt Raceway, Westbury, Long Island, N.Y., (c) Aqueduct Race Track, New York, N.Y., (d) Belmont Park Race Track, Elmont, N.Y., (e) Delaware Park

Authority sought to operate as a *broker* (BMC 4) at Spokane, Wash., in arranging for transportation in interstate or foreign commerce by motor vehicle, of: *General commodities, including commodities of unusual value, Classes A and B explosives, household goods, commodities in bulk, and commodities requiring special equipment*, between points in Arizona, California, Colorado, Idaho, Illinois, Indiana, Iowa, Kansas, Michigan, Montana, Nebraska, Nevada, New Mexico, New York, North Dakota, Ohio, Oregon, Pennsylvania, Minnesota, South Dakota, Utah, Washington, Wisconsin, and Wyoming.

HEARING: July 19, 1960, at the Davenport Hotel, Spokane, Wash., before Joint Board No. 80, or, if the Joint Board waives its right to participate, before Examiner Harold P. Boss.

APPLICATIONS IN WHICH HANDLING WITHOUT ORAL HEARING IS REQUESTED

MOTOR CARRIERS OF PROPERTY

No. MC 30319 (Sub No. 115), filed May 16, 1960. Applicant: SOUTHERN PACIFIC TRANSPORT COMPANY, a Corporation, 810 North San Jacinto Street, P.O. Box 4054, Houston, Tex. Applicant's attorney: Edwin N. Bell, Baker, Botts, Andrews & Shepherd, Esperson Building, Houston 2, Tex. Authority sought to operate as a *common carrier*, by motor vehicle, over a regular route, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between junction Texas Highway 239 and Texas Farm Road 2443 near Choate, Tex., and Pettus, Tex., from junction Texas Highway 239 and Texas Farm Road 2443 near Choate, over Texas Farm Road 2443 to junction Texas Farm Road 743, thence over Texas Farm Road 743 to junction Texas Farm Road 623, thence over Texas Farm Road 623 to Pettus, a distance of approximately thirteen (13) miles, and return over the same route, serving no intermediate points between the termini, as an alternate route for operating convenience only in connection with applicant's authorized regular route operations.

NOTE: Applicant states the main purpose of the instant application is to effect economy and efficiency of operations. Common control may be involved.

No. MC 64932 (Sub No. 274), filed May 23, 1960. Applicant: ROGERS CARTAGE CO., a Corporation, 1934 South Wentworth Avenue, Chicago, Ill. Applicant's attorney: Carl L. Steiner, 39 South La Salle Street, Chicago 3, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fertilizer solutions*, in bulk, in tank vehicles, from Havana, Ill. and points within four (4) miles of Havana, to points in Indiana, Iowa, Missouri, and Wisconsin.

No. MC 66562 (Sub No. 1676), filed May 11, 1960. Applicant: RAILWAY EXPRESS AGENCY, INCORPORATED, Principal Office: 219 East 42d Street, New York 17, N.Y. Local Office: 1700 Clark Avenue, St. Louis 3, Mo. Authority sought to operate as a *common carrier*, by motor vehicle, over a regular route, transporting: *General commodities*, including *Classes A and B explosives*, moving in express service, limited to transportation of express shipments having a prior or subsequent rail or air haul, between St. Louis, Mo., and Carlyle, Ill., from St. Louis northeast over U.S. Highway 40, a distance of approximately 36 miles, to junction Illinois Highway 143, thence east over Illinois Highway 143, a distance of approximately 2 miles, to Pierron, Ill., thence return over Illinois Highway 143 to junction U.S. Highway 40, thence northeast over U.S. Highway 40, a distance of approximately 15 miles, to Greenville, Ill., thence south over Illinois Highway 127, a distance of approximately 23 miles, to Carlyle, at U.S. Highway 50, where connection is made with present St. Louis, Mo.-Carlyle, Ill., Over-The-Road Truck Route operated by Applicant under MC 66562 (Sub No. 274), and return over the same route, serving the intermediate points of St. Jacob, Highland, Pocahontas, Pierron, and Greenville, Ill. RESTRICTIONS: (1) Service to be auxiliary to or supplemental of air or rail express service; and (2) Shipments transported shall be limited to those moving on through bills of lading or express receipts covering in addition to a motor carrier movement by carrier an immediately prior or immediately subsequent movement by air or rail.

No. MC 66562 (Sub No. 1678), filed May 17, 1960. Applicant: RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42d Street, New York 17, N.Y. Applicant's attorneys: Slovacek and Galliani, Suite 2800 Randolph Tower, 188 West Randolph Street, Chicago 1, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities, including Classes A and B explosives*, moving in express service between Joplin, Mo. and Adrian, Mo. as follows: From Joplin over U.S. Highway 71 to junction U.S. Highway 160, thence over U.S. Highway 160 to Lamar, Mo., from Lamar over U.S. Highway 160 to junction U.S. Highway 71, thence over U.S. Highway 71 to Adrian, a distance of 105 miles, and return over the same route, serving the intermediate points of Carthage, Jasper, Lamar, Sheldon, Nevada, Rich Hill and Butler, Mo. RESTRICTIONS: The service to be performed by applicant shall be limited to service which is auxiliary to or supplemental of air or rail express service of applicant. Shipments transported by applicant shall be limited to those moving on a through bill of lading or express receipt covering, in addition to a motor carrier movement by applicant, an immediately prior or immediately subsequent movement by air or rail. Such further specific conditions as the Commission may, in the future, find necessary to impose in order to restrict applicant's operations to service which is auxiliary to or supplemental of air or rail service of the applicant.

No. MC 66562 (Sub No. 1679), filed May 17, 1960. Applicant: RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42d Street, New York 17, N.Y. Applicant's attorneys: Mehaffy, Smith & Williams, Boyle Building, Little Rock, Ark. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities, including Classes A and B explosives*, moving in express service, from Batesville, Ark. to Newport, Ark. as follows: From Batesville over Arkansas Highway 11 to junction Arkansas Highway 14, thence over Arkansas Highway 14 to junction U.S. Highway 67, thence over U.S. Highway 67 to Newport, a distance of 29 miles, and return over the same route, serving no intermediate points. RESTRICTIONS: The service to be performed by applicant shall be limited to service which is auxiliary to or supplemental of air or rail express service of applicant. Shipments transported by applicant shall be limited to those moving on a through bill of lading or express receipt covering, in addition to a motor carrier movement by applicant, an immediately prior or immediately subsequent movement by air or rail. Such further specific conditions as the Commission may, in the future, find necessary to impose in order to restrict applicant's operations to service which is auxiliary to or supplemental of air or rail express service of applicant.

No. MC 66562 (Sub No. 1680), filed May 17, 1960. Applicant: RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42d Street, New York 17, N.Y. Applicant's attorney: William H. Marx, General Attorney, Railway Express Agency Law Department (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities, including Classes A and B explosives*, moving in express service, between Harrisonburg, Va. and Bridgewater, Va. as follows: From Harrisonburg over Virginia Highway 42 to Bridgewater, Va., and return over the same route, serving the intermediate point of Dayton, Va.

NOTE: Applicant states the proposed service will be operated in connection with and will be an extension of applicant's existing authorized operation in MC 66562 (Sub No. 378), between Washington, D.C. and Harrisonburg, Va.

No. MC 81771 (Sub No. 5), filed May 23, 1960. Applicant: CARL JOHNSON, 1008 North Perry Street, Attica, Ind. Applicant's representative: W. L. Jordan, 201–2 Merchants Savings Building, 7 South Sixth Street, Terre Haute, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, rough cut, unfinished, Domestic, from Attica, Ind., to points in Illinois, Kentucky, and Michigan.

No. MC 98749 (Sub No. 11) filed May 19, 1960. Applicant: DURWARD L. BELL, doing business as BELL TRANSPORT COMPANY, 100 South Second, Longview, Tex. Applicant's attorney: Austin L. Hatchell, Suite 1209, Perry-Brooks Building, Austin 1, Tex. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, as defined in The Maxwell Co., Extension-Addyston, 63 M.C.C. 677, in bulk, in specialized equipment, from Kingsport, Tenn. to the site of the Texas Eastman Company (near Longview, Tex.).

No. MC 104004 (Sub No. 150) filed May 16, 1960. Applicant: ASSOCIATED TRANSPORT, INC., 380 Madison Avenue, New York 17, N.Y. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities, including commodities of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment*, between junction U.S. Highway 6 and New York Highway 17, near Harriman, N.Y., and Scranton, Pa.: from junction U.S. Highway 6 and New York Highway 17, over U.S. Highway 6 to Scranton, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only.

No. MC 107403 (Sub No. 305) filed May 18, 1960. Applicant: E. BROOKE MATLACK, INC., Wilford Building, 33d and Arch Streets, Philadelphia 4, Pa. Applicant's attorney: Paul F. Barnes, 811–819 Lewis Tower Building, 225 South 15th Street, Philadelphia 2, Pa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from Owosso Township, Mich., to Toledo, Ohio.

No. MC 107403 (Sub No. 306), filed May 18, 1960. Applicant: E. BROOKE MATLACK, INC., 33d and Arch Streets, Philadelphia 4, Pa. Applicant's attorney: Paul F. Barnes, 819 Lewis Tower Building, 225 South 15th Street, Philadelphia 2, Pa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dicalcium phosphate*, in bulk, from Trenton, Mich., to Huron, Ohio.

No. MC 109637 (Sub No. 150) filed May 19, 1960. Applicant: SOUTHERN TANK LINES, INC., 4107 Bells Lane, Louisville 11, Ky. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid flavoring compounds*, in bulk, in tank vehicles, from Cincinnati, Ohio to points in Kentucky.

NOTE: Common control may be involved.

No. MC 119796, May 19, 1960. Applicant: KENNETH W. HULME AND DONALD A. HULME, a Partnership, doing business as HULME PRODUCE, Hagerman, Idaho. Applicant's attorney: Randall Wallis, Idaho Building, Boise, Idaho. Authority sought to operate as a *contract carrier*, by motor vehicle, over regular routes, transporting: *Bananas*, from Wilmington, Calif., to Boise, Idaho: from Wilmington over U.S. Highway 6 to junction U.S. Highway 95, thence north over U.S. Highway 95 to Marsing, Idaho, thence east over Idaho Highway 72 to junction U.S. Highway 30, and thence over U.S. Highway 30 to Boise; also, from Wilmington north over U.S. Highway 99 to Sacramento, Calif., thence east over U.S. Highway 40 to Fernley, Nev., thence north over U.S. Highway 95 to Marsing, Idaho, thence east over Idaho Highway 72 to junction U.S. Highway 30, and thence over U.S. Highway 30 to Boise; and also, from Wilmington east over U.S. Highway 99 to Indio, Calif., thence east over U.S. Highways 60–70 to junction U.S. Highway 95, thence north over U.S. Highway 95 to Las Vegas, Nev., thence north over U.S. Highway 93 to Twin Falls, Idaho, and thence over U.S. Highway 30 to Boise, and *exempt agricultural products*, on return.

APPLICATION FOR BROKERAGE LICENSE

MOTOR CARRIER OF PASSENGERS

No. MC 12732, filed May 9, 1960. Applicant: ROBBINS TRAVEL INTERNATIONAL, INC., 14 South Main Street, Salt Lake City, Utah. Applicant's attorney: William T. Thurman, Newhouse Building, Salt Lake City 11, Utah. Authority sought to operate as a BROKER (BMC 5), at Salt Lake City, Utah, in arranging for transportation in interstate or foreign commerce by motor vehicle, of: *Passengers and their baggage*, from points in Utah and Idaho, to points in the United States, including points in Hawaii and Alaska, and return.

PETITION

No. MC 95920 (Sub No. 13) (PETITION FOR REOPENING), filed March 30, 1960. Petitioner: SANTRY TRUCKING CO., Portland, Oreg. Petitioner's attorney: George R. LaBissonierre, 654 Central Building, Seattle 4, Wash. Petitioner holds authority as a contract carrier authorizing operations, in part, which are here pertinent, transporting solely as a contract carrier for the Olympia Brewing Co., located near Tumwater, Wash., malt beverages, malt beverage containers and cartons, bottle openers, advertising matter, brewer's yeast and brewery products moving incidentally to the movement of malt beverages, from Olympia, Wash., to points in California, Utah, Nevada, Arizona, and Montana, and empty or rejected malt beverages and other related items on return, under a continuing contract with the Olympia Brewing Co. Petitioner's attorney advises that by virtue of a specific statutory prohibition of the State of California, a contract carrier may not transport alcoholic beverages of any kind, including beer, into the State of California. Petitioner seeks conversion of a portion of the above-numbered permit so as to authorize the transportation for the Olympia Brewing Co., at Tumwater, Wash., to the State of California, as a *common carrier*, and seeks the issuance of a Certificate to cover such operations, such Certificate reading: *Malt beverages, malt beverage containers and cartons, bottle openers, and advertising matter*, over irregular routes, from the site of the Olympia Brewing Co. at or near Tumwater, Wash., to points in California. Any person or persons desiring to oppose the relief sought, may, within 30 days from the date of this publication in the FEDERAL REGISTER, file an appropriate pleading.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carrier of property or passengers under section 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

No. MC-F 7535 (correction) (BRANCH MOTOR EXPRESS CO.—MERGER—MURDOCH & HATCH MOTOR TRANSPORT, INC.), published in the May 18, 1960, issue of the FEDERAL REGISTER on page 4415. This application should have been shown as one for merger rather than control and merger.

No. MC-F 7537 (correction) (YELLOW CAB CO.—CONTROL—DiSALVO TRUCKING CO.), published in the May 25, 1960, issue of the FEDERAL REGISTER on page 4622. The address of YELLOW CAB COMPANY should have been shown as 245 Turk Street, San Francisco 2, Calif.

No. MC-F 7544. Authority sought for ROBERT W. MATLACK, 33d and Arch Streets, Philadelphia, Pa., E. E. TAYLOR, 33d and Arch Streets, Philadelphia, Pa., and C. G. FULLER, Bal Harbor, Miami, Fla., individuals, and E. BROOKE MATLACK, INC., a motor carrier, (in turn by DUVERNEY B. MATLACK, EDWIN L. MATLACK, E. BROOKE MATLACK, JR., and ROBERT W. MATLACK, all of Philadelphia, who control E. BROOKE MATLACK, INC., through ownership of capital stock) to acquire control of SOUTHERN BULK HAULERS, INC., P.O. Box No. 2095, Station A, Charleston, S.C. Applicants' attorney: Robert H. Shertz, 811 Lewis Tower Building, 225 South 15th Street, Philadelphia, Pa. Operating rights sought to be controlled: Authority applied for covering the transportation, as a *contract carrier* over irregular routes, of *cement*, from the plant site of Giant Portland Cement Company located in Dorchester County, S.C., to points in North Carolina and Georgia, and *empty containers* or other such incidental facilities (not specified), used in transporting cement, on return. E. BROOKE MATLACK, INC., is authorized to operate as a *common carrier* in Maryland, Delaware, Pennsylvania, Virginia, New Jersey, New York, Ohio, West Virginia, North Carolina, South Carolina, Georgia, Alabama, Kansas, Indiana, Tennessee, Minnesota, Michigan, Illinois, Iowa, Wisconsin, Kentucky, Missouri, Maine, New Hampshire, Vermont, Mississippi, Connecticut, Massachusetts, Rhode Island, Florida, Louisiana, and the District of Columbia, and as a *contract carrier* in Ohio, New York, Connecticut, Massachusetts, New Hampshire, New Jersey, Pennsylvania, Rhode Island, and Vermont. C. G. FULLER is affiliated with THE GEO. A. RHEMAN CO., INC., Charleston, S.C., which is authorized to operate as a *common carrier* in the States of Virginia, North Carolina, South Carolina, Georgia, and Florida. Application has not been filed for temporary authority under section 210a(b).

No. MC-F 7546. Authority sought for purchase by BROADWAY TRANSFER AND STORAGE COMPANY, INC., 4109 South Western Avenue, Los Angeles 62, Calif., of the operating rights and property of GEORGE E. McMURCHY, (GERTRUDE H. McMURCHY, EXECUTRIX), doing business as BROADWAY TRANSFER CO., 4109 South Western Avenue, Los Angeles 62, Calif., and for acquisition by JAMES JENKINS, Jr., LeROY F. JENKINS AND FRANK M. JENKINS, all of Los Angeles, of control of such rights and property through the purchase. Applicants' representative: Frank M. Jenkins, Secretary, Broadway Transfer and Storage Company, Inc., 4109 South Western Avenue, Los Angeles 62, Calif. Operating rights sought to be transferred: *Household goods*, as a *common carrier* over irregular routes, between points in Los Angeles, Calif. Vendee holds no authority from this Commission. However, its three controlling stockholders presently conduct operations as a partnership, doing business as JENKINS VAN & STORAGE, 1527 Lincoln Boulevard, Santa Monica, Calif., as a *common carrier* in California. Application has not been filed for temporary authority under section 210a(b).

No. MC-F 7547. Authority sought for purchase by LOPEZ TRUCKING, INC., 131 Linden Street, Waltham, Mass., of the operating rights and property of R. G. MATHEWS CORPORATION, Port Newark 5, N.J., and for acquisition by FELIX A. LOPEZ and VINCENT A. LOPEZ, both of Waltham, of control of such rights and property through the purchase. Applicants' attorneys: Kenneth B. Williams, 111 State Street, Boston 9, Mass., and August W. Heckman, 880 Bergen Avenue, Jersey City, N.J. Operating rights sought to be transferred: *Building materials*, as a *common carrier* over irregular routes, from New York, N.Y., and points in Westchester, Nassau, Suffolk, Orange, and Rockland Counties, N.Y., and those in Hudson, Essex, Union, Bergen, Passaic, Middlesex, Warren, Hunterdon, Morris, and Somerset Counties, N.J., to points in New Jersey and New York within 50 miles of point of origin, between Port Newark, N.J., and Port of New York, N.Y., on the one hand, and, on the other, Baltimore, Md., and certain points in Pennsylvania, New York, Rhode Island, Connecticut, Massachusetts, New Jersey, and Delaware, and between all ports on the Atlantic Ocean between Baltimore, Md., and Boston, Mass., inclusive, and inland ports on the Hudson River south of and including Albany, N.Y., and inland ports on the Delaware River south of and including Trenton, N.J., on the one hand, and, on the other, points in Maryland, Delaware, Pennsylvania, New Jersey, New York, Rhode Island, Connecticut, Massachusetts, and the District of Columbia within 75 miles of points of origin. Vendee is authorized to operate as a *common carrier* in Maine, New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, and Ohio. Application has been filed for temporary authority under section 210a(b).

No. MC-F 7550. Authority sought for control by FRANCIS L. WIRTZ, Post Office Box 806, East Chicago, Ind., of STEEL HAULERS, INC., 306 Ewing Avenue, Kansas City, Mo. Applicant's attorney: Charles B. Myers, 2106 Field Building, Chicago 3, Ill. Operating rights sought to be controlled: *Steel articles* and *such materials* as are used or useful on highway construction projects, except cement, rock, sand, and gravel, as a *common carrier* over irregular routes, from St. Louis and Springfield, Mo., points in the Kansas City, Mo.-Kansas City, Kans., Commercial Zone, as defined by the Commission, and Tulsa, Okla., and points within five miles of Tulsa, to points in Arkansas, Illinois, Iowa, Kansas, Missouri, Oklahoma, and Texas, from Chicago, Ill., and points in the Chicago, Ill., Commercial Zone, as defined by the Commission, to points in Arkansas, Kansas, Missouri, Oklahoma, and Texas, from Chicago, Ill., to points in Illinois within the St. Louis, Mo.-East St. Louis, Ill., Commercial Zone, as defined by the Commission, and from Houston, Tex., and points within five miles of Houston, to points in that part of Louisiana, Arkansas, and Oklahoma within 400 miles of Houston; *such materials* as are used or useful on highway construction projects, except cement, rock, sand, and gravel, from St. Louis, Mo., and points in the Kansas City, Mo.-Kansas City, Kans., Commercial Zone, as defined by the Commission, to points in Nebraska and South Dakota; *used steel forms* used on highway construction projects, from points in Illinois, Missouri, Kansas, Nebraska, Iowa, South Dakota, Oklahoma, Arkansas, and Texas, to points in the Kansas City, Mo.-Kansas City, Kans., Commercial Zone, as defined by the Commission, Oklahoma City, Okla., and Omaha, Nebr., and from points in Missouri, Kansas, Nebraska, Iowa, South Dakota, Oklahoma, Arkansas, and Texas to Cicero, Ill.; *used steel spools*, and *used wooden spools*, from points in Illinois, Missouri, Kansas, Nebraska, Iowa, South Dakota, Oklahoma, Arkansas, and Texas, to points in the Kansas City, Mo.-Kansas City, Kans., Commercial Zone, as defined by the Commission; *iron and steel wire*, in coils, in vehicles equipped with filtered ventilators, from Kansas City, Mo., to Milwaukee, Wis.; *pallets and other incidental articles* used in transporting the above-specified commodities, from Milwaukee, Wis., to Kansas City, Mo. FRANCIS L. WIRTZ holds no authority from this Commission. However, he is affiliated with CONTRACT STEEL CARRIERS, INC., East Chicago, Ind., which is authorized to operate as a *common carrier* in Illinois and Iowa. Application has been filed for temporary authority under section 210a(b).

MOTOR CARRIERS OF PASSENGERS

No. MC-F 7545. Authority sought for control by AMERICAN BUSLINES, INC., 1341 "P" Street, Lincoln 8, Nebr., of MIDWEST BUSLINES, INC., 1800 Lincoln Avenue, P.O. Box 1188, Little Rock, Ark., and for acquisition by TRANSPORTATION PROPERTIES, INC., 427 Pyramid Building, Little Rock, Ark., in turn by CONTINENTAL SOUTHERN LINES, INC., 425 Bolton Avenue, Alexandria, La., and in turn by TRANSCONTINENTAL BUS SYSTEM, INC., 315 Continental Avenue, Dallas 7, Tex., of control of MIDWEST BUSLINES, INC., through the acquisition by AMERICAN BUSLINES, INC. Applicant's attorneys: Curry and Dolan, 631 Southern Building, Washington 5, D.C. Operating rights sought to be controlled: *Passengers and their baggage*, and *express* and *newspapers* in the same vehicle with passengers, as a *common carrier* over regular routes including routes between St. Louis, Mo., and Kansas City, Mo., between Kansas City, Mo., and Olathe, Kans., between St. Louis, Mo., and Freeport, Tex., between specified points in Arkansas, between Fort Smith, Ark., and Memphis, Tenn., between Little Rock, Ark., and Natchez, Miss., between specified points in Louisiana, between specified points in Texas, between specified points in Kansas, between McGhee, Ark., and Monroe, La., between specified points in Nebraska, and between Kansas City, Mo., and Memphis, Tenn., serving certain intermediate points; *passengers and their baggage*, between Levy, Ark., and Camp Joseph T. Robinson, Ark., serving no intermediate points; *passengers and their baggage*, and express, in the same vehicle with passengers, between specified points in Texas and between Thornton, Ark., and El Dorado, Ark., serving all intermediate points; alternate route for operating convenience only between junction Old U.S. Highway 67 and New U.S. Highway 67 (about six miles west of Texarkana, Tex.), and junction Old U.S. Highway 67 and New U.S. Highway 67 (near Redwater, Tex.), serving no intermediate points, with service at the termini limited to joinder only with authorized routes; *newspapers*, in the same vehicle with passengers, between Kansas City, Mo., and junction Kansas Highway 58 and Antioch Road, near Overland Park, Kans., serving all intermediate points. AMERICAN BUSLINES, INC., is authorized to operate as a *common carrier* in New York, Pennsylvania, Ohio, Indiana, Illinois, California, Arizona, Missouri, Texas, New Mexico, New Jersey, Oklahoma, Maryland, Michigan, Iowa, and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

No. MC-F 7549. Authority sought for purchase by THE GREYHOUND CORPORATION, 140 South Dearborn Street, Chicago 3, Ill., of the operating rights of ATLANTIC GREYHOUND LINES OF VIRGINIA, INC., 1100 Kanawha Valley Building, Charleston 1, W. Va. Applicants' attorney: George W. Rauch, 140 South Dearborn Street, Chicago 3, Ill. Operating rights sought to be transferred: *Passengers and their baggage*, and *express*, *newspapers*, and *mail*, in the same vehicle with passengers, as a *common carrier* over a regular route, between Norfolk, Va., and the Virginia-Maryland State line at a point approximately one-half mile north of New Church, Va., serving all intermediate points. Vendee is authorized to operate as a *common carrier* in 48 States and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary*.

[Notice 124]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

MAY 27, 1960.

The following letter-notices of proposals to operate over deviation route for operating convenience only with service at no intermediate points have been filed with the Interstate Commerce Commission, under the Commission's Deviation Rules Revised, 1957 (49 CFR 211.1(c)(8)) and notices thereof to all interested persons is hereby given as provided in such rules (49 CFR 211.1 (d)(4)).

Protest against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 211.1(e)) at any time but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter notices of the same carrier under the Commission's Deviation Rules Revised, 1957, will be numbered consecutively for convenience in identification and protests if any should refer to such letter notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC 2202 (Deviation No. 7), filed April 26, 1960. Applicant: ROADWAY EXPRESS INC., Post Office Box 471, Akron 9, Ohio. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions over a deviation route as follows: From Ashland, Ohio, over U.S. Highway 250 to junction Interstate Highway 71, thence over Interstate Highway 71, to junction Ohio Highway 95, thence over Ohio Highway 95 to Mount Gilead, Ohio, and return over the same route for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities between Ashland and Mount Gilead over U.S. Highway 42.

No. MC 2542 (Deviation No. 4), filed April 28, 1960. Applicant: ADLEY EXPRESS CO., 216 Crown Street, New Haven, Conn. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From the eastern terminus of the Trenton Freeway in Trenton, N.J., over the Trenton Freeway to its western terminus in Morrisville, Pa., and return over the same route, for operating convenience only, serving no intermediate point. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: from Boston over U.S. Highway 1 to Philadelphia, and return over the same route.

No. MC 104004 (Deviation No. 5), filed April 27, 1960. Applicant: ASSOCIATED TRANSPORT INC., 380 Madison Avenue, New York 17, N.Y. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From the Massachusetts-New York State line over Interstate Highway No. 90 (Berkshire section of the New York Thruway) to Interchange No. 21-A of the New York Thruway, and return over the same route, for operating conveneince only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities between Albany, N.Y., and Boston, Mass., over U.S. Highway 20.

No. MC 104004 (Deviation No. 6), filed April 27, 1960. Applicant: ASSOCIATED TRANSPORT INC., 380 Madison Avenue, New York 17, N.Y. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From the southwestern terminus of the New England Thruway over the said Thruway to junction with the Connecticut Turnpike, and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities between New York, N.Y., and Providence, R.I., over U.S. Highway 1.

No. MC 104004 (Deviation No. 7), filed April 27, 1960. Applicant: ASSOCIATED TRANSPORT INC., 380 Madison Avenue, New York 17, N.Y. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From the Connecticut-New York State line over the Connecticut Turnpike to junction U.S. Highway 6 near the Connecticut-Rhode Island State line and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities between New York, N.Y., and Providence, R.I. over U.S. Highway 1.

No. MC 104004 (Deviation No. 8), filed April 27, 1960. Applicant: ASSOCIATED TRANSPORT INC., 380 Madison Avenue, New York 17, N.Y. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From Newburgh, N.Y., over the New York Thruway to New York, N.Y., and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities between Newburgh and New York over U.S. Highway 9-W.

No. MC 110325 (Sub No. 1) (Deviation No. 9), filed April 28, 1960. Applicant: TRANSCON LINES, 1206 South Maple Avenue, Los Angeles 15, Calif. Applicant's attorney: Lee Reeder, 1012 Baltimore Building, Kansas City 5, Mo. Carrier proposes to operate as a *common carrier*, by motor vehicle of *general commodities*, with certain exceptions, over a deviation route as follows: From Conway, Ark., over U.S. Highway 64 to Beebee, Ark., thence over Arkansas Highway 31 to Lonoke, Ark., and return over the same route for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Conway over U.S. Highway 65 to Little Rock, Ark., thence over U.S. Highway 70 to Lonoke, and return over the same route.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

WASHINGTON

Notice of Proposed Withdrawal and Reservation of Lands

MAY 20, 1960.

The Forest Service has filed an application, Serial No. Washington 03920, for the withdrawal of the lands described below, from all forms of appropriation under the General Mining Laws, subject to valid existing rights. The applicant desires the land for establishment of the Crystal Mountain Recreation Area.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, 680 Bon Marche Bldg., Spokane 1, Washington.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are: a part of the Snoqualmie National Forest and are described as follows:

WILLAMETTE MERIDIAN, WASHINGTON

T. 17 N., R. 10 E., unsurveyed;

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

DATES

Notice of Purchase Program AMP 29a

In order to encourage domestic consumption of dates by diverting them from normal channels of trade and commerce, in accordance with section 32, Public Law 320, 74th Congress, approved August 24, 1935, as amended, an announcement of the contemplated purchase by the Department of dates, in the form of date pieces, has been distributed to the industry. Date pieces so purchased will be distributed to nonprofit school lunch programs. The quantity to be purchased will not exceed 2 million pounds and the pieces must be manufactured from Deglet Noor dates produced domestically. Information relative to this purchase program may be obtained from Fruit and Vegetable Division, Agricultural Marketing Service, Department of Agriculture, Washington 25, D.C., or Los Angeles 16, California.

(Sec. 32, 49 Stat. 774, as amended, 7 U.S.C. 612c)

Dated: May 27, 1960.

G. R. GRANGE, *Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

Office of the Secretary

KANSAS

Designation of Area for Production Emergency Loans

For the purpose of making production emergency loans pursuant to section 2(a) of Public Law 38, 81st Congress (12 U.S.C. 1148a-2(a)), as amended, it has been determined that in the following counties in the State of Kansas a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

KANSAS

Jackson.	Pottawatomie.
Jefferson.	Shawnee.
Leavenworth.	Wabaunsee.

Pursuant to the authority set forth above, production emergency loans will not be made in the above-named counties after December 31, 1960, except to applicants who previously received such assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 26th day of May 1960.

TRUE D. MORSE, *Acting Secretary.*

Title 3—THE PRESIDENT

Executive Order 10879

ESTABLISHING THE WHITE HOUSE SERVICE CERTIFICATE AND THE WHITE HOUSE SERVICE BADGE

By virtue of the authority vested in me as President of the United States, and as Commander in Chief of the armed forces of the United States, it is ordered as follows:

1. There is hereby established a White House Service Certificate, to be awarded in the name of the President of the United States, as public evidence of deserved honor and distinction, to members of the Army, Navy, Marine Corps, and Air Force, other than the Presidential Aides, who have been detailed to duty in the White House for at least one year subsequent to January 20, 1953.

2. The White House Service Certificate shall be of appropriate design, approved by the Secretary of the Army, and shall be awarded by the Secretary of the Army, the Secretary of the Navy, or the Secretary of the Air Force, upon recommendation of the Presidential Military, Naval, or Air Force Aide, as the case may be, to military personnel of their respective services.

3. A White House Service Badge, the design of which accompanies and is hereby made a part of this order, is hereby established and may be issued to any member of the armed forces detailed to duty in the White House, other than the Presidential Aides. The badge may be worn as a part of the uniform of those individuals, during the period of their detail to White House duty, under such regulations as the Secretaries of the Army, Navy, and Air Force, with the approval of the Secretary of Defense, may severally prescribe.

4. No more than one White House Service Certificate shall be awarded to any person.

5. The service certificate established by this order may be granted posthumously.

DWIGHT D. EISENHOWER

THE WHITE HOUSE,
June 1, 1960.

On a disk of white enamel the device in silver from the Presidential seal without the encircling stars, the whole surrounded by 27 gold rays radiating from center 2¼" in diameter overall.

Title 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[1960 C.C.C. Grain Price Support Bulletin 1, Supp. 1, Amdt. 1, Grain Sorghums]

PART 421—GRAINS AND RELATED COMMODITIES

Subpart—1960-Crop Grain Sorghums Loan and Purchase Agreement Program

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service published in 25 F.R. 3920, and containing the specific requirements for the 1960-Crop Grain Sorghums Price Support Program are hereby amended as follows:

1. Section 421.5233(a)(2)(ii) is amended to provide the amount of deduction from the designated terminal market on grain sorghums received by truck so that the amended subdivision reads as follows:

§ 421.5233 Determination of support rates.

(a) • • •

(2) • • •

(ii) The support rate for grain sorghums received by truck and stored at any designated terminal market shall be determined by making a deduction from the terminal rate as follows:

Terminal market:	*Amount of deduction (cents per 100 pounds)*
Omaha, Nebr.; Council Bluffs, Iowa; Sioux City, Iowa; Kansas City, Mo.; Kansas City, Kans.; St. Louis, Mo.; Saint Joseph, Mo.; Atchison, Kans	18
Cairo, Ill.; Memphis, Tenn	23

2. Section 421.5233(a)(3)(ii) is amended to provide the amount of deduction from the designated terminal market on grain sorghums received by truck so that the amended subdivision reads as follows:

(ii) Notwithstanding the foregoing provisions of this paragraph, the support rate for grain sorghums received by truck and stored at any of the terminal markets listed in subdivision (i) of this subparagraph shall be determined by making a deduction of 6 cents per hundredweight from the terminal rate, plus the transportation cost, if any, as determined by the appropriate CSS commodity office for moving the grain sorghums to a tidewater loading facility located within the same switching limits.

3. Section 421.5234(a)(1) is amended to provide the storage charges per hundredweight to be deducted in computing the amount of the loan or purchase price when such charges have not been prepaid, and in the case of recourse loans, the amount of handling charges to be deducted so that the amended subparagraph reads as follows:

§ 421.5234 Warehouse charges.

(a)(1) Warehouse receipts and the grain sorghums represented thereby stored in approved warehouses operating under the Uniform Grain Storage Agreement may be subject to liens for warehouse handling and storage charges at not to exceed the Uniform Grain Storage Agreement rates from the date the grain sorghums are deposited in the warehouse for storage: *Provided*, That the warehouseman shall not be entitled to satisfy the lien by sale of the commodity when CCC is holder of the warehouse receipt. Where the date of deposit (the date of the warehouse receipt if the date of deposit is not shown) on warehouse receipts representing grain sorghums stored in warehouses operating under the Uniform Grain Storage Agreement is on or before the applicable nonrecourse loan maturity date, there shall be deducted in computing the amount of the loan or purchase price the storage charges per hundredweight as shown in the following table unless written evidence has been submitted with the warehouse receipt that all warehouse charges, except receiving and loading out charges have been prepaid through the nonrecourse loan maturity date of March 31, 1961.

Amount of deduction (cents per hundredweight)	For States having a maturity date not later than Mar. 31, 1961—Date the storage charges start (all dates inclusive)
21	Prior to June 4, 1960.
20	June 4–June 15, 1960.
19	June 16–June 27, 1960.
18	June 28–July 11, 1960.
17	July 12–July 26, 1960.
16	July 27–Aug. 10, 1960.
15	Aug. 11–Aug. 25, 1960.
14	Aug. 26–Sept. 9, 1960.
13	Sept. 10–Sept. 24, 1960.
12	Sept. 25–Oct. 9, 1960.
11	Oct. 10–Oct. 24, 1960.
10	Oct. 25–Nov. 8, 1960.
9	Nov. 9–Nov. 23, 1960.
8	Nov. 24–Dec. 8, 1960.
7	Dec. 9–Dec. 23, 1960.
6	Dec. 24, 1960–Jan. 7, 1961.
5	Jan. 8–Jan. 22, 1961.
4	Jan. 23–Feb. 6, 1961.
3	Feb. 7–Feb. 21, 1961.
2	Feb. 22–Mar. 8, 1961.
1	Mar. 9–Mar. 31, 1961.

In the case of recourse loans there shall be deducted in determining the support rate, storage charges per hundredweight per day from the date the storage charges start against holders of the warehouse receipt to the recourse loan maturity date of January 31, 1962, as provided in the Schedule of Rates of the Uniform Grain Storage Agreement in effect when the services are performed, unless written evidence has been received that such charges have been prepaid. In addition to the provisions contained in § 421.5233 (a) and (b) for determining the support rate there shall also be deducted on recourse loans 4 cents per hundredweight for grain sorghums received by rail, water, or truck, unless written evidence has been received that the receiving and loading out charges have been prepaid. If the receiving and loading out charges for truck received grain sorghums have been prepaid, the support rate as determined under § 421.5233 (a)(2)(ii) and (a)(3)(ii) shall be increased 6 cents per hundredweight on recourse loans. For grain sorghums received by truck in approved warehouses where the support rate is not determined under § 421.5233 (a) and (b), there shall also be deducted from the county support rate on recourse loans the receiving and loading out charge provided in the Schedule of Rates of the Uniform Grain Storage Agreement in effect when the services are performed, unless written evidence has been received that the receiving and loading out charges have been prepaid.

(Sec. 4, 62 Stat. 1070, as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 105, 401, 63 Stat. 1051, as amended, Title II, 73 Stat. 178, 15 U.S.C. 714c, 7 U.S.C. 1421, 1441)

Issued this 27th day of May 1960.

CLARENCE D. PALMBY,
Acting Executive Vice President, Commodity Credit Corporation.

[1960 C.C.C. Grain Price Support Bulletin 1, Supp. 1, Amdt. 1, Barley]

PART 421—GRAINS AND RELATED COMMODITIES

Subpart—1960-Crop Barley Loan and Purchase Agreement Program

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service published in 25 F.R. 3570, and containing the specific requirements for the 1960-Crop Barley Price Support Program are hereby amended as follows:

1. Section 421.5083(a)(2)(ii) is amended to provide the amount of deduction from the designated terminal market on barley received by truck so that the amended subdivision reads as follows:

§ 421.5083 Determination of support rates.

(a) • • •

(2) • • •

(ii) The support rate for barley received by truck and stored at any designated terminal market shall be determined by making a deduction from the terminal rate as follows:

Terminal market:	*Amount of deduction (cents per bushel)*
Atchinson, Kans	8.5
Kansas City, Mo	8.5
Saint Joseph, Mo	8.5
Omaha, Nebr	8.5
Saint Louis, Mo	8.5
Sioux City, Iowa	12.5
Minneapolis, Minn	12.5
Saint Paul, Minn	12.5
Chicago, Ill	12.5
Milwaukee, Wis	12.5
Memphis, Tenn	12.5

2. Section 421.5083(a)(3)(ii) is amended to provide the amount of deduction from the designated terminal market on barley received by truck so that the amended subdivision reads as follows:

(ii) Notwithstanding the foregoing provisions of this paragraph, the support rate for barley received by truck and stored at any of the terminal markets listed in subdivision (i) of this subparagraph shall be determined by making a deduction of 2.5 cents per bushel from the terminal rate, plus the transportation cost, if any, as determined by the appropriate CSS commodity office for moving the barley to a tidewater loading facility located within the same switching limits.

3. Section 421.5084(a)(1) is amended to provide the storage charges per bushel to be deducted in computing the amount of the loan or purchase price when such charges have not been prepaid, and in the case of recourse loans, the amount of handling charges to be deducted so that the amended subparagraph reads as follows:

§ 421.5084 Warehouse charges.

(a)(1) Warehouse receipts and the barley represented thereby stored in an approved warehouse operating under the Uniform Grain Storage Agreement may be subject to liens for warehouse handling and storage charges at not to exceed the Uniform Grain Storage Agreement rates from the date the barley is deposited in the warehouse for storage: *Provided*, That the warehouseman shall not be entitled to satisfy the lien by sale of the commodity when CCC is holder of the warehouse receipt. Where the date of deposit (the date of the warehouse receipt if the date of deposit is not shown) on warehouse receipts representing barley stored in warehouses operating under the Uniform Grain Storage Agreement is on or before the applicable nonrecourse loan maturity date, there shall be deducted in computing the amount of the loan or purchase price the storage charges per bushel as shown in the following table unless written evidence has been submitted with the warehouse receipt that all warehouse charges, except receiving and loading out charges, have been prepaid through the applicable nonrecourse loan maturity date to be determined in accordance with § 421.5082.

Amount of deduction (cents per bushel)	For States having a maturity date not later than Apr. 30, 1961—Date the storage charges start (all dates inclusive)	For States having a maturity date not later than Mar. 10, 1961—Date the storage charges start (all dates inclusive)	For States having a maturity date not later than Feb. 28, 1961—Date the storage charges start (all dates inclusive)
13	Prior to June 6, 1960		
12	June 6–June 27, 1960	Prior to May 17, 1960	
11	June 28–July 21, 1960	May 17–June 7, 1960	Prior to May 20, 1961.
10	July 22–Aug. 17, 1960	June 8–June 29, 1960	May 20–June 20, 1960.
9	Aug. 18–Sept. 13, 1960	June 30–July 24, 1960	June 21–July 14, 1960.
8	Sept. 14–Oct. 10, 1960	July 25–Aug. 20, 1960	July 15–Aug. 10, 1960.
7	Oct. 11–Nov. 6, 1960	Aug. 21–Sept. 16, 1960	Aug. 11–Sept. 6, 1960.
6	Nov. 7–Dec. 3, 1960	Sept. 17–Oct. 13, 1960	Sept. 7–Oct. 3, 1960.
5	Dec. 4–Dec. 30, 1960	Oct. 14–Nov. 9, 1960	Oct. 4–Oct. 30, 1960.
4	Dec. 31, 1960–Jan. 26, 1961	Nov. 10–Dec. 6, 1960	Oct. 31–Nov. 25, 1960.
3	Jan. 27–Feb. 22, 1961	Dec. 7, 1960–Jan. 2, 1961	Nov. 27–Dec. 23, 1960.
2	Feb. 23–Mar. 21, 1961	Jan. 3–Jan. 29, 1961	Dec. 24, 1960–Jan. 18, 1961.
1	Mar. 22–Apr. 30, 1961	Jan. 30–Mar. 10, 1961	Jan. 20–Feb. 28, 1961.

In the case of recourse loans there shall be deducted in determining the support rate, storage charges per bushel per day from the date the storage charges start against holders of the warehouse receipt to the recourse loan maturity date of January 31, 1962, as provided in the Schedule of Rates of the Uniform Grain Storage Agreement in effect when the services are performed, unless written evidence has been received that such charges have been prepaid. In addition to the provisions contained in § 421.5083 (a) and (b) for determining the support rate there shall also be deducted on recourse loans 2.5 cents per bushel for barley received by rail, water or truck, unless written evidence has been received that the receiving and loading out charges have been prepaid. If the receiving and loading out charges for truck received barley have been prepaid, the support rate as determined under § 421.5083 (a)(2)(ii) and (a)(3)(ii) shall be increased 2.5 cents per bushel on recourse loans. For barley received by truck in approved warehouses where the support rate is not determined under § 421.5083 (a) and (b), there shall also be deducted from the county support rate on recourse loans the receiving and loading out charges provided in the Schedule of Rates of the Uniform Grain Storage Agreement in effect when the services are performed, unless written evidence has been received that the receiving and loading out charges have been prepaid.

(Sec. 4, 62 Stat. 1070, as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 105, 401, 63 Stat. 1051, as amended, Title II, 73 Stat. 178, 15 U.S.C. 714, 7 U.S.C. 1421, 1441)

Issued this 27th day of May 1960.

CLARENCE D. PALMBY,
Acting Executive Vice President, Commodity Credit Corporation.

[1960 C.C.C. Grain Price Support Bulletin 1, Supp. 1, Amdt. 1, Rye]

PART 421—GRAINS AND RELATED COMMODITIES

Subpart—1960-Crop Rye Loan and Purchase Agreement Program

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service published in 25 F.R. 3781 and containing the specific requirements for the 1960-Crop Rye Price Support Program are hereby amended as follows:

1. Section 421.5383(a)(2)(ii) is amended to provide the amount of deduction from the designated terminal market on rye received by truck so that the amended subdivision reads as follows:

§ 421.5383 Determination of support rates.

(a) • • •

(2) • • •

(ii) The support rate for rye received by truck and stored at any designated terminal market shall be determined by making a deduction of 15.26 cents per bushel from the terminal rate.

2. Section 421.5383(a)(3)(ii) is amended to provide the amount of deduction from the designated port terminal market on rye received by truck so that the amended subdivision reads as follows:

(ii) Notwithstanding the foregoing provisions of this paragraph, the support rate for rye received by truck and stored at any of the terminal markets listed in subdivision (i) of this subparagraph shall be determined by making a deduction of 3.25 cents per bushel from the terminal rate, plus the transportation cost, if any, as determined by the appropriate CSS commodity office for moving the rye to a tidewater loading facility located within the same switching limits.

3. Section 421.5384(a)(1) is amended to provide the storage charges per bushel to be deducted in computing the amount of the loan or purchase price when such charges have not been prepaid and in the case of recourse loans the amount of handling charges to be deducted so that the amended subparagraph reads as follows:

§ 421.5384 Warehouse charges.

(a)(1) Warehouse receipts and the rye represented thereby stored in an ap-

proved warehouse operating under the Uniform Grain Storage Agreement may be subject to the liens for warehouse handling and storage charges at not to exceed the Uniform Grain Storage Agreement rates from the date the rye is deposited in the warehouse for storage: *Provided*, That the warehouseman shall not be entitled to satisfy the lien by sale of the commodity when CCC is holder of the warehouse receipt. Where the date of deposit (the date of the warehouse receipt if the date of deposit is not shown) on warehouse receipts representing rye stored in warehouses operating under the Uniform Grain Storage Agreement is on or before the applicable nonrecourse loan maturity date, there shall be deducted in computing the amount of the loan or purchase price the storage charges per bushel as shown in the following table unless written evidence has been submitted with the warehouse receipt that all warehouse charges, except receiving and loading-out charges, have been prepaid through the applicable nonrecourse loan maturity date to be determined in accordance with § 421.5382.

Amount of deduction (cents per bushel)	For States having a maturity date not later than Apr. 30, 1961—Date storage charges start (all dates inclusive)	For States having a maturity date not later than Feb. 28, 1961—Date storage charges start (all dates inclusive)
13	Prior to June 6, 1960.	Prior to May 13, 1960.
12	June 6, 1960–June 26, 1960.	May 13, 1960–June 1, 1960.

5	Dec. 4, 1960–Dec. 30, 1960.	Oct. 31, 1960–Nov. 26, 1960.
4	Dec. 31, 1960–Jan. 26, 1961.	Nov. 27, 1960–Dec. 23, 1960.
3	Jan. 27, 1961–Feb. 22, 1961.	Dec. 24, 1960–Jan. 19, 1961.
2	Feb. 23, 1961–Mar. 21, 1961.	Jan. 20, 1961–Feb. 28, 1961.
1	Mar. 22, 1961–Apr. 30, 1961.	

In the case of recourse loans there shall be deducted in determining the support rate, the storage charges per day from the date the storage charges start against holders of the warehouse receipt to the recourse loan maturity date of January 31, 1962, provided in the Schedule of Rates of the Uniform Grain Storage Agreement in effect when the services are performed, unless written evidence has been received that such charges have been prepaid. In addition to the provisions contained in § 421.5383 (a) and (b) for determining the support rate, there shall also be deducted on recourse loans 2.5 cents per bushel for rye received by rail, water or truck, unless written evidence has been received that the receiving and loading-out charges have been prepaid. If the receiving and loading-out charges for truck received rye have been prepaid, the support rate as determined under § 421.5383 (a)(2)(ii) and (a)(3)(ii) shall be increased 3.25 cents per bushel on recourse loans. For rye received by truck in approved warehouses where the support rate is not determined under § 421.5383 (a) and (b), there shall also be deducted from the county support rate on recourse loans the amount of the receiving and loading-out charge provided in the Schedule of Rates of the Uniform Grain Storage Agreement in effect when the services are performed, unless written evidence has been received that such receiving and loading-out charges have been prepaid.

(Sec. 4, 62 Stat. 1070, as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 105, 401, 63 Stat. 1051, as amended; Title II, 73 Stat. 178, 15 U.S.C. 714c, 7 U.S.C. 1421, 1441)

Issued this 27th day of May 1960.

CLARENCE D. PALMBY,
Acting Executive Vice President, Commodity Credit Corporation.

[F.R. Doc. 60-5058; Filed, June 2, 1960; 8:54 a.m.]

Title 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Milk Order No. 11]

PART 911—MILK IN THE TEXAS PANHANDLE MARKETING AREA

Order Amending Order

§ 911.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Texas Panhandle marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order effective not later than June 1, 1960.

The provisions of the said order are known to handlers. The recommended decision of the Deputy Administrator of the Agricultural Marketing Service was issued April 13, 1960, and the decision of the Acting Secretary containing all amendment provisions of this order, was issued May 12, 1960. The changes effected by this order will not require extensive preparation or substantial alteration of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective June 1, 1960, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (See section 4 (c), Administrative Procedure Act, 5 U.S.C. 1001 et seq.)

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in section 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Texas Panhandle marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, and the aforesaid order is hereby amended as follows:

§ 911.46 [Amendment]

1. Delete § 911.46(a)(4) and substitute therefor the following:

(4) Whenever the total receipts of producer milk by all handlers are less than 110 percent of Class I sales by all handlers, subtract from the remaining pounds of skim milk in Class II milk an amount equal to such remainder, or the product obtained by multiplying the pounds of skim milk in producer milk by 0.05, whichever is less.

§ 911.51 [Amendment]

2. Delete § 911.51(b) and substitute therefor the following:

(b) *Class II milk price.* For the months of July through February, the price for Class II milk shall be the price computed pursuant to § 911.50(b), and for the months of March through June, such price less 13 cents.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Issued at Washington, D.C., this 27th day of May 1960, to be effective on and after the 1st day of June 1960.

CLARENCE L. MILLER,
Assistant Secretary.

[F.R. Doc. 60-4971; Filed, June 2, 1960; 8:45 a.m.]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

Findings and Determinations Relative to Expenses To Be Incurred and Fixing of Rates of Assessment for the 1960–61 Season

On May 11, 1960, notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 4184) regarding the expenses and the fixing of the rates of assessment for the 1960–61 season pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR Part 936), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals which were submitted by the Control Committee (established pursuant to said amended marketing agreement and order) and set forth in the aforesaid notice, it is hereby found and determined that:

§ 936.214 Expenses and rates of assessment for the 1960–61 season.

(a) *Expenses.* The expenses likely to be incurred by the Control Committee during the 1960–61 season beginning March 1, 1960, and ending February 28, 1961, both dates inclusive, for the maintenance and functioning of such committee and the respective commodity committees, established pursuant to the provisions of the aforesaid amended marketing agreement and order, are as follows:

(1) Bartlett pears, $23,048.81;

(2) Early varieties of plums, $20,129.02;

(3) Late varieties of plums, $20,177.51; and

(4) Elberta peaches, $12,449.66.

(b) *Rates of assessment.* The following rates of assessment, which each handler shall pay in accordance with the applicable provisions of said amended marketing agreement and order, are hereby fixed as the respective handler's pro rata share of the aforesaid expenses:

(1) 8 and ½ mills ($0.0085) per standard western pear box of Bartlett pears, or its equivalent in other containers or in bulk;

(2) 8 and ½ mills ($0.0085) per standard four-basket crate of early varieties of plums, or its equivalent in other containers or in bulk;

(3) 8 and ½ mills ($0.0085) per standards four-basket crate of late varieties of plums, or its equivalent in other containers or in bulk; and

(4) 5 mills ($0.035) per California peach box of Elberta peaches, or its equivalent in other containers or in bulk.

(c) It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 1001–1011) in that (1) the respective rates of assessment are applicable to all fresh Bartlett pears, early varieties of plums, late varieties of plums, and Elberta peaches shipped during the 1960–61 season; (2) shipments of plums have already commenced and shipments of Elberta peaches are expected to begin on or about June 17, 1960, with shipments of Bartlett pears following on or about July 11, 1960; (3) the provisions hereof do not impose any obligation on a handler until such handler ships plums, Elberta peaches or Bartlett pears; and (4) it is essential that the specification of the assessment rates be issued immediately so that the aforesaid assessment may be collected and thereby enable the said Control Committee and commodity committees to perform their duties and functions in accordance with said amended marketing agreement and order.

(d) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order. The terms hereof shall become effective upon publication in the FEDERAL REGISTER.

(Secs. 1–19, 48 Stat., as amended; 7 U.S.C. 601–674)

Dated: May 31, 1960.

S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 60-5052; Filed, June 2, 1960; 8:53 a.m.]

PART 937—NECTARINES GROWN IN CALIFORNIA

Determination Relative to the Expenses and the Fixing of the Rate of Assessment for the 1960–61 Fiscal Period and Carryover of Unexpended Funds

Notice was published in the May 11, 1960, issue of the FEDERAL REGISTER (25 F.R. 4184) that consideration was being given to proposals regarding the expenses and the fixing of the rate of assessment for the fiscal period ending February 28, 1961, under the marketing agreement and Order No. 37 (7 CFR Part 937), regulating the handling of nectarines grown in California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Nectarine Administrative Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

§ 937.203 Expenses and rate of assessment for the 1960–61 fiscal period.

(a) *Expenses.* The expenses that are reasonable and likely to be incurred by the Nectarine Administrative Committee, established pursuant to the provisions of the aforesaid marketing agreement and order, to enable such committee to perform its functions, in accordance with the provisions thereof, during the fiscal period beginning March 1, 1960, and ending February 28, 1961, will amount to $114,000.

(b) *Rate of assessment.* The rate of assessment, which each handler who first handles nectarines shall pay as his pro rata share of the aforementioned expenses in accordance with the applicable provisions of said marketing agreement and order, is hereby fixed at three cents ($0.03) per standard lug box, or equivalent quantity of nectarines in other containers or in bulk so handled by such handler during such fiscal period.

(c) *Reserve.* Unexpended assessment funds, in excess of expenses incurred during the fiscal period ending February 28, 1961, shall be carried over as a reserve in accordance with the applicable provisions of § 937.42 of said marketing agreement and order.

It is hereby further found that good cause exists for not postponing the effective time hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 1001–1011) in that (1) shipments of nectarines are now being made; (2) the rate of assessment is applicable to all nectarines shipped during the aforementioned fiscal period; and (3) it is essential that the specification of assessment rate be issued immediately so as to enable the said Nectarine Administrative Committee to perform its duties and functions in accordance with said marketing agreement and order.

Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order, and "standard lug box" shall mean the No. 26 standard lug box set forth in § 828.4 of the Agricultural Code of California.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated May 31, 1960, to become effective upon publication in the FEDERAL REGISTER.

S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 60-5053; Filed, June 2, 1960; 8:53 a.m.]

[Milk Order No. 82]

PART 982—MILK IN CENTRAL WEST TEXAS MARKETING AREA

Order Amending Order

§ 982.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Central West Texas marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order effective not later than June 1, 1960.

The provisions of the said order are known to handlers. The recommended decision of the Deputy Administrator of the Agricultural Marketing Service was issued April 15, 1960 and the decision of the Acting Secretary containing all amendment provisions of this order, was issued May 12, 1960. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective June 1, 1960, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (See section 4(c), Administrative Procedure Act, 5 U.S.C. 1001 et seq.)

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in section 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area.

Order relative to handling. It is Therefore Ordered, that on and after the effective date hereof, the handling of milk in the Central West Texas marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, and the aforesaid order is hereby amended as follows:

§ 982.51 [Amendment]

1. Delete § 982.51(a) and substitute therefor the following:

(a) *Class II milk.* Subject to the provisions of § 982.52, the minimum price per hundredweight to be paid by each handler for milk received at his plant from producers and classified as Class II milk shall be the sum of the plus values computed as follows:

(1) From the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) per pound of Grade A (92-score) bulk creamery butter at Chicago, as reported by the Department during the month, subtract 3 cents, add 20 percent thereof and multiply by 4.0;

(2) From the simple average as computed by the market administrator of the weighted averages of carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f.o.b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department, deduct 5.5 cents, multiply by 8.5 and multiply by 0.96.

2. Add as § 982.54 the following:

§ 982.54 Use of equivalent prices.

If for any reason a price quotation required by this order for computing class prices or for any other purpose is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Issued at Washington, D.C., this 27th day of May 1960, to be effective on and after the 1st day of June 1960.

CLARENCE L. MILLER,
Assistant Secretary.

[F.R. Doc. 60-4973; Filed, June 2, 1960; 8:45 a.m.]

Title 12—BANKS AND BANKING

Chapter II—Federal Reserve System

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. Y]

PART 222—BANK HOLDING COMPANIES

Procedure on Applications for Approval of Acquisition of Bank Shares or Assets

1. Effective July 1, 1960, paragraphs (d) and (e) of § 222.4 are amended to read as follows:

§ 222.4 Acquisition of bank shares or assets.

* * * * *

(d) *Submission of applications.* An application for approval by the Board of any transaction requiring such approval under paragraph (a) of this section shall be filed with the Federal Reserve Bank.[2a] Three copies of such application shall be filed except where, pursuant to the provisions of paragraph (e) of this section, copies of the application are required to be transmitted to both the Comptroller of the Currency and the appropriate State supervisory authority, in which circumstances four copies of the application shall be filed. The application shall be filed not less than 60 days before the date on which it is proposed that the transaction requiring approval be consummated.[2] However, the Board in its discretion may, upon good cause shown, accept an application although submitted within such period of 60 days. A separate application shall be filed with respect to each bank the voting shares or assets of which are sought to be acquired by an existing bank holding company or nonbanking subsidiary thereof.

(e) *Procedure on applications.* (1) A Federal Reserve Bank receiving an application under this section will retain one copy thereof and will forward all other copies to the Board. If either the applicant or the bank the voting shares or assets of which are sought to be acquired is a national bank or a District bank, the Board will transmit a copy of the application to the Comptroller of the Currency. If either the applicant or the bank the voting shares or assets of which are sought to be acquired is a State bank, the Board will transmit a copy of the application to the bank supervisory authority of the State in which such bank is located.

(2) Following the receipt of an application under this section, the Board will publish in the FEDERAL REGISTER a notice of such receipt, stating the names and addresses of the applicant and the bank or banks involved, indicating the general nature of the proposed transaction, and allowing 30 days (or a shorter period in exceptional circumstances) for the submission of written comments or views. Such comments or views shall be submitted to the Board or to the Federal Reserve Bank for transmission to the Board.

2a. The purposes of this amendment are to give public notice of the receipt of application filed pursuant to § 222.4 and thereby (i) afford interested persons full opportunity to submit to the Board comments and views with respect to such applications, and (ii) facilitate disposition of applications by the Board in the light of such comments or views. The procedure here contemplated will supersede the procedure of announcing tentative decisions on applications.

b. A draft form of this amendment was the subject of a notice of proposed rule making, published in the FEDERAL REGISTER (25 F.R. 2140). After consideration of all relevant views and arguments received from interested persons, the Board has adopted the amendment herein set forth.

(Sec. 5(b), 70 Stat. 133; 12 U.S.C. 1844(b))

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
[SEAL] MERRITT SHERMAN,
Secretary.

[F.R. Doc. 60-4995; Filed, June 2, 1960; 8:47 a.m.]

[2a] The term "Federal Reserve Bank", as used herein, means the Federal Reserve Bank of the Federal Reserve district in which the applicant has its principal office.

[2] In some cases it may not be possible for the Board to act upon an application within such period of 60 days and this requirement should not be regarded as suggesting that the Board will act upon all applications within that period of time, although every effort will be made to expedite such action.

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER C—AIRCRAFT REGULATIONS

[Reg. Docket No. 330; Amdt. 168]

PART 507—AIRWORTHINESS DIRECTIVES

De Havilland Dove 104 Aircraft

A proposal to amend Part 507 of the regulations of the Administrator to include an airworthiness directive requiring inspection for cracks in the wing root joint fitting of De Havilland Dove Model 104 aircraft, and replacement of defective parts to preclude occurrence of an unsafe condition in service was published in 25 F.R. 2860.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

In consideration of the foregoing § 507.10(a), (14 CFR Part 507), is hereby amended by adding the following new airworthiness directive:

DE HAVILLAND. Applies to De Havilland Dove Model 104, Serial Numbers 04001 through 04507.

Compliance required as indicated.

During fatigue tests cracks caused by corrosion and fretting occurred in the wing main lower root joint fitting at an equivalent time in service of 13,000 hours. To preclude the failure of this fitting in service, compliance with De Havilland Technical News Sheet CT(104) No. 168 Issue No. 2, is required by July 15, 1960, for aircraft which have exceeded 12,000 hours time in service. For all other aircraft compliance required before the aircraft exceeds 12,000 hours time in service but not later than: December 31, 1960, for Serial Numbers 04001 through 04463; December 31, 1961, for Serial Numbers 04464 through 04507.

Magnetic particle and dye penetrant methods of inspection may be used in lieu of the crack testing methods called for in De Havilland Technical News Sheet CT(104) No. 168 Issue No. 2. Other jointing, antifretting and anticorrosive, and sealing compounds, if shown to be equivalent to the commercially designated compounds in De Havilland Technical News Sheet CT(104) No. 168 Issue No. 2, may be used.

(Sec. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423.)

Issued in Washington, D.C., on May 26, 1960.

E. R. QUESADA,
Administrator.

[F.R. Doc. 60-4961; Filed, June 2, 1960; 8:45 a.m.]

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 59-WA-308]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Modification; Change of Effective Date

On February 2, 1960, there was published in the FEDERAL REGISTER (25 F.R. 856) an amendment to § 600.6058 of the regulations of the Administrator. This amendment, to be effective July 28, 1960, modified VOR Federal airway No. 58 between Imperial, Pa., and Tyrone, Pa., concurrently with the commissioning of a VOR near Carrolltown, Pa.

The commissioning date of the Carrolltown, Pa., VOR has been rescheduled. Therefore, it is necessary to postpone the effective date of the above-mentioned amendment until November 17, 1960.

Since this action does not impose a burden on the public, compliance with the notice, public procedure and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), effective immediately, Airspace Docket No. 59-WA-308 is hereby modified as follows: "effective 0001, e.s.t., July 28, 1960." is deleted and "effective 0001, e.s.t., November 17, 1960." is substituted therefor.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 27, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-4983; Filed, June 2, 1960; 8:46 a.m.]

[Airspace Docket No. 59-WA-309]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

Modification; Change of Effective Date

On February 2, 1960, there was published in the FEDERAL REGISTER (25 F.R. 856) an amendment to § 600.6276 of the regulations of the Administrator. This amendment, to be effective July 28, 1960, modified VOR Federal airway No. 276 between Elwood City, Pa., and Tyrone, Pa. This realignment of V276, although not designated via the Carrolltown, Pa., VOR, is part of the planned airway structure based on the commissioning of this new facility. Consequently, this amendment should become effective concurrently with the commissioning of the Carrolltown VOR.

The commissioning date of the Carrolltown VOR has been rescheduled. Therefore, it is necessary to postpone the effective date of the above-mentioned amendment until November 17, 1960.

Since this action does not impose a burden on the public, compliance with the notice, public procedure and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), effective immediately, Airspace Docket No. 59-WA-309 is hereby modified as follows: "effective 0001 e.s.t. July 28, 1960." is deleted and "effective 0001 e.s.t. November 17, 1960." is substituted therefor.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 27, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-4984; Filed, June 2, 1960; 8:46 a.m.]

[Airspace Docket No. 59-NY-1]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Extension of Federal Airway and Associated Control Areas; Change of Effective Date

On January 26, 1960, there was published in the FEDERAL REGISTER (25 F.R. 630) amendments to §§ 600.6151 and

601.6151 of the regulations of the Administrator. These amendments, to be effective July 28, 1960, extended VOR Federal airway No. 151 and its associated control areas from Lebanon, N.H., to Burlington, Vt., concurrently with the commissioning of a VOR near Montpelier, Vt.

The commissioning date of the Montpelier VOR has been rescheduled. Therefore, it is necessary to postpone the effective date of the above-mentioned amendments until October 20, 1960.

Since this action does not impose a burden on the public, compliance with the notice, public procedure and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), effective immediately, Airspace Docket No. 59–NY–1 is hereby modified as follows: "effective 0001 e.s.t. July 28, 1960." is deleted and "effective 0001 e.s.t. October 20, 1960." is substituted therefor.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 27, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-4982; Filed, June 2, 1960; 8:46 a.m.]

[Airspace Docket No. 59–WA–105]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Designation of Federal Airway and Associated Control Areas; Change of Effective Date

On January 28, 1960, there was published in the FEDERAL REGISTER (25 F.R. 631) amendments to Parts 600 and 601 of the regulations of the Administrator. These amendments, to be effective July 28, 1960, designated a new airway, VOR Federal airway No. 447, and its associated control areas from Montpelier, Vt., to Newport, Vt., concurrently with the commissioning of a VOR near Montpelier.

The commissioning date of the Montpelier VOR has been rescheduled. Therefore, it is necessary to postpone the effective date of the above-mentioned amendments until October 20, 1960.

Since this action does not impose a burden on the public, compliance with the notice, public procedure and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), effective immediately, Airspace Docket No. 59–WA–105 is hereby modified as follows: "effective 0001 e.s.t. July 28, 1960." is deleted and "effective 0001 e.s.t. October 20, 1960." is substituted therefor.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on May 27, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-4985; Filed, June 2, 1960; 8:46 a.m.]

[Airspace Docket No. 59–WA–310]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Extension of Federal Airway and Associated Control Areas; Change of Effective Date

On April 30, 1960, there was published in the FEDERAL REGISTER (25 F.R. 3815) amendments to §§ 600.6210 and 601.6210 of the regulations of the Administrator. These amendments, to be effective July 28, 1960, extended VOR Federal airway No. 210 and its associated control areas from Imperial, Pa., to Harrisburg, Pa., concurrently with the commissioning of a VOR near Carrolltown, Pa.

The commissioning date of the Carrolltown VOR has been rescheduled. Therefore, it is necessary to postpone the effective date of the above-mentioned amendments until November 17, 1960.

Since this action does not impose a burden on the public, compliance with the notice, public procedure and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), effective immediately, Airspace Docket No. 59–WA–310 is hereby modified as follows: "effective 0001, e.s.t., July 28, 1960." is deleted and "effective 0001, e.s.t., November 17, 1960." is substituted therefor.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 27, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 7677 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Geenblatt's, Inc., of Ind., and Harold Michelson

Subpart—Advertising falsely or misleadingly: § 13.155 *Prices:* § 13.155–40 *Exaggerated as regular and customary;* § 13.155–70 *Percentage savings.* Subpart—Invoicing products falsely: § 13.1108 *Invoicing products falsely;* § 13.1108–45 *Fur Products Labeling Act.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1845 *Composition:* § 13.1845–30 *Fur Products Labeling Act;* § 13.1852 *Formal regulatory and statutory requirements;* § 13.1845–35 *Fur Products Labeling Act;* § 13.1865 *Manufacture or preparation:* § 13.1865–40 *Fur Products Labeling Act;* § 13.1886 *Quality, grade or type;* § 13.1900 *Source or origin:* § 13.1900–40 *Fur Products Labeling Act;* § 13.1900–40(b) *Place.*

(Sec. 6, 38 Stat. 722; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 719; 15 U.S.C. 45, 69f) [Cease and desist order, Greenblatt's, Inc., of Ind., et al., Fort Wayne, Ind., Docket 7677, April 20, 1960]

The complaint in this case charged furriers in Fort Wayne, Ind., with violating the Fur Products Labeling Act by advertising in newspapers which failed to disclose that fur products were artificially colored or made of cheap or waste fur and to disclose the country of origin of imported furs, represented fictitious amounts as to the usual prices and made deceptive percentage savings claims; by failing to keep adequate records as a basis for said pricing claims; and by failing to comply with invoicing requirements.

Based on a consent agreement, the hearing examiner made his initial decision and order to cease and desist which became on April 20 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents Greenblatt's, Inc., of Indiana, a corporation, and its officers, and Harold Michelson, individually and as an officer of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, offering for sale, transportation or distribution, in commerce, of any fur product, or in connection with the sale, advertising, offering for sale, transportation, or distribution of any fur product which is made in whole or in part of fur which has been shipped and received in commerce, as "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

1. Falsely and deceptively invoicing fur products by:

A. Failing to furnish to purchasers of fur products invoices showing all the information required to be disclosed by each of the subsections of section 5(b) (1) of the Fur Products Labeling Act;

2. Falsely and deceptively advertising fur products through the use of any advertisement, representation, public announcement, or notice which is intended to aid, promote or assist, directly or indirectly, in the sale, or offering for sale of fur products, and which:

A. Fails to disclose:

(1) The name or names of the animal or animals producing the fur or furs contained in the fur product, as set forth in the Fur Products Name Guide, and as prescribed under the rules and regulations;

(2) That the fur product contains or is composed of bleached, dyed or otherwise artificially colored fur, when such is the fact;

(3) That the fur product is composed in whole or in substantial part of paws, tails, bellies and waste fur, when such is the fact;

(4) The name of the country of origin of any imported furs contained in a fur product;

B. Fails to set forth the information required under section 5(a) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder in type of equal size and conspicuousness and in close proximity with each other;

C. Represents, directly or by implication, that respondents' regular or usual price of any fur product is any amount which is in excess of the price at which they have usually and customarily sold such products in the recent regular course of business;

D. Represents, directly or by implication, through percentage savings claims that the regular or usual retail prices charged by respondents for fur products in the recent regular course of business were reduced in direct proportion to the amount of savings stated, when contrary to the fact;

E. Misrepresents in any manner the savings available to purchasers of respondents' fur products;

3. Making claims or representations in advertisements respecting prices or values of fur products unless respondents maintain full and adequate records disclosing the facts upon which such claims and representations are based.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents Greenblatt's, Inc., of Indiana, a corporation, and Harold Michelson, individually and as an officer of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: April 20, 1960.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F.R. Doc. 60-4997; Filed, June 2, 1960; 8:47 a.m.]

[Docket 7661 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Ozan's Furs and R. H. Ozan

Subpart—Misbranding or mislabeling: § 13.1212 *Formal regulatory and statutory requirements;* § 13.1212–30 *Fur Products Labeling Act.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 *Formal regulatory and statutory requirements:* § 13.1852–35 *Fur Products Labeling Act.*

(Sec. 6, 38 Stat. 722; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 719; 15 U.S.C. 45, 69f) [Cease and desist order, Ozan's Furs, Reading, Pa., Docket 7661, April 13, 1960]

The complaint in this case charged a Reading, Pa., furrier with violating the Fur Products Labeling Act by failing to comply with labeling and invoicing requirements.

On the basis of a consent agreement, the hearing examiner made his initial decision and order to cease and desist which became on April 13 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That R. H. Ozan, an individual trading as Ozan's Furs, or under any other name, and respondent's representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, offering for sale, transportation or distribution, in commerce, of fur products, or in connection with the sale, advertising, offering for sale, transportation, or distribution of fur products which are made in whole or in part of fur which has been shipped and received in commerce as "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Misbranding fur products by:

1. Failing to affix labels to fur products showing in words and figures plainly legible all of the information required to be disclosed by each of the subsections of section 4(2) of the Fur Products Labeling Act;

2. Setting forth on labels affixed to fur products information required under section 4(2) of the Fur Products Labeling Act and the Rules and Regulations promulgated thereunder:

(a) In abbreviated form;

(b) Mingled with non-required information;

(c) In handwriting;

3. Failing to set forth on labels the item number or mark assigned to a fur product.

B. Falsely or deceptively invoicing fur products by:

1. Failing to furnish to purchasers of fur products an invoice showing all of the information required to be disclosed by each of the subsections of section 5(b)(1) of the Fur Products Labeling Act;

2. Setting forth required information in abbreviated form;

3. Failing to set forth the term "Dyed Broadtail-processed Lamb" as required;

4. Failing to set forth the item number or mark assigned to a fur product.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondent R. H. Ozan, an individual trading as Ozan's Furs, shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which he has complied with the order to cease and desist.

Issued: April 13, 1960.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F.R. Doc. 60-4998; Filed, June 2, 1960; 8:47 a.m.]

Title 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

Exemption of Certain Transactions

Section 16(b) of the Securities Exchange Act of 1934 provides that profits realized by an officer or director of a company having any class of equity securities registered on a national securities exchange, or by any person owning beneficially more than 10 percent of such registered securities, from the purchase and sale or the sale and purchase within a period of less than six months of any equity security of such company shall inure to and be recoverable on behalf of the company. Rule 16b–3 has heretofore provided an exemption from these provisions for shares of stock acquired pursuant to bonus, profit sharing, retirement, thrift, savings or similar plans meeting specified conditions. The rule also exempted the acquisition of nontransferable options, and stock acquired under such options, pursuant to a plan meeting similar conditions.

On November 5, 1959, the Commission published, in Release No. 6111, notice of a proposal to amend Rule 16b–3 (§ 240.16b–3) to delete, as a matter of

policy, the exemption for stock acquired upon the exercise of options and to provide that the selection of persons participating in plans subject to the rule be made by a disinterested board of directors or committee. A revised proposal was published on April 6, 1960, in Release No. 6227. The proposal has been further revised in the light of the comments received and, after consideration of the views expressed by all those who submitted letters of comment, the Commission has adopted an amendment in the form set forth below.

§ 240.16b–3 Exemption from section 16 (b) of acquisitions of shares of stock and restricted stock options under certain stock bonus, stock option or similar plans.

Any acquisition of shares of stock (other than stock acquired upon the exercise of an option, warrant or right) pursuant to a stock bonus, profit sharing, retirement, incentive, thrift, savings, or similar plan, or any acquisition of a restricted stock option pursuant to a restricted stock option plan, by a director or officer of the issuer of such stock or restricted stock option shall be exempt from the operation of section 16(b) of the Act if the plan meets the following conditions:

(a) The plan has been duly approved, directly or indirectly:

(1) By the holders of a majority of the securities of the issuer present, or represented, and entitled to vote at a meeting for which proxies were solicited substantially in accordance with the rules and regulations, if any, then in effect under section 14(a) of the Act, or by the written consent of the holders of a majority of the securities of the issuer entitled to vote solicited substantially in accordance with such rules and regulations, whether or not such rules and regulations were applicable to such solicitations; or

(2) By the holders of a majority of the securities of a predecessor corporation entitled to vote, in the manner specified in subparagraph (1) of this paragraph, if the plan or obligations to participate thereunder were assumed by the issuer in connection with the succession.

(b) If the selection of any director or officer of the issuer to whom stock may be allocated or to whom restricted stock options may be granted pursuant to the plan, or the determination of the number or maximum number of shares of stock which may be allocated to any such director or officer or which may be covered by restricted stock options granted to any such director or officer, is subject to the discretion of any person, then such discretion shall be exercised only as follows:

(1) With respect to the participation of directors:

(i) By the board of directors of the issuer, a majority of which board and a majority of the directors acting in the matter are disinterested persons;

(ii) By, or only in accordance with the recommendation of, a committee of three or more persons having full authority to act in the matter, all of the members of which committee are disinterested persons; or

(iii) Otherwise in accordance with the plan, if the plan (*a*) specifies the number or maximum number of shares of stock which directors may acquire or which may be subject to restricted stock options granted to directors and the terms upon which and the times at which, or the periods within which, such stock may be acquired or such options may be acquired and exercised; or (*b*) sets forth, by formula or otherwise, effective and determinable limitations with respect to the foregoing based upon earnings of the issuer, dividends paid, compensation received by participants, option prices, market value of shares, outstanding shares or percentages thereof outstanding from time to time, or similar factors.

(2) With respect to the participation of officers who are not directors:

(i) By the board of directors of the issuer or a committee of three or more directors; or

(ii) By, or only in accordance with the recommendations of, a committee of three or more persons having full authority to act in the matter, all of the members of which committee are disinterested persons.

For the purpose of this paragraph, a director or committee member shall be deemed to be a disinterested person only if such person is not at the time such discretion is exercised eligible and has not at any time within one year prior thereto been eligible for selection as a person to whom stock may be allocated or to whom restricted stock options may be granted pursuant to the plan or any other plan of the issuer or any of its affiliates entitling the participants therein to acquire stock or restricted stock options of the issuer or any of its affiliates.

(c) (1) As to each participant or as to all participants the plan effectively limits the aggregate dollar amount or the aggregate number of shares of stock which may be allocated, or which may be subject to restricted stock options granted, pursuant to the plan. The limitations may be established on an annual basis, or for the duration of the plan, whether or not the plan has a fixed termination date, and may be determined either by fixed or maximum dollar amounts or fixed or maximum numbers of shares or by formulas based upon earnings of the issuer, dividends paid, compensation received by participants, option prices, market value of shares, outstanding shares or percentages thereof outstanding from time to time, or similar factors which will result in an effective and determinable limitation. Such limitations may be subject to any provisions for adjustment of the plan or of stock allocable or options outstanding thereunder to prevent dilution or enlargement of rights.

(2) Unless the context otherwise requires, all terms used in this rule shall have the same meaning as in the Act or elsewhere in the general rules and regulations thereunder. In addition, the following definitions apply:

(i) The term "plan" includes all plans, whether or not set forth in any formal document or documents and whether or not approved at one time.

(ii) The term "restricted stock option" means a restricted stock option as defined in section 421 of the Internal Revenue Code of 1954, as amended, and the regulations or rulings of the Internal Revenue Service thereunder.

The foregoing action is taken pursuant to the Securities Exchange Act of 1934, particularly sections 3(a)(12), 3(b), 16(b) and 23(a) thereof. Such action shall become effective June 27, 1960, except that any acquisition of shares of stock (other than stock acquired upon the exercise of an option, warrant or right) or any acquisition of a restricted stock option, prior to the issuer's annual meeting of stockholders in 1961 shall be deemed to be exempted from the operation of section 16(b) of the Act by Rule 16b–3 as hereinabove amended if such acquisition would have been so exempted by Rule 16b–3 as heretofore in effect.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

MAY 26, 1960.

[F.R. Doc. 60–5004; Filed, June 2, 1960; 8:48 a.m.]

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Tolerances for Residues of Demeton

A petition was filed with the Food and Drug Administration by Chemagro Corporation, Kansas City, Missouri, requesting the establishment of tolerances for residues of demeton (a mixture of *O,O*-diethyl *O* (and *S*)-2-(ethylthio) ethyl phosphorothioates), sold under the trade name Systox, in or on raw agricultural commodities as follows:

1.25 parts per million in or on peaches.

0.75 part per million in or on celery, peas, and tomatoes.

The petition was later amended, and the requested tolerance on peaches was changed from 1.25 parts per million to 0.75 part per million.

The Secretary of Agriculture has certified that this pesticide chemical is useful for the purposes for which tolerances are being established.

After consideration of the data submitted in the petition and other relevant material which show that the tolerances established in this order will protect the public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)) and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR, 1959 Supp., 120.7(g)), the regulations for tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR 120.3, 120.105) are amended as set forth below:

§ 120.3 [Amendment]

1. Section 120.3 *Tolerances for related pesticide chemicals* is amended as follows:

a. Paragraph (e)(5) is amended by inserting therein as the second item in the list of cholinesterase-inhibiting compounds the following item:

Demeton (a mixture of *O,O*-diethyl *O* (and *S*)-2-(ethylthio) ethyl phosphorothioates).

b. Subparagraph (5) is further amended by deleting therefrom the item "Systox * * *".

2. Section 120.105 is amended by replacing the trade name Systox with the common name demeton, by bringing the chemical name into conformity with American Chemical Society preferred nomenclature recommendations, and by adding a tolerance of 0.75 part per million on each of the raw agricultural commodities celery, peaches, peas, tomatoes. As amended, § 120.105 reads as follows:

§ 120.105 Tolerances for residues of demeton.

Tolerances for residues of demeton (a mixture of *O,O*-diethyl *O* (and *S*)-2-(ethylthio) ethyl phosphorothioates) and derived anticholinesterase products as determined by in vitro cholinesterase inhibition of pooled human plasma, using technical demeton as a standard (this standard effects 50 percent inhibition of pooled human plasma cholinesterase at a concentration 0.3±0.025 part per million in water as a medium) are established as follows:

(a) 12 parts per million in or on alfalfa hay, clover hay.

(b) 5 parts per million in or on almond hulls, fresh alfalfa, fresh clover.

(c) 1.25 parts per million in or on grapes, hops.

(d) 0.75 part per million in or on almonds, apples, broccoli, brussels sprouts, cabbage, cauliflower, celery, grapefruit, lemons, lettuce, muskmelons, oranges, peaches, pears, peas, pecans, potatoes, strawberries, tomatoes, walnuts.

(e) 0.3 part per million in or on beans.

Any person who will be adversely affected by the foregoing order may at any time prior to the thirtieth day from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall become effective upon publication in the FEDERAL REGISTER.

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: May 26, 1960.

[SEAL] GEO. P. LARRICK, *Commissioner of Food and Drugs.*

[F.R. Doc. 60–5022; Filed, June 2, 1960; 8:50 a.m.]

Title 26—INTERNAL REVENUE, 1954

[T.D. 6467]

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER E—ALCOHOL, TOBACCO, AND OTHER EXCISE TAXES

PART 186—GAUGING MANUAL

Miscellaneous Amendments

On March 24, 1960, a notice of proposed rule making regarding amendment of 26 CFR Part 186, with respect to the gauging of distilled spirits (including alcohol), was published in the FEDERAL REGISTER (25 F.R. 2487).

In accordance with the notice, interested parties were afforded an opportunity to submit written data, views, or arguments, pertaining thereto. No objections were received within the 30-day period prescribed in the notice. However, it has been determined administratively to make certain clarifying, liberalizing, and editorial changes. Accordingly, the amendments as published in the FEDERAL REGISTER are hereby adopted, subject to the changes set forth below:

1. Section 186.23 of the notice is changed as follows:

(A) By striking from the last sentence the words "should be" immediately following the words "final proof" and by inserting in lieu thereof the word "is"; and

(B) By adding immediately following the last sentence, a new sentence to read "In such cases, if the hundredths decimal is less than five, it will be dropped; if it is five or over, a unit will be added."

2. Sections 186.31, 186.32 and 186.36 of the notice are changed.

3. Section 186.43 of the notice is changed by inserting, in the first sentence and immediately following the words "or in pounds and ounces" the words ", or pounds and hundredths of a pound,".

4. Section 186.51 of the notice is changed by striking the first four sentences, and inserting in lieu thereof, the following: "Where the quantity of spirits (including denatured spirits) is to be determined by volume as authorized by this chapter, the measurement shall be made in tanks, or by meters or other devices or methods authorized by the Director, or as otherwise provided in this chapter, or such measurement may be made in tank cars or tank trucks if calibration charts for such conveyances are provided and such charts have been accurately prepared, and certified as accurate, by engineers or other persons qualified to calibrate such conveyances. Volumetric measurements in tanks shall be made only in accurately calibrated tanks equipped with guage glasses, float guages, steel tapes, or other suitable measuring devices, whereby the actual contents can be correctly ascertained."

5. Section 186.61 of the notice is changed.

6. Section 186.67 of the notice is changed by striking the last four sentences, and inserting in lieu thereof, the following:

Example. It is desired to correct spirits of 180 proof at 51 degrees temperature:

1.006 (50°) −1.005 (52°) =0.001÷2=0.0005
0.0005+1.005=1.0055 correction factor at 51° F.

Example. It is desired to correct spirits of 180 proof at 53 degrees temperature:

1.005 (52°) −1.003 (54°) =0.002÷2=0.001
0.001+1.003=1.004 correction factor at 53° F.

Where the percent of proof is other than a multiple of five, the difference, if any, between the factors for the next higher and lower proofs should be divided by five and multiplied by the degrees of proof beyond the next lower proof, and the fractional product so obtained should be added to the factor for the next lower proof (if the temperature is above 60 degrees Fahrenheit, the fractional product so obtained must be subtracted from the factor for the next lower proof), or if it is also necessary to correct the factor because of odd temperature, to the temperature corrected factor for the next lower proof.

Example. It is desired to ascertain the correction factor for spirits of 112 proof at 47 degrees temperature:

1.006 (46°) −1.005 (48°) =0.001÷2=0.0005
0.0005+1.005=1.0055 corrected factor at 47° F.,
1.007 (115 proof) −1.006 (110 proof) =0.001
0.001÷5=0.0002 (for each percent of proof) ×2 (for 112 proof) =0.0004
0.0004+1.0055 (corrected factor at 47° F.) =1.0059 correction factor to be used for 112 proof at 47° F.

Example. It is desired to ascertain the correction factor for spirits of 97 proof at 93 degrees temperature:

0.986 (92°) −0.985 (94°) =0.001÷2=0.0005
0.0005+0.985=0.9855 corrected factor at 93° F.,
0.986 (95 proof) —0.985 (100 proof) =0.001
0.001÷5=0.0002 (for each percent of proof) ×2 (for 97 proof) =0.0004
0.9855 (corrected factor at 93° F.) −0.0004 =0.9851 correction factor to be used for 97 proof at 93° F.

This Treasury decision shall be effective on July 1, 1960.

This Treasury decision is issued under the authority contained in section 7805

of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] DANA LATHAM,
Commissioner of Internal Revenue.

Approved: May 27, 1960.

FRED C. SCRIBNER, Jr.,
Acting Secretary of the Treasury.

In order to implement certain provisions of the Internal Revenue Code of 1954, as amended by Public Law 85-859, as they relate to the gauging of distilled spirits (including alcohol); to clarify and prescribe the methods or techniques of gauging; and to make editorial and corrective changes, 26 CFR Part 186 is amended as follows:

Subpart A—Scope of Regulations

Sec.
186.1 Gauging of distilled spirits.

Subpart B—Definitions

186.11 Meaning of terms.

Subpart C—Gauging Instruments

186.21 General requirements.
186.22 Hydrometers and thermometers.
186.23 Use of precision hydrometers and thermometers.
186.24 Use of U.S. standard hydrometers and thermometers.
186.25 Gauging instruments of unusual or costly design.

Subpart D—Gauging Procedures

186.31 Determination of proof.
186.32 Determination of proof obscuration.

DETERMINATION OF QUANTITY

186.36 General requirements.

DETERMINATION OF QUANTITY BY WEIGHT

186.41 Bulk spirits.
186.42 Denatured spirits.
186.43 Packaged spirits.
186.44 Entry or filling gauge for packages.
186.45 Withdrawal gauge for packages.

DETERMINATION OF QUANTITY BY VOLUME

186.51 Procedure for measurement.

Subpart E—Prescribed Tables

186.61 Table 1, showing the true percents of proof spirit for any indication of the hydrometer at temperatures between zero and 100 degrees Fahrenheit.
186.62 Table 2, showing wine gallons and proof gallons by weight.
186.63 Table 3, for determining the number of proof gallons from the weight and proof of spirituous liquor.
186.64 Table 4, showing the fractional part of a gallon per pound at each percent and each tenth percent of proof of spirituous liquor.
186.65 Table 5, showing the weight per wine gallon (at 60 degrees Fahrenheit) and proof gallon at each percent of proof of spirituous liquor.
186.66 Table 6, showing respective volumes of alcohol and water and the specific gravity in both air and vacuum of spirituous liquor.
186.67 Table 7, for correction of volume of spirituous liquors to 60 degrees Fahrenheit.

Subpart A—Scope of Regulations

§ 186.1 Gauging of distilled spirits.

This part, the "Gauging Manual", relates to the gauging of distilled spirits. By "gauging" is meant the determination of the proof and the quantity of distilled spirits. Tables 1–7, together with their instructions, are provided as a part hereof and should be used, wherever applicable, in making the necessary computations from gauge data. Table 1 provides a method for correcting hydrometer indications at temperatures between 0 and 100 degrees Fahrenheit to true proof. If distilled spirits contain dissolved solids, temperature-correction of the hydrometer reading by the use of this table would result in apparent proof rather than true proof. Tables 2 and 3 show the gallonage of spirituous liquor according to weight and proof, Table 4 shows the gallons per pound at each one-tenth proof from 1 to 200 proof, Table 5 shows the weight per wine gallon and proof gallon at each proof, Table 6 shows the volumes of alcohol and water, and the specific gravity (air and vacuum) of spirituous liquor at each proof, and Table 7 provides a means of ascertaining the volume (at 60 degrees Fahrenheit) of spirits at various temperatures ranging from 18 degrees through 100 degrees Fahrenheit. The procedures prescribed in, or authorized under the provisions of, this part shall, except as may be otherwise authorized in this chapter, be followed in making any determination of quantity or proof of distilled spirits required by or under the authority of regulations in this chapter.

(72 Stat. 1358; 26 U.S.C. 5204)

Subpart B—Definitions

§ 186.11 Meaning of terms.

When used in this part, where not otherwise distinctly expressed or manifestly incompatible with the intent thereof, terms shall have the meanings ascribed in this section. Words in the plural form shall include the singular, and vice versa, and words importing the masculine gender shall include the feminine. The terms "includes" and "including" do not exclude things not enumerated which are in the same general class.

Assistant regional commissioner. An assistant regional commissioner (alcohol and tobacco tax) who is responsible to, and functions under the direction and supervision of, a regional commissioner.

Bulk conveyance. Any tank car, tank truck, tank ship, tank barge, or other similar container approved by the Director, authorized for the conveyance of spirits (including denatured spirits) in bulk.

CFR. The Code of Federal Regulations.

Container. Any receptacle, vessel, or form of package, bottle, tank, or pipeline used, or capable of use, for holding, storing, transferring or conveying distilled spirits.

Denatured spirits or denatured alcohol. Spirits to which denaturants have been added pursuant to formulas prescribed in Part 212 of this chapter.

Director. The Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington, D.C.

Gallon or wine gallon. The liquid measure equivalent to the volume of 231 cubic inches.

I.R.C. The Internal Revenue Code of 1954, as amended.

Internal revenue officer. An officer or employee of the Internal Revenue Service duly authorized to perform any function relating to the administration or enforcement of this chapter.

Package. Any cask, barrel, drum, or similar container approved under the provisions of this chapter.

Proof. The ethyl alcohol content of a liquid at 60 degrees Fahrenheit, stated as twice the percent of ethyl alcohol by volume.

Proof gallon. A United States gallon of proof spirits, or the alcoholic equivalent thereof.

Proof spirits. That liquid which contains one-half its volume of ethyl alcohol of a specific gravity of seven thousand nine hundred and thirty-nine ten-thousandths (0.7939) in vacuum at 60 degrees Fahrenheit referred to water at 60 degrees Fahrenheit as unity.

Regional commissioner. A regional commissioner of internal revenue.

Spirits, spirituous liquor, or distilled spirits. That substance known as ethyl alcohol, ethanol, or spirits of wine, including all dilutions and mixtures thereof, from whatever source or by whatever process produced, and shall include whisky, brandy, rum, gin, and vodka, but not denatured spirits unless specifically stated.

Tax gallon. The unit of measure of spirits for the imposition of tax under section 5001, I.R.C. When spirits are 100 degrees of proof or more, the tax is determined on a proof gallon basis. When spirits are less than 100 degrees of proof, the tax is determined on a wine gallon basis.

This chapter. Chapter I, Title 26, CFR.

U.S.C. The United States Code.

(72 Stat. 1315; 26 U.S.C. 5002)

Subpart C—Gauging Instruments

§ 186.21 General requirements.

Internal revenue officers shall use only hydrometers and thermometers furnished by the Government: *Provided*, That the Director may authorize internal revenue officers to use, as prescribed in § 186.25, approved gauging instruments of unusual or costly design furnished by the proprietor. From time to time internal revenue officers shall verify the accuracy of hydrometers and thermometers used by proprietors. The proof of distilled spirits and rectified products shall be determined by the use of gauging instruments as prescribed in this part.

(72 Stat. 1358; 26 U.S.C. 5204)

§ 186.22 Hydrometers and thermometers.

The hydrometers furnished to internal revenue officers are graduated to read the proof of aqueous alcoholic solutions at 60 degrees Fahrenheit; thus, they read, 0 for water, 100 for proof spirits, and 200 for absolute alcohol. Because of temperature-density relationships and the selection of 60 degrees Fahrenheit for reporting proof, the hydrometer readings will be less than the true percent of proof at temperatures below 60 degrees Fahrenheit and greater than the true percent of proof at temperatures above 60 degrees Fahrenheit. Hence, corrections are necessary for hydrometer readings at temperatures other than 60 degrees Fahrenheit. Precision hydrometers shall be used for gauging large quantities of spirits, such as bulk gauging for tax payment. Hydrometers and thermometers shall be used and the true percent of proof shall be determined in accordance with § 186.31. Hydrometers are designated by letter according to range of proof and are provided in ranges and subdivisions of stems as follows:

U.S. Standard:	Range	Subdivision
A	0 to 100	1.0°
B	80 to 120	0.5°
C	100 to 140	0.5°
D	130 to 170	0.5°
E	160 to 206	0.5°
Precision:		
F	0 to 20	0.2°
G	20 to 40	0.2°
H	40 to 60	0.2°
I	60 to 80	0.2°
K	75 to 95	0.2°
L	90 to 110	0.2°
M	105 to 125	0.2°
N	125 to 145	0.2°
P	145 to 165	0.2°
Q	165 to 185	0.2°
R	185 to 206	0.2°

Thermometers are designated by type according to range of degrees Fahrenheit and are provided in ranges and subdivisions of degrees as follows:

Type	Range	Subdivision
Copper cup	0° to 100°	1°
Pencil type	10° to 100°	1°
V-back	10° to 100°	1°
Glass shell (earlier model)	40° to 100°	¼°
Glass shell (later model)	40° to 100°	¼°

(72 Stat. 1358; 26 U.S.C. 5204)

§ 186.23 Use of precision hydrometers and thermometers.

Care should be exercised to obtain accurate hydrometer and thermometer readings. In order to accomplish this result, the following precautions should be observed. Bulk spirits should be thoroughly agitated so that the test sample will be representative of the entire quantity. The hydrometer should be kept clean and free of any oily substance. Immediately before readings are taken, the glass cylinder containing the thermometer should be rinsed several times with the spirits which are to be gauged so as to bring both the cylinder and the thermometer to the temperature of the spirits (if time permits, it is desirable to bring both the spirits and the instruments to room temperature). If the outer surface of the cylinder becomes wet, it should be wiped dry to avoid the cooling effect of rapid evaporation. During the readings the cylinder should be protected from drafts or other conditions which might affect its temperature or that of the spirits which it contains. The hands should not be placed on the cylinder in such a manner as to warm the liquid contained therein. The hydrometer should be inserted in the liquid and the hydrometer bulb raised and lowered from top to bottom 5 or 6 times to obtain an even temperature distribution over its surface, and, while the hydrometer bulb remains in the liquid, the stem should be dried and the hydrometer allowed to come to rest without wetting more than a few tenths degrees of the exposed stem. Special care should be taken to ascertain the exact point at which the level of the surface of the liquid intersects the scale of proof in the stem of the hydrometer. The hydrometer and thermometer should be immediately read, as nearly simultaneously as possible. In reading the hydrometer, a sighting should be made slightly below the plane of the surface of the liquid and the line of sight should then be raised slowly, being kept perpendicular to the hydrometer stem, until the appearance of the surface changes from an ellipse to a straight line. The point where this line intersects the hydrometer scale is the correct reading of the hydrometer. When the correct readings of the hydrometer and the thermometer have been determined, the true percent of proof shall be ascertained from table 1. Another sample of the spirits should then be taken and be tested in the same manner so as to verify the proof originally ascertained. Hydrometer readings should be made to the nearest 0.05 degree and thermometer readings should be made to the nearest 0.1 degree, and instrument correction factors, if any, should be applied. It is necessary to interpolate in table 1 for fractional hydrometer and thermometer readings.

Example. A hydrometer reads 192.85° at 72.10° F. The correction factors for the hydrometer and the thermometer, respectively are minus 0.03° and plus 0.05°. The corrected reading, then, is 192.82° at 72.15° F.

From table 1:
193.0° at 72.0° F.=190.2°
192.0° at 72.0° F.=189.1°
Difference= 1.1°

192.0° at 72.0° F.=189.1°
192.0° at 73.0° F.=188.9°
Difference= 0.2°

The hydrometer difference (1.1°) multiplied by the fractional degree of the hydrometer reading (0.82°)=0.902.
The temperature difference (0.2°) multiplied by the fractional degree of the temperature reading (0.15°)=0.03°.
Proof at 60° F.=189.1+0.902−0.03=189.972°=190.0°.

As shown, the final proof is rounded to the nearest tenth of a degree of proof. In such cases, if the hundredths decimal is less than five, it will be dropped; if it is five or over, a unit will be added.

(72 Stat. 1358; 26 U.S.C. 5204)

§ 186.24 Use of U.S. standard hydrometers and thermometers.

In general, the care prescribed for reading precision instruments should also be used for gauging in which U.S. standard hydrometers (A to E) and thermometers graduated in full degrees are employed. However, when using such instruments, they are read to the nearest half degree, and the true proof determined from table 1 (interpolating as prescribed in § 186.23) is rounded to the nearest whole degree. In rounding the true proof to the nearest whole degree, if the decimal is less than five, it will be dropped; if it is five or over, a unit will be added.

(72 Stat. 1358; 26 U.S.C. 5204)

§ 186.25 Gauging instruments or unusual or costly design.

The Director may authorize the use of instruments of unusual or costly design (in lieu of those specified in this part) for making official gauges, if such instruments permit the internal revenue officer to more efficiently and accurately determine the proof and the quantity of distilled spirits, and the proprietor desires to furnish such instruments at his expense. Such instruments shall be placed in the custody of the internal revenue officer. A proprietor who proposes to use instruments of unusual or costly design shall submit a written application (in triplicate) to the assistant regional commissioner, describing the instruments and their advantages. The assistant regional commissioner shall make appropriate inquiries as to such instruments and whether approval thereof will hinder the effective administration of this chapter or result in jeopardy to the revenue. On completion of the inquiry, the assistant regional commissioner will forward two copies of the application to the Director, Alcohol and Tobacco Tax Division, together with a report of his findings and his recommendations. Where the instruments cannot be adequately described in the application, drawings or photographs should also be submitted.

(72 Stat. 1358; 26 U.S.C. 5204)

Subpart D—Gauging Procedures

§ 186.31 Determination of proof.

The proof of spirits shall be determined as follows—

(a) The proof of spirits in bond shall be determined by the use of a hydrometer and a thermometer in accordance with the provisions of sections 186.23 and 186.24;

(b) The proof of spirits in packages to be withdrawn from bond on the basis of individual package gauge shall be determined to the nearest tenth but shall be rounded to a whole degree, which shall be the proof used in determining the proof or taxable gallons. In rounding off, where the decimal is less than five it will be dropped; where it is five or over a unit will be added;

(c) The proof of spirits to be transferred in bond or withdrawn from bond in bulk conveyances or by pipeline free of tax or without payment of tax, shall be determined to the nearest tenth and, if not adjusted to a whole degree, shall be rounded to a whole degree and such whole degree shall be the proof of transfer or withdrawal and shall be used in determining the proof gallons;

(d) The proof of spirits to be withdrawn after tax determination in bulk conveyances or by pipeline shall be determined to the nearest tenth, which shall be used in determining the taxable gallons in accordance with table 4 of this part;

(e) The proof of tax-determined spirits which have not been rectified (or which have been rectified without the addition of materials containing solids)

shall be determined by the use of a hydrometer and a thermometer, except that the proof of imported spirits to be bottled without rectification, after withdrawal from customs bond on tax determination, shall be determined on the same basis as was used for customs purposes. (The basis of such determination shall be supported by a copy of the Customs chemist's report which shall be available for inspection by Internal Revenue officers. If the Customs chemists's report of alcoholic content has not been received, the bottler may bottle the spirits provided he ascertains the apparent proof and obscuration caused by solids in the spirits. If the solids content, ascertained before and after reduction of the spirits, exceeds 0.200 gram per 100 milliliters, representing an obscuration of more than 0.8° proof, the true proof may be used on labels. If the solids content exceeds 0.600 gram per 100 milliliters, the true proof is to be ascertained by the distillation or laboratory method prescribed respectively in paragraphs (f) (2) and (f) (3) of this section. If the solids content is 0.200 gram per 100 milliliters or less, representing an obscuration of 0.8° proof or less, the apparent proof shall be used on labels) ;

(f) The proof of spirits to which materials containing solids have been added in a process of rectification, but which contain not more than 600 milligrams of solids per 100 milliliters, may be determined (1) by the direct use of a hydrometer and a thermometer, or (2) by the use of a hydrometer and a thermometer after the spirits have been distilled in a small laboratory still and restored to the original volume and temperature by the addition of pure water to the distillate, or (3) by a recognised laboratory method which is equal or superior in accuracy to the distillation method: *Provided*, That where the proof of such spirits is determined by the use of a hydrometer and a thermometer, the proof so determined may be corrected by adding thereto the obscuration determined as prescribed in § 186.32; and

(g) The proof of spirits containing solids in excess of 600 milligrams per 100 milliliters, and of cordials, liqueurs, and other rectified products containing such excess of solids, shall be determined by the distillation or laboratory method prescribed respectively in paragraphs (f) (2) and (f) (3) of this section.

The Director may also authorize, as prescribed in § 186.25, the use of instruments of unusual or costly design for making gauges, if such instruments more efficiently and accurately determine the proof and quantity of the spirits.

(72 Stat. 1357, 1358, 1362; 26 U.S.C. 5202, 5204, 5211)

§ 186.32 Determination of proof obscuration.

Solids or other substances in solution in beverage spirits have an effect on the specific gravity of the spirits and, depending on the density or specific gravity of the substances, obscure the true proof of the liquid. Experience has shown that 0.1 gram (100 milligrams) of solids per 100 milliliters will obscure the true proof by 0.4 of 1 degree of proof. The amount of solids in the spirits may be determined—

(a) By evaporating the water and alcohol from a carefully measured 25 milliliter sample of the spirits, drying the residue at 100 degrees centigrade for 30 minutes and then weighing the residue precisely. The number of grams of solids thus determined, multiplied by 4, will give the amount of solids in 100 milliliters of the spirits, and that figure, multiplied by 4, will give the obscuration. For example, if a blended whisky contains 0.25 gram of solids per 100 milliliters, the obscuration is 4 times 0.25, which is one degree of proof. This value, added to the temperature corrected hydrometer reading, will give the true proof; or

(b) By determining the apparent proof and temperature of the sample of spirits and then by distilling a carefully measured sample in a small laboratory still, and collecting a quantity of the distillate, 1 or 2 milliliters less than the original sample. The distillate is adjusted to the original temperature and restored to the original volume by addition of distilled water. The proof of the restored distillate is then determined by use of a precision hydrometer and thermometer in accordance with the provisions of §§ 186.23 and 186.24 except that such proof shall be determined to the nearest 0.1 degree of proof. The difference between the proof so determined and the apparent proof of the undistilled sample is the obscuration; or

(c) By determination of the specific gravity of the undistilled sample, distillation and restoration of the samples as provided in paragraph (b) of this section and determination of the specific gravity of the restored distillate by means of a pycnometer. The specific gravities so obtained will be converted to degrees of proof by interpolation of Table 6 to the nearest 0.1 degree of proof. The difference in proof so obtained is the obscuration; or

(d) In the case of imported bulk spirits, by comparing the apparent proof of the product with the laboratory determined true proof received from the Customs chemist, the difference being the obscuration factor.

(72 Stat. 1358; 26 U.S.C. 5204)

Determination of Quantity

§ 186.36 General requirements.

The quantity of distilled spirits shall be determined by weight or, whenever permitted by this chapter, by volume. The quantity of denatured distilled spirits may be determined either by weight or by volume. Where determination of quantity of distilled spirits or denatured distilled spirits by volume is authorized, such determination may, when approved by the Director, be by meter or other device. The Director may also authorize the determination of quantity of distilled spirits or denatured distilled spirits by a statistical control method.

(72 Stat. 1357, 1358; 26 U.S.C. 5202, 5204)

§ 186.41 Bulk spirits.

When spirits (including denatured spirits) are to be gauged by weight in bulk quantities, the weight shall be determined by means of weighing tanks, mounted on accurate scales. Before each use, the scales shall be balanced at zero load; thereupon the spirits shall be run into the weighing tank and proofed: *Provided*, That where the spirits are to be reduced in proof as authorized by this chapter, the spirits shall be so reduced before final determination of the proof. The scales shall then be brought to a balanced condition and the weight of the spirits determined by reading the beam to the nearest graduation mark. From the weight and the proof thus ascertained, the quantity of the spirits in proof gallons shall be determined by reference to table No. 4. When it is desired to withdraw a portion of the contents of a weighing tank, the difference between the quantity (ascertained by proofing and weighing) in the tank immediately before the removal of the spirits and the quantity (ascertained by proofing and weighing) in the tank immediately after the removal of the spirits shall be the quantity considered to be withdrawn.

(72 Stat. 1357, 1358; 26 U.S.C. 5202, 5204)

§ 186.42 Denatured spirits.

The quantity, in gallons, of any lot or package of specially denatured spirits may be determined by weighing it and then dividing its weight by the weight per gallon of the formula concerned, as given in the appropriate tables in subpart H of Part 212 of this chapter. In the case of completely denatured spirits, the gallonage of any lot or package may be ascertained by determining its weight and apparent proof (hydrometer indication, corrected to 60 degrees Fahrenheit) and then multiplying the weight by the wine gallons per pound factor shown in table No. 4 for the (apparent) proof.

(72 Stat. 1358; 26 U.S.C. 5204)

§ 186.43 Packaged spirits.

When the quantity of spirits (including denatured spirits when gauged by weight) in packages, such as barrels, drums, and similar portable containers, is to be determined by gauge of the individual packages, such quantity shall be determined by weighing each package on an accurate weighing beam or platform scale having a beam or dial showing weight in pounds and half pounds, where packages having a capacity in excess of 10 wine gallons are to be gauged, or in pounds and ounces, or pounds and hundredths of a pound, where packages designed to hold 10 wine gallons or less are to be gauged.

In either case the tare must be determined and subtracted from the gross weight to obtain the net weight. From the proof and weight ascertained, the quantity of the spirits in proof gallons shall be determined by reference to table 2, 3, or 4.

(72 Stat. 1357, 1358, 1362; 26 U.S.C. 5202, 5204, 5211)

§ 186.44 Entry or filling gauge for packages.

(a) *General.* The spirits in the tank from which the packages are to be filled shall be thoroughly agitated before taking the proof. The proof determined after such agitation shall be regarded as the proof of the spirits run into all packages filled from the tank. No package which contains or has on its interior or exterior any substance which will prevent the correct ascertainment of tare shall be used. The tare or weight of empty packages shall be determined immediately prior to filling, except that the tare of a number of packages may be ascertained before any are filled but not exceeding the number which are to be filled on the same or the following day. An average tare (rounded to the nearest half pound, as described in section 186.45 for wooden packages) may be ascertained and used for metal packages of the same kind and capacity produced by the same manufacturer which are to be filled with spirits for industrial use, or with denatured spirits, by weighing not less than 20 percent of any lot of such packages. Not less than two packages shall be weighed to determine the average tare of any lot of five metal packages to be filled. The tares shall be recorded on the gauge report at the time they are ascertained. Whenever there is a change in the specifications as to capacity and weight of cooperage, the proprietor shall give notice to the internal revenue officer. When the packages have been filled, the gross weight of each will be ascertained. The wine gallon (if desired) and proof gallon contents may be determined from the proofs and the net weights of the packages, by the use of table 2, 3, or 4, whichever is applicable.

(b) *Weighing packages of more than 10 wine gallons.* The weight of packages having a capacity in excess of 10 wine gallons shall be determined and recorded in pounds and half pounds.

(c) *Weighing containers of 10 wine gallons or less.* The weight for packages and other containers of a capacity of 10 wine gallons or less shall be determined in pounds and ounces, or pounds and hundredths of a pound, and shall be recorded in pounds and hundredths of a pound. The equivalent pounds and hundredths of a pound and the corresponding wine gallons and proof gallons shall be expressed as shown in the following table for the respective weights in pounds and ounces and proofs shown therein or, as applicable, computed in accordance with rules in this section.

100 Proof Spirits

Size of container, wine gallons	Weight of contents: Pounds	Ounces	Weight in pounds and hundredths of a pound	Contents in wine gallons	Proof gallons
1	6	13	6.81	1	1.9
2	13	10	13.63	2	3.8
5	34	00	34.00	5	9.5
10	68	00	68.00	10	19.0

192 Proof Spirits

1	6	13	6.81	1	1.9
2	13	9	13.56	2	3.8
5	33	13	33.81	5	9.6
10	67	10	67.63	10	19.2

200 Proof Spirits

1	6	10	6.63	1	2.0
2	13	4	13.25	2	4.0
5	33	1	33.06	5	10.0
10	66	2	66.12	10	20.0

(d) *Packages of other proofs or sizes.* Where packages of proofs or sizes not shown above are to be filled, the following rule may be used for ascertaining the weight of the spirits to be placed in the package: Divide the number of gallons representing the quantity of spirits to be placed in the container by the fractional part of a gallon equivalent to one pound, to obtain the weight of the spirits in pounds and fractions of a pound to two decimal places. Reduce the decimal fraction of a pound to ounces by multiplying by 16, calling any fraction of an ounce a whole ounce. The pounds and ounces thus obtained will determine the point to which the spirits must be weighed to produce the results desired. If it is required to mark the weight on the package in pounds and decimal fractions of a pound, it will be necessary to convert the ounces to hundredths of a pound. The fraction of a gallon equivalent to one pound at any given proof shall be ascertained by reference to table No. 4.

Example. It is desired to fill a one-gallon can with precisely one wine gallon of 194 proof spirits:

1.00 divided by 0.14866=6.73 pounds.

0.73 multiplied by 16=11.68 ounces, rounded to 12 ounces.

Weight of spirits—6 pounds, 12 ounces.

Weight, if required, to be marked on can—6.75 pounds.

(72 Stat. 1357, 1358, 1362; 26 U.S.C. 5202, 5204, 5211)

§ 186.45 Withdrawal gauge for packages.

When wooden packages are to be individually gauged for withdrawal, actual or (on approval by the internal revenue officer) average tare of the packages shall be determined. The actual tare of a package shall be determined by weighing it after its contents (including rinse water, if any) have been temporarily removed to a separate container or vessel. The average tare method may be used only for lots of spirits of the same kind and cooperage which were warehoused within a period of ten days of each other at proofs differing by not more than 10 percent. Packages which have been changed in cooperage may not be included as a part of a lot containing packages not so changed. Packages which have been consolidated for further storage in bond may not be included as a part of a lot containing packages not so consolidated. The average increase in tare for a lot of spirits shall be established by finding the actual tare for not less than 20 percent of the packages to be gauged for withdrawal, and determining the actual increase in tare for such packages. Where application of the percentage to the number of packages to be withdrawn results in a fraction, the fraction will be counted as an additional package. The actual tares found shall be entered in the proper column of the gauge report for the packages for which they were determined, and an asterisk (*) shall be placed to the left of the serial numbers of such packages. The actual increase in tare of each such package shall be entered in the proper column of the gauge report and the average of these increases shall be determined by adding them together and dividing their sum by the number of packages weighed. If the average increase so found contains a fraction of a pound less than twenty-five hundredths (0.25), it shall be dropped; if twenty-five hundredths (0.25) or any intermediate fraction to and including seventy-five hundredths (0.75), it shall be called one-half pound; if above seventy-five hundredths (0.75), it shall be called one pound. The average increase in tare thus ascertained shall be regarded as the increase of each of the remaining packages enumerated in the application for withdrawal and shall be added to the entry tare of each such package to determine the withdrawal tare. When this method is used, the words "average tare taken" shall be entered conspicuously on the gauge report. The packages to be used for the determination shall be selected by the internal revenue officer, and not less than two packages shall be selected to determine the average increase in tare of any lot of five packages or less. If the increase in tare varies more than six pounds as between any two reused barrels in a lot, the average tare method may not be used for that lot and actual tare shall be taken on all of the packages. However, when any package selected for determining the average tare shows a decrease in tare or, except in the case of reused packages, no change in tare, the average tare method may not be used for that lot and actual tare shall be taken on all of the packages. Where the average tare method is used, the packages may not be rinsed. Where the contents of packages have been temporarily removed for determination of tare, the proof, if any rinse water is added to

the spirits, shall be determined after a thorough mixing of the rinse water and the spirits and before return of the spirits to the rinsed packages, and the gross weight shall be determined after the spirits and any added rinse water have been returned to the packages. When metal packages are to be individually gauged for withdrawal, the tare established at the time of filling shall be used unless it appears that there has been a change in tare or the established tare is incorrect, in which case a new tare will be established. From the proofs and the net weights of the packages, the wine gallon (if desired) and the proof gallon contents shall be determined by the use of table 2. If either the weight or the proof is beyond the limitations of table 2, either table 3 or table 4 may be used.

(72 Stat. 1357, 1358; 26 U.S.C. 5202, 5204)

DETERMINATION OF QUANTITY BY VOLUME

§ 186.51 Procedure for measurement.

Where the quantity of spirits (including denatured spirits) is to be determined by volume as authorized by this chapter, the measurement shall be made in tanks, or by meters or other devices or methods authorized by the Director, or as otherwise provided in this chapter, or such measurement may be made in tank cars or tank trucks if calibration charts for such conveyances are provided and such charts have been accurately prepared, and certified as accurate, by engineers or other persons qualified to calibrate such conveyances. Volumetric measurements in tanks shall be made only in accurately calibrated tanks equipped with gauge glasses, float gauges, steel tapes, or other suitable measuring devices, whereby the actual contents can be correctly ascertained. If the temperature of spirits (including denatured spirits) is other than the standard of 60° Fahrenheit, gallonage determined by volumetric measurements shall be corrected to the standard temperature by means of table No. 7. In the case of denatured spirits, the temperature-correction factor for the proof of the spirits used in denaturation will give sufficiently accurate results, except that the temperature-correction factor used for specially denatured spirits, Formula No. 18, should be that given in table No. 7 for 100 proof spirits. When the quantity of spirits, in wine gallons, has been determined by volumetric measurement, the number of proof gallons shall be obtained by multiplying the wine gallons by the proof of the spirits.

Example.

Gauge glass reading---------inches---	88.
Wine gallons per inch----------	48.96
Temperature---------° F---	72
Proof of spirits----------	86.6
Temperature correction factor (table 7)----------	.995

48.96 W.G.×88=4308.48 wine gallons.
4308.48 W.G.×0.995=4286.94 wine gallons.
4286.94 W.G.×0.868=3721.06392=3721.1 proof gallons.

(72 Stat. 1357, 1358; 26 U.S.C. 5202, 5204)

Subpart E—Prescribed Tables

§ 186.61 Table 1, showing the true percent of proof of distilled spirits for indications of the hydrometer at temperatures between zero and 100 degrees Fahrenheit.

This table shows the true percent of proof of distilled spirits for indications of the hydrometer likely to occur in practice at temperatures between zero and 100° Fahrenheit and shall be used in determining the proof of spirits. The left-hand column contains the reading of the hydrometer and on the same horizontal line, in the body of the table, in the "Temperature" column corresponding to the reading of the thermometer is the corrected reading or "true percent of proof." The table is computed for tenths of a percent.

Example.

Temperature, ° F----------	75
Hydrometer reading----------	193
True percent of proof----------	189.5

If the proof is to be determined to the nearest whole degree, a decimal of less than five will be dropped; if the decimal is five or over, a unit will be added.

Examples.

Temperature, ° F----------	69
Hydrometer reading----------	114
True percent of proof----------	110.4
Rounded to----------	110
Temperature, ° F----------	69
Hydrometer reading----------	117
True percent of proof----------	113.5
Rounded to----------	114

Where fractional readings are ascertained, the proper interpolations will be made (see § 186.23). If the distilled spirits contain dissolved solids, temperature-correction of the hydrometer reading by the use of this table would result in apparent proof rather than true proof.

(72 Stat. 1357, 1358; 26 U.S.C. 5202, 5204)

§ 186.62 Table 2, showing wine gallons and proof gallons by weight.

The wine and proof gallon content by weight and proof of packages of distilled spirits usually found in actual practice will be ascertained from this table. The left-hand column contains the weights. The true percent of proof is shown on the heading of each page in a range from 90 degrees to 200 degrees. Under the true percent of proof and on the same horizontal line with the weight will be found the wine gallons (at 60 degrees Fahrenheit) and the proof gallons respectively. Where either the weight or the proof of a quantity of spirits is beyond the limitations of this table, the number of proof gallons may be ascertained by reference to table 3. This table may also be used to ascertain the wine gallons at 60 degrees Fahrenheit) and proof gallons of spirituous liquor containing dissolved solids where the weight, apparent proof (hydrometer indication corrected to 60 degrees Fahrenheit), and obscuration factor have been determined.

Example.
834 lbs. of distilled spirits
Apparent proof—105.0°.
Obscuration—0.8°.
True Proof 105.0°+0.8°=105.8°=106°.
834 lbs. at 105.0° apparent proof=43.2 wine gallons.
43.2 wine gallons×1.06=45.8 proof gallons.

In addition this table may be used to obtain the wine gallons, at the prevailing temperature, of most liquids within the range of the table, from the weight of the liquid and the uncorrected reading of the hydrometer stem. An application of this would be in determining the capacity of a package.

Example. It is desired to determine, or to check, the rated capacity of a package having a net weight of 395 pounds when completely filled with spirits having an uncorrected hydrometer reading of 113.0°. The full capacity of the package, 51.5 wine gallons, would be found by referring to the table at 395 pounds and 113° proof (hydrometer reading).

(72 Stat. 1357, 1358, 1362; 26 U.S.C. 5202, 5204, 5211)

§ 186.63 Table 3, for determining the number of proof gallons from the weight and proof of spirituous liquor.

Where the weight or proof of a quantity of distilled spirits is not found in Table 2, the proof gallons may be ascertained from Table 3. The wine gallons (at 60 degrees Fahrenheit) may be ascertained by dividing the proof gallons by the proof.

Example. A tank car of spirits of 190 degrees of proof weighed 60,378 pounds net. We find—

	Proof gallons
60,000 pounds equal to----------	16,778.4
300 pounds equal to----------	83.9
70 pounds equal to----------	19.6
8 pounds equal to----------	2.2
	16,884.1

That is, the total weight of 60,378 pounds of spirits at 190 proof is equal to 16,884.1 proof gallons. The equivalent gallonage for 70 pounds is found from the column 700 pounds by moving the decimal point one place to the left; that for 8 pounds from the column 800 pounds by moving the decimal point two places to the left.

Example. A package of spirits at 86 proof weighed 321½ pounds net. We find—

	Proof gallons
300 pounds equal to----------	32.7
20 pounds equal to----------	2.2
1 pound equal to----------	.1
½ pound equal to----------	.1
	35.1

That is, 321½ pounds of spirits at 86 proof is equal to 35.1 proof gallons. The equivalent gallonage for 20 pounds is found from the column 200 pounds by moving the decimal point one place to the left; that for 1 pound from the column 100 pounds by moving the decimal point two places to the left; that for the ½ pound from the column 500 pounds by moving the decimal point three places to the left. Fractional gallons beyond the first decimal ascertained through use of this table will be dropped if less than 0.05 or will be added as 0.1 if 0.05 or more. The wine gallons (at 60 degrees Fahrenheit) may be determined by dividing the proof gallons by the proof. For example: 35.1 divided by 0.86 equals 40.8 wine gallons.

(72 Stat. 1358; 26 U.S.C. 5204)

§ 186.64 Table 4, showing the fractional part of a gallon per pound at each percent and each tenth percent of proof of spirituous liquor.

This table provides a method for use in ascertaining the wine gallon (at 60 degrees Fahrenheit) and/or proof gallon contents of containers of spirits by multiplying the net weight of the spirits by the fractional part of a gallon per pound shown in the table for spirits of the same proof. Fractional gallons beyond the first decimal will be dropped if less than 0.05 or will be added as 0.1 if 0.05 or more.

Example. It is desired to ascertain the wine gallons and proof gallons of a tank of 190 proof spirits weighing 81,000 pounds.

81,000×0.14718=11,921.58=11,921.6 wine gallons.
81,000×0.27964=22,650.84=22,650.8 proof gallons.

This table may also be used for ascertaining the quantity of water required to reduce to a given proof. To do this, divide the proof gallons of spirits to be reduced by the fractional part of a proof gallon per pound of spirits at the proof to which the spirits are to be reduced, and subtract from the quotient the net weight of the spirits before reduction. The remainder will be the pounds of water needed to reduce the spirits to the desired proof.

Example. It is desired to ascertain the quantity of water needed to reduce 1,000 pounds of 200 proof spirits, 302.58 proof gallons, to 190 proof:

302.58 divided by 0.27964 equals 1,082.03 pounds, weight of spirits after reduction.
1,082.03 minus 1,000 equals 82.03 pounds, weight of water required to reduce to desired proof.

The slight variation between this table and tables 2, 3, and 5 on some calculations is due to the dropping or adding of fractions beyond the first decimal in those tables. This table may also be used to determine the wine gallons (at 60 degrees Fahrenheit) of distilled spirits containing dissolved solids from the total weight of the liquid and its apparent proof (hydrometer indication, corrected to 60 degrees Fahrenheit). The proof gallons may then be found by multiplying the wine gallons by the true proof.

Example.
5,350 pounds of blended whisky containing added solids

Temperature ° F----------	75.0°
Hydrometer reading----------	92.0°
Apparent proof----------	85.5°
Obscuration----------	0.5°
True proof----------	86.0°

5,350.0 lbs.×0.12676 (W.G. per pound factor for apparent proof of 85.5°)=678.2 wine gallons.
678.2 W.G.×0.86=583.3 proof gallons.

(72 Stat. 1357, 1358, 1362; 26 U.S.C. 5202, 5204, 5211)

§ 186.65 Table 5, showing the weight per wine gallon (at 60 degrees Fahrenheit) and proof gallon at each percent of proof of spirituous liquor.

This table may be used to ascertain the weight of any given number of wine gallons (at 60 degrees Fahrenheit) or proof gallons of spirits by multiplying the pounds per gallon by the given number of gallons of the spirits. The table should be especially useful where it is desired to weigh a precise quantity of spirits.

Example. It is desired to ascertain the weight of 100 wine gallons of 190 proof spirits:

6.79434×100 equals 679.43 pounds, net weight of 100 wine gallons of 190 proof spirits.

Example. It is desired to ascertain the weight of 100 proof gallons of 190 proof spirits:

3.57597×100 equals 357.60 pounds, net weight of 100 proof gallons of 190 proof spirits.

The slight variation between this table and Tables 2 and 3 on some calculations is due to dropping or adding of fractions beyond the first decimal on those tables. This table also shows the weight per wine gallon (at the prevailing temperature) corresponding to each uncorrected reading of a proof hydrometer.

(72 Stat. 1358; 26 U.S.C. 5204)

§ 186.66 Table 6, showing respective volumes of alcohol and water and the specific gravity in both air and vacuum of spirituous liquor.

This table provides an alternate method for use in ascertaining the quantity of water needed to reduce the strength of distilled spirits by a definite amount. To do this, divide the alcohol in the given strength by the alcohol in the required strength, multiply the quotient by the water in the required strength, and subtract the water in the given strength from the product. The remainder is the number of gallons of water to be added to 100 gallons of spirits of the given strength to produce a spirit of a required strength.

Example. It is desired to reduce spirits of 191 proof to 188 proof. We find that 191 proof spirits contains 95.5 parts alcohol and 5.59 parts water, and 188 proof spirits contains 94.0 parts alcohol and 7.36 parts water.

95.5 (the strength of 100 wine gallons of spirits at 191 proof) divided by 94.0 (the strength of 100 wine gallons of spirits at 188 proof) equals 1.01.
7.36 (the water in 188 proof) multiplied by 1.01 equals 7.43.
7.43 less 5.59 (the water in 191 proof spirits) equal 1.84 gallons of water to be added to each 100 wine gallons of 191 proof spirits to be reduced.

This rule is applicable for reducing to any proof; but when it is desired to reduce to 100 proof, it is sufficient to point off two decimals in the given proof, multiply by 53.73, and deduct the water in the given strength. Thus, to reduce 112 proof spirits to 100 proof:

1.12×53.73—47.75 equals 12.42 gallons of water to be added to each 100 wine gallons of spirits to be reduced.

This table may also be used to obtain the proof gallonage of spirituous liquor according to weight and percent of proof.

Example.
It is desired to determine the number of gallons in 400 pounds of spirits of 141 percent of proof. Multiply the weight of one gallon of water in air by the specific gravity in air of the spirits—8.32523 by 0.82862—the product (7.40063) divided into 400 gives 54.049 wine gallons, which rounded to the nearest hundredth is 54.05 and multiplied by 1.41 gives 76.2 proof gallons. In rounding off where the decimal is less than five, it will be dropped; if it is five or over a unit will be added.

(72 Stat. 1358; 26 U.S.C. 5204)

§ 186.67 Table 7, for correction of volume of spirituous liquors to 60 degrees Fahrenheit.

This table is prescribed for use in correcting spirits to volume at 60 degrees Fahrenheit. To do this, multiply the wine gallons of spirits which it is desired to correct to volume at 60 degrees Fahrenheit by the factor shown in the table at the percent of proof and temperature of the spirits. The product will be the corrected gallonage at 60 degrees Fahrenheit. This table is also prescribed for use in ascertaining the true capacity of containers where the wine gallon contents at 60 degrees Fahrenheit have been determined by weight in accordance with Tables 2, 3, 4, or 5. This is accomplished by dividing the wine gallons at 60 degrees Fahrenheit by the factor shown in the table at the percent of proof and temperature of the spirits. The quotient will be the true capacity of the container.

Example. It is desired to ascertain the volume at 60 degrees Fahrenheit of 1,000 wine gallons of 190 proof spirits at 76 degrees Fahrenheit:

1,000×0.991 equals 991 wine gallons, the corrected gallonage at 60 degrees Fahrenheit.

Example. It is desired to ascertain the capacity of a container of 190 proof spirits at 76 degrees Fahrenheit, shown by Table 2 to contain 55.1 wine gallons at 60 degrees Fahrenheit:

55.1 divided by 0.991 equals 55.6 wine gallons, the true capacity of the container when filled with spirits of 60 degrees temperature.

It will be noted that the table is prepared in multiples of 5 percent of proof and 2 degrees temperature. Where the spirits to be corrected are of an odd temperature, one-half of the difference, if any, between the factors for the next higher and lower temperature, should be added to the factor for the next higher temperature.

Example. It is desired to correct spirits of 180 proof at 51 degrees temperature:

1.008 (50°)—1.005 (52°)=0.001÷2=0.0005
0.0005+1.005=1.0055 correction factor at 51° F.

Example. It is desired to correct spirits of 180 proof at 53 degrees temperature:

1.005 (52°)—1.003 (54°)=0.002÷2=0.001
0.001+1.003=1.004 correction factor at 53° F.

Where the percent of proof is other than a multiple of five, the difference, if any, between the factors for the next higher and lower proofs should be divided by five and multiplied by the degrees of proof beyond the next lower proof, and the fractional product so obtained should be added to the factor for the next lower proof (if the temperature is above 60 degrees Fahrenheit, the fractional product so obtained must be subtracted from the factor for the next lower proof), or if it is also necessary to correct the factor because of odd temperature, to the temperature corrected factor for the next lower proof.

Example. It is desired to ascertain the correction factor for spirits of 112 proof at 47 degrees temperature:

1.008 (46°) − 1.005 (48°) = 0.001 ÷ 2 = 0.0005
0.0005 + 1.005 = 1.0055 corrected factor at 47° F.,
1.007 (115 proof) − 1.006 (110 proof) = 0.001
0.001 ÷ 5 = 0.0002 (for each percent of proof)
×2 (for 112 proof) = 0.0004
0.0004 + 1.0055 (corrected factor at 47° F.) = 1.0059 correction factor to be used for 112 proof at 47° F.

Example. It is desired to ascertain the correction factor for spirits of 97 proof at 98 degrees temperature:

0.986 (92°) − 0.985 (94°) = 0.001 ÷ 2 = 0.0005
0.0005 + 0.985 = 0.9855 corrected factor at 93° F.,
0.986 (95 proof) − 0.985 (100 proof) = 0.001
0.001 ÷ 5 = 0.0002 (for each percent of proof)
×2 (for 97 proof) = 0.0004
0.9855 (corrected factor at 93° F.) − 0.0004 = 0.9851 correction factor to be used for 97 proof at 98° F.

(72 Stat. 1358; 26 U.S.C. 5204)

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[FCC 60-626]

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

Table of Geographic Assignment of Call Signs

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 25th day of May 1960;

The Commission, having under consideration § 2.303 of its rules and regulations, Table of Geographic Assignment of Call Signs, and

It appearing that the geographical assignment plan was devised primarily to aid the Field Engineering and Monitoring Bureau in certain of its enforcement functions, that it has been of little or no value in this regard in recent years, and that elimination of the plan will increase operating efficiency under present methods of call letter assignment;

It further appearing that the amendment adopted herein pertains to a matter of procedure, and hence that compliance with the notice, procedural, and effective date requirements of the Administrative Procedure Act is unnecessary; and

It further appearing that the amendment adopted herein is issued pursuant to authority contained in sections 4(i), 303(o), 303(p), and 303(r) of the Communications Act of 1934, as amended;

It is ordered, That, effective May 25, 1960, § 2.303 of the rules and regulations is deleted.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interprets or applies sec. 303, 48 Stat. 1062, as amended; 47 U.S.C. 303)

Released: May 27, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60-5048; Filed, June 2, 1960; 8:53 a.m.]

PART 21—DOMESTIC PUBLIC RADIO SERVICES (OTHER THAN MARITIME MOBILE)

Posting of Station Authorizations; Transmitter Identification

1. The Commission has under consideration editorial amendment of Part 21 of its Domestic Public Radio Services (Other than Maritime Mobile) Rules (§§ 21.201(b) and 21.202).

2. This amendment makes editorial clarification of the requirements of §§ 21.201(b) and 21.202 and conforms such sections to rules applicable to the use of transmitter identification card (FCC Form 452-C) in other radio services.

3. The amendment is non-substantive and editorial in nature. Therefore, prior publication of notice of proposed rule making pursuant to the provisions of section 4 of the Administrative Procedure Act is unnecesary.

4. The amendment adopted herein is issued pursuant to the authority contained in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and section 0.341(a) of the Commission's Statement of Delegations of Authority.

5. In view of the foregoing: *It is ordered*, This 27th day of May 1960 that effective June 3, 1960, Part 21 of the Commission's rules, Domestic Public Radio Services (Other than Maritime Mobile) is amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U.S.C. 303)

Released: May 31, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

1. Section 21.201(b) is amended to read as follows:

§ 21.201 Posting of station authorizations.

* * * * *

(b) If the station is authorized for mobile operation or for operation at temporary fixed locations, the documents specified in paragraph (a) of this section shall be retained as a permanent part of the station record, but need not be posted.

2. Section 21.202 is amended to read as follows:

§ 21.202 Transmitter identification.

An executed transmitter identification card (FCC Form 452-C), or a plate of metal or other durable substance legibly indicating the station call sign and the licensee's name and address, shall be affixed, readily visible for inspection, to each base, land and fixed transmitter operated at a fixed location when the transmitter is not in view of, or is not readily accessible to, the operator at the principal control point. Such identification card or plate shall be affixed, readily visible for inspection, to each transmitter operated in a mobile unit or at a temporary fixed location: *Provided*, That, when the transmitter and its control equipment are both installed in the same vehicle, such identification card or plate shall be affixed to the control equipment at the transmitter operating position or posted adjacent thereto.

[F.R. Doc. 60-5047; Filed, June 2, 1960; 8:53 a.m.]

[Docket No. 13453; FCC 60-619]

PART 31—UNIFORM SYSTEM OF ACCOUNTS FOR CLASS A AND CLASS B TELEPHONE COMPANIES

Filing of Journal Entries Recording Acquisition of Plant

1. On March 30, 1960, the Commission adopted a notice of proposed rule making which was published in the FEDERAL REGISTER on April 6, 1960 (25 F.R. 2908) in accordance with section 4(a) of the Administrative Procedure Act. It was proposed to amend paragraph (e) of § 31.2-21 of Part 31 of the Commission's rules with respect to the reporting requirement for submission of journal entries recording the acquisition of telephone plant. This amendment would be accomplished by changing the dollar amounts specified from $50,000 to $100,000 for Class A telephone companies and from $25,000 to $50,000 for Class B telephone companies. Thus, journal entries for plant acquired from predecessors would not be required from Class A telephone companies where the consideration paid is less than $100,000 and from Class B telephone companies where the consideration paid is less than $50,000.

2. The time for filing comments regarding the above-mentioned proposed rule making expired on May 2, 1960, and the time for filing comments in reply to the original comments expired on May 23, 1960. Comments were received from the American Telephone and Telegraph Company (AT&T), on behalf of itself and its associated telephone companies, and from the United States Independent Telephone Association (USITA). AT&T stated that the increases in the dollar criteria were very desirable changes and it pointed out that the entries for the exempted purchases would be analyzed in Schedule 13A, "Analysis of telephone plant acquired (Account 276)," of Annual Report Form M, filed with the Commission. USITA, through its Accounting Committee, expressed complete agreement with the proposed changes.

It appearing that the proposed rule making in this matter has indicated the desirability of amendment of Part 31 of the Commission's rules and regulations as proposed;

It is ordered, That under authority contained in sections 4(i) and 220(a) of the Communications Act of 1934, as amended, paragraph (e) of § 31.2-21 of Part 31 (Uniform System of Accounts for Class A and Class B Telephone Companies) of the Commission's rules is amended to read as follows:

§ 31.2-21 Telephone plant acquired.

* * * * *

(e) Except for telephone plant acquired by class A companies where the consideration paid is less than $100,000 and by class B companies where the consideration paid is less than $50,000, copies of journal entries recording acquisitions of telephone plant covered by this instruction shall be submitted to this Commission for consideration and approval. The text of such entries shall give a complete description of the property acquired and the basis upon which the amounts of the entries have been determined.

It is further ordered, That the amendment ordered herein be effective July 1, 1960.

(Sec. 4, 48 Stat. 1066, as amended, 47 U.S.C. 154. Interprets or applies sec. 220, 48 Stat. 1078, 47 U.S.C. 220)

Adopted: May 25, 1960.

Released: May 27, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60-5049; Filed, June 2, 1960; 8:53 a.m.]

Title 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[Ex Parte No. 73]

PART 142—EXTENSION OF CREDIT TO SHIPPERS

Payment of Charges

At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 19th day of May, A.D. 1960.

It appearing that by order dated August 6, 1958, the Commission reopened this proceeding for further hearing for the purpose of determining whether the time should be extended within which freight charges on carload traffic may be paid;

It further appearing that a further hearing has been held, and that a full investigation of the matters and things involved has been made, and the Commission, on the date hereof, having made and filed a report on further hearing, which report, together with the prior reports herein, are hereby referred to and made a part hereof:

It is ordered, That the order entered herein on January 20, 1931, as modified, and the regulations issued thereunder, 49 CFR Part 142, be, and they are hereby further modified by adding after § 142.1a the following:

§ 142.1b Carload traffic.

Effective on July 7, 1960, the rail carriers subject to the jurisdiction of the Interstate Commerce Commission are hereby authorized to extend credit for 96 hours and 120 hours in respect of charges on carload traffic, in lieu of 48 hours and 96 hours, respectively, under the present rules in this part, computation of time to be made in the same manner as provided in connection with the 48-hour and 96-hour periods. (See § 142.2)

It is further ordered, That in all other respects said order of January 20, 1931, as modified, and said regulations shall remain in full force and effect.

And it is further ordered, That notice to the general public shall be given by depositing a copy hereof in the Office of the Secretary of the Commission, Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

(Sec. 3(2), 24 Stat. 380, as amended, 49 U.S.C. 3)

By the Commission.

[SEAL] HAROLD D. McCOY,
Secretary.

[F.R. Doc. 60-5017; Filed, June 2, 1960; 8:50 a.m.]

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 978]

[Docket No. AO-184-A17]

MILK IN NASHVILLE, TENNESSEE, MARKETING AREA

Notice of Hearing on Proposed Amendments to Tentative Marketing Agreement and Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Noel Hotel, 4th and Church Streets, Nashville, Tennessee, beginning at 10:00 a.m., e.s.t., on June 21, 1960, with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the Nashville, Tennessee, marketing area.

The public hearing is for the purpose of receiving evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

The proposals relative to a redefinition of the marketing area raises the issue whether the provisions of the present order would tend to effectuate the declared policy of the Act, if they are applied to the marketing area as proposed to be redefined and, if not, what modifications of the provisions of the order would be appropriate.

The proposal to change the type of pooling from individual handler pools to a marketwide pool raises the issue of the appropriate disposition of the reserve funds maintained pursuant to § 978.71 (e).

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

Proposed by the Nashville Milk Producers, Inc.

Proposal No. 1.

DEFINITIONS

§ 978.1 Act.

"Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

§ 978.2 Secretary.

"Secretary" means the Secretary of Agriculture or any officer or employee of the United States authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 978.3 Department of Agriculture.

"Department of Agriculture" means the United States Department of Agriculture or any other Federal agency as may be authorized by act of Congress, or by Executive order, to perform the price reporting functions of the United States Department of Agriculture.

§ 978.4 Person.

"Person" means any individual, partnership, corporation, association, or other business unit.

§ 978.5 Nashville, Tennessee, marketing area.

"Nashville, Tennessee, marketing area", hereinafter called the "Marketing Area", means all the territory within the boundaries of the Counties of Bedford, Cannon, Cheatham, Clay, Davidson, DeKalb, Dickson, Hardin, Hickman, Houston, Humphreys, Jackson, Lewis, Macon, Montgomery, Overton, Perry, Pickett, Robertson, Rutherford, Smith, Stewart, Summer, Trousdale, Wayne, Williamson, and Wilson; all in the State of Tennessee; and Allen, Barren, Simpson and Warren; all in the State of Kentucky; and the entire area of the Fort Campbell Military Reservation, located jointly in the States of Tennessee and Kentucky.

§ 978.6 Cooperative association.

"Cooperative association" means any cooperative marketing association of producers which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18, 1922, as amended known as the "Capper-Volstead Act", and is authorized by its members to make collective sales or to market milk or its products for the producers thereof.

§ 978.7 Producer-handler.

Producer-handler means any person who produces Grade A milk under a dairy farm inspection permit issued by any duly constituted health authority, and who processes milk from his own production, all or a portion of which is distributed within the marketing area as Class I milk, but who receives no milk from producers, or non-pool plants.

§ 978.8 Approved plant.

"Approved plant" means the premises, buildings and facilities of any milk processing or packaging plant from which Grade A milk or skim milk is shipped during the month to a pool plant, or from which Class I milk is disposed of during the month on routes (including routes operated by vendors and sales through plant stores) in the marketing area.

§ 978.9 Pool Plant.

"Pool plant" means any:

(a) Milk distributing plant approved or recognized by any health authority having jurisdiction in the marketing area for the receiving or processing of Grade A milk and from which Class I milk equal to not less than 50 percent of its receipts of milk from other pool plants and from approved dairy farmers is disposed of during the month on a route(s) and from which Class I milk equal to not less than 20 percent of its total Class I disposition is disposed of during the month on a route(s) in the marketing area.

(b) Milk supply plant which, during the month, ships fluid milk products approved by any health authority having jurisdiction in the marketing area as eligible for distribution under a Grade A label in a volume equal to not less than 50 percent of its receipts of milk from approved dairy farmers to a plant specified in paragraph (a) of this section: *Provided*, That any plant which qualifies as a pool plant pursuant to this paragraph in each of the months of August through February shall be designated as a pool plant for the following months of March through July. *And provided further*, That any such plant may withdraw from pool plant status for any month in the March–July period if the operator of such plant files with the market administrator prior to the first day of such month a written request for such withdrawal.

(c) A plant operated by a cooperative association if, during the month, the sum of the milk delivered to other pool plants by producers who are members of such cooperative association plus the milk which was transferred thereto from the plant operated by the cooperative association is equal to not less than 50 percent of the total volume of milk delivered to all plants by producers who are members of the association.

§ 978.10 Nonpool plant.

"Nonpool plant" means any milk plant other than a pool plant.

§ 978.11 Handler.

"Handler" means: (a) any person in his capacity as the operator of one or more approved plants; or (b) a cooperative association with respect to milk of producers diverted for the account of such association from a pool plant to a nonpool plant in accordance with the provisions of § 978.12; or (c) a cooperative association with respect to the milk of its member producers which is delivered from the farm to the pool plant of another handler in a tank truck owned and operated by, or under contract to, such cooperative association if the cooperative association notifies the market administrator and the handler to whom the milk is delivered in writing that it wishes to be the handler for such milk.

§ 978.12 Producer.

"Producer" means any person, except a producer-handler, who produces milk in compliance with the Grade A inspection requirements of a duly constituted health authority, or produces milk acceptable for fluid consumption at Federal Government, State or municipal establishments within the marketing area, which milk is received at a pool plant: *Provided*, That if such milk is diverted for the account of a cooperative association from a pool plant to any other milk plant any day during the month, the milk so diverted shall be deemed to have been received by the diverting cooperative association at the location of the plant from which it was diverted.

§ 978.13 Producer milk.

"Producer milk" means only that skim milk or butterfat contained in milk (a) received at a pool plant directly from producers' farms, or (b) diverted from a pool plant to any other milk plant (except a plant which is fully subject to the pricing provisions of another order issued pursuant to the act) in accordance with the provisions of § 978.12.

§ 978.14 Fluid milk product.

"Fluid milk product" means milk, skim milk, buttermilk, flavored milk drinks, yogurt, cream or any mixture in fluid form of milk, skim milk and cream (except sterilized products packaged in hermetically sealed containers, eggnog, ice cream mix and aerated cream).

§ 978.15 Other source milk.

"Other source milk" means all skim milk and butterfat contained in: (a) Receipts during the month of fluid milk products except (1) fluid milk products received from other pool plants, or (2) producer milk; and (b) products, other than fluid milk products, from any source (including those from a plant's own production), which are reprocessed or converted to another product in the pool plant during the month.

§ 978.16 Base milk.

"Base milk" means milk received at pool plants from a producer during any of the months specified in § 978.72 for the computation of base and excess prices, which is not in excess of such producer's daily average base computed pursuant to § 978.60, multiplied by the number of days in such month.

§ 978.17 Excess milk.

"Excess milk" means milk received at pool plants from a producer during any of the months specified in § 978.72 for computation of base and excess prices, which is in excess of the base milk of such producer for such month, and shall include all milk received during such months from a producer for whom no daily average base can be computed pursuant to § 978.60.

MARKET ADMINISTRATOR

§ 978.20 Designation.

The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 978.21 Powers.

The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary, complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 978.22 Duties.

The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to, the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary, a bond, effective as of the date on which he enters upon his duties, and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 978.85 (1) the cost of his bond and of the bonds of his employees, (2) his own compensation, and (3) all other expenses (except those incurred under § 978.86) necessarily incurred by him in the maintenance and functioning of his office, and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly disclose to handlers and producers, at his discretion, the name of any person who, within 5 days after the day upon which he is required to perform such acts, has not made (1) reports pursuant to §§ 978.30 and 978.31, or (2) payments pursuant to §§ 978.80, 978.85 and 978.87;

(g) Submit his books and records to examination by the Secretary, and furnish such information and reports as may be required by the Secretary;

(h) Prepare and make available for the benefit of producers, consumers, and handlers, general statistics and information concerning the operation of this part;

(i) Verify all reports and payments by each handler by audit, if necessary, of such handler's records and the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends; and

(j) On or before the date specified, publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate the following: (1) The 6th day of each month, the Class II price and the Class II butterfat differential, both for the preceding month, (2) the 5th day of each month, the Class I price, and the Class I butterfat differential, both for the current month, and (3) the 10th day after the end of each month, the uniform price(s), computed pursuant to § 978.71 or § 978.72, and the producer butterfat differential for the preceding month.

REPORTS, RECORDS AND FACILITIES

§ 978.30 Reports of receipts and utilization.

On or before the 6th day after the end of each month each handler, except a producer-handler shall report for each of his approved plants for such month, to the market administrator in the detail and on forms prescribed by the market administrator:

(a) The quantities of skim milk and butterfat contained in receipts of producer milk;

(b) The quantities of skim milk and butterfat contained in fluid milk products received from other pool plants;

(c) The quantities of skim milk and butterfat contained in other source milk;

(d) Inventories of fluid milk products on hand at the beginning and end of the month; and

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section.

§ 978.31 Other reports.

(a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may request.

(b) Each handler, except a producer-handler, shall report to the market administrator, in the detail and on forms prescribed by the market administrator, as follows:

(1) On or before the 6th day after the end of each month for each producer from whom milk was received (i) his name and address, (ii) the total pounds and butterfat content of milk received from such producer during the month, (iii) his total pounds of base milk and his total pounds of excess milk for the month, and (iv) the amount of any deductions authorized in writing by such producer to be made from payments due for milk delivered;

(2) On or before the 21st day of each month, the name and address of each producer from whom milk was received during the first 15 days of such month, and the pounds of milk so received during said period from such producer; and

(3) On or before the first day in any month during which other source milk is received in the form of fluid milk products, his intention to receive such milk, and on or before the last day such milk is received, his intention to discontinue such receipts.

§ 978.32 Records and facilities.

Each handler shall keep adequate records of receipts and utilization of skim milk and butterfat, and shall, during the usual hours of business, make available to the market administrator, or his representative, such records and facilities as will enable the market administrator to

(a) verify the receipts and utilization of all skim milk and butterfat, and, in case of errors or omissions, ascertain the correct figures; (b) weigh, sample and test for butterfat content all milk and milk products handled; (c) verify deductions authorized by producers and the disbursement of moneys so deducted; and (d) make such examinations of operation equipment, and facilities as the market administrator deems necessary.

§ 978.33 Retention of records.

All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided*, That if within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c(15)(A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation, or when the records are no longer necessary in connection therewith.

§ 978.34 Reports to cooperative associations.

On or before the 15th day after the end of each delivery period, the market administrator shall report to each cooperative association, as described in § 978.86 (b), upon request by such association, the percentage of milk caused to be delivered by such association or by its members which was used in each class by each handler receiving any such milk. For the purpose of this report, any milk so received shall be prorated to each class in the proportion that the total receipts of milk from producers by such handler are used in such class.

CLASSIFICATION OF MILK

§ 978.40 Skim milk and butterfat to be classified.

The skim milk and butterfat to be reported for pool plants pursuant to § 978.30 shall be classified each month by the market administrator, pursuant to the provisions of §§ 978.41 to 978.45.

§ 978.41 Classes of utilization.

Subject to the conditions set forth in §§ 978.42 to 978.45, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat (1) disposed of in the form of fluid milk products, except those classified pursuant to paragraph (b)(3) of this section, and (2) not specifically accounted for as Class II milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat (1) used to produce any products other than fluid milk products; (2) contained in inventories of fluid milk products on hand at the end of the month; (3) disposed of and used for livestock feed, and skim milk dumped after prior notification to, and opportunity for verification by, the market administrator; and (4) in shrinkage not to exceed 2 percent respectively of the skim milk and butterfat contained in producer milk (except that diverted pursuant to § 978.12) and other source milk: *Provided*, That if shrinkage of skim milk or butterfat is less than 2 percent of such amounts, it shall be assigned prorata, respectively, to the skim milk and butterfat contained in such producer milk and other source milk.

§ 978.42 Responsibility of handlers.

All skim milk and butterfat to be classified pursuant to this part shall be classified as Class I milk unless the handler who first receives such skim milk and butterfat establishes to the satisfaction of the market administrator that it should be classified as Class II milk.

§ 978.43 Transfers.

(a) Skim milk and butterfat transferred to the pool plant of another handler (except a producer-handler) in the form of fluid milk products shall be classified as Class I milk unless the operators of both plants claim utilization thereof in Class II milk in their reports submitted pursuant to § 978.30: *Provided*, That skim milk or butterfat so assigned to Class II milk for any month shall be limited to the amount thereof remaining in Class II milk in the pool plant(s) of the transferee for such month after the computations pursuant to § 978.45(a)(1), (2), (3), (4), and (5), and the corresponding steps of § 978.45(b), and any additional amounts of such skim milk or butterfat shall be assigned to Class I milk.

(b) Skim milk and butterfat transferred to the plant of a producer-handler in the form of fluid milk products, shall be classified as Class I milk.

(c) Skim milk and butterfat transferred or diverted in bulk form as milk, skim milk or cream to a nonpool plant located less than 100 miles from the State Capital at Nashville, Tennessee, by the shortest hard-surfaced highway distance, as determined by the market administrator, shall be classified as Class I milk unless (1) the transferring or diverting handler claims classification in Class II milk in his report submitted to the market administrator pursuant to § 978.30, for the month within which such transaction occurred; (2) the operator of the nonpool plant maintains books and records showing the utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification, and (3) the skim milk and butterfat in the fluid milk products (except in ungraded fluid milk products) disposed of from such nonpool plant do not exceed the receipts of skim milk and butterfat in milk received during the month from dairy farmers approved by a duly constituted health authority for the production of Grade A milk who the market administrator determines constitute the regular source of supply for such plant: *Provided*, That any skim milk or butterfat in fluid milk products (except in ungraded fluid milk products) disposed of from the nonpool plant which is in excess of receipts from such dairy farmers shall be assigned to the fluid milk products transferred or diverted from a pool plant and shall be classified as Class I milk: *And provided further*, That if the total skim milk and butterfat which were transferred or diverted during the month to such nonpool plant from all plants fully regulated by this order and other orders issued pursuant to the Act is more than the skim milk and butterfat in fluid milk products disposition at the nonpool plant assignable pursuant to the preceding proviso hereof, the skim milk and butterfat assigned to Class I milk at a pool plant pursuant to this computation shall be not less than that obtained by prorating the assignable fluid milk product disposition at the nonpool plant over the receipts at such plant from all plants fully regulated by this and other orders issued pursuant to the Act.

(d) Skim milk and butterfat transferred in bulk form as cream to a nonpool plant located 100 miles or more from the State Capital in Nashville, Tennessee, by the shortest hard-surfaced highway distance, as determined by the market administrator, shall be classified as Class I milk unless (1) the transferring handler claims classification in Class II milk in his report submitted to the market administrator pursuant to § 978.30, (2) such cream is disposed of and used as other than Grade A under a Grade A certification or label, (3) the handler attaches tags or labels to each container of such cream bearing the words "for manufacturing uses only", (4) the handler gives the market administrator sufficient notice to allow him to verify or inspect such shipment, and (5) the operator of the nonpool plant maintains books and records showing the utilization of all skim milk and butterfat at such plant, which are made available if requested by the market administrator for the purpose of verification.

§ 978.44 Computation of skim milk and butterfat in each class.

For each month, the market administrator shall correct for mathematical and other obvious errors the reports of each handler submitted pursuant to § 978.30 and compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk in the pool plant(s) of such handler.

§ 978.45 Allocation of skim milk and butterfat classified.

After making the computations pursuant to § 978.44, the market administrator shall determine the classification of producer milk for each handler as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk in producer milk classified pursuant to § 978.41(b)(4);

(2) Subtract from the pounds of skim milk remaining in Class II milk the skim milk received as other source milk not in the form of fluid milk products: *Provided*, That if the pounds of skim milk to be subtracted are greater than the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk;

(3) Subtract from the pounds of skim milk remaining in Class II milk the skim milk in other source milk received in the form of fluid milk products and not subject to the Class I pricing provisions of another order issued pursuant to the Act: *Provided*, That if the pounds of skim milk to be subtracted are greater than the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk;

(4) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk in other source milk which was subject to the Class I pricing provisions of another order issued pursuant to the Act: *Provided*, That if the pounds of skim milk to be subtracted is greater than the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk;

(5) Subtract from the remaining pounds of skim milk in Class II milk the pounds of skim milk contained in inventory of fluid milk products on hand at the beginning of the month: *Provided*, That if the pounds of skim milk in such inventory are greater than the remaining pounds of skim milk in Class II milk, an amount equal to the excess shall be subtracted from the pounds of skim milk in Class I milk;

(6) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk transferred from the fluid milk plants of other handlers in the form of fluid milk products according to the classification thereof as determined pursuant to § 978.43(a);

(7) Add to the remaining pounds of skim milk in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(8) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk contained in producer milk, subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk. Any amount so subtracted shall be known as "Overage".

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section; and

(c) Add the pounds of skim milk and the pounds of butterfat allocated to producer milk in each class, pursuant to paragraphs (a) and (b) of this section, and determine the percentage of butterfat in each class.

MINIMUM PRICES

§ 978.50 Basic formula price.

The basic formula price shall be the highest of the prices per hundredweight for milk of 4.0 percent butterfat content computed pursuant to paragraphs (a), (b), (c), or (d) of this section, rounded to the nearest whole cent.

(a) To the average of the basic (or field) prices reported to have been paid or to be paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the month at the following milk plants for which prices have been reported to the market administrator or to the Department of Agriculture on or before the 5th day after the end of the month:

Location and Present Operator

Borden Company, Mount Pleasant, Mich.
Borden Company, New London, Wis.
Borden Company, Orfordville, Wis.
Carnation Company, Oconomowoc, Wis.
Carnation Company, Richland Center, Wis.
Carnation Company, Sparta, Mich.
Pet Milk Company, Bellsville, Wis.
Pet Milk Company, Coopersville, Mich.
Pet Milk Company, New Glarus, Wis.
Pet Milk Company, Wayland, Mich.
White House Milk Company, Manitowoc, Wis.
White House Milk Company, West Bend, Wis.

add an amount computed by multiplying the butterfat differential computed pursuant to § 978.82(a) by 5.

(b) The price per hundredweight obtained by adding any plus amounts obtained pursuant to subparagraphs (1) and (2) of this paragraph:

(1) Multiplying by 4 the average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any price range as one price) of 92-score bulk creamery butter per pound at Chicago, as reported by the Department of Agriculture during the month, and add 20 percent thereof;

(2) From the simple average as computed by the market administrator of the weighted averages of the carlot prices per pound for nonfat dry milk solids, spray and roller process, respectively, for human consumption, f.o.b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the Department of Agriculture, subtract 5 cents and multiply by 7.5.

(c) The average of the basic (or field) prices reported to have been paid or to be paid per hundredweight for milk of 4.0 percent butterfat content received from farmers during the month at the following milk plants for which prices have been reported to the market administrator or to the Department of Agriculture on or before the 6th day after the end of the month:

Location and Present Operator

Cudahy Packing Company, Lafayette, Tenn.
Carnation Company, Murfreesboro, Tenn.
Kraft Foods Company, Gallatin, Tenn.
Kraft Foods Company, Pulaski, Tenn.
Borden Company, Fayetteville, Tenn.
Borden Company, Lewisburg, Tenn.
Lakeshire-Marty Cheese Company, Carthage, Tenn.
Sumner County Cooperative Creamery, Gallatin, Tenn.
Swift & Company, Lawrenceburg, Tenn.
Wilson & Company, Murfreesboro, Tenn.

(d) The price per hundredweight computed as follows:

(1) Multiply by 6 the average daily wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the month;

(2) Add 2.4 times the average of the weekly prevailing price per pound of "Twins" during the month on the Wisconsin Cheese Exchange; *Provided*, That if the price of "Twins" is not quoted on such Exchange, the weekly prevailing price per pound of "Cheddars" shall be used; and

(3) Divide by 7, add 30 percent thereof, and then multiply by 4.

§ 978.51 Class prices.

Subject to the provisions of §§ 978.52 and 978.53, the class prices per hundredweight for the month shall be as follows:

(a) *Class I milk price.* The Class I milk price shall be the basic formula price for the preceding month, plus $1.40 during the months of August through January; plus $1.10 during all other months and, plus or minus a supply-demand adjustment calculated for each month as follows: *Provided*, That any pool plant which, during the second preceding month, did not dispose of at least an average of 1,000 pounds of fluid milk products per day on routes (including routes operated by vendors and sales through plant stores) to retail and wholesale outlets in the marketing area shall not be included in the supply-demand computation:

(1) For each month calculate a utilization ratio as follows:

(i) Calculate a utilization percentage by dividing the total hundredweight of producer milk of all pool plants during the twelve-month period ending with the beginning of the preceding month by the net hundredweight of Class I milk disposed of from all pool plants during the same period, and multiply the result by 100,

(ii) Add or subtract, respectively, any amount by which the percentage computed pursuant to subdivision (i) of this subparagraph is greater or less than a comparable utilization percentage calculated using the twelve-month period ending with the beginning of the fourth preceding month, and

(iii) The resultant figure rounded to the nearest whole percentage shall be known as the utilization ratio.

(2) For each percentage by which the utilization ratio calculated for the month pursuant to subparagraph (1) of this paragraph exceeds 130, subtract from, or for each percentage by which it is less than 125, add to, the Class I price, two cents: *Provided*, That any subtraction or addition shall be limited to 50 cents.

(b) *Class II milk price.* The Class II milk price shall be the price determined pursuant to § 978.50(c) plus 25 cents during the months of February through August, and plus 35 cents during all other months: *Provided*, That such price shall not exceed the basic formula price.

§ 978.52 Butterfat differentials to handlers.

For milk containing more or less than 4.0 percent butterfat, the class prices for the month calculated pursuant to § 978.51 shall be increased or decreased, respectively, for each one-tenth percent variation in butterfat content at the appropriate rate determined as follows:

(a) *Class I price.* Multiply by 0.12 the average of the daily wholesale prices

(using the midpoint of any price range as one price) of 92-score bulk creamery butter per pound at Chicago, as reported by the Department of Agriculture during the previous month, and round to the nearest one-tenth cent.

(b) *Class II price.* Multiply by 0.115 the average of the daily wholesale prices (using the midpoint of any price range as one price) of 92-score bulk creamery butter per pound at Chicago, as reported by the Department of Agriculture during the month, and round to the nearest one-tenth cent.

§ 978.53 Location differential to handlers.

For that milk which is received from producers at a pool plant located outside the marketing area and 50 miles or more from the State Capitol, Nashville, Tennessee, by shortest hard-surfaced highway distance, as determined by the market administrator, and which is transferred to another pool plant in the form of fluid milk products and assigned to Class I milk pursuant to the proviso of this section, or otherwise classified as Class I milk, the price specified in § 978.51(a) shall be reduced at the rate set forth in the following schedule according to the location of the pool plant where such milk is received from producers:

	Rate per hundredweight (cents)
Distance from the State Capitol, Nashville, Tenn. (miles):	
50 but not more than 60	10.0
For each additional 10 miles or fraction thereof an additional	1.5

Provided, That for the purpose of calculating such location differential, fluid milk products which are transferred between pool plants shall be assigned to any remainder of Class II milk in the plant to which transferred after making the calculations prescribed in § 978.45(a) (1), (2), (3), (4) and (5), and the comparable steps in § 978.45(b) for such plant, such assignment to the plant from which transferred to be made in sequence according to the location differential applicable at each plant, beginning with the plant having the largest differential.

§ 978.54 Use of equivalent price.

If for any reason a price quotation required by this part for computing class prices or for any other purpose is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

DETERMINATION OF BASE

§ 978.60 Computation of daily average base for each producer.

Subject to the rules set forth in § 978.61, the daily average base for each producer shall be an amount calculated by dividing the total pounds of producer milk received from such producer at all pool plants during the months of September through January immediately preceding by 153: *Provided,* That the base of a producer, who delivers milk during August and whose deliveries are temporarily discontinued during the base-forming period, shall be determined by dividing by the number of days for which deliveries are made or by 138 whichever is higher.

§ 978.61 Base rules.

The following rules shall apply in connection with the establishment and assignment of bases:

(a) Subject to the provisions of paragraph (b) and (c) of this section, the market administrator shall assign a base as calculated pursuant to § 978.60 to each person for whose account producer milk was delivered to pool plants during the months specified in § 978.60 for computation of base.

(b) A base which has been established by two or more persons operating a dairy farm as a partnership may be divided between the partners on any basis agreed to in writing by the partners provided written notification of the agreed division of base signed by each partner is received by the market administrator prior to the first day of the month on which such division is to be effective.

(c) An entire base shall be transferred from a person holding such base to any other person, effective as of the end of any month during which an application for such transfer is received by the market administrator such application to be on forms approved by the market administrator, and signed by the baseholder, or his heirs, and by the person to whom such base is to be transferred: *Provided,* That an entire base or any portion thereof shall be transferred from a producer to any other person upon adequate proof that such producer has discontinued marketing milk to a handler(s): *And provided further,* That if a base is held jointly, it shall be transferrable only upon the receipt of such application signed by all joint holders or their heirs.

§ 978.62 Announcement of established bases.

On or before February 25 of each year, the market administrator shall notify each producer and the handler receiving milk from such producer of the daily average base established by such producer.

DETERMINATION OF PRICES TO PRODUCERS

§ 978.70 Computation of the value of producer milk for each handler.

For each month, the market administrator shall compute the value of producer milk for each handler as follows:

(a) Multiply the quantity of producer milk in each class computed pursuant to § 978.45 by the applicable class price, total the resulting amounts;

(b) Add the amounts computed in subparagraphs (1), (2) and (3) of this paragraph;

(1) Multiply the rate of compensatory payment determined pursuant to § 978.92 by the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 978.45(a) (2) and (b),

(2) Multiply the rate of compensatory payment determined pursuant to § 978.92 at the nearest plant(s) from which an equivalent amount of other source milk was received in the form of fluid milk products by the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 978.45 (a) (3) and (b),

(3) Multiply the rate of compensatory payment determined pursuant to § 978.92 at the nearest plant(s) from which an equivalent amount of other source milk was received by the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 978.45 (a) (5) and (b), which is in excess of the sum of: (i) the quantity for which a payment must be computed pursuant to paragraph (d) of this section, and (ii) the quantity subtracted from Class II milk pursuant to § 978.45 (a) (4) and (b) in the preceding month;

(c) Add the amounts computed by multiplying the pounds of overage deducted from each class pursuant to § 978.45 (a) (8) and (b) by the applicable class price; and

(d) Add the amount computed by multiplying the difference between the appropriate Class II price for the preceding month and the appropriate Class I milk price for the current month by the hundredweight of skim milk and butterfat remaining in Class II milk after the calculations pursuant to § 978.45 (a) (6) and (b) for the preceding month or the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 978.45 (a) (5) and (b) for the current month, whichever is less, respectively.

§ 978.71 Computation of the uniform price.

For each of the months of August through February, the market administrator shall compute the uniform price per hundredweight of producer milk of 4.0 percent butterfat content, F.O.B. market, as follows:

(a) Combine into one total the values computed pursuant to § 978.70 for the producer milk of all handlers who submit reports prescribed in § 978.30 and who are not in default of payments pursuant to § 978.80;

(b) Subtract, if the average butterfat content of the producer milk included under paragraph (a) of this section is greater than 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 978.82(a), and multiply the result by the total hundredweight of such milk;

(c) Add an amount equal to the sum of the deductions to be made from producer payments for location differentials pursuant to § 978.82(b);

(d) Add an amount equal to the unobligated balance on hand in the producer-settlement fund;

(e) Add the total amount of payment due pursuant to § 978.91;

(f) Divide the resulting amount by the total hundredweight of producer milk included under paragraph (a) of this section; and

(g) Subtract not less than 4 cents nor more than 5 cents.

§ 978.72 Computation of uniform prices for base milk and excess milk.

For each of the months of March through July, the market administrator shall compute the uniform prices per hundredweight for base milk and for excess milk. Each of 4.0 percent butterfat content, F.O.B. market, as follows:

(a) Compute the aggregate value of excess milk for all handlers who submit reports pursuant to § 978.30, and who are not in default of payments pursuant to § 978.80 as follows: (1) multiply the hundredweight quantity of such milk which does not exceed the total quantity of producer milk assigned to Class II milk in the pool plants of such handlers by the Class II milk price, (2) multiply the remaining hundredweight quantity of excess milk by the Class I milk price, and (3) add together the resulting amounts.

(b) Divide the total value of excess milk obtained in paragraph (a) of this section by the total hundredweight of such milk, adjust to the nearest cent. The resulting figure shall be the uniform price for excess milk of 4.0 percent butterfat content received from producers;

(c) Subtract the total value of excess milk determined by multiplying the uniform price obtained in paragraph (b) of this section, times the hundredweight of excess milk from the total value of producer milk for the month as determined according to the calculations set forth in § 978.71 (a) through (e);

(d) Divide the amount calculated pursuant to paragraph (c) of this section by the total hundredweight of base milk included in these computations; and

(e) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (d) of this section. The resulting figure shall be the uniform price for base milk of 4.0 percent butterfat content f.o.b. market.

§ 978.73 Notification of handlers.

On or before the 10th day after the end of each month, the market administrator shall mail to each handler, at his last known address, a statement showing;

(a) The amount of his producer milk allocated to each class;

(b) The calculation of such handler's net obligation pursuant to § 978.70; and

(c) The amounts to be paid by such handler pursuant to §§ 978.80, 978.85 and 978.87.

PAYMENTS

§ 978.80 Payments to market administrator.

(a) On or before the 25th day of each month each handler shall pay to the market administrator for deposit into the producer-settlement fund an amount of money calculated by multiplying the hundredweight of producer milk received by him during the first 15 days of such month by the Class II price for the preceding month.

(b) On or before the 12th day after the end of each month, each handler shall pay to the market administrator for deposit into the producer-settlement fund an amount of money equal to such handler's net obligation for such month as determined pursuant to § 978.70 less payments made pursuant to paragraph (a) of this section for such month and less proper deductions authorized in writing by producers from whom such handler received milk.

§ 978.81 Payments to producers.

(a) On or before the last day of each month, the market administrator shall make payment to each producer for milk received from such producer during the first 15 days of such month by handlers from whom the appropriate payments have been received pursuant to § 978.80(a) at not less than the Class II price per hundredweight for the preceding month.

(b) On or before the 15th day after the end of each month, the market administrator shall make payment to each producer for milk received from such producer during the month by handlers from whom the appropriate payments have been received pursuant to § 978.80 (b), such payments by the market administrator to be at not less than the uniform price computed pursuant to § 978.71 for handlers for the months for which such uniform prices are computed and such payments to be for base and excess milk at not less than the uniform base and excess prices, respectively, computed pursuant to § 978.72 for the months for which such base and excess prices are computed subject to the following adjustments: (1) Butterfat and location differentials pursuant to § 978.82, (2) less payments made pursuant to paragraph (a) of this section, (3) less marketing service deductions pursuant to § 978.86, (4) less proper deductions authorized in writing by the producer, and (5) adjusted for any error in calculating payment to such individual producer for past months: *Provided,* That if the market administrator has not received full payment from any handler for such month, pursuant to § 978.80, he shall reduce uniformly per hundredweight his payments due producers for milk received by handlers by a total amount not in excess of the amount due from such handler(s): *Provided further,* That the market administrator shall make such balance of payment to producers on or before the next date for making payments pursuant to this paragraph following that on which such balance of payment is received from such handler(s); and

(c) In making payments to producers pursuant to paragraphs (a) and (b) of this section the market administrator shall pay, on or before the second day prior to the date payments are due to individual producers, to a cooperative association which is authorized to collect payment for milk of its members and from which a written request for such payment has been received, a total amount equal to, but not less than, the sum of the individual payments otherwise payable to such producers pursuant to this section.

§ 978.82 Butterfat and location differentials to producers.

The applicable uniform price to be paid each producer shall be increased or decreased for each one-tenth of one per-cent which the average butterfat content of his milk is above or below 4.0 percent, respectively, at the rate determined by multiplying the pounds of butterfat in producer milk allocated to each class by the appropriate butterfat differentials for such class as determined by § 978.52, dividing by the total butterfat in producer milk, and rounding to the nearest fifth of a cent.

(b) In making payment to producers pursuant to § 978.81(b), the applicable uniform prices to be paid for producer milk received at a pool plant located 50 miles or more from the State Capitol, Nashville, Tennessee, by the shortest hard-surfaced highway distance as determined by the market administrator, shall be reduced according to the location of the pool plant where such milk was received at the following rate:

	Rate per hundredweight (cents)
Distance from State Capitol, Nashville, Tenn. (miles):	
50 but not more than 60	10.0
For each additional 10 miles or fraction thereof an additional	1.5

§ 978.83 Statement to producers.

In making payments required by § 978.81(b), the market administrator shall furnish each producer or cooperative association with a supporting statement in such form that it may be retained by the producer or cooperative association which shall show:

(a) The month and the identity of the handler and of the producer;

(b) The total pounds and the average butterfat content of milk delivered by the producer, including, for the months in which base and excess prices apply, the pounds of base and excess milk;

(c) The minimum rate or rates at which payment to the producer or cooperative association is required under the provisions of §§ 978.81 and 978.82;

(d) The amount or the rate per hundredweight of each deduction claimed by the handler including any deduction made pursuant to § 978.86, together with a description of the respective deductions; and

(e) The net amount of payment to the producer or cooperative association.

§ 978.84 Producer-Settlement fund.

The market administrator shall maintain a producer-settlement fund into which he shall deposit the appropriate payments made by handlers pursuant to §§ 978.80, 978.87 and 978.91 and out of which he shall make appropriate payments required pursuant to §§ 978.81 and 978.87.

§ 978.85 Expense of administration.

As his pro rata share of this part, each handler shall pay to the market administrator, on or before the 15th day after the end of each month, 4 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to receipts during the month, of (a) producer milk (including such handler's own production, and (b) other source milk allocated to Class I milk pursuant to § 978.45.

§ 978.86 Marketing services.

(a) Except as set forth in paragraph (b) of this section, the market administrator, in making payments to producers pursuant to § 978.81, shall deduct an amount not exceeding 6 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to milk received by a handler(s) from producers during the month. Such moneys shall be used by the market administrator to provide market information and to check the accuracy of the testing and weighing of their milk for producers who are not receiving such service from a cooperative association. Such services shall be performed in whole or in part by the market administrator or an agent engaged by and responsible to him.

(b) In the case of producers who are members of a cooperative association which the Secretary determines is performing the services specified in paragraph (a) of this section for its members, the market administrator shall, in lieu of the deductions provided in paragraph (a) of this section, make such deductions as are authorized by such producers, and on or before the 15th day after the end of each month, pay the money so deducted to such cooperative association.

§ 978.87 Adjustment of accounts.

Whenever audit by the market administrator of any handler's reports, books, records or accounts or other verification discloses errors, resulting in money due the market administrator from such handler, or due such handler from the market administrator, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred.

§ 978.88 Termination of obligations.

The provisions of this section shall apply to any obligation under this part for the payment of money, irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this part, shall except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator received the handler's utilization report on the milk involved in such obligations, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representative.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c(15)(A) of the act, a petition claiming such money.

APPLICATION OF PROVISIONS

§ 978.90 Producer-handlers.

Sections 978.40 through 978.45, 978.50 through 978.53, 978.60 through 978.62, 978.70 through 978.73, and 978.80 through 978.87 shall not apply to a producer-handler.

§ 978.91 Handlers operating a nonpool distributing plant.

In lieu of the payments required pursuant to §§ 978.80 to 978.86 each handler, other than a producer-handler, or one exempt pursuant to § 978.93, who operates during the month a nonpool distributing plant, shall pay to the market administrator on or before the 12th day after the end of the month the amount calculated pursuant to paragraph (a) of this section unless the handler elects at the time of reporting pursuant to § 978.30, to pay the amounts computed pursuant to paragraph (b) of this section.

(a) The following amounts:

(1) For the producer-settlement fund, an amount equal to the value of all skim milk and butterfat disposed of as Class I milk on routes in the marketing area at the Class I price applicable at the location of such handler's plant, less the value of such skim milk and butterfat at the Class II price; and

(2) As his share of the expense of administration, the rate specified in § 978.85 with respect to Class I milk so disposed of in the marketing area.

(b) The following amounts:

(1) For the producer-settlement fund, any plus amount remaining after deducting from the value that would have been computed pursuant to § 978.70 if such handler had operated a pool plant the gross payments made by such handler for milk received during the month from Grade A dairy farmers at such plant or at a plant(s) which serves as a supply plant(s); and

(2) As his share of the expense of administration, an amount equal to that which would have been computed pursuant to § 978.85 had such plant been a pool plant.

§ 978.92 Rate of payment on unpriced milk.

The rate of payment per hundredweight on unpriced Class I milk shall be calculated as follows:

(a) For the months of March through July, subtract the Class II price adjusted by the Class II butterfat differential from the Class I price adjusted by the Class I butterfat differential and the Class I location differential.

(b) For the months of August through February, subtract the uniform price to producers from the Class I price.

§ 978.93 Plants subject to other Federal orders.

The provisions of this part, except §§ 978.30, 978.32 and 978.33, shall not apply to:

(a) A distributing plant which would be subject to the classification and pricing provisions of another order issued pursuant to the Act unless a greater volume of Class I is disposed of from such plant during the month on routes in the Nashville marketing area than in the marketing area defined in such other order.

(b) A Supply plant which would be subject to the classification and pricing provisions of another order issued pursuant to the Act unless such plant qualified as a pool plant during each of the preceding months of August through February.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 978.100 Effective time.

The provisions of this part or any amendments to this part shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 978.101 Suspension or termination.

The Secretary shall suspend or terminate any or all of the provisions of this part, whenever he finds that it obstructs or does not tend to effectuate the declared policy of the Act. This part shall, in any event, terminate whenever the provisions of the Act authorizing it cease to be in effect.

§ 978.102 Continuing power and duty of the market administrator.

(a) If, upon the suspension or termination of any or all of the provisions of this part, there are any obligations arising under this part, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator, shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(b) The market administrator, or such other person as the Secretary may designate, shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all funds or property on hand, together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct; and (3) if so directed by the Secretary execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

§ 978.103 Liquidation after suspension or termination.

Upon the suspension or termination of any or all provisions of this part, the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator, or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 978.110 Separability of provisions.

If any provision of this part, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

§ 978.111 Agents.

The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

Proposed by the Dairy Division, Agricultural Marketing Service:

Proposal No. 2. Consider adding a proviso to § 978.44 to read as follows:

Provided, That the skim milk contained in any product utilized, produced, or disposed of by the handler during the month shall be considered to be an amount equivalent to the nonfat milk solids contained in such product plus all the water originally associated with such solids.

Proposal No. 3.

Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the Market Administrator, 101 Presbyterian Bldg., 152 Fourth Avenue, N., Nashville 3, Tennessee, or from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D.C., or may be there inspected.

Issued at Washington, D.C., this 31st day of May 1960.

F. R. BURKE,
Acting Deputy Administrator, Agricultural Marketing Service.

[7 CFR Part 994]

[Docket No. AO-300-A1]

MILK IN COLORADO SPRINGS-PUEBLO MARKETING AREA

Notice of Hearing on Proposed Amendments to Tentative Marketing Agreement and Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Antlers Hotel, Cascade and Pikes Peak Avenue, Colorado Springs, Colorado, beginning at 10:00 a.m., local time, on June 21, 1960, with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the Colorado Springs-Pueblo marketing area.

The public hearing is for the purpose of receiving evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

Proposed by the Colorado Springs Milk Producers Association and the Pueblo Dairymen's Cooperative, Inc.:

Proposal No. 1. Revise § 994.51(a) by deleting the phrase, "during the first 18 months following the effective date of this part," and changing the word "the" to "The".

Proposal No. 2. Review the method of computing the price of Class II milk and the level of the price as provided in § 994.51(b).

Proposed by the Beatrice Foods Company, Sinton Dairy Company, The DEL Creamery Company (Division of Carnation Company), the Borden Company-Carlson Frink, and Scotland Pride Dairy:

Proposal No. 3. Review the price of Class I milk.

Proposal No. 4. Review the price of Class II milk.

Proposed by the Cache Valley Dairy Association, Smithfield, Utah:

Proposal No. 5. Define a "distribution point" as follows:

"Distribution point" means any building, premises, facilities or equipment used primarily to hold or store bottled milk or milk products in finished form in transit for wholesale or retail distribution.

Proposal No. 6. Define a "plant" as follows:

"Plant" means the premises, buildings, facilities, and equipment constituting a single operating unit or establishment, whether owned or operated by one or more persons, at which are maintained stationary holding tanks for milk, facilities and other equipment used during the month for the receiving, handling, or processing of milk or milk products: *Provided*, That this definition shall not include any distribution point or any building, premises, equipment, or facilities used primarily to transfer milk from one road vehicle to another.

Proposal No. 7. Amend § 994.7(b) by deleting the present language therein and substitute the following:

(b) At which milk eligible for distribution as Grade A milk is received from dairy farmers and from which 50 percent during the months of August through January and 30 percent during all other months or more of such receipts is delivered to (and is physically received in) a plant(s) which operates in the manner described in paragraph (a) of this section, irrespective of whether or not such plant(s) receives milk from dairy farmers. *Provided*, That any such receiving plant that was a pool plant during three of the four months of the period from August through November immediately preceding shall continue to be a pool plant for each of the succeeding months of December through July unless the milk received at the plant does not continue to be qualified for use in Grade A Class I milk products in the marketing area, or the plant delivers more than 50 percent of its Grade A receipts to a plant(s) regulated under another order issued pursuant to the Act, or the operator of the plant notifies the Market Administrator in writing that the plant should be withdrawn from the pool; in the event such notification is given the plant will no longer be a pool plant starting with the beginning of the delivery period following receipt of the notification by the Market Administrator, except during any delivery period(s) in which the pool plant requirements under this paragraph are fulfilled.

Proposal No. 8. Amend § 994.10 by deleting the present language therein and substituting the following: "Producer" means any dairy farmer, except a producer-handler and any dairy farmer for other markets, who produces milk on a dairy farm approved by a

duly constituted health authority for the production of milk for fluid disposition, which milk is qualified for labeling and disposition as Grade A milk in the marketing area and is handled under any of the following conditions:

(1) Received at a pool plant directly from the farm;

(2) Diverted for the account of the operator of a pool plant to another pool plant; or

(3) Diverted during the month from a pool plant to a nonpool plant for the account of the operator of a pool plant or a cooperative association: *Provided*, That for each of the months of August through March milk so diverted shall be limited to deliveries of such person not exceeding 12 days' production during such month: *And provided further*, That milk diverted to another pool plant or to a nonpool plant under the conditions of this paragraph shall be deemed to have been received at the pool plant at which his milk was last received immediately prior to diversion.

Proposal No. 9. Amend § 994.44(e)(1) to make the first paragraph thereof to read as follows:

(e)(1) As Class I milk, if transferred or diverted in the form of a fluid milk product, in bulk, to a nonpool plant located in Cache or Weber Counties of the State of Utah, or not more than 200 miles from the El Paso County Courthouse by the shortest highway distance, as determined by the Market Administrator, unless the following conditions are met.

Proposal No. 10. Amend § 994.81 by designating the present language contained therein as paragraph (a) and adding the following as paragraph (b):

(b) For milk which is diverted to a nonpool plant located more than 450 miles from Colorado Springs, Pueblo, or Walsenburg, whichever is closest, and classified as Class II there shall be deducted twenty (20) cents per hundredweight and an additional one and one-half (1½) cents shall be deducted for each ten (10) miles or fraction thereof that such distance exceeds 450 miles.

Proposed by the Sealtest Foods Division, National Dairy Products Corporation:

Proposal No. 11. Consider the revision of § 994.62 as follows:

(a) Review the rate of payment in paragraph (a)(1);

(b) By providing in paragraph (a)(1) that the rate of payments specified therein, as amended, shall be applicable to the hundredweight of skim milk and butterfat, respectively, disposed of as Class I milk on routes in the marketing area, less the receipts by the noonpool plants of skim milk and butterfat which was fully subject to the classification and pricing provisions of another order issued pursuant to the Act and was classified and priced as Class I milk under said Order;

(c) By providing in paragraph (b)(2) a lesser amount of administrative charge through revision of the amount of milk to which the charge is applicable.

Proposed by the Country Charm Dairy:

Proposal No. 12. In § 994.44(e), the phrase "200 miles" should be changed to read "600 miles".

Proposed by the National Cheese Company, 644 West Randolph Street, Chicago 6, Illinois:

Proposal No. 13. Amend § 994.46 so that sour cream manufactured from milk subject to the price and pooling of Chicago, Illinois, Market Order No. 41, be allocated to Class I at pool plants under any of the orders where such sour cream is received, handled, and distributed in the same consumer or institutional size packages in which it is received.

Proposed by the Dairy Division, Agricultural Marketing Service:

Proposal No. 14. Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the Market Administrator, 121 East Boulder Street, Colorado Springs, Colorado, or from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D.C., or may be there inspected.

Issued at Washington, D.C., this 31st day of May 1960.

F. R. BURKE,
Acting Deputy Administrator,
Agricultural Marketing Service.

HOLDING OF REFERENDA ON MARKETING QUOTAS

Notice of Proposed Rule Making

Notice is hereby given that, pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended, 7 U.S.C., 1281 et seq., consideration is being given to amending the regulations governing the holding of referenda on marketing quotas (23 F.R. 3432. 7285).

The amendment being considered would change paragraph (a) of § 717.6 to read as follows:

(a) *Posting a notice.* The county committee shall give public notice in each community or neighborhood of a referendum by posting a notice at one or more places open to the public within such community or neighborhood prior to the date of the referendum. Such notice shall be on a form prescribed by the Deputy Administrator, and shall state the commodity or commodities and marketing year, or years, or crops for which the referendum is to be held, the location of the polling places in the community or neighborhood, the date of the referendum, and the hours when the polls will be opened and closed.

All persons who desire to submit written data, views, and recommendations in connection with this proposal should file the same with the Deputy Administrator, Production Adjustment, Commodity Stabilization Service, U.S. Department of Agriculture, Washington 25, D.C., within 10 days after the date of the publication of this notice in the FEDERAL REGISTER.

Done at Washington, D.C., this 27th day of May 1960.

CLARENCE D. PALMBY,
Acting Administrator,
Commodity Stabilization Service.

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Notice of Filing of Petition for Establishment of Tolerances for Residues of O,O-Diethyl S-2-(Ethylthio) Ethyl Phosphorodithioate

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition has been filed by Chemagro Corporation, P.O. Box 4913, Kansas City 20, Missouri, proposing the establishment of tolerances for residues of *O,O*-diethyl *S*-2-(ethylthio) ethyl phosphorodithioate in or on raw agricultural commodities, as follows:

1. 2.0 parts per million in or on sugar beet tops.

2. 0.5 part per million in or on sugar beets.

The quantitative analytical method proposed in the petition for determining residues of *O,O*-diethyl *S*-2-(ethylthio) ethyl phosphorodithioate is that published in the FEDERAL REGISTER of April 29, 1955 (20 F.R. 2892), for Systox. In addition, a qualitative paper chromatographic identification procedure as described in the FEDERAL REGISTER of February 27, 1960 (25 F.R. 1730), for Systox is presented for identification of the compound.

Dated: May 25, 1960.

FEDERAL AVIATION AGENCY

[14 CFR Part 601]

[Airspace Docket No. 60-AN-6]

CONTROL ZONES

Notice of Proposed Modification

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 601.2239 of the regulations of the Administrator, the substance of which is stated below.

The Cordova, Alaska, control zone is presently designated within a 5-mile radius of the Cordova (Mile 13) Airport, within 5 miles either side of a line extending from the airport to the Cordova (localizer) radio range station and within 5 miles either side of the southeast and southwest courses of the Cordova (localizer) radio range extending from the radio range station to Amber Federal airway No. 1. The Federal Aviation Agency has under consideration the modification of the Cordova control zone by reducing the width of the extensions from five miles to two miles either side of the southeast and southwest courses of the radio range, and lengthening the extensions from their present termination at the north edge of Amber Federal airway No. 1 to the East Cordova and Egg Island intersections, respectively. This modification would eliminate the excessive lateral portions of the control zone extensions and provide sufficient length for the protection of aircraft executing standard instrument approach procedures and missed approach procedures utilizing the Cordova radio range.

If this action is taken, the Cordova, Alaska, control zone would be designated within a 5-mile radius of the Cordova (Mile 13) Airport (latitude 60°29'25" N., longitude 145°29'00" W.), within 2 miles either side of the southeast course of the Cordova radio range extending from the 5-mile radius zone to the intersection of the Cordova radio range southeast course and Hinchinbrook, Alaska, radio range east course, and within 2 miles either side of the southwest course of the Cordova radio range extending from the 5-mile radius zone to the intersection of the Cordova radio range southwest course and the Hinchinbrook radio range east course.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, P.O. Box 440, Anchorage, Alaska. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on May 27, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-4987; Filed, June 2, 1960; 8:46 a.m.]

[14 CFR Part 608]

[Airspace Docket No. 60-KC-12]

RESTRICTED AREAS

Designation of Restricted Area/Military Climb Corridor

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 608.22 of the regulations of the Administrator, the substance of which is stated below.

The Federal Aviation Agency is considering a proposal by the Department of Air Force to designate a Restricted Area/Military Climb Corridor at Bunker Hill Air Force Base, Ind. The military climb corridor, designated as a restricted area, would be used by the high-speed, high rate-of-climb Century series air defense aircraft when departing from the airbase on active air defense missions. The restricted area would provide protection for high-speed air defense aircraft and other users of the airspace during the climb phase of the air defense aircraft mission. The proposed restricted area/military climb corridor would extend along the 256° True radial of the Bunker Hill Air Force Base TACAN, beginning 5 statute miles west of the TACAN and extending to a point 32 statute miles west of the TACAN, having a width of 1 statute mile north and 3 statute miles south of the TACAN 256° True radial at the beginning, with the northern portion expanding uniformly and the southern portion decreasing uniformly to a width of 2.3 statute miles either side of the TACAN 256° True radial at the outer extremity. The lower altitude limits would extend in graduated steps from 2,800 feet MSL to 19,800 feet MSL. The upper altitude limits would extend from 15,800 feet MSL to 27,000 feet MSL. Time of designation would be continuous. The controlling agency would be the Bunker Hill AFB approach control. The controlling agency would authorize aircraft to operate within the climb corridor when not in use by active air defense aircraft.

If this action is taken, the Bunker Hill Air Force Base, Ind., Restricted Area/Military Climb Corridor (R-596) (Chicago Chart) would be designated as follows:

Description. That area based on the 256° True radial of the Bunker Hill Air Force Base, Ind., TACAN beginning 5 statute miles west of the TACAN and extending 32 statute miles west of the TACAN, having a width at the point of beginning of one statute mile north and 3 statute miles south of the 256° True radial and a width of 2.3 statute miles either side of the 256° True radial at the outer extremity.

Designated altitudes.

2,800' to 15,800' MSL from 5 statute miles west of the TACAN to 6 statute miles west of the TACAN.

2,800' to 24,800' MSL from 6 to 7 statute miles west of the TACAN.

2,800' to 27,000' MSL from 7 to 10 statute miles west of the TACAN.

6,800' to 27,000' MSL from 10 to 15 statute miles west of the TACAN.

10,800' to 27,000' MSL from 15 to 20 statute miles west of the TACAN.

15,800' to 27,000' MSL from 20 to 25 statute miles west of the TACAN.

19,800' to 27,000' MSL from 25 to 32 statute miles west of the TACAN.

Time of use. Continuous.

Controlling agency. Bunker Hill Air Force Base, Ind., Approach Control.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, 4825 Troost Avenue, Kansas City 10, Mo. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance

with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on May 27, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-4986; Filed, June 2, 1960; 8:46 a.m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 13419; FCC 60-616]

TELEVISION BROADCAST STATIONS

Table of Assignments

1. The Commission has before it for consideration the proposal set out in its Notice of Proposed Rule Making (RM-152), released March 4, 1960 (FCC 60-192), to amend § 3.606, Table of Assignments, Television Broadcast Stations, by making the following change:

City	Channel No.	
	Present	Proposed
Waycross, Ga.	8+, 16	*8+, 16

2. The proposal is supported by the petitioner, the Georgia State Board of Education; and no comments were filed in opposition to the requested change.

3. The Georgia State Board of Education is the present holder of a construction permit (BPCT-2501) granted on April 9, 1959, for a new television station to operate on Channel 8+ at Waycross, Georgia. The permittee proposes to operate solely on a noncommercial, educational basis; and it desires reservation of the channel to conform to its planned mode of operation.

4. Since the granting of the construction permit, permittee has filed two applications for extension of completion date thereof. The first of these, File No. BMPCT-5403, was granted November 16, 1959. The second, File No. BMPCT-5472, filed May 4, 1960, is presently under consideration by the Commission, and if granted would extend completion date from June 9, 1960 to December 9, 1960. It appears from statements submitted with these applications that, although the permittee has not been inactive in the promotion of its plans for construction of the proposed facility, actual construction of the station has not as yet been started. Nor does permittee indicate firm plans for scheduling construction. Under these circumstances we are not persuaded that the public interest would be served by shifting the channel assignment from commercial to noncommercial educational at this time.

5. The authority for the action here taken is contained in sections 4(i), 303 and 307(b) of the Communications Act of 1934, as amended.

6. In view of the foregoing: *It is ordered*, That the request for amendment of § 3.606 of the rules in the manner set out above is denied without prejudice to the rights of petitioner, Georgia State Board of Education, to request consideration of its proposal at such time as its station shall have been constructed and put into operation.

Adopted: May 25, 1960.

Released: May 27, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60-5050; Filed, June 2, 1960; 8:53 a.m.]

[47 CFR Part 21]

[Docket No. 13478]

DOMESTIC PUBLIC RADIO SERVICES (OTHER THAN MARITIME MOBILE)

Extension of Time for Filing Comments and Reply Comments

In the matter of amendment of Part 21 of the Commission's rules governing Domestic Public Radio Services (Other than Maritime Mobile) to provide for the authorization of dispatch stations, and the assignment of mobile frequencies thereto, in the Domestic Public Land Mobile Radio Service.

The Commission having under consideration the joint requests by Fresno Mobile Radio Service, Inc., Antennavision Service Co., Hanford Mobile Radio Service, Madera Radio Dispatch, Riggs Radio Dispatch, Tadlock's Radio Dispatch, General Communications Service, Nor-Car Tele-Radio System, Radio Communications Service, United Radio Communications, Caprock Radio Dispatch and National Mobile Radio System, to extend the dates for filing comments and reply comments in the above entitled matter; and

It appearing that petitioners are in the process of collecting certain facts bearing on this proposed rule making and require an extension of approximately 40 days in which to complete their factual study and to formulate a comprehensive comment thereto; and

It further appearing that the public interest will be served by providing additional time to enable interested parties to submit comments and reply herein;

It is ordered, This twenty-sixth day of May 1960, that the time for filing comments herein is extended until July 8, 1960, and the time within which to file reply comments is extended until July 18, 1960.

Released: May 26, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

Notices

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Group 332]

ARIZONA

Notice of Filing of Plats of Survey

MAY 26, 1960.

1. Pursuant to authority delegated by BLM Order No. 541 dated April 21, 1954 (19 F.R. 2473), as amended, notice is hereby given that the plats of survey accepted December 3, 1959, of T. 12 N., R. 11 W., G&SRM, Arizona, including lands hereinafter described, will be officially filed in the Land Office at Phoenix, Arizona, effective at 10:00 a.m. on the 35th day after the date of this notice:

GILA AND SALT RIVER MERIDIAN, ARIZONA

T. 12 N., R. 11 W.,
Sec. 1, Lots 1, 2, 3, 4, S½;
Sec. 2, Lots 1, 2, 3, 4, S½;
Sec. 3, Lots 1, 2, 3, 4, S½;
Sec. 4, Lots 1, 2, 3, 4, S½;
Sec. 5, Lots 1, 2, 3, 4, S½;
Sec. 6, Lots 1, 2, 3, 4, 5, 6, E½SW¼, SE¼;
Sec. 7, Lots 1, 2, 3, 4, E½W½, E½;
Sec. 8, All;
Sec. 9, All;
Sec. 10, All;
Sec. 11, All;
Sec. 12, All;
Sec. 13, All;
Sec. 14, All;
Sec. 15, All;
Sec. 16, All;
Sec. 17, All;
Sec. 18, Lots 1, 2, 3, 4, E½W½, E½;
Sec. 19, Lots 1, 2, 3, 4, E½W½E½;
Sec. 20, All;
Sec. 21, All;
Sec. 22, All;
Sec. 23, All;
Sec. 24, All;
Sec. 25, All;
Sec. 26, All;
Sec. 27, All;
Sec. 28, All;
Sec. 29, All;
Sec. 30, Lots 1, 2, 3, 4, E½W½, E½;

Sec. 32, All;
Sec. 33, All;
Sec. 34, All;
Sec. 35, All;
Sec. 36, All.

Within the above described areas are 22,093.60 acres.

2. Available data indicates that the lands in T. 12 N., R. 11 W., are rough and broken and the soil is sandy and rocky.

3. All of the lands in T. 12 N., R. 11 W., were withdrawn and reserved for power site purposes by Executive Order of July 2, 1910.

4. In view of the above, the lands described will not be subject to disposition under the general public land laws by reason of the official filing of the plats.

ROY T. HELMANDOLLAR,
Manager.

[F.R. Doc. 60-4992; Filed, June 2, 1960; 8:47 a.m.]

[W-04007]

WASHINGTON

Notice of Filing of Plat of Survey

1. Plat of survey of lands described below will be officially filed in the Land Office, Spokane, Washington, effective 10:00 a.m., July 8, 1960;

WILLAMETTE MERIDIAN

T. 39 N., R. 35 E.,
Secs. 25, 26, 31, 32, 33, 34, 35, 36.

Containing 5,248.20 acres.

2. This plat represents a retracement and re-establishment of the east boundary of Township 39 North, Range 34 East, and the west boundary of Township 39 North, Range 36 East, designed to restore the corners in their true original location according to the best available evidence, also dependent resurvey of the east boundary of Township 39 North, Range 34 East, the west boundary of Township 39 North, Range 36 East, and survey of a portion of the subdivisional lines in Township 39 North, Range 35 East, Willamette Meridian, Washington.

3. The lands are within the exterior boundaries of the Colville National Forest, having been withdrawn from all forms of disposition by Presidential Proclamation of March 1, 1907.

4. In view of the foregoing withdrawal, the lands described will not be subject to disposition under the general public land laws by reason of the official filing of the plat.

5. All inquiries relating to the lands should be addressed to the Manager, Land Office, Bureau of Land Management, Room 680, Bon Marche Building, Spokane 1, Washington.

ERLING A. OLSON,
Acting Manager.

[F.R. Doc. 60-5000; Filed, June 2, 1960; 8:48 a.m.]

CALIFORNIA

Notice of Filing of Plat of Survey and Order Providing for Opening of Lands

MAY 26, 1960.

Notice is given that the plat of survey of the following described lands accepted March 7, 1960, will be officially filed in the Land Office, Sacramento, California, effective at 10 a.m. on June 30, 1960.

MOUNT DIABLO MERIDIAN

T. 20 N., R. 3½ E.,
Sec. 1: Lots 1, 2, 3, 4;
Sec. 12: Lots 1, 2, 3, 4;
Sec. 13: Lots 1, 2, 3, 4;
Sec. 24: Lots 1, 2, 3, 4;
Sec. 25: Lot 1.

The area described aggregates 188.51 acres of public land.

The lands are located 8 miles north of Oroville in Butte County, California, and are accessible by road. Available data indicate the lands consist generally of rolling, open woodland bisected from east to west by several steep canyons. The elevation varies from 400 feet in the south portion to 1,160 feet in the north portion. The upper Miocene Canal passes through the south portion of Section 1. Most of the area is now used for winter livestock range.

Subject to any existing valid rights and the requirements of applicable law, the lands described above are hereby opened to filing applications and selections in accordance with the following:

a. Applications and selections under the nonmineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and date shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications and selections under the nonmineral public land laws presented prior to 10 a.m. on June 30, 1960, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands have been open to applications and offers under the mineral leasing laws and to locations under the mining laws.

Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning these lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Room 1000, California Fruit Building, 4th and J Streets, Sacramento 14, California.

WALTER E. BECK,
Manager, Land Office, Sacramento.

DEPARTMENT OF AGRICULTURE

Commodity Stabilization Service

SUGARCANE

Notice of Hearing on Wages and Prices in Louisiana; Designation of Presiding Officers

Pursuant to the authority contained in section 301(c)(1) and (2) of the Sugar Act of 1948, as amended (61 Stat. 929; 7 U.S.C. 1131), and in accordance with the rules of practice and procedure applicable to wage and price proceedings (7 CFR 802.1 et seq.), notice is hereby given that a public hearing will be held in Thibodaux, Louisiana, in the Grand Theatre on July 14, 1960, beginning at 9:30 a.m.

The purpose of such hearing is to receive evidence likely to be of assistance to the Secretary of Agriculture in determining (1), pursuant to the provisions of section 301(c)(1) of said Act, fair and reasonable wage rates for persons employed in the harvesting of the 1960 crop of sugarcane, and in the production and cultivation of sugarcane during the calendar year 1961, and (2), pursuant to the provisions of section 301(c)(2) of said Act, fair and reasonable prices for the 1960 crop of sugarcane to be paid, under either purchase or toll agreements, by producers who process sugarcane grown by other producers and who apply for payments under the Act.

In the interest of obtaining the best possible information, all interested persons are requested to appear at the hearing to express their views and present appropriate data in regard to wages and prices. While testimony on all pertinent points is desired, it is especially requested that witnesses be prepared to offer information and recommendations on the following matter regarding fair prices for sugarcane:

Season's average prices for raw sugar and molasses. The 1959 crop determination provided the period October 9, 1959 through January 28, 1960 for determining the season's average price of raw sugar, and the period October 9, 1959 through April 28, 1960 for determining the season's average price of blackstrap molasses. What periods will provide an equitable basis for pricing raw sugar and molasses of the 1960 crop?

The hearing, after being called to order at the time and place mentioned herein, may be continued from day to day within the discretion of the presiding officers and may be adjourned to a later day or to a different place without notice other than the announcement thereof at the hearing by the presiding officers.

Tom O. Murphy and A. A. Greenwood are hereby designated as presiding officers to conduct either jointly or severally the foregoing hearing.

Issued this 27th day of May 1960.

LAWRENCE MYERS,
Director, Sugar Division, Commodity Stabilization Service.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 13535; FCC 60-620]

AMERICAN TELEPHONE AND TELEGRAPH CO.

Order Instituting Investigation

In the matter of American Telephone and Telegraph Company, Docket No. 13535; regulations and charges for switching and selecting equipment (common user group) for use with channels of telephone grade furnished for the remote operation of mobile radiotelephone systems and for channel terminals and terminal equipment in connection with Schedule 5 channels for data transmission (filed on behalf of the Lincoln-Tillamook Telephone Company).

At a session of Federal Communications Commission held at its offices in Washington, D.C., on the 25th day of May 1960;

The Commission having under consideration 1) certain tariff schedules filed by the American Telephone and Telegraph Company on behalf of the Lincoln-Tillamook Telephone Company, a connecting carrier, under Transmittal Nos. 6288 and 6289, to become effective May 30, 1960, establishing new regulations and charges applicable to switching and selecting equipment (common user group) for use with channels of telephone grade furnished for remote operation of mobile radiotelephone systems and also applicable to channel terminals and terminal equipment in connection with Schedule 5 channels for data transmission, such tariff schedules being respectively designated A.T. & T. Tariff F.C.C. No. 135, 3d Revised Page 42AB and A.T. & T. Tariff F.C.C. No. 237, 1st Revised Page 19, and 2) a petition by the United States of America, through its Administrator of General Services, filed May 20, 1960, requesting that the Commission suspend the above new and revised tariff schedules and that it initiate a hearing and investigation into the lawfulness thereof;

It appearing that the Commission is unable to determine that the regulations and charges contained in the new and revised tariff schedules are or will be just and reasonable or otherwise lawful under the provisions of section 201(b) or section 202(a) of the Communications Act of 1934, as amended;

It further appearing that no rights and interests of the public will be substantially affected if these regulations and charges are permitted to become effective as scheduled since there is only one customer who would be affected by them and since such customer has a remedy by way of complaint for damages pursuant to the provisions of section 208 of the Communications Act of 1934, as amended, in the event the tariff schedules are determined to be unjust, unreasonable or otherwise unlawful;

It further appearing that GSA's petition raises certain questions relating to compliance with section 203 of the Communications Act of 1934, as amended, and Part 61 of the Commission's rules which are not confined to the tariff schedules under consideration but are of general application and therefore would not be appropriate for consideration in connection with these specific tariff schedules;

It is ordered, That, pursuant to the provisions of sections 201, 202, 204, 205 and 403 of the Communications Act of 1934, as amended, an investigation is hereby instituted into the lawfulness of the above-mentioned tariff schedules, including amendments thereto and successive issues thereof;

It is further ordered, That, without in any way limiting the scope of the investigation, it shall include consideration of the following:

1. Whether any of the classifications, regulations, and practices contained in the above-mentioned tariff schedules are or will be unjust and unreasonable within the meaning of section 201(b) of the Communications Act of 1934, as amended;

2. Whether the above-mentioned tariff schedules will subject any person or class of persons to unjust or unreasonable discrimination, or give any undue or unreasonable preference or advantage to any person, class of persons, or locality, or subject any person, class of persons, or locality to any undue or unreasonable prejudice or disadvantage within the meaning of section 202(a) of the Communications Act of 1934, as amended;

3. Whether the Commission should prescribe just and reasonable classifications, regulations, and practices to be followed with respect to the services governed by the tariff schedules listed above and, if so, what classifications, regulations, and practices should be prescribed;

It is further ordered, That a hearing be held in this proceeding at the Commission's offices in Washington, D.C., at a time to be specified; and that the examiner to be designated to preside at the hearing shall certify the record to the Commission for decision without preparing either an Initial Decision or a Recommended Decision;

It is further ordered, That American Telephone and Telegraph Company and the Lincoln-Tillamook Telephone Company are hereby made parties respondent in the proceedings, and the United States of America, through its Administrator of General Services, is hereby granted leave to intervene upon filing notice of intention to participate in these proceedings within twenty days from the date of issuance of the Order;

It is further ordered, That the petition of the United States of America, through its Administrator of General Services, is granted to the extent indicated herein and in all other respects is denied.

Released: May 31, 1960.

[Docket No. 13527; FCC 60-612]

BABYLON-BAY SHORE BROADCASTING CORP. (WBAB)

Order Designating Application for Hearing on Stated Issues

In re application of Babylon-Bay Shore Broadcasting Corp. (WBAB), Babylon, New York, Docket No. 13527, File No. BP-12538; has 1440 kc, 500 w, Day, requests 1440 kc, 1 kw, Day; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 25th day of May 1960;

The Commission having under consideration the above-captioned and described application;

It appearing that except as indicated by the issues specified below, the instant applicant is legally, technically, financially, and otherwise qualified to construct and operate the instant proposal; and

It further appearing that pursuant to section 309(b) of the Communications Act of 1934, as amended, the Commission, in a letter dated March 31, 1960, and incorporated herein by reference, notified the applicant, and any other known parties in interest, of the grounds and reasons for the Commission's inability to make a finding that a grant of the application would serve the public interest, convenience and necessity; and that a copy of the aforementioned letter is available for public inspection at the Commission's offices; and

It further appearing that the applicant filed a timely reply to the aforementioned letter, which reply has not, however, entirely eliminated the grounds and reasons precluding a grant of the application and requiring an evidentiary hearing on the particular issues hereinafter specified; and

It further appearing that after consideration of the foregoing and the applicant's reply, the Commission is still unable to make the statutory finding that a grant of the application would serve the public interest, convenience, and necessity; and is of the opinion that the application must be designated for hearing on the issues specified below;

It is ordered, That, pursuant to section 309(b) of the Communications Act of 1934, as amended, the instant application is designated for hearing, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the proposed operation of Station WBAB and the availability of other primary service to such areas and populations.

2. To determine whether the instant proposal of Babylon-Bay Shore Broadcasting Corp. would involve objectionable interference with Stations WBIS, Bristol, Connecticut and WNJR, Newark, New Jersey, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine, in the light of the evidence adduced pursuant to the foregoing issues, whether a grant of the instant application would serve the public interest, convenience, and necessity.

It is further ordered, That Bristol Broadcasting Corporation and Continental Broadcasting, Inc., licensees of Stations WBIS and WNJR, respectively, are made parties to the proceeding.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicant and parties respondent herein, pursuant to § 1.140 of the Commission rules, in person, or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

Released: May 31, 1960.

[Docket No. 13524]

J. R. CONNELL

Order To Show Cause

In the matter of Dr. J. R. Connell, d/b/a Animal Clinic, Route No. 1, Sheridan, Wyoming, Docket No. 13524, order to show cause why there should not be revoked the license for Special Emergency Station KOI-958.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of the above-captioned station;

It appearing that pursuant to § 1.61 of the Commission's rules, written notice of violation of the Commission's rules was served upon the above-named licensee as follows:

Official Notice of Violation was mailed to the licensee on November 20, 1959, alleging that on November 14, 1959 the licensee was found to be in violation of § 10.161(c)(d) of the Commission's rules in that the said licensee did not maintain a radio station log or station records as is required by said Section.

It further appearing that the above-named licensee received said Official notice but did not make satisfactory reply thereto, whereupon the Commission, by letter dated January 25, 1930, and sent by Registered Mail, Return Receipt Requested (No. 74948), requested that such licensee respond to the Commission's letter within fifteen days from the date of its receipt stating the measures which had been taken, or were being taken, in order to bring the operation of the radio station into compliance with the Commission's rules, and warning the licensee that his failure to respond to such letter might result in the institution of proceedings for the revocation of the radio station license; and

It further appearing that said letter, Registered as aforesaid, was returned to the Commission on or about February 12, 1960, by the Sheridan, Wyoming branch of the Post Office for the reason that the said licensee had failed to claim said letter; and

It further appearing that the Commission, by letter dated February 15, 1960, and sent by Registered Mail, Return Receipt Requested (No. 76293) again attempted to call the matter to the said licensee's attention, but that said letter was returned on March 2, 1960 by said Post Office for the reason that the said licensee again failed to claim said letter; and

It further appearing that the Commission, upon being advised by said branch Post Office that the said licensee habitually refused to pick up such Registered Mail, duly sent a letter directed to the licensee at his address of record on April 15, 1960, by Ordinary Mail, calling said licensee's attention to his failure to reply to said official notice dated November 20, 1959. Said letter also contained a copy of said official notice together with a copy of the aforementioned Commission letter dated January 25, 1960, and demanded that the licensee explain his failure to reply to the former letter. He was also required to account for the occurrence of the violations and to specify the corrective action taken with respect thereto; and

It further appearing that the aforementioned Commission letter duly mailed on April 15, 1960, as aforesaid has not been returned and that more than one (1) month has elapsed since the mailing thereof; and

It further appearing that the said licensee has not responded to said letter; and

It further appearing that in view of the foregoing, the licensee has repeatedly violated § 1.61 of the Commission's rules;

It is ordered, This 25th day of May 1960, pursuant to section 312 (a)(4) and (c) of the Communications Act of 1934, as amended, and section 0.219(b)(8) of the Commission's Statement of Delegations of Authority, that the said licensee show cause why the license for the above-captioned Radio Station should not be revoked and appear and give evidence in respect thereto at a hearing [1] to be held at a time and place to be specified by subsequent order; and

It is further ordered, That the Secretary send a copy of this Order by Certified Mail, Return Receipt Requested to the said licensee.

Released: May 27, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[Docket Nos. 13525, 13526; FCC 60-611]

SIMON GELLER AND ASSOCIATED ENTERPRISES

Order Designating Applications for Consolidated Hearing on Stated Issues

In re application of Simon Geller, Gloucester, Massachusetts, Docket No. 13525, File No. BP-11667, requests 1410 kc, 500 w, DA-2, U, Alan C. Tindal, Kristian Solberg, Paul Monson, and John J. Sullivan, d/b as Associated Enterprises, Brockton, Massachusetts, Docket No. 13526, File No. BP-11630, requests 1419 kc, 1 kw, DA-D, for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 25th day of May 1960;

The Commission having under consideration the above-captioned and described applications;

It appearing that except as indicated by the issues specified below, the instant applicant is legally, technically, financially, and otherwise qualified to construct and operate its proposed station; and

It further appearing that pursuant to section 309(b) of the Communications Act of 1934, as amended, the Commission, in a letter dated December 14, 1959, and incorporated herein by reference, notified the applicants and any other known party in interest, of the grounds and reasons for the Commission's inability to make a finding that a grant of the applications would serve the public interest, convenience and necessity; and that a copy of the aforementioned letter is available for public inspection at the Commission's offices; and

It further appearing that the applicants filed timely replies to the aforementioned letter, which replies have not, however, entirely eliminated the grounds and reasons precluding a grant of the applications and requiring an evidentiary hearing on the particular issues hereinafter specified; and

It further appearing that Simon Geller, in pleadings filed on September 28 and December 23, 1959, requested the Commission to consolidate in a hearing on his application the applications of Plymouth Rock Broadcasting Co., Inc. (a) to increase the daytime power of Station WPLM, Plymouth Rock, Massachusetts (1390 kc, 5 kw, DA-D), File No. BP-11625, granted on January 1, 1959, and (b) to modify the permit to operate night-time with a power of 5 kw, Directional Antenna, File No. BMP-8411, because the said WPLM operations would involve 2 and 25 mv/m overlap with the Geller proposal in contravention of the provisions of § 3.37 of the Commission rules; but that we find the overlap would occur approximately 42 to 45 miles from the Geller transmitter site and approximately 5 miles from the WPLM transmitter site immediately along the coast; that, with the physical separation which exists between the proposed Geller operation and the WPLM location, it would not appear that there should be any substantial overlap of service areas where the presence of high signal intensities from the respective stations would give rise to interference caused by non-selectivity, external cross-modulation, and internal cross-modulation; and that, therefore, the Commission this day waived the provisions of § 3.37 of the rules with respect to the WPLM proposals and granted the said WPLM application for modification of permit to operate night-time with a power of 5 kilowatts, directional antenna, without prejudice to a grant of the instant Geller application; and

[1] Section 1.62 of the Commission's rules provides that a licensee, in order to avail himself of the opportunity to be heard, shall, in person or by his attorney, file with the Commission, within thirty days of the receipt of the order to show cause, a written statement stating that he will appear at the hearing and present evidence on the matter specified in the order. In the event it would not be possible for respondent to appear for hearing in the proceeding if scheduled to be held in Washington, D.C., he should advise the Commission of the reasons for such inability within five days of the receipt of this order. If the licensee fails to file an appearance within the time specified, the right to a hearing shall be deemed to have been waived. Where a hearing is waived, a written statement in mitigation or justification may be submitted within thirty days of the receipt of the order to show cause. If such statement contains, with particularity, factual allegations denying or justifying the facts upon which the show cause order is based, the Hearing Examiner may call upon the submitting party to furnish additional information, and shall request all opposing parties to file an answer to the written statement and/or additional information. The record will then be closed and an initial decision issued on the basis of such procedure. Where a hearing is waived and no written statement has been filed within the thirty days of the receipt of the order to show cause, the allegations of fact contained in the order to show cause will be deemed as correct and the sanctions specified in the order to show cause will be invoked.

It further appearing that after consideration of the foregoing and of the instant applicant's reply, the Commission is still unable to make the statutory finding that a grant of the applications would serve the public interest, convenience and necessity; and is of the opinion that the applications must be designated for hearing on the issues specified below;

It is ordered, That, pursuant to section 309(b) of the Communications Act of 1934, as amended, the instant applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and populations which would receive primary service from each of the instant proposals and the availability of other primary service to such areas and populations.

2. To determine whether the instant proposal of Associated Enterprises would involve objectionable interference with Station WHIL, Medford, Massachusetts, or any other existing standard broadcast station, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine whether the instant proposal of Simon Geller is in compliance with the provisions of §§ 3.28(c), 3.182, and 3.188 of the Commission rules, and, if not, whether circumstances exist which would warrant a waiver of each of said sections.

4. To determine, in the light of section 307(b) of the Communications Act of 1934, as amended, which of the instant proposals would better provide a fair, efficient and equitable distribution of radio service.

5. To determine, in light of the evidence adduced pursuant to the foregoing issues, whether a grant of either of the instant applications would serve the public interest, convenience, and necessity.

It is further ordered, That Conant Broadcasting Company, Inc., licensee of Station WHIL, Medford, Massachusetts, is made a party to the proceeding;

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants and the party respondent herein, pursuant to § 1.140 of the Commission rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

Released: May 31, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60-5033; Filed, June 2, 1960; 8:52 a.m.]

[Docket No. 13539]

DON GULOVSEN

Order Designating Matter for Hearing on Stated Issues

In the matter of Don Gulovsen, c/o The Warden, United States Penitentiary, Alcatraz, California, Docket No. 13539; suspension of Restricted Radiotelephone Operator Permit.

The Commission having under consideration the suspension of the Restricted Radiotelephone Operator Permits, RP-6E0570, RP-12-41461 and RP-30B4314, issued to Harry Donald Gulovsen also known as Don Gulovsen, Donald David Gulovsen, Harry U. Barkoff and David Hoelling; and

It appearing that acting in accordance with the provisions of section 303(m)(2) of the Communications Act of 1934, as amended, the above named party filed with the Commission a timely application for a hearing on the Commission's Order dated April 28, 1960, suspending his restricted radiotelephone operator permits; and

It further appearing that under the provisions of section 303(m)(2) of the Communications Act of 1934, as amended, the said permittee is entitled to a hearing in this matter and that upon the filing of a timely written application therefor, the Commission's Order of Suspension is held in abeyance until the conclusion of the proceeding in this matter,

It is ordered, This 27th day of May 1960, that the matter of the suspension of the Restricted Radiotelephone Operator Permits of Don Gulovsen, are hereby designated for hearing before Commission Examiner, James D. Cunningham on June 30, 1960, at 10:00 a.m., in San Francisco, California, on the following issues:

1. To determine whether the above named permittee by not disclosing criminal convictions and in one instance by using the assumed name of Harry U. Barkoff obtained radio operator licenses by fraudulent means in violation of § 13.70 of the Commission's rules.

2. To determine whether the above named permittee by representing to the management of Broadcasting Station KENL that he held a Radiotelephone First Class Operator License and by performing duties not authorized under a Restricted Radiotelephone Operator Permit at Broadcasting Station KENL, Arcata, California, he violated §§ 13.61 (h) and 13.62(c) of the Commission's rules.

3. To determine in the light of the evidence adduced in the preceding issues whether the terms of the original Order of Suspension should be made final, rescinded, or modified.

It is further ordered, That a copy of this order be transmitted by Registered Mail, Return Receipt Requested, to Don Gulovsen and that he notify the Commission in writing within 10 days after the receipt of this order that he will appear in person or by counsel at said hearing.

Released: May 27, 1960.

HUB CITY BROADCASTING CO., INC. (WHSY) ET AL.

Order Scheduling Prehearing Conference

In re applications of Hub City Broadcasting Company, Inc. (WHSY), Hattiesburg, Mississippi, Docket No. 13518, File No. BP-12170; Veterans Broadcasting Company, a partnership composed of Max H. Jacobs, Douglas B. Hicks, Bailey Swenson, Leon Green and David H. Morris (KNUZ), Houston, Texas, Docket No. 13519, File No. BP-12179; Price Broadcasting Corporation, Inc., Fairhope, Alabama, Docket No. 13520, File No. BP-12654; Radio New Orleans, Inc. (WJBW), New Orleans, Louisiana, Docket No. 13521, File No. BP-12940; for construction permits.

Pursuant to the provisions of § 1.111 of the Commission's rules: *It is ordered*, This 27th day of May 1960, that a prehearing conference in the above-entitled proceeding be convened at the Commission's offices, Washington, D.C., Tuesday, June 14, 1960, at 10:00 a.m.

To the extent it may be feasible in this multi-party proceeding the parties are requested to seek agreement beforehand on such routine matters as dates for further prehearing conferences, hearing dates, and the manner of presentation (e.g., whether oral or by written case procedure).[1]

Released: May 27, 1960.

INDEPENDENT BROADCASTING CO. (KTTS)

Order Continuing Hearing

In re application of Independent Broadcasting Company (KTTS), Springfield, Missouri, Docket No. 13429, File No. BP-12158; for construction permit.

[1] In all events each party individually is expected to be fully prepared at the conference to discuss practicable methods directed to the elimination of unessentials and to the orderly and expeditious conduct of the hearing.

The Hearing Examiner having before him a motion filed by Independent Broadcasting Company on May 24, 1960, for continuance of the hearing from May 31, 1960, to July 11, 1960; and

It appearing that the Broadcast Bureau, the only other party to the proceeding, consents to grant of the motion and to its immediate consideration;

It is ordered, This 26th day of May 1960, that the motion is granted; and the hearing in the above-captioned proceeding now scheduled for May 31, 1960, is continued to July 11, 1960.

Released: May 27, 1960.

[Docket No. 13222 etc.; FCC 60-599]

MICHIGAN BROADCASTING CO. (WBCK) ET AL.

Memorandum Opinion and Order Amending Issues

In re applications of Michigan Broadcasting Company (WBCK), Battle Creek, Michigan, et al., Docket No. 13222, File No. BP-11439, etc.; for construction permits.

1. The Commission has before it for consideration (1) a petition to enlarge issues, filed November 18, 1959, by Sam Kamin and James A. Howenstein, d/b as Citizens Broadcasting Company, (2) an opposition to the petition, filed December 7, 1959, by the Commission's Broadcast Bureau; and (3) a reply to the opposition, filed December 17, 1959, by Citizens Broadcasting Company.

2. Citizens Broadcasting Company (Citizens) and Western Ohio Broadcasting Company (Western Ohio) are mutually exclusive applicants for new standard broadcast stations at Lima and Delphos, Ohio, respectively, and their applications were consolidated for hearing by Order released October 28, 1959 (FCC 59-1079). Each of these applications is also mutually exclusive with several other applications in the above-captioned proceeding. The standard 307(b) issue is included among the hearing issues specified in the designation order.

3. In its petition, Citizens requests that the issues be enlarged to include the following issues:

To determine on a comparative basis, in the event that either Lima or Delphos, Ohio, is selected as having the greatest need pursuant to section 307(b), which of the operations proposed by Charles F. Trivette and Herman C. Dotson, d/b as Western Ohio Broadcasting Co., and Sam Kamin and James A. Howenstein, d/b as Citizens Broadcasting Company, would better serve the public interest in the light of the evidence adduced pursuant to the foregoing issues and the record made with respect to the significant differences between the two applicants as to:

(a) The background and experience of each having a bearing on its ability to own and operate the proposed standard broadcast station.

(b) The proposals of each with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of said applications.

3. In support of its request, Citizens states that the proposed sites of both applicants' studios and transmitters are in the Allen County metropolitan area, of which Lima (population 50,246) is the county seat; that the city limits of the two cities are twelve miles apart; that the proposed site of Western Ohio's facilities is 2 miles southeast of Delphos (population 6,220), and 10 miles northwest of Lima; that petitioner's proposed transmitter site is approximately 14 miles from that of Western Ohio's proposed site; and that the applications of Citizens and Western Ohio show that the proposal of each of them would place a 2 mv/m signal over the city of the other. Citizens states that in view of these circumstances, should either Lima or Delphos be found to have the greater need under the 307(b) issue in this proceeding, the usual engineering showings under that section cannot form the basis for a decision as between Citizens and Western Ohio, and that a choice between the two can be made only under the standard comparative issue.

4. In further support of its request, Citizens states that in 307(b) cases, the Commission has followed the holding in FCC v. Allentown Broadcasting Corp., 349 U.S. 358 (1955), by first determining which community has the greater need for additional service, and then determining which applicant can best serve that need. It also notes, in this connection, that since Delphos has less than 10,000 population, Citizens could provide a primary service to the entire city of Delphos, as defined in § 3.184(g),[1] whereas Western Ohio, with its 2 mv/m signal over Lima, would provide, under § 3.182(f),[2] primary service to the residential areas of Lima but not to its business or industrial areas. In view of this circumstance, Citizens suggests that the Commission may deem it appropriate to frame the issue so as to require comparative consideration only in the event the 307(b) question is resolved in favor of Delphos.

5. Citizens further argues that the proximity of the two applicants may render impossible a choice under 307(b). It notes that both applicants propose Class II stations to operate on a Class I-B frequency, and that § 3.22(b) describes a Class II station as a secondary station which is "designed to render service over a primary service area which is limited and subject to such interference as may be received from Class I stations." Thus, Citizens argues, there is presented a situation much like that involved in Radio Tampa, 16 RR 724 (1958), and Broadcasters, Inc., 16 RR 295 (1957), rendering unlikely the possibility of a choice under 307(b). It also cites Huntington Broadcasting Company, Inc., 5 RR 721, 6 RR 569 (1956), as supporting its request.

6. Though conceding that a choice between Citizens and Western Ohio can probably not be made under 307(b), the Bureau opposes the addition of a comparative issue because of the existence of 307(b) problems between each of the applicants and several other proposals involved in this proceeding, and because of the interference problems affecting the proposals of Citizens and Western Ohio. The Bureau indicates that because it is essential to resolve the interference and other 307(b) problems affecting each of the applicants, as well as the question of whether Lima and Delphos are separate communities, "it cannot be concluded at this time that the chance of indecision in making a 307(b) choice is so great that the record should be burdened with the additional evidence which would be required to compare the Delphos and Lima applicants on a comparative basis." The Bureau also states that evidence as to whether Lima and Delphos are separate communities is admissible under the present 307(b) issue, and that the addition of a new issue for this purpose is not necessary, citing in support of Manchester Broadcasting Co., 14 RR 219 (1958) and Valley Broadcasting Company, 18 RR 629 (1959).

7. In reply to the Bureau, Citizens maintains that the probability of Delphos or Lima prevailing under 307(b) is not remote, and it asserts that the pattern of interference conflicts among the several communities is such that many of the applications can be granted in certain combinations including Lima or Delphos, but not both. Should any such combination be selected on 307(b) grounds, Citizens submits that the Examiner could not, under the present issues, make a choice between Citizens and Western Ohio and a further hearing would be required. Such further hearing, according to Citizens, would present two difficulties. First, the outcome of the comparative hearing could nullify any preliminary 307(b) determination that a certain combination of cities should be granted, since the particular applicant preferred in the comparison might not be compatible from an interference standpoint, with the combination tentatively selected; and in that event further 307(b) consideration would have to be given to other combinations. The Bureau offers no solution, according to Citizens, as to how, in the light of this problem, the Examiner could decide the 307(b) issue without at the same time making a comparative determination between Citizens and Western Ohio. Second, Citizens argues that even if the Examiner were able to decide the 307(b) question, and if Lima or Delphos were preferred, the Bureau indicates no procedure (in view of the requirements as to when petitions to enlarge must be filed) by which the hearing issues could at that time be enlarged to include the comparative determination required by the Allentown decision.

8. The standard 307(b) issue calls for a determination of which of the cities involved has the greater need for a new broadcast service. Where applicants for different cities are consolidated for hearing because of engineering conflicts between them, the determination under the 307(b) issue will under normal circumstances also be decisive of the question of which of the otherwise qualified applicants should receive the grant. The 307(b) issue is not, however, determinative where the cities involved, though separate legal entities, are not separate communities within the contemplation of section 307(b) of the Act, and a choice between two or more qualified applicants can under such circumstances be made only by a comparative consideration of their qualifications. See Huntington Broadcasting Company, supra; Consolidated Broadcasting Industries, Inc., FCC 60-413 (1960); Radio St. Croix, FCC 59-1258 (1959). Nor will a determination under the 307(b) issue be dispositive of the question of which application is to be granted if the community selected as having the greater need would receive service[3] not only from the applicant for that community, but also from applicants for communities which were not preferred under the 307(b) issue. Under such circumstances, the decision in Allentown, supra, requires a comparative consideration of the qualifications of the applicants which would provide service to the favored community. See Consolidated Broadcasting Industries, Inc., supra.

9. In Consolidated we were confronted with a situation as is presented by the instant pleadings. Thus, it had been alleged that the communities involved might not be separate communities within the contemplation of Section 307(b) of the Act, and also that some of the applicants might provide a primary service to the communities of other applicants. In Consolidated, we added an issue specifically designed to determine the separate community question, and we coupled to that issue a contingent standard comparative issue. We also added an issue specifically designed to determine which of the applicants would provide primary service to the community which, under the 307(b) issue, was selected as having the greatest need for a new facility, and coupled to that issue was a contingent standard comparative issue. Similar issues will be adopted in the instant proceeding.

10. As noted by the Bureau, it has been stated that the standard 307(b) issue permits a determination of the separate community question. As is evident from the issues adopted herein, the circumstances of the instant proceeding, like those in Consolidated, require complex determinations, and we think it is a better practice to adopt issues specifically designed for that purpose rather than to rely on the standard 307(b) issue. Accordingly, where, at the time of designation, it appears that a separate community question may be presented, an issue specifically directed to that question, along with a contingent standard comparative issue, should be included in the hearing issues; where the problem arises after designation, a petition to enlarge issues should be filed. In accordance with the views expressed herein, the standard 307(b) issue in designation orders hereafter released is not to be construed as permitting a determination of the separate community question.

11. In the instant pleadings, it has been alleged that Lima and Delphos may be part of a single community. This allegation has not been controverted in any of the reply pleadings, and an issue to determine that question will therefore be added. Moreover, the petitioner has alleged, without contradiction in the reply pleadings, that the Lima and Delphos applicants would provide a 2 mv./m. signal to the community of the other, and it may well be that each applicant might provide service (as that term is used herein) to the community of the other. In view of this possibility, an issue directed to that question will be added.

12. It may be noted that some of the issues included herein, although they correspond in part to the issue requested in Citizens' petition, are being added on our own motion. The procedure contemplated by these issues is as follows: First, there is to be a determination, under Issue 13, whether or not the two communities here involved are to be treated as separate and distinct communities for the purpose of 307(b). If so, a determination is to be made, under Issue 14, as to which community is to be preferred. Issue 15 is designed to determine whether the Delphos and Lima applicants would provide a service to the community of the other. In the event it is determined, under Issue 13, that Lima and Delphos are not separate communities, or if they are separate communities, that the applicant for one would provide service to the community of the other, a comparative consideration of the applicants is called for by Issue 16.

Accordingly, it is ordered, This 25th day of May 1960, that, to the extent indicated herein, the petition to enlarge issues, filed by Citizens Broadcasting Company, on November 18, 1959, is granted; and is in all other respects denied;

It is further ordered, By the Commission on its own motion that the Order, released on October 28, 1959 (FCC 59-1079), is amended by renumbering Issues 13, 14, and 15, as Issues 14, 17, and 18, respectively, and by adding new Issues 13, 15, and 16. Issues 13 to 18 shall, accordingly, read as follows:

13. To determine in the light of their location and urban and industrial characteristics, and other relevant factors, whether Delphos, Ohio and Lima, Ohio are separate communities for the purpose of section 307(b) of the Communications Act of 1934, as amended.

14. To determine, in the light of section 307(b) of the Communications Act of 1934, as amended, which of the instant

---

[1] *Section 3.184(g)* provides that in determining the population of the primary service area, the satisfactory value of the signal in towns with population of up to 2500 is 0.5 mv/m, and from 2500 to 10,000 it is 2.0 mv/m.

[2] *Section 3.182(f)* provides that for cities over 10,000 populations, a 2 mv/m signal will provide primary service to residential areas but not to business or industrial areas. For the latter areas, a signal strength of 10 to 50 mv/m is specified.

[3] By "service", as that term is used herein and in issues 15 and 16 hereinafter adopted, is meant the service which, under our rules, an applicant is required to provide to the community which it has designated in its application as the community it proposes to serve. Thus, if community A is the favored community under section 307(b), an applicant for community B will be considered comparatively with applicant for community A only if it meets all of the requirements of our rules which applicants for community A are required to meet.

proposals would best provide a fair, efficient and equitable distribution of radio service.

15. To determine, if Delphos and Lima are separate communities, whether Citizens Broadcasting Company and Western Ohio Broadcasting Company will provide service to the community selected as having the greater need for a new facility.

16. To determine, if (a) Lima and Delphos are determined not to be separate communities, or (b) if they are separate communities and if it is determined that Citizens Broadcasting Company and Western Ohio Broadcasting Company would provide service to the community determined to have the greater need for a new facility, which of the proposals of Citizens Broadcasting Company and Western Ohio Broadcasting Company would better serve the public interest in the light of the evidence adduced pursuant to the foregoing issues and the record made with respect to significant differences between the applicants as to:

(1) The background and experience of each having a bearing on the applicant's ability to own and operate its proposed station.

(2) The proposals of each of the applicants with respect to the management and operation of the proposed station.

(3) The programming service proposed in each of the said applications.

17. To determine, on a comparative basis, in the event that Potomac, Maryland or Smithfield, Virginia, is, or are, selected as having the greatest need pursuant to section 307(b), which of the competing applicants for that city would better serve the public interest in the light of the evidence adduced pursuant to the foregoing issues and the record made with respect to the significant differences between the applicants as to:

(a) The background and experience of each having a bearing on the applicant's ability to own and operate its proposed station.

(b) The proposals of each of the applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the said applications.

18. To determine, in the light of the evidence adduced pursuant to the foregoing issues which, if any, of the instant applications should be granted.

Released: May 31, 1960.

[Docket No. 13222 etc.; FCC 60M-927]

MICHIGAN BROADCASTING CO. (WBCK) ET AL.

Order Continuing Hearing

In re applications of Michigan Broadcasting Company (WBCK), Battle Creek, Michigan, Docket No. 13222, File No. BP-11439, etc.; Docket Nos. 13223, 13224, 13225, 13226, 13227, 13228, 13229, 13230, 13231, 13232, 13233, 13235, 13237, 13239, 13241, 13242, 13243, 13245, 13246, 13247, 13248, 13249, 13250, 13251; for construction permits.

In view of the fact that the Commission has added new issues in this proceeding,[1] and pursuant to agreement of all counsel in the group involved: *It is ordered*, This 26th day of May 1960, that the dates heretofore scheduled[2] for (1) the exchange of exhibits with respect to Step 2 of the hearing relative to Group 3, (2) notification of witnesses desired for cross-examination, and (3) the evidentiary hearing be and the same are hereby continued to dates to be hereafter fixed.

It is further ordered, That a further prehearing conference of Group 3 to consider the new issues and their effect on the procedures heretofore agreed upon, and to fix new dates with respect to Step 2 for the exchange of exhibits, notification of witnesses and hearing will be held at 2 p.m., June 7, 1960, in Washington, D.C.

Released: May 27, 1960.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 25th day of May 1960;

The Commission having under consideration the above-captioned and described applications;

It appearing that on the basis of the information before us, each of the instant applicants is legally, technically, financially, and otherwise qualified to construct and operate its instant proposal, except as indicated by the issues specified below; and

It further appearing that pursuant to section 309(b) of the Communications Act of 1934, as amended, the Commission, in a letter dated December 9, 1959, and incorporated herein by reference, notified the instant applicants, and any other known parties in interest, of the grounds and reasons for the Commission's inability to make a finding that a grant of any one of the applications would serve the public interest, convenience, and necessity; and that a copy of the aforementioned letter is available for public inspection at the Commission's offices; and

It further appearing that the instant applicants filed timely replies to the aforementioned letter, which replies have not, however, entirely eliminated the grounds and reasons precluding a grant of the said applications and requiring an evidentiary hearing on the particular issues hereinafter specified; and

It further appearing that after consideration of the foregoing and the applicants' replies, the Commission is still unable to make the statutory finding that a grant of the applications would serve the public interest, convenience, and necessity; and is of the opinion that the applications must be designated for hearing in a consolidated proceeding on the issues specified below;

It is ordered, That, pursuant to section 309(b) of the Communications Act of 1934, as amended, the instant applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the proposed operations of each of the instant applicants and the availability of other primary service to such areas and populations.

2. To determine the nature and extent of the interference, if any, that each of the instant proposals would cause to and receive from each other and all other existing standard broadcast stations, the areas and populations affected thereby, and the availability of other primary service to the areas and populations affected by interference from any of the instant proposals.

3. To determine whether the instant proposal of Station WOL would involve objectionable interference with Station WPRW, Manassas, Virginia, Station WGET, Gettysburg, Pennsylvania, Station WFTR, Front Royal, Virginia, Station WILM, Wilmington, Delaware, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

4. To determine whether the instant proposal of Station WILM would involve objectionable interference with Station WPAM, Pottsville, Pennsylvania, Station WOL, Washington, D.C., Station WFPG, Atlantic City, New Jersey, WGET, Gettysburg, Pennsylvania, WCTC, New Brunswick, New Jersey, BP-11313, Lansdale, Pennsylvania, BP-11934, Lansdale, Pennsylvania, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

5. To determine whether the instant proposal of Station WDAD would involve objectionable interference with Station WTBO, Cumberland, Maryland, Station WJPA, Washington, Pennsylvania, Station WMAJ, State College, Pennsylvania, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

6. To determine whether the instant proposal of Station WMAJ would involve objectionable interference with Station WDAD, Indiana, Pennsylvania, Station WGET, Gettysburg, Pennsylvania, Station WMPT, South Williamsport, Pennsylvania, Station WTBO, Cumberland, Maryland, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

7. To determine whether the instant proposal of Station WFTR would involve objectionable interference with Station WOL, Washington, D.C. and Station WTBO, Cumberland, Maryland, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

8. To determine whether the instant proposal of Station WPAM would involve objectionable interference with Station WMPT, South Williamsport, Pennsylvania, WILM, Wilmington, Delaware and Station WGET, Gettysburg, Pennsylvania, or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

9. To determine whether the instant proposal of Station WTBO would involve objectionable interference with Station WJPA, Washington, Pennsylvania, Station WDAD, Indiana, Pennsylvania, Station WMAJ, State College, Pennsylvania, Station WGET, Gettysburg, Pennsylvania, and WFTR, Front Royal, Virginia, or any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

10. To determine whether the interference received by each instant proposal from any of the other proposals herein and any existing stations would affect more than ten percent of the population within its normally protected primary service area in contravention of § 3.28(c)(3) of the Commission Rules and, if so, whether circumstances exist which would warrant a waiver of said section.

11. To determine whether the roof-top antenna system proposed by Washington Broadcasting Company (BP-12145) is in compliance with § 3.188(d) of the rules and, if not, whether circumstances exist which would warrant a waiver of said section.

12. To determine whether the transmitter site proposed by Washington Broadcasting Company (BP-12145) is satisfactory with particular regard to any conditions that may exist in the vicinity of the antenna system which would distort the proposed antenna radiation pattern.

13. To determine, in the light of section 307(b) of the Communications Act of 1934, as amended, which of the instant proposals would best provide a fair, efficient and equitable distribution of radio service.

14. To determine, in the light of the evidence adduced pursuant to the foregoing issues which, if any, of the instant applications should be granted.

It is further ordered, That the following licensees which are applicants in the instant proceeding are made parties thereto with respect to their existing operations:

Sky-Park Broadcasting Corporation (WFTR, Front Royal, Va.).
Delaware Broadcasting Company (WILM, Wilmington, Del.).
Miners Broadcasting Service, Inc. (WPAM, Pottsville, Pa.).
Washington Broadcasting Company (WOL, Washington, D.C.).
Cumberland Valley Broadcasting Corporation (WTBO, Cumberland, Md.).
Centre Broadcasters, Inc. (WMAJ, State College, Pa.).
WDAD, Inc. (WDAD, Indiana, Pa.).

It is further ordered, That the following licensees of the stations indicated are made parties to the proceeding:

Prince William Broadcasting Corporation (WPRW, Manassas, Va.).
Times and News Publishing Company (WGET, Gettysburg, Pa.).
WFPG, Incorporated (WFPG, Atlantic City, N.J.).
Raritan Valley Broadcasting Co., Inc. (WCTC, New Brunswick, N.J.).
Donald W. Huff (BP-11313, Lansdale, Pa.).
Equitable Publishing Company (BP-11934, Lansdale, Pa.).
Washington Broadcasting Company (WJPA, Washington, Pa.).
Galen D. Castlebury, Jr., tr/as Will-Mont Broadcasting Co. (WMPT, So. Williamsport, Pa.).

It is further ordered, That in the event of a grant to Miners Broadcasting Service, Inc. (BP-13197), the permittee shall take appropriate steps that may be necessary to prevent cross-modulation or reradiation with the present operation of Station WPPA, Pottsville, Pennsylvania and shall cooperate with said station in eliminating any problems that may occur in the event of a grant of application, File No. BP-13265 which proposes a daytime power increase for Station WPPA.

It is further ordered, That in the event of a grant to Cumberland Valley Broadcasting Corporation (File No. BP-13471), the permittee shall take appropriate steps that may be necessary to prevent cross-modulation or reradiation with the present operation of Station WCUM and shall cooperate with WCUM to eliminate

any additional interaction problems that may occur in the event of a grant of application of File No. BP-13357 which proposes a daytime power increase for WCUM.

It is further ordered, That, to avail themselves of the opportunity to be heard, each of the applicants and parties respondent, pursuant to § 1.140 of the Commission rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

It is further ordered, That, the issues in the above-captioned proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding, and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: May 31, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[Docket No. 13460; FCC 60M-915]

BILLY G. WATTERS

Order Continuing Hearing

In the matter of Billy G. Watters, 315 South Third Street, Elkhart, Indiana, Docket No. 13460; order to show cause why there should not be revoked the license for Citizens Radio Station 16W5911.

The Hearing Examiner having under consideration a "Motion to Continue Proceedings" filed by the Acting Chief, Safety and Special Radio Services Bureau, Federal Communications Commission, on May 24, 1960, requesting that the hearing in the above-entitled matter presently scheduled for June 10, 1960, be adjourned indefinitely; and

It appearing that the Order to Show Cause in the above-entitled matter was released and mailed to the respondent on April 13, 1960, by Certified Mail, Return Receipt Requested at the mailing address appearing on his application for station license; and

It further appearing that on May 4, 1960, said Order to Show Cause was returned to the Commission by the United States Post Office bearing the stamped endorsement "unclaimed"; and

It further appearing that the Order fixing June 10, 1960, and Washington, D.C., as the time and place of hearing was released and mailed on April 15, 1960, to the respondent at the mailing address appearing on his application for station license, and was received in person by the respondent on April 19, 1960; and

It further appearing that good cause exists for a grant of the motion to continue the hearing in this matter pending further Bureau attempts to obtain service of the said Order to Show Cause; and

It further appearing that the public interest requires immediate consideration of the aforesaid motion to continue proceedings without waiting for the four-day period specified in § 1.43 of the Commission's rules;

Now therefore, it is ordered, This 25th day of May 1960, that the "Motion to Continue Proceedings" filed on May 24, 1960, by the Acting Chief, Safety and Special Radio Services Bureau, requesting continuance of the hearing presently scheduled in the above-entitled matter for June 10, 1960, be, and the same is, hereby granted; and

It is further ordered, That the hearing previously scheduled for June 10, 1960, be, and the same is, hereby continued to a date to be set by subsequent order.

Released: May 26, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60-5044; Filed, June 2, 1960; 8:53 a.m.]

[Docket Nos. 12432-12435; FCC 60-596]

WILSON BROADCASTING CORP. ET AL.

Memorandum Opinion and Order Amending Issues

In re applications of Wilson Broadcasting Corporation, New Bedford, Massachusetts, Docket No. 12432, File No. BPCT-2232; E. Anthony & Sons, Inc., New Bedford, Massachusetts, Docket No. 12433, File No. BPCT-2233; Eastern States Broadcasting Corp., New Bedford, Massachusetts, Docket No. 12434, File No. BPCT-2252; New England Television Company, Inc., New Bedford, Massachusetts, Docket No. 12435, File No. BPCT-2425; for construction permits for new television broadcast stations.

1. The Commission has before it (a) the following requests of E. Anthony & Sons, Inc. (Anthony); a petition (addressed directly to the Commission) for leave to amend application; a petition for immediate action thereon; and a request for Commission action to accept amendments to application filed June 18, 1959, January 18, 1960, and March 30, 1960, respectively; (b) a petition for leave to amend and a request for conference with the Commission en banc filed July 17, 1959, and February 8, 1960, respectively, by Eastern States Broadcasting Corp., (Eastern); and (c) an appeal filed March 20, 1959, by Wilson Broadcasting Corporation (Wilson).

2. All applicants in the instant proceeding proposed antenna towers to be located on Martha's Vineyard, Massachusetts, in an area within a radius of three miles from the United States Coast Guard Loran C (radio-navigation) station on that island. Such area was the only location from which the Channel 6 transmitter for New Bedford would comply with minimum mileage separations from other television stations required by § 3.610 of the Commission's rules. Issue 1 in the proceeding is whether applicants' proposed operations would adversely affect the operation of the Loran C Station. The issue was specified in the light of objections of record made by the Coast Guard prior to designation concerning the probability that a television tower of the height proposed located within close proximity to the Loran C Station would reradiate energy and thus impair the accuracy of the navigational information obtained from that station. At a prehearing conference the Coast Guard indicated that operations from the proposed locations were objectionable for highly classified reasons, relating to the national defense which could not be disclosed at hearing. An appeal from an Examiner's Order scheduling hearing was filed by Wilson Broadcasting Corporation which requested clarification of procedures to be followed in view of the Coast Guard objections.

3. Thereafter Anthony filed a petition for leave to amend to a new transmitter site slightly more than 3 miles from the Coast Guard Loran C station which Anthony alleged would moot Coast Guard objections.[1] Since the proposed site would involve a separation of 167.8 miles from co-channel Station WCSH-TV, Portland, Maine, a departure of 2.2 miles from the required separation of 170 miles for zone 1 co-channel, the petition included a request for waiver of the minimum mileage separations required by § 3.610 of the Commission's rules. The Commission's Broadcast Bureau opposed any action on the Anthony petition for leave to amend pending Commission action on procedure to be followed under Issue 1. The Coast Guard in a letter to the Commission stated that from its standpoint and considering future uses of the Loran C Station, a greater separation than three miles is desirable and that if the Anthony amendment to a new site and its application is granted the Coast Guard would insist that reradiation characteristics of the television tower be minimized as much as practicable and appropriate measures be taken to maintain the tower electromagnetically stable.[2]

4. In a petition for immediate action on its request to amend to a new site Anthony states that a settlement has been reached between the applicants; that as a result of such settlement Anthony's application will remain in

[1] Eastern on July 17, 1959, filed a petition for leave to amend to a site on the mainland accompanied by a request for waiver of minimum separations. In view of settlement arrangements, set out infra, whereby Eastern's application will be dismissed, this petition is now moot and will be dismissed.

[2] Pleadings of other applicants relative to Anthony's proposal are not discussed in view of the settlement referred to in paragraph 4 hereof whereby their applications will be dismissed.

hearing,[3] and the other applications will be dismissed.[4] Anthony states that notwithstanding the settlement, the hearing cannot be carried to a conclusion unless some action is taken with respect to Issue 1. Anthony urges that its proposed new site will eliminate Coast Guard objections and that the requested waiver of separations is insubstantial. Further, Anthony states such proposed site will conform to separation requirements if Station WCSH-TV, Portland, Maine, is authorized to effect a currently proposed move of its transmitter to a location more than 170 miles from Anthony's proposed site.[5] Anthony makes alternative requests for action on its proposed amendment including a request that the question of waiver of separations be designated for hearing. Eastern whose interests will be merged with Anthony under the settlement requests a conference of all parties with the Commission en banc as a means of clarifying and expediting the proceeding.

5. In its request for Commission action to accept amendments to its application, Anthony alleges, among other things, that an agreement has been reached with the Coast Guard predicated on its proposed amended site; that under the agreement the Coast Guard would withdraw its objections presented under Issue 1 with reference to the proposed amended site and Anthony would agree to include certain specified terms and conditions in its construction permit relative to construction, shielding and operation of the antenna tower at such site. Anthony urges that the Commission (1) grant Anthony's petition for leave to amend to a new site and request for waiver of minimum separations; (2) grant its petition for leave to amend, filed January 18, 1960, to reflect the settlement arrangements; (3) terminate rule-making proceedings in Docket No. 13264 proposing to delete Channel 6 from New Bedford and Docket No. 13375 proposing reassignment of Channel 6 from New Bedford to Providence, Rhode Island, instituted November 12, 1959, and January 27, 1960, respectively; and (4) take such further action as it deems necessary and order the Examiner to resume hearing.

6. It does not appear that operations at Anthony's original site can be authorized because of national defense considerations not known until the case reached the hearing stage. In light of the extraordinary circumstances here present, where the only site from which, consistent with minimum separations, a signal of the required strength might be placed over the principal city, is unavailable due to the proximity of a defense installation, and national defense considerations can be satisfied by selection of a site involving only a slight departure from the rule, it is appropriate to consider whether applicants' request for waiver raises the question of whether the public interest in obtaining the facility at New Bedford may outweigh the considerations which governed the promulgation of the rule. However, the Commission does not believe that action should be taken with respect to Anthony's request for waiver of separations without an evidentiary record as to all pertinent circumstances. Accordingly, the Commission will grant Anthony's petition for leave to amend to a new site and accept its proposed amendment.[6] An issue will be added to the proceeding to determine whether waiver of minimum separations is warranted. Maine Radio and Television Company, licensee of Station WCSH-TV, will be named a party respondent to the proceeding since the waiver if granted would affect its existing license. The issue relative to waiver of minimum separations will be subject to deletion on motion to the Examiner if WCSH-TV is subsequently authorized to and does move its transmitter to a location which would result in Anthony's amended site conforming to minimum separations. In view of the action taken no reason appears for a conference with the parties, and Eastern's request therefor will be denied.

7. The Commission will not take action on Anthony's petition for leave to amend to reflect the settlement agreement; such petition may be considered by the Examiner under §§ 0.231 and 1.311(b) of our rules. The request to terminate rule-making proceedings in Docket Nos. 13264 and 13375 should be the subject of a separate pleading under § 1.12(a) (2) of the Commission's rules. The request, accordingly, will be denied without prejudice to refiling the same by proper pleading.

Accordingly, it is ordered, This 25th day of May 1960, That the petition for leave to amend, filed June 18, 1959, by E. Anthony and Sons, Inc., except to the extent it requests waiver of minimum separations is granted and the amendment tendered therewith is accepted; and that the following issue is added to the proceeding:

To determine whether waiver of § 3.610 of the Commission's rules to permit use of the transmitter site proposed in the application as amended of E. Anthony and Sons, Inc. is warranted.

It is further ordered, That Maine Radio and Television Company, licensee of Station WCSH-TV, Portland, Maine, is made party respondent to this proceeding;

It is further ordered, That the petition for immediate action, and the request for Commission action to accept amendments to application filed January 18, 1960, and March 30, 1960, by E. Anthony and Sons, Inc., are granted to the extent indicated herein and are otherwise denied; and that the request for a conference with the Commission en banc filed February 8, 1960, by Eastern States Broadcasting Corp, is denied;

It is further ordered, That the appeal filed March 20, 1959, by Wilson Broadcasting Corporation; and the petition for leave to amend, filed July 17, 1959, by Eastern States Broadcasting Corp. are dismissed.

Released: May 27, 1960.

[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60-5046; Filed, June 2, 1960; 8:53 a.m.]

FEDERAL POWER COMMISSION

[Docket No. G-17350 etc.]

PACIFIC GAS TRANSMISSION CO. ET AL.

Order Fixing Date for Oral Argument

MAY 27, 1960.

Pacific Gas Transmission Company, Docket No. G-17350, G-17351, and G-17352; El Paso Natural Gas Company, Docket No. G-17902 and G-18933; The Montana Power Company, Docket No. G-17370 and G-17371.

[3] A petition for leave to amend its application to reflect the settlement was filed January 18, 1960, by Anthony. Under the proposed settlement, the interests of Eastern and New England Television Company, Inc., will be merged in the Anthony application. Wilson is to be reimbursed for expenses not in excess of a specified amount.

[4] The Wilson application has been dismissed by Order released January 26, 1960 (FCC 60M-178), and petitions have been filed to dismiss the Eastern and New England applications.

[5] On October 1, 1959, Maine Radio and Television Company, licensee of WCSH-TV, Portland, Maine, filed an application (BPCT-3703) to change its transmitter site. This application is currently pending.

[6] The amendment does not indicate that air space clearance has been received for the proposed site. Acceptance thereof, accordingly, will be subject to subsequent addition of an air hazard issue with respect to the site in the event applicant fails to demonstrate that appropriate clearance has been obtained.

Exceptions have been filed to the initial decision of the Presiding Examiner issued April 29, 1960, in the above-captioned consolidated proceedings and it is appropriate that oral argument be held thereon.

The Commission orders:

(A) Oral argument be had before the Commission on June 21, 1960 at 10:00 a.m., e.d.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by the exceptions to the aforesaid decision.

(B) Parties to these proceedings intending to participate in the oral argument shall notify the Secretary of the Commission in writing on or before June 9, 1960 of such intention and of the length of time requested for presentation of their arguments.

By the Commission.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-4989; Filed, June 2, 1960; 8:46 a.m.]

[Docket No. E-6941]

SIERRA PACIFIC POWER CO.

Notice of Application

MAY 27, 1960.

Take notice that on May 19, 1960, an application was filed with the Federal Power Commission pursuant to section 204 of the Federal Power Act by Sierra Pacific Power Company ("Applicant"), a corporation organized under the laws of the State of Maine and doing business in the States of California and Nevada, with its principal business office at Reno, Nevada, seeking an order authorizing the issuance of $3,500,000, principal amount of New Debentures. The aforesaid Debentures are to be dated as of July 1, 1960, with The National Shawmut Bank of Boston, as Trustee, containing a sinking fund designed to retire approximately 50 percent of the Debentures prior to maturity. The Debentures will be unsecured but the Indenture will contain provisions restricting Applicant in the creation of specified new liens, and the Company will covenant not to obligate itself with respect to any unsecured funded indebtedness which exceeds 65 percent of total capitalization or does not meet certain earnings requirements. The Debentures will be sold at competitive bidding and will mature on July 1, 1985. The interest or dividend rate, if any, will be determined by competitive bidding. Applicant states that the aforesaid Debentures are to be issued and sold to obtain funds to pay the balance remaining of bank loans, to reimburse Applicant's treasury for construction expenditures heretofore made and to finance additional construction.

Any person desiring to be heard or to make any protest with reference to said application should on or before the 21st day of June 1960, file with the Federal Power Commission, Washington 25, D.C., petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). The application is on file and available for public inspection.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-4990; Filed, June 2, 1960; 8:46 a.m.]

[Docket No. G-20509]

SOUTHERN NATURAL GAS CO.

Order Omitting Intermediate Decision Procedure and Fixing Date for Oral Argument

MAY 27, 1960.

The Presiding Examiner on May 12, 1960, reported to the Commission certain motions entered orally upon the record by staff counsel during the hearing on May 10, 1960. Staff counsel moved for an interim order based upon the sole issue of rate of return, thereby reserving for a subsequent phase of the proceeding all other issues involved therein. Staff counsel, in summary, requested that the Commission determine the proper rate of return to be allowed Southern during the refund period in which the proposed increased rates, which are the subject of this proceeding, may be made effective.

Staff counsel, pursuant to § 1.30(c) of the Commission's rules of practice and procedure, also requested waiver and omission of the intermediate decision procedure on the single separate issue of the proper rate of return to be allowed to Southern Natural Gas Company (Southern) in its cost of service for the test period utilized by it in this proceeding.

In support of the said motion for omission of intermediate decision procedure, it was pointed out that Southern's proposed increased rates may become effective on June 1, 1960, by motion filed by Southern in accordance with the provisions of section 4(e) of the Natural Gas Act, although the actual billing for gas delivered on and after that date will not be made until after July 1, 1960. In consideration of these facts, we are requested to consider the aforesaid motion for an interim order, if possible, on or before June 30, 1960. By such early consideration staff seeks a reduction in the level of the proposed increased rates either prior to their becoming effective, or immediately thereafter.

As reported by the Presiding Examiner, the record indicates that all parties, except Southern, join in staff counsel's motion for omission of the intermediate decision procedure. Southern stated that it "took no position" on the motion for omission of such decision. However, staff counsel's motion, first discussed above, requesting the issuance of an interim order, has been opposed by Southern and some of the interveners.[1] Southern contends, among other things, that the proposed interim order would be "illegal, unfair, and improper".

Thus, inasmuch as there is no opposition to the omission of the intermediate decision procedure, only two issues are presented for our consideration, namely, (1) whether an interim order based solely on the issue of rate of return is proper, and (2) what the reasonable rate of return for Southern is for the test period encompassed in this proceeding.

In the interest of saving time, the Presiding Examiner recommended a briefing and oral argument schedule which we find to be appropriate, and we adopt such schedule with minor modifications, as hereinafter provided. Several parties have recommended the waiver of briefing to save time and request that we rely solely upon oral argument. The Examiner recommended the filing of main briefs to be followed by either reply briefs or by oral argument. On May 16, 1960, Southern filed two motions, (1) for oral argument in addition to allowing the filing of both main and reply briefs, and (2) for a conference to be held for the purpose of determining whether by agreement, or otherwise, the issue of rate of return and related income taxes can be decided.

In view of the important issues raised in this proceeding, it would appear that oral argument on these issues should be held in addition to allowing the filing of both main and reply briefs, as hereinafter ordered.

By its above-mentioned motion for a conference, Southern seeks to resolve its claims of "denial of due process" and the "risk of confiscation" arising out of the second or final phase of this proceeding, as proposed by staff counsel's motion for an interim order. Answers objecting to Southern's motion have been filed by Atlanta Gas Light Company, Georgia Public Service Commission and South Atlantic Gas Company. Answers favoring Southern's motion have been filed by Georgia Municipal Association, Georgia Textile Manufacturers Association, Inc. and Georgia Industrial Gas Users Association. Additionally, South Carolina Natural Gas Company filed an answer stating that it does not oppose Southern's motion. We have considered Southern's motion and find that nothing essentially new or different is contained therein which has not already been the subject of an informal conference, the results of which were stated upon the record on January 28, 1960, and a formal conference held on the record on March 15, 1960. We have examined the record of this proceeding and it appears that there is neither a change in the factual situation nor any new proposal pending which would justify another conference, inasmuch as the two previous conferences, heretofore held, have proven nonproductive.

The Commission finds:

(1) Due and timely execution of our functions imperatively and unavoidably requires that the intermediate decision procedure be omitted in order that we may resolve the single issue of the proper rate of return to be allowed Southern in this proceeding, together with the procedural issue raised by staff counsel's aforementioned motion for an interim order.

(2) It is appropriate in carrying out the provisions of the Natural Gas Act that oral argument be held, as hereinafter provided, on the two issues set forth in finding (1) above.

(3) The aforementioned motion for a conference filed by Southern on May 16, 1960, should be denied.

The Commission orders:

(A) The intermediate decision procedure is hereby omitted for the purposes of our determination of the proper rate of return to be allowed Southern in this proceeding, together with the procedural issue raised by staff counsel's aforementioned motion for an interim order.

(B) Main briefs shall be filed by all parties who desire to do so, on or before June 13, 1960, and reply briefs shall be filed by all parties who desire to do so, on or before June 22, 1960, by service of copies on all parties.

(C) Oral argument before the Commission on the two aforementioned issues shall be held on June 24, 1960, at 10:00 a.m., e.d.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C.

(D) all parties to this proceeding who desire to participate in the oral argument, herein provided, shall notify the Secretary, on or before June 13, 1960, of their intent to do so and the amount of time they desire for such argument.

(E) The aforementioned motion for a conference filed by Southern on May 16, 1960, is hereby denied.

By the Commission.

MICHAEL J. FARRELL,
Acting Secretary.

[F.R. Doc. 60-4991; Filed, June 2, 1960; 8:46 a.m.]

[Docket No. CP60-59]

UNITED GAS PIPE LINE CO.

Notice of Application and Date of Hearing

MAY 27, 1960.

Take notice that on March 14, 1950, as supplemented on April 26, 1960, United Gas Pipe Line Company (Applicant) filed in Docket No. CP60-59 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities to provide an additional source of supply to assure continued reliable service to Applicant's so-called Rayville-Winnsboro System, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The proposed facilities consist of approximately 7.81 miles of 8-inch pipeline, and appurtenant facilities, from a point near Milepost 26.33 on Applicant's 18-inch Sterlington-Jackson pipeline extending southwesterly to a point near Milepost 5.74 on Applicant's 4-inch Rayville-Winnsboro pipeline, all in Richland Parish, Louisiana.

Applicant represents that existing service to Applicant's customer, Louisiana Gas Service Company, for resale in the Towns of Rayville, Archibald, Mangham, Baskon, and Winnsboro, and directly to the Town of Rayville for use in its electric generating plant, all formerly rendered by Applicant from intrastate facilities, would become interstate in character. The purpose of the application is to provide for expected future load growth in this area.

Applicant's estimated requirements under this application for the first three years are:

	Mcf at 14.73 psia		
	1st year	2d year	3d year
Annual, firm	546,700	569,700	593,700
Annual, interruptible	155,000	155,000	155,000
Peak day, firm	5,317	5,565	5,822
Peak day, interruptible	1,000	1,000	1,000

The total estimated cost of the proposed facilities is $186,836.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on June 28, 1960, at 9:30 a.m., e.d.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 17, 1960. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

MICHAEL J. FARRELL,
Acting Secretary.

[Project No. 2155]

CALIFORNIA

Notice of Land Withdrawal

MAY 27, 1960.

In the matter of White Rock Division, Upper American River Project, Sacramento Municipal Utility District.

Conformable to the provisions of section 24 of the Act of June 10, 1920, as amended, notice is hereby given that the lands hereinafter described, insofar as title thereto remains in the United States are included in power Project No. 2155 (White Rock Division, Upper American River Project) for which application for license was filed March 21, 1960, by the Sacramento Municipal Utility District, Sacramento 11, California. Under said section 24 these lands are, from said date of filing reserved from entry, location, or other disposal under the laws of the United States until otherwise directed by the Commission or by Congress.

The area reserved by the filing of the application for this project is approximately 1168.04 acres, all of which have been previously withdrawn by Projects No. 78, 184, 424, or 1455; Power Site Reserves No. 201, 268, 700; or Power Site Classification No. 178. Approximately 1018.10 acres of the United States lands are within the Eldorado National Forest.

MOUNT DIABLO MERIDIAN

CALIFORNIA

All portions of the following described subdivisions as depicted on map exhibit J, White Rock Division Plan and Profile (FPC No. 2155-2) for tunnel purposes:

FEDERAL RESERVE SYSTEM

MARINE CORP.

Order Approving Application Under Bank Holding Company Act

In the matter of the application of The Marine Corporation for prior approval of acquisition of voting shares of Peoples Trust & Savings Bank, Green Bay, Wisconsin.

There having come before the board of Governors pursuant to section 3(a)(2) of the Bank Holding Company Act of 1956 (12 U.S.C. 1843) and section 4(a)(2) of the Board's Regulation Y (12 CFR 222.4(a)(2)), an application on behalf of The Marine Corporation, Milwaukee, Wisconsin, for the Board's prior approval of the acquisition of 80 per cent or more of the 5,000 voting shares of Peoples Trust & Savings Bank, Green Bay, Wisconsin; a Notice of Tentative Decision referring to a Tentative Statement on said application has been published in the FEDERAL REGISTER on May 7, 1960 (25 F.R. 4120); the said Notice having provided interested persons an opportunity, before issuance of the Board's final order, to file objections or comments upon the facts stated and the reasons indicated in the Tentative Statement; and the time for filing such objections and comments having expired and no such objections or comments having been filed;

It is hereby ordered, For the reasons set forth in the Board's Statement[1] of this date, that the said application be and hereby is granted, and the acquisition by The Marine Corporation of 80 percent or more of the 5,000 voting shares of Peoples Trust & Savings Bank, Green Bay, Wisconsin, is hereby approved, provided that such acquisition is completed within three months from the date hereof.

Dated at Washington, D.C., this 26th day of May 1960.

By order of the Board of Governors.

[SEAL] MERRITT SHERMAN,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24C–1933]

BABY-FUND, INC.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

MAY 27, 1960.

I. Baby-Fund, Inc. (issuer), a Minnesota corporation located in Detroit Lakes, Minnesota, filed with the Commission on March 5, 1957, a notification on Form I–A and an offering circular, and subsequently filed amendments thereto relating to an offering of 100,000 shares of its $1 par value common stock at $1 per share in the aggregate amount of $100,000 for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) thereof and Regulation A promulgated thereunder.

II. The Commission has reasonable cause to believe that the terms and conditions of Regulation A have not been complied with in that the issuer has failed to file reports on Form 2–A as required by Rule 260 of Regulation A and has failed to file a revised offering circular in accordance with Rule 256(e) of Regulation A despite repeated requests of the Commission's staff.

III. *It is ordered*, Pursuant to Rule 261 of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any persons having any interest in the matter may file with the Secretary of the Commission a written request for hearing within thirty days herefrom; that within twenty days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F.R. Doc. 60–5002; Filed, June 2, 1960; 8:48 a.m.]

[File No. 812–1301]

INCOME FUND OF BOSTON, INC.

Notice of Filing of Application To Permit Borrowing From Foreign Bank

MAY 26, 1960

Notice is hereby given that Income Fund of Boston, Inc. ("Applicant"), an open-end investment company organized as a Massachusetts Trust and registered under the Investment Company Act of 1940 ("Act"), has filed an application pursuant to section 6(c) of the Act requesting an exemption from the requirements of section 18(f)(1) of the Act to the extent necessary to permit Applicant to make borrowings from time to time from foreign banking firms as hereinafter described.

Section 18(f)(1) of the Act provides, among other things, that any registered open-end investment company shall be permitted to borrow from any bank, subject to certain asset coverage restrictions. Section 2(a)(5) of the Act defines a "bank", so far as here relevant, as a banking institution organized under the laws of the United States, a member bank of the Federal Reserve System, or any laws of the United States, a mmeber bank other domestic banking institution or trust company supervised and examined by State or Federal authority.

Applicant states that while section 18(f)(1) of the Act generally prohibits the issuance of senior securities by an open-end investment company, exception was made to permit borrowings to be made from a bank, apparently for the reason that the practical difficulties in maintaining adequate asset coverage for a security senior to a fully redeemable common stock would not raise problems adverse to the interest of investors in the case of bank borrowings. Applicant also states that there appears to be no reason to distinguish between domestic banks and foreign banking firms in implementing this policy.

Applicant states that if the exemption requested is granted, loans from foreign banking firms will be made only if such loans are consistent with its borrowing policy, are otherwise consistent with the requirements of the Act, and can be obtained on more favorable terms than from domestic banks.

Section 6(c) of the Act authorizes the Commission by order upon application to exempt, conditionally, or unconditionally, any transaction from any provision of the Act or of any rule or regulation thereunder if and to the extent that the Commission finds that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is hereby given that any interested person may, not later than June 9, 1960, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. At any time after said date, as provided by Rule O–5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the showing contained in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Area 276]

VIRGIN ISLANDS

Declaration of Disaster Area

Whereas, it has been reported that during the month of May 1960, because of the effects of certain disasters, damage resulted to residences and business property located in certain areas on the Island of St. Thomas, Virgin Islands;

Whereas, the Small Business Administration has investigated and has received other reports of investigations of conditions in the areas affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such areas constitute a catastrophe within the purview of the Small Business Act.

Now, therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b) of the Small Business Act may be received and considered by the Office below indicated from persons or firms whose property situated on the Island of St. Thomas, Virgin Islands, suffered damage or destruction as a result of heavy rain and flood occurring on or about May 5 through May 9, 1960.

Office: Small Business Administration Regional Office, 90 Fairlie Street NW., Atlanta 3, Ga.

2. A temporary field office will be established at Charlotte Amalie, on the Island of St. Thomas, address to be announced locally.

3. Applications for disaster loans under the authority of this Declaration will not be accepted subsequent to November 30, 1960.

Dated: May 21, 1960.

PHILIP MCCALLUM,
Administrator.

[Delegation of Authority 30-X-1 (Rev. 2)]

CHIEF, FINANCIAL ASSISTANCE DIVISION

Delegation Relating to Financial Assistance and Administrative Functions

I. Pursuant to the authority delegated to the Deputy Regional Director by Delegation of Authority No. 30-X-19, dated March 28, 1960, there is hereby redelegated to the Chief, Financial Assistance Division, Dallas Regional Office, Small Business Administration, the authority:

A. *Financial assistance.* (1) To approve the following types of loans.

(a) Direct business loans in an amount not exceeding $20,000;

(b) Participation business loans in an amount not exceeding $100,000;

(c) Disaster loans in an amount not exceeding $50,000.

(2) To decline original applications for disaster loans but not reconsideration of such applications.

(3) To approve or decline Limited Loan Participation loans.

(4) To disburse approved loans.

(5) To enter into Business Loan and Disaster Loan Participation Agreements with banks.

(6) To execute loan authorizations for Washington approved loans and for loans approved under delegated authority, said execution to read as follows:

(Name), *Administrator.*
By ----------
(Name)
Chief, Financial Assistance Division.

(7) To cancel, reinstate, modify, and amend authorizations for business or disaster loans.

(8) To extend the disbursement period on all loan authorizations or undisbursed portions of loans.

(9) To approve, when requested, in advance of disbursement, conformed copies of notes and other closing documents and certify to the participating bank that such documents are in compliance with the participation authorization.

(10) To approve service charges by participating bank not to exceed 2% per annum on the outstanding balance in connection with construction loans and loans involving accounts receivable and inventory financing.

(11) To take the following actions in the Administration of fisheries' loans:

(a) Amend loan authorizations;

(b) Extend the period of disbursement of loans of $50,000 or less for a period not to exceed four months;

(c) Amend the hull insurance provision of any authorization issued prior to January 31, 1958, for a loan of $20,000 or less;

(d) Cancel loan authorizations prior to disbursement upon the written request of the applicant;

(e) Disburse fisheries' loans in the same manner as SBA business loans; and

(f) Administer current fisheries' loans and those loans delinquent not more than 60 days within the same authority exercised with respect to SBA loans, except execute satisfactions, releases or partial release of Preferred Ship Mortgages, or other mortgages, deeds of trust, etc., securing fisheries' loans, or to postpone or change payments due or to endorse checks in payment of insurance claims when said checks are not being paid to the Government as a payment on a fishery loan.

(12) To take all necessary actions in connection with the administration, servicing, collection and liquidation of all loans and other obligations or assets, including collateral purchased, and to do and perform and to assent to the doing and performance of, all and every act and thing requisite and proper to be done for the purpose of effectuating the granted powers, including without limiting the generality of the foregoing.

(a) The assignment, endorsement, transfer and delivery (but in all cases without representation, recourse or warranty) of notes, claims, bonds, debentures, mortgages, deeds of trust, contracts, patents and applications therefor, licenses, certificates of stock and of deposit, and any other liens, powers, rights, charges on and interest in or to property of any kind, legal and equitable, now or hereafter held by the Small Business Administration or its Administrator; *Provided, however,* That he may not assign, endorse, transfer, deliver, modify, surrender, satisfy, discharge, release, subordinate or cancel, in whole or in part, judgments and judgment liens, certificates or other instruments issued by receivers, trustees, liquidators or other officers or officials representing claims allowed against or interests in receivership, bankruptcy or other estates, without the prior written approval of the Regional Counsel or the United States Attorney, in those cases where the latter is involved in the proceedings.

(b) The execution and delivery of contracts of sale or of lease or sublease, quit-claim, bargain and sale of special warranty deeds, bills of sale, leases, subleases, assignments, subordinations, releases (in whole or part) or liens, satisfaction pieces, affidavits, proofs of claim in bankruptcy or other estates and such other instruments in writing as may be appropriate and necessary to effectuate the foregoing.

B. *Administration.* To approve annual and sick leave for employees under his supervision.

C. *Correspondence.* To sign all nonpolicy making correspondence, except Congressional correspondence, relating to the financial assistance functions.

II. The authority delegated herein may be redelegated.

III. All authority delegated herein may be exercised by any SBA employee designated as Acting Chief, Financial Assistance Division.

IV. All previous authority delegated by the Regional Director to the Chief, Financial Assistance Division is hereby rescinded without prejudice to actions taken under all such delegations of authority prior to the date hereof.

Effective date: March 28, 1960.

J. F. MATCHETT,
Deputy Regional Director,
Dallas Regional Office.

[F.R. Doc. 60-5010; Filed, June 2, 1960; 8:48 a.m.]

[Delegation of Authority 30-X-19]

DEPUTY REGIONAL DIRECTOR, DALLAS, TEXAS

Delegation Relating to Financial Assistance, Investment, Procurement and Technical Assistance, and Administrative Functions

I. Pursuant to the authority delegated to the Regional Director by Delegation of Authority No. 30 (Revision 6) (25 F.R. 1706), there is hereby redelegated to the Deputy Regional Director, Dallas Regional Office, Small Business Administration, the authority:

A. *Financial assistance.* (1) To approve the following types of loans:

(a) Direct business loans in an amount not exceeding $20,000;

(b) Participation business loans in an amount not exceeding $100,000;

(c) Disaster loans in an amount not exceeding $50,000.

(2) To decline original applications for disaster loans but not reconsideration of such applications.

(3) To approve or decline Limited Loan Participation loans.

(4) To disburse approved loans.

(5) To enter into Business Loan and Disaster Loan Participation Agreements with banks.

(6) To execute loan authorizations for Washington approved loans and for loans approved under delegated authority, said execution to read as follows:

(Name), *Administrator.*
By ----------
(Name)
Deputy Regional Director.

(7) To cancel, reinstate, modify, and amend authorizations for business or disaster loans.

(8) To extend the disbursement period on all loan authorizations or undisbursed portions of loans.

(9) To approve, when requested, in advance of disbursement, conformed copies of notes and other closing documents and certify to the participating bank that such documents are in compliance with the participation authorization.

(10) To approve service charges by participating bank not to exceed 2% per annum on the outstanding balance in connection with construction loans and loans involving accounts receivable and inventory financing.

(11) To take the following actions in the Administration of fisheries' loans:

(a) Amend loan authorizations;

(b) Extend the period of disbursement of loans of $50,000 or less for a period not to exceed four months;

(c) Amend the hull insurance provision of any authorization issued prior to January 31, 1958, for a loan of $20,000, or less;

(d) Cancel loan authorizations prior to disbursement upon the written request of the applicant;

(e) Disburse fisheries' loans in the same manner as SBA business loans; and

(f) Administer current fisheries' loans and those loans delinquent not more than 60 days within the same authority exercised with respect to SBA loans, except execute satisfactions, releases or partial release of Preferred Ship Mortgages, or other mortgages, deeds of trust, etc., securing fisheries' loans, or to postpone or change payments due or to endorse checks in payment of insurance claims when said checks are not being paid to the Government as a payment on a fishery loan.

(12) To take all necessary actions in connection with the administration, servicing, collection and liquidation of all loans and other obligations or assets, including collateral purchased, and to do and perform and to assent to the doing and performance of, all and every act and thing requisite and proper to be done for the purpose of effectuating the granted powers, including without limiting the generality of the foregoing.

(a) The assignment, endorsement, transfer and delivery (but in all cases without representation, recourse or warranty) of notes, claims, bonds, debentures, mortgages, deeds of trust, contracts, patents and applications therefor, licenses, certificates of stock and of deposit, and any other liens, powers, rights, charges on and interest in or to property of any kind, legal and equitable, now or hereafter held by the Small Business Administration or its Administrator: *Provided, however,* That he may not assign, endorse, transfer, deliver, modify, surrender, satisfy, discharge, release, subordinate or cancel, in whole or in part, judgments and judgment liens, certificates or other instruments issued by receivers, trustees, liquidators or other officers or officials representing claims allowed against or interests in receivership, bankruptcy or other estates, without the prior written approval of the Regional Counsel or the United States Attorney, in those cases where the latter is involved in the proceedings.

(b) The execution and delivery of contracts of sale or of lease or sublease, quit-claim, bargain and sale or special warranty deeds, bills of sale, leases, subleases, assignments, subordinations, releases (in whole or part) or liens, satisfaction pieces, affidavits, proofs of claim in bankruptcy or other estates and such other instruments in writing as may be appropriate and necessary to effectuate the foregoing:

B. *Investment program.* (1) To disburse Section 502 loans.

(2) To extend the disbursement period on section 502 loan authorization or undisbursed portions of section 502 loans.

(3) To cancel wholly or in part undisbursed balances of partially disbursed section 502 loans.

(4) To do and to perform all and every act and thing requisite, necessary and proper to be done for the purpose of effecting the servicing and administration of section 502 loans.

C. *Procurement and technical assistance.* (1) To: (a) determine joint setasides for Government procurements and sales; (b) to determine the need for representation at procurement and disposal centers; and (c) develop with Government procurement and disposal agencies required local procedures for implementing established inter-agency policy agreements.

D. *Administration.* (1) To administer oaths of office.

(2) To approve (a) annual and sick leave and (b) leave without pay, not to exceed 30 days.

(3) To (a) make emergency purchases chargeable to the administrative expense fund, not in excess of $50 for any one object class in any one instance but not more than $100 for any one month for total purchases in all object classes; (b) make purchases not in excess of $10 in any one instance for "one-time use items" not carried in stock subject to the total limitations set forth in (a) of this paragraph; and (c) to contract for the repair and maintenance of equipment and furnishings in an amount not to exceed $25 in any one instance.

(4) In connection with the establishment of Disaster Loan Offices, to (a) obligate Small Business Administration to reimburse General Services Administration for the rental of office space; (b) rent office equipment; and (c) procure (without dollar limitation) emergency supplies and materials.

(5) To administratively approve all types of vouchers, invoices and bills submitted by public creditors of the Agency for articles or service rendered.

(6) To (a) authorize or approve official travel within the Region and (b) administratively approve travel reimbursement claims.

(7) To procure from General Services Administration all standard forms and all supply items listed in Part I of the SBA Index of Standard Supply Items.

(8) To rent motor vehicles from the General Services Administration and to rent garage space for the storage of such vehicles when not furnished by this Administration.

(9) To establish and classify all nontechnical positions subject to the Classification Act of 1949, as amended, in grades GS–1 through GS–7.

E. *Eligibility.* (1) To determine the size of applicants for assistance in accordance with the specific definitions set forth in sections 121.3–8, 121.3–9, 121.3–10 and 121.3–11 of the Small Business Size Standards Regulation, as amended (13 CFR Part 121), and within the rules set forth in section 121.3–4 of said Regulation, except where such determination involves questions of affiliation including franchise agreements, license agreements, or other similar contractual arrangements.

(2) To determine eligibility of applicants for assistance under any program of the Agency in accordance with Small Business Administration standards and policies.

F. *Correspondence.* To sign all correspondence relating to the functions of the Regional Office, except Congressional correspondence and correspondence involving new policy matters.

II. The authority delegated herein may be redelegated.

III. All authority delegated herein may be exercised by any SBA employee designated as Acting Deputy Regional Director.

IV. All previous authority delegated to employees of the Dallas Regional Office by the Regional Director may be rescinded, revised or amended without prejudice to actions taken thereunder.

Effective date: March 28, 1960.

C. W. FERGUSON,
Regional Director,
Dallas Regional Office.

INTERSTATE COMMERCE COMMISSION

[Notice 323]

MOTOR CARRIER TRANSFER PROCEEDINGS

MAY 31, 1960.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC 62602. By order of May 26, 1960, the Transfer Board approved the transfer to Clearwater Stage Lines, Inc., Grangeville, Idaho, of Certificates in Nos. MC 110604 and MC 110604 Sub 2, issued October 29, 1957 and December 11, 1959, to Virgil Boyd, doing business as Clearwater Stage Lines, Grangeville, Idaho, authorizing the transportation of: Passengers and their baggage, and express, newspapers, and mail in the same vehicle with passengers, between Lewiston, Idaho, and Grangeville, Idaho, and between Lewiston, Idaho, and Headquarters, Idaho, serving all intermediate points, and between junction Idaho Highway 9 and Idaho Highway 11 (near Greer, Idaho, and Kamiah, Idaho), serving all intermediate points. Elbert A. Stellmon, P.O. Box 496, Lewiston, Idaho, for applicants.

No. MC–FC 63119. By order of May 27, 1960, the Transfer Board approved the transfer to Ritchie Moving & Storage Company, a Corporation, Cleveland, Ohio, of Certificate No. MC 72982, issued June 14, 1949, in the name of J. Ritchie & Sons, Inc., Cleveland, Ohio, authorizing the transportation of household goods, over irregular routes, between points in Cuyahoga County, Ohio, on the one hand, and, on the other, points in Michigan, New Jersey, New York, Pennsylvania, and West Virginia, traversing Maryland for operating convenience only. G. H. Dilla, 3350 Superior Avenue, Cleveland 14, Ohio, for applicants.

No. MC–FC 63137. By order of May 26, 1960, the Transfer Board approved the transfer to all Boro Mountain Limousine Service, Inc., at St. Albans, N.Y., of Certificate No. MC 94162, issued August 16, 1944, to Rosenblatt's Friendly Mountain Line, Inc., Brooklyn, N.Y., authorizing the transportation of: Passengers and their baggage, in special operations, from May 15 to September 30, inclusive, traversing New Jersey for operating convenience, between New York, N.Y., on the one hand, and, on the other, points in Bethel, Neversink, Liberty, Thompson, Fallsburgh, and Rockland Townships, Sullivan County, N.Y., and Warwarsing Township, Ulster County, N.Y. Robert E. Goldstein, 24 West 40th Street, New York 18, N.Y., for applicants.

[SEAL] HAROLD D. MCCOY,
Secretary.

FOURTH SECTION APPLICATIONS FOR RELIEF

MAY 31, 1960.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 36275: *Substituted service—PRR for Midwest Haulers, Inc.* Filed by Midwest Haulers, Inc. (No. 24), for interested carriers. Rates on property loaded in trailers and transported on railroad flat cars between Buffalo, N.Y., on the one hand, and specified points in Illinois, Indiana, Kentucky, Maryland, New Jersey, and Pennsylvania, on the other, between Cincinnati, Ohio and Chicago, Ill., and between Dayton, Ohio, on the one hand, and points in Illinois,

Maryland, New Jersey and Pennsylvania, on the other.

Grounds for relief: Motor-truck competition.

Tariff: Supplement 5 to Midwest Haulers, Inc., tariff MF-I.C.C. 22.

FSA No. 36276: *Substituted service—Wabash for Midwest Haulers, Inc.* Filed by Midwest Haulers, Inc. (No. 25), for interested carriers. Rates on property loaded in trailers and transported on railroad flat cars between Fort Wayne, Ind., and East St. Louis, Ill.

Grounds for relief: Motor-truck competition.

Tariff: Supplement 5 to Midwest Haulers, Inc., tariff MF-I.C.C. 22.

FSA No. 36277: *Wrought iron pipe—East to the southwest.* Filed by Traffic Executive Association-Eastern Railroads, Agent (ER No. 2542), for interested rail carriers. Rates on wrought iron pipe and related articles, in carloads, from producing points in official territory, to points in southwestern territory.

Grounds for relief: Rates prescribed by order of the Commission and grouping.

Tariff: Supplement 231 to Traffic Executive Association-Eastern Railroads, Agent, tariff I.C.C. A-732 (Boin series).

FSA No. 36278: *Bituminous fine coal—Alabama to Mitchell, Ga.* Filed by O. W. South, Jr., Agent (SFA No. A3960), for interested rail carriers. Rates on bituminous fine coal, in carloads, as described in the application, from L&N mines in Alabama, to Mitchel, Ga.

Grounds for relief: Grouping.

Tariff: Supplement 33 to Southern Freight Association tariff I.C.C. S-39.

FSA No. 36279: *Radiators—Ga., Miss., and N.C., to official territory.* Filed by O. W. South, Jr., Agent (SFA No. A3955), for interested rail carriers. Rates on boilers, radiators, and related articles, in carloads, as described in the application, from Brunswick, Ga., West Point, Miss., and Wilmington, N.C., to points in official (including Illinois) territory.

Grounds for relief: Short-line distance formula and grouping.

Tariff: Supplement 197 to Southern Freight Association tariff I.C.C. 971 (Spaninger series).

FSA No. 36280: *Superphosphate—South Florida to Massachusetts.* Filed by O. W. South, Jr., Agent (SFA No. A3959), for interested rail carriers. Rates on superphosphate (acid phosphate), in carloads, from South Florida producing points, to Lowell, North Cambridge and South Wilmington, Mass.

Grounds for relief: Rail-water-truck competition.

Tariff: Supplement 66 to Southern Freight Association tariff I.C.C. 1568 (Spaninger series).

FSA No. 36281: *T.O.F.C. Service—Between Illinois and WTL territories and the southwest.* Filed by Southwestern Freight Bureau, Agent (No. B-7808), for interested carriers. Rates on property of various kinds moving on class rates loaded in trailers and transported on railroad flat cars between points in Illinois and western trunk line territory, on the one hand, and points in Arkansas, Missouri and Oklahoma, on the other.

Grounds for relief: Motor-truck competition.

Tariff: Supplement 66 to Southwestern Freight Bureau tariff I.C.C. 4312.

FSA No. 36282: *Substituted service—Monon and L&N for Southern-Plaza Express, Inc.* Filed by Central and Southern Motor Freight Tariff Association, Incorporated, Agent (No. 17), for interested carriers. Rates on property loaded in highway trailers and transported on railroad flat cars between Hammond, Ind., and Memphis, Tenn., on traffic originating at or destined to such points or points beyond as described in the application.

Grounds for relief: Motor-truck competition.

Tariff: Supplement 3 to Central and Southern Motor Freight Tariff Association, Incorporated tariff MF-I.C.C. 220.

FSA No. 36283: *Substituted service—Monon and L&N for Super Service Motor Freight Company.* Filed by Central and Southern Motor Freight Tariff Association, Incorporated, Agent (No. 18), for interested carriers. Rates on property loaded in highway trailers and transported on railroad flat cars between Hammond, Ind., on the one hand, and Chattanooga or Nashville, Tenn., on the other, on traffic originating at or destined to such points or points beyond as described in the application.

Grounds for relief: Motor-truck competition.

Tariff: Supplement 3 to Central and Southern Motor Freight Tariff Association, Incorporated tariff MF-I.C.C. 220.

FSA No. 36284: *Substituted service—IC for Southern-Plaza Express, Inc.* Filed by Central and Southern Motor Freight Tariff Association, Incorporated, Agent, (No. 19), for interested carriers. Rates on property loaded in highway trailers and transported on railroad flat cars between Chicago, Ill., on the one hand, and East St. Louis, Ill., and Memphis, Tenn., on the other, and between East St. Louis, Ill., and Memphis, Tenn., on traffic originating at or destined to such points or points beyond as described in the application.

Grounds for relief: Motor-truck competition.

Tariff: Supplement 3 to Central and Southern Motor Freight Tariff Association, Incorporated tariff MF-I.C.C. 220.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

Title 3—THE PRESIDENT

Proclamation 3351

FLAG DAY, 1960

By the President of the United States of America

A Proclamation

WHEREAS in the first year of our national independence, on June 14, 1777, "the United States in Congress assembled" created the flag of the United States consisting of thirteen stripes of red and white and a union of thirteen white stars in a blue field; and

WHEREAS the stars of the union, representing the States of the Nation, have multiplied with the passing years until they will number fifty on July 4, 1960; and

WHEREAS it is fitting that the sight of our flag should stir our hearts with pride and gratitude for our national heritage of independence, union, and equality under representative government dedicated to freedom and justice for all; and

WHEREAS it is proper on the birthday of the Stars and Stripes that we should recall the qualities of greatness that our Founding Fathers displayed when, with firm reliance on Divine Providence, they pledged their lives, their fortunes, and their sacred honor to bring this Nation into being; and

WHEREAS the troubled times in which we live call for the courage, steadfastness, and wisdom of our forefathers in their times of trial and for renewed dedication to our country under the banner which symbolizes our national purposes; and

WHEREAS the Congress, by a joint resolution approved August 3, 1949 (63 Stat. 492), designated June 14 of each year as Flag Day and requested the President to issue annually a proclamation calling upon the Government and the people of the United States to observe that day:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby proclaim Tuesday, June 14, 1960, to be Flag Day; and I call upon the responsible officers of the Federal Government and of the State and local governments to arrange for the flag to be flown on all public buildings on that day.

I request the people of the United States to observe Flag Day by flying the colors at their homes and other suitable places, by organizing and participating in appropriate services and ceremonies, and by giving grateful thought to the treasured national heritage which the flag represents.

I also urge all our people at all times to cultivate and to inculcate in their children the ideals and the qualities of responsible American citizenship, which constitute the strongest possible guarantee of the flag's future honor and glory.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this first day of June in the year of our Lord nineteen hundred and sixty, [SEAL] and of the Independence of the United States of America the one hundred and eighty-fourth.

DWIGHT D. EISENHOWER

By the President:

CHRISTIAN A. HERTER,
Secretary of State.

[F.R. Doc. 60-5167; Filed, June 3, 1960; 10:39 a.m.]

Rules and Regulations

Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 89—GROUP HEALTH BENEFITS

Miscellaneous Amendments

The Civil Service Commission has approved amendments to the regulations governing the Federal Employees Health Benefits Program. The first of these amendments is designed to exclude from coverage certain persons whose Federal employment is intermittent, whether they have regular tours of duty or not. These persons typically spend but a few minutes a day or week performing Federal duties. Ordinarily their duties are such that there is no particular period of time to be spent in performing Federal duties. However, the annual rate of pay reflects the amount of time required for performance of the duties. Consequently the amendment excludes those employees whose annual rate of pay is $350 a year or less.

The other amendments are intended to clarify the regulations and instructions for registration of Federal employees and to simplify administration.

Because of the imminence of the effective date established by law for the Federal Employees Health Benefits Program, the Commission finds that notice and public procedure on these amendments is impracticable, and therefore,

It is ordered, That effective on the date of publication in the FEDERAL REGISTER, Part 89 of Chapter I of Title 5, Code of Federal Regulations, is amended as follows:

Section 89.2(b)(5) is amended to read as follows:

§ 89.2 Coverage.

* * * * *

(b) Employees in the following groups are not eligible:

* * * * *

(5) Employees whose salary, pay, or compensation on an annual basis is $350 a year or less.

Section 89.4 (a) and (b) is amended to read as follows:

§ 89.4 Effective date of enrollment.

(a) The effective date of enrollment under § 89.3(a) is the first day of the first pay period after June 30, 1960, if (1) the employee is in pay status at any time in the preceding pay period, except that, if the employee is a substitute in the postal field service, he must have drawn sufficient pay after other deductions during the six consecutive preceding pay periods to permit withholding the amount necessary for his share of the cost of the health benefits plan he selects, and (2) his Health Benefits Registration Form has been received by his employing office before July 1, 1960.

(b) The effective date of enrollment or change of enrollment under § 89.3(f), for employees, is the first day of the first pay period after October 31 of the year in which the employing office receives the employee's registration to enroll or change enrollment, if the employee is in pay status at any time in the preceding pay period, except that, if the employee is a substitute in the postal field service, the effective date must follow six consecutive pay periods in which the employee was in pay status and in each of which he drew sufficient pay, after other deductions, to permit withholding of the amount necessary for his share of the cost of the health benefits plan he selects.

(Sec. 10, 73 Stat. 715, 5 U.S.C. 3009)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] MARY V. WENZEL,
Executive Assistant.

Chapter III—Foreign and Territorial Compensation

[Dept. Reg. 108.435]

PART 325—ADDITIONAL COMPENSATION IN FOREIGN AREAS

Designation of Differential Posts

Section 325.15 *Designation of differential posts* is amended as follows, effective as of the beginning of the first pay period following May 28, 1960:

1. Paragraph (b) is amended by the deletion of the following:

Colombia, all posts except Barranquilla, Bogota, Cali, Medellin and San Andres Island.

2. Paragraph (b) is amended by the addition of the following:

Colombia, all posts except Barranquilla, Bogota, Cali, Manizales, Medellin and San Andres Island.

3. Paragraph (c) is amended by the addition of the following:

Manizales, Colombia.

(Secs. 102, 401, E.O. 10000, 13 F.R. 5453, 3 CFR, 1948 Supp., E.O. 10623, E.O. 10636, 20 F.R. 5297, 7025, 3 CFR, 1955 Supp.)

Dated: May 13, 1960.

For the Secretary of State.

[SEAL] LANE DWINELL,
Assistant Secretary.

Title 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

PART 446—PEANUTS

Notice of Extension of Maturity Date 1959 Crop Peanut Price Support Program

Notice is hereby given of the extension by Commodity Credit Corporation of the loan maturity date for 1959 crop peanuts, as provided for in § 446.1102(b) of the 1959 crop peanut price support program regulations published in the FEDERAL REGISTER for July 30, 1959 (24 F.R. 6077), from May 31, 1960 to June 24, 1960.

(Sec. 4, 62 Stat. 1070, as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054; sec. 201, 63 Stat. 899; 15 U.S.C. 714c, 7 U.S.C. 1441, 1421)

Issued this 31st day of May 1960.

ANDREW J. MAIR,
Acting Executive Vice President, Commodity Credit Corporation.

[F.R. Doc. 60-5095; Filed, June 3, 1960; 8:50 a.m.]

Title 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 29—TOBACCO INSPECTION

Fees and Charges

On April 29, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 3764), regarding the issuance of an amendment to the regulations governing the inspection of tobacco (7 CFR Part 29), issued pursuant to the authority contained in The Tobacco Inspection Act (49 Stat. 731; 7 U.S.C. 511 et seq.). The notice provided that all persons desiring to submit written data, views, and arguments for consideration in connection with the proposed amendment should submit same not later than 10 days after publication of the proposed amendment in the FEDERAL REGISTER of April 29, 1960. After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, the following amendments are hereby promulgated, pursuant to the authority contained in The Tobacco Inspection Act (49 Stat. 731, 7 U.S.C. 511 et seq.).

1. Change paragraphs (b) and (c) of § 29.123 to read as follows:

(b) The fees or charges for hogshead, bale or case inspection shall be the actual total cost including travel expense, per diem allowance and salaries.

(c) The fees or charges for sample inspection shall be the actual total cost including travel expense, per diem allowance and salaries.

2. Change paragraph A of § 29.801 to read as follows:

A. *Determination of fees or charges and payments of costs.*

1. Fees or charges for inspection at redrying plants and receiving points shall include travel expense, per diem allowance and salaries: *Provided*, That charges for verification or confirmation of grades previously assigned at redrying plants and receiving points shall not include a charge for salaries if there has been no change in ownership of the tobacco involved and if inspectors performing such verification or confirmation were not recalled to duty for the purpose of performing such service.

2. Charges for inspection at non-designated auction markets shall include travel expense, per diem allowance and salaries.

3. Fees or charges for hogshead, bale or case inspection shall be the actual total cost including travel expense, per diem allowance and salaries.

4. Fees or charges for sample inspection shall be the actual total cost including travel expense, per diem allowance and salaries.

5. All charges as assessed under paragraphs 1, 2, 3 and 4, shall be increased by 8 percent to cover administrative expenses.

6. It is mutually agreed that AMS will pay all expenses above mentioned from any available appropriation with the agreement and understanding that AMS shall be reimbursed therefor by the applicant for all expenses so paid by AMS for conducting the work hereunder.

7. The applicant agrees to reimburse the Agricultural Marketing Service for all expenses incurred in the conduct of the services rendered under this application, not later than 15 days from the date of billing, such payment to be made by check, money order, or draft, payable and mailed to the Agricultural Marketing Service, Washington 25, D.C., for deposit to the appropriation from which the expenses were paid.

Done at Washington, D.C., this 1st day of June 1960, to become effective July 1, 1960.

ROY W. LENNARTSON,
Deputy Administrator, Agricultural Marketing Service.

[F.R. Doc. 60-5094; Filed, June 3, 1960; 8:50 a.m.]

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

Subpart—United States Standards for Grades of Canned Fruits for Salad [1]

On August 18, 1959, a notice of proposed rule making was published in the FEDERAL REGISTER (24 F.R. 6693) regarding a proposed revision of the United States Standards for Grades of Canned Fruits for Salad.

After consideration of all relevant matters presented, including the proposal set forth in the aforesaid notice, the following United States Standards for Grades of Canned Fruits for Salad are hereby promulgated pursuant to the authority contained in the Agricultural Marketing Act of 1946 (secs. 202–208, 60 Stat. 1087, as amended; 7 U.S.C. 1621–1627):

PRODUCT DESCRIPTION AND GRADES

Sec.
52.3831 Product description.
52.3832 Grades of canned fruits for salad.

PROPORTIONS AND FORMS OF FRUIT

52.3833 Proportions and forms of fruit.

LIQUID MEDIA, FILL OF CONTAINER, DRAINED WEIGHTS

52.3834 Liquid media and Brix measurements for canned fruits for salad.
52.3835 Recommended fill of container for canned fruits for salad.
52.3836 Recommended minimum drained weights for canned fruits for salad.
52.3837 Compliance with recommended drained weights.

FACTORS OF QUALITY

52.3838 Ascertaining the grade.
52.3839 Ascertaining the rating for the factors which are scored.
52.3840 Color.
52.3841 Uniformity of count and size.
52.3842 Absence of defects.
52.3843 Character.

LOT INSPECTION AND CERTIFICATION

52.3844 Ascertaining the grade of a lot.

SCORE SHEET

52.3845 Score sheet for canned fruits for salad.

AUTHORITY: §§ 52.3831 to 52.3845 issued under secs. 202–208, 60 Stat. 1087, as amended; 7 U.S.C. 1621–1627.

PRODUCT DESCRIPTION AND GRADES

§ 52.3831 Product description.

"Canned fruits for salad" (or "canned salad fruits" or "canned fruit salad") for the purposes of this subpart is the product consisting of units of properly prepared apricots, yellow clingstone peaches, pears, pineapple, cherries and/or grapes in the forms (or styles), proportions, and minimum counts specified in Table I of this subpart. The product is packed in a suitable liquid medium with or without the addition of nutritive sweetening ingredients, artificial sweetening ingredients, or other ingredients permissible under the Federal Food, Drug, and Cosmetic Act, and is processed by heat to assure preservation of the product in hermetically-sealed containers.

§ 52.3832 Grades of canned fruits for salad.

(a) "U.S. Grade A" (or "U.S. Fancy") is the quality of canned fruits for salad in which each fruit ingredient possesses similar varietal characteristics; in which the fruit ingredients possess a good color, are practically uniform in count and size, are practically free from defects, possess a good character, possess a normal flavor and odor; and that score not less than 85 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U.S. Grade B" (or "U.S. Choice") is the quality of canned fruits for salad in which each fruit ingredient possesses similar varietal characteristics; in which the fruit ingredients possess a reasonably good color, may be irregular in count but are fairly uniform in size, are reasonably free from defects, possess a reasonably good character, possess a normal flavor and odor; and that score not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(c) "Substandard" is the quality of canned fruits for salad that fail to meet the requirements of U.S. Grade B.

PROPORTIONS AND FORMS OF FRUIT

§ 52.3833 Proportion and forms of fruits.

Canned fruits for salad shall consist of the kinds of fruits in the forms (styles) and proportions as specified in Table I of this subpart.

TABLE I

Fruit and forms (or styles)	Proportion [1]	
Apricots:		
Unpeeled quarters; or unpeeled halves; or peeled quarters; or peeled halves.	Not less than 15%.	Not more than 30%.
Yellow clingstone peaches:		
Peeled quarters; or peeled slices.	Not less than 23%.	Not more than 46%.
Pears:		
Peeled quarters; or peeled slices.	Not less than 10%.	Not more than 38%.
Pineapple:		
Wedge-shaped segments from slices.	Not less than 8%.	Not more than 16%.
Cherries, whole:		
Artificially colored red; or artificially colored red and artificially flavored.	Not less than 3%.	Not more than 8%.
Grapes, whole:		
Natural, seedless.	Not less than 6%.	Not more than 12%.

[1] Percentages of each fruit based on the average drained weight from the containers examined: *Provided*, That the variability is within the range of good commercial practice.

LIQUID MEDIA, FILL OF CONTAINER, AND DRAINED WEIGHTS

§ 52.3834 Liquid media and Brix measurements for canned fruits for salad.

"Cut-out" requirements for liquid media in canned fruits for salad are not incorporated in the grades of the finished product since sirup or any other liquid medium, as such, is not a factor of quality for the purposes of these grades. The "cut-out" Brix measurements, as applicable, for the respective designations are as follows:

Designations	*Brix measurement*
"Extra heavy sirup" or "Extra heavy fruit juice sirup".	22° or more but less than 35°.
"Heavy sirup" or "Heavy fruit juice sirup".	18° or more but less than 22°.
"Light sirup" or "Light fruit juice sirup".	14° or more but less than 18°.
"In water"	No requirement.
"In fruit juice"	No requirement.

§ 52.3835 Recommended fill of container for canned fruits for salad.

The recommended fill of container for canned fruits for salad is not incorpo-

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable state laws and regulations.

rated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purposes of these grades. It is recommended that each container be as full of the fruit ingredients as practicable without impairment of quality and that the product and packing medium occupy not less than 90 percent of the volume of the container.

§ 52.3836 Recommended minimum drained weights for canned fruits for salad.

(a) *General.* The minimum drained weight recommendations in Table II of this subpart are not incorporated in the grades of the finished product since drained weight, as such, is not a factor of quality for the purposes of these grades.

(b) *Method for ascertaining drained weight.* The drained weight of canned fruits for salad is determined by emptying the contents of the container upon a United States Standard No. 8 circular sieve of proper diameter containing 8 meshes to the inch (0.0937-inch, ±3%, square openings) so as to distribute the product evenly, inclining the sieve slightly to facilitate drainage, and allowing to drain for two minutes. The drained weight is the weight of the sieve and fruits less the weight of the dry sieve. A sieve 8 inches in diameter is used for the equivalent of No. 3 size cans (404 x 414) and smaller, and a sieve 12 inches in diameter is used for containers larger than the equivalent of the No. 3 size can.

§ 52.3837 Compliance with recommended minimum drained weights.

Compliance with the recommended minimum drained weights for canned fruits for salad is determined by averaging the drained weights from all the containers which are representative of a specific lot and such lot is considered as meeting the recommendations if the following criteria are met:

(a) The average of the drained weights from all of the containers meets the recommended drained weight;

(b) One-half or more of the containers meet the recommended drained weight; and

(c) The drained weights from the containers which do not meet the recommended drained weight are within the range of variability for good commercial practice.

TABLE II—RECOMMENDED MINIMUM DRAINED WEIGHTS FOR CANNED FRUITS FOR SALAD

Container designations (metal, unless otherwise stated)	Container size-over-all dimensions		In any liquid medium
	Width	Height	
	Inches	*Inches*	*Ounces*
8 Z Tall	2 1/16	3 4/16	5.2
8 oz. glass			5.2
No. 300	3	4 7/16	9.0
No. 1 Tall	3 1/16	4 13/16	10.0
No. 303	3 1/16	4 9/16	10.0
No. 303 glass			10.0
No. 2	3 7/16	4 3/16	12.5
No. 2½	4 1/16	4 13/16	18.0
No. 2½ glass			18.0
No. 10	6 3/16	7	64.5

FACTORS OF QUALITY

§ 52.3838 Ascertaining the grade.

(a) *General.* In addition to considering other requirements outlined in the standards the following quality factors are evaluated:

(1) *Factors not rated by score points.*
(i) Varietal characteristics.
(ii) Flavor and odor.

(2) *Factors rated by score points.* The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

	Points
(i) Color	20
(ii) Uniformity of count and size	20
(iii) Absence of defects	30
(iv) Character	30
Total score	100

(b) *Definition of normal flavor and odor.* "Normal flavor and odor" means that the individual fruits may lack the distinctive flavor and odor of each fruit ingredient but that the product is free from objectionable flavors and objectionable odors of any kind.

§ 52.3839 Ascertaining the rating for the factors which are scored.

The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "17 to 20 points" means "17, 18, 19, or 20 points").

§ 52.3840 Color.

(a) (*A*) *classification.* Canned fruits for salad that possess a good color may be given a score of 17 to 20 points. "Good color" means that each fruit ingredient possesses a reasonably uniform typical color that is bright and characteristic of at least reasonably well-matured (or ripened) fruit that has been properly prepared and processed; that the fruit ingredients may be no more than slightly affected by pink staining; that none of the fruit ingredients are dull or off color for reasons other than being slightly affected by pink staining; and that not more than 10 percent, by count, of all the units may possess a fairly good color: *Provided*, That not more than 20 percent, by count, of any one fruit may possess a fairly good color.

(b) (*B*) *classification.* If the canned fruits for salad possess a reasonably good color, a score of 14 to 16 points may be given. Canned fruits for salad that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably good color" means that each fruit ingredient possesses a fairly uniform and fairly good typical color that is characteristic of at least fairly well-matured (or ripened) fruit that has been properly prepared and processed; that the fruit ingredients may be more than slightly affected by pink staining but not to the extent that the appearance is materially affected by this cause but none of the fruit ingredients may be off color for reasons other than staining or dullness within these limits; and that not more than 10 percent, by count, of all the units may fail to meet such reasonably good color or may be dull in color: *Provided*, That not more than 20 percent, by count, of any one fruit may be of such color.

(c) (*SStd*) *classification.* Canned fruits for salad that fail to meet the requirements of paragraph (b) of this section may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.3841 Uniformity of count and size.

(a) (*A*) *classification.* Canned fruits for salad that are practically uniform in count and size may be given a score of 17 to 20 points.

(1) "Practically uniform in count" means the minimum number of units of fruit as specified in Table III of this subpart.

TABLE III

When the following forms (styles) are present, and excluding grapes as fruit units, if present.	8 oz. cans or glass.	No. 1 Tall cans, No. 300 cans, No. 303 cans (or equivalent glass).	No. 2½ cans or glass.	No. 10 cans.
Halved apricots, quartered peaches, quartered pears.	No less than 2 units each of 5 fruits.	No less than 3 units each of 5 fruits.	No less than 5 units each of 5 fruits.	No less than 20 units each of 3 or more fruits.
Halved apricots, sliced or quartered peaches, sliced or quartered pears.	No less than 2 units each of fruits other than those of sliced style(s).	No less than 3 units each of fruits other than those of sliced style(s).	No less than 5 units each of fruits other than those of sliced style(s).	No less than 20 units each of 2 or more fruits other than those of sliced style(s).
Quartered apricots, sliced or quartered peaches, sliced or quartered pears.	No less than 2 units each of fruits other than peaches and/or pears of sliced style and quartered style apricots.	No less than 3 units each of fruits other than peaches and/or pears of sliced style and quartered style apricots.	No less than 5 units each of fruits other than peaches and/or pears of sliced style and quartered style apricots.	No less than 20 units each of 2 or more fruits other than peaches and/or pears of sliced style and quartered style apricots.

(2) "Practically uniform in size" means with respect to the individual fruits within each container; and excluding cherries or grapes that may be present:

(i) *Apricots.* Halves or quarters are very symmetrical; and the weight of the largest full-size half does not exceed the weight of the smallest full-size half by more than 75 percent.

(ii) *Pears or peaches (quarters).* Quarters are very symmetrical; the weight of the largest full-size quarter does not exceed the weight of the smallest full-size quarter by more than 60 percent.

(iii) *Peaches (slices).* Not more than 5 percent, by count, of the units may be partial slices, slivers, and slabs; and any variation in the size and symmetry of normal slices does not affect more than slightly the appearance of the product.

(iv) *Pears (slices).* Not more than 10 percent, by count, of the units may vary noticeably from the uniform shape of slices.

(v) *Pineapple (wedges).* Not more than a total of 10 percent, by count, of the units may vary noticeably in measurement of the outside arc of the wedges, may be less than 5/16 inch or more than ½ inch in thickness, and may be less than 1 1/16 inch or more than 1¼ inches in length.

(b) (*B*) *classification.* If the canned fruits for salad are irregular in count or fairly uniform in size, a score of 14 to 16 points may be given. Canned fruits for salad that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule).

(1) "Irregular in count" means that the canned fruits for salad (within the container) fail to meet the applicable count requirements of the (A) classification (paragraph (a) of this section).

(2) "Fairly uniform in size" means with respect to the individual fruits within each container; and excluding cherries or grapes that may be present:

(i) *Apricots.* Units may vary in size and thickness; the weight of the largest full-size half may be not more than twice the weight of the smallest full-size half.

(ii) *Pears or peaches (quarters).* Quarters may vary in size and thickness; the weight of the largest full-size quarter may be not more than twice the weight of the smallest full-size quarter.

(iii) *Peaches (slices).* Not more than 20 percent, by count, of the units may be partial slices, slivers, and slabs; and the balance of normal slices may vary noticeably in size and thickness.

(iv) *Pears (slices).* Not more than 20 percent, by count, of the units may vary noticeably from the uniform shape of slices.

(v) *Pineapple (wedges).* Not more than a total of 15 percent, by count, of the units may vary noticeably in measurement of the outside arc of the wedges, may be less than 5/16 inch or more than ½ inch in thickness, and may be less than 1 1/16 or more than 1¼ inches in length.

(c) (*SStd*) *classification.* Canned fruits for salad that fail to meet the requirements of paragraph (b) of this section with respect to uniformity of size may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.3842 Absence of defects.

(a) *General.* The factor of defects refers to loose or attached peel from peaches or pears or when peeled apricots are present; blemishes typical for each fruit ingredient; and other defects not specifically mentioned (such as, but not limited to, harmless extraneous material, main stems or portions thereof, capstems from or on grapes, pit or core material, broken or severed units, excessive trimming) that affect the appearance or edibility of the product.

(b) *Definition of blemishes.* For the purposes of the standards in this subpart, blemishes (or blemished or blemished unit) for the respective fruit ingredient are as follows:

(1) *Apricot*—(i) *Minor blemishes.* "Minor blemishes" in unpeeled style include "freckles" and also mean:

(*a*) Light brown to brown surface areas which, singly or in combination on a unit, exceed in the aggregate the area of a circle 1/8 inch in diameter but do not exceed in the aggregate the area of a circle ¼ inch in diameter; or

(*b*) Single dark brown surface areas that do not exceed the area of a circle 1/8 inch in diameter but which, singly or in combination with other "minor blemishes" on a unit, affect materially but not seriously the appearance of the unit. Light brown to brown surface areas and "freckles" that are insignificant and less than the area of a circle 1/8 inch in diameter and which do not affect materially the appearance of the unit are not considered "blemished."

(ii) *Serious blemishes.* "Serious blemishes" include units affected by scab, hail injury, discoloration, or other abnormalities in the following degree:

(*a*) Light brown to brown surface areas in unpeeled styles which, singly or in combination on a unit, exceed in the aggregate the area of a circle ¼ inch in diameter;

(*b*) Blemishes that extend into the fruit tissue regardless of area of depth;

(*c*) Single dark brown surface areas in unpeeled styles that exceed the area of a circle 1/8 inch in diameter, whether or not the unit is affected by minor blemishes; or

(*d*) Any blemish whether or not specifically defined or mentioned in this subparagraph which affects seriously the appearance of the unit but is not a filthy or decomposed substance.

(2) *Cherries.* (i) "Blemished" or "blemished units" include, but are not necessarily limited to, cherries that are deformed, are damaged by mechanical injury, possess pits or portions thereof; are affected by surface discoloration, rough surface areas, or checks or cracks to the extent that the appearance of the cherry is materially affected.

(ii) "Seriously blemished" or "seriously blemished units" include cherries that are blemished to the extent that the appearance of the cherry is seriously affected or the edibility of the cherry is affected in any way.

(3) *Peach*—(i) *Blemished.* "Blemished" or "blemished units" means units that are blemished with scab, hail injury, discoloration, or other abnormality which affects materially the appearance or edibility of the unit.

(ii) *Seriously blemished.* "Seriously blemished" or "seriously blemished units" means units that are blemished to the extent that the appearance or edibility of the unit is seriously affected.

(4) *Pear*—(i) *Blemished.* "Blemished" or "blemished units" means units that are blemished with scab, hail injury, discoloration, or other abnormality covering an aggregate area exceeding the area of a circle ¼ inch in diameter or units that are partially or improperly cored and stemmed. Units with black or very dark spots or any other damage which materially affect the appearance or edibility of the product are considered as "blemished," regardless of the area of the injury.

(ii) *Seriously blemished.* "Seriously blemished" or "seriously blemished units" means units that are blemished to the extent that the appearance or edibility of the unit is seriously affected.

(5) *Pineapple*—(i) *Blemished.* (*a*) "Blemishes" include:

(*1*) Any of the following, if in excess of 1/16 inch in the longest dimension on the exposed surface of the unit; eyes, pieces of shell, brown spots.

(*2*) Deep fruit eyes.

(*3*) Bruised portions.

(*4*) Other abnormalities that it is possible to detect in good commercial practice before sealing in the containers.

(c) (*A*) *classification.* Canned fruits for salad that are practically free from defects may be given a score of 26 to 30 points. "Practically free from defects" in canned fruits for salad means:

(1) Not more than ¼ square inch of peel, on an average, per pound of total contents may be present;

(2) Not more than a total of 10 percent, by count, of all the fruit units may be blemished and seriously blemished: *Provided*, That not more than 5 percent, by count, may be seriously blemished; and

(3) The presence of blemished and seriously blemished units, peel, and any other defects, individually or collectively does not materially affect the appearance or edibility of the product.

(d) (*B*) *classification.* If the canned fruits for salad are reasonably free from defects, a score of 21 to 25 points may be given. Canned fruits for salad that falls into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" in canned fruits for salad means:

(1) Not more than ½ square inch of peel, on an average, per pound of total contents may be present;

(2) Not more than a total of 20 percent, by count, of all the fruit units may be blemished and seriously blemished: *Provided*, That not more than 10 percent, by count, may be seriously blemished; and

(3) The presence of blemished and seriously blemished units, peel, and any other defects, individually or collectively does not seriously affect the appearance or edibility of the product.

(e) (*SStd*) *classification.* Canned fruits for salad that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 20 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.3843 Character.

(a) *General.* The factor of character, as may be applicable to the respective fruit ingredient, refers to the degree of ripeness, the texture and condition of the flesh, the firmness, the tenderness,

and the tendency of the units to retain their apparent original conformation and size without material disintegration.

(b) (4) *classification.* Canned fruits for salad that possess a good character may be given a score of 25 to 30 points. "Good character" means that not more than 10 percent, by count, of the total number of apricot, peach, pear, and pineapple ingredients may fail to comply with the following requirements for the individual fruit ingredient, and that the cherries, or grapes if present, are reasonably firm and retain their apparent original conformation:

(1) *Apricot.* The units possess a reasonably uniform, reasonably tender texture typical of properly ripened canned apricots that are properly processed; the texture is reasonably fleshy, and the units are reasonably thick but the tenderness may be variable within the unit or among the units; and the units may be soft to slightly firm or slightly ragged but are not mushy.

(2) *Peach.* The units possess a texture typical of mature, properly ripened, properly prepared, and properly processed canned clingstone peaches; the texture is reasonably fleshy, and the units are reasonably tender or the tenderness may be variable within the unit; and the units are reasonably intact with not more than slightly frayed edges and may be slightly firm or slightly soft but are not mushy.

(3) *Pear.* The units possess a texture typical of properly ripened pears that are properly processed; the units may possess a texture of moderate graininess; the units are reasonably tender or the tenderness may be variable within the unit; and the units may be slightly firm or slightly ragged with slightly frayed edges or slightly soft but are not mushy.

(4) *Pineapple.* The units are of practically uniform ripeness, the fruitlets appear as a compact structure, and the units are reasonably free from porosity.

(c) *(B) classification.* If the canned fruits for salad possess a reasonably good character, a score of 21 to 24 points may be given. Canned fruits for salad that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably good character" means that not more than 10 percent, by count, of the total number of apricot, peach, pear, and pineapple ingredients may fail to comply with the following requirements for the individual fruit ingredient, and that the cherries, or grapes if present, may be only fairly firm: *Provided,* That the appearance or edibility of the product is not affected materially by such units:

(1) *Apricot.* The units possess a texture of properly processed apricots which may be variable but the texture is fairly fleshy and the units are intact; the units may be lacking uniformity of tenderness but are not so firm as to be "not tender"; and the units may be markedly ragged with frayed edges or may be very soft but are not mushy.

(2) *Peach.* The units possess a texture typical of mature, properly prepared, and properly processed canned clingstone peaches which may be variable but the texture is fairly fleshy; the units may be lacking uniformity of tenderness but are not so firm as to be "not tender"; and the units may be frayed but not excessively frayed or may be soft but are not mushy.

(3) *Pear.* The units possess a texture of properly processed pears which may be variable; the units may possess a texture of marked graininess; and the units may be lacking uniformity of tenderness and may be markedly firm but are not so firm as to be "not tender";

(4) *Pineapple.* The units are of reasonably uniform ripeness, the fruitlets are reasonably compact in structure, and the units are fairly free from porosity.

(d) *(SStd) classification.* Canned fruits for salad that fail to meet the requirements of paragraph (c) of this section may be given a score of 0 to 20 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

LOT INSPECTION AND CERTIFICATION

§ 52.3844 Ascertaining the grade of a lot.

The grade of a lot of canned fruits for salad covered by these standards is determined by the procedures set forth in the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables, Processed Products Thereof, and Certain Other Processed Food Products (§§ 52.1 through 52.87 of this title).

The United States Standards for Grades of Canned Fruits for Salad (which is the second issue) contained in this subpart shall become effective 30 days after the date of publication hereof in the FEDERAL REGISTER, and thereupon will supersede the United States Standards for Grades of Canned Fruits for Salad which have been in effect since April 1, 1942.

Dated: June 1, 1960.

ROY W. LENNARTSON,
Deputy Administrator,
Marketing Services.

[F.R. Doc. 60-5077; Filed, June 3, 1960; 8:47 a.m.]

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 909—ALMONDS GROWN IN CALIFORNIA

Salable and Surplus Percentages for 1959–60 Crop Year

The salable and surplus percentages for California almonds during the 1959–60 crop year which were established August 21, 1959 (24 F.R. 6804), are being revised as hereinafter set forth. This action, which is based on the recommendation of the Almond Control Board and other available information, is in accordance with the applicable provisions of Marketing Agreement No. 119, as amended, and Order No. 9, as amended (7 CFR Part 909), regulating the handling of almonds grown in California. Said amended marketing agreement and order are effective under the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

The revised percentages are based on the following revised estimates (in terms of kernel weight) of the Board for the crop year which began July 1, 1959: (1) Production of 84.5 million pounds; (2) trade demand for domestic almonds of 50 million pounds (based on a total trade demand of 52.5 million pounds less 2.5 million pounds of imported almonds); (3) a handler carryover of 6.1 million pounds on July 1, 1959; (4) provision for a desirable handler carryover of 19.5 million pounds on June 30, 1960; (5) trade demand and carryover requirements for 1959 crop of 63.4 million pounds; and (6) a surplus supply of 21.1 million pounds.

Based on Almond Control Board revised estimates and data now available to the Department, trade demand for domestic almonds (including needed small-sized almonds which constitute a significant part of trade demand) is expected to be in excess of the 48 million pounds previously estimated for the current crop year. The 1959 almond crop production which is now estimated at approximately 14.5 million pounds more than initially estimated (24 F.R. 6804), includes a substantial quantity of small-sized almonds, much of which constitutes surplus. Preliminary indications are that a less abundant production of small-sized almonds will result from the 1960 crop. Notwithstanding the increased 1959 crop production, it will be necessary, in order to make available a quantity of salable almonds (including small-sized almonds) sufficient to satisfy both the enhanced trade demand and desirable handler carryover requirements on June 30, 1960, to increase the salable percentage from 70 percent to 75 percent and reduce the complementary surplus percentage from 30 percent to 25 percent.

After consideration of all available information, it is hereby found that the quantity of salable almonds is not sufficient to satisfy trade demand and desirable carryover requirements for the 1959–60 crop year and that to establish the salable and surplus percentages hereinafter set forth will tend to effectuate the declared policy of the act.

Therefore, salable and surplus percentages for almonds during the 1959–60 crop year (24 F.R. 6804) are hereby revised to read as follows:

§ 909.209 Salable and surplus percentages for almonds during the crop year beginning July 1, 1959.

The salable and surplus percentages during the crop year beginning July 1, 1959, applicable to the total kernel weight of almonds received by handlers for their own accounts, shall be 75 percent and 25 percent, respectively.

It is hereby further found that it is impracticable, unnecessary and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this document later than the time of its publication in the FEDERAL REGISTER (5 U.S.C. 1001–1011) for the reasons that: (1) upon the increase in the salable percentage and corresponding decrease in the surplus precentage, recomputation of the surplus obligation of each handler for the entire 1959–60 crop year to the effective date of such action is required by the provisions of the amended marketing agreement and order; (2) handlers who are acting as agents of the Control Board are permitted, in the event of such action, to select the requisite quantity of surplus almonds to be restored to their respective salable percentages; (3) such restoration shall, under the amended marketing agreement and order, be deemed to fulfill the obligation of the Board with respect to such increase; (4) it is necessary to make effective promptly the increase in salable percentage and the concomitant mandatory restorations of surplus almonds to handlers in order to make additional supplies of almonds available to meet the increased trade demand as soon as possible, to facilitate the achievement of the desirable handler carryover June 30, 1960, and to permit the Board to fulfill its obligation with respect to such increase; (5) this action reduces the quantity of almonds that would otherwise have to be disposed of pursuant to §§ 909.65 through 909.68; (6) the revised estimates of the Control Board were promptly submitted to the Department after an open meeting of the Board on May 13, 1960, with respect to which handlers and other interested persons were given advance notice and opportunity to express their views; and (7) this action relieves certain restrictions on the handling, use and disposition of almonds.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated, May 31, 1960, to become effective upon publication in the FEDERAL REGISTER.

S. R. SMITH
Director,
Fruit and Vegetable Division.

[Valencia Orange Reg. 200]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 922.500 Valencia Orange Regulation 200.

(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 22, as amended (7 CFR Part 922), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said marketing agreement and order, as amended, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 1001–1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on June 2, 1960.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a.m., P.s.t., Jupe 5, 1960, and ending at 12:01 a.m., P.s.t., June 12, 1960, are hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 450,000 cartons;

(iii) District 3: Unlimited movement.

(2) All Valencia oranges handled during the period specified in this section are subject also to all applicable size restrictions which are in effect pursuant to this part during such period.

(3) As used in this section, "handled," "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said marketing agreement and order, as amended.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: June 3, 1960.

S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 60-5172; Filed, June 3, 1960; 11:20 a.m.]

[Lemon Reg. 849]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 953.956 Lemon Regulation 849.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 23 F.R. 9053), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U.S.C. 1001 et seq.) because the time intervening between the date when information upon which this section is based become available and the time when this section must become effective

in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on June 1, 1960.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period beginning at 12:01 a.m., P.s.t., June 5, 1960, and ending at 12:01 a.m., P.s.t., June 12, 1960, are hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 325,500 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: June 2, 1960.

FLOYD F. HEDLUND,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 14—AERONAUTICS AND SPACE

Chapter II—Civil Aeronautics Board

SUBCHAPTER B—PROCEDURAL REGULATIONS

[Reg. No. PR-40]

PART 301—RULES OF PRACTICE IN AIR SAFETY PROCEEDINGS

Specification of Basis for Appeals and Supporting Briefs Required

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 1st day of June 1960.

The Board has observed that presently effective §§ 301.46 and 301.47, of the rules of practice in Air Safety Proceedings, do not adequately express its intention that a party wishing to challenge an Initial Decision must specify his objections thereto and embody them in a brief including itemized record and other support for the various points of fact and law relied upon.[1]

Upon issuance of an Initial Decision, there has been a full-fledged evidentiary hearing upon all contested issues before the Examiner which satisfies the applicable requirements of the Administrative Procedure Act governing formal adjudications. Consequently, any further proceedings before the Board are of a limited, appellate character so that the appellant should frame his objections specifically in order to delineate the scope of the issues raised on appeal. Unless this course is followed, the filing of a non-specific and unsupported Notice of Appeal would be sufficient to perfect the appeal and compel the Board to review the entire record without the benefit of argument from the parties. By the same token, the appellee would be subjected to a clearly onerous burden in defending the Examiner's decision without knowing the objections made or the basis therefor.

The Board's intention to require more than a bare Notice of Appeal is made manifest in the language used in § 301.46 which is captioned "Consideration of issues on appeal" and states that the Board will consider "whether any finding appealed from is supported by substantial, reliable and probative evidence." The choice of this language clearly manifests the Board's desire to limit its consideration of the issues in air safety appeals to those matters specifically raised by the parties, in their appellate briefs.[2]

Since, however, the presently effective provisions of Part 301 do not adequately embody that intention, the Board has decided to adopt a clarifying amendment which will expressly require any person seeking to appeal from an Initial Decision to perfect his appeal, within 20 days after the rendition of such decision, by filing an appeal brief stating his objections to the decision, the reasons therefor and the relief requested. Any error not so specified in the brief will be deemed waived and failure to file a brief will subject the appeal to dismissal. The Board will also expressly require that each brief on appeal and reply brief shall contain itemized record support for positions based upon the evidence of record and will provide that it need not consider any objections which are not so supported. Finally, the amended rule requires that eight, rather than five, copies of every brief shall be filed in order to provide necessary individual copies for each of the five Board members, in addition to Docket and work copies.

In order to accomplish these objectives, the instant amendment substitutes a new § 301.46 for present § 301.47. The Board has also made certain minor editorial changes in present § 301.46 captioned "Consideration of issues on appeal" and renumbered that section as § 301.47.

Since this amendment is not a substantive rule but one of agency procedure, notice and public procedure hereon are unnecessary and the amendment may be made effective upon less than 30 days' notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 301 of the Procedural Regulations (14 CFR Part 301) as follows, effective June 4, 1960:

1. Revise § 301.46 to read as follows:

§ 301.46 Briefs and oral argument.

(a) *Appeal briefs.* Each appeal must be perfected within 20 days after a party is advised of an oral initial decision or served with a written initial decision, by the filing with the Board of appellant's brief on appeal. Appeals may be dismissed by the Board, on its own initiative or on motion of the adverse party, when a party who has filed a Notice of Appeal fails to perfect his appeal by filing a timely brief.

(b) *Waiver of objections.* Each appellant's brief shall set forth in detail the objections to the initial decision, whether such objections be related to alleged errors in the Examiner's findings of fact and conclusions of law, his failure to make desired findings or conclusions, or the proposed order. Each such brief shall further state the reasons for such objections and the relief requested. Any error contained in the initial decision that is not objected to shall be deemed to have been waived. Where any objection is based upon evidence of record, such objection need not be considered by the Board if specific record citations to the pertinent evidence are not contained in appellant's brief.

(c) *Appellee's reply brief.* Within 15 days after appellant's appeal brief has been served upon him the appellee may file a brief in reply thereto. No further briefs may be filed except upon specific leave of the Board granted upon a showing of good cause. Where the reply brief relies upon evidence of record, specific citations thereto shall be made in the brief.

(d) *Number of copies.* Eight copies of briefs shall be filed with the Board.

(e) *Oral argument.* Oral argument before the Board will normally not be held in proceedings conducted under this part. However, the Board may permit oral argument when it is specifically requested and a need therefor is shown.

2. Revise § 301.47 to read as follows:

§ 301.47 Consideration of issues on appeal.

In considering issues raised on appeal by the parties which relate to findings of fact or the order of the Examiner, the Board will consider only (a) whether a finding is supported by substantial, reliable or probative evidence; or (b) whether the order is required by safety in air commerce or air transportation and the public interest. If the Board determines that the Examiner erred in any respect or that his order specifying the appropriate sanction or denial thereof should be changed, the Board may make any necessary findings or order in lieu thereof or remand the case for further hearing. The Board, upon its own motion, may raise any issue the resolution of which it deems important to a proper disposition of the proceeding; in such a case a reasonable opportunity shall be afforded to the parties to submit argument thereon.

(Secs. 204(a), 609, 1001, 1004, 1005, 1104; 72 Stat. 743, 779, 788, 792-4, 797; 49 U.S.C. 1324, 1481, 1484, 1485 and 1504)

By the Civil Aeronautics Board.

[SEAL] MABEL MCCART,
Acting Secretary.

[F.R. Doc. 60-5093; Filed, June 3, 1960; 8:50 a.m.]

[1] Administrator v. Luther J. Smith, Order S-1037, dated April 22, 1960.

[2] But, the Board reserves the right to raise additional issues on its own motion in § 301.47.

Chapter III—Federal Aviation Agency

SUBCHAPTER C—AIRCRAFT REGULATIONS

[Reg. Docket No. 395; Amdt. 169]

PART 507—AIRWORTHINESS DIRECTIVES

Lockheed 188 Aircraft

Investigation of an incident of severe vibration experienced in flight revealed that excessive free play existed in the elevator counter weight system at the center line of the airplane. If this condition is not corrected it could result in a serious oscillation of the elevator control system with possible destruction of the aircraft.

In view of the foregoing, the Administrator found that a situation existed requiring immediate action in the interest of safety, that notice and public procedure thereon were impracticable and contrary to the public interest, and that good cause existed for taking corrective action. Accordingly, an airworthiness directive was adopted on May 13, 1960, and made effective immediately as to all known operators of Lockheed Model 188 aircraft by individual telegrams dated May 13, 1960. It is hereby published as an amendment to § 507.10(a) (14 CFR Part 507) and shall become effective upon the date of its publication in the FEDERAL REGISTER as to all other persons:

LOCKHEED. Applies to all 188 Series aircraft. Compliance required as indicated.

Due to instance of severe vibration occurring, the following precautionary measures are required. Within the next ten hours' time in service inspect the elevator counter weight installation. Lockheed Drawing No. 329012, at airplane center line for evidence of free play as follows: with elevator blocked at extreme down position apply up and down force to balance weight Lockheed P/N 327020-1, and measure total movement of balance weight due to cumulative free play in joints of balance arm linkage. If movement of balance weight due to cumulative free play in system exceeds one-eighth inch inspect each joint in balance arm linkage and reduce the free play by bolt and/or part replacement at one or more of these joints so as to reduce the total free play movement of the balance weight to one-sixteenth inch or less. The airplane shall not be returned to passenger service until the excess free play in the balance arm system is eliminated.

After inspection aircraft may be ferried without passengers to a maintenance base to accomplish any necessary rework.

This amendment shall become effective upon publication in the FEDERAL REGISTER as to all persons not receiving individual notice by telegram dated May 13, 1960.

(Secs. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on May 31, 1960.

E. R. QUESADA,
Administrator.

[F.R. Doc. 60-5061; Filed, June 3, 1960; 8:45 a.m.]

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 59-KC-95]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Revocation of Segment of Federal Airway and Associated Control Areas

On March 25, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 2544) stating that the Federal Aviation Agency proposed to revoke the segment of VOR Federal airway No. 174 and its associated control areas between Troy, Ill., and Louisville, Ky.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, §§ 600.6174 (24 F.R. 10520, 10142, 25 F.R. 2574) and 601.6174 (24 F.R. 10602, 25 F.R. 2574) are amended to read:

§ 600.6174 VOR Federal airway No. 174 (Louisville, Ky., to Washington, D.C.).

From the Louisville, Ky., VORTAC via the Falmouth, Ky., VOR; York, Ky., VOR; Henderson, W. Va., VORTAC; Elkins, W. Va., VORTAC; Linden, Va., VOR; INT of the Linden VOR 095° True and the Washington, D.C. VOR 245° True radials; to the Washington VOR.

§ 601.6174 VOR Federal airway No. 174 control areas (Louisville, Ky., to Washington, D.C.).

All of VOR Federal airway No. 174.

These amendments shall become effective 0001 e.s.t. July 28, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 27, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5062; Filed, June 3, 1960; 8:45 a.m.]

[Airspace Docket No. 60-NY-20]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Revocation of Segment of Federal Airway, Associated Control Areas and Designated Reporting Points; Modification of Control Area Extension

On March 12, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 2108) stating that the Federal Aviation Agency proposed the following actions: revocation of the segment of Amber Federal airway No. 6 and its associated control areas between Nashville, Tenn., and Cincinnati, Ohio; revocation of the Bowling Green, Ky., radio range station and the Lexington, Ky., non-directional radio beacon as designated reporting points; and redesignation of the Lexington control area extension by substituting VOR Federal airway No. 4 south alternate for Amber 6 in its description. In the third paragraph of the Notice, the south alternate of Victor 4 was incorrectly referred to as the east alternate. This was a typographical error and is corrected herein.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, §§ 600.106 (24 F.R. 10495, 25 F.R. 583), 601.106 (24 F.R. 10544, 25 F.R. 583), 601.4106 (24 F.R. 10593, 25 F.R. 583) and 601.1067 (24 F.R. 10550) are amended to read:

§ 600.106 Amber Federal airway No. 6 (Cincinnati, Ohio, to Columbus, Ohio, and Parkman, Ohio, to United States-Canadian Border).

From the Cincinnati, Ohio, RR to the INT of the NE course of the Cincinnati RR and the W course of the Columbus, Ohio, RR. From the INT of the E course of the Cleveland, Ohio, RR and a line bearing 204° True from the Perry,

Ohio, RBN via the Perry RBN to the Clear Creek, Ont., Canada, RBN.

§ 601.106 Amber Federal airway No. 6 control areas (Cincinnati, Ohio, to Columbus, Ohio, and Parkman, Ohio, to United States-Canadian Border).

All of Amber Federal airway No. 6.

§ 601.4106 Amber Federal airway No. 6 (Cincinnati, Ohio, to Columbus, Ohio, and Parkman, Ohio, to United States-Canadian Border).

No reporting point designation.

§ 601.1067 Control area extension (Lexington, Ky.).

The airspace within a 40-mile radius of the Lexington VOR extending clockwise from VOR Federal airway No. 4, east of Lexington to VOR Federal airway No. 4 south alternate, west of Lexington; and within a 25-mile radius of the Lexington VOR extending clockwise from VOR Federal airway No. 4 south alternate, west of Lexington to VOR Federal airway No. 4, east of Lexington.

These amendments shall become effective 0001 e.s.t. July 28, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C. on May 27, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5063; Filed, June 3, 1960; 8:45 a.m.]

[Airspace Docket No. 60-NY-27]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Revocation of Federal Airways, Associated Control Areas and Reporting Points

On March 25, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 2545) stating that the Federal Aviation Agency proposed to revoke Red Federal airway No. 26 in its entirety, its associated control areas and reporting points. Additionally, the segment of Amber Federal airway No. 9 between Corapeake, N.C., and Norfolk, Va., would also be revoked.

Although not mentioned in the notice, this action revokes Amber 9 in its entirety.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, Parts 600 (24 F.R. 10487) and 601 (24 F.R. 10530) are amended as follows:

1. Section 600.109 *Amber Federal airway No. 9 (Corapeake, N.C., to Norfolk, Va.).* is revoked.

2. Section 600.226 *Red Federal airway No. 26 (Petersburg, Va., to Corapeake, N.C.).* is revoked.

3. Section 601.109 *Amber Federal airway No. 9 control areas (Corapeake, N.C., to Norfolk, Va.).* is revoked.

4. Section 601.4109 *Amber Federal airway No. 9 (Corapeake, N.C., to Norfolk, Va.).* is revoked.

5. Section 601.226 *Red Federal airway No. 26 control areas (Petersburg, Va., to Corapeake, N.C.).* is revoked.

6. Section 601.4226 *Red Federal airway No. 26 (Petersburg, Va., to Corapeake, N.C.).* is revoked.

These amendments shall become effective 0001 e.s.t. July 28, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 27, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5064; Filed, June 3, 1960; 8:45 a.m.]

[Airspace Docket No. 60-WA-27]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Federal Airway and Associated Control Areas

On April 2, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 2807) stating that the Federal Aviation Agency proposed to modify VOR Federal airway No. 45 west between Greensboro, N.C., and Raleigh, N.C.

No adverse comments were received regarding the proposed amendments.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, the following actions are taken:

§ 600.6045 [Amendment]

1. In the text of § 600.6045 (24 F.R. 10511, 25 F.R. 859, 2078) "and also a west alternate via the INT of the Raleigh VOR direct radial to the Charlotte, N.C., VOR with the Greensboro VOR 122° radial;" is deleted and "and also a W alternate via the Liberty, N.C., VOR and the INT of the Liberty VOR 114° True and the Raleigh VOR 240° True radials;" is substituted therefor.

2. Section 601.6045 (24 F.R. 10509, 25 F.R. 859) is amended to read:

§ 601.6045 VOR Federal airway No. 45 control areas (New Bern, N.C., to Charleston, W. Va., Lexington, Ky., to Waterville, Ohio, and Tipton, Mich., to Saginaw, Mich.).

All of VOR Federal airway No. 45 including an E and a W alternate.

These amendments shall become effective 0001 e.s.t. July 28, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 27, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5065; Filed, June 3, 1960; 8:45 a.m.]

[Airspace Docket No. 59-WA-412]

PART 602—ESTABLISHMENT OF CODED JET ROUTES AND NAVIGATIONAL AIDS IN THE CONTINENTAL CONTROL AREA

Modification of Coded Jet Route

On January 12, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 222) stating that the Federal Aviation Agency proposed to modify the segment of VOR/VORTAC jet route No. 77 between Wilmington, N.C., and Gordonsville, Va., via the Wilmington VOR 012° True and the Gordonsville VOR 164° True radials in order to permit simultaneous use of the Seymour-Johnson Restricted Area/Military Climb Corridor and J-77-V. Subsequent to the publication of the notice, it was determined that a direct route between Wilmington and Gordonsville would permit simultaneous use of the jet route and the climb corridor. However, this would require a reduction to the normal width of the jet route in the vicinity of Seymour-Johnson AFB. Accordingly, a modification of the proposal was published on April 28, 1960, in the FEDERAL REGISTER (25 F.R. 3723) amending the original notice by realigning J-77-V from Wilmington direct to Gordonsville.

No adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

The substance of the proposed amendment having been published, therefore, pursuant to the authority delegated to me by the Administrator (24 F.R. 4530) and for the reasons stated in the notice, the following action is taken:

In the text of § 602.577 (14 CFR, 1958 Supp., 602.577), "From the Wilmington, N.C., VOR via the INT of the Wilmington VOR 354° and the Gordonsville VOR 170° radials; Gordonsville, Va., VOR;" is deleted and "From the Wilmington, N.C., VORTAC via the Gordonsville, Va., VOR;" is substituted therefor.

This amendment shall become effective 0001 e.s.t. July 28, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 27, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

Title 32A—NATIONAL DEFENSE, APPENDIX

Chapter X—Oil Import Administration, Department of the Interior

[Reg. 1, Revision 2]

OIL IMPORT REGULATION

Revision

There was published in the FEDERAL REGISTER of April 16, 1960 (25 F.R. 3323) a notice and text of proposed amendments of Oil Import Regulation 1 (Revision 1) prescribing regulations governing the allocations of imports into Districts I–IV of residual fuel oil to be used as fuel on a quarterly basis. Interested persons were requested to present written comments, objections or suggestions with respect to the proposed amendments on or before April 29, 1960.

Most of the comments received were in favor of the proposed changes. Some objections also were received. While these objections were carefully considered it still appears desirable to adopt the proposed changes to facilitate consideration of marketing and importing patterns in connection with the determination of residual fuel oil levels. Accordingly, sections 3, 5, 9, 13, and 21 have been revised as proposed.

As a result of several comments from holders of small allocations of residual fuel oil, a new section 6 "Delayed allocations of residual fuel oil" has been added, the section on "Licenses" renumbered as section 7, and the section on "Small quantities" renumbered as section 8. The intent of the new section is to afford some measure of relief to persons with small allocations of imports of residual fuel oil who will experience difficulty in importing during a particular quarter.

A notice of proposed amendments to sections 10 and 11 was published in the FEDERAL REGISTER on May 10, 1960 (25 F.R. 4137). As has already been announced (25 F.R. 4588) it has been determined not to adopt those portions of the proposed amendments relating to reductions in crude and unfinished oil import quotas of refiners whose allocations are based on historic factors and who imported oil overland from the country of origin.

Comments were also received suggesting major changes in the method of allocation—for example, the graduated scale and the "historical percentages"—as well as comments on the specific changes proposed. After consideration of all comments, it has been determined that no fundamental changes in the method of allocation will be made at this time. Upon final determination of the amount of crude oil available for allocation in Districts I–IV it was found to be necessary to reduce somewhat the "Percents of input" in section 10..

Sections 15 and 16, pertaining to allocations in Puerto Rico, have been amended to make reference to the ensuing allocation period.

Since a number of amendments have been made to the regulation, it is desirable to revise and publish the regulation in full. Accordingly, Oil Import Regulation 1 (Revision 1) as amended, is revised in its entirety to read as set forth below and as so revised is designated as Oil Import Regulation 1 (Revision 2). Because allocations of imports must be made, applications for licenses received, and licenses issued before the beginning of the ensuing allocation periods, Oil Import Regulation 1 (Revision 2) shall become effective immediately.

AUTHORITY: Sections 1 to 22 issued under Proc. 3279, as amended 24 F.R. 1781, 3527, 10133; sec. 2, 68 Stat. 360, as amended, 72 Stat. 676; 19 U.S.C. 1352a.

Section 1. Purpose.

These regulations implement Presidential Proclamation 3279, "Adjusting Imports of Petroleum and Petroleum Products into the United States," dated March 10, 1959 (24 F.R. 1781), as amended, by providing for the discharge of the responsibilities imposed upon the Secretary of the Interior.

Sec. 2. Oil Import Administration.

There is established in the Department of the Interior an Oil Import Administration under the direction of an Administrator designated by the Secretary of the Interior. The Administrator is hereby empowered to exercise, pursuant to this regulation, all of the authority conferred upon the Secretary by Proclamation 3279, as amended, and the Administrator may redelegate such authority.

Sec. 3. Allocation periods.

Allocations of imports of crude oil, unfinished oils and finished products will be made for periods of six months—that is, July 1 through December 31; January 1 through June 30; except that the allocations of imports into Districts I–IV of residual fuel oil to be used as fuel will be made on a quarterly basis commencing July 1, 1960.

Sec. 4. Eligibility for allocations.

(a) To be eligible for an allocation of imports of crude and unfinished oils in Districts I–IV or in District V, a person must (1) have refinery capacity in the respective districts and (2) in respect of an allocation for the allocation period March 11, 1959, through June 30, 1959, have had refinery inputs in the respective districts for the calendar year 1958 and (3) in respect of the allocation period July 1, 1959, through December 31, 1959, and each successive allocation period thereafter have had refinery inputs in the respective districts for the year ending three months prior to the beginning of the allocation period for which the allocation is requested.

(b) To be eligible for an allocation of imports of crude oil and unfinished oils for Puerto Rico, a person must have refinery capacity in Puerto Rico and must have had refinery inputs in Puerto Rico during the months of July, August, and September of the year 1958.

(c) (1) To be eligible for an allocation of imports of finished products, other than residual fuel oil to be used as fuel, in Districts I–IV or District V, a person must have imported such products into the respective districts during the calendar year 1957.

(2) To be eligible for an allocation of imports of residual fuel oil to be used as fuel in Districts I–IV or District V, a person must have imported residual fuel oil used as fuel into the respective districts during the calendar year 1957.

(3) To be eligible for an allocation of imports of finished products, other than residual fuel oil used as fuel, in Puerto Rico, a person must have imported such products into Puerto Rico during the last half of the calendar year 1958.

(4) To be eligible for an allocation of imports of residual fuel oil to be used as fuel in Puerto Rico, a person must have imported residual fuel oil used as fuel into Puerto Rico during the last half of the calendar year 1958.

(d) A person is not eligible individually for an allocation of crude oil and unfinished oils or finished products if the person is a subsidiary or affiliate owned or controlled, by reason of stock ownership or otherwise, by any other individual, corporation, firm or other business organization or legal entity. The controlling person and the subsidiary or affiliate owned or controlled will be regarded as one. Allocations will be made to the controlling person on behalf of itself and its subsidiary or affiliate but, upon request, licenses will be issued to the subsidiary or affiliate.

Sec. 5. Applications for allocations.

(a) With respect to the allocation period January 1, 1960 through June 30, 1960 and each successive allocation period thereafter, an application for allocations of imports of crude oil and unfinished oils must be filed with the Administrator, in such form as he may prescribe, not later than 60 calendar days prior to the beginning of the allocation period for which the allocation is required. However, if the 60th day is a Saturday, Sunday, or holiday, the application may be filed on the next succeeding business day.

(b) For the respective allocation periods beginning July 1, 1960, an application for an allocation of imports of residual fuel oil to be used as fuel or for an allocation of imports of other finished products must be filed with the Administrator on or before May 2, 1960, on the form that has already been made available. An application so filed by an eligible applicant will be considered to be a continuing application. Such eligible applicant need not thereafter file an application for an allocation of imports of residual fuel oil to be used as fuel or for an allocation of imports of other finished products and an application for a license for each allocation period will be mailed to him by the Oil Import Administration. The failure of an eligible applicant to return an application for a license will be regarded as an abandonment by the applicant of his continuing application for an allocation and no applications for licenses will thereafter be sent to him unless he files a new application for an allocation as provided in paragraph (c) of this section.

(c) An applicant who has no continuing application on file must, in order to receive an allocation of imports of residual fuel oil to be used as fuel or an allocation of imports of other finished products, file an application for an allocation with the Administrator not later than 60 calendar days prior to the beginning of the allocation period for which the allocation is required. However, if the 60th day is a Saturday, Sunday, or holiday, the application may be filed on the next succeeding business day. An application so filed by an eligible applicant will be regarded as a continuing application and subject to the provisions of paragraph (b) of this section.

Sec. 6. Delayed allocations of residual fuel oil.

A person with a quarterly allocation of imports of 100,000 barrels or less of residual fuel oil to be used as fuel may, upon notifying the Administrator at least 60 days in advance of a particular allocation period, decline his allocation for that period and reacquire it in the succeeding period. In order to preserve the levels and at the same time to satisfy demand, the quantity of imports which would have been allocated to those applicants electing to avail themselves of the provisions of this section will be allocated to all other eligible applicants for the period. In the succeeding period the quantity allocated to all other eligible applicants will be correspondingly reduced to reimburse the applicants whose allocations were delayed pursuant to this section. This section has no application with respect to allocations for the allocation period beginning July 1, 1960.

Sec. 7. Licenses.

(a) When an allocation has been made to a person under this regulation, the Administrator shall, upon application in such form as he may prescribe, issue a license or licenses based on the allocation, specifying the amount of crude oil and unfinished oils or finished products which may be imported, the period of time such license shall be in effect, and the districts (Districts I-IV, District V, or Puerto Rico) into which the importation may be made. The Administrator may amend such licenses.

(b) No license issued pursuant to this section may be sold, assigned, or otherwise transferred.

Sec. 8. Small quantities.

(a) Collectors of Customs are authorized to permit without a license baggage entries, and entries for consumption of small quantities of crude oil, unfinished oils, or finished products which are certified as samples for testing or analysis and which do not exceed 110 gallons per entry.

(b) Persons desiring to import small quantities not covered by paragraph (a) of this section should file with the Administrator a request for an authorization for entry without a license for each shipment describing the oil and quantity to be imported and listing the port of entry.

Sec. 9. Determination of quantities available for allocation; Districts I–IV, District V.

(a) Prior to the beginning of each allocation period the Administrator shall determine in accordance with the limitations imposed by section 2 of Proclamation 3279, as amended, the quantities of imports of crude oil and unfinished oils which are available for allocation in Districts I–IV and in District V, respectively, and the quantities of imports of residual fuel oil to be used as fuel and of imports of finished products other than residual fuel oil to be used as fuel which are available for allocation in such districts.

(b) Pursuant to paragraph (e) of section 2 of Proclamation 3279 as amended, the Secretary will make a determination as to the level of imports into Districts I–IV of residual fuel oil to be used as fuel in sufficient time to permit the making of allocations at least 45 calendar days in advance of each quarterly period, except that for the period beginning July 1, 1960, the determination will be made in sufficient time to permit the making of allocations by June 1, 1960.

(c) After each such determination, the Administrator shall as provided by these regulations make allocations to eligible applicants for the appropriate allocation period.

Sec. 10. Allocations of crude oil and unfinished oils; Districts I–IV.

(a) The quantity of imports of crude oil and unfinished oils determined to be available for allocation in Districts I–IV for the allocation period July 1, 1960 through December 31, 1960, shall be allocated by the Administrator among eligible applicants as provided in paragraphs (b) and (c) of this section.

(b) Except as provided in paragraph (c) of this section, each eligible applicant shall receive an allocation based on refinery inputs for the year ending March 31, 1960, and computed according to the following schedule:

Average B/D input:	Percent of input
0–10,000	11.6
10–20,000	10.6
20–30,000	9.6
30–60,000	8.6
60–100,000	7.6
100–150,000	6.6
150–200,000	5.6
200–300,000	4.6
300,000 plus	3.6

(c) If an eligible applicant has been importing crude oil pursuant to an allocation under the Voluntary Oil Import Program and if an allocation computed under paragraph (b) of this section would be less than 75.7 percent of the applicant's last allocation of imports of crude oil under the Voluntary Oil Import Program, the applicant shall nevertheless receive an allocation under this section equal to 75.7 percent of his last allocation of imports of crude oil under the Voluntary Oil Import Program.

(d) No allocation made pursuant to this section shall entitle a person to a license which will allow the importation of unfinished oils in excess of 10 percent of the allocation.

(e) No allocation made pursuant to this section may be sold, assigned, or otherwise transferred.

Sec. 11. Allocations of crude oil and unfinished oils, District V.

(a) The quantity of imports of crude oils determined to be available for allocation in District V for the allocation period July 1, 1960 through December 31, 1960 shall be allocated by the Administrator among eligible applicants as provided in paragraphs (b) and (c) of this section.

(b) Except as provided in paragraph (c) of this section, each eligible applicant shall receive an allocation based on refinery inputs for the year ending March 31, 1960 and computed according to the following schedule:

Average B/D input:	Percent of input
0–10,000	40.0
10–20,000	26.6
20–30,000	22.9
30–60,000	17.9
60–100,000	14.4
100–150,000	13.1
150–200,000	11.9
200,000 plus	9.8

(c) If an eligible applicant has been importing crude oil pursuant to an allocation under the Voluntary Oil Import Program and if an allocation computed under paragraph (b) of this section would be less than 80 percent of the applicant's last allocation of imports of crude oil under the Voluntary Oil Import Program, the applicant shall nevertheless receive an allocation under this section equal to 80 percent of his last allocation of imports of crude oil under the Voluntary Oil Import Program.

(d) Allocations made pursuant to this section shall not permit the importation of unfinished oils in excess of 10 percent of the permissible imports of crude oil. With respect to any allocation made pursuant to this section, the Administrator upon request shall issue a license permitting the importation of unfinished oils in an amount not in excess of 10 percent of the allocation. If the total quantity of unfinished oils applied for is less than 10 percent of the permissible imports of crude oils, the Administrator may to that extent increase the percentage amount of unfinished oils specified in licenses of persons who request such increases. Each person making such a request shall receive an increase in the proportion that his allocation bears to the total of allocations made to all persons requesting increases. Each barrel of unfinished oil imported shall be deemed to be the equivalent of one barrel of crude oil and will be so charged against the person's license by the respective Collectors of Customs. The permissible percentage of imports of unfinished oils and the equivalence of unfinished oils to crude oil may be changed during the allocation period, if necessary to prevent impairing accomplishment of the purposes of the program. Such a change will be made only after notice of proposed rule making and will not become effective until the 30th calendar day following publication in the FEDERAL REGISTER of the amendment making such change.

(e) No allocation made pursuant to this section may be sold, assigned, or otherwise transferred.

Sec. 12. [Reserved]

Sec. 13. Allocations of finished products; Districts I–IV, District V.

(a) The quantity of imports of finished products determined to be available for allocation in Districts I–IV and in District V for any particular allocation period shall be allocated by the Administrator to each eligible applicant in the proportion that the applicant's imports of finished products during the calendar year 1957 bore to the imports of such products during that year by all eligible applicants. Separate allocations shall be made for imports of residual fuel oil to be used as fuel and for imports of finished products other than residual fuel oil to be used as fuel. The allocations of imports into Districts I–IV of residual fuel oil to be used as fuel shall be issued at least 45 calendar days in advance of the allocation period, except that for the allocation period beginning July 1, 1960, such allocations shall be made not later than June 1, 1960.

(b) No allocation made pursuant to this section may be sold, assigned, or otherwise transferred.

Sec. 14. Determination of maximum level of imports; Puerto Rico.

(a) Pursuant to section 2 of Proclamation 3279, it is determined (1) that the average barrels per day of imports of crude oil and unfinished oils into Puerto Rico during any particular allocation period shall not exceed the average barrels per day, as determined by the Administrator, during the months of July, August, and September of the year 1958 of imports of such commodities into Puerto Rico, and (2) that the average barrels per day, as determined by the Administrator, of imports of residual fuel oil to be used as fuel and of imports of finished products other than residual fuel oil to be used as fuel into Puerto Rico during any particular allocation period shall not exceed the average barrels per day of imports of such products, respectively, into Puerto Rico during the last half of the calendar year 1958.

(b) The Administrator shall from time to time review the determinations set forth in paragraph (a) of this section and shall recommend to the Secretary of the Interior that the level of imports be increased or decreased as may be required to meet increases or decreases in local demand in Puerto Rico or in demand for export to foreign areas.

Sec. 15. Allocation of crude oil and unfinished oils; Puerto Rico.

(a) For the allocation period July 1, 1960 through December 31, 1960, the Administrator shall allocate to each eligible applicant for an allocation for Puerto Rico quantities of imports of crude oil and unfinished oils equal to the applicant's average barrels daily of refinery input (adjusted by the Administrator for downtime) in Puerto Rico during the months of July, August, and September of the year 1958.

(b) In the event that the maximum levels of imports of crude oil and unfinished oils are increased or decreased pursuant to paragraph (b) of section 14, the Administrator shall increase or decrease individual allocations in the proportion that each allocation bears to the total allocations of crude oil and unfinished oils.

(c) No allocation made pursuant to this section may be sold, assigned, or otherwise transferred.

Sec. 16. Allocations of finished products, Puerto Rico.

(a) For the allocation period July 1, 1960, through December 31, 1960, the Administrator shall allocate to each eligible applicant for an allocation for Puerto Rico a quantity of imports of finished products equal to the applicant's average barrels daily of imports of such products during the last 6 months of the calendar year 1958. Separate allocations shall be made for imports of residual fuel oil to be used as fuel and of imports of finished products other than residual fuel oil to be used as fuel.

(b) In the event that the maximum level of imports of residual fuel oil to be used as fuel or of finished products other than residual fuel oil to be used as fuel is increased or decreased pursuant to paragraph (b) of section 14, the Administrator shall increase or decrease individual allocations in the proportion that each allocation bears to the total allocations of residual fuel oil to be used as fuel or of finished products other than residual fuel oil to be used as fuel, respectively.

(c) No allocation made pursuant to this section may be sold, assigned, or otherwise transferred.

Sec. 17. Use of imported crude oil and unfinished oils.

(a) Each person who imports crude oil or unfinished oils under a license issued pursuant to an allocation made under sections 10, 11, or 15 of this regulation must process the oils so imported in his own refinery, except that foreign crude oil may be exchanged for either domestic crude oil or domestic unfinished oils and foreign unfinished oils may be exchanged for either domestic unfinished oils or domestic crude oil for processing in such refinery if:

(1) The exchange is not otherwise unlawful;

(2) The exchange is effected on a current basis—that is, not more than ninety days elapse between the delivery of foreign and domestic oil under the exchange agreement; and

(3) The proposed exchange agreement is reported to the Administrator before it is acted upon.

(b) All exchanges must be on an oil-for-oil basis and any exchange involving adjustments, settlements, or accounting on a monetary basis is not permissible and will not be approved by the Administrator.

Sec. 18. Reports.

(a) Each person who imports crude oil, unfinished oils, or finished products under a license issued under this regulation shall report to the Administrator the quantities in barrels corrected to 60° F. of crude oil, unfinished oils, and finished products so imported. Each report shall state through which port of entry the importation was made and shall specify the kinds of unfinished oils and finished products imported. Each report should be filed with the Administrator within fifteen days of the end of a particular month.

(b) Each person who exchanges oil pursuant to section 17 of this regulation shall report the exchange to the Administrator on such forms as he shall prescribe. In addition, any changes occurring during an allocation period in the types of oils or the exchange ratio shall be reported.

Sec. 19. False statements.

Persons concealing material facts or making false statements in or in connection with any applications or reports filed with the Administrator or in connection with any license presented to or statements made to a Collector of Customs with respect to imports of crude oil, unfinished oils, or finished products, are guilty of a crime and upon conviction may be punished by fine or imprisonment or both.

Sec. 20. Revocation or suspension of allocations or licenses.

The Administrator may, after a hearing, revoke or suspend any allocation or license issued under this regulation, on grounds relating to the national security, or the violation of the terms of Proclamation 3279, this regulation, or licenses issued pursuant thereto.

Sec. 21. Appeals.

(a) There is hereby established an Oil Import Appeals Board, comprised of a representative each from the Departments of Commerce, Defense, and Interior, of the rank of Deputy Assistant Secretary or higher, designated, respectively, by the Secretaries of such Departments. The Board shall elect a Chairman from its own membership.

(b) The Appeals Board shall consider petitions by persons affected by this regulation and may, within the limits of the maximum levels of imports established in section 2 of Proclamation 3279, as amended:

(1) Modify any allocation made to any person under this regulation on the grounds of exceptional hardship or error;

(2) Grant allocations of crude oil and unfinished oils in special circumstances to persons with importing histories who do not qualify for allocations under this regulation;

(3) Grant allocations of finished products on the grounds of exceptional hardship to persons who do not qualify for allocations under this regulation; and

(4) Review the revocation or suspension of any allocation or license.

(c) The modification or grant of an allocation by the Appeals Board of imports of finished products other than imports into Districts I–IV of residual fuel oil to be used as fuel shall become effective in the allocation period succeeding the period for which the appeal or petition was filed. The modification or grant of an allocation by the Appeals Board of imports into Districts I–IV of residual fuel oil to be used for fuel shall become effective in the second allocation period succeeding the period for which the appeal or petition was filed.

(d) The Appeals Board may take such action on petitions as it deems appropriate; and it may adopt, promulgate, and publish such rules and procedures as it deems appropriate for the conduct of its business. The decisions of the Appeals Board on petitions shall be final.

Sec. 22. Definitions.

As used in this regulation:

(a) "Person" includes an individual, a corporation, firm, or other business organization or legal entity, and an agency of a State, territorial, or local government, but does not include a department, establishment, or agency of the United States;

(b) "Districts I–IV" means the District of Columbia and all of the States of the United States except those States within District V;

(c) "District V" means the States of Arizona, Nevada, California, Oregon, Washington, Alaska, and Hawaii.

(d) "Crude oil" means crude petroleum as it is produced at the wellhead;

(e) "Finished products" means any one or more of the following petroleum oils, or a mixture or combination of such oils, which are to be used without further processing except blending by mechanical means:

(1) Liquefied gases: Hydrocarbon gases recovered from natural gas or produced from petroleum refining and kept under pressure to maintain a liquid state at ambient temperatures;

(2) Gasoline: A refined petroleum distillate which, by its composition, is suitable for use as a carburant in internal combustion engines;

(3) Jet fuel: A refined petroleum distillate used to fuel jet propulsion engines;

(4) Naphtha: A refined petroleum distillate falling within a distillation range overlapping the higher gasoline and the lower kerosenes;

(5) Fuel oil: A liquid or liquefiable petroleum product burned for lighting or for the generation of heat or power and derived directly or indirectly from crude oil, such as kerosene, range oil, distillate fuel oils, gas oil, diesel fuel, topped crude oil, residues;

(6) Lubricating oil: A refined petroleum distillate or specially treated petroleum residue used to lessen friction between surfaces;

(7) Residual fuel oil: A topped crude oil or viscous residuum which, as obtained in refining or after blending with other fuel oil, meets or is the equivalent of Military Specification Mil–F–859 for Navy Special Fuel Oil and any other more viscous fuel oil, such as No. 5 or Bunker C;

(8) Asphalt: A solid or semi-solid cementitious material which gradually liquefies when heated, in which the predominating constituents are bitumins, and which is obtained in refining crude oil.

(f) "Unfinished oils" means one or more of the petroleum oils listed in paragraph (e) of this section, or a mixture or combination of such oils, which are to be further processed other than by blending by mechanical means;

(g) "Administrator" means Administrator, Oil Import Administration, Department of the Interior, or his duly authorized representative;

(h) The words, "importation," "importing," "import," "imports," and "imported," include both entry for consumption and withdrawal from warehouse for consumption;

(i) "Refinery inputs" include all crude oil, imported unfinished oils, natural gasoline mixed in crude oil, and plant and field condensates mixed in crude oil, which are further processed, other than by blending by mechanical means, but do not include:

(1) Unfinished oils which have not been imported, and

(2) Crude oil and unfinished oils imported into the United States by pipeline, rail, or other means of overland transportation from the country where they were produced, which country, in the case of unfinished oils, is also the country of production of the crude oils from which the unfinished oils were processed or manufactured.

(j) "Refinery capacity" means a plant which, by further processing crude oil or unfinished oils, other than by blending by mechanical means, manufactures finished petroleum products.

FRED A. SEATON,
Secretary of the Interior.

Title 42—PUBLIC HEALTH

Chapter I—Public Health Service, Department of Health, Education, and Welfare

PART 71—FOREIGN QUARANTINE

Exemption From Inspection

On April 22, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 3531) stating that the Surgeon General of the Public Health Service, with the approval of the Secretary of Health, Education, and Welfare, was proposing to amend § 71.46 of the Public Health Service Regulations regarding conditions under which vessels and aircraft are exempt from quarantine inspection upon arrival at ports of entry under the control of the United States.

Consideration has been given to all relevant matter presented by interested persons regarding the proposed amendment, and it has been revised in several respects.

Effective date. This amendment relates to exemption of carriers and persons from quarantine inspection under certain conditions on arrival from designated areas; and the public interest requires that it become effective at the earliest feasible date. Accordingly, the amendment shall become effective on June 10, 1960.

Section 71.46 is amended to read as follows:

§ 71.46 General provisions.

(a) A vessel or aircraft arriving at a port under the control of the United States shall undergo quarantine inspection prior to entry unless:

(1) In the current voyage the vessel or aircraft has been only in areas determined by the Surgeon General to present no significant threat of introduction of communicable disease into the United States or its possessions,[1] or

(2) In the current voyage the vessel or aircraft has received pratique at a port under the control of the United States, and since receiving such pratique has been only in areas determined by the Surgeon General to present no significant threat of introduction of communicable disease into the United States or its possessions,[1] or

(3) The vessel or aircraft possesses a duplicate of a pratique issued at a port in Canada or the Canal Zone, provided that since receiving such pratique the vessel or aircraft has been only in areas determined by the Surgeon General to present no significant threat of introduction of communicable disease into the United States or its possessions.[1]

(b) Notwithstanding the provisions of paragraph (a) of this section a vessel or aircraft:

[1] A list of such areas and changes thereto will be published in the FEDERAL REGISTER. A current list may be obtained from the Surgeon General of the Public Health Service, Washington 25, D.C. Attention: Chief, Division of Foreign Quarantine; or from Public Health Service quarantine stations at United States ports.

(1) Shall comply with any conditions and carry out any additional measures specified in the pratique.

(2) Shall undergo quarantine inspection prior to entering a port under the control of the United States if:

(i) It has on board, or during the current voyage has had on board, a person infected or suspected of being infected with anthrax, chickenpox, cholera, dengue, diphtheria, infectious encephalitis, measles, meningococcus meningitis, plague, poliomyelitis, psittacosis, relapsing fever, scarlet fever, smallpox, streptococcic sore throat, typhoid fever, typhus, or yellow fever, or

(ii) On arrival at its first port under the control of the United States it has on board: A psittacine bird (see § 71.152); a dog, cat, or monkey (see § 71.154); or an animal or article subject to § 71.156 or § 71.157 that does not comply with admission requirements therein, or

(iii) On arrival at its first port under the control of the United States it has on board a person who, within 14 days prior to arrival of the vessel or aircraft in the port, has been in an area other than those determined by the Surgeon General to present no significant threat of introduction of communicable disease into the United States or its possessions:[1] *Provided,* That inspection shall not be required where the Chief of the Division of Foreign Quarantine finds that the entry of the vessel or aircraft would not be likely to cause the introduction of communicable disease. Reports as to whether such persons are on board shall be submitted in accordance with instructions of the Chief of the Division of Foreign Quarantine.

(3) May be required, in accordance with instructions of the Chief of the Division of Foreign Quarantine, to undergo quarantine inspection if the Chief of such Division or the medical officer in charge has reason to believe that the entry of the vessel or aircraft would be likely to cause the introduction of communicable disease.

(Sec. 215, 58 Stat. 690, as amended; 42 U.S.C. 216. Interpret or apply secs. 361–369, 58 Stat. 703–706; 42 U.S.C. 264–272)

JOHN D. PORTERFIELD,
Acting Surgeon General.

Approved: May 31, 1960.

ARTHUR S. FLEMMING,
Secretary.

[F.R. Doc. 60–5070; Filed, June 3, 1960; 8:46 a.m.]

[1] A list of such areas and changes thereto will be published in the FEDERAL REGISTER. A current list may be obtained from the Surgeon General of the Public Health Service, Washington 25, D.C. Attention: Chief, Division of Foreign Quarantine; or from Public Health Service quarantine stations at United States ports.

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of the Treasury

SUBCHAPTER C—AIDS TO NAVIGATION

[CGFR 60–42]

PART 74—CHARGES FOR COAST GUARD AIDS TO NAVIGATION WORK

Subpart 74.01—Charges to Public

REPAIR OR REPLACEMENT OF DAMAGED AIDS TO NAVIGATION

The purpose of this amendment to 33 CFR 74.01–1 is to provide in the regulations for charges for the repair or replacement of aids to navigation that are damaged, destroyed, or moved off station by private persons.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Orders 167–3 dated May 6, 1953 (18 F.R. 2962), 167–15 dated January 3, 1955 (20 F.R. 640), 167–17 dated June 29, 1955 (20 F.R. 4976) and 167–23 dated July 27, 1956 (21 F.R. 5852), to promulgate regulations in accordance with the statutes cited with the regulations below, § 74.01–1 is amended by the addition of paragraphs (c) and (d) which are prescribed and shall become effective upon the date of publication of this document in the FEDERAL REGISTER:

§ 74.01–1 Claim for damage or destruction.

* * * * * *

(c) The repair or replacement with an identical or substitute aid as prescribed in this subchapter may be accomplished by the responsible interests, or by contractors employed for that purpose by them, provided the plans for the repair or replacement are satisfactory and the delay incident thereto is acceptable to the Coast Guard.

(d) Whenever a floating aid to navigation is moved off station by a private person without being otherwise damaged, claim for the cost of replacing it on station, including vessel time, shall be made against such person.

(Sec. 92, 63 Stat. 503, as amended; 14 U.S.C. 92. Interpret or apply secs. 86, 633, 642, 63 Stat. 501, 545, 547, sec. 4, 67 Stat. 462; (14 U.S.C. 86, 633, 642, 43 U.S.C. 1333))

Dated: May 27, 1960.

[SEAL] J. A. HIRSHFIELD,
Rear Admiral, U.S. Coast Guard, Acting Commandant.

Title 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

SUBCHAPTER B—CARRIERS BY MOTOR VEHICLE

[Ex Parte No. MC–40]

PART 192—DRIVING OF MOTOR VEHICLES

PART 193—PARTS AND ACCESSORIES NECESSARY FOR SAFE OPERATIONS

Qualifications and Maximum Hours of Service of Employees of Motor Carriers, and Safety of Operation and Equipment

At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 27th day of May A.D. 1960.

It appearing that the entire Commission by order of January 25, 1960, in Ex Parte No. MC–40 Qualifications and Maximum Hours of Service of Employees of Motor Carriers and Safety of Operation and Equipment (25 F.R. 1008, published February 5, 1960) promulgated certain new regulations relating to lighting devices, reflectors, and electrical equipment to be installed and maintained on motor vehicles.

It further appearing that petitions have been filed by:

(1) Truck Trailer Manufacturers Association, Inc., dated March 18, 1960.

(2) Truck Body and Equipment Association, Inc., filed April 13, 1960.

(3) Automobile Manufacturers Association, Inc., dated April 1, 1960.

(4) American Trucking Associations, Inc., dated May 12, 1960.

(5) Volkswagen of America, Inc., dated May 9, 1960.

It further appearing that further investigation and consideration of the petitions necessitates a postponement of the effective date of the order of January 25, 1960; and good cause appearing therefor:

It is ordered, That the effective date of the order of January 25, 1960, be, and it is hereby, postponed from August 1, 1960, to November 15, 1960.

And it is further ordered, That notice of this order shall be given to motor carriers, other persons of interest, and to the general public by depositing a copy thereof in the office of the Secretary of the Interstate Commerce Commission, Washington, D.C., and by filing a copy thereof with the Director, Office of the Federal Register.

By the Commission.

[SEAL] HAROLD D. MCCOY,
Secretary.

Proposed Rule Making

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 1004]

MILK IN CENTRAL ARIZONA MARKETING AREA

Notice of Proposed Termination of Certain Provisions

Notice is hereby given that, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), the termination of certain provisions of the order regulating the handling of milk in the Central Arizona marketing area is being considered.

The provisions proposed to be terminated are §§ 1004.17, 1004.18, 1004.31(b)(1), 1004.72, 1004.90, 1004.91, 1004.92, in § 1004.31(b)(2)(ii) the provision "including for the months of January through June, the pounds of base milk", and in § 1004.71, the provision "July through December", relating to establishment of producer bases and payments to producers for base milk and excess milk in certain months.

The United Dairymen of Arizona has requested that the base excess plan of the order be terminated by July 1, 1960, in order that producers may be aware that their milk deliveries during the months of August through November 1960 will not be used as a basis of computing payments during the months of January through June 1961. Termination of the plan will have no effect on costs of milk to handlers, but will affect distribution of returns among producers with different seasonal patterns of production. Timely action on the request can best be accomplished through termination of the provisions cited. Opportunity is hereby afforded all interested parties to submit written data, views and arguments with respect to the proposed termination.

All persons who desire to submit written data, views, or arguments in connection with the proposed termination should file the same with the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D.C., not later than 10 days from the date of publication of this notice in the FEDERAL REGISTER. All documents filed should be in quadruplicate.

Issued at Washington, D.C., this 1st day of June 1960.

CLARENCE L. MILLER,
Assistant Secretary.

[9 CFR Part 131]

HANDLING OF ANTI-HOG-CHOLERA SERUM AND HOG-CHOLERA VIRUS

Approval of Budget and Fixing of Rate of Assessment for Calendar Year 1960

Consideration is being given to the approval of a budget of expenses of the Control Agency established under the marketing agreement and the marketing order (9 CFR 131.1 et seq.), regulating the handling of anti-hog-cholera serum and hog-cholera virus, and the fixing of the rate of assessment to be paid by handlers, for the calendar year 1960, as follows:

§ 131.160 Budget of expenses and rates of assessment for the calendar year 1960.

(a) *Budget of expenses.* The expenses which will necessarily be incurred by the Control Agency, established pursuant to the provisions of the marketing agreement and of the marketing order, for the maintenance and functioning of said Agency during the calendar year 1960, will amount to $46,815.00 under the recommendation of the Control Agency, from which shall be deducted the unexpended balance of $7,229.66 on hand with said Control Agency on January 1, 1960, from assessments collected during the calendar year 1959, leaving a balance of $39,585.34 to be collected during the calendar year 1960.

(b) *Rates of assessment.* Of the amount of $39,585.34 to be collected during the calendar year 1960, the sum of $30,836.98 shall be assessed against handlers who are manufacturers, and $8,748.36 shall be assessed against handlers who are wholesalers. The pro rata share of the expenses of the Control Agency to be paid for the calendar year 1960 by each handler who is a manufacturer shall be $16.54 for each ten thousand dollars or fraction thereof of serum and virus sold by such handler during the calendar year 1959 and the pro rata share of such expenses to be paid for the calendar year 1960 by each handler who is a wholesaler shall be $25.00 for the first ten thousand dollars or fraction thereof and $8.48 for each additional ten thousand dollars or fraction thereof of serum and virus sold by such handler. Such assessments shall be paid by each respective handler in accordance with the applicable provisions of the marketing agreement and order.

(c) *Terms.* As used herein, the terms "handler", "manufacturer", "wholesaler", "virus", and "serum" shall have the same meaning as is given to each such term in said marketing agreement and marketing order.

Interested parties may obtain copies of the budget mentioned herein from the Executive Secretary of the Control Agency, 512 Veterans of Foreign Wars Building, Kansas City 11, Missouri.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid consideration shall file the same with the Hearing Clerk, Room 112, Building A, United States Department of Agriculture, Washington 25, D.C., not later than the close of business on the fifteenth (15th) day after the publication of this notice in the FEDERAL REGISTER. All documents shall be filed in quadruplicate.

(49 Stat. 781; 7 U.S.C. 851 et seq.)

Issued this 31st day of May 1960.

M. R. CLARKSON,
Acting Administrator, Agricultural Research Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 29]

[Docket No. FDC-68]

FRUIT JELLIES, ARTIFICIALLY SWEETENED FRUIT JELLIES, ARTIFICIALLY SWEETENED FRUIT PRESERVES OR JAMS; DEFINITIONS AND STANDARDS OF IDENTITY

Notice of Hearing

In the matter of adopting definitions and standards of identity for artificially sweetened fruit jellies and for artificially sweetened fruit preserves or jams and of amending the definition and standard of identity for fruit jellies:

In the FEDERAL REGISTER of November 13, 1958 (23 F.R. 8791) there was published an order acting on a proposed amendment to the definition and standard of identity for fruit jellies, offered by the National Preservers Association (23 F.R. 6836), to permit the use of artificial red coloring in cinnamon-flavored apple and/or crabapple jelly.

Subsequently, an order was published in the FEDERAL REGISTER of October 31, 1959 (24 F.R. 8896) establishing identity standards for artificially sweetened fruit jellies and artificially sweetened fruit preserves or jams, as proposed by the National Preservers Association.

Objections were filed to both orders, and in each case a public hearing was requested in accordance with section 701(e)(2) of the Federal Food, Drug, and Cosmetic Act (70 Stat. 919; 21 U.S.C. 371(e)(2)). Notices were published announcing that objections had been filed and that both orders were stayed pending a resolution of the issues at a public hearing (24 F.R. 762, 25 F.R. 720).

The Commissioner of Food and Drugs has concluded that the objections state reasonable grounds for a hearing on the following issues:

A. With respect to the order establishing standards for artificially sweetened fruit jellies and artificially sweetened fruit preserves or jams—

1. Whether the establishment of standards of identity for these foods under the names specified would promote honesty and fair dealing in the interest of consumers.

2. Whether the standards of identity should provide for limits on fruit content other than those specified in the proposal.

3. Whether the list of jelling ingredients provided in each standard should be expanded to include certain additional jelling ingredients.

4. Whether the standards should permit the following optional ingredients:

a. Artificial coloring.

b. Propylene glycol.

c. Sugar.

B. With respect to the amendment permitting use of artificial red coloring in cinnamon-flavored apple and/or crabapple jelly—

1. Whether use of artificial red coloring would permit use of low-quality fruit in the foods specified.

2. Whether use of artificial red color in the foods specified would result in the substitution of these cinnamon-flavored, artificially colored jellies by institutional users for the more expensive berry jellies.

3. Whether the amendment would promote honesty and fair dealing in the interest of consumers.

Since the National Preservers Association was the petitioner in both orders to which objections were filed, and since the packers of fruit jellies and preserves and their suppliers are in both instances the persons most directly concerned, it is concluded that it will be practicable and efficient to hold one hearing on the objections. There will be two phases to the hearing. In the first, objections to the order establishing standards for artificially sweetened fruit jellies and fruit preserves or jams will be considered, and; in the second, objections to the order amending the fruit jellies standard to permit artificial red coloring in cinnamon-flavored apple and/or crabapple jelly will be considered.

Now, therefore, pursuant to the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended, 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371) and delegated to the Commissioner of Food and Drugs (22 F.R. 1045, 23 F.R. 9500), notice is hereby given that a public hearing will be held for the purpose of receiving evidence relevant and material to the objections set forth herein. The hearing will begin at 10:00 o'clock in the morning, eastern daylight time, July 5, 1960, in room G-747A, North Building, Department of Health, Education, and Welfare, Washington, D.C. All persons interested are invited to attend the hearing and to present evidence. The hearing will be conducted in accordance with the rules of practice provided therefor.

Mr. William J. Risteau is hereby designated as presiding officer to conduct the hearing, with full authority to administer oaths and affirmations and do all other things appropriate to the conduct of the hearing. The presiding officer is required to certify the entire record of the proceedings to the Commissioner of Food and Drugs for action.

Dated: May 31, 1960.

[SEAL] GEO. P. LARRICK,
Commissioner of Food and Drugs.

FEDERAL POWER COMMISSION

[Docket No. E–6940]

CENTRAL VERMONT PUBLIC SERVICE CORP. AND VERMONT ELECTRIC POWER CO., INC.

Notice of Application

MAY 31, 1960.

Take notice that on May 19, 1960, a joint application was filed with the Federal Power Commission pursuant to section 203 of the Federal Power Act by Central Vermont Public Service Corporation ("Central Vermont") and Vermont Electric Power Company, Inc. ("Velco") seeking an order authorizing Central Vermont to sell or otherwise dispose of, and Velco to acquire, certain facilities, and both applicants to enter into an agreement for the joint use of such and other facilities. Central Vermont is incorporated under the laws of the State of Vermont and is authorized to do business in the States of New Hampshire and New York. Velco is incorporated under the laws of the State of Vermont and is not domesticated in any other state. Both Central Vermont and Velco have principal business offices at Rutland, Vermont. Central Vermont is an operating public utility engaged primarily in generating, purchasing, transmitting, distributing and selling electric energy in 13 counties of Vermont and to 4 customers in Washington County, New York. Velco, a subsidiary of Central Vermont, is an operating public utility engaged in the business of operating transmission and associated facilities to receive and transmit 100,000 kw of firm power from the St. Lawrence River Development, pursuant to a contract dated June 13, 1957 between Velco and the State of Vermont, and to deliver such power either directly or through the facilities of others to allottees of the State of Vermont, and of purchasing and selling, and transmitting for others, other power. Velco began receiving St. Lawrence power on September 1, 1958. The facilities to be transferred from Central Vermont to Velco consist of:

Approximately 33.8 circuit miles of 115 KV transmission line between Essex and Middlebury, Vermont and approximately 12.3 circuit miles of 115 KV transmission line between Essex and Milton, Vermont.

The facilities to be subject to the joint use agreement consist of the foregoing and:

(a) Approximately 13.7 miles of 115 KV transmission line between Milton, Vermont and Velco's St. Albans substation,

(b) Velco's St. Alban's substation,

(c) Velco's Middlebury substation.

The present use of the facilities to be transferred and the facilities to be subject to the joint use agreement is for the distribution by Velco of St. Lawrence Power owned by the State of Vermont to allottees of the State of Vermont, for interchange by Central Vermont of power within its Central system and by Velco for the transmission of other power for its own account and for others. The proposed disposition does not include all the operating facilities of Central Vermont or Velco. The conveyance by Central Vermont to Velco heretofore referred to shall be made within 20 days after final approval has been given by all regulatory or other bodies having jurisdiction upon a date to be established by either Central Vermont or Velco giving five days' notice to the other. The price to be paid by Velco to Central Vermont shall be the original cost, as defined by the Uniform System of Accounts prescribed by the Federal Power Commission, of such Middlebury-Milton line less the amounts accrued for depreciation as of the date on which the aforesaid conveyance is made. The proposed transaction will not have any effect upon any contract for the purchase, sale or interchange of electric energy except to permit Velco to fulfill its commitments to the State of Vermont under the Power Transmission Contract dated June 13, 1957.

Any person desiring to be heard or to make any protest with reference to said application should on or before the 20th day of June 1960, file with the Federal Power Commission, Washington 25, D.C., petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). The application is on file and available for public inspection.

JOSEPH H. GUTRIDE,
Secretary.

[Docket No. G–12399 etc.]

NATURAL GAS PIPELINE COMPANY OF AMERICA ET AL.

Order Fixing Date for Oral Argument

MAY 31, 1960.

Natural Gas Pipeline Company of America, Docket No. G–12399; Champlin Oil & Refining Company, Docket No. G–14830; Amerada Petroleum Corporation, Docket No. G–16029; Cities Service Gas Company, Docket No. G–16217; Phillips Petroleum Company, Docket Nos. G–16280 and G–16439; Carter-Jones Drilling Company, Inc., Docket No. G–16288; Magnolia Petroleum Company (now Socony Mobile Oil Company, Inc.), Docket Nos. G–16295, G–16296, G–16398 and G–16266; Johntom Oil Company, Inc., Docket No. G–16375; McCommons Oil Company, Docket No. G–16376; Anson L. Clark, Docket No. G–16382; Cornell Oil Company, Docket No. G–16383; Bond Oil Corporation, et al., Docket No. G–16392; Hudson Oil & Metals Company, Dockt No. G–16436; The Pure Oil Company, Docket No. G–17493; Gulf Oil Corporation, Docket No. G–16761; Riddell Petroleum Corporation, Docket No. G–17828; Fain-Porter Drilling Corporation, Docket No. G–17831.

This matter was previously scheduled for oral argument on May 20, 1960. Upon consideration of the request filed by Amerada Petroleum Corporation and concurred in by Gulf Oil Corporation, the oral argument was postponed by order of the Commission dated May 17, 1960.

The following parties have filed notice of their intention to participate in the oral argument:

Natural Gas Pipeline Company of America.
Amerada Petroleum Corporation.
Socony Mobil Oil Company, Inc.
Gulf Oil Corporation.
Riddell Petroleum Corporation and Fain Porter Drilling Corporation.
Illinois Power Company.
City of Chicago.
Commission Staff Counsel.

The Commission orders: Oral argument be had before the Commission on June 16, 1960, at 10:00 a.m., e.d.s.t., in a hearing room of the Federal Power Commission, 441 G Street, NW., Washington, D.C., concerning the matters involved in and the issues presented by the exceptions to the aforesaid decision.

By the Commission.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 60–5087; Filed, June 3, 1960; 8:49 a.m.]

[Docket No. RI60–320]

JOSEPH I. O'NEILL, JR., ET AL.

Order Permitting Corrected Supplement To Be Filed, Providing for Hearing on and Suspension of Corrected Supplement

MAY 27, 1960.

By order issued May 6, 1960, in the above-entitled proceeding, the Commission suspended proposed increased rates tendered by Joseph I. O'Neill, Jr., et al. (O'Neill) until November 1, 1960, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act. The proposed increased rates were for sales of natural gas to Hunt Oil Company (Supplement No. 7 to O'Neill's FPC Gas Rate Schedule No. 1) and to El Paso Natural Gas Company (Supplement No. 8 to O'Neill's FPC Gas Rate Schedule No. 1) produced in the Jack Herbert Field, Upton County, Texas.

On May 5, 1960, O'Neill tendered for filing an adjustment to the tax reimbursement portion of its previously filed and suspended Supplement No. 8, which is designated as Supplement No. 1 to Supplement No. 8 to O'Neill's FPC Gas Rate Schedule No. 1. The tender of May 5, 1960 reflects the terms of the renegotiated agreement between O'Neill and El Paso, the purchaser, wherein O'Neill is entitled to reimbursement based on an increase in the Texas occupation tax from 5.2 percent to 7 percent.

The increased rate and charge so proposed may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

(1) Good cause exists for permitting the tender of May 5, 1960 to be filed.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of Supplement No. 1 to Supplement No. 8 to O'Neill's FPC Gas Rate Schedule No. 1 and that the aforesaid supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) O'Neill is hereby permitted to file Supplement No. 1 to Supplement No. 8 to O'Neill's FPC Gas Rate Schedule No. 1.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing shall be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 1 to Supplement No. 8 to O'Neill's FPC Gas Rate Schedule No. 1.

(C) Pending hearing and decision thereon, the aforesaid supplement is hereby suspended and the use thereof deferred until November 1, 1960 or until such later date as Supplement No. 8 to O'Neill's FPC Gas Rate Schedule No. 1 is made effective in the manner prescribed by the Natural Gas Act, and thereafter until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(D) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(E) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37 (f)) on or before July 11, 1960.

By the Commission.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 60–5088; Filed, June 3, 1960; 8:49 a.m.]

[Docket No. G–20121]

PENNSYLVANIA GAS CO.

Notice of Application and Date of Hearing

MAY 31, 1960.

Take notice that on November 9, 1959, Pennsylvania Gas Company (Applicant), a Pennsylvania corporation with its principal place of business in Warren, Pennsylvania, filed an application in Docket No. G–20121, supplemented on December 9, 1959 and January 25, 1960, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing it to activate and operate the Summit Gas Field in Summit Township, Erie County, Pennsylvania, as an underground gas storage field.

Applicant proposes to recondition 46 wells, plug 10 wells and install a 440 horsepower compressor in the summer of 1960. Completion of the project is scheduled for November 1, 1961. The total cost of activating Summit Field for underground storage is $1,186,288.

The storage project is to be financed from current earnings prior to May 31, 1960, and after that date from current earnings and from borrowings from National Gas Company, Applicant's parent company.

Applicant was granted temporary authorization to operate the Summit Storage Field as proposed in its application on February 26, 1960.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations, and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on July 1, 1960, at 9:30 a.m., e.d.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., respecting the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 21, 1960. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 60–5089; Filed, June 3, 1960; 8:49 a.m.]

[Docket No. E–6938]

DEPARTMENT OF THE INTERIOR AND SOUTHEASTERN POWER ADMINISTRATION

Notice of Request for Approval of Rates and Charges

MAY 31, 1960.

Notice is hereby given that the United States Department of the Interior, on behalf of the Southeastern Power Administration, has filed with the Federal Power Commission for confirmation and

approval, pursuant to the provisions of the Flood Control Act of 1944 (58 Stat. 887), the schedules of rates and charges for the sale of electric energy produced at the Allatoona, Buford and Clark Hill projects and sold by the Southeastern Power Administration. Approval is requested for the period beginning July 1, 1960 and ending June 30, 1964.

The filing comprises four rate schedules designated ABC–1, ABC–2, CH–1, and CH–2, which are set forth below. Rate Schedules ABC–1 and ABC–2 are applicable to all power sold from the Allatoona and Buford projects and that power from the Clark Hill project sold in the State of Georgia. Rate Schedules CH–1 and CH–2 are applicable to all power sold from the Clark Hill project in the State of South Carolina.

Any person desiring to make comments or suggestions for Commission consideration with respect to the attached schedules of rates and charges, should submit the same in writing on or before June 20, 1960, to the Federal Power Commission, Washington 25, D.C.

JOSEPH H. GUTRIDE,
Secretary.

[Exhibit B–1]

WHOLESALE POWER RATE SCHEDULE ABC–1

Availability. This rate schedule shall be available to public bodies and cooperatives in Georgia to whom power may be wheeled pursuant to the provisions of the contract, dated October 11, 1957, between the Georgia Power Company (hereinafter called the Company) and the Government.

Applicability. This rate schedule shall be applicable to power and accompanying energy generated at the Allatoona, Buford, and Clark Hill Projects (hereinafter called the Projects) and sold in wholesale quantities.

Character of service. The electric capacity and energy supplied hereunder will be three-phase alternating current at a nominal frequency of sixty cycles per second delivered at the delivery points of the customer on the Company's transmission and distribution system. The voltage of delivery will be maintained within the limits established by the state regulatory commission.

Monthly rate. The monthly rate for capacity and energy sold under this rate schedule shall be:

Demand charge. $0.915 per kilowatt of total contract demand.

Energy charge. 3.56 mills per kilowatt-hour.

Energy to be furnished by the Government. The Government will sell to the Customer and the Customer will purchase from the Government energy from the Projects to the extent that it is available at the Projects each billing month up to a total amount annually of 4,500 hours per kilowatt of contract demand.

For billing purposes, the energy allocation available on an annual basis to accompany the Customer's contract demand as assigned to individual delivery points shall be allocated in equal quantities each day throughout the year. In those billing months when the quantity of energy available from the Projects, less seven (7) percent losses, is sufficient to supply the energy allocations which accompany the total contract demands of all customers purchasing power pursuant to this rate schedule, the Customer will be billed by the Government by delivery points for its monthly energy allocation in an amount determined by multiplying the daily energy allocation by the number of days in the billing month. In those billing months when energy available from the Projects, less seven (7) percent losses, is insufficient to supply the energy allocations which accompany the total contract demands of all customers purchasing power pursuant to this rate schedule, the Customer shall be billed by the Government by delivery points for that portion of its monthly energy allocation determined by multiplying the ratio which the total energy available from the Projects for all said Customers' use during the particular billing month bears to the quantity necessary to supply the energy allocations which accompany the total contract demands of all said customers during such month by the quantity of energy necessary to meet the energy allocation of the Customer for said billing month.

Maximum cost to customer for capacity and energy from the projects and deficiency energy. In the event that a change in the Company's rate for deficiency energy (as defined in the contract between the Government and the Company dated October 11, 1957), upon an order of a regulatory body having jurisdiction thereof, results in a total cost to the Customer for capacity and energy from the Projects and deficiency energy that is higher than that which would result from applying the monthly rates contained in this schedule to such capacity and energy, the Government agrees to reduce the Customer's power bill for capacity and energy from the Projects, beginning as of the effective date of the order, in an amount that will result in the Customer receiving capacity and energy from the Projects and deficiency energy at a cost no higher than would result from an application of the monthly rates contained in this schedule to all such capacity and energy.

Billing month. The billing month for power sold under this schedule shall end at 12:00 midnight on the 20th day of each calendar month.

Conditions of service. The Customer shall at its own expense provide, install, and maintain on its side of each delivery point the equipment necessary to protect and control its own system. In so doing, the installation, adjustment and setting of all such control and protective equipment at or near the point of delivery shall be coordinated with that which is installed by and at the expense of the Company on its side of the delivery point.

Service interruption. When energy delivery to the Customer's system for the account of the Government is reduced or interrupted for one hour or longer, and such reduction or interruption is not due to conditions on the Customer's system, the demand charge for the month shall be appropriately reduced.

[Exhibit B–2]

WHOLESALE POWER RATE SCHEDULE ABC–2

Availability. This rate schedule shall be available to the Georgia Power Company (hereinafter called the Company).

Applicability. This rate schedule shall be applicable to electric capacity and energy generated at the Allatoona, Buford, and Clark Hill Projects (hereinafter called the Projects) and sold under the contract, dated October 11, 1957, between the Government and the Company.

Character of service. Electric capacity and energy delivered to the Company will be three-phase alternating current at a nominal frequency of sixty cycles per second and will be delivered at approximately 115,000 volts at mutually agreeable points in the vicinity of the Projects' power stations.

Monthly rate. The monthly rate for capacity and energy sold under this rate schedule shall be:

Demand charge. $0.915 per kilowatt per billing month for dependable capacity made available to the Company for its own use.

$0.915 per kilowatt per calendar month for the average of the weekly minimum amounts of nondependable capacity made available by the Government during each of several months and up to a maximum weekly quantity for each month as provided for in the aforementioned contract between the Government and the Company.

Any week which falls within two calendar months shall, for the purpose of determining the amount of nondependable capacity to be made available, be considered to be completely within the month in which Wednesday of each week falls.

Energy charge. 2.96 mills per kilowatt-hour for firm and secondary energy made available from the Projects in any billing month in excess of 1,869,696 kilowatt-hours multiplied by the number of days in said billing month.

2.00 mills per kilowatt-hour for dump energy made available by the Government and accepted by the Company.

Billing month. The billing month for power sold under this schedule shall end at 12:00 midnight on the 20th day of each calendar month.

Charges for nondependable capacity included in a bill rendered for a particular billing month shall be for that nondependable capacity made available for the calendar month ending during said billing month.

Power factor. The Company shall take capacity and energy from the Government at such power factor as will best serve the Company's system from time to time, provided that the Company shall not impose a power factor of less than 0.85 lagging on the Government's facilities which requires operation contrary to good operating practice or results in overload or impairment of such facilities or unreasonably interferes with the delivery of capacity and energy by the Government to the Company and to its other customers.

Condenser operation. The Government shall, upon the request of the Company, cause the generating units at Allatoona and Buford and one to three of its generating units at Clark Hill to be operated as condensers if, in the sole judgment of the Government, such operation does not unreasonably interfere with the delivery of capacity and energy by the Government to any of its customers, is not contrary to good operating practice, is not detrimental to such generating facilities in excess of ordinary wear and tear, and does not overload such generating facilities. Such condenser operation, subject to the preceding limitations, shall be in accordance with procedures and schedules developed and agreed upon from time to time by the operating representatives of the parties hereto. The Company shall pay the Government $5.00 per generating unit so operated for each hour that such condenser operation is requested by the Company.

Service interruption. When delivery to the Company is interrupted or reduced due to conditions on the Government's system which have not been arranged for and agreed to in advance, the charge for dependable capacity will be reduced as to the kilowatts of such capacity which have been interrupted or reduced in the proportion that the number of peak hours during such period of interruption or reduction bears to the total number of peak hours during the period covered by such charge and the monthly charge for nondependable capacity will be based on the reduced weekly availability of such capacity. Any interruption or reduction in the capacity made available will be deemed to be first an interruption or reduction of nondependable capacity made available to the Company and, next, an interruption or reduction of dependable capacity made available to the Company.

[Exhibit B–3]

WHOLESALE POWER RATE SCHEDULE CH–1

Availability. This rate schedule shall be available to public bodies and cooperatives in South Carolina purchasing firm power from the Clark Hill Project (hereinafter called the Project).

Applicability. This rate schedule shall be applicable to power and accompanying energy generated at the Project and sold in wholesale quantities.

Character of service. The electric capacity and energy supplied hereunder will be three-phase alternating current at a nominal frequency of sixty cycles per second and will be delivered at a nominal voltage of 115,000 volts at the 115 KV bus of the Project power plant. The actual operating voltage of the Government shall within the limits of good operating practice be suitable for operation with the Customer's system.

Monthly rate. The monthly rate for capacity and energy sold under this rate schedule shall be:

Demand charge. $0.75 per kilowatt per billing month for dependable capacity made available on a firm basis.

$0.175 per kilowatt per weeek, cumulative for the billing month, for capacity made available and accepted on a weekly basis in addition to the capacity which the Government makes available for scheduling energy.

Energy charge. (a) 4.0 mills per kilowatt-hour for weekday firm energy.

(b) 3.0 mills per kilowatt-hour for all energy made available or declared and accepted in any week in excess of the weekday firm energy and up to a total weekly quantity (including weekday firm energy) determined by multiplying the number of peak period hours remaining at the time a declaration or a revision becomes effective times 0.7 times the total capacity made available, plus any energy scheduled during the week prior to the effective date of any revision; provided, that whenever as a result of a declaration or revision thereof, the Customer accepts for the remaining peak period hours of the week an amount of energy equal to or greater than 0.7 times the maximum capacity which the Government, by contract, is obligated to make available to the Customer times the remaining peak period hours, no further energy declared will be in the 3.0 mill rate block.

(c) 2.5 mills per kilowatt-hour for all energy made available or declared and accepted in any week in excess of the maximum weekly quantity determined under (b) above and up to a total weekly quantity (including the quantities under (a) and (b) above) determined by multiplying the number of peak period hours remaining at the time the declaration or revision becomes effective times 0.9 times the total capacity made available, plus any energy scheduled during the week prior to the effective date of any revision; provided, that whenever as a result of a declaration or revision thereof the Customer accepts for the remaining peak period hours of the week an amount of energy equal to or greater than 0.9 times the maximum capacity available times the then remaining peak period hours in the week, no energy thereafter declared and accepted will be in the 2.5 mill rate block.

(d) 2.0 mills per kilowatt-hour for all energy declared and accepted in any week in excess of the maximum weekly quantity determined under (c) above.

(e) 2.0 mills per kilowatt-hour for dump energy.

Billing month. All project energy shall be accounted for on a weekly basis and the total quantities of energy billed monthly shall be the sum of the weekly quantities. Energy declared or made available for any week which falls within two billing months shall be divided between the months on the basis of weekly schedules for energy delivery furnished by the Customer.

The billing month for power sold under this rate schedule shall end at midnight on the last day of each calendar month.

Power factor. The Customer shall not impose a power factor of less than .85 lagging on the Government's facilities which requires operation contrary to good operating practice or results in overload or impairment of such facilities.

Condenser operation. The Government shall, upon the request of the Customer, cause its generating units (up to the maximum number specified by contracts) to be operated as condensers if, in the sole judgment of the Government, such operation is not contrary to good operating practice, is not detrimental to such generating facilities in excess of ordinary wear and tear, and does not overload such generating facilities. Such condenser operation, subject to the preceding limitations, shall be in accordance with procedures and schedules developed and agreed upon from time to time by the operating representatives of the parties hereto. The Customer shall pay the Government $5.00 per generating unit so operated for each hour that such condenser operation is requested by the Customer.

Service interruption. When capacity made available to the Customer's system is reduced or interrupted for one hour or longer, and such reduction or interruption is not agreed to in advance nor due to conditions on the Purchaser's system, the monthly demand charge for dependable capacity shall be reduced, for each on-peak hour (the nearest number of whole hours) that such capacity is reduced or interrupted, by an amount equal to $0.75 divided by the number of peak hours in the billing month times the reduction, in kilowatts, of such capacity; and the amount of energy previously scheduled and not taken during the time of interruption shall be placed in storage to the Customer's account. If the Customer advises the Government within one working day after a day in which energy is placed in storage that it does not desire to retain ownership of such energy, the ownership of the energy will revert to the Government and the Customer shall not be obligated to pay for such energy.

[Exhibit B–4]

WHOLESALE POWER RATE SCHEDULE CH–2

Availability. This rate schedule shall be available to customers in South Carolina who have no contract for the purchase of firm power produced at the Clark Hill Project (hereinafter called the Project).

Applicability. This rate schedule shall be applicable to power available at the Project in excess of the requirements of firm power purchasers and sold in wholesale quantities.

Character of service. Power supplied hereunder will be three-phase alternating current at a nominal frequency of sixty cycles per second and will be delivered at a nominal voltage of 115,000 volts at the 115 KV bus of the Project's power plant.

Monthly rate. The monthly rate for capacity and energy sold under this rate schedule shall be:

Demand charge. $0.175 per kilowatt week for capacity made available and accepted on a weekly basis when such charge is agreed to by the customer.

Energy charge. Not more than 3.0 fmills per kilowatt-hour nor less than 2.0 mills per kilowatt-hour for energy.

Billing month. The billing month for power sold under this rate schedule shall end at 12:00 midnight on the last day of each calendar month.

Conditions of service. The Government may, in its sole discretion, make power available for sale under this rate schedule and the customer may, in its sole discretion, agree to take such power.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1–4015]

CONSOLIDATED DEVELOPMENT CORP.

Order Summarily Suspending Trading

MAY 31, 1960.

The common stock, par value 20 cents per share of Consolidated Development Corporation (formerly known as Consolidated Cuban Petroleum Corporation), being listed and registered on the American Stock Exchange, a national securities exchange; and

The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on such Exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion further that such suspension is necessary in order to prevent fraudulent, deceptive or manipulative acts or practices, with the result that it will be unlawful under section 15(c)(2) of the Securities Exchange Act of 1934 and the Commission's Rule 15c2–2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of such security, otherwise than on a national securities exchange;

It is ordered, Pursuant to section 19(a)(4) of the Securities Exchange Act of 1934 that trading in said security on the American Stock Exchange be summarily suspended in order to prevent fraudulent, deceptive or manipulative acts or practices, this order to be effective for a period of ten (10) days, June 1, 1960 to June 10, 1960, both dates inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F.R. Doc. 60–5091; Filed, June 3, 1960; 8:50 a.m.]

TARIFF COMMISSION

[AA1921–13]

NEPHELINE SYENITE

Notice of Investigation

Having received advice from the Treasury Department on May 27, 1960 that nepheline syenite from Canada is being, or is likely to be, sold in the United States at less than fair value, the United States Tariff Commission has instituted an investigation under section 201(a) of the Antidumping Act, 1921, as amended, (19 U.S.C. 160(a)), to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

No hearing in connection with this investigation has been ordered. If a hearing is ordered, due notice of the time and place thereof will be given. In this connection, interested parties are referred to § 208.4 of the Commission's rules of practice and procedure (19 CFR 208.4) which provides that interested parties may, within 15 days after the date of publication of this notice in the FEDERAL REGISTER, request that a public hearing be held, stating reasons for the request.

Any interested party may submit to the Commission a written statement of information pertinent to the subject matter of this investigation. Fifteen clear copies of such statement should be submitted. Information which an interested party desires to submit in confidence should be submitted on separate pages, each clearly marked "Submitted in Confidence". Written statements should be filed not later than July 5, 1960.

Issued: May 31, 1960.

By order of the Commission.

[SEAL] DONN N. BENT, *Secretary.*

[F.R. Doc. 60-5076; Filed, June 3, 1960; 8:47 a.m.]

DEPARTMENT OF COMMERCE

Federal Maritime Board

[Docket No. 881]

GENERAL INCREASES IN ALASKAN RATES AND CHARGES

Notice of Supplemental Orders

Notice is hereby given that the Federal Maritime Board has entered, on May 17, 1960, the following Third Supplemental Order, to the original order in this proceeding dated January 7, 1960, which appeared in the FEDERAL REGISTER of January 15, 1960 (25 F.R. 364).

It appearing that by Original and First Supplemental Orders herein, the Board instituted an investigation into the reasonableness and lawfulness of various tariff schedules of Alaska Steamship Company, Coastwise Line, Agent C. R. Nickerson, Garrison Fast Freight Division of Consolidated Freightways, Inc., and Alaska Northern Express, Inc., naming increases in freight rates and charges, between Pacific Coast ports on the one hand and ports and points in Alaska on the other, also between ports within Alaska; and

It further appearing that such order provides that the investigation instituted thereby should include all matters and issues with respect to the lawfulness of all freight schedules of the carriers named above in effect between Pacific Coast ports on the one hand and ports and points in Alaska on the other, also between ports within Alaska; and

It further appearing that there have been filed with the Federal Maritime Board by Puget Sound-Alaska Van Lines, Inc., Local and Joint Proportional Freight Tariff, F.M.B.-F. No. 1, and Local and Joint Proportional Freight Tariff, F.M.B.-F. No. 4, naming rates at a level generally the same as those now under investigation, applying between Pacific Coast ports on the one hand and ports and points in Alaska on the other; and

It further appearing that the Board, upon consideration of said tariff schedules is of the opinion that the rates, charges, rules, regulations and practices named therein, should be made the subject of a public investigation and hearing to determine whether they are just and reasonable and otherwise lawful under the Shipping Act, 1916, or the Intercoastal Shipping Act, 1933;

It is ordered, That this investigation be, and it is hereby, expanded to include the lawfulness of the rates, charges, rules and regulations contained in said tariff schedules under the Shipping Act, 1916, and the Intercoastal Shipping Act, 1933, with a view to making such findings and order in the premises as the facts and circumstances shall warrant; and

It is further ordered, That no change shall be made in the rates or other matters affecting the rates contained in said tariffs as of the date of this order, or filed as of the date of this order to later become effective, until this investigation has been terminated by final order of the Board unless otherwise authorized by special permission of the Board; and

It is further ordered, That the investigation in this proceeding shall not be confined to the matters and issues hereinbefore stated as the reason for instituting this investigation, but shall include all matters and issues with respect to the lawfulness of said schedules and of all other freight schedules of the carrier named herein in effect between Pacific Coast ports on the one hand and ports and points in Alaska on the other, also between ports within Alaska under the Shipping Act, 1916, as amended, and the Intercoastal Shipping Act, 1933, as amended; and

It is further ordered, That copies of this order shall be filed with said tariff schedules in the office of the Federal Maritime Board; and

It is further ordered, That Puget Sound-Alaska Van Lines, Inc., be made respondent herein; that a copy of this order shall forthwith be served upon them and upon all other respondents and protestants herein; and that this order be published in the FEDERAL REGISTER.

Dated: June 1, 1960.

By order of the Federal Maritime Board.

JAMES L. PIMPER, *Secretary.*

[F.R. Doc. 60-5082; Filed, June 3, 1960; 8:48 a.m.]

[Docket No. 901]

PACIFIC-ATLANTIC GUAM TRADE

General Increases In Rates

Notice is hereby given that the Federal Maritime Board has entered, on May 17, 1960, the following Fourth Supplemental Order, to the original order in this proceeding dated March 21, 1960, which appeared in the FEDERAL REGISTER of April 1, 1960 (25 F.R. 2780).

It appearing that by Original Order, as supplemented, the Board ordered suspended in full to and including April 29, 1960, Pacific Far East Line, Inc., Guam Freight Tariff No. 2, F.M.B.-F. No. 2 and American President Lines, Ltd., Pacific/Guam Tariff No. 5, F.M.B.-F. No. 9 and Atlantic/Guam Freight Tariff No. 3, F.M.B.-F. No. 8; and

It further appearing that pursuant to Third Supplemental Order the Board ordered that the investigation and hearing instituted should carry over the running of the suspension date; and

It further appearing that that said Order provides that "no change shall be made in the rates or other matters which were changed by said tariff schedules until this investigation has been terminated by final order of the Board, unless otherwise authorized by special permission of the Board; and

It further appearing that on May 6, 1960, Pacific Far East Line, Inc., filed Application for Special Permission seeking authority to publish, post and file, on 30 days' notice, consecutively numbered revised pages to Guam Freight Tariff No. 2, F.M.B.-F. No. 2, in order to establish reduced rates on the following commodities:

Beer, ale and stout, in cases. Size: in Stubby bottles in cartons 24/11 oz.
Cement, Building, in bulk, F.I.O.; and

It further appearing that on May 6, 1960, American President Lines, Ltd., filed Application No. 1 seeking authority to publish, post and file, on 30 days' notice, consecutively numbered revised pages to Pacific/Guam Freight Tariff No. 5, F.M.B.-F No. 9, in order to establish identical rate items as set forth above in the Pacific Far East Line application; and

It further appearing that the Board having found good cause therefor has on May 17, 1960, granted special permission to publish such changes on 30 days' notice under Special Permission No. 3839 in the case of Pacific Far East Line, Inc., and Special Permission No. 3840 in the case of American President Lines, Ltd.;

It is ordered, That the Original Orders herein be modified to the extent necessary to permit the publication and filing of the changes covered by such Special Permission Nos. 3839 and 3840; and

It is further ordered, That any rates, charges, regulations and practices set forth in the schedules filed pursuant to such special permissions shall be subject to the investigation and hearing herein to the same extent as the rates, charges, regulations and practices under schedules canceled thereby, and that the special permissions granted hereby shall be without prejudice to the Board's determination as to the lawfulness of the rates established pursuant hereto; and

It is further ordered, That copies of this order shall be filed with said tariff schedules in the Office of the Federal Maritime Board; and

It is further ordered, That a copy of this order shall be forthwith served upon all respondents and protestants herein; and that this order be published in the FEDERAL REGISTER.

Dated: June 1, 1960.

By order of the Federal Maritime Board.

JAMES L. PIMPER, *Secretary.*

427.1168 Manner of payment to producers.
427.1169 Tender of Forms SA by purchasing agencies.
427.1170 Choice (A) recourse loans.
427.1171 Schedule of premiums and discounts for eligible qualities of 1960-crop American upland cotton (basis middling 1-inch).

AUTHORITY: §§ 427.1151 to 427.1171 issued under sec. 4, 62 Stat. 1070, as amended, sec. 5, 62 Stat. 1072, secs. 101, 102, 401, 63 Stat. 1051, as amended, Title II, 73 Stat. 178; 15 U.S.C. 714b and 714c, 7 U.S.C. 1441, 1443, 1421.

§ 427.1151 General statement.

This bulletin contains the regulations and requirements with respect to the 1960 Choice (A) Cotton Price Support Program of Commodity Credit Corporation (referred to in this subpart as "CCC") formulated by CCC and the Commodity Stabilization Service (referred to in this subpart as "CSS"). Under this program, CCC will purchase 1960-crop Choice (A) upland cotton from producers, subject to the $50,000 limitation on nonrecourse price support on 1960-crop cotton contained in Public Law 86–80, and will make recourse loans to producers on 1960-crop Choice (A) upland cotton in excess of that which may be tendered for purchase under the $50,000 limitation, if such cotton was produced on a farm for which the operator elected the Choice (A) allotment and the acreage planted to cotton on the farm is in compliance with such allotment. Cotton as used in this subpart means American upland cotton. The requirements with respect to loans to producers on cotton produced on farms for which the operators elected the Choice (B) allotment are contained in 1960 CCC Cotton Bulletin 1.

§ 427.1152 Administration.

Under the general direction and supervision of the Executive Vice President, CCC, the Cotton Division and other appropriate divisions of CSS will carry out the provisions of this subpart. In the field, the program will be administered through the New Orleans CSS Commodity Office, 120 Marais Street, New Orleans 16, Louisiana (referred to in this subpart as the "New Orleans office"), and Agricultural Stabilization and Conservation (referred to in this subpart as "ASC") State and county committees (referred to in this subpart as "State committees" and "county committees," respectively). Program availability and maturity dates will be those specified hereinafter except that whenever the final date of availability or the maturity date falls on a nonwork day for ASC county offices or the New Orleans office, the applicable final date shall be extended to include the next work day. Forms will be distributed by the New Orleans office and will be available at county ASC offices (referred to in this subpart as "county offices") and at approved purchasing agencies, approved warehouses, and others designated to participate in the purchase program. State and county committees and the New Orleans office do not have authority to modify or waive any of the provisions of this subpart or any amendments or supplements hereto.

§ 427.1153 Availability of program.

(a) *Purchases.* The purchase program will be available to eligible producers on eligible cotton and will be made available on warehouse-stored cotton and cotton represented by order bills of lading. As provided in § 427.1156, no person shall be eligible to receive more than $50,000 in nonrecourse price support from sales of 1960-crop Choice (A) cotton to CCC unless he has qualified for an exemption from the $50,000 limitation on nonrecourse price support contained in P.L. 86–80 through reduction of his production of cotton.

(b) *Recourse loans.* Eligible producers who have not qualified for an exemption from the $50,000 limitation may obtain price support on their Choice (A) cotton in excess of that permitted under the $50,000 limitation on purchases only by means of recourse loans obtained in accordance with the provisions of § 427.1170.

(c) *Area.* The purchase program will be available on cotton stored in approved warehouses in all cotton-producing areas of the United States and will be available on cotton represented by order bills of lading in areas specified by the New Orleans office where there is a shortage of storage space and where the necessary arrangements for handling the cotton may be made.

(d) *Time.* Purchases will be made from date purchase rates are announced through April 30, 1961. Cotton Producer's Sales Agreements covering the cotton must be signed by the producer and delivered to an approved purchasing agency on or before April 30, 1961, or postmarked not later than such date if tendered to the New Orleans office by mail for direct purchase by CCC.

(e) *Source.* Purchases of eligible cotton will be made by approved purchasing agencies and by the New Orleans office. Purchase proceeds shall be disbursed to producers by approved purchasing agencies, or by the New Orleans office. Disbursement of purchase proceeds by approved purchasing agencies shall be made not later than April 30, 1961, except where specifically approved by the New Orleans office in each instance. The producer shall not present the cotton for purchase by CCC unless the cotton is in existence and in good condition. If the cotton is not in existence and in good condition at the time of disbursement, the producer shall promptly refund the proceeds.

§ 427.1154 Approved purchasing agency and approved sales agency.

(a) *Approved purchasing agency.* An approved purchasing agency shall be any person or firm, such as bank, cotton buyer, cotton merchant, cotton cooperative, ginner, or other legal entity, which has entered into a Cotton Purchasing Agency Agreement (Form CCC Cotton SD) with CCC. Under this agreement, a purchasing agency which purchases cotton is required to assist the producer in preparing the necessary purchase documents, to pay him or his designee the purchase price for his Choice (A) cotton, and to tender to CCC either directly or through another purchasing agency the documents covering the purchased cotton, in accordance with § 427.1169. Persons or firms desiring to enter into Cotton Purchasing Agency Agreements should make application to the New Orleans office which will enter into such agreements on behalf of CCC with responsible applicants having organizations and facilities adequate to properly carry out their responsibilities and obligations under the program.

(b) *Approved sales agency.* An approved sales agency shall be any person or firm, such as a cotton buyer, cotton merchant, cotton cooperative, cotton ginner, or other legal entity, which is an approved purchasing agency and which has entered into a Cotton Sales Agency Agreement (CCC Cotton Form SL or SU) with CCC. Each approved sales agency must furnish the required performance guarantee. In selecting sales agencies, CCC will give preference to persons or firms which were actively engaged in the merchandising of cotton during the years immediately preceding 1960. An ap-

proved sales agency will be permitted to offer Choice (A) cotton, which it purchased from producers as a purchasing agency or which was transferred to it by another purchasing agency, for sale locally for CCC in accordance with the terms of its agreement with CCC and such other instructions as are issued by CCC. The sales agency will be required to deposit the warehouse receipts for all cotton it retains for sale locally with a bank selected by the sales agency and approved by CCC. A sales agency which desires to purchase any Choice (A) cotton from a local sales agent of CCC, either directly or indirectly for its own account, will be required to enter into a different type of agreement from a sales agency which is acting solely in the capacity of sales agent for CCC and is not buying any such cotton from local sales agents for its own account. Any person or firm desiring to enter into a Cotton Sales Agency Agreement and sell Choice (A) cotton locally should make application to the New Orleans office which will enter into such agreements on behalf of CCC.

§ 427.1155 Producer.

A producer shall be any individual, partnership, corporation, association, trust, estate, or other legal entity, or a State or political subdivision thereof, or an agency of such State or political subdivision, producing upland cotton in the capacity of landowner, landlord, tenant, or sharecropper.

§ 427.1156 Eligible producer.

A producer will be entitled to sell to CCC eligible cotton produced by him in 1960 on a farm (as defined for purposes of cotton marketing quotas) for which the operator has elected the Choice (A) allotment in accordance with the Acreage Allotment Regulations for the 1960 Crop of Upland Cotton (24 F.R. 8430 and any amendments or supplements thereof) if all the following requirements are met:

(a) The 1960 planted acreage (as determined for purposes of cotton marketing quotas) of cotton on the farm does not exceed the 1960 Choice (A) cotton acreage allotment for the farm. For the purpose of determining eligibility under this program, the cotton acreage on the farm will not be deemed to be in excess of the acreage allotment unless the acreage allotment is knowingly exceeded. If the producer operating the farm is notified that the acreage allotment has been exceeded, and the planted acreage is not adjusted to the acreage allotment within the period allowed under the notice, the acreage allotment shall be deemed to have been knowingly exceeded by all producers having an interest in the cotton.

(b) A person will not be eligible to receive more than $50,000 from sales of Choice (A) cotton to CCC unless he has qualified for an exemption from the $50,000 limitation on nonrecourse price support contained in P.L. 86–80 through reduction of his production of cotton. The rules provided in the "Regulations Relating to the $50,000 Limitation of Nonrecourse Price Support for the 1960 Crop of Price Supported Field Crops in Surplus Supply" (25 F.R. 1001), as amended (hereinafter referred to as the "Regulations Relating to the $50,000 Limitation"), shall be applied for the purposes of this subpart to determine whether certain individuals or legal entities are to be treated as one person or as separate persons for the purpose of applying the $50,000 limitation in P.L. 86–80 and whether producers come within the exemption from such limitation through reduction of their production. Any person who, on the basis of a reduction of his production, desires to qualify for an exemption from the $50,000 limitation shall file an application with the ASC county committee in accordance with the Regulations Relating to the $50,000 Limitation.

(c) Where eligible cotton is produced by a landlord and his share tenant or sharecropper, the cotton may be sold to CCC (subject to the other provisions of this subpart) only as follows:

(1) If the cotton is divided among the producers entitled to share in such cotton, each landlord, tenant, or sharecropper may sell his separate share.

(2) If the cotton is not divided, (i) all producers having a share in the cotton may join in the sale of such cotton, or (ii) the landlord may sell cotton in which both he and one or more share tenants or sharecroppers have an interest, if he has the legal right to do so, and in such cases, the share tenants or sharecroppers must be paid their pro rata share of the proceeds of the sale: *Provided*, That the landlord shall not be eligible to sell to CCC cotton in which a share tenant's or sharecropper's share of the sales proceeds when added to price support proceeds previously received by the share tenant or sharecropper from sales of 1960 crop cotton to CCC would exceed $50,000, unless such share tenant or sharecropper has qualified for an exemption from the $50,000 limitation on nonrecourse price support through reduction of his production, in accordance with the Regulations Relating to the $50,000 Limitation. In determining the amount of price support extended each producer in the case of sales of cotton in which both the landlord and one or more share tenants or sharecroppers have an interest, each producer shall be deemed to have been extended price support to the extent of his interest in the cotton. In no case shall a share tenant or sharecropper sell individually cotton in which a landlord has an interest. Except as provided above, two or more producers may not sell their cotton jointly.

(d) When a producer becomes ineligible to sell cotton to CCC because of the $50,000 limitation on nonrecourse price support, any cotton in which he has an interest with other producers must be divided among all of the producers before the other producers, if they are otherwise eligible, may sell their separate shares to CCC.

§ 427.1157 Eligible cotton.

Eligible cotton under the purchase program shall be Choice (A) upland cotton produced in the United States in 1960 which meets the following requirements:

(a) Such cotton must not be tendered to CCC for purchase if any producer's share of the sales proceeds of such cotton together with such producer's share of the sales proceeds of any 1960 crop cotton previously sold to CCC will exceed $50,000, unless such producer has qualified for an exemption from the $50,000 limitation on nonrecourse price support.

(b) Such cotton must have been produced on a farm for which the operator elected the Choice (A) allotment and on which the acreage planted to cotton is in compliance with such allotment.

(c) Such cotton must be of a grade and staple length specified in § 427.1171.

(d) Such cotton must not be false-packed, water-packed, mixed-packed, reginned, or repacked, and must not be below grade or shorter than 15/16-inch staple. Cotton which has been reduced in grade because of preparation, but which has not been reduced more than two grades, will be purchased at the purchase rate for the grade to which it is reduced. Cotton designated as "Wasty" or which has been reduced in grade, other than a reduction of not more than two grades for preparation, will be eligible for purchase but at a discount as shown in § 427.1161.

(e) Such cotton must be in existence and in good condition.

(f) Such cotton must not be compressed to high density.

(g) Such cotton must have been produced by the producer tendering it for purchase, and such producer must have the legal right to sell the cotton.

(h) If such cotton was produced on land owned by the Federal Government, it must not have been produced in violation of the provisions of the lease.

(i) If the producer tendering such cotton for purchase is a landlord or landowner, the cotton must not have been acquired by such landlord or landowner directly or indirectly from a share tenant or sharecropper and must not have been received in payment of fixed or standing rent; and if it was produced by him in the capacity of landlord, share tenant, or sharecropper, it must be his separate share of the crop, unless he is a landlord and is tendering cotton in which both he and one or more share tenants or sharecroppers have an interest.

(j) The producer tendering such cotton must not have previously sold and repurchased such cotton.

(k) Each bale of cotton must weigh not less than 275 and not more than 700 pounds, gross weight. However, bales weighing from 275 through 349 pounds and from 626 through 700 pounds, gross weight, will be subject to a discount as shown in § 427.1161. Each bale must be adequately packaged in new material manufactured for cotton bale covering, except used jute and sugar bagging will be acceptable if such bagging is clean and in sound condition. The bagging must be sufficiently strong to adequately protect the cotton. Cotton compressed to standard density, whether compressed by a warehouseman or at a gin, must not have less than eight bands. Heads of bales must be completely covered. Bales packaged with new bagging and ties used in the Cotton Experimental Bale Packaging Program sponsored by the National Cotton Council, Memphis, Tennessee (referred to in this subpart as "Experimental Bale Packaging Program"), will be acceptable provided there is attached to each such bale a tag which identifies such bale with the program and which shows the actual tare weight and the number of pounds to be added to the gross weight of the bale for the purpose of adjusting the bale to the normal gross weight under such program.

(l) Each bale of cotton must bear the gin bale number.

§ 427.1158 Purchase forms.

The following documents must be delivered by producers in connection with each sale to CCC:

(a) *Warehouse-stored cotton.* (1) Cotton Producer's Sales Agreement (Form CCC Cotton SA, referred to in this subpart as "Form SA").

(2) Warehouse receipts complying with the provisions of § 427.1160.

(3) If the sales proceeds are to be obtained direct from the New Orleans office, a Producer's Letter of Transmittal (Sales) (CCC Cotton Form SB, referred to in this subpart as "Form SB").

(4) Lien Waiver (Form CCC Cotton 888, referred to in this subpart as "Form 888") if used in lieu of execution of Lienholder's Waiver on the Form SA in accordance with provisions of § 427.1163.

(b) *Cotton represented by order bills of lading.* (1) Form SA executed within the area and during the period such purchases are available.

(2) Order bill of lading in a form acceptable to CCC and representing the cotton tendered for purchase.

(3) If the receiving agency is not a warehouseman, Weight and Condition Certificates complying with the provisions of § 427.1167 and a Receiving Agency's Certificate.

(4) If the sales proceeds are to be obtained direct from the New Orleans office, a Form SB.

(5) Lien Waiver (Form 888) if used in lieu of execution of Lienholder's Waiver on the Form SA in accordance with provisions of § 427.1163.

(c) *Sales documents executed by an administrator, executor, or trustee.* Sales documents executed by an administrator, executor, or trustee will be acceptable only where valid in law. State documentary revenue stamps shall be affixed to sales documents where required by law. A producer who desires to appoint an attorney-in-fact to act in his place and stead in selling his cotton shall use Power of Attorney (Form CCC Cotton 77) which must be filed with the New Orleans office. Only one attorney-in-fact shall be appointed in each Power of Attorney.

§ 427.1159 Approved storage.

Warehouse-stored cotton will be accepted for purchase by CCC only if stored in warehouses approved by CCC. Warehousemen desiring approval of their facilities should communicate with the New Orleans office. The names of approved warehouses may be obtained from the New Orleans office or State or county offices.

§ 427.1160 Warehouse receipts and insurance.

Only negotiable machine card type warehouse receipts, acceptable to CCC, issued by an approved warehouse, and properly assigned by an endorsement in blank so as to vest title in the holder or issued to bearer, will be acceptable in connection with sales to CCC. The warehouse receipts must show that the cotton is covered by fire insurance and that warehouse charges have been paid as provided in § 427.1166. The warehouse receipts must contain the gin bale number and must be dated on or prior to the date of the Producer's Sales Agreement. Each receipt must set out in its written or printed terms a description by tag number and the weight of the bale represented thereby and all other facts and statements required to be stated in the written or printed terms of a warehouse receipt under the provisions of section 2 of the Uniform Warehouse Receipts Act. Block warehouse receipts will not be accepted without prior approval by CCC.

§ 427.1161 Weight, purchase rate, and amount.

(a) *Weight.* Purchases will be made on the gross weight of each bale. The gross weight of the bale shall be the gross weight shown on the warehouse receipt if cotton represented by warehouse receipts is purchased, or on the gross weight shown on the Weight and Condition Certificate (see § 427.1167(c)) if cotton represented by an order bill of lading is purchased. Forms SA covering cotton offered for sale to CCC on reweights will not be accepted if it is evident that such reweights reflect an increase in weight due to the absorption of additional moisture. In order to encourage improved wrapping methods and compensate for resulting reduced tare weight in purchasing upland cotton wrapped with material under the Experimental Bale Packaging Program, there will be added to the gross weight of the bale an allowance equal to the number of pounds shown on the program bale tag to be necessary "to adjust to normal gross weight" under such programs. No allowances other than those provided for in this subsection will be made.

(b) *Purchase rate.* (1) The base purchase rate applicable to Middling 1-inch cotton at each approved warehouse will be shown in the Schedule of Base Purchase Rates for Choice (A) Cotton (which will be issued about June 15, 1960).

(2) The premium or discount applicable to each other eligible grade and staple length is shown in § 427.1171.

(3) The purchase rate for cotton (i) for which the classification memorandum shows a reduction in grade shall be two cents a pound less than the purchase rate for the quality (grade and staple length) to which the cotton is reduced, except that the purchase rate for cotton which is reduced not more than two grades because of preparation will be the purchase rate for the quality to which it is reduced, or (ii) for which the classification memorandum shows that the cotton has been designated as "Wasty" shall be four cents a pound less than the purchase rate for the quality (grade and staple length) shown on the classification memorandum.

(4) The purchase rate for bales weighing from 275 through 349 pounds, gross weight, will be reduced one cent per pound, and the purchase rate for bales weighing from 626 through 700 pounds, gross weight, will be reduced one-half cent per pound.

(c) *Amount.* The amount due the producer will be determined by multiplying the gross weight as determined in paragraph (a) of this section by the applicable purchase rate as determined in paragraph (b) of this section. After the cotton is purchased, CCC will not be obligated to make adjustments in the amount of the purchase as a result of any subsequent redetermination of the weight or quality of the cotton.

§ 427.1162 Preparation of documents.

(a) A producer desiring to sell eligible warehouse-stored or bill of lading cotton may obtain the necessary forms from county offices, approved purchasing agencies, and approved warehouses. The purchasing agency will assist the producer in the preparation and execution of the Form SA, except as provided below. All applicable blanks on the purchase forms must be filled in with ink, indelible pencil, or typewriter in the manner indicated therein, and documents containing additions, alterations, or erasures may be rejected by CCC (Forms SA having a date prior to March 17, 1960, shall not be used). All copies should be clearly legible. The spaces provided on Form SA for the producer to request and direct payment of the sales proceeds must be completed in every instance. All disbursements made from the proceeds of a sale must be shown, and the total must agree with the amount of the sale. No deduction may be made from the sales proceeds by the purchasing agency as a charge for preparing (or handling) the documents. Care should be exercised by the purchasing agency to determine that the producer and the cotton are eligible and that the warehouse receipts or bills of lading are genuine. Before a purchasing agency prepares documents for a producer, it must require the producer to present his marketing card so the purchasing agency can determine whether the producer is eligible to sell his cotton to CCC. The marketing cards issued by the county office will indicate the producer's eligibility. If the producer's 1960 Choice (A) marketing card is Form MQ–76–A—Upland Cotton (a green card), the purchasing agency will use this as evidence that the producer is eligible to sell his cotton to CCC. If the producer's 1960 marketing card is Form MQ–76–R—Upland Cotton (a red card) and the boxes following the words "1960 Choice (A)" and "Not eligible unless price support documents approved by county committee" contain an "X," the purchasing agency shall inform the producer that in order for him to sell his cotton to CCC he must have the Certifi-

cate of Agricultural Stabilization and Conservation County Committee on Form SA executed by the county office manager (or a county office employee designated by him). If the box on Form MQ-76-R—Upland Cotton following the words, "Not eligible" contains an "X," the cotton produced on the farm for which the marketing card was issued is not eligible for price support under any condition, and the producer should be so informed by the purchasing agency. In any case where a Marketing Certificate for Penalty Free Upland Cotton, Form MQ-91—Cotton (Upland), is presented to a purchasing agency in lieu of a 1960 Choice (A) upland cotton marketing card, the purchasing agency shall inform the producer that in order for him to sell his cotton to CCC he must have the Certificate of Agricultural Stabilization and Conservation County Committee on the Form SA executed by the county office manager (or a county office employee designated by him). If it is determined that the cotton is eligible to be sold to CCC, the Certificate of Agricultural Stabilization and Conservation County Committee shall be executed as prescribed in the preceding sentence, and the serial number of the Marketing Certificate for Penalty Free Upland Cotton shall be inserted by the county office in the space provided for the Marketing Card Serial Number on the Form SA. Purchasing agencies which are also eligible producers must sell cotton produced by them direct to the New Orleans office or to another approved purchasing agency. If a purchasing agency, or any officer, employee, or agent of such purchasing agency, holds a power of attorney from an eligible producer who desires to sell his cotton to CCC, the cotton must be sold direct to the New Orleans office or to another purchasing agency.

(b) The Purchasing Agency's Certificate on each Form SA tendered for purchase by CCC must be executed by the purchasing agency making the purchase from the producer. The original of Form SA must be signed by the producer in the presence of the person who signs the Purchasing Agency's Certificate except that, if the producer is a nonresident applicant, such producer may sign the Form SA in the presence of the county office manager of any ASC county office, and the county office manager shall enter his signature and title in the space provided for Witness to Signature. The copy marked "producer's copy" is to be retained by the producer. Purchase forms must not be signed in blank. All applicable entries, except entries in the Agreement of Warehouseman, must be completed prior to the time the form is signed by the producer and the purchasing agency. If the Agreement of Warehouseman on Form SA is not executed prior to payment of the purchase price, the purchasing agency shall require the producer to pay charges due the warehouseman according to § 427.1166 and, before tendering the purchase documents to CCC, shall present the Form SA, class cards, and warehouse receipts to the warehouseman for execution of the Agreement of Warehouseman on Form SA and for stamping of the warehouse receipts to reflect the date through which charges have been paid. The proper status of the producr (i.e., whether landowner, landlord, tenant, or sharecropper) must be shown in the space provided therefor on Form SA. The producer's correct percentage share of the cotton must be shown in the space provided therefor on Form SA if he has reason to believe that the total amount of price support advances which could be obtained by or for him (including any price support advances obtained in his name for sharecroppers or tenants) on upland cotton under the 1960 price support programs of CCC would exceed $50,000, unless he has qualified for an exemption from the $50,000 limitation in Public Law 86-80. If a producer's correct percentage share in the cotton is required to be shown, such producer must have the same percentage share in all cotton listed in the Schedule of Cotton Sold on a particular Form SA, and separate Forms SA must be used for each lot of cotton in which the producer's share is different. All persons claiming liens on the cotton must sign the Lienholder's Waiver on the Form SA except that in lieu of signing the Lienholder's Waiver on each Form SA, the lienholder may waive his lien on all cotton produced on a farm by executing Form CCC Cotton 888 as provided in § 427.1163. Cotton of various grades and staple lengths may be included on one Form SA. All of the cotton on a Form SA must be stored in the same warehouse, and the gin bale number of each bale must be entered in the applicable column of the Schedule of Cotton Sold on the Form SA. When the cotton has been designated by the notation "Wasty" on the cotton classification memorandum, the notation "Wasty" must be entered in the column headed "Reduced from A/C or Wasty" in the Schedule of Cotton Sold. Not more than 999 bales shall be included on any one Sales Agreement. When a producer has two or more Choice (A) farms, the cotton produced on different farms shall not be entered on the same Form SA.

(c) County ASC offices will maintain a file of Forms SA and a record of the cotton sold to CCC from each Choice (A) farm as reflected by the county office [illegible] of the Forms SA.

§ 427.1163 Liens.

Eligible cotton tendered for purchase must be free and clear of all liens except the warehouseman's lien for charges permitted under § 427.1166 on warehouse-stored cotton. The signatures of the holders of all existing liens on cotton tendered for purchase by CCC, such as landlords, laborers, or mortgagees (but not the warehouseman, if the cotton is stored in a warehouse) must be obtained on the Lienholder's Waiver on each Form SA, except that in lieu of signing the Lienholder's Waiver on each Form SA, the lienholder may waive his lien on all cotton produced on a farm for the crop year designated by executing a Lien Waiver (Form 888). The original of the Form 888 must be attached securely to the first Form SA on which the Lienholder's Waiver is not executed for the particular lien so as to be recorded and filed at the New Orleans office. Thereafter, the Lienholder's Waiver on Forms SA covering additional cotton produced on the farm shall show the words "See Form 888 on file." An executed copy must be filed by the producer selling the cotton with each purchasing agency which disburses the proceeds of any Form SA executed by the producer. Additional copies may be prepared and retained by the producer and agency as desired. A fraudulent representation, as to prior liens or otherwise, will render the producer personally liable under the terms of the Sales Agreement and subject him, and any other person who causes the fraudulent representation to be made, to criminal prosecution under the provisions of the Commodity Credit Corporation Charter Act. The Lienholder's Waiver or Lien Waiver must be signed personally by all lienholders, by their agents (in which case duly executed Powers of Attorney (Form 77) must be filed with the New Orleans office), or if a corporation, by the designated officer thereof customarily authorized to execute such instruments (in which case no authority need be attached).

§ 427.1164 Setoffs.

(a) If any installment or installments on any loan made available by CCC on farm-storage facilities or mobile drying equipment are payable, under the provisions of the note evidencing such loan, out of any amount due the producer under the program provided for in this subpart, the producer must designate CCC or the lending agency holding such note as payee of such amount to the extent of such installments, but not to exceed that portion of the amount remaining after deduction of amounts due prior lienholders.

(b) If the producer is indebted to CCC, or if the producer is indebted to any other agency of the United States, and such indebtedness is listed on the county debt record, amounts due the producer under the program provided for in this subpart, after deduction of amounts payable on farm-storage facilities or mobile drying equipment and other amounts provided in paragraph (a) of this section, shall be applied, as provided in the Secretary's Setoff Regulations, Title 7, Part 13, CFR (23 F.R. 3757), to such indebtedness.

(c) In any case referred to in paragraphs (a) and (b) of this section, the producer must go to the county office in the county in which he is listed on the debt record and have the Certificate of Agricultural Stabilization and Conservation County Committee on Form SA executed by the county office manager (or a county office employee designated by him). Any amount which is to be set off must be entered in the space provided in the Producer's Sales Agreement by the county office manager (or an employee designated by him).

(d) Compliance with the provisions of this section shall not deprive the producer of any right he might otherwise have to contest the justness of the indebtedness involved in the setoff action either by administrative appeal or by legal action.

§ 427.1165 Classification of cotton.

(a) All cotton tendered for purchase must be classed by a Board of Cotton Examiners of the United States Department of Agriculture (referred to in this subpart as the "Board") and tendered on the basis of such classification. Only Cotton Classification Memorandum Form 1 and Form A3 of the United States Department of Agriculture will be acceptable as proof of quality when the cotton is sold to CCC. A Cotton Classification Memorandum Form 1 will be accepted only if the sample was a representative sample drawn in accordance with instructions to organized cotton improvement groups for sampling cotton under the 1960 Smith-Doxey Program. If the producer's cotton has not been sampled for a Form 1 classification, the warehouseman (for warehouse-stored cotton) or receiving agency (for cotton covered by bills of lading) shall sample such cotton and forward the samples to the Board serving the district in which the cotton is located. A Cotton Classification Memorandum Form A3 must be inserted in each such sample. A Tag List and Record Sheet (CCC Cotton Form L, referred to in this subpart as "Form L") must be prepared by the warehouseman or receiving agency listing each sample included in a shipment to the Board. A copy of such Form L shall be included with the samples, and the original and two copies must be mailed separately to the Board. The Board will enter the classification of each bale on the Form L and return a copy of such form to the warehouse or receiving agency. The Cotton Classification Memorandum Form A3 will be returned to the producer by the Board. If a sample has been drawn and submitted for a Form 1 or Form A3 classification, another sample may not be drawn and forwarded to a Board except for a review classification. If through error or otherwise, in any case where review classification is not involved, two or more samples from the same bale are submitted for classification, the purchase rate shall be based on the classification having the lower purchase rate. If a Form 1 or Form A3 review classification is obtained, the purchase rate for the cotton represented thereby will be based on such review classification.

(b) A charge of 25 cents per bale shall be collected from the producer by the warehouseman or receiving agency for all cotton for which samples are submitted to a Board for a Form A3 classification or a Form 1 or A3 review classification. The Boards will submit billings for classing charges to the warehouseman or receiving agencies at the end of each month. Checks or money orders covering these charges shall be made payable to "Commodity Credit Corporation" and shall be sent to the New Orleans office.

§ 427.1166 Warehouse charges.

(a) All warehouse charges for storage and for other services performed (except compression) must be paid by the producer to the end of the calendar month during which the Agreement of Warehouseman on the Form SA is executed by the warehouseman. The warehouseman must stamp each warehouse receipt to reflect the date through which such charges have been paid. The Agreement of Warehouseman on each Form SA must be executed by the warehouseman storing the cotton covered by the Form SA not more than 10 days preceding the date of the Producer's Sales Agreement on the Form SA. By executing the Agreement of Warehouseman on the Form SA, the warehouseman agrees that such cotton will be stored and handled in accordance with the Warehouseman's Certificate and Agreement on the reverse side of the Form SA and makes the representations contained therein, and the warehouseman further agrees to store such cotton under conditions and at rates determined as follows:

(b) The cotton shall be insured against loss or damage by fire under a policy or policies providing coverage equivalent to that afforded under the standard fire policy of the State in which the cotton is stored for the full market value (if the cotton is compressed, its market value shall be the market value of flat cotton plus compression charges, or if the cotton is uncompressed and the warehouseman desires to collect his delivery charge for flat cotton in lieu of compression if it is destroyed by fire, such charge must be covered by insurance) at the time and place of loss and shall be kept so insured so long as the warehouse receipts therefor are outstanding, unless the cotton comes under a storage agreement between the warehouseman and CCC allowing the warehouseman to cancel his insurance on the cotton. Such insurance shall cover damage to the cotton by water from the warehouseman's sprinkler system when such damage results from fire in the same warehouse in which the cotton is stored. From the dates through which the producer has paid storage charges through July 31, 1961, all charges on the cotton for storage and insurance shall be at the rate of 46 cents per bale per month or fraction thereof for flat or compressed cotton stored in warehouses operating compress facilities or compressed cotton stored in warehouses not operating compress facilities, and at the rate of 51 cents per bale per month or fraction thereof for flat cotton stored in warehouses not operating compress facilities, or the warehouseman's established tariff on cotton other than CCC cotton, whichever is less: *Provided*, That on any cotton transferred prior to July 31, 1961, to another warehouseman without movement of the cotton, and for which new warehouse receipts must be issued, or on any cotton shipped by CCC prior to July 31, 1961, at the request of the warehouseman to permit the warehouseman to discontinue the storage of cotton, payment for the fractional part of the storage month prior to the date of such transfer or shipment shall be paid by CCC at the proportionate part of the monthly rate. If the warehouse operates compress facilities, the tariff rate to which reference is made herein shall be the rate applicable to compressed cotton regardless of the compression status of the cotton. Such charges, accrued through July 31 of any year in which these rates are in effect, shall be paid by CCC, as soon as possible after such date, on all of the cotton represented by warehouse receipts held by CCC at the time of payment. The charges for delivery or outhandling, including picking out by tag numbers and loading according to custom into cars or trucks, shall not exceed 25 cents per bale in case cotton is shipped by CCC at the request of the warehouseman and 50 cents per bale in any other case where cotton is shipped by CCC, or in either case, the warehouseman's established tariff, whichever is less: *Provided*, That no such outhandling charge may be made where collection for the service has been included in any other charge or otherwise collected. Charges for compression of cotton by the warehouseman, including compression charges on cotton compressed to standard density by the warehouseman at his gin, will be at the rates provided in the warehouseman's established tariff in effect at the time the service is ordered performed. Compression charges on cotton compressed to standard density for the warehouseman at a gin or another warehouse under contract with the warehouseman will be at the rate which the warehouseman pays the ginner or the other warehouseman. In no event shall compression charges on gin compressed cotton or cotton compressed by another warehouseman exceed the rate paid to the ginner or the other warehouseman by his customers on all other cotton. Charges for the compression of cotton will be

paid by CCC only if the charges have not been paid by the producer, and if the cotton is shipped from the warehouse by CCC. All other charges on cotton including flat delivery charges on cotton moved from a warehouse operating compress facilities without payment of compression charges, will be at the rates provided in the warehouseman's established tariff in effect at the time the service is ordered performed: *Provided*, That no charge may be made with respect to the cotton that is not applicable to cotton other than CCC cotton stored by the warehouseman, except that the warehouseman may make a charge of not to exceed 25 cents per bale for transmitting samples to the designated classing office, postage, verifying and guaranteeing the correctness of the information for which the warehouse is responsible in the Schedule of Cotton Sold on the Form SA, and executing the Agreement of Warehouseman on the Form SA, if such charges are included in the warehouseman's tariff: *And provided further*, That in no event shall such charge, a service charge or charges for receiving, tagging, weighing, sampling on arrival, or storage of samples, be collected from CCC or a purchaser of the cotton. No charge for standard density compression or for delivery or outhandling, except as provided in this section, will be paid with respect to cotton received by the warehouseman which has been compressed to standard density either by a gin (gin compress bale) or by another warehouseman. No charge of any kind whatsoever will be paid with respect to any of the cotton compressed to high density without the written authority of CCC. The warehouseman shall execute and submit to CCC with each voucher for amounts payable by CCC under this agreement the following certificate:

I hereby certify that, since the cotton covered by this voucher was received at the warehouse, there has been removed from such cotton only that amount of cotton necessary to secure representative samples, to properly trim the sample holes, or to otherwise maintain the cotton in the interest of good housekeeping and fire prevention incidental to the handling, storage, or compressing of said cotton except for reconditioning of damaged cotton, and that since issuance of warehouse receipts thereon such cotton has not been reconditioned, picked, or cleaned by blowing or brushing except as noted on report attached hereto or to a previous voucher covering such cotton.

The warehouseman shall store the cotton so that the tags will be visible and readily accessible so as to permit an accurate check of stocks at any time. The rates quoted herein will remain in effect through July 31, 1961, and will remain in effect thereafter until terminated by CCC or the warehouseman on July 31, 1961, or at the end of any subsequent month by giving the other at least 30 days' prior notice, or until the cotton comes under another storage agreement between the warehouseman and CCC, whichever is earlier. If the cotton is sold by CCC, the storage rates provided in this section shall be applicable for storage service rendered up to and including the last day of the calendar month in which the sale is made, and the warehouseman shall not charge the holder of the warehouse receipts representing such cotton for such storage service an amount in excess of that computed in accordance with this agreement. The terms and provisions of this section shall prevail over the written or printed terms of the warehouse receipts representing the cotton.

§ 427.1167 Purchase of cotton represented by order bills of lading.

(a) Purchases of cotton represented by order bills of lading will be made only in areas and during the periods specified by the New Orleans office where there is a shortage of storage space and where the necessary arrangements for handling the cotton may be made.

(b) Cotton represented by order bills of lading will be eligible for purchase only when it is shipped by an approved receiving agency as agent for the producer. Warehousemen, ginners, and other responsible parties in areas where such purchases will be made may be approved to act as receiving agencies by the New Orleans office. Receiving agencies will enter into Receiving Agency Agreements with CCC. When receiving agencies are approved, notifications will be given by letter or published lists.

(c) A producer in any such area who is unable to find storage space in his local area and who desires to sell his cotton to CCC should deliver his cotton to a receiving agency with the request that it ship the cotton as agent for the producer, in accordance with shipping instructions furnished by CCC, to a warehouse where storage space is available. The receiving agency will complete the Schedule of Cotton Sold on a Form SA, and if it is a warehouseman, will execute the Agreement of Warehouseman thereon. If the receiving agency is not a warehouseman, it will have the cotton weighed by a public or licensed weigher and will secure a Weight and Condition Certificate in the form prescribed by CCC and execute the Receiving Agency's Certificate. The receiving agency will ship the cotton, secure order bills of lading in a form acceptable to CCC, and deliver to the producer the bills of lading, together with the Form SA and Weight and Condition Certificates (if any). If the receiving agency is a warehouseman, it will be permitted to collect fees in accordance with § 427.1166 and a fee of not to exceed 10 cents per bale to cover the costs of preparation of shipping documents. If the receiving agency is not a warehouseman, it will, for the purpose of payment of gin compression only, be considered as a warehouseman, and will be permitted to collect from CCC charges for gin compression as provided in § 427.1166, and will be permitted to collect from producers a fee not in excess of the fee set forth in the Receiving Agency Agreement executed by the receiving agency, and shall post in a conspicuous place a notice showing the fee to be charged producers. Purchases will be made at the full purchase rate at the point where the receiving agency receives the cotton. If the receiving agency is a warehouseman, CCC will not pay any storage charges on such cotton.

§ 427.1168 Manner of payment to producers.

Purchases of cotton under the 1960 Cotton Purchase Program will ordinarily be made by purchasing agencies acting as agents for CCC. In such case, the producers must tender a Cotton Producer's Sales Agreement, together with forms required in § 427.1158, to the purchasing agency not later than April 30, 1961. After completion of the Form SA in accordance with § 427.1162, the purchasing agency will pay the purchase price on behalf of CCC in the manner directed in the Producer's Sales Agreement on such Form SA and will distribute the copies of Form SA in accordance with the provisions of the Purchasing Agency Agreement. A producer may also obtain payments direct from CCC by tendering a properly executed Form SA, together with forms required in § 427.1158, to the New Orleans office not later than April 30, 1961. In case payment is to be obtained direct from CCC, the sales documents shall be transmitted to the New Orleans office by the county office of the county in which the producer's farm is located.

§ 427.1169 Tender of Forms SA by purchasing agencies.

Forms SA evidencing purchases of eligible Choice (A) cotton made by a purchasing agency which has entered into Cotton Purchasing Agency Agreement with CCC (Form CCC Cotton SD) prior to the purchase of the cotton will be eligible for tender to CCC. The Forms SA and other required purchase documents must be tendered on a Purchasing Agency's Letter of Transmittal (CCC Cotton Form SC). Separate Forms SC shall be used for listing Forms SA covering warehouse-stored cotton which is to be retained for sale locally; Forms SA covering warehouse-stored cotton which is not to be retained for sale locally; and Forms SA covering cotton represented by order bills of lading. Separate Forms SC shall also be used for Forms SA covering cotton produced in different counties. A purchasing agency which purchases Choice (A) cotton for CCC may tender the required purchase documents as specified in § 427.1158 to CCC directly or through another purchasing agency. Such tender shall be in accordance with the provisions of Form SD and shall be made within 15 days after execution of the Producer's Sales Agreement on the Forms SA. Upon receipt of the documents by CCC, they will be examined and if found to be acceptable, the purchasing agency designated on the Form SC will be reimbursed by CCC. The required purchase documents will be the Cotton Producer's Sales Agreement (CCC copy together with county office copy) and the warehouse receipts (or a tag list receipted by the custodian bank where applicable) or order bills of lading. Purchasing agents will have the following options in tendering documents to and obtaining reimbursement from CCC (all cotton listed on a Form SC must be submitted under the same option):

(a) If the purchasing agency has not entered into a Cotton Sales Agency Agreement with CCC, such tender may be made direct to the New Orleans office or through another approved purchasing agency (including a banking institution which has been approved to obtain immediate payment by drawing drafts on CCC or an approved sales agency).

(b) If the purchasing agency has entered into a Cotton Sales Agency Agreement with CCC but does not desire to retain for sale cotton covered by the sales agreements listed on a particular letter of transmittal, it shall tender the purchase documents covering such cotton directly to the New Orleans office or through another purchasing agency as set forth in paragraph (a) of this section.

(c) If the purchasing agency has entered into a Cotton Sales Agency Agreement with CCC and desires to retain, for sale locally, the cotton covered by the sales agreements listed on a particular letter of transmittal, it shall tender the purchase documents covering such cotton to CCC through the custodian bank (selected by the agency and approved by CCC) which will retain the warehouse receipts representing such cotton. In this case the agency shall prepare and submit to the custodian bank a tag list, in duplicate (on a form prescribed by CCC), of the warehouse receipts covered by the sales agreements listed on the letter of transmittal. If a reconcentration order number has been entered on a sales agreement, the cotton covered by such sales agreement cannot be retained for sale locally (since it will be reconcentrated), and the purchase documents must be tendered to CCC.

§ 427.1170 Choice (A) recourse loans.

(a) *General.* Producers who have not qualified for an exemption from the $50,000 limitation on nonrecourse price support contained in Public Law 86-80 through reduction of their production of cotton may obtain price support by means of recourse loans on their Choice (A) cotton in excess of that which may be tendered for purchase under this subpart. Except as provided herein, these recourse loans will be made by CCC under the same terms and conditions as loans are made to producers on Choice (B) cotton under the provisions of 1960 CCC Cotton Bulletin 1 (Subpart—1960 Cotton Loan Program Regulations of this Part 427—Cotton). The necessary forms may be obtained from county offices.

(b) *Eligible producer.* A producer will be entitled to a recourse loan on eligible cotton produced by him in 1960 on a farm (as defined for purposes of cotton marketing quotas) for which the operator has elected the Choice (A) allotment in accordance with the Acreage Allotment Regulations for the 1960 Crop of Upland Cotton (24 F.R. 8430 and any amendments or supplements thereof) if all the following requirements are met:

(1) The 1960 planted acreage (as determined for purposes of cotton marketing quotas) of cotton on the farm does not exceed the 1960 Choice (A) cotton acreage allotment for the farm. For the purpose of determining eligibility under this program, the cotton acreage on the farm will not be deemed to be in excess of the acreage allotment unless the acreage allotment is knowingly exceeded. If the producer operating the farm is notified that the acreage allotment has been exceeded, and the planted acreage is not adjusted to the acreage allotment within the period allowed under the notice, the acreage allotment shall be deemed to have been knowingly exceeded by all producers having an interest in the cotton.

(2) Where eligible cotton is produced by a landlord and his share tenant or sharecropper, a loan may be obtained only as follows:

(i) If the cotton is divided among the producers entitled to share in such cotton, each landlord, tenant, or sharecropper may obtain a loan on his separate share.

(ii) If the cotton is not divided, all producers having a share in the cotton may obtain a joint loan on such cotton, or the landlord may obtain a loan on cotton in which both he and one or more share tenants or sharecroppers have an interest if he has the legal right to do so, and in such cases the share tenants or sharecroppers must be paid their pro rata share of the loan proceeds and their pro rata share of any additional proceeds received from the cotton. In no case shall a share tenant or sharecropper obtain a loan individually on cotton in which a landlord has an interest. Except as provided above, two or more producers may not obtain a joint loan on cotton.

(c) *Eligible cotton.* Eligible cotton shall be Choice (A) cotton which was produced in the United States in 1960 on a farm for which the operator elected the Choice (A) allotment and which meets the requirements of subsections (b) through (k) of § 427.1107 of 1960 CCC Cotton Bulletin 1 (Subpart—1960 Cotton Loan Program Regulations of this Part 427—Cotton).

(d) *Time.* Loans will be available from the date on which the producer has sold to CCC all of the Choice (A) cotton which he may sell to CCC under this subpart through April 30, 1961. Note and loan agreements covering the cotton must be signed and delivered to the New Orleans office on or before April 30, 1961, or postmarked not later than such date if tendered to the New Orleans office by mail.

(e) *Source and preparation of documents.* Loans will be available only from the New Orleans office. Loan forms for Choice (A) cotton will be prepared by ASC county offices. The producer must present his 1960 Choice (A) marketing card before the county office will prepare the loan forms. If the producer is a corporation, one or more of the principal stockholders (as determined by CCC) of the corporation must sign the loan note personally, as an individual, in addition to the note being signed by an authorized agent of the corporation on behalf of the corporation. Disbursements on loans will be made to producers by the New Orleans office only.

(f) *Forms.* The words "Choice (A) Recourse Loan" must be typed or stamped in the heading of the Cotton Producer's Note and Loan Agreement (Form CCC Cotton A) and Producer's Letter of Transmittal (CCC Cotton Form B).

(g) *Loan rate.*

(1) The base loan rate applicable to Middling 1-inch cotton at each approved warehouse shall be an amount equal to the base purchase rate applicable to Middling 1-inch cotton shown in the Schedule of Base Purchase Rates for Choice (A) cotton (which will be issued about June 15, 1960).

(2) The premium or discount applicable to each other eligible grade and staple length is shown in § 427.1171 of this subpart.

(h) *Maturity.* Recourse loans mature on April 30, 1962, and producers are required to pay the amounts due on such loans on or before such date. In the event a producer fails to pay the amount due on a loan by April 30, 1962, CCC will have the right, as provided in the loan agreement and 1960 CCC Cotton Bulletin 1, to sell the collateral, and the producer will be liable for any deficiency.

(i) *Repayment by producer.* If a producer desires to obtain the return of his recourse note and the release of the cotton securing the recourse note prior to maturity, he must execute the Producer's Redemption Request on the front of the Producer's Loan Statement—A and submit it in accordance with the provisions of 1960 CCC Cotton Bulletin 1. The producer shall not transfer either his right to redeem the Choice (A) cotton securing the recourse loan or his remaining interest in the cotton. The Producer's Equity Transfer on the reverse side of the Producer's Loan Statement—A may not be used in connection with such recourse loans.

§ 427.1171 Schedule of premiums and discounts for eligible qualities of 1960-crop American upland cotton (basis middling 1-inch).

ANDREW J. MAIR,
Acting Executive Vice President, Commodity Credit Corporation.

[F.R. Doc. 60-5118; Filed, June 6, 1960; 8:46 a.m.]

[1960 Honey Bulletin 1, Amdt. 1]

PART 434—HONEY

Subpart—1960 Honey Price Support Program

The regulations issued by Commodity Credit Corporation with respect to the 1960 Crop Honey Price Support Program (25 F.R. 2785), are amended by revising § 434.1115 to read as follows:

§ 434.1115 Interest rate.

Loans shall bear interest at the rate of 3½ per centum per annum from the date of disbursement of the loan: *Provided*, That if the producer has made a fraudulent representation in the loan documents or in obtaining the loan, the principal amount of the loan and any costs incurred by CCC shall bear interest from the date of disbursement at the rate of 6 per centum per annum.

(Sec. 4, 62 Stat. 1070 as amended; 15 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 201, 401, 63 Stat. 1052, 1054; 15 U.S.C. 714c, 7 U.S.C. 1446, 1421)

Issued this 1st day of June 1960.

ANDREW J. MAIR,
Acting Executive Vice President, Commodity Credit Corporation.

Title 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 28—COTTON CLASSING, TESTING, AND STANDARDS

Subpart A—Regulations Under The United States Cotton Standards Act

ABOLISHMENT OF COTTON AND COTTON LINTERS LICENSING PROGRAM

Pursuant to authority contained in the United States Cotton Standards Act, as amended (42 Stat. 1517; 7 U.S.C. 51 et seq.), the regulations under said Act (7 CFR Part 28, Subpart A) are amended as hereinafter set forth to delete all references to licensed cotton classers and licensed cotton linters classers.

This amendment abolishes the licensing program for cotton classers and cotton linters classers effective August 1, 1960. Each classer to whom a license was issued for the 1959–60 season was given written notice of plans to discontinue the program. No objections were received.

The licensing program was established to provide an objective classing service on a fee basis for the public, supplemental to that provided by the Agricultural Marketing Service. The number of licensees and activity under the program have declined steadily to a point where continuation of the program is not considered justified or useful.

The amendment is as follows:

§ 28.2 [Amendment]

1. Paragraphs (k) and (l) of § 28.2 are deleted.

§ 28.67 [Deletion]

2. Section 28.67 is deleted.

§§ 28.80–28.99 [Deletion]

3. The undesignated center head "Licensed Classers" preceding § 28.80 and §§ 28.80 through 28.99 are deleted.

4. Section 28.122 is amended to read as follows:

§ 28.122 Fee for practical classing examination.

The fee for the practical classing examination for cotton or cotton linters shall be $40.00. Any applicant who passes the examination may be issued a certificate indicating this accomplishment.

§§ 28.141, 28.147, 28.150 [Deletion]

5. Sections 28.141, 28.147, and 28.150 are deleted.

6. Section 28.138 is amended to read as follows:

§ 28.138 Classification and comparison; requests, memorandums and certificates.

For each lot or mark of linters which the applicant desires classified or compared separately he shall make a separate written request specifying which of the following forms of service is desired. Only one request within a 30-day period shall be made by the same owner for the classification or comparison of the same linters, except a request for a review determination. If the applicant desires that the samples be returned to him, at his expense, he must indicate this in the request for classification or comparison. If the return of samples is not requested they shall become the property of the Government and shall be disposed of in accordance with law and applicable regulations.

(a) *Form C determination.* The classification of bales of linters sampled under the supervision of an employee of the Department. The classification in such cases shall be evidenced by a Form C certificate which shall be subject to review as provided in § 28.146. Such certificate when it has been reviewed in accordance with § 28.146 shall be deemed to be a final certificate as to the classification shown, within the meaning of section 4 of the act (42 Stat. 1517; 7 U.S.C. 54).

(b) *Form D determination.* The classification or comparison of samples submitted for other than Form C determination. Such classification or comparison shall be evidenced by a Form D memorandum which shall be subject to review as provided in § 28.146.

7. Section 28.139 is amended to read as follows:

§ 28.139 Filing of requests.

All requests for classification or comparison leading to Form D memoranda or Form C certificates shall be filed with the secretary of the Board of Cotton Linters Examiners at Washington, D.C., unless otherwise directed by the Director.

8. Section 28.142 is amended to read as follows:

§ 28.142 Submission of samples.

All samples submitted to a Board of Cotton Linters Examiners for classification or comparison under this subpart shall be delivered or sent to the secretary of the board with all transportation charges thereto prepaid.

9. Section 28.146 is amended to read as follows:

§ 28.146 Reviews.

A review of any Form C or Form D determination may be requested by the owner of the linters from which the sample was drawn, or his agent, within 30 days after the issuance of the original certificate. Such request shall be filed with the secretary of the Board of Cotton Linters Examiners at Washington, D.C., and shall be accompanied by the original classification memorandum or certificate or a statement explaining why the original classification document cannot be submitted. Redrawn samples will be required for reviews except in cases where the original samples have remained in the custody of the Board of Cotton Linters Examiners. When redrawn samples are necessary, they shall be drawn and submitted in accordance with the applicable provisions of §§ 28.138, 28.140, and 28.142. A Form C certificate or Form D memorandum appropriately marked to indicate that it represents a review determination, shall be issued to the applicant requesting the review. The review classification document shall supersede the original classification document.

(Sec. 10, 42 Stat. 1519; 7 U.S.C. 61)

Effective date. This amendment shall become effective on August 1, 1960.

Done at Washington, D.C., this 2d day of June 1960.

ROY W. LENNARTSON,
Deputy Administrator, Agricultural Marketing Service.

[F.R. Doc. 60-5117; Filed, June 6, 1960; 8:45 a.m.]

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

PART 730—RICE

Subpart—1960–61 Marketing Year

DETERMINATION OF COUNTY NORMAL YIELDS FOR 1960 CROP

The regulations contained in § 730.1108 are issued pursuant to and in conformity with the rice marketing quota provisions of the Agricultural Adjustment Act of 1938, as amended, including the amendments to section 301 of that Act which are contained in section 502 of the Agricultural Act of 1956. These amendments provide definitions for county normal yields as follows:

(D) "Normal yield" for any county, in the case of rice, shall be the average yield per acre of rice for the county during the five calendar years immediately preceding the year for which such normal yield is determined, adjusted for abnormal weather conditions and for trends in yields. If for any such year data are not available, or there is no actual yield, an appraised yield for such year, determined in accordance with regulations issued by the Secretary, taking into consideration the yields obtained in surrounding counties during such year and the yield in years for which data are available, shall be used as the actual yield for such year.

(E) In applying subparagraphs (D) and (E), if on account of drought, flood, insect pests, plant disease, or other uncontrollable natural cause, the yield for any year of such five-year period is less than 75 per centum of the average, 75 per centum of such average shall be substituted therefor in calculating the normal yield per acre. If, on account of abnormally favorable weather conditions, the yield for any year of such five-year period is in excess of 125 per centum of the average, 125 per centum of such average shall be substituted therefor in calculating the normal yield per acre.

Prior to the issuance of the regulations for determining county normal yields for 1960 and the determination of county normal yields thereunder, public notice (24 F.R. 8186) was given in accordance with the provisions of the Administrative Procedure Act (5 U.S.C. 1003). No data, views, or recommendations pertaining thereto were submitted pursuant to such notice.

Section 730.1108 is issued to provide the regulations for determining county normal yields and to proclaim the yields for the 1960 crop of rice determined thereunder.

§ 730.1108 County normal yields for 1960 crop rice.

(a) *Regulations.* County normal yields for 1960 crop rice shall be determined by computing the average yield per harvested acre of rice for each county producing rice during the years 1955 through 1959, adjusted for abnormal weather conditions and other uncontrollable natural causes and for trends in yields. Where data for any year are not available, or there was no actual yield, and appraised yield for such year shall be determined on the basis of the yields obtained in surrounding counties during such year and the yield in years for which data are available. Adjustments for abnormal weather conditions and other uncontrollable natural causes shall be made as follows: For any annual yield, including an appraised yield, which is less than 75 per centum of the five-year 1955–59 average yield, 75 per centum of such average shall be substituted therefor; and for any annual yield, including an appraised yield, which is in excess of 125 per centum of the five-year 1955–59 average yield, 125 per centum of such average shall be substituted therefor. The adjustment for trends in yields shall be made by computing the simple average of (1) the 1955–59 average yield per harvested acre of rice for the county, adjusted for abnormal weather conditions and other uncontrollable natural causes as provided in the preceding sentence, and (2) the 1958–59 average yield per harvested acre of rice for the county, similarly adjusted.

(b) *Statistical data.* Section 301(c) of the Agricultural Adjustment Act of 1938, as amended, provides that "The latest available statistics of the Federal Government shall be used by the Secretary in making the determinations required to be made by the Secretary under this act." In accordance therewith, the annual yields of rice for counties in the States of Arkansas, California, Louisi-

ana, Mississippi, Missouri, and Texas used in the determination of county normal yields in this section were the latest official yields determined by the Agricultural Estimates Division, Agricultural Marketing Service, on the basis of its estimate of harvested acres and production of rice in applicable counties of these States during each of the years 1955 through 1959. In the minor rice-producing States of Florida, Illinois, North Carolina, Oklahoma, South Carolina, and Tennessee where no official estimates of county rice yields were available the annual rice yields for the years 1955 through 1959 used in determining the county normal yields in this section for the applicable counties in these States were obtained by special surveys covering all farms producing rice in any of the calendar years 1955 through 1959.

(c) *Proclamation of county normal yields.* County normal yields for 1960 crop rice, determined in accordance with paragraphs (a) and (b) of this section, are as follows:

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[970.306, Amdt. 3]

PART 970—IRISH POTATOES GROWN IN MAINE

Limitation of Shipments

Findings. (a) Pursuant to Marketing Agreement No. 122 and Order No. 70 (7 CFR Part 970), hereinafter referred to as the "order," regulating the handling of Irish potatoes grown in the State of Maine, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (Secs. 1-19, 48 Stat. 31, as amended, 7 U.S.C. 601-674), it is hereby found and determined that the amendment to the limitation of shipments, as hereinafter provided, will establish and maintain such minimum standards of quality and maturity and such grading and inspection requirements as will tend to effectuate such orderly marketing as will be in the public interest, and is not for the purpose of maintaining prices to farmers above the level which is declared to be the policy of Congress to establish thereunder. It is hereby further found and determined that the estimated season average price to growers for potatoes for the marketing season which began in September 1959 will be in excess of the parity level specified in section 2(1) of the said act.

(b) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule making procedure, and that good cause exists for not postponing the effective date of this amendment for 30 days or any other period beyond the date hereinafter specified (5 U.S.C. 1001 et seq.), in that (1) the provisions of the act require that the minimum standards of quality and maturity, as set forth herein, shall be made effective when the season average price to growers for potatoes exceeds the parity level specified in section 2(1) of the act; (2) compliance with this amendment will not require any special preparation on the part of handlers which cannot be completed by the effective date; and (3) this amendment relieves restrictions on the handling of potatoes.

Order as amended. Section 970.306 (24 F.R. 7569, 25 F.R. 1724, 2944) through paragraph (a) thereof is amended to read as follows:

§ 970.306 Limitation of shipments.

During the period from June 8, 1960, through July 16, 1960, no handler shall handle any lot of potatoes unless such potatoes meet the requirements of paragraph (a) of this section or unless such potatoes are handled in accordance with the provisions of paragraphs (b), (c), (d), (e), (f), or (g) of this section.

(a) *Minimum standards of quality and maturity*—(1) *Round varieties.* U.S. No. 1, or better, grade, size A, 2 inches minimum diameter.

(2) *Long varieties.* U.S. No. 2, or better, grade, 1⅞ inches minimum diameter or 3 ounces minimum weight.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674).

Dated June 2, 1960, to become effective June 8, 1960.

S. R. SMITH,
Director,
Fruit and Vegetable Division.

[F.R. Doc. 60-5135; Filed, June 6, 1960; 8:48 a.m.]

Title 13—BUSINESS CREDIT AND ASSISTANCE

Chapter I—Small Business Administration

PART 121—SMALL BUSINESS SIZE STANDARDS

Notice of Availability of SBA Business Loans for Household Movers Industry

In § 121.3-10 add the following note to paragraph (h):

§ 121.3-10 Definition of small business for SBA business loans.

* * * * * * *

(h) * * *

NOTE: Pending further study of the relationship between large interstate van lines and small household movers, freight forwarders, booking and hauling agents and similar enterprises, no such concern will be denied an SBA business loan solely because of its relationship with an interstate van line, provided that its annual receipts have not exceeded $3,000,000 during the concern's most recently completed fiscal year. Applications for SBA business loans submitted by household movers, freight forwarders, booking and hauling agents and similar enterprises must state the amount, if any, of such annual receipts which are directly attributable to the applicant's relationship with an interstate van line.

Dated: June 3, 1960.

PHILIP MCCALLUM,
Administrator.

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 59-KC-2]

PART 600—DESIGNATION OF FEDERAL AIRWAYS

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Modification of Federal Airway and Associated Control Areas; Change of Effective Date

On February 2, 1960, there were published in the FEDERAL REGISTER (25 F.R. 857) amendments to §§ 600.6300 and 601.6300 of the regulations of the Administrator. These amendments, to be effective June 30, 1960, modified VOR Federal airway No. 300 and its associated control areas by extending them from Sault Ste. Marie, Mich., to Lakehead, Ontario, concurrently with the commissioning of a VOR near Whitefish, Mich.

The commissioning date of the Whitefish VOR has been rescheduled. Therefore, it is necessary to postpone the effective date of the above-mentioned amendments until January 12, 1961.

Subsequent to the publication of Airspace Docket No. 59-KC-2 as a final rule, Victor 300 and its associated control areas were further modified by extending them from the Sherbrooke, Quebec, VOR to the Millinocket, Maine, VOR. (Airspace Docket No. 59-NY-25; 25 F.R. 4543.) Since the action contained herein will cause Airspace Docket No. 59-KC-2 to become effective at a later date than Docket 59-NY-25, it is necessary to incorporate the changes to Victor 300 contained in Docket 59-NY-25, with the action being taken in 59-KC-2.

Since this action does not impose a burden on the public, compliance with the notice, public procedure and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), effective immediately, Airspace Docket No. 59-KC-2 is hereby modified as follows:

1. Section 600.6300 is amended to read:

§ 600.6300 VOR Federal airway No. 300 (Lakehead, Ontario, to Wiarton, Ontario; Sherbrooke, Quebec, to Millinocket, Maine).

From the Lakehead, Ont., VOR via the Whitefish, Mich., VOR; Sault Ste. Marie, Mich., VOR including a N alternate via the INT of the Whitefish VOR 034° True and the Sault Ste. Marie VOR 328° True radials; to the Wiarton, Ont., VOR, including a N alternate. From the Sherbrooke, Quebec, VOR to the Millinocket, Maine, VOR.

2. Section 601.6300 is amended to read:

§ 601.6300 VOR Federal airway No. 300 control areas (Lakehead, Ontario, to Wiarton, Ontario; Sherbrooke, Quebec, to Millinocket, Maine).

All of VOR Federal airway No. 300 including N alternates.

3. Delete "effective 0001 e.s.t. June 30, 1960." and substitute therefor "effective 0001 e.s.t. January 12, 1961."

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 31, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5103; Filed, June 6, 1960; 8:45 a.m.]

[Airspace Docket No. 59-KC-67]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Designation of Control Zone

On November 25, 1959, a notice of proposed rule-making was published in the FEDERAL REGISTER (24 F.R. 9480) stating that the Federal Aviation Agency proposed to amend Part 601 and § 601.1103 of the regulations of the Administrator by designating a control zone at Minot AFB, N. Dak., and by modifying the present Minot, N. Dak., control area extension.

As stated in the notice, at present there is no control zone designated at Minot AFB. Designation of a control zone, within a 5-mile radius of Minot AFB, with an extension to the southeast 2 miles either side of the Minot AFB ILS localizer southeast course to the ILS outer marker, will provide protection for aircraft conducting instrument approaches at Minot AFB. In the notice, it was also proposed to modify the Minot control area extension by changing it from a 15-mile radius area centered on the Minot VOR to a 35-mile radius area centered on the geographical center of the Minot AFB. However, subsequent to the issuance of the notice, a jet penetration procedure from the Minot VOR was published. This penetration could not be conducted entirely within the proposed control area extension. Therefore, the Federal Aviation is not modifying the Minot control area extension at this time, but is giving further study to the actual requirements for control area at Minot.

The Air Transport Association submitted a comment to the effect that a conflict will exist between ILS approaches at Minot AFB and VOR approaches to Minot International Airport and that this conflict will call for nonsimultaneous approaches to each airport. The Federal Aviation Agency recognizes that it will not be possible to conduct simultaneous approaches to Minot AFB and Minot International Airport. However, Federal Aviation Agency records show that during calendar year 1959, there were only 459 instrument approaches, or an average of less than two per day, conducted at Minot International Airport. Therefore, due to the limited operations at Minot International, the Federal Aviation Agency considers that non-simultaneous approaches to these two airports can be tolerated without prohibitive delays to either civil or military aircraft. The Air Transport Association also objected to the 35-mile radius control area extension and the comments will be given full consideration prior to the modification of this control area extension.

No other adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), Part 601 (24 F.R. 10530) is amended as follows:

Section 601.2455 is added to read:

§ 601.2455 Minot, N. Dak. (Minot AFB), control zone.

Within a 5-mile radius of the geographical center of the Minot AFB (lati-

tude 48°25'18" N., longitude 101°22'08" W.) and within 2 miles either side of the ILS localizer SE course extending from the 5-mile radius zone to the ILS outer marker (latitude 48°21'01" N., longitude 101°12'43" W.).

This amendment shall become effective 0001 e.s.t., July 28, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 31, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60-5104; Filed, June 6, 1960; 8:45 a.m.]

[Airspace Docket No. 60-KC-48]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

Designation of Control Area Extension

On November 19, 1959, a notice of proposed rule making was published in the FEDERAL REGISTER (24 F.R. 9346) stating that the Federal Aviation Agency was considering an amendment to Part 601 of the regulations of the Administrator which would designate a control area extension at K. I. Sawyer AFB, Marquette, Mich.

As stated in the notice, the Federal Aviation Agency, at the request of the United States Air Force, is designating a control area extension at K. I. Sawyer AFB. The proposal as published in the notice provided for a control area extension within a 40-mile radius of the airbase to provide protection for instrument flight operations being conducted by jet aircraft arriving K.I. Sawyer AFB, and departing on active air defense missions.

The Air Transport Association objected to the southeast portion of the proposed control area extension as it encompasses an area near Escanaba, Mich., which is used for procedure turns on an ADF approach to Runway 18 at the Escanaba airport, and would necessitate each IFR arrival at Escanaba having to secure ATC clearance from the agency having jurisdiction over the proposed area. This could result in an unnecessary delay to aircraft making approaches to the Escanaba airport. The Federal Aviation Agency considers this a valid objection and is modifying the amendment herein to exclude the airspace bounded on the west by longitude 87°20'30" W., and on the north by latitude 46°03'00" N., which lies within a 40-mile radius of K. I. Sawyer AFB. The Air Transport Association also objected to the proposal until the Federal Aviation Agency assures that proper facilities and procedures are available to handle the traffic within the area proposed. The Minneapolis Air Route Traffic Control Center has the capability and will control the traffic in this area until such time as this authority is delegated to approach control at K. I. Sawyer AFB.

No other adverse comments were received regarding the proposed amendment.

Interested persons have been afforded an opportunity to participate in the making of the rule herein adopted, and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530), Part 601 (24 F.R. 10530) is amended by adding the following section:

§ 601.1183 Control area extension (Marquette, Mich.)

That airspace not otherwise designated as control area within a 40-mile radius of the geographical center of K. I. Sawyer AFB (latitude 46°20'54" N., longitude 87°24'05" W.), excluding the airspace within the 40-mile radius bounded on the W. by longitude 87°20'30" W., and on the N by latitude 46°03'00" N.

This amendment shall become effective 0001 e.s.t. July 28, 1960.

(Secs. 307(a), 313(a), 72 Stat. 749, 752; 49 U.S.C. 1348, 1354)

Issued in Washington, D.C., on May 31, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

In the Matter of American Deb Furs, Inc., a Corporation, and Herbert Fischbein and Ethel Harris, Individually and as Officers of Said Corporation

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a New York City furrier with violating the Fur Products Labeling Act by falsely identifying animals producing the fur in certain products; by invoicing which failed to state the country of origin of fur and to reveal that certain fur was dyed, and which set out fictitious "original" prices; and by failing in other respects to comply with labeling and invoicing requirements.

After hearings, the hearing examiner made his initial decision, including findings, conclusion and order to cease and desist, which as modified on review, became on April 18 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That American Deb Furs, Inc., a corporation, and its officers, and Herbert Fischbein, individually and as an officer of said corporation, and respondents' representatives, agents and employees, directly, or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or the sale, advertising or offering for sale, transportation or distribution, in commerce, of fur products; or in connection with the sale, manufacture for sale, advertising, offering for sale, transportation or distribution of fur products which are made in whole or in part of fur which has been shipped and received in commerce, as "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Misbranding fur products by:

1. Falsely or deceptively labeling or otherwise identifying any such products as to the name or names of the animal or animals that produced the fur from which such product was manufactured.

2. Failing to affix labels to fur products showing each element of information required to be disclosed under section 4(2) of the Fur Products Labeling Act.

3. Failing to set forth the term "Dyed Broadtail processed Lamb" as required by Rule 10 of the "Rules and Regulations under the Fur Products Labeling Act."

4. Setting forth on labels attached to fur products information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder which is mingled with non-required information.

B. Falsely or deceptively invoicing fur products by:

1. Failing to furnish purchasers of the fur products an invoice showing each element of information required to be disclosed under section 5(b)(1) of the Fur Products Labeling Act.

2. Setting forth on invoices pertaining to fur products the name or names of any animal or animals other than the name or names provided for in section 5(b)(1) of the Fur Products Labeling Act.

3. Representing, directly or by implication, that the respondents' regular or usual price of any fur product is any amount in excess of the price at which the respondents have usually and customarily sold such product in the recent regular course of business.

4. Representing, directly or by implication, that any person's regular or usual price of any fur product is any amount in excess of the price at which such person has usually and customarily sold such product in the recent regular course of business.

5. Setting forth information required under section 5(b)(1) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in abbreviated form.

6. Failing to set forth the term "Dyed Broadtail Processed Lamb" as required by Rule 10 of the "Rules and Regulations under the Fur Products Labeling Act."

C. Falsely or deceptively advertising fur products through the use of any advertisement, representation, public announcement, or notice which is intended to aid, promote or assist, directly or indirectly, in the sale, or offering for sale, of fur products and which represents, directly or by implication, that the former, regular or usual price of any fur product is any amount which is in excess of the price at which respondents have formerly, usually or customarily sold such product in the recent regular course of their business.

D. Making pricing claims or representations of the type referred to in paragraph C above, unless there are maintained by respondents full and adequate records disclosing the facts upon which such claims and representations are based.

It is further ordered, That the complaint herein against respondent Ethel Harris, an individual, be, and the same hereby is, dismissed without prejudice to the right of the Commission to take such action in the future as the facts may warrant.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is further ordered, That the respondents, American Deb Furs, Inc., and Herbert Fischbein, shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist as modified.

Issued: April 18, 1960.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

Rudolph Mendiola and Wholesale Fur House

Subpart—Invoicing products falsely: § 13.1108 *Invoicing products falsely:* § 13.1108–45 *Fur Products Labeling Act.* Subpart—*Misbranding or mislabeling:* § 13.1212 *Formal regulatory and statutory requirements;* § 13.1212–30 *Fur Products Labeling Act.* Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 Formal regulatory and statutory requirements: § 13.1852–35 *Fur Products Labeling Act.*

(Sec. 6, 38 Stat. 722; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 719; 15 U.S.C. 45, 69f) [Cease and desist order, Rudolph Mendiola t/a Wholesale Fur House, Houston, Tex., Docket 7436, April 18, 1960]

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a Houston, Tex., furrier with violating the Fur Products Labeling Act by failing to comply with labeling and invoicing provisions.

Setting aside the initial decision on review, the Commission on April 18 issued in lieu thereof its own findings, conclusions and order to cease and desist.

The order to cease and desist, including compliance order, is as follows:

It is ordered, That Rudolph Mendiola, an individual, trading as Wholesale Fur House, or under any other name, and respondent's representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, or offering for sale, in commerce, or the transportation or distribution, in commerce, of fur products, or in connection with the sale, advertising, offering for sale, transportation, or distribution of fur products which are made in whole or in part of fur which has been shipped and received in commerce, as "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

1. Misbranding fur products by setting forth on labels affixed to fur products information required under section 4(2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in handwriting.

2. Falsely or deceptively invoicing fur products by failing to furnish to purchasers of fur products an invoice showing:

(A) All of the information required to be disclosed by each of the subsections of section 5(b)(1) of the Fur Products Labeling Act.

(B) The item number or mark assigned to a fur product.

It is further ordered, That the allegations contained in paragraphs 3, 4(a)(b)(d), 6(a) and 7 through 11 of the complaint be, and they hereby are, dismissed.

It is further ordered, That the respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which he has complied with the order to cease and desist.

Issued: April 18, 1960.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

(Sec. 6, 38 Stat. 722; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 719; 15 U.S.C. 45, 69f) [Cease and desist order, Titche-Goettinger Co., et al., Dallas, Tex., Docket 7628, April 6, 1960]

In the Matter of Titche-Goettinger Company, a Corporation, and L. D. Starr, W. A. Lea, Saul Hirsch, and Henry Kaufman, Individually and as Officers of Said Corporation

This proceeding was heard by a hearing examiner on the complaint of the Commission charging Dallas, Tex., furriers with violating the Fur Products Labeling Act by affixing to fur products labels containing fictitious prices represented thereby as the regular retail prices; and by advertising in newspapers which represented prices of fur products as reduced from regular prices which were, in fact, fictitious, and contained comparative prices without giving a designated time of a bona fide compared price; and by failing to maintain adequate records as a basis for said pricing claims.

Based on a consent agreement, the hearing examiner made his initial decision and order to cease and desist which became on April 6 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents Titche-Goettinger Company, a corporation, and its officers, and L. D. Starr, W. A. Lea, and Saul Hirsch, individually and as officers of said corporation, and respondents' representatives, agents and employees, directly or through any corpo-

rate or other device, in connection with the introduction into commerce, or the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce, of fur products; or in connection with the sale, advertising, offering for sale, transportation, or distribution of fur products which are made in whole or in part of fur which has been shipped and received in commerce, as "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

1. Misbranding fur products by:

(a) Falsely or deceptively labeling or otherwise identifying such products as to the regular prices thereof by any representation that the regular or usual prices of such products are any amount in excess of the prices at which respondents have usually and customarily sold such products in the recent regular course of business.

2. Falsely or deceptively advertising fur products through the use of any advertisement, representation, public announcement, or notice which is intended to aid, promote or assist, directly or indirectly, in the sale, or offering for sale of fur products, and which:

(a) Represents, directly or by implication, that the regular or usual price of any fur product is any amount which is in excess of the price at which respondents have usually and customarily sold such products in the recent regular course of business.

(b) Represents, directly or by implication, that prices of fur products are reduced from previous higher prices without giving the time of such compared previous higher prices.

(c) Misrepresents in any manner the savings available to purchasers of respondents' fur products.

3. Making claims and representations respecting prices and values of fur products unless respondents maintain full and adequate records showing the facts upon which such claims and representations are based.

It is further ordered, That the complaint be, and the same hereby is, dismissed as to respondent Henry Kaufman.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents Titche-Goettinger Company, a corporation, and L. D. Starr, W. A. Lea, and Saul Hirsch, individually and as officers of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: April 6, 1960.

By the Commission.

Title 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER A—INCOME TAX

[T.D. 6468]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Miscellaneous Amendments

On November 24, 1959, notice of proposed rule making with respect to the amendment of the Income Tax Regulations (26 CFR Part 1) under section 1232 of the Internal Revenue Code of 1954 (relating to bonds and other evidences of indebtedness) to reflect the changes made by sections 50 and 51 of the Technical Amendments Act of 1958 (72 Stat. 1642, 1643) and by section 3(e) of the Life Insurance Company Income Tax Act of 1959 (73 Stat. 140) was published in the FEDERAL REGISTER (24 F.R. 9428). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the amendment of the regulations as so published is hereby adopted, subject to the changes set forth below.

Paragraph (b)(4) of § 1.1232–3, as set forth in paragraph 3 of the notice of proposed rule making, is revised—

(A) By striking the last sentence of subdivision (i) thereof and inserting in lieu thereof: "For purposes of this subparagraph, the term "original purchaser" does not include persons or organizations acting in the capacity of underwriters or dealers, who purchased the obligation for resale in the ordinary course of their trade or business. It is not necessary that the issuer's intention to call the obligation before maturity be communicated directly to the original purchaser by the issuer. The understanding to call before maturity need not be unconditional; it may, for example, be dependent upon the financial condition of the issuer on the proposed early call date.

(B) By striking the last sentence of subdivision (ii)(*a*) thereof and inserting in lieu thereof: "The fact that the obligation is issued with provisions on its face giving the issuer the privilege of redeeming the obligation before maturity is not determinative of an intention to call before maturity; likewise, the absence of such provision is not determinative of the absence of an intention to call before maturity. However, such provision, or the absence of such provision, is one of the circumstances to be given consideration along with other factors in determining whether an understanding existed. If the obligation was part of an issue registered with the Securities and Exchange Commission and was sold to the public (whether or not sold directly to the public by the obligor) without representation to the public that the obligor intends to call the obligation before maturity, there shall be a presumption that no intention to call the obligation before maturity was in existence at the time of original issue. The existence of a provision on the face of an obligation giving the issuer the privilege of redeeming the obligation before maturity shall not in and of itself overcome the presumption set forth in the preceding sentence."

This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] CHARLES I. FOX, *Acting Commissioner of Internal Revenue.*

Approved: June 1, 1960.

FRED C. SCRIBNER, JR., *Acting Secretary of the Treasury.*

PARAGRAPH 1. Section 1.1232 is amended—

(A) By revising subsections (a)(2) and (c) of section 1232 to read as follows:

§ 1.1232 Statutory provisions; bonds and other evidences of indebtedness.

SEC. 1232. *Bonds and other evidences of indebtedness*—(a) *General rule.* * * *

(2) *Sale or exchange*—(A) *General rule.* Except as provided in subparagraph (B), upon sale or exchange of bonds or other evidences of indebtedness issued after December 31, 1954, held by the taxpayer more than 6 months, any gain realized which does not exceed—

(i) An amount equal to the original issue discount (as defined in subsection (b)), or

(ii) If at the time of original issue there was no intention to call the bond or other evidence of indebtedness before maturity, an amount which bears the same ratio to the original issue discount (as defined in subsection (b)) as the number of complete months that the bond or other evidence of indebtedness was held by the taxpayer bears to the number of complete months from the date of original issue to the date of maturity,

shall be considered as gain from the sale or exchange of property which is not a capital asset. Gain in excess of such amount shall be considered gain from the sale or exchange of a capital asset held more than 6 months.

(B) *Exceptions.* This paragraph shall not apply to—

(i) Obligations the interest on which is not includible in gross income under section 103 (relating to certain governmental obligations), or

(ii) Any holder who has purchased the bond or other evidence of indebtedness at a premium.

(C) *Double inclusion in income not required.* This section shall not require the inclusion of any amount previously includible in gross income.

* * * * *

(c) *Bond with unmatured coupons detached.* If a bond or other evidence of indebtedness issued at any time with interest coupons—

(1) Is purchased after August 16, 1954, and before January 1, 1958, and the purchaser does not receive all the coupons which first become payable more than 12 months after the date of the purchase, or

(2) Is purchased after December 31, 1957, and the purchaser does not receive all the coupons which first become payable after the date of the purchase,

then the gain on the sale or other disposition of such evidence of indebtedness by such purchaser (or by a person whose basis is determined by reference to the basis in the hands of such purchaser) shall be considered as gain from the sale or exchange of property which is not a capital asset to the extent that the fair market value (determined as of the time of the purchase) of the evidence of indebtedness with coupons attached exceeds the purchase price. If this subsection and subsection (a)(2)(A) apply with respect to gain realized on the sale or exchange of any evidence of indebtedness, then subsection (a)(2)(A) shall apply with respect to that part of the gain to which this subsection does not apply.

(B) By adding at the end thereof the following historical note:

[Sec. 1232 as amended by secs. 50 and 51, Technical Amendments Act 1958 (72 Stat. 1642, 1643); sec. 3(e), Life Insurance Company Income Tax Act 1959 (73 Stat. 140)]

PAR. 2. Section 1.1232–1 is amended by revising paragraph (a) thereof to read as follows:

§ 1.1232–1 Bonds and other evidences of indebtedness; scope of section.

(a) *In general.* Section 1232 applies to any bond, debenture, note, or certificate or other evidence of indebtedness (referred to in this section and §§ 1.1232–2 through 1.1232–4 as an obligation) (1) which is a capital asset in the hands of the taxpayer, and (2) which is issued by any corporation, or by any government or political subdivision thereof. In general, section 1232(a)(1) provides that the retirement of an obligation, other than certain obligations issued before January 1, 1955, is considered to be an exchange and, therefore, is usually subject to capital gain or loss treatment; and section 1232(a)(2) provides that in the case of a gain realized on the sale or exchange of certain obligations issued at a discount after December 31, 1954, the amount of gain equal to such discount or, under certain circumstances, the amount of gain equal to a specified portion of such discount, constitutes ordinary income. Section 1232(c) treats as ordinary income a portion of any gain realized upon the disposition of (i) coupon obligations which were acquired after August 16, 1954, and before January 1, 1958, without all coupons maturing more than 12 months after purchase attached, and (ii) coupon obligations which were acquired after December 31, 1957, without all coupons maturing after the date of purchase attached.

PAR. 3. Section 1.1232–3 is amended—

(A) By revising paragraph (a) thereof to read as follows:

§ 1.1232–3 Gain upon sale or exchange of obligations issued at a discount after December 31, 1954.

(a) *General rule*—(1) *Sale or exchange before January 1, 1958.* Gain realized upon the sale or exchange before January 1, 1958, of an obligation issued at a discount after December 31, 1954, and held by the taxpayer for more than six months, shall be considered ordinary income to the extent it equals a specified portion of the "original issue discount", and the balance, if any, of the gain shall be considered as long-term capital gain. The term "original issue discount" is defined in paragraph (b) of this section. The computation of the amount of gain which constitutes ordinary income is illustrated in paragraph (c) of this section.

(2) *Sale or exchange after December 31, 1957.* In the case of gain realized upon the sale or exchange after December 31, 1957, of an obligation issued at a discount after December 31, 1954, and held by the taxpayer for more than six months, section 1232(a)(2)(A) provides that such gain shall be considered ordinary income to the extent it does not exceed—

(i) An amount equal to the entire "original issue discount", or

(ii) If at the time of original issue there was no intention to call the bond or other evidence of indebtedness before maturity, a portion of the "original issue discount" determined in accordance with paragraph (c) of this section,

and the balance, if any, of the gain shall be considered as long-term capital gain. The terms "original issue discount" and "intention to call the bond or other evidence of indebtedness before maturity" are defined in paragraph (b) of this section.

(3) *Obligations issued before January 1, 1955.* Whether gain representing original issue discount realized upon the sale or exchange of obligations issued at a discount before January 1, 1955, is capital gain or ordinary income shall be determined without reference to section 1232.

(B) By adding at the end of paragraph (b) thereof the following new subparagraph:

(b) *Definitions.* * * *

(4) *Intention to call before maturity*—(i) *Meaning of term.* For purposes of section 1232, the term "intention to call the bond or other evidence of indebtedness before maturity" means an understanding between (*a*) the issuing corporation (such corporation is hereinafter referred to as the "issuer"), and (*b*) the original purchaser of such obligation (or, in the case of obligations constituting part of an issue, any of the original purchasers of such obligations) that the issuer will redeem the obligation before maturity. For purposes of this subparagraph, the term "original purchaser" does not include persons or organizations acting in the capacity of underwriters or dealers, who purchased the obligation for resale in the ordinary course of their trade or business. It is not necessary that the issuer's intention to call the obligation before maturity be communicated directly to the original purchaser by the issuer. The understanding to call before maturity need not be unconditional; it may, for example, be dependent upon the financial condition of the issuer on the proposed early call date.

(ii) *Proof of intent*—(*a*) *In general.* Ordinarily the existence or non-existence of an understanding at the time of original issue that the obligation will be redeemed before maturity shall be determined by an examination of all of the circumstances under which the obligation was issued and held. The fact that the obligation is issued with provisions on its face giving the issuer the privilege of redeeming the obligation before maturity is not determinative of an intention to call before maturity; likewise, the absence of such provision is not determinative of the absence of an intention to call before maturity. However, such provision, or the absence of such provision, is one of the circumstances to be given consideration along with other factors in determining whether an understanding existed. If the obligation was part of an issue registered with the Securities and Exchange Commission and was sold to the public (whether or not sold directly to the public by the obligor) without representation to the public that the obligor intends to call the obligation before maturity there shall be a presumption that no intention to call the obligation before maturity was in existence at the time of original issue. The existence of a provision on the face of an obligation giving the issuer the privilege of redeeming the obligation before maturity shall not in and of itself overcome the presumption set forth in the preceding sentence.

(*b*) *Circumstances indicating absence of understanding.* Examples of circumstances which would be evidence that there was no understanding at the time of original issue to redeem the obligation before maturity are—

(*1*) The issue price and term of the obligation appear to be reasonable, taking into account the interest rate, if any, on the obligation, for a corporation in the financial condition of the issuer at the time of issue.

(*2*) The original purchaser and the issuer are not related within the meaning of section 267(b) and have not engaged in transactions with each other (other than concerning the obligation).

(*3*) The original purchaser is not related within the meaning of section 267(b) to any of the officers or directors of the issuer, and he has not engaged in transactions with such officers or directors (other than concerning the obligation).

(*4*) The officers and directors of the issuer at the time of issue of the obligation are different from those in control at the time the obligation is called or the taxpayer disposes of it.

(C) By striking the heading and first sentence of paragraph (c) thereof and inserting in lieu thereof:

(c) *Gain treated as ordinary income in certain cases; computation.* The amount of gain treated as ordinary income under paragraph (a)(1) or (2)(ii) of this section is computed by multiplying the original issue discount by a fraction, the numerator of which is the number of full months the obligation was held by the holder and the denominator of which is the number of full months from the date of original issue to the date specified as the redemption date at maturity.

(D) By inserting between the second and third sentences of example (1) in paragraph (c) thereof the following new sentence: "At the time of original issue,

delivery type contract calling for a stated quantity of certain supplies or services to be delivered pursuant to delivery orders furnished during a designated period of time. The duration of this type of contract is limited to the fiscal year for which such funds are appropriated. Funds are obligated for the total amount of the contract for the fulfillment of a bona fide need of certain supplies or services for the fiscal year for which such funds are appropriated. It normally specifies the individuals or activities authorized to issue orders for delivery on behalf of the Government and in most cases provides for the direct shipment of the supplies involved from the vendor's establishment to the using agency, thereby minimizing expense of Government handling. Although this type of contract is used primarily for commercial type items readily available, or which will be available after a short lead time, it may also be used for non-commercial items.

(b) *Requirements contract.* A requirements contract is an indefinite delivery type contract under which the Government agrees that designated activities are obligated to order all of their purchase requirements for specified supplies or services and the contractor agrees to furnish the specified supplies or services during a designated period of time upon receipt of a delivery order from the Government. Under such an arrangement, funds are obligated for individual purchases each time a delivery order is issued except where the terms of the contract provide for an acceptance of each order by the contractor. When the contract provides for such acceptance, funds are obligated when the contractor has accepted the delivery order. The duration of this type contract may extend beyond the fiscal year for which the contract was executed provided (1) the duration of performance of the contract does not exceed one calendar year, (2) current fiscal year funds are obligated for each delivery order, and (3) the supplies or services to be obtained by each such delivery order are determined to be for the fulfillment of a bona-fide need of the fiscal year involved. When the contract provides no limitation as to the maximum quantity which may be ordered at one time, the contracting officer should not issue delivery orders for what, under the circumstances, may be unreasonable quantities. Generally, the function, purpose, and use of a requirements contract are similar to those of the definite quantity contract.

(c) *Indefinite quantity contract.* An indefinite quantity contract is a combination of a definite quantity contract and a requirements contract, in that the Government is obligated to order a stated minimum quantity of supplies or services, during a specified period and has the option to order quantities in excess of the minimum. Under this arrangement the contractor is obligated to furnish such stated minimum and any additional quantities ordered by the Government under the option. Optional provision of the contract shall state a maximum quantity. In the determination of such maximum, the contracting officer should not establish a quantity greater than may be reasonably expected to be ordered from, or furnished by, the contractor. Up to the stated minimum the contract is in effect a definite quantity contract and funds are obligated upon execution of the contract. In this situation, the duration of the contract is limited to the fiscal year for which such funds are appropriated and for the fulfillment of a bona-fide need of certain supplies or services for that fiscal year. If and when the Government exercises its option of ordering quantities in excess of the minimum, with respect to such quantities, the contract is in effect a requirements contract and funds are obligated upon the issuance of the delivery order or its acceptance by the contractor, depending upon the terms of the contract. In this situation, the duration of the performance of the contract may extend beyond the fiscal year for which the contract was executed provided (1) the entire contract period does not exceed a total period of one calendar year, (2) current fiscal year funds are obligated for each delivery order, and (3) the supplies or services to be obtained by each such delivery order are determined to be for the fulfillment of a bona-fide need of the fiscal year involved.

[C 21, APP, May 18, 1960] (Sec. 3012, 70A Stat. 157; 10 U.S.C. 3012. Interpret or apply secs. 2301–2314, 70A Stat. 127–133; 10 U.S.C. 2301–2314)

R. V. LEE,
Major General, U.S. Army,
The Adjutant General.

[F.R. Doc. 60–5101; Filed, June 6, 1960; 8:45 a.m.]

there was no intention to call the bond before maturity.

(E) By revising paragraph (e) thereof to read as follows:

(e) *Amounts previously includible in income.* Nothing in section 1232 shall require the inclusion of any amount previously includible in gross income. Thus, if an amount was previously includible as income of a taxpayer's income on account of obligations issued at a discount and redeemable for fixed amounts increasing at stated intervals, or, under section 818(b), as amended by the Life Insurance Company Income Tax Act of 1959 (73 Stat. 133) (relating to accrual of discount on bonds and other evidences of indebtedness held by life insurance companies), such amount is not again includible in the taxpayer's gross income under section 1232. For example, amounts includible in gross income by a cash receipts and disbursements method taxpayer who has made an election under section 454 (a) or (c) (relating to accounting rules for certain obligations issued at a discount) are not includible in gross income under section 1232. In the case of a gain which would include, under section 1232, an amount considered to be ordinary income and a further amount considered long-term capital gain, any amount to which this paragraph applies is first used to offset the amount considered ordinary income. For example, on January 1, 1956, A purchases a ten-year bond which is redeemable for fixed amounts increasing at stated intervals. At the time of original issue, there was no intention to call the bond before maturity. The purchase price of the bond is $75, which is also the issue price. The stated redemption price at maturity of the bond is $100. A elects to treat the annual increase in the redemption price of the bond as income pursuant to section 454(a). On January 1, 1960, A sells the bond for $90. The total stated increase in the redemption price of the bond which A has reported anually as income for the taxable years 1955 through 1959 is $7. The portion of the original issue discount of $25 attributable to this period is $12.50, computed as follows:

$$\frac{60 \text{ (months bond is held by A)}}{120 \text{ (months from date of original issue to redemption date)}} \times \$25 \text{ (original issue discount)}$$

However, $7, which represents the annual stated increase taken into income, is offset against the amount of $12.50, leaving $5.50 of the gain from the sale to be treated as ordinary income.

PAR. 4. Section 1.1232–4 is amended by striking the first sentence thereof and inserting in lieu thereof:

§ 1.1232–4 Obligations with excess coupons detached.

Section 1232(c) provides that if an obligation which is issued at any time with interest coupons—

(a) Is purchased after August 16, 1954, and before January 1, 1958, and the purchaser does not receive all the coupons which first become payable more than 12 months after the date of the purchase, or

(b) Is purchased after December 31, 1957, and the purchaser does not receive all the coupons which first become payable after the date of purchase,

any gain on the later sale or other disposition of the obligation by the purchaser (or by a transferee of the pur-

chaser whose basis is determined by reference to the basis of the purchaser) shall be treated as ordinary income to the extent that the fair market value of the obligation (determined as of the time of the purchase) with coupons attached exceeds the purchase price.

Miscellaneous Amendments

The regulations of the Post Office Department are amended as follows:

I. In § 4.4 *Available records*, paragraph (d) is amended to provide that postmasters and postal employees consult with and secure the approval of the General Counsel before complying with a proper subpena duces tecum. As so amended, paragraph (d) reads as follows:

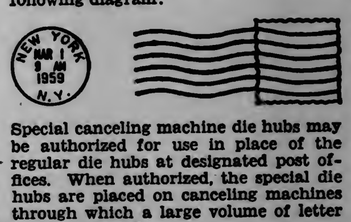
§ 4.4 Available records.

* * * * *

(d) Postmasters and postal employees will comply with a proper subpena duces tecum issued by a court of record only after consulting with and getting approval of the General Counsel of the Post Office Department. When employees are authorized to comply with subpenas duces tecum, they will not leave the records themselves with the court but will leave copies prepared for that purpose.

NOTE: The corresponding Postal Manual section is 114.44.

(R.S. 161, as amended 396, as amended, 5 U.S.C. 22, 369)



II. Part 36—Special Cancellation, as amended by Federal Register document 59—5314, 24 F.R. 5302–5303, is further amended by (1) clarifying the period of time for use of the special cancellations; (2) providing that the wording must relate directly to the event and that illustrations or designs should not be used; (3) adding the requirement that postmasters submit an impression of the cancellation presently in the machine which is to use the special die, and the part numbers of certain dies; (4) inserting a new § 36.5 which requires mailers desiring special cancellations on their mail to pay postage on the mail at first class rate, and prohibits the holding of mail by postmasters to comply with requests that the mail be cancelled on a particular date. As so amended, Part 36 reads as follows:

Sec.
36.1 Description of machine cancellations.
36.2 How sponsors obtain special cancellations.
36.3 Disposition.
36.4 Revocation.
36.5 Mail submitted for special cancellation.

AUTHORITY: §§ 36.1 to 36.5 issued under R.S. 161, as amended, 396, as amended, sec. 1, 2, 42 Stat. 540, as amended; 5 U.S.C. 22, 369, 39 U.S.C. 368, 368a.

§ 36.1 Description of machine cancellations.

The canceling of postage stamps and the printing of the postmark circle on letter mail is accomplished simultaneously by the inked die hubs of high speed canceling machines. The cancellation portion of the impression appears to the right of the postmark circle and consists of lines, or messages, to sufficiently deface stamps in the area indicated in the following diagram:

Special canceling machine die hubs may be authorized for use in place of the regular die hubs at designated post offices. When authorized, the special die hubs are placed on canceling machines through which a large volume of letter mail is canceled.

§ 36.2 How sponsors obtain special cancellations.

(a) *Requirements for use*—(1) *When.* (i) Permission for use of special cancellations is granted for advertising purposes in the following cases only:

(a) Where the event to be advertised is for some national purpose for which Congress has made an appropriation; or

(b) Where the event to be advertised is of general public interest and importance, to endure for a definite period of time, and is not to be conducted for private gain or profit.

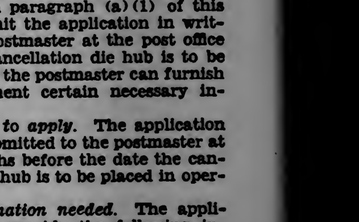
(ii) Special cancellations are not authorized for:

(a) Events of interest primarily to a particular local group.

(b) Fraternal, political, religious, commercial, or trade organizations.

(c) Campaigns or events promoting the sale or use of private products or services.

(d) Idea or slogan promotion not directly connected with an event of general public interest and importance.



(e) Events which occur during a period when all canceling machines in the post office have already been scheduled for the use of other special cancellation die hubs.

(2) *Where.* The cancellation may be used only in a first- or second-class post office.

(3) *Period of time.* The special cancellation may not be used longer than 6 months, plus the duration of the event.

(4) *Cost.* The sponsor must pay the cost of manufacturing the special cancellation die hub, and any costs incurred in adapting canceling machines for its use or for installing the hub. The cost of a die hub is usually $36 to $60. The organization or persons assuming the cost of manufacturing the die hub are billed by the manufacturer.

(b) *Wording.* The space available for the wording is shown in the illustration below. The wording must be limited to 3 lines of not more than 20 letters, numbers, or spaces each, so that the wording may be in type large enough to be legible. The wording must relate direct to the event. Illustrations or designs should not be used because of the limited space available on the die hub.

(c) *Application*—(1) *Where to apply.* If the event to be advertised meets the conditions in paragraph (a)(1) of this section, submit the application in writing to the postmaster at the post office where the cancellation die hub is to be used, so that the postmaster can furnish the Department certain necessary information.

(2) *When to apply.* The application should be submitted to the postmaster at least 2 months before the date the cancellation die hub is to be placed in operation.

(3) *Information needed.* The application must provide the following information:

(i) Complete description of the event to be advertised, including evidence that it is not being conducted for private profit.

(ii) Wording of the proposed cancellation.

(iii) Name of the post office where the cancellation is to be used.

(iv) Period of use desired.

(v) Number of die hubs desired.

(vi) Name and address of the sponsor who will be billed for the cost.

(d) *Referral by postmaster.* The postmaster will forward the application to the Postal Services Division, Bureau of Operations, Post Office Department, Washington 25, D.C. The postmaster must furnish with the application a sample impression of the canceling die presently on the machine that is to use the special cancellation die and the name of the manufacturer and model of the canceling machine on which the special die hub will be used, and must specify whether the machine is new or old (square or round type ring die). If the canceling machine is a Model Flier, M, or G, the postmaster must state the correct die hub part number from the Operating Instruction Book (1207 or 1207–G for Flier and M Machines, and 218 or 218–A for G Machines). The postmaster must also state the effect the approval would have on the use of special

cancellations already approved for his office.

(c) *Authorization.* The sponsor will be informed through the postmaster of the approval or denial of the application. If the application is approved, the Department will arrange for the manufacture of the die hub, and instruct the postmaster as to its use.

§ 36.3 Disposition.

(a) *After use.* Sponsors may not obtain from postmasters die hubs that have been used. Hubs not retained by the postmaster for future use shall be sent by him to the Procurement Parts Unit, Mail Equipment Shops, 2135 Fifth Street NE., Washington 25, D.C., as soon as the period of use is completed.

(b) *Unserviceable die hubs.* (1) Replacement parts for a die hub retained for use during an event which recurs each year may be requisitioned from the Procurement Parts Unit, Mail Equipment Shops, if the die hub can be repaired by the postmaster. Die hubs that cannot be repaired by the postmaster should be sent to the Procurement Parts Unit, Mail Equipment Shops, 2135 Fifth Street NE., Washington 25, D.C., together with a memorandum requesting their disposal. No facilities are available at the Shops for the repair of these die hubs.

(2) When the special cancellation die hub must be replaced, the postmaster will immediately notify the local sponsor so that the sponsor may, if he desires, make application for a replacement through the local postmaster.

§ 36.4 Revocation.

Authorization to use any special cancellation die hub may be curtailed or revoked when necessary to use special postmarking dies for Government purposes.

§ 36.5 Mail submitted for special cancellations.

(a) *Postage.* Mailers requesting that their mail be canceled with a special cancellation must affix first-class postage to the mail. Stamps issued by foreign countries must not be placed on the mail.

(b) *Holding the mail.* Postmasters will not hold mail to comply with requests of patrons that the mail be postmarked with the special cancellation on a particular date.

NOTE: The corresponding Postal Manual Part is 146.

III. In § 61.3 *How to cash a money order,* subparagraph (3) of paragraph (a) as amended by Federal Register Document 60-1647, 25 F.R. 1616-1617, is further amended by deleting the provision for cashing money orders issued at military post offices at foreign branches of United States banks. As so amended, subparagraph (3) of paragraph (a) reads as follows:

§ 61.3 How to cash a money order.

(a) *Where to cash.* • • •

(3) Money orders issued at military post offices are payable only at military post offices and United States military banking facilities, or at post offices or banks located in the United States, its possessions or Territories, and countries with which the United States transacts domestic-international money order business. If the remitter or payee of a money order issued at a military post office transfers ownership by endorsement to another, the endorsee must cash the money order at either a military post office, a United States military banking facility, or a post office located in the United States, its possessions or Territories.

• • • • •

NOTE: The corresponding Postal Manual section is 171.313.

(R.S. 161, as amended, 396, as amended, 4027, sec. 12, 65 Stat. 676, as amended; 5 U.S.C. 22, 369, 39 U.S.C. 246f, 711)

IV. In § 63.7 *Privacy of accounts,* a new paragraph (d) is added to extend authority to furnish information about the balance in a postal savings account to an Internal Revenue agent. As so added, paragraph (d) reads as follows:

§ 63.7 Privacy of accounts.

• • • • •

(d) On request of an Internal Revenue agent investigating a tax deficiency, if the agent has reason to believe the person may have a postal savings account.

NOTE: The corresponding Postal Manual section is 173.7d.

(R.S. 161, as amended, 396, as amended, sec. 1, 36 Stat. 814, as amended; 5 U.S.C. 22, 369, 39 U.S.C. 751)

§ 63.8 [Deletion]

V. Section 63.8 *Nuisance accounts* is deleted.

§ 63.9 [Amendment]

VI. Section 63.9 *Claims* is redesignated as § 63.8 *Claims.* The 20 cents fee charged a depositor for cashing a certificate within 1 month from the date of issue eliminates the necessity for classifying an account with frequent turnover of deposits as a nuisance account.

NOTE: The corresponding Postal Manual sections are 173.8 and 173.9.

(R.S. 161, as amended, 396, as amended, sec. 1, 36 Stat. 814, as amended; 5 U.S.C. 22, 369, 39 U.S.C. 751)

Miscellaneous Amendments

The Commission having under consideration the desirability of making certain editorial changes in Part 63 of its rules and regulations; and

It appearing that the amendments adopted herein are editorial in nature and, therefore, prior publication of Notice of Proposed Rule Making under the provisions of section 4 of the Administrative Procedure Act is unnecessary, and the amendments may become effective immediately; and

It further appearing that the amendments adopted herein are issued pursuant to authority contained in sections 4(i), (5)(d)(1) and 303(r) of the Communications Act of 1934, as amended, and section 0.341(a) of the Commission's Statement of Organization, Delegations of Authority and Other Information;

It is ordered, This 27th day of May 1960 that, effective June 3, 1960, Part 63 is amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U.S.C. 303)

Released: May 31, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

1. Section 63.60(a)(1) and (h) are amended to read:

§ 63.60 Definitions.

• • • • •

(a) • • •

(1) The closure by a carrier of a public telegraph office, a telephone exchange rendering interstate or foreign telephone toll service, a public toll station serving a community or part of a community, or a public coast station as defined in § 7.3 of this chapter; the term "closure" of a public telegraph office includes the substitution of an agency or jointly-operated office for a telegraph office operated directly by the carrier but does not include the substitution of one telegraph agency office for another telegraph agency office, except where an increase in charges to the public results;

• • • • •

(h) "Public toll station" means a public telephone station, located in a community, through which a carrier provides service to the public, and which is connected directly to a toll line operated by such carrier;

2. Section 63.62(d) is amended by adding a proviso (derived from § 63.60 (h)), as follows:

§ 63.62 Type of discontinuance, reduction, or impairment of telephone or telegraph service requiring formal application.

• • • • •

(d) The closure of a public toll station where no other such toll station of the applicant in the community will continue service (for contents of application, see § 63.504): *Provided, however,* That no application shall be required under this part with respect to the closure of a toll station located in a community where telephone toll service is otherwise available to the public through a telephone exchange connected with the toll lines of a carrier;

§ 63.63 [Amendment]

3. Section 63.63(b) is amended by adding a comma after "expiration of such 60-day period".

§ 63.64 [Amendment]

4. Section 63.64(b) is amended by adding a comma after "effective as of the 60th day following the date of filing of such request unless".

§ 63.67 [Amendment]

5. Section 63.67(a)(6) is amended by changing the word "substituted" to "substitute" in two places in the form of notice.

§ 63.68 [Amendment]

6. Section 63.68(a)(6) is amended by changing the word "substituted" to "substitute" in the parenthetical expression in the form of notice.

§ 63.502 [Amendment]

7. Section 63.502(n) is amended by substituting a colon for the semicolon after "If application is for reduction of hours".

[F.R. Doc. 60-5140; Filed, June 6, 1960; 8:48 a.m.]

Proposed Rule Making

POST OFFICE DEPARTMENT

[39 CFR Part 43]

MAILING CHUTES AND RECEIVING BOXES

Procedure for Approving Manufacturers

It is proposed to amend the regulations in § 43.6(h) of Title 39, Code of Federal Regulations, by adding regulations which outline the general procedure to be followed by a firm desiring to have its name placed on the list of approved manufacturers of mailing chutes and receiving boxes.

Although the regulations relate to a proprietary function of the Government, it is the desire of the Postmaster General voluntarily to observe the rule making requirements of the Administrative Procedure Act (5 U.S.C. 1003) in order that patrons of the Postal Service may have an opportunity to present written views concerning the proposed regulations. Accordingly, such written views may be submitted to Mr. L. B. Schoonover, Director, Postal Installations Division, Room 4334, Post Office Department, Washington 25, D.C., at any time prior to the thirtieth day following the date of publication of this notice in the FEDERAL REGISTER.

The proposed amendments are as follows:

In § 43.6 *Mail chutes and receiving boxes*, paragraph (h) is amended by redesignating subparagraphs (1) and (2) as subparagraphs (2) and (3), and by inserting a new subparagraph (1). As so amended, paragraph (h) reads as follows:

§ 43.6 Mail chutes and receiving boxes.

* * * * *

(h) *Mailing chute and receiving box manufacturers.* (1) A firm interested in the manufacture of mailing chutes or mailing chute receiving boxes must first submit to the Regional Operations Director, through the postmaster, specifications, drawings, and a full size working model of the chute and receiving box. The chute section should be at least five feet in length and must contain a mail slot. This section is to be attached to the receiving box. If the specifications, drawings, and model are found satisfactory, the Regional Operations Director will request the firm to submit a $10,000 bond as specified in paragraph (f)(3) of this section. After the bond is examined and approved, he will authorize installation of not more than three mailing chutes and receiving boxes for a 90-day actual service condition test. If no unsatisfactory condition is disclosed during the test period, the Regional Operations Director will give the concern final approval for the manufacture of this equipment. The company's name and address will then be added to the list of authorized manufacturers of mailing chutes and receiving boxes.

(2) Manufacturers of approved receiving boxes and mailing chutes are: Capitol Mail Chute Corp., 55 Cozine Avenue, Brooklyn 7, N.Y.; Cutler Mail Chute Co., 76 Anderson Avenue, Rochester 7, N.Y.; Federal Mail Chute Corp., Ltd., 436 Kearny Street, San Francisco 8, Calif.

(3) Louis Sack Co., Inc., 24 Lake Street, Somerville 43, Mass., is authorized to manufacture only receiving boxes for mailing chutes.

NOTE: The corresponding Postal Manual section is 153.68.

(R.S. 161, as amended, 396, as amended, sec. 1, 24 Stat. 569, as amended; 5 U.S.C. 22,369,39 U.S.C. 156)

DEPARTMENT OF THE TREASURY

Bureau of Customs

[19 CFR Part 14]

APPRAISEMENT OF COAL-TAR PRODUCTS

Notice of Intention To Establish New Standards of Strength of Dyes

Notice is hereby given that under the authority conferred in paragraph 28(h), Tariff Act of 1930 (U.S.C., Title 19, section 1001, par. 28(h)), it is proposed to establish new standards of strength of dyes and to remove certain standards of strength previously adopted, as set forth below.

The new standards of strength would replace the standards previously adopted, which are not now of the lowest commercial strength. The specific duties provided for in paragraph 28 on the importations of the dyes affected thereafter would be based on the new standards of lower strength.

Upon any importations which exceed the new standards of strength, the dutiable weight is to be computed on the weight which the article would have if it were diluted to correspond with the new standard strength established as provided in paragraph 28(e).

It is further proposed that the number of the Treasury decision to be published to adopt the proposed new standards of strength shall be added to footnote 13 to § 14.5(m) of the Customs Regulations (19 CFR 14.5(m)).

This notice is published pursuant to section 4 of the Administrative Procedure Act (5 U.S.C. 1003). Data, views, or arguments with respect to this proposal may be addressed to the Commissioner of Customs, Bureau of Customs, Washington 25, D.C. To insure consideration, such communications must be received in the Bureau of Customs not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER. No hearing will be held.

[SEAL] C. A. EMERICK,
Acting Commissioner of Customs.

Approved: May 31, 1960.

A. GILMORE FLUES,
Acting Secretary of the Treasury.

Internal Revenue Service

[26 CFR (1939) Part 171]

[26 CFR (1954) Part 170]

MISCELLANEOUS REGULATIONS RELATING TO LIQUOR

Notice of Proposed Rule Making

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in duplicate, to the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D.C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Director within the 30-day period. In such a case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] CHARLES I. FOX,
Acting Commissioner of Internal Revenue.

The purposes of this Treasury decision are to delete certain obsolete material now contained in 26 CFR (1939) Part 171, to revise and include in 26 CFR Part 170 certain regulatory provisions now contained in 26 CFR (1939) Part 171 and in Subparts C, D, and E of 26 CFR Part 235, and to implement the changes in section 5025(i), I.R.C., as amended by Public Law 85-859.

Pursuant to the above:

(A) 26 CFR (1939) Part 171 is amended by deleting § 171.1(a).

(B) 26 CFR Part 170 is amended by adding, immediately following § 170.585, a new Subpart U, as follows:

Subpart U—Manufacture and Sale of Certain Compounds, Preparations, and Products Containing Alcohol

Sec.
170.611 Scope of subpart.
170.612 Meanings of terms.

COMMODITY TAX STATUS OF PRODUCTS

170.613 Products exempt from commodity taxes.
170.614 Other exempt U.S.P. and N.F. preparations.
170.615 Change of formula; when required.
170.616 Products classed as rectified products.

SPECIAL (OCCUPATIONAL) TAX STATUS OF APOTHECARIES AND MANUFACTURERS

170.617 Apothecaries and manufacturers exempt.
170.618 Sale of products for beverage use; special tax.

EFFECT ON OTHER DOCUMENTS

170.619 Regulations superseded.

AUTHORITY: §§ 170.611 to 170.619 issued under 68A Stat. 917; 26 U.S.C. 7805. Other statutory provisions interpreted or applied are cited to text in parenthesis.

§ 170.611 Scope of subpart.

This subpart contains provisions relating to the special tax status of persons who compound, mix, manufacture, or sell compounds, mixtures, preparations, or products containing taxpaid distilled spirits or wines, and the commodity tax status of such compounds, mixtures, preparations, and products.

§ 170.612 Meanings of terms.

When used in this subpart, where not otherwise distinctly expressed or manifestly incompatible with the intent thereof, terms shall have the meaning ascribed in this section. Words in the plural form shall include the singular, and vice versa, and words importing the masculine gender shall include the feminine. The terms "includes" and "including" do not exclude things not enumerated which are in the same general class.

Assistant regional commissioner. An assistant regional commissioner (alcohol and tobacco tax) who is responsible to, and functions under the direction and supervision of, a regional commissioner of internal revenue.

Commodity tax. The tax or taxes imposed by sections 5021 and 5022, I.R.C., on products of rectification.

Director. The Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Treasury Department, Washington, D.C.

Distilled spirits, or spirits. That substance known as ethyl alcohol, ethanol, or spirits of wine, including all dilutions and mixtures thereof.

I.R.C. The Internal Revenue Code of 1954, as amended.

Liquors. Distilled spirits and/or wines.

Person. An individual, trust, estate, partnership, association, company, or corporation.

Special tax. The special (occupational) tax imposed by sections 5081, 5111, and 5121, I.R.C., on rectifiers and dealers in liquors.

Taxpaid distilled spirits, or wines. Distilled spirits or wines, as the case may be, on which the distilled spirits tax imposed by section 5001, I.R.C., or the wine taxes imposed by section 5041, I.R.C., have been paid or determined.

This chapter. Chapter I of Title 26 of the Code of Federal Regulations.

U.S.C. The United States Code.

COMMODITY TAX STATUS OF PRODUCTS

§ 170.613 Products exempt from commodity taxes.

(a) *Products meeting requirements.* Except as provided in § 170.616(b), apothecaries, pharmacists, and manufacturers are not required to pay commodity taxes on medicines, medicinal preparations, food products, flavors, and flavoring extracts manufactured or compounded by them, if the tax has been paid or determined on all of the distilled spirits and/or wines contained therein, as follows:

(1) *Medicines and medicinal preparations.* Medicines and medicinal preparations (including such preparations manufactured in accordance with formulas prescribed by the United States Pharmacopoeia, the National Formulary, or the Homeopathic Pharmacopoeia of the United States) that are unfit for use for beverage purposes.

(2) *Patent medicines.* Patented, patent, and proprietary medicines that are unfit for use for beverage purposes.

(3) *Toilet preparations.* Toilet, medicinal, and antiseptic preparations and solutions that are unfit for use for beverage purposes.

(4) *Flavoring extracts.* Flavoring extracts, sirups, and concentrates that are unfit for use for beverage purposes.

(5) *Laboratory reagents.* Laboratory reagents, stains, and dyes that are unfit for use for beverage purposes.

(6) *Salted wines.* Salted wines which contain not in excess of 21 percent alcohol by volume and not less than 1.5 grams of salt per 100 cubic centimeters.

(7) *Sauces.* Sauces, or sirups consisting of sugar solutions and liquors, in which the alcohol content is not more than 12 percent by volume and the sugar content is not less than 60 grams per 100 cubic centimeters.

(8) *Brandied fruits.* Brandied fruits consisting of solidly packaged fruits, either whole or segmented, and liquors not exceeding the quantity and alcohol content necessary for flavoring and preserving.

(9) *Food products.* Food products such as mincemeat, plum pudding, and fruit cake, where only sufficient liquor is used for flavoring and preserving; and ice cream and ices where only sufficient liquor is used for flavoring purposes.

(b) *Formulas and samples; when required.* On request of the Director, or when in doubt as to the classification of his product, the manufacturer shall submit to the Director the formula for and a sample of his product for examination to verify the manufacturer's claim of exemption from tax.

(72 Stat. 1328; 26 U.S.C. 5025)

§ 170.614 Other exempt U.S.P. and N.F. preparations.

The following United States Pharmacopoeia and National Formulary preparations which are used by physicians and pharmacists principally as vehicles may be made with distilled spirits without incurring liability for rectification and special taxes for their manufacture and sale:

Elixir aromaticum.
Elixir aromaticum rubrum.
Elixir aurantii amari.
Elixir cardamom compositum.
Elixir glycyrrhizae.
Elixir taraxaci compositum.
Elixir terpini hydratis.
Spiritus aetheris.
Spiritus myrciae compositus.
Tinctura aurantii dulcis.
Tinctura limonis.

§ 170.615 Change of formula; when required.

If the assistant regional commissioner finds at any time that any product manufactured under this subpart as an unfit product exempt from tax is being used for beverage purposes, or for mixing with beverage liquors other than by a rectifier, he shall notify the manufacturer to desist the manufacturing of such product until the formula is so changed as to render the product not susceptible of beverage use and such change is approved by the Director: *Provided*, That the provisions of this section shall not be so construed as to prohibit the use of such unfit products in small quantities for flavoring drinks at the time of serving for immediate consumption. Where, pursuant to notice, the manufacturer does not desist, or the formula is not so modified as to render the product unsusceptible of beverage use, the manufacturer shall immediately qualify as a rectifier and pay the rectification tax on such product.

§ 170.616 Products classed as rectified liquors.

(a) *Rectified liquors.* United States Pharmacopoeia tincture of ginger is held to be rectified liquor. Bitters, patent medicines, and similar alcoholic preparations which are fit for beverage purposes, although held out as having certain medicinal properties, are also classed as rectified liquors. The commodity tax imposed by section 5021 or 5022, I.R.C., as the case may be, is required to be paid on alcoholic preparations classed as rectified liquors (including cordials or liqueurs). Such preparations are required to be manufactured in the rectifying facilities of a distilled spirits plant, taxpaid, bottled or packaged, stamped, recorded, and disposed of in accordance with the procedure prescribed in Part 201 of this chapter for other rectified spirits or products. Sellers of such preparations will be subject to the provisions of Part 194 of this chapter with respect to special taxes.

(b) *Products sold for beverage use.* Any product described in §§ 170.613 to 170.614, or any other product declared by the Director to be unfit for use for beverage purposes, or any taxpaid distilled spirits recovered from any such product, which is sold for beverage purposes, or is sold under circumstances from which it might reasonably appear that it is the intention of the purchaser to procure the same for sale or use for beverage purposes, is subject to commodity tax.

(72 Stat. 1328; 26 U.S.C. 5021, 5022)

SPECIAL TAX STATUS OF APOTHECARIES AND MANUFACTURERS

§ 170.617 Apothecaries and manufacturers exempt.

(a) *Compounders or manufacturers.* An apothecary, a pharmacist, or a manufacturer is not required to qualify as a rectifier, or pay special (occupational) tax as a rectifier or, except as provided in § 170.618, to qualify as a dealer in liquors in order to prepare, manufacture, or sell products described in §§ 170.613 to 170.614, or products declared by the Director to be unfit for use for beverage purposes.

(b) *Manufacturers recovering taxpaid alcohol.* A manufacturer who recovers taxpaid distilled spirits from dregs or marc or percolation or extraction, or from medicines, medicinal preparations, food products, flavors, or flavoring extracts, which do not meet the manufacturer's standards, is not required to qualify or pay special tax as a rectifier, if such manufacturer uses the recovered distilled spirits exclusively in the manufacture of medicine, medicinal preparations, food products, flavors, or flavoring extracts, which are unfit for use for beverage purposes.

(c) *Records.* Each manufacturer intending to recover taxpaid distilled spirits under the provisions of paragraph (b) of this section shall notify the assistant regional commissioner of his intention to do so and advise where such operations will be conducted. Such manufacturer shall keep a record of the distilled spirits recovered and the subsequent use to which they are put. The records shall show, (1) the date of recovery, (2) the commodity from which the spirits were recovered, (3) the amount of distilled spirits recovered, (4) the amount of recovered distilled spirits reused, (5) the commodity in which the recovered distilled spirits were reused, and (6) the date of such reuse. Such records shall be retained at the premises where the recovery operations are conducted for not less than two years, and shall be available during regular business hours for examination by internal revenue officers.

(72 Stat. 1328; 26 U.S.C. 5025)

§ 170.618 Sale of products for beverage use; special tax.

Any person (including the manufacturer) who sells for beverage purposes any of the products described in §§ 170.613 to 170.614, or any other product declared by the Director to be unfit for use for beverage purposes, or any distilled spirits recovered as provided in § 170.617(b), or who sells any such substance under circumstances from which it might reasonably appear that it is the intention of the purchaser to procure the same for sale or use for beverage purposes, is required to pay special tax as a wholesale dealer in liquors or a retail dealer in liquors, as the case may be, and, in the case of a manufacturer, may also be required to pay special tax as a rectifier (plus any penalties and interest due).

(72 Stat. 1338, 1340, 1343; 26 U.S.C. 5081, 5111, 5113, 5121)

EFFECT ON OTHER DOCUMENTS

§ 170.619 Regulations superseded.

The provisions of this subpart supersede the regulations contained in 26 CFR (1939) 171.6 and 171.7, and 26 CFR 235.40 through 235.42, 235.50 through 235.61, 235.75, and 235.76. The regulations in this subpart shall not affect any act done or any liability or right accruing or accrued, or any suit or proceeding had or commenced before the effective date of the regulations in this subpart.

DEPARTMENT OF AGRICULTURE

Commodity Stabilization Service

[7 CFR Parts 723, 725, 727]

TOBACCO

Farm Acreage Allotments, Normal Yields, and History

Notice of formulation of regulations relating to establishment of farm acreage allotments and normal yields for Cigar-binder (types 51, and 52) Tobacco; Cigar-filler and Binder (types 42, 43, 44, 53, 54, and 55) Tobacco; Burley, Fluecured, Fire-cured (type 21), Fire-cured (types 22, 23, and 24) Tobacco, Dark Air-cured, and Virginia Sun-cured Tobacco; and Maryland Tobacco, for the 1961–62 marketing year, and including certain basic provisions relating to determination of tobacco acreage history and preliminary tobacco acreage allotments for farms for succeeding years.

Notice is hereby given that, pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1301, 1312, 1313, 1375), regulations are being prepared governing the establishment of farm acreage allotments and normal yields for the 1961 crop of (1) cigar-binder (types 51 and 52) tobacco, and cigar-filler and binder (types 42, 43, 44, 53, 54, and 55) tobacco, (2) burley, flue-cured, fire-cured (type 21), fire-cured (types 22, 23, and 24), dark air-cured, and Virginia sun-cured tobacco, and (3) Maryland tobacco. Included in such regulations are certain basic provisions relating to determination of tobacco acreage history and preliminary acreage allotments for farms for succeeding years.

The Agricultural Adjustment Act of 1938, as amended, includes only type 41 tobacco in the definition of cigar-filler tobacco. Producers of cigar-filler (type 41) tobacco disapproved marketing quotas for such kind of tobacco for the three marketing years beginning October 1, 1959 (24 F.R. 2271), and previously thereto had disapproved marketing quotas for three successive years subsequent to 1952 (18 F.R. 8474, 19 F.R. 9365, 21 F.R. 667). Hence, pursuant to the provisions of section 312 of the Agricultural Adjustment Act of 1938, as amended, no acreage allotments and marketing quotas were determined for such kind of tobacco for the 1960 crop of such kind of tobacco, and will not be determined for such kind of tobacco for the 1961 crop, unless the required number of producers petition the Secretary to proclaim a quota for such kind of tobacco in accordance with said section.

Maryland tobacco growers approved quotas for the 1960, 1961 and 1962 crops in a referendum held on February 2, 1960 (25 F.R. 1479). Cigar-binder (types 51 and 52) tobacco growers and cigar-filler and binder tobacco growers approved quotas in referenda held on February 11, 1960 for the 1960, 1961 and 1962 crops (25 F.R. 2125). Burley tobacco growers and Virginia sun-cured tobacco growers approved quotas for the 1959, 1960 and 1961 crops in referenda held on February 24, 1959 (24 F.R. 2271). Flue-cured tobacco growers approved quotas for the 1959, 1960 and 1961 crops in a referendum held on December 15, 1958 (24 F.R. 356).

Pursuant to the provisions of section 312 of the Act, as amended, the Secretary of Agriculture has proclaimed marketing quotas for the 1961–62 marketing year for burley, flue-cured, Virginia suncured, Maryland, cigar-binder, and cigar-filler and binder tobacco, respectively. In accordance with section 312 of the Act, the amounts of such marketing quotas will be determined and announced, and under section 313 of the Act will be apportioned among the States, converted into State acreage allotments, and allotted to farms.

Fire-cured tobacco growers and dark air-cured tobacco growers approved quotas for the 1958, 1959 and 1960 crops in referenda held on February 18, 1958 (23 F.R. 2070). The regulations to be issued will be applicable to determination of 1961 farm acreage allotments, which allotments will remain in effect whether or not quotas are approved by growers for the 1961 crop in separate referenda to be held in late 1960 or early 1961, but marketing quotas will not be applicable to the 1961 crop if quotas are disapproved for such crop by growers voting in such referenda. Consideration will be given to suggestions for a date or dates on which the referenda will be held.

Pursuant to the provisions of section 312 of the Act, as amended, the Secretary of Agriculture is required to proclaim marketing quotas for the 1961–62, 1962–63, and 1963–64 marketing years for fire-cured (type 21) tobacco, fire-cured (types 22, 23, and 24) tobacco, and for dark air-cured tobacco. In accordance with section 312 of the Act, the amounts of such marketing quotas will be determined and announced, and under the provisions of section 313 of the Act (7 U.S.C. 1313), such quotas will be apportioned among the States, converted into State acreage allotments and allotted to farms.

It is contemplated that the regulations for (1) cigar-binder (types 51 and 52) tobacco, and cigar-filler and binder (types 42, 43, 44, 53, 54, and 55) tobacco, respectively, (2) burley, flue-cured, fire-cured, dark air-cured and Virginia suncured tobacco respectively, and (3) Maryland tobacco, will provide for establishment of farm acreage allotments and normal yields and the issuance of notices of allotments and marketing quotas by county committees substantially the same as provided with respect to the 1960 crops (24 F.R. 6889, 7243), (24 F.R. 6895, 7243), and (23 F.R. 6889). However, the following modifications are contemplated:

1. Sections 725.1116, 723.1116 and 727.1116 would be abbreviated to read:

Determination of 1961 preliminary acreage allotments for old farms. (a) The 1961 preliminary acreage allotment for an old tobacco farm shall be the 1960 farm acreage allotment established for such farm, prior to any reduction for violation of the tobacco marketing quota regulations.

(b) Notwithstanding the provisions of paragraph (a) of this section, no 1961 preliminary allotment or 1961 farm allotment shall be determined for any land which is devoted to commercial or residential development or other nonagricultural purposes, which was not acquired by an agency having the right of eminent domain and which could not have been acquired under right of eminent domain by the person or agency that did acquire it, and which the county committee and a representative of the State committee determine is retired from agricultural production: *Provided*, That this paragraph shall not preclude the determination of a preliminary allotment or allotment for an old farm returned to agricultural production, or for a farm for which an acreage allotment may be determined under the provisions of § 725.1220 (723.1220 or 727.1220).

Sections 725.1220, 723.1220 and 727.1220 relate to §§ 725.1120, 723.1120 and 727.1120 in the regulations for the 1960–61 marketing year.

2. The following sentence would be added at the end of §§ 725.1118, 723.1118 and 727.1118: "The allotment for a farm under a conservation contract shall be given the same consideration as the allotments for other farms under this section."

3. The following paragraph (d) would be added following paragraph (c) of §§ 725.1123, 723.1123 and 727.1123:

(d) Any new farm allotment approved under §§ 725.1211 to 725.1228, 723.1211 to 723.1229 or 727.1211 to 727.1228 which was determined by the county committee on the basis of incorrect information knowingly furnished the county committee by the applicant for the new farm allotment shall be canceled as of the date established.

4. The definition of "new farm" would be revised to read: "New farm means a farm on which there is no tobacco acreage history since 1955. If in accordance with applicable law and regulations, no 1956, 1957, 1958, 1959 or 1960 tobacco acreage allotment was determined for the farm, any production of tobacco in 1956, 1957, 1958, 1959, or 1960, respectively, shall not be considered in determining whether the farm is a new farm. The term 'tobacco acreage history' as used in this paragraph shall be as defined and explained in § 725.1228 (723.1229 or 727.1228)."

5. The definition of "old farm" would be revised to read: "Old farm means a farm on which there is tobacco acreage history in one or more of the five years 1956 through 1960. If in accordance with applicable law and regulations, no 1956, 1957, 1958, 1959 or 1960 tobacco acreage allotment was determined for the farm, any production of tobacco in 1956, 1957, 1958, 1959 or 1960, respectively, shall not be considered in determining whether the farm is an old farm. The term 'tobacco acreage history' as used in this paragraph shall be as defined and explained in § 725.1228 (723.1229 or 727.1228)."

6. Sections 725.1228, 723.1229 and 727.1228 would be included and would read as follows:

Determination of preliminary allotments for 1962 and subsequent years, and tobacco acreage history for 1960 and subsequent years. (a) The preliminary acreage allotment for an old farm for 1962 and subsequent years shall be the farm acreage allotment for the immediately preceding year prior to any reduction for violation of the tobacco marketing quota regulations; except that if the tobacco acreage history in at least one of the immediately preceding two years

is not as much as 75 percent of the farm allotment (after any reduction for violation) for such year, the preliminary allotment shall be the larger of (1) the largest tobacco acreage history in the past two years or (2) the average tobacco acreage history for the past five years.

(b) Notwithstanding the provisions of paragraph (a) of this section, no 1962 preliminary allotment or 1962 farm allotment shall be determined for any land which is devoted to commercial or residential development or other non-agricultural purposes, which was not acquired by an agency having the right of eminent domain and which could not have been acquired under right of eminent domain by the person or agency that did acquire it, and which the county committee and a representative of the State committee determine is retired from agricultural production: *Provided*, That this paragraph shall not preclude the determination of a preliminary allotment or allotment for an old farm returned to agricultural production, or for a farm for which an acreage allotment may be determined under the provisions of § 725.1220, 723.1220 or 727.1220.

(c) For each of the years 1957, 1958 and 1959, the tobacco acreage history shall be the same as the farm allotment for each such respective year, prior to any reduction for violation. For 1960, and for each subsequent year, the tobacco acreage history shall be the same as the farm allotment (prior to any reduction for violation) for such year, if

(1) The farm consists of federally owned land, or

(2) The final acreage of tobacco determined for the farm is as much as 75 percent of the farm tobacco acreage allotment (after any reduction for violation) for such year, or

(3) The final tobacco acreage determined for the farm plus the acreage regarded as planted to tobacco under the Soil Bank Act is as much as 75 percent of the farm tobacco acreage allotment (after any reduction for violation) for such year, or

(4) The final tobacco acreage determined for the farm plus the acreage regarded as planted to tobacco under the Soil Bank Act for at least one of the two immediately preceding years was as much as 75 percent of the farm tobacco acreage allotment (after any reduction for violation) for such respective year.

(d) If for 1960 or for any subsequent year, the county committee determines that the final tobacco acreage determined for the farm plus the acreage regarded as planted to tobacco under the Soil Bank Act is not as much as 75 percent of the farm tobacco acreage allotment (after any reduction for violation) for such year because of abnormal weather or disease, the tobacco acreage history for such particular year shall be adjusted to become the smaller of (1) the allotment (prior to any reduction for violation) or (2) the final tobacco acreage determined for the farm, plus the additional acreage which the county committee determines would have been included in the final tobacco acreage except for abnormal weather or disease, plus the acreage regarded as planted to tobacco under the Soil Bank Act, and plus the amount of any reduction for violation. However, in such a case, the farm allotment for such year shall still be considered less than 75 percent planted or regarded as planted in connection with determining the tobacco acreage history for one or both of the next two succeeding years.

(e) If the tobacco acreage history for 1960 or any subsequent year cannot be considered to be the same as the farm allotment under the provisions of paragraph (c) or (d), it shall be the final tobacco acreage determined for the farm, plus the acreage regarded as planted to tobacco under the Soil Bank Act, plus the acreage by which the farm allotment was reduced for violation, and plus the additional acreage which the county committee determines would have been included in the final tobacco acreage except for abnormal weather or disease, not to exceed the tobacco acreage allotment prior to any reduction for violation.

(f) In applying the provisions of paragraphs (c), (d), and (e) of this section, the tobacco acreage history for any year shall not be larger than the allotment prior to any reduction for violation. For any year for which the allotment was reduced for violation (but not reduced to zero), the reduced allotment shall be used in determining whether the allotment was 75 percent planted or regarded as planted. For any year for which an allotment of zero was established (or no allotment was established), any acreage planted to tobacco on the farm in such year shall not be taken into account in determining whether at least 75 percent of the allotment for 1960 or any subsequent year was or is planted or is to be regarded as planted. In the event of planting pursuant to an erroneous notice of allotment for any year, the smaller of (1) the allotment shown on the erroneous notice or (2) the correct allotment that should have been shown on the notice will be used in determining whether the allotment was 75 percent planted or regarded as planted: except that, if the correct notice is zero, any acreage planted to tobacco on the farm in such year shall not be taken into account in determining whether at least 75 percent of the allotment for 1960 or any subsequent year was or is planted or is to be regarded as planted.

(g) The 1956 tobacco acreage history shall not exceed the 1956 allotment, and shall include the tobacco acreage harvested on the farm in 1956, the tobacco acreage devoted in 1956 to the acreage reserve program, the tobacco acreage devoted in 1956 to the conservation reserve program, and, excepting flue-cured tobacco, the 1956 tobacco acreage preserved pursuant to a request of the owner or operator of the farm, as provided in § 725.816(c) of the tobacco marketing quota regulations for the 1957–58 marketing year (21 F.R. 6803, 9398).

(h) Notwithstanding the foregoing provisions of this section, a farm shall be construed to have no tobacco acreage history during the base period, and shall therefore not be considered an old farm, if the only tobacco acreage history computed for the farm during the base period consists of acreage history restored pursuant to reductions of the allotment for violation(s) of the tobacco marketing quota regulations.

(i) As used in this section, the following terms shall have the meanings described as follows:

(1) "Federally owned land" means land owned by the Federal Government or any department, bureau or agency thereof, or by any corporation all the stock of which is owned by the Federal Government.

(2) "Final tobacco acreage" means the acreage determined under the provisions of Part 718, Determination of Acreage and Performance, and any amendments thereto, to be the final acreage of tobacco on the farm. Any acreage that may have been planted in any year on a farm for which a zero allotment was established or for which no allotment was established shall not be taken into account in determining whether at least 75 percent of the farm allotment for 1960 or any subsequent year was planted.

(3) "Acreage regarded as planted to tobacco under the Soil Bank Act" means: For 1960 and any subsequent crop year, if the tobacco allotment is the only commodity acreage allotment for the farm, the acreage placed in the conservation reserve at the regular rate, not to exceed the amount by which the farm tobacco acreage allotment, after any reduction for violation, exceeds the final tobacco acreage shall be regarded as planted to tobacco under the Soil Bank Act. In the event the farm has two or more commodity allotments for which the final acreage is less than the respective allotment, and the acreage placed in the conservation reserve at the regular rate on the farm is less than the sum of the amounts by which such respective allotments (after release and before reapportionment) exceed the respective final acreages of such crops on the farm, the acreage placed in the conservation reserve at the regular rate shall be prorated and credited to each such allotment commodity. To prorate this acreage, the sum of the amounts by which the respective allotments for those crops for which the final acreage is less than the respective allotment (after release and before reapportionment) exceed the respective final acreage for such allotment crops on the farm shall be obtained. This total shall then be divided into the amount by which each such allotment (after release and before reapportionment) exceeds the final acreage. The percentage thus obtained for each such commodity shall be applied to the acreage on the farm under a conservation contract at the regular rate. The result shall be the acreage considered planted to such commodity on the farm under a conservation reserve contract. Where it is necessary to determine the acreage regarded as planted to tobacco under the Soil Bank Act in 1959 or 1958, the provisions of this paragraph shall be followed in making such determination. For 1958, the acreage entered on the acreage reserve agreement shall be included in the acreage regarded as planted under the Soil Bank Act, and shall be added to the final acreage in determining whether, and the extent to which, the commodity is entitled to share in the conservation reserve credit for the farm. As used in this paragraph (i)(3), the term "allotment" means the allotment after any reduction for violation in the case of tobacco and peanuts.

7. The definitions of "community cropland factor" and "acreage indicated by cropland" would be eliminated.

8. In §§ 725.1118, 723.1118 and 727.1118, the word "county" would be substituted for the word "community".

9. §727.1118, the expression "four percent" would be substituted for the expression "three-fourths of one percent".

Prior to the final adoption and issuance of these regulations, consideration will be given to any data, views, and recommendations pertaining thereto which are submitted in writing to the Director, Tobacco Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D.C. All submissions must be postmarked not later than ten days after the date of publication of this notice in the FEDERAL REGISTER in order to be considered.

Issued at Washington, D.C., this 1st day of June 1960.

ANDREW J. MAIR,
Acting Administrator,
Commodity Stabilization Service.

[F.R. Doc. 60-5137; Filed, June 6, 1960; 8:48 a.m.]

FEDERAL AVIATION AGENCY

[14 CFR Parts 600, 601]

[Airspace Docket No. 60-FW-35]

FEDERAL AIRWAYS, CONTROL AREAS AND REPORTING POINTS

Revocation

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to Parts 600 and 601 of the regulations of the Administrator, the substance of which is stated below.

Red Federal airway No. 34 presently extends from the intersection of the southwest course of the Norfolk, Va., radio range and a line bearing 287° True from the Weeksville, N.C., (Navy) radio range to the Weeksville (Navy) radio range. The Federal Aviation Agency has under consideration the revocation of Red 34 in its entirety. A Federal Aviation Agency IFR peak-day airway traffic survey for the period from July 1, 1958 through June 30, 1959, shows no aircraft movement on this airway. On the basis of this survey it appears that the retention of this airway and its associated control areas is unjustified as an assignment of airspace and that the revocation thereof would be in the public interest.

If this action is taken, Red Federal airway No. 34 and its associated control areas and reporting points would be revoked.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, P.O. Box 1689, Fort Worth 1, Tex. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 1, 1960.

D. D. THOMAS,
Director, Bureau of
Air Traffic Management.

[F.R. Doc. 60-5106; Filed, June 6, 1960; 8:45 a.m.]

[14 CFR Parts 600, 601]

[Airspace Docket No. 60-LA-39]

FEDERAL AIRWAY, CONTROL AREAS AND REPORTING POINTS

Revocation

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to Parts 600 and 601 of the regulations of the Administrator, the substance of which is stated below.

Blue Federal airway No. 22 and associated control areas presently extend from Delta, Utah, to Malad City, Idaho. The Federal Aviation Agency has under consideration the revocation of Blue 22. The Federal Aviation Agency IFR peak-day airway traffic survey for the period July 1, 1958 through June 30, 1959 shows no aircraft movements on Blue 22. On the basis of the survey, it appears that the retention of Blue 22 and its associated control areas is unjustified as an assignment of airspace and the revocation thereof would be in the public interest.

If this action is taken, Blue Federal airway No. 22 and its associated control areas and reporting points would be revoked.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, 5651 West Manchester Avenue, P.O. Box 90007, Airport Station, Los Angeles 45, Calif. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 1, 1960.

D. D. THOMAS,
Director, Bureau of
Air Traffic Management.

[F.R. Doc. 60-5107; Filed, June 6, 1960; 8:45 a.m.]

[14 CFR Parts 600, 601]

[Airspace Docket No. 60-NY-25]

FEDERAL AIRWAYS, CONTROL AREAS AND REPORTING POINTS

Revocation of Segment of Federal Airway and Associated Control Areas; Modification of Reporting Points and Control Area Extension

Pursuant to the authority delegated to me by the Administrator (§ 409.13, 24 F.R. 3499), notice is hereby given that the Federal Aviation Agency is considering an amendment to §§ 600.107, 601.107, 601.1378, and 601.4107 of the regulations of the Administrator, the substance of which is stated below.

Amber Federal airway No. 7 presently extends, in part, from Richmond, Va., to Philadelphia, Pa. The Federal Aviation Agency has under consideration the revocation of this segment of Amber 7.

The Federal Aviation Agency IFR peak-day air traffic survey for the period January 1, 1959, through December 31, 1959, showed a maximum of seven aircraft movements between any two reporting points on this segment of Amber 7. On the basis of this survey, it appears that the retention of this airway segment and the associated control areas is unjustified as an assignment of airspace and that the revocation thereof would be in the public interest. Concurrently, with this action, the Federal Aviation Agency is considering modification of the Wilmington, Del., control area extension which is presently designated as that airspace lying south of a true east/west line through the center of the New Castle County Airport, Wilmington, Del., within a 30-mile radius of the center of the airport; the airspace west of Wilmington bounded on the south by Amber Federal airway No. 7, on the west by Red Federal airway No. 45, on the north by VOR Federal airway No. 3 and on the northeast by VOR Federal airway No. 29, excluding the portion which lies within the geographic limits of, and between the designated altitudes of, the Aberdeen Restricted Area (R–54) during the restricted area's time of designation. It is proposed to redescribe this control area extension to simplify its description and substitute in its description VOR Federal airways in lieu of L/MF Federal airways due to the diminishing requirement for and the gradual phasing out of the L/MF airways. This modification of the Wilmington control area extension would not result in the designation of any additional control area.

If these actions are taken, the segment of Amber Federal airway No. 7 and associated control areas from Richmond, Va., to Philadelphia, Pa., would be revoked. The caption to § 601.4107 relating to the associated reporting points on Amber Federal airway No. 7 would be modified to coincide with the redesignated airway.

The Wilmington, Del., control area extension would be designated as the area southwest of Wilmington within a 30-mile radius of the New Castle County Airport (latitude 39°40'42" N., longitude 75°36'27" W.), extending clockwise from the New York control area extension (§ 601.1066), to the northern boundary of VOR Federal airway No. 123, excluding the portion which would coincide with the Aberdeen, Md., Restricted Area (R–54) during the restricted area's time of designation; and the area west of Wilmington bounded on the east by the New York control area extension, on the south by VOR Federal airway No. 123, on the west by VOR Federal airway No. 93 and on the north by VOR Federal airway No. 3

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B–316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on June 1, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–5106; Filed, June 6, 1960; 8:45 a.m.]

[14 CFR Parts 600, 601]

[Airspace Docket No. 59–WA–430]

FEDERAL AIRWAYS AND CONTROL AREAS

Withdrawal of Proposed Modification

In a notice of proposed rule making published in the FEDERAL REGISTER as Airspace Docket No. 59–WA–430 on March 23, 1960 (25 F.R. 2439), it was stated that the Federal Aviation Agency proposed to designate a standard east alternate to VOR Federal airway No. 42 with associated control areas from the Flint, Mich., VOR to the Windsor, Ontario, VOR. Subsequent to publication of the notice, information has been received regarding a proposal by the Department of Transport of the Canadian Government to convert the Windsor low frequency range to a non-directional radio beacon. This conversion would require revision of procedures in the Detroit, Mich., terminal area, which, in turn, would require a change in alignment of the proposed Victor 42 east alternate. In view of this requirement, the notice is being withdrawn pending further coordination with the Department of Transport of the Canadian Government.

In consideration of the foregoing, the notice of proposed rule making contained in Airspace Docket No. 59–WA–430 is hereby withdrawn.

(Sections 307(a), 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749, 752; 49 U.S.C. 1348, 1354))

Issued in Washington, D.C., on June 1, 1960.

D. D. THOMAS,
Director, Bureau of Air Traffic Management.

[F.R. Doc. 60–5109; Filed, June 6, 1960; 8:45 a.m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 7, 8]

[Docket No. 13588; FCC 60–652]

PUBLIC SHIP-SHORE COMMUNICATION IN THE MARITIME MOBILE SERVICE

Los Angeles-San Diego Area

In the matter of amendment of Parts 7 and 8 of the Commission's rules to make the frequency pair 2466 kc (coast)–2382 kc (ship) available for public ship-shore use in the Los Angeles-San Diego area on a 24-hour basis, Docket No. 13588.

1. Notice is hereby given of proposed rule making in the above-entitled matter. The rule amendments proposed are set forth below.

2. By its Report and Order of February 10, 1954 (FCC 54–182, Docket No. 10444), the Commission adopted a frequency assignment plan to implement the provisions of the Geneva Agreement (1951). The frequency pair 2466 kc (coast)–2382 kc (ship) was at that time assigned to the Los Angeles-San Diego area for public ship-shore communication in the maritime mobile service but was not to be available for use until assignment conflicts with other services were eliminated. Those conflicts have been resolved, and final clearance of the frequency pair has been effected.

3. Accordingly, the rule amendments proposed herein would make the frequency pair 2466 kc (coast)–2382 kc (ship) available for public ship-shore use in the Los Angeles-San Diego area on a 24-hour basis. Such use of this pair would be, as indicated in the proposed amendments, subject to certain conditions concerning harmful interference.

4. This proposal is issued under the authority contained in section 303 (c), (f), and (r) of the Communications Act of 1934, as amended.

5. Any interested person who is of the opinion that the proposed amendments should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before July 11, 1960, written data, views, or briefs setting forth his comments. Comments in support of the proposed amendments may also be filed on or before the same date. Comments in reply to the original comments may be filed within ten days from the last day for filing said original data, views, or briefs. The Commission will consider all such comments prior to taking final action in this matter.

6. In accordance with the provisions of § 1.54 of the Commission's rules, an original and fourteen copies of all statements, briefs, or comments filed shall be furnished the Commission.

Adopted: June 1, 1960.

Released: June 2, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

A. Part 7 is amended as follows:

1. The entry for Los Angeles-San Diego, California, in the table in § 7.306 (b) is amended to read as follows:

§ 7.306 Availability of frequencies below 30 Mc.

(b) • • •

Coast stations located in the vicinity of—	Coast station transmitting carrier frequency [1]		Associated coast station receiving carrier frequency	
	Frequency (kc)	Specific limitations imposed upon availability for use [2]	Frequency (kc)	Specific conditions relating to use of these frequencies by ship stations for transmission as shown in § 8.354(a)(1) of this chapter [2]
•	•	•	•	•
Los Angeles-San Diego, Calif.	2566 2466	None. Available on condition that harmful interference is not caused to the service of any coast station located in the vicinity of Tampa, Fla., to which this carrier frequency is assigned for transmission.	2009 2382	None. Available on condition that harmful interference is not caused to the service of any ship station which is within 300 nautical miles of New Orleans, La., and is transmitting on this frequency to a coast station located in the vicinity of that port.
	2598 2522	7 a.m. to 7 p.m., P.s.t., only. do.	2206 2126	7 a.m. to 7 p.m., P.s.t., only. Do.

B. Part 8 is amended as follows:

1. The entry for Los Angeles-San Diego, California, in the table in § 8.354(a)(1) is amended to read as follows:

§ 8.354 Frequencies below 5000 kc for public correspondence.

(a) • • •
(1) • • •

For communication with coast stations located in the vicinity of—	Mobile station transmitting carrier frequency [1]		Associated coast station carrier frequency	
	Frequency (kc)	Specific limitations imposed upon availability for use [2]	Frequency (kc)	Specific conditions relating to use of these frequencies by coast stations for transmission as shown in (7.306 (b) of this chapter. [2]
•	•	•	•	•
Los Angeles-San Diego, Calif.	2009 2382	None. Available on condition that harmful interference is not caused to the service of any ship station which is within 300 nautical miles of New Orleans, La., and is transmitting on this frequency to a coast station located in the vicinity of that port.	2566 2466	None. Available on condition that harmful interference is not caused to the service of any coast station located in the vicinity of Tampa, Fla., to which this carrier frequency is assigned for transmission.
	2206 2126	7 a.m. to 7 p.m., P.s.t., only. do.	2598 2522	7 a.m. to 7 p.m., P.s.t., only. Do.

CIVIL AERONAUTICS BOARD

[Docket 5132 et al.]

REOPENED LARGE IRREGULAR AIR CARRIER INVESTIGATION

Notice of Hearing

In the matter of the qualification for supplemental-air-service authorization of Airline Transport Carriers, Inc., Argonaut Airways Corporation, Miami Airline, Inc., and World Wide Airlines, Inc.

Notice is hereby given, pursuant to the Federal Aviation Act of 1958, as amended, that hearing in the above-entitled proceeding is assigned to be held on June 14, 1960, at 10 a.m., in room 911, Universal Building, Connecticut and Florida Avenues NW., Washington, D.C., before Examiner Ralph L. Wiser, and is to be recessed for further hearing in Miami, Fla., and Los Angeles, Calif., at places and at times which shall be designated hereafter.

This is a reopened phase of the Large Irregular Air Carrier Investigation in which the record will be brought up to date with respect to the qualifications of Airline Transport Carriers, Inc., Argonaut Airways Corporation, Miami Airline, Inc., and World Wide Airlines, Inc., to perform supplemental air transportation. For further details of the issues involved in the proceeding, interested persons are referred to the applications as amended, the examiner's prehearing conference report and supplement thereto and notices to the parties, and the orders entered in the proceeding, all of which are on file with the Civil Aeronautics Board.

Notice is further given that any person other than parties of record desiring to be heard in this proceeding should file with the Board on or before June 10, 1960, a statement setting forth the issues of fact or law raised by the proceeding on which he desires to be heard, and such person may appear and participate in the hearing in accordance with rule 14 of the Board's rules of practice in Economic Proceedings.

Dated at Washington, D.C., June 1, 1960.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

ANTENNAVISION SERVICE CO., INC.

Order Continuing Hearing

In re applications of Antennavision Service Company, Inc., Phoenix, Arizona, Docket No. 13385; for construction permit for new fixed radio station at Oatman Mountain, Arizona, File No. 2984-C1-P-59 (KPK30); for construction permit for new fixed radio station at Telegraph Pass, Arizona, File No. 2985-C1-P-59 (KPK31).

The Hearing Examiner having under consideration an informal proposal for continuing the date of hearing;

It appearing that the hearing is now scheduled to commence on June 14, 1960, but that a conference was held on May 27, at which time all the parties, including counsel for the Broadcast and Common Carrier Bureaus, expressed themselves in favor of a continuance in order to permit the Commission to act on certain pending petitions, which action would be likely to have a profound influence on the course of the hearing; and

It further appearing that if circumstances should change so as to permit scheduling of the proceeding earlier than the date shown in the ordering clause below the Examiner will advance the date of hearing;

It is ordered, This 31st day of May 1960, that the hearing is continued from June 14 to September 7, 1960.

Released: June 1, 1960.

[Docket No. 13480; FCC 60M-941]

EDWARD C. FRITZ, JR.

Order Continuing Hearing

In re application of Edward C. Fritz, Jr., Waukegan, Illinois, Docket No. 13480, File No. BPH-2861; for construction permit (FM).

The Hearing Examiner having under consideration the petition filed in the above-entitled proceeding on May 23, 1960, by Edward C. Fritz, Jr., requesting leave to amend and grant of his application as amended without hearing;

It appearing that jurisdiction over the said pleading insofar as leave to amend and acceptance of the amendment tendered therewith is sought rests in the Hearing Examiner pursuant to the provisions of section 0.231 of the Commission's rules and that jurisdiction over the relief otherwise requested is reserved to the Commission;

It further appearing that the said request to amend is unopposed and that good cause for a grant thereof is shown in that the proferred amendment more clearly sets forth in affidavit form matters affecting the financial qualifications of applicant and the participation of one Charles W. Kline in the instant proposal which are the matters at issue herein;

It is ordered, This 31st day of May 1960 that the said petition is granted insofar as leave to amend is requested, the amendment tendered therewith is accepted and the said petition insofar as grant of the application as amended without hearing is requested is respectfully referred to the Commission;

It is further ordered, On the Hearing Examiner's own motion, that the hearing herein presently scheduled to commence on June 27, 1960, is continued without date.

Released: June 1, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,

[Docket No. 13222 etc.; FCC 60-508]

MICHIGAN BROADCASTING CO. (WBCK) ET AL.

Memorandum Opinion and Order Amending Issues

In re application of Michigan Broadcasting Company (WBCK), Battle Creek, Michigan, et al., Docket No. 13222, et al., File No. BP-11439; for construction permits.

1. The Commission has before it for consideration (1) a petition to enlarge issues, filed November 18, 1959, by the Caba Broadcasting Corporation; (2) comments on petition, filed on December 7, 1959, by Edwin R. Fischer; (3) opposition to the petition, filed on December 7, 1959, by Charles R. Randolph, Farley W. Warner, Richard S. Cobb, and Mary Cobb, doing business as Catonsville Broadcasting Company; (4) opposition to the petition, filed December 9, 1959, by Rossmoyne Corporation; (5) opposition to Fischer's comments, filed December 10, 1959, by The Tidewater Broadcasting Company; (6) reply to petition, filed December 14, 1959, by the Broadcast Bureau; (7) reply to responses, filed December 28, 1959, by Caba Broadcasting Company.

2. Caba Broadcasting Corporation (Caba) filed an application for a new standard broadcast station for Baltimore, Maryland, which is mutually exclusive with the applications of Rossmoyne Corporation (Rossmoyne) for Lebanon, Pennsylvania, and of Catonsville Broadcasting Company (Catonsville) for Catonsville, Maryland. The application of Edwin R. Fischer (Fischer) for Newport News, Virginia, is mutually exclusive with the application for Smithfield, Virginia, filed by The Tidewater Broadcasting Company (Tidewater) and by East Virginia Broadcasting Company (East Virginia), respectively. All named applications were consolidated for hearing with certain other applications by

Order released on October 28, 1959 (FCC 59-1079). The proposals of each of the named applicants are also mutually exclusive, or have mutual interference problems, with several other proposals in the above-captioned proceeding. Caba requests enlargement of the issues to include a multiple ownership issue as to Rossmoyne and Catonsville, a standard comparative issue between Caba and Catonsville, and a financial issue as to Catonsville. Fischer requests a standard comparative issue between Fischer, East Virginia, and Tidewater.

MULTIPLE OWNERSHIP ISSUE

3. In its petition, Caba requests that the issues be enlarged by the addition of the following issue as to Rossmoyne:

To determine whether a grant of the application of Rossmoyne Corporation for Lebanon, Pennsylvania, would be consistent with the provisions of § 3.35[1] of the Commission's rules in view of the ownership by Rossmoyne of Station WCMB in Harrisburg, Pennsylvania, and the overlap of the primary service areas of the two stations which would result from a grant of the application.

In support of its request, Caba states that 9 percent of the population of 240,955 within the 2.0 mv/m contour of Rossmoyne's Station WCMB, and 39 percent of the population of 394,104 within the 0.5 mv/m contour of WCMB, would be affected by the overlap of the proposed Lebanon service area. As to Lebanon, it shows that 12 percent of the population of 179,603 in its 2.0 mv/m contour, and 35 percent of the population of 427,906 in its 0.5 mv/m contour, would be affected by the overlap of the WCMB primary service area.

4. Both Rossmoyne and the Broadcast Bureau oppose the addition of the requested issue because neither the proposal nor the existing station would furnish a 2 mv/m service to the principal community of the other and because the overlap of the 2 mv/m contours is small. Rossmoyne points out that the two communities are some 20 miles apart, in separate counties and separate metropolitan areas; that each community has separate marketing areas and distinct interests; that both the communities and the overlap area have available service from a multiplicity of mass communication media—radio, television and newspaper; that these facts were before the Commission at the time of its order of designation herein, and that no new or additional facts have been presented in Caba's petition.

5. We have held on numerous occasions that a problem under § 3.35 of our rules is not presented where, as here, the proposed operation and existing station would not provide primary service to the principal city of the other, where the cities involved are separate and distinct communities, and where the overlap area is served by other media. Knorr Broadcasting Corp., 14 RR 925 (1958), Booth Broadcasting Co., 18 RR 934 (1959). Accordingly, Caba's request for an overlap issue as to Rossmoyne will be denied.

STANDARD COMPARATIVE ISSUE BETWEEN CABA AND CATONSVILLE

6. Caba also requests that the issues be enlarged by adding a standard comparative issue between Caba and Catonsville. Caba submits that Catonsville adjoins Baltimore; that Catonsville's population in 1950 was about 18,000 whereas Baltimore's population in that year was 950,000; that it will serve almost all of the area to be served by Catonsville; that the two proposed transmitter sites are only 8 miles apart; that each would provide a 2 mv/m or better signal over the other's community, and that in view of these circumstances a choice between the two communities may not be possible on 307(b) grounds alone, in which case a comparative evaluation would be required. To meet the contingency mentioned by Caba, Catonsville in its opposition expresses a belief that a comparative issue, contingent on the event that it is concluded that section 307(b) considerations are not applicable or controlling, should be added. The Broadcast Bureau opposes Caba's request because of the existence of other 307(b) as well as various interference problems among the numerous applicants consolidated in this multi-party proceeding, which must be resolved before comparative consideration could be given to the Caba and Catonsville applications. It also argues that the question whether Catonsville may be considered a separate community is admissible under the present issues.

7. The facts alleged in Caba's request and the Bureau's opposition are similar to those considered in our Memorandum Opinion and Order in Michigan Broadcasting Company (WBCK), released May 31, 1960 (FCC 60-599). For the reasons therein stated, issues like those adopted in that Memorandum will be added in the instant proceeding.[2]

MULTIPLE OWNERSHIP ISSUE AS TO CATONSVILLE

8. Caba also requests the addition of the following multiple ownership issue as to Catonsville:

To determine whether a grant of the application of Catonsville Broadcasting Company would be consistent with the provisions of § 3.35 of the rules relating to the multiple ownership of standard broadcast stations.

In support thereof, it states that Mary Cobb and her son, Richard S. Cobb (hereinafter referred to as "the Cobbs"), are each 25 percent partners in Catonsville, and that they also hold significant partnership interests in five other broadcasting companies which are either permittees or applicants for permits; that three of those stations are located from 30 to 140 miles from Catonsville; and that under the circumstances a question of undue concentration of control is raised. Catonsville and the Broadcast Bureau oppose the requested issue because of lack of showing of any overlap of the primary service contours of the several stations and proposals in which the Cobbs have interests. It is the Commission's view that the bare allegation that the applicant has other broadcast interests, without a showing as to any overlap of primary service area, present or proposed, does not warrant the addition of the requested multiple ownership issue, and this request, therefore, will be denied. See Knorr Broadcasting Corp., supra.

FINANCIAL QUALIFICATION ISSUE AS TO CATONSVILLE

9. Caba also requests an additional issue to determine whether Catonsville is financially qualified to construct and operate its proposed station because of the Cobbs' failure to show their ability to meet their financial commitments, particularly in view of their other broadcast commitments. It argues that the balance sheet accompanying the Catonsville application shows the total of current assets belonging to the Cobbs amount to about $7,300 and that they have assumed financial commitments amounting to over $7,500 in connection with various applications for radio stations, in addition to Catonsville. In opposition, Catonsville contends that there are more than sufficient funds available to cover the construction costs; that the wife of Richard S. Cobb, Catonsville's consulting engineer, agreed to forego indefinitely the payments for such services; that Farley W. Warner, one of Catonsville's four partners, has been functioning as its general counsel on an unsalaried basis; that special counsel to prosecute its application before the Commission were not retained until after receipt of the Commission's McFarland letter; and that, consequently, the actual pre-designation cash requirements for Catonsville have been less than $1,000. Catonsville states that the other applications, in which the Cobbs are interested, have been handled on approximately the same basis during the pre-operational period. The Bureau agrees with Caba's request for the financial issue as to Catonsville, in view of the existence of sufficient doubt in the Cobbs' ability to meet their commitment for 50 percent of the hearing costs in that application, while they have extensive financial obligations with respect to other broadcast undertakings. Although Catonsville alleges certain later modifications to the partnership agreement, the Bureau points out that such changes (an agreement by the Cobbs' partners to underwrite all the expenses of special legal counsel) do not appear in the application.

[1] Section 3.35 provides in pertinent part as follows: "No license for a standard broadcast station shall be granted to any party • • • if (a) Such party • • • owns • • • another broadcast station, a substantial portion of whose primary service area would receive primary service from the station in question, except upon showing that public interest, convenience, and necessity will be served through such multiple ownership situation. • • •"

[2] The term "service" as used in Issue 15, as herein amended, and in Issue 18 hereinafter adopted, means the service which, under our Rules, an applicant is required to provide to the community which it has designated in its application as the community it proposes to serve. Thus, if community A is the favored community under section 307(b), an applicant for community B will be considered comparatively with applicant for community A only if it meets all of the requirements of our Rules which applicants for community A are required to meet.

10. The Commission has considered the allegations and arguments advanced by the parties and concludes that Catonsville's financial commitments and arrangements, not part of its original proposal, warrant the addition of the financial issue. These are matters which could best be documented at the hearing, and made part of the record. Accordingly, Caba's request for an issue as to Catonsville's financial qualifications will be added.

COMPARATIVE ISSUE AS TO NEWPORT NEWS AND SMITHFIELD

11. Fischer, an applicant for a new standard broadcast station at Newport News, Virginia, and a party in the consolidated proceeding, filed comments on that portion of Caba's petition which pertains to the addition of the standard comparative issue between Caba and Catonsville. Fischer's application is mutually exclusive with the application of Tidewater for a new station at Smithfield, Virginia.[3] Fischer believes that in view of the limited population of Smithfield (1950 population 1,180), Tidewater's application was filed solely in an attempt to obtain a section 307(b) advantage and, consequently, this section under the circumstances should not be controlling. Fischer contends that the transmitter site for his Newport News station is located on the Smithfield side of the James River, and will provide a 25 mv/m service to Smithfield. Similarly, the Smithfield applicant will provide primary service to Newport News and other parts of the Norfolk area. It requests, therefore, that if a comparative issue will be added as to Catonsville and Baltimore, such an issue also be added with respect to the Smithfield and Newport News applications, in the event it is determined that a choice among them cannot be based upon section 307(b) considerations or that this section is inapplicable under the circumstances. Tidewater and the Broadcast Bureau oppose Fischer's request as an untimely filed petition to enlarge the issues (filed on December 7, 1959, while the last day for filing petitions to enlarge issues was November 18, 1959). Tidewater also states that the grounds in Caba's petition with respect to Baltimore and Catonsville are entirely unrelated to the situation existing with regard to Newport News and Smithfield; that Caba's basic allegation is that Catonsville adjoins Baltimore and is a suburb of it, whereas Smithfield and Newport News are distant communities; that Fischer's reliance upon the fact that his transmitter site is located on the Smithfield side of the James River, is not well founded, because the proposed location of his main studios is in Newport News, whereas the Smithfield applicants propose main studios in Smithfield; and that Fischer's allegation that the Smithfield applicants designated that community "solely in an attempt to obtain a section 307(b) advantage" is unsupported by any convincing factual showing.

12. It appears from their respective applications that Fischer and Tidewater would provide a 25 mv/m signal to the other's community. We have held that a determination under the 307(b) issue will not be dispositive of the question of which application is to be granted if the community selected as having the greater need would receive service not only from the applicant for that community, but also from applicants for communities which were not preferred under the 307(b) issue. Under such circumstances, the decision in FCC v. Allentown Broadcasting Corp., 349 U.S. 358 (1955), requires a comparative consideration of the qualifications of the applicants which would provide service[4] to the favored community. In view of the fact that each of these applicants might provide such service to the community of the other, an issue to determine this question, together with a contingent standard comparative issue, will be added. Although Fischer's petition was untimely filed, the Commission, in view of the requirements of Allentown, is adding these issues on its own motion.

Accordingly, it is ordered, This 25th day of May 1960, That the petition to enlarge issues, filed by Caba Broadcasting Corporation, on November 18, 1959, is granted to the extent noted above, and in all other respects is denied; that Issues 13 and 15 in this proceeding are amended to read as follows:

13. To determine in the light of their location and urban and industrial characteristics, and other relevant factors, whether Delphos, Ohio, and Lima, Ohio, and whether Baltimore, Maryland, and Catonsville, Maryland, are separate communities for the purpose of section 307(b) of the Communications Act of 1934, as amended.

15. To determine (a) if Delphos and Lima are separate communities, whether Citizens Broadcasting Company and Western Ohio Broadcasting Company will provide service to the community selected as having the greater need for a new facility; and (b) if Baltimore and Catonsville are separate communities, whether Caba Broadcasting Corporation and Catonsville Broadcasting Company will provide service to the community selected as having the greater need for a new facility.

It is further ordered, That the request for enlargement of issues, filed on December 7, 1959, by Edwin R. Fischer in his comments on Caba Broadcasting Corporation's petition to enlarge issues, is denied;

It is further ordered, By the Commission on its own motion, That the order, released on October 28, 1959 (FCC 59-1079), is amended by renumbering Issue 18 as Issue 22; and the issues are enlarged, by adding new Issues 18, 19, 20, and 21. Issues 18 to 21 shall accordingly read as follows:

18. To determine if (a) Baltimore and Catonsville are determined not to be separate communities, or (b) if they are separate communities and if it is determined that Caba Broadcasting Corporation and Catonsville Broadcasting Company would provide service to the community determined to have the greater need for a new facility, which of the proposals of Caba Broadcasting Corporation and Catonsville Broadcasting Company would better serve the public interest in the light of evidence adduced pursuant to the foregoing issues and the record made with respect to significant differences between the applicants as to:

(1) The background and experience of each having a bearing on the applicant's ability to own and operate its proposed station.

(2) The proposal of each of the applicants with respect to the management and operation of the proposed station.

(3) The programming service proposed in each of said applications.

19. To determine whether Catonsville Broadcasting Company is financially qualified to construct and operate its proposed station for a reasonable period of time without operating revenue.

20. To determine, in the event Newport News, Virginia, or Smithfield, Virginia, is preferred under Issue 14, whether Edwin R. Fischer and Tidewater Broadcasting Company will provide service to the community selected as having the greater need for a new facility.

21. To determine, if Edwin R. Fischer and Tidewater Broadcasting Company would provide service to the community determined to have the greater need for a new facility, which of the proposals of these two applicants would better serve the public interest in the light of evidence adduced pursuant to the foregoing issues and the record made with respect to significant differences between the applicants as to:

(1) The background and experience of each having a bearing on the applicant's ability to own and operate its proposed station.

(2) The proposal of each of the applicants with respect to the management and operation of the proposed station.

(3) The programming service proposed in each of the said applications.

22. To determine, in the light of the evidence adduced pursuant to the foregoing issues, which, if any, of the instant applications should be granted.

Released: May 31, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60-5147; Filed, June 6, 1960; 8:49 a.m.]

[3] The application of East Virginia, with which Fischer's application was also mutually exclusive, was dismissed by Order released March 15, 1960 (FCC 60M-483).

[4] For a definition of "service", as here used and as it appears in Issues 20 and 21 hereinafter adopted, see footnote 2, supra.

[Docket No. 12870; FCC 60M-938]

NORTHEAST RADIO, INC. (WCAP)

Order Scheduling Prehearing Conference

In re application of Northeast Radio, Inc. (WCAP), Lowell, Massachusetts, Docket No. 12870, File No. BP-12014; for construction permit.

The Hearing Examiner having under consideration a motion filed May 16, 1960, on behalf of Northeast Radio, Inc., requesting that a prehearing conference be held at 10:00 a.m., on June 13, 1960; and

It appearing that no opposition to the motion has been filed, and that a grant thereof will conduce to the orderly dispatch of the Commission's business; now therefore,

It is ordered, This 31st day of May 1960, that the aforesaid motion is granted, and that a prehearing confer-

ence will be held at 10:00 a.m., on June 13, 1960.

Released: June 1, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60-5148; Filed, June 6, 1960; 8:49 a.m.]

[Docket No. 13538]

R. O'BRIEN & CO., INC.

Order To Show Cause

In the matter of R. O'Brien & Co., Inc., 34 Fish Pier, South Boston, Massachusetts, Docket No. 13538; order to show cause why there should not be revoked the license for radio station WB-5666 aboard the vessel "Thomas Whalen."

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of the above-captioned station;

It appearing that pursuant to § 1.61 of the Commission's rules, written notice of violation of the Commission's rules was served upon the above-named licensee as follows:

Official Notice of Violation was mailed to the licensee on January 20, 1960, alleging that on January 3, 1960, at approximately 2311 GMT, the subject ship radio station was observed operating in violation of § 8.366(b)(2) of the Commission's rules in that said ship station transmitted on the 2738 kc intership radio-channel frequency without first establishing communication on the 2182 kc calling channel frequency;

It further appearing that the above-named licensee received said Official notice but did not make satisfactory reply thereto, whereupon the Commission, by letter dated March 2, 1960, and sent by Certified Mail, Return Receipt Requested (No. 777830), brought this matter to the attention of the licensee and requested that such licensee respond to the Commission's letter within fifteen days from the date of its receipt stating the measures which had been taken, or were being taken, in order to bring the operation of the radio station into compliance with the Commission's Rules, and warning the licensee that his failure to respond to such letter might result in the institution of proceedings for the revocation of the radio station license; and

It further appearing that receipt of the Commission's letter was acknowledged by the signature of the licensee's agent, B. F. Whalen, on March 7, 1960, to a Post Office Department return receipt; and

It further appearing that although more than fifteen days have elapsed since the licensee's receipt of the Commission's letter, no response was made thereto; and

It further appearing that in view of the foregoing, the licensee has repeatedly violated § 1.61 of the Commission's rules;

It is ordered, This 27th day of May 1960, pursuant to section 312 (a) (4) and (c) of the Communications Act of 1934, as amended, and section 0.291(b)(8) of the Commission's Statement of Delegations of Authority, that the said licensee show cause why the license for the above-captioned Radio Station should not be revoked, and appear and give evidence in respect thereto at a hearing[1] to be held at a time and place to be specified by subsequent order; and

It is further ordered, That the Secretary send a copy of this order by Certified Mail—Return Receipt Requested to the said licensee.

Released: June 2, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60-5149; Filed, June 6, 1960; 8:49 a.m.]

[Docket No. 13394; FCC 60M-939]

OIL TRANSPORT CO., INC.

Memorandum Opinion and Order Continuing Hearing

In the matter of Oil Transport Co., Inc., 2837 Tchoupitoulas Street, New Orleans, Louisiana, Docket No. 13394; order to show cause why there should not be revoked the license for radio station WC-5908 aboard the vessel "Susan Houghland."

1. There is under consideration a motion for changes in dates previously prescribed in this proceeding filed with the Commission by the above-named licensee on May 27, 1960,[2] and a statement in response thereto filed by the Chief of the Commission's Safety and Special Radio Services Bureau, the only other party to the proceeding, on the same date.

2. The motion, after reciting that respondent licensee has been directed to give notice by June 2, 1960 whether it desired to proceed by oral or written presentation or by waiver of hearing in accordance with § 1.62 of the Commission's rules, to mail to the Commission copies of all of its exhibits in rebuttal or extenuation by June 9, and to transmit copies of all such exhibits to the Hearing Examiner by June 12th, requests in the alternative either the indefinite postponement of these dates or the establishment of new dates "no sooner than fourteen days after respondent has been served with answers" to certain specified letters it wrote to the Commission. The respondent urges that in one of its letters to the Commission (dated May 10th) it suggested "the possibility of amicable adjustment of all issues herein" and in another (dated May 13th) it suggested adjustments and deletions in the proposed exhibits it received on May 13, 1960, from the Commission. Since its evidence will depend on the "as yet unexpressed attitude of the Commission," respondent having allegedly received no reply to this correspondence, it is not feasible, respondent asserts, to meet the deadlines previously established.

3. The Bureau's rejoinder is that while the Bureau does not object to granting the motion, since it believes "a bona fide error of understanding on the part of the Respondent has occurred," the Bureau had in fact responded to the letters on May 23d, and that the respondent's letters were "in fact extraneous to the feasibility of timely compliance by respondent with the Hearing Examiner's order of May 3, 1960." The question of "amicable adjustment," the Bureau asserts, has been raised and reiterated by the respondent heretofore and it is obviously impossible to reach such an agreement until the facts concerning the alleged violations, as well as any matters in extenuation, are made known by the respondent itself. On the question of the exhibits to which the respondent refers the Bureau points out, in substance, that there was no request by the examiner or the Bureau that the respondent agree to the admissibility thereof in advance of the hearing.[3]

4. It is by no means as clear to the Hearing Examiner as it appears to be to the Bureau that the present motion is the product of a "bona fide error of understanding" on the respondent's part. Respondent's counsel was clearly informed at the prehearing conference in this proceeding, which was held on May 2, 1960—on which occasion the procedures at issue were agreed upon and thereafter established by the Examiner's May 3d order—that the gravamen of the Show Cause Order is whether the respondent has repeatedly violated § 1.61 of the Commission's rules in failing to respond to notices of violation served upon it by the Commission (t. 2, 3). As a matter of fact, this much is quite plain from the Show Cause Order itself, which was released February 17, 1960. Indeed, the main, if not the only, purpose in scheduling a prehearing conference in this case was to ascertain or investigate whether there are any triable issues of fact in this proceeding in the first place, inasmuch as an admission by the respondent that it had received the notices of violation mentioned in the order to show cause might well reduce the entire case to an exploration of the justifications offered by the respondent for its failure to respond to Commission inquiries; and it was believed that the Bureau might be willing to accept such explanations as the respondent might wish to offer without requiring cross-examination of any witnesses. Under § 1.62(f) of the Commission's rules[4] a procedure is delineated which would allow for this and if that procedure could be followed in this case the Hearing Examiner thought that both the licensee concerned and the government could be spared the unnecessary expense of a formal hearing, whether in the field or in Washington, D.C. However, respondent's counsel stated at the prehearing conference that he could not "say that there are no issues of fact" since he did not know what the engineer at the monitoring station would testify to and, while the respondent admits it received the violation notice, "our man says that according to his recollection, he answered" (T. 4). On the basis of this declared uncertainty on respondent's counsel's part the procedure summarized in the order of the Hearing Examiner released May 3d was worked out. The Bureau for its part appears to have complied fully—and prior to the deadline date of May 16th—by supplying respondent's counsel with copies of all exhibits it would offer into evidence at a formal hearing as part of its direct case. Presumably, at least, the respondent must now be aware of what the testimony of the engineer at the monitoring station would be. To show its bona fides in this matter it follows that the respondent must make timely reply in accordance with the agreements to which its own counsel subscribed at the prehearing conference.

5. In view of the fact, however, that the motion papers and the Bureau's response to the respondent's letters may have crossed in the mails and that the Bureau's response, together with the present statement of the Examiner's views, may serve to clear up any lingering uncertainties on the part of respondent or its counsel, the Hearing Examiner will extend the June 2d date, to enable the respondent to decide whether it wants to proceed by a formal hearing or by the procedure delineated by § 1.62 (f) of the Commission's rules, until June 16, 1960.[5] In addition, the respondent will be required to furnish a copy of its own exhibits to the Bureau by no later than June 23, 1960, and at the same time to provide a copy thereof to the Hearing Examiner. If compliance with the June 23d deadline is not obtained respondent's exhibits will be subject to possible exclusion, on objection, at any formal hearing which may be held. The two dates herein prescribed are the dates on which the prescribed information is to be placed in the mails and the postmark will be considered conclusive if any question of timely compliance should arise.

6. Because of the changes in dates to be ordered hereinafter, the possibility that the parties may yet be able to evolve some sort of stipulation that would eliminate the necessity of holding a formal hearing in this case, and the presently crowded condition of the Hearing Examiner's calendar, the hearing which has been scheduled to commence on June 29, 1960, will be postponed to a date to be determined by a further order. In this connection, the Hearing Examiner reiterates his feeling that counsel for the respondent should now proceed promptly to comply with the new deadlines and that counsel for both parties should immediately thereafter leave no stone unturned to stipulate all unessentials out of this case with the goal in mind that the need for a formal, oral-type hearing may be eliminated.

Accordingly, it is ordered, This 31st day of May 1960, that the motion of the respondent for changes in dates prescribed in the Order of the Hearing Examiner released May 3, 1960, is granted to the extent only that respondent is afforded until June 16, 1960, to mail a letter to the Chief of the Commission's Safety and Special Radio Services Bureau stating whether respondent desires to proceed by formal hearing or by the procedure set forth in § 1.62(f) of the Commission's rules, and until June 23, 1960, to mail copies to the Bureau and to the Hearing Examiner of all exhibits the respondent intends to present either in rebuttal of the charges in the order to show cause or in extenuation or mitigation thereof (irrespective of the method of procedure the respondent finally determines to pursue);

It is further ordered, That in all other respects the respondent's motion is denied;

It is further ordered, On the Hearing Examiner's own motion that the hearing in this proceeding now scheduled to commence on June 29, 1960, at the Commission's offices, Washington, D.C., is postponed to a date to be determined in a further order, after the deadline dates prescribed herein have been met.

Released: June 1, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[Docket Nos. 13528-13534; FCC 60M-948]

WASHINGTON BROADCASTING CO. (WOL) ET AL.

Order Scheduling Hearing

In re applications of Washington Broadcasting Company (WOL), Washington, D.C., Docket No. 13528, File No. BP-12145; Delaware Broadcasting Company (WILM), Wilmington, Delaware, Docket No. 13529, File No. BP-12250; WDAD, Inc. (WDAD), Indiana, Pennsylvania, Docket No. 13530, File No. BP-12455; Centre Broadcasters, Inc., (WMAJ), State College, Pennsylvania, Docket No. 13531, File No. BP-12463; Sky-Park Broadcasting Corporation (WFTR), Front Royal, Virginia, Docket No. 13532, File No. BP-12624; Miners Broadcasting Service, Inc. (WPAM), Pottsville, Pennsylvania, Docket No. 13533, File No. BP-13197; Cumberland Valley Broadcasting Corporation (WTBO), Cumberland, Maryland, Docket No. 13534, File No. BP-13471; for construction permits.

It is ordered, This 1st day of June 1960, that Thomas H. Donahue will preside at the hearing in the above-entitled proceeding which is hereby scheduled to commence on September 6, 1960, in Washington, D.C.

Released: June 1, 1960.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

[F.R. Doc. 60-5151; Filed, June 6, 1960; 8:50 a.m.]

[1] Section 1.62 of the Commission's rules provides that a licensee, in order to avail himself of the opportunity to be heard, shall, in person or by his attorney, file with the Commission, within thirty days of the receipt of the order to show cause, a written statement stating that he will appear at the hearing and present evidence on the matter specified in the order. In the event it would not be possible for respondent to appear for hearing in the proceeding if scheduled to be held in Washington, D.C., he should advise the Commission of the reasons for such inability within five days of the receipt of this order. If the licensee fails to file an appearance within the time specified, the right to a hearing shall be deemed to have been waived. Where a hearing is waived, a written statement in mitigation or justification may be submitted within thirty days of the receipt of the order to show cause. If such statement contains, with particularity, factual allegations denying or justifying the facts upon which the show cause order is based, the Hearing Examiner may call upon the submitting party to furnish additional information, and shall request all opposing parties to file an answer to the written statement and/or additional information. The record will then be closed and an initial decision issued on the basis of such procedure. Where a hearing is waived and no written statement has been filed within the thirty days of the receipt of the order to show cause, the allegations of fact contained in the order to show cause will be deemed as correct and the sanctions specified in the order to show cause will be invoked.

[2] The document is dated May 24, 1960, and was sent by ordinary mail on that date, according to the certificate of service, but did not reach the Commission's offices until May 27th.

[3] The Hearing Examiner concurs with the Bureau's version on this. However, the possibility that the parties may yet agree to put in their respective cases entirely in written form, with the right to cross-examination waived, in the event for some reason the respondent does not desire to proceed under § 1.62(f) of the Commission's rules should be explored by the parties concerned. It is believed that a condition precedent to such an arrangement might be the elimination, also by agreement of the parties, of objectionable matter in the respective exhibits or perhaps by the submission of objections in writing. If the parties are able to reach specific and clear-cut agreements on such a procedure including the precise method whereby it could be implemented the Hearing Examiner's approval will be forthcoming.

[4] Section 1.62(f) provides: "Where a hearing is waived, a written statement in mitigation or justification may be submitted within 30 days of the receipt of the order to show cause or within such shorter period of time as may be specified therein. The Hearing Examiner may, if the statement contains, with particularity, factual allegations denying or, in the Hearing Examiner's opinion, justifying the facts upon which the show cause order is based, call upon the submitting party to furnish additional information, and the Hearing Examiner shall request all opposing parties to file an answer to the written statement and/or additional information. The Hearing Examiner will then, unless he orders that further pleadings be filed, close the record and issue, on basis of the procedure delineated in this paragraph, an initial decision."

[5] If the respondent should fail to comply with the direction that it notify the Bureau by June 16th on the matter mentioned in the text this will be construed as a decision by it not to waive a formal hearing in this proceeding. However, the Examiner feels in view of what has transpired to date, that the respondent should make its intentions known in writing either way.

FEDERAL POWER COMMISSION

[Docket No. G–17350 etc.]

PACIFIC GAS TRANSMISSION CO., ET AL.

Notice of Postponement of Oral Argument

JUNE 1, 1960.

Pacific Gas Transmission Company, Docket Nos. G–17350, G–17351 and G–17352; El Paso Natural Gas Company, Docket Nos. G–17902 and G–18033; The Montana Power Company, Docket Nos. G–17370 and G–17371.

Take notice that the oral argument in the above-designated matters now scheduled for June 21, 1960, is hereby postponed to July 6, 1960, at 10:00 a.m., e.d.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D.C.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 60–5124; Filed, June 6, 1960; 8:46 a.m.]

[Docket No. G–19086 etc.]

PEOPLES GULF COAST NATURAL GAS PIPELINE CO., ET AL.

Order Waiving Intermediate Decision Procedure and Fixing Date of Oral Argument

JUNE 1, 1960.

Peoples Gulf Coast Natural Gas Pipeline Company and Natural Gas Pipeline Company of America, Docket No. G–19086; Hassie Hunt Trust, Operator, et al., Docket No. G–19115; H. L. Hunt, Operator, et al., Docket No. G–19116; Hunt Oil Company, Docket No. G–19117; William Herbert Hunt Trust Estate, Operator, Docket No. G–19118; Lamar Hunt Trust Estate, Docket No. G–19119; George W. Graham, Inc., Operator, et al., Docket No. G–19123; Placid Oil Company, Operator, et al., Docket Nos. G–19124, G–19125; Natural Gas Pipeline Company of America, Docket No. G–20202; Iowa Southern Utilities Company, Docket No. G–20313; Missouri Utilities Company, Docket No. G–20335; City of Corning, Iowa, Docket No. G–20591; Iowa-Illinois Gas and Electric Company, Docket No. G–20593; Lateral Gas Pipeline Company, Docket No. GP60–42; Iowa Electric Light and Power Company, Docket No. CP60–43; Iowa Power and Light Company, Docket No. CP60–48.

On May 20, 1960, at the conclusion of the hearing in the above-captioned proceedings, counsel for Peoples Gulf Coast Natural Gas Pipeline Company (Peoples Gulf Coast) and Natural Gas Pipeline Company of America (Natural) moved on the record that the intermediate decision procedure be waived.

By the proposals set forth in their applications both Peoples Gulf Coast and Natural plan to construct substantial pipeline facilities and lay considerable pipe in order to expand the capacities of their respective pipelines.

In support of the motion for waiver, Applicants counsel stated that in order to have the proposed facilities in operation by November 1, 1960, for the next winter heating season, it would be necessary to commence construction no later than July 1, 1960, and to commit for critical materials prior to that time. Counsel further indicated that its gas purchase contracts, involved in these proceedings, are subject to cancellation if a certificate has not issued to and been accepted by Peoples Gulf Coast on July 1, 1960. The producer applicants in these proceedings supported the motion stating that they were suffering severe drainage which makes it necessary for them to immediately begin the sale of gas.

The motion was unopposed by any party to the proceedings. The City of Chicago, Fuels Research Council, Inc., et al., and Staff counsel took no position with respect to the motion.

As we have indicated many times in the past, it is our intention to expedite the handling and disposition of certificate applications in which the expansion of service to areas in need of natural gas is sought. We further recognize the hardship which may be suffered by the independent producers who must await Commission action prior to the delivery of their product into interstate commerce. The Commission considers that good cause has been shown for waiving the intermediate decision procedure and for allowing oral argument before the Commission.

The Commission finds:

(1) The due and timely execution of the Commission's functions imperatively and unavoidably requires the omission of the intermediate decision procedure.

(2) Good cause has been shown for waiving the intermediate decision procedure and for allowing oral argument before the Commission at the time hereinafter fixed.

The Commission orders:

(A) The intermediate decision procedure in the above-entitled proceedings is hereby waived.

(B) The time fixed by the presiding examiner for the filing of briefs is hereby adopted.

(C) Oral argument shall be held before the Commission on July 8, 1960, at 10:00 a.m., e.d.s.t., in a hearing room of the Federal Power Commission, 441 G Street, NW., Washington, D.C. All parties intending to participate in the oral argument shall notify the Secretary of the Commission in writing on or before June 17, 1960, of such intention and of the length of time requested for presentation of their arguments. Parties having common interests should present their arguments by one representative.

By the Commission.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 60–5125; Filed, June 6, 1960; 8:46 a.m.]

TARIFF COMMISSION

[337–D–21]

CERTAIN WOVEN MATS

Notice of Dismissal of Complaint

After preliminary inquiry in accordance with § 203.3 of its rules of practice and procedure (19 CFR 203.3) the United States Tariff Commission, on May 23, 1960, dismissed the complaint filed under section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337) by the Chicago Weaving Corporation of Chicago, Illinois. That complaint alleged unfair methods of competition and unfair acts in the importation and sale in the United States of certain woven mats. (Notice that the complaint had been received and that a preliminary inquiry had been instituted was published in 24 F.R. 10723.)

The preliminary inquiry did not disclose to the Commission a prima facie case of substantial injury to a domestic industry resulting from the importations or sales in question. A substantial decline in sales, by domestic producers, of woven mats of the kind or class to which complainant's patent relates, began before there were any imports of such mats, and their sales of such mats in 1959 were less than in 1958 by a quantity equal to approximately three times the quantity of imports in 1959. Two firms that imported and sold woven mats allegedly made in accordance with the invention disclosed in the patent were named in the complaint, and one additional firm that imported and sold mats of the class or kind to which the patent relates was discovered during the preliminary inquiry. Importations and sales of the mats by these firms were in limited quantities, and the three firms have advised the Commission that they have no intention of engaging hereafter in importations and sales of the allegedly offending mats.

By order of the Commission.

Issued June 2, 1960.

[SEAL] DONN N. BENT,
Secretary.

[F.R. Doc. 60–5129; Filed, June 6, 1960; 8:47 a.m.]

SECURITIES AND EXCHANGE COMMISSION

[File No. 24SF–2639]

AUTO LUBE, INC.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

JUNE 1, 1960.

I. Auto Lube, Inc. (issuer), a Nevada corporation, 8 East Charleston Boulevard, Las Vegas, Nevada, filed with the Commission on August 13, 1959 a notification on Form 1–A and an offering

circular relating to an offering of 250,000 shares of its $1 par value common stock at $1 per share for an aggregate of $250,000 for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3(b) and Regulation A promulgated thereunder.

II. The Commission has reasonable cause to believe that the issuer has violated Rule 261(a)(7) of Regulation A in that the issuer has failed to cooperate with the Commission in connection with its proposed offering to be made hereunder.

III. *It is ordered*, Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for hearing within thirty days after the entry of this order; that within twenty days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission, for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; that if no hearing is requested and none is ordered by the Commission, this order shall become permanent on the thirtieth day after its entry and shall remain in effect unless or until it is modified or vacated by the Commission; and that notice of the time and place for any hearing will be promptly given by the Commission.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F.R. Doc. 60–5115; Filed, June 6, 1960; 8:45 a.m.]

HOUSING AND HOME FINANCE AGENCY

Office of the Administrator

REGIONAL DIRECTOR OF COMMUNITY FACILITIES ACTIVITIES, REGION IV (CHICAGO)

Redelegation of Authority With Respect to Housing for Educational Institutions

The Regional Director of Community Facilities Activities, Region IV (Chicago), with respect to the program of loans for housing for educational institutions authorized under Title IV of the Housing Act of 1950, as amended (64 Stat. 77, as amended, 12 U.S.C. 1749–1749c), is hereby authorized within such Region:

1. To execute loan agreements involving loans for student and/or faculty housing and/or dining facilities, and to amend or modify any such loan agreement;

2. To execute any loan agreement under the program in the amount approved by the Community Facilities Commissioner, and to amend or modify any such loan agreement.

(62 Stat. 1283 (1948), as amended by 64 Stat. 80 (1950), 12 U.S.C. 1701c; Housing and Home Finance Administrator's delegation effective April 9, 1960 (25 F.R. 3090, April 9, 1960, as corrected 25 F.R. 3198, April 13, 1960))

Effective as of the 7th day of June 1960.

[SEAL] JOHN P. MCCOLLUM,
Regional Administrator, Region IV.

[F.R. Doc. 60–5119; Filed, June 6, 1960; 8:46 a.m.]

REGIONAL DIRECTOR OF COMMUNITY FACILITIES ACTIVITIES, REGION IV (CHICAGO)

Redelegation of Authority With Respect to Public Facility Loans

The Regional Director of Community Facilities Activities, Region IV (Chicago), with respect to the public facility loans program authorized under section 202 of Public Law 345, 84th Congress, as amended (69 Stat. 643, as amended, 42 U.S.C. 1492), is hereby authorized within such Region:

1. To enter into contracts with public agencies involving loans for essential public works or facilities in amounts not exceeding $250,000, and to amend or modify any such contract provided that such amendment or modification does not increase the Federal loan beyond $275,000;

2. To enter into contracts with public agencies for loans for such public works or facilities in amounts approved by the Community Facilities Commissioner, and to amend or modify any such contract provided that such amendment or modification does not increase the amount of the Federal loan approved by the Commissioner by more than $25,000 or 10 percent, whichever is the lesser.

(62 Stat. 1283 (1948), as amended by 64 Stat. 80 (1950), 12 U.S.C. 1701c; Housing and Home Finance Administrator's delegation effective April 9, 1960 (25 F.R. 3090, April 9, 1960)

Effective as of the 7th day of June 1960.

[SEAL] JOHN P. MCCOLLUM,
Regional Administrator, Region IV.

[F.R. Doc. 60–5120; Filed, June 6, 1960; 8:46 a.m.]

REGIONAL DIRECTOR OF COMMUNITY FACILITIES ACTIVITIES, REGION IV (CHICAGO)

Redelegation of Authority With Respect to Public Works Planning

The Regional Director of Community Facilities Activities, Region IV (Chicago), with respect to the program of advances for public works planning authorized under section 702 of the Housing Act of 1954 (68 Stat. 641), as amended by section 112 of the Housing Amendments of 1955 (69 Stat. 641), 40 U.S.C. 462, is hereby authorized within such Region:

1. To execute offers to public agencies for planning projects involving advances in amounts not exceeding $30,000 per project, and to amend or modify contracts resulting from the acceptance of such offers provided that such amendments or modifications do not increase the Federal advances for any project beyond $30,000;

2. To execute offers to public agencies in amounts approved by the Community Facilities Commissioner for planning projects involving advances in excess of $30,000, and to amend or modify contracts resulting from the acceptance of such offers, except that any amendment or modification involving a substantial increase in the scope of a project or an increase in the amount of the Federal advance shall not be executed without the prior approval of the Community Facilities Commissioner;

3. To approve the planning data submitted by public agencies in accordance with contracts resulting from acceptance of offers under subparagraphs 1 or 2 above;

4. To authorize payments under any contracts resulting from acceptance of offers under subparagraphs 1 or 2 above.

(62 Stat. 1283 (1948), as amended by 64 Stat. 80 (1950), 12 U.S.C. 1701c; Housing and Home Finance Administrator's delegation effective April 9, 1960 (25 F.R. 3090, April 9, 1960))

Effective as of the 7th day of June 1960.

[SEAL] JOHN P. MCCOLLUM,
Regional Administrator, Region IV.

[F.R. Doc. 60–5121; Filed, June 6, 1960; 8:46 a.m.]

REGIONAL DIRECTOR OF URBAN RENEWAL, REGION IV (CHICAGO)

Redelegation of Authority With Respect to Slum Clearance and Urban Renewal Program, Demonstration Grant Program, and Urban Planning Grant Program

The Regional Director of Urban Renewal, Region IV (Chicago), Housing and Home Finance Agency, is hereby authorized within such Region to exercise all the authority delegated to the Regional Administrator by the Housing and Home Finance Administrator's delegation of authority effective December 23, 1954 (20 F.R. 428, Jan. 19, 1955), as amended, with respect to the slum clearance and urban renewal program authorized under Title I of the Housing Act of 1949, as amended (63 Stat. 414–421, as amended, 42 U.S.C. 1450–1460), and under section 312 of the Housing Act of 1954 (68 Stat. 629, 42 U.S.C. 1450 note), with respect to the demonstration grant program authorized under section 314 of the Housing Act of 1954 (68 Stat. 629, 42 U.S.C. 1452a), and with respect to the urban planning grant program authorized under section 701 of the Housing Act of 1954, as amended (68 Stat. 640, as amended, 40

U.S.C. 461), except those authorities which under paragraph 5 of such delegation may not be redelegated.

This redelegation supersedes the redelegations effective December 19, 1959 (24 F.R. 10315, December 19, 1959) and October 27, 1955 (20 F.R. 8678, November 24, 1955).

(62 Stat. 1283 (1948), as amended by 64 Stat. 80 (1950), 12 U.S.C. 1701c; Housing and Home Finance Administrator's delegation, as amended)

Effective as of the 7th day of June 1960.

[SEAL] JOHN P. MCCOLLUM,
Regional Administrator, Region IV.

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

JUNE 2, 1960..

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 36288: *Cinders—Strawn, Tex., to Memphis, Tenn., and Vicksburg, Miss.* Filed by Southwestern Freight Bureau, Agent (No. B-7815), for interested rail carriers. Rates on coal cinders, in carloads, from Strawn, Tex., to Memphis, Tenn., and Vicksburg, Miss.

Grounds for relief: Market competition.

Tariff: Supplement 60 to Southwestern Freight Bureau tariff I.C.C. 4319.

FSA No. 36289: *Asphalt, returned, from points in Central Territory.* Filed by Traffic Executive Association-Eastern Railroads, Agent (ER No. 2544), for interested rail carriers. Rates on asphalt (asphaltum), natural, by-product, or petroleum, other than paint, stain or varnish, in tank-car loads, from points in New York, Ohio, Pennsylvania and West Virginia, to points in Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, and Virginia.

Grounds for relief: Carrier competition.

Tariff: Supplement 12 to Traffic Executive Association-Eastern Railroads tariff I.C.C. 4780.

FSA No. 36290: *Substituted service—Wabash for Great American Transport, Inc., et al.* Filed by Middlewest Motor Freight Bureau, Agent (No. 244), for interested carriers. Rates on property loaded in highway trailers and transported on railroad flat cars between Kansas City, Mo., on the one hand, and Chicago, Ill., Detroit, Mich., and Buffalo, N.Y., on the other, on traffic originating at or destined to such points or points beyond as described in the application.

Grounds for relief: Motor-truck competition.

Tariff: Supplement 132 to Middlewest Motor Freight Bureau tariff MF-I.C.C. 223.

FSA No. 36291: *Class rates—Sea-Land Service, Inc.* Filed by Sea-Land Service, Inc. (No. 23), for itself and interested motor carriers. Rates on various commodities moving on less-than-truckload class rates loaded in trailers and transported over water, joint motor-water, water-motor and motor-water-motor routes of applicant motor carriers and Sea-Land Service, Inc., between points in Connecticut, Delaware, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island and Vermont, on the one hand, and points in Florida, on the other.

Grounds for relief: Freight forwarder competition.

Tariff: Sea-Land Service, Inc., tariff I.C.C. 2.

FSA No. 36292: *Substituted service—CRI&P for Spector Freight System, Inc.* Filed by Middlewest Motor Freight Bureau, Agent (No. 242), for interested carriers. Rates on property loaded in highway trailers and transported on railroad flat cars between Kansas City (Armourdale), Kans., and Wichita, Kans., on traffic originating at or destined to such points or points beyond as described in the application.

Grounds for relief: Motor-truck competition.

Tariff: Supplement 132 to Middlewest Motor Freight Bureau tariff MF-I.C.C. 223.

FSA No. 36293: *Substituted service—C&NW for Bos Lines, Inc., et al.* Filed by Middlewest Motor Freight Bureau, Agent (No. 245), for interested carriers. Rates on property loaded in highway trailers and transported on railroad flat cars between Chicago, Ill., and Des Moines, Iowa, on traffic originating at or destined to such points or points beyond as described in the application.

Grounds for relief: Motor-truck competition.

Tariff: Supplement 133 to Middlewest Motor Freight Bureau tariff MF-I.C.C. 223.

By the Commission.

Uniform System of Accounts for Public Utilities and Licensees

Title 18—CONSERVATION OF POWER

Chapter I—Federal Power Commission

SUBCHAPTER C—ACCOUNTS, FEDERAL POWER ACT

[Order No. 218; Docket No. R-173]

PART 101—UNIFORM SYSTEM OF ACCOUNTS PRESCRIBED FOR CLASS A AND CLASS B PUBLIC UTILITIES AND LICENSEES

This Commission has under consideration in this proceeding the revision of its Uniform System of Accounts Prescribed for Class A and Class B Public Utilities and Licensees, Part 101, Chapter I, Title 18, Code of Federal Regulations (CFR). That System of Accounts, as revised, is prescribed hereinafter to become effective January 1, 1961.

Part 101, §§ 101.02-1—101.905, corresponds to, and appears at pp. 4-145 of the Commission's pamphlet publication of its Uniform System of Accounts Prescribed for Public Utilities and Licensees Subject to the Provisions of the Federal Power Act, effective January 1, 1937, revised to September 1, 1957,[1] as amended by Order No. 204 issued May 29, 1958 (23 F.R. 4160, June 12, 1958).[2] The System of Accounts, as revised and prescribed hereinafter, follows the numbering system (accounts, instructions, definitions, etc.) used in the Commission's pamphlet edition, referred to above.

Important developments in the electric power industry since the adoption of the Uniform System of Accounts effective January 1, 1937, and the Commission's experience over the intervening 23 years, indicated the need for a revision of the System of Accounts. Accordingly, this proceeding was commenced by Notice of Proposed Rulemaking served upon interested parties, including State and Federal regulatory agencies, and by publication in the FEDERAL REGISTER on May 14, 1959 (24 F.R. 3905). Copies of a proposed revised System of Accounts were served and published as a part of that general notice.

Generally speaking, the revisions of the Commission's System of Accounts, as then proposed, are prescribed hereinafter as a part of the Commission's System of Accounts to become effective January 1, 1961. Additional revisions and modifications of those previously proposed, are detailed hereinafter.

Overall, the more significant changes and improvements to be found in the revised System of Accounts prescribed herein are as follows:

(a) Redefinition of size classifications of electric utilities to permit more simplified accounting requirements for smaller utilities;

(b) Inclusion of accounts for nuclear power plant operations;

(c) Improvement and clarification of account texts and instructions, lessening of special filing requirements for certain subject matters, provision of certain needed new instructions, simplification of account numbering;

(d) Rearrangement of balance sheet and certain other accounts to make them more informative;

(e) Reduction in the number of expense account classifications, mainly, but not entirely, by the discontinuance of segregations of functional accounts as to labor and other expenses;

(f) Expansion of items lists of account texts and clearer description of such items according to their functional nature, to facilitate use and consistency of respective account classifications;

(g) Restatements of the accounting aspects of certain accounting interpretations issued in the past.

None of these changes affect, adversely, the basic principles, generally, of the Commission's existing System of Accounts. They remain undisturbed.

In recommending the form of revised System of Accounts accompanying the Notice of Proposed Rulemaking in this proceeding, the staff of this Commission correlated its activities with the activities of the National Association of Railroad and Utility Commissioners (NARUC) which has recently prepared a revised form of the NARUC's Uniform System of Accounts for Class A and Class B Electric Utilities. This was done to promote continued consistency and uniformity of approach to the common problems with which the two accounting systems are concerned; and to assure a minimum amount of deviation where the two accounting systems do differ. The staff's activities in this regard were undertaken mainly with the Committee on Statistics and Accounts of the NARUC.

Subsequent to the general public notice of rulemaking in this proceeding on May 14, 1959,[3] comments and suggestions were filed by the following classes of respondents:

State Public Service Commissions (Missouri, New York)	2
State Auditor (Washington)	1
Municipality (Colorado Springs)	1
Electric Utilities	29
Utility Service Companies	2
Public Accounting Firms	4
Accounting Professional Societies	2
Legal Firms	2
Total	43

These comments, criticisms, and suggestions covered a wide spectrum. Some respondents objected to any general revision of the effective System of Accounts as unnecessary, expensive, and time consuming. Also, issue was taken with some definitions of basic terms. Other respondents urged basic changes in the accounting requirements for income taxes and other matters contrary to settled Commission policy and decisions. Objections were made to the specificity of the records requirements for depreciation and certain other accounts. Some respondents further suggested that this Commission completely abandon its cost accounting policies in favor of a fair value concept of depreciation.

In reviewing all of the responses, the staff of this Commission again correlated its activities with those of the NARUC Committee on Statistics and Accounts at a conference held December 8, 9, and 10, 1959. Thereafter, the staff presented its recommendations in this matter to the Commission. The staff recommends Commission adoption of the revised System of Accounts as proposed in the Notice of Proposed Rulemaking initiating this proceeding with the following further revisions or modifications (page citations are to Volume 24 of the FEDERAL REGISTER, issue of May 14, 1959):

Page 3907: *Definition 28, "Retirement Units":* Change word "utility" in the next to last line of text to "electric".

Pages 3907-08: *General Instruction 3, Numbering System:* Delete present paragraph C. Substitute the following revision:

C. The numbers prefixed to account titles are to be considered as parts of the titles. Each utility, however, may adopt for its own purposes a different system of account numbers (see also General Instruction 2D) provided that the numbers herein prescribed shall appear in the descriptive headings of the ledger accounts and in the various sources of original entry; however, if a utility uses a different group of account numbers and it is not practicable to show the prescribed account numbers in the various sources of original entry, such reference to the prescribed account numbers may be omitted from the various sources of original entry. Moreover, each utility using different account numbers for its own purposes shall keep readily available a list of such account numbers which it uses and a reconciliation of such account numbers with the account numbers provided herein. It is intended that the utility's records shall be so kept as to permit ready analysis by prescribed accounts (by direct reference to sources of original entry to the extent practicable) and to permit preparation of financial and operating statements directly from such records at the end of each accounting period according to the prescribed accounts.

Pages 3908-09: *Electric Plant Instruction 1. Classification of Electric Plant at Effective Date of System of Accounts:* In paragraph C, third sentence, add word "If" after phrase "contributions in aid of construction". Sentence will then read "• • • provisions for depreciation and amortization and contributions in aid of construction if recorded by the accounting utility • • •."

Page 3910: *Electric Plant Instruction 5. Electric Plant Purchased or Sold:* Delete present paragraph B(4). Substitute the following revision:

(4) The amount of contributions in aid of construction applicable to the property acquired, shall be charged to account 102, Electric Plant Purchased or Sold, and concurrently credited to account 271, Contributions in Aid of Construction, unless otherwise authorized by the Commission.

Page 3911: *Electric Plant Instruction 7. Land and Land Rights:* Change item 3 of Paragraph I to read:

3. Clearing (first cost) the land of brush, trees, and debris, except in the case of account 332, Reservoirs, Dams and Waterways, and Account 351 (Transmission Plant), Clearing Land and Rights of Way.

Page 3912: *Electric Plant Instruction 9, Equipment:* Paragraph B, fourth line change "($50 or less)" to read "(for example, $50 or less)".

Page 3913: *Electric Plant Instruction 11, Work Order and Property Record System Required:* Change paragraph C to read:

C. Each utility shall maintain records in which, for each plant account, the amount of the annual additions and retirements, subsequent to the effective date of this system of accounts, are classified so as to show the number and cost of the various record units or retirement units.

Page 3914: *Operating Expense Instruction 3. Rents:* Delete note following paragraph D.

Page 3915: *Balance Sheet Accounts:* Change title of *Account 151* to *"Fuel Stock."*

Change title of *Account 152* to *"Fuel Stock Expenses Undistributed."*

Change title of *Account 163* to *"Stores Expense Undistributed."*

Change title of reference *11* to *"Accumulated Deferred Income Taxes."*

Change title of *Account 281* to *"Accumulated Deferred Income Taxes—Accelerated Amortization."*

Change title of *Account 282* to *"Accumulated Deferred Income Taxes—Liberalized Depreciation."*

Change title of *Account 283* to *"Accumulated Deferred Income Taxes—Other."*

Page 3917: *Account 124, Other Investments:* Change reference sentence at end of paragraph B to read: "(See also account 210, Gain on Resale or Cancellation of Reacquired Capital Stock, and account 217, Reacquired Capital Stock)".

Page 3918: *Account 142, Customer Accounts Receivable:* Change paragraph B to read: "This account shall be maintained so as to permit ready segregation of the amounts due for merchandising, jobbing, and contract work."

Page 3918: *Account 151, Fuel:* Change title of *Account 151* to *"Fuel Stock."*

Page 3918: *Account 152, Fuel Stock Expenses:* Change title of *Account 152* to *"Fuel Stock Expenses Undistributed."*

Pages 3918-19: *Account 154, Plant Materials and Operating Supplies:* Change first sentence of paragraph A to read: "A. This account shall include the cost of materials purchased primarily for use in the utility business for construction, operation and maintenance purposes."

Page 3919: *Account 154, Plant Materials and Operating Supplies:* Change title reference in last line of note to: "account 163, Stores Expense Undistributed."

Page 3919: *Account 163, Stores Expense:* Change title of *Account 163* to: *"Stores Expense Undistributed."* Change reference to Account 152 in last line of paragraph B to account 152 "Fuel Stock Expenses Undistributed."

Page 3920: *Account 181, Unamortized Debt Discount and Expense:* In paragraph E, twelfth line, place a period after the word "redemption" and delete the following: "after reducing the aggregate of such amounts by an amount equal to the saving in income taxes from the refunding transactions, as to which a special charge of similar amount shall be entered in account 428, Amortization of Debt Discount and Expense."

Page 3921: *Account 213, Discount on Capital Stock;* Page 3922: *Account 214, Capital Stock Expense:* In paragraph B, line 10, of the above accounts, place a period after "account 210" and delete the following: ", and provided, further, that in no event shall debits in excess of accumulated credits from the retirement of stock be charged to account 210."

Page 3922: *Account 217, Reacquired Capital Stock:* In paragraph B, line 15, of the above account, place a period after "210" and delete the following: ", and provided, further, that in no event shall debits in excess of accumulated credits from the retirement of stock be charged to account 210."

Page 3924: *11. Accumulated Deferred Taxes on Income:* Change title to "Accumulated Deferred Income Taxes" and delete the first paragraph. Per Commission Order No. 216, issued October 22, 1959, substitute the following revision:

Public utilities and licensees shall use the accounts provided below for prior accumulations of deferred taxes on income and for additional provisions. A copy of the order or other authorization to practice deferred tax accounting of the state public service commission also having jurisdiction shall be filed with the Commission, or, in the absence of a state public service commission having accounting jurisdiction, the public utility or licensee shall file with this Commission a copy of its plan of accounting for deferred taxes on income. The filing of such order or other authorization, or accounting plan, shall constitute permission for additional accumulations of deferred taxes on income. Account 283 is provided for use of those public utilities and licensees which have obtained permission of the Commission for specific types of deferrals on taxes on income other than with respect to accelerated amortization or liberalized depreciation.

Page 3924: *Account 281, Accumulated Deferred Taxes on Income—Accelerated Amortization:* Change title of *Account 281* to *"Accumulated Deferred Income Taxes—Accelerated Amortization"* and change first sentence of paragraph A to read: "A. This account shall be credited and account 410, Provision for Deferred Income Taxes, shall be • • •."

Change first sentence of paragraph B to read: "B. This account shall be debited and account 411, Income Taxes Deferred in Prior Years—Credit, shall be • • •."

Change fourth and third lines from end of paragraph E to read: "account 411, Income Taxes Deferred in Prior Years—Credit, • • •."

Page 3924: *Account 282, Accumulated Deferred Taxes on Income—Liberalized Depreciation:* Change title of *Account 282* to *"Accumulated Deferred Income Taxes—Liberalized Depreciation"* and change first sentence of paragraph A to read: "A. This account shall be credited and account 410, Provision for Deferred Income Taxes, shall be • • •."

Change first sentence of paragraph B to read: "B. This account shall be debited and account 411, Income Taxes Deferred in Prior Years—Credit, shall be • • •."

Change fourth and third lines from end of paragraph E to read: "count 411, Income Taxes Deferred in Prior Years—Credit, • • •."

Page 3925: *Account 283, Accumulated Deferred Taxes on Income—Other:* Change title of *Account 283* to *"Accumulated Deferred Income Taxes—Other"* and change fourth and fifth lines of paragraph A to read: "• • • and account 410, Provision for Deferred Income Taxes • • •".

Change third and fourth lines of paragraph B to read: "debited and account 411, Income Taxes Deferred in Prior Years—Credit,".

Change fourth and third lines from end of paragraph D to read: "Income Taxes Deferred in Prior Years—Credit, • • •."

Page 3930: *Account 344, Generators:* At end of list of items add the following note: "Note: If prime movers and generators are so integrated that it is not practical to classify them separately, the entire unit may be included in account 344 Generators."

Page 3932: *Account 368, Line Transformers:* Add the following to list of items:

5. Capacitors.
6. Network Protectors.

Page 3934: *Income Accounts:* Change title of *Account 410* to *"Provision for Deferred Income Taxes"*; Change title of *Account 411* to *"Income Taxes Deferred in Prior Years—Credit."*

Page 3935: *Account 410, Provision for Deferred Taxes on Income:* Change title of *Account 410* to *"Provision for Deferred Income Taxes."*

Change reference to Account 411 in third to last line of text of account to read "account 411, Income Taxes Deferred in Prior Years—Credit."

Page 3935: *Account 411, Taxes on Income Deferred in Prior Years—Credit:* Change title of *Account 411* to *"Income Taxes Deferred in Prior Years—Credit."*

Change reference to Account 410 in last line of text of account to read: "Provision for Deferred Income Taxes".

[1] The Uniform System of Accounts effective January 1, 1937, was prescribed by Commission Order No. 42 dated June 16, 1936 (1 F.R. 691, July 1, 1936); and was contained in the codification and reissuance of the Commission's general rules promulgated by Commission Order No. 141, December 11, 1947, effective January 1, 1948 (12 F.R. 8461).

[2] Also see Order No. 216 issued October 22, 1959 (24 F.R. 8790, October 29, 1959).

[3] All parties were given to and including June 19, 1959, later extended to and including September 30, 1959 (24 F.R. 5001, June 19, 1959), to submit data, views, and comments in writing concerning the aforesaid proposed revisions in the Commission's then effective Uniform System of Accounts.

Page 3936: Following the text of *Account 426 Other Income Deductions* add the following note: "Note: The classification of expenses as nonoperating and their inclusion in this account is for accounting purposes. It does not preclude Commission consideration of proof to the contrary for ratemaking or other purposes."

Page 3936: *Account 434, Miscellaneous Credits to Surplus:* After the first full sentence of Account 434, add the following sentence: "If an amount otherwise required by the Uniform System of Accounts to be credited to this account is not significant with respect to net income determination for the year, it may be credited to the appropriate nonoperating income account. (See also General Instruction 7. Delayed Items.)."

Page 3936: *Account 435, Miscellaneous Debits to Surplus:* After the first full sentence of Account 435, add the following sentence: "If an amount otherwise required by the Uniform System of Accounts to be charged to this account is not significant with respect to income determination for the year, it may be charged to the appropriate nonoperating income deduction account. (See also General Instruction 7. Delayed Items.)."

Page 3937: *Account 442, Commercial and Industrial Sales:* Present note becomes "Note B".

Add the following note as Note A to the text of Account 442:

NOTE A: If the utility classifies large commercial and industrial customers and related revenues on a lesser basis than 1000 kilowatts of demand, or segregates industrial customers and related revenues according to a recognized definition of an industrial customer, such classifications are acceptable in lieu of those otherwise required by the text of this account on the basis of 1000 kilowatts of demand.

Page 3938: *Operation and Maintenance Expense Accounts:* Delete "and improvements" from title of Account 529.

Page 3939: *Account 501, Fuel:* Second line of paragraph B, change reference to Account 151, Fuel to "account 151, Fuel Stock."

Sixth and seventh lines of paragraph B, change reference to Account 152, to "account 152, Fuel Stock Expenses Undistributed."

At the end of paragraph B, add the following sentence: "Respective amounts of fuel stock and fuel stock expenses shall be readily available."

Page 3941: *Account 529, Maintenance of Structures and Improvements:* Delete "and Improvements" from title of account.

Page 3942: *Account 547, Fuel:* Change the reference to Account 151, Fuel, in the second line of the text of Account 547 to "account 151, Fuel Stock."

Page 3945: *Account 588, Miscellaneous Distribution Expenses:* Change the reference to Account 163 in last line of item 8 to "account 163, Stores Expense Undistributed."

Page 3947: *Account 913, Advertising Expenses:* Change the last three lines of Note B to read: "and accounts 416 or 915, as appropriate, on the basis of space, time, or other proportional factors."

Page 3948: *Account 924, Property Insurance:* In Note B(1), change reference to Account 163 to: "account 163, Stores Expense Undistributed."

The Commission recognizes that some burden and expense will have to be borne by the accounting and reporting parties affected in connection with the transition from the present to the revised System of Accounts. However, the Commission is of the opinion that the physical burden and monetary cost of the changeover is of minor importance when viewed in relation to the immediate and future benefits to be derived from the revised System of Accounts, as prescribed herein.

For the convenience of all parties concerned, Appendix A set forth below correlates the account titles of the Commission's Uniform System of Accounts Prescribed for Public Utilities and Licensees Subject to the Provisions of the Federal Power Act, effective January 1, 1937, with the revised System of Accounts prescribed herein effective January 1, 1961. Being a schematic presentation only, and of a very general nature, nothing contained therein shall be construed as in any way modifying the general or specific account titles, texts, and instructions of either of the Systems of Accounts.

Also, it should be noted that for the period of time required for the preparation and publication of the revised System of Accounts prescribed herein in pamphlet form, the revised System of Accounts (18 CFR 101.02-1—101.905) will be available in the printed form set forth below as Appendix B.

The Commission finds:

(1) In view of the foregoing, and upon consideration of all relevant matters presented, it is necessary and appropriate for the purposes of the Federal Power Act that the proposed revised System of Accounts as set forth in the Notice of Proposed Rulemaking (24 F.R. 3906–3949) and as modified by the changes set forth above, be adopted and promulgated as this Commission's revised Uniform System of Accounts Prescribed for Public Utilities and Licensees subject to the provisions of the Federal Power Act, effective January 1, 1961, all in the manner as hereinafter provided.

(2) Good cause exists for the adoption of the revised System of Accounts set forth herein to be effective as of January 1, 1961.

The Commission, acting pursuant to the Federal Power Act, as amended, particularly sections 301(a), 304, and 309 (16 U.S.C. 825, 825c, and 825h), orders:

(A) Effective January 1, 1961, §§ 101.02–1 through 101.905, Part 101 of Subchapter C—Accounts, Federal Power Act (18 CFR 101.02–1 through 101.905) are amended to read as provided by Appendix B set forth below.

(B) Effective January 1, 1961, all Class A and Class B Public Utilities and Licensees under the Federal Power Act shall keep their accounts in the manner set forth in the revised System of Accounts appearing in Appendix B set forth below.

(C) The Secretary of the Commission shall cause prompt publication of this order.

Issued: June 7, 1960.

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*
